Crosby & Son use extra advertising space in this issue in the endeavor to tell you some things "you know" and a few you don't know about clothing and shoes.

If farmers want bargains in machinery they should read the advertisement of the Wettlaufer & Ratz M'fg Co. and call at their warehouses and see for themselves.

Graduating exercises are to be held Friday evening of this week at the Deford school, of which Guy Woolman is teacher. Two or three young people from here are going to assist in the program.

Owing to the fact that Mrs. W. D. Schooley will soon leave to reside in Saginaw, Miss Matty Spurgeon has been elected as Commander of the L. O. T. M., and was duly installed on Tuesday evening. Mrs. Schooley has held the position for several years and filled it most creditably.

A special train passed over the P. O. & N. R. R. on Wednesday of last week for the purpose of conveying capitalists from Detroit to Caseville, to look over the ground for the proposed sugar refinery at that place. Nothing definite is given out but it has been hinted that the acreage is considerably short.

Edward H. Frye, the monologist who appeared in the Opera House last Saturday evening, under the auspices of the Citizen's Lecture Course, was not greeted by a very large house, but nevertheless gave a very pleasing entertainment. We are sorry that we did not know sooner the ability of the entertainer and the auspices he came under.

The regular review of Cass City Ten' No. 74, K. O. T. M., held last Friday evening, was unusually well attended, visitors also being present from Mattheias Tent at Ellington, and Deford Tent. The following were initiated in to the mysteries of the order: John W. Eno, Burt L. Hunt, Leo R. Dingman and Ross Palmteer. Refreshments were served and the evening pronounced most enjoyable.

Glen Marr is ill with typhoid fever. Mrs. Helen Wixson, of Caro, visited friends here last week.

Clarence Morner and Claud Riley, of Caro, visited friends here last week.

Miss Mae Watrous, of Caro, was the guest of Miss Vida Patterson last week.

Harry Truesdale and Miss Florence Watrous, of Caro, were in town on Sunday.

Several new 'phones have been placed here recently. Further comment next week.

Rev. L. Brumm, of Capac, has been appointed to this charge of the Evangelical Church. Rev. O. Y. Schneider, of the Verona charge, is transferred to Lenox.

W. E. Ratz returned on Saturday evening from his trip to New York state, where he was quite successful in securing orders for their famous pea harvesters.

The M. E. Ladies Aid Society tea at the home of Mrs. I. A. Fritz on Wednesday evening of last week was unusually well attended, the proceeds amounting to \$11.

Miss Carrie Robinson, as Record Keeper of the L. O. T. M., received last week a draft for \$1,000 in favor of Frank Herr, as payment of his claim on the certificate of his deceased wife.

Miss Nellie M. Westland, who has so successfully taught the Grammar Department of our schools for nearly three years, has accepted a position in the St. Clair schools, as teacher of the eighth grade.

The Senior Class of our High School last week elected the following officers: historian, Herbert Karr; poet, Edythe Marshall; prophet, Mary Somerville; orator, John Morrison; valedictorian, Jennie McClellan.

Will Miller is home from Chicago where he recently underwent a successful operation for the straightening of his limb. His many friends are much pleased to see such an improvement in his appearance.

The wife of Wm. S. Wallace, Sr., died Monday morning, after a lingering illness of about three months. The funeral was held Wednesday forenoon, Rev. C. H. Morgan conducting the services at the M. E. church.

John Bordt has leased his forty acres northeast of town to J. H. Striffler for a period of five years, and on Friday morning left for Fremont, Ohio, accompanied by his son and daughter, where they will make their home.

Mr. and Mrs. A. D. Gillies were at Caro on Saturday attending the official meeting of the Tuscola County Maccabee Association. It was decided to hold the next picnic at Caro in August or September. Sir Knight Gillies is president of the association.

A commendable effort is being made by Postmaster Wickware to secure the placing a mail clerk on the morning and evening trains, which will mean the carrying of local mails on those trains. Petitions are being largely signed all along the line of the P. O. & N. R. R.

Why not have the best when it is your health, and perhaps your life that is at stake? Our citizens are consulting Dr. Morrison, of Detroit, in large numbers, but the Doctor gives two days to Cass City so that he has ample time for all. Many have been cured of diseases supposed to be incurable. Why don't you consult him? It costs you nothing—at Gordon's Tavern, Cass City, Friday and Saturday, April 20th and 21st.

Will J. McCulley, who has been a member of the Enterprise staff for the past year and a half, and right hand man for nine months, left Monday morning to accept a position in the printing department of the Richmond & Backus Co., Detroit. We are sorry to lose Will, as he has ever been painstaking and careful to please, but congratulate him upon securing so good a position with so substantial a firm. His place in this establishment will be filled by Samuel LaFond, of Bad Axe, who comes with the best of recommendations, backed up by years of experience.

FAIRWEATHER BROS.

Deford.

On the morning of April 8th, 1901, William McCracken, Sr., died at his home in Novesta township, after a lingering illness, of unknown cause. Deceased was born in County Down, Ireland, May 29th, 1843, and came to America with his parents in childhood.

Two years of boyhood were spent in New York City, when the family came to Michigan, settling in the township of Royal Oak, Oakland county, where William, to the extent of his youthful ability, assisted his father to clear up forty acres of wild land. In August, 1862, the subject of our sketch enlisted in Co. D, 22nd Michigan Volunteer Infantry, which regiment left Pontiac for the seat of war the following 4th day of September, bearing the trials of a soldier's life till his regiment was discharged at Detroit at the close of the war in 1865.

On Oct. 13th, 1866, he was married to Frances E. Burgess, at St. Joseph, Mich., and soon after moved to his old home in Oakland county, where he lived until 1873, when he came to this locality, but in a few months went to Montclair county, and from thence to Iona county, where he lived till the fall of 1884, when he returned to Novesta and settled on the farm where he died. Twelve children were the fruit of his married life, two of whom died in infancy. Ten remain and were present at his death, except Anna, the oldest daughter, who resides at Victor, Colorado. He leaves a widow besides the large family of children mentioned, also a sister, Mrs. Jane Truesdale, of Troy, Oakland county, Mich., and a brother, John, of Deford, in this county.

Wm. McCracken will be remembered as a man of plain speech, a good neighbor and honest with his fellow men. He was a member of Milo Warner Post, G. A. R., of Cass City, and also of Cass City Lodge, No. 214, L. O. L., the members of both orders taking part in the funeral on Wednesday, which was conducted by A. A. McKenzie. Rev. Torbet, of Cass City, officiated in place of Rev. John McCready, prevented by poor health. The remains were laid to rest in Elkland cemetery, the ritual service of the Orange Institution being participated in by thirty-one members of the order. The funeral was the largest ever seen in this locality.

JOHN MCCRACKEN, Brother of deceased.

The United Kingdom has colonies and possessions whose area is equal to more than twenty-seven times her own size.

Among the ruins of Pompeii have been found chafing dishes of exquisite workmanship, which give undisputed proof of their use in the city, which contained villas of many wealthy Romans.

Northern Indiana farmers are experimenting in the domestication of quail. During the winter the birds are fed regularly, and on some of the farms they have become so tame that they roost with the barnyard fowls.

The watchfulness of members of congress is not always rewarded in a way anticipated. Two resolutions recently offered in the house requested the president to return to that body two private pension bills. A member of inquiring mind wished to know what was the defect in the bills. "There is no defect," was the reply. "The beneficiaries are dead."

Quite as remarkable as the wrecking of the Pacific Mail line steamship Rio de Janeiro just at the entrance to San Francisco harbor on Feb. 22 is the total disappearance of the wreck. Divers have explored large areas of the bottom of the sea at the point where the wreck is supposed to have occurred, but not the slightest trace of the ill-fated ship has been found.

One of the most prominent Baptist preachers in the vicinity of New York has made it a practice in all his pastorates to write his resignation within a week of his entrance upon a new field, sign, seal and deliver it to the proper official with the remark: "There, now! Never ask me for my resignation. Whenever you want me to go just break open the envelope write in a date to the document and offer it to the congregation."

The recent appointment of General Chaffee as major-general is the first instance of a private attaining that rank in the regular army of the United States. "I should know that Chaffee was not educated at West Point," commented a military visitor at the review of American troops in China last summer. "He is so unused to full-dress uniform that he has his hair over the wrong shoulder." It was true, and all the more honor to him for his success.

A recent importation of foreigners against which no one will be likely to take exceptions, except, perhaps, the natives they have come to destroy, has been graciously received and welcomed by the quarantine officer of the California State Board of Agriculture at San Francisco. The newcomers are a consignment of tachina flies from the grasshopper tribe—their wholesale exterminators, in fact, wherever found. They came as cold storage passengers and with them came a large number of ladybugs, for service in clearing the orchards of red scale—the pest of fruit growers. The flies are to be released in May. They will make short work of the grasshoppers, which swarm at that time.

A college professor, reading Lord Rayleigh's "Theory of Sound" a few years ago, became particularly interested in that part which relates to the vibration of cords. He began to study the waves which travel along a cord when one end is shaken, and then to experiment with cords loaded at intervals with weights, and vibrating in air or water. What could he hope to learn from such investigations? What practical results were to be looked for? He could not tell, nor could any one else have told. Yet he studied the subject for five years. The facts he discovered make it probable that telephone communication may take place under three thousand miles of sea, and the professor has sold his invention for half a million dollars.

The German army has furnished another terrible illustration of what dueling means. An infantry captain present at an officer's dinner took offense at the innocent but rough horse-play of an army surgeon, and struck him. He then retired to his quarters. In a little while two officers representing the surgeon appeared with a challenge. Before they could deliver it a brother of the surgeon entered and shot the captain dead. His excuse was that he sacrificed himself to save his brother, the surgeon, who had a wife and children, and could hardly hope to survive a duel with the offended captain, a noted pistol-shot. Such an incident must come home with peculiar force to the emperor, who has frankly commended dueling in the army as the proper way for a soldier to protect his "honor."

The name of Sing Sing, so far as the New York village is concerned, is no more, having been changed to Ossining. Manufacturers brought about this change, the impression having gone abroad that all goods turned out in the village were prison-made. The village showed a decrease in the last census of 1,313 in population, though neighboring places showed uniform increase. Sing Sing was incorporated in 1813 and the prison was erected eleven years later. The prison is still within the village boundary lines.

ELECTIONS IN MANY STATES

Results at Polls Monday and Tuesday.

LOCAL ISSUES INFLUENCE.

Carter H. Harrison Elected Mayor of Chicago, Rolla Wells Mayor of St. Louis—Prohibition the Issue in Many Kansas Towns—Election Figures.

Carter H. Harrison was elected mayor of Chicago for the third time Tuesday by a plurality over Elbridge Haney of 23,257. The total vote was 296,596 out of a registry of 400,166. The number of voters who failed to go to the polls was 103,570, or over one-quarter of the electorate of the city. All of the remaining candidates on the Democratic city ticket were elected.

Carter H. Harrison, along with Mayor Harrison. In fact, Charles F. Gunther, the candidate for city treasurer, ran better than the mayor, his plurality being 23,376, or 5,119 more than that given the head of the ticket. Of the two other candidates both William Loeffler, elected city clerk, and Andrew Ryan, city attorney, suffered severely, and although they have safe pluralities, they are not large ones. Oscar Hebel, the Republican candidate for city attorney, heads his ticket.

Rolla Wells at St. Louis. Wells won at St. Louis. Rolla Wells, the Democratic nominee for world's fair mayor of St. Louis, has been elected and with him the entire city ticket. Based upon the returns it would seem that Wells' plurality is about 10,000.

Wisconsin Vote Scatter. Joshua E. Dodge was elected to the Supreme court Tuesday in Wisconsin without opposition.

About one-half the usual vote was cast in the judicial election at Milwaukee. The only real contest was between Paul D. Carpenter and Judge Emil Wallber for county judge. Judge Wallber is an old wheel-horse Republican whom tradition has said for twenty years it was impossible to beat for office. Young Mr. Carpenter turned the trick and defeated him by a narrow margin. According to the incomplete returns from the city the vote stands Carpenter 12,143, and Wallber 11,958. The Democrats elected two of the five aldermen in the new wards of Milwaukee, and will contest the election of one alderman on the ground there is no vacancy. The Democrats retain control of the council.

Returns of results in other towns are as follows: Racine—Michael Higgins (Dem.) elected mayor by 500 majority. Republicans elect the rest of the city ticket and a majority of the council.

Oshkosh—Democrats won by about 250 majority, a gain of 159. John Mulva was elected mayor. Ten Democrats out of fourteen aldermen were returned and the council will be Democratic.

Marquette—Democrats elected Campbell for mayor by 400 majority, and also city treasurer and assessor.

Waukesha—The entire Republican city ticket was re-elected by an increased majority. The Republicans gained three aldermen. County Judge M. S. Griswold and Municipal Judge D. S. Tular were re-elected.

Fond du Lac—A Democratic mayor and a majority of the aldermen were elected. A Republican county judge was elected. The council is Democratic.

Grantsburg—The temperance people won election and license was voted down by big majority. All the old tickets were re-elected.

Janesville—Republicans won by an increased majority, Mayor Richardson being elected by 420 majority, a gain of 304. The Republicans elected three out of five aldermen.

Madison—Professor Storm Bull, nephew of the great violinist Ole Bull, was elected mayor on the Democratic ticket. The complexion of the council is unchanged.

Appleton—Democrats win by a small majority; no political change occurred. Wausau—Democrats elected all the

Large Army to Be Maintained. The army in the Philippines will be retained 50,000 strong for months to come. The establishment of a civil government will not relieve the war department of the necessity of keeping strong garrisons at the more important places. The army now numbers about 74,000 soldiers, 50,000 being in the Philippines or on the way there, 5,000 in Cuba, 1,000 in Alaska, 650 in Porto Rico and about 11,000 in the United States.

city officers and sixteen out of eighteen members of the council. This is a gain of mayor, two justices, assessors and twelve councilmen. Eau Claire—William Rowe (Rep.) was re-elected mayor by a small majority.

The Contest in Kansas. Municipal elections were held in all the larger cities of Kansas Tuesday. Party lines were not drawn generally and in numerous cities the issue was prohibition, Mrs. Nation's crusade having aroused the temperance people to demand enforcement of the law against liquor-selling.

In Topeka the republican ticket, headed by J. W. F. Hughes for mayor and supported by the temperance people, was elected. In Atchison J. W. Orr (dem.) was elected mayor by 500 majority. At Leavenworth the entire democratic ticket was elected by a majority of 500. The democrats carried Galena, electing J. V. McGann mayor. Concordia—H. J. Messall, for mayor, and remainder of anti-temperance ticket was elected by 300 majority.

Elections in Michigan. Advances from all points in Michigan indicate a light vote last Monday. The Republicans elected Justice Montgomery of the supreme bench and Fletcher and Carey, candidates for university regents. Out side of Detroit local issues figured largely in the elections. St. Joseph bonded itself to build a \$10,000 viaduct. Kalamazoo defeated propositions to build a new city hall, improve the river at that point and build a central fire station. Jackson voted down a proposition to purchase a park and to appropriate \$75,000 to build a city hall. Owosso elected a prohibitionist for mayor, although he was the only member of his party to get in. Cadillac voted to appropriate \$10,000 to be distributed as bonuses to manufacturers and decided to build a \$6,000 city hall. Republicans were successful in Ann Arbor, Benton Harbor, Big Rapids, Greenville, Kalamazoo, St. Joseph, Traverse City, Grand Rapids and Sault Ste. Marie, while the democrats carried Albion, Bay City, Ionia, Manistee, Niles, Menominee, Marshall, Lansing and Jackson. The citizens' ticket was elected in Gladstone.

Municipal Elections in Minnesota. Municipal elections were held in the various cities of the third class throughout Minnesota Tuesday. Party lines were not drawn, and in many cases there was but one ticket in the field. Wherever the issue was "license" or "no license" the former has been successful. In several instances the question of issuing bonds for various local improvements was voted upon. At New Ulm a proposition to issue \$30,000 bonds for a municipal electric light plant carried, while at Le Sueur a proposed tax levy for a public library was defeated overwhelmingly.

Republicans Win at Denver, Colo. Leading democrats at Denver, Colo., concede the election of the body of the republican ticket by 4,000 to 5,000 plurality, while claiming the mayoralty in doubt. The council will be mixed.

New Mayor of Evansville, Ind. The official count of the municipal election at Evansville, Ind., shows Cover (rep.), elected over Boehne (dem.), for mayor, by 82 plurality.

Home for Feeble Minded to Small. Notwithstanding the recent opening at Lapeer of a cottage which accommodates 100 epileptics, the pressure for admission to the state home for the feeble minded and epileptic is very great and it promises to continue for years to come unless the scope of the institution is greatly enlarged. The management expects to be able to admit 150 more patients on July 1, when the population of the institution will be 525. A majority of the patients to be admitted this summer will be children.

Court Held in Jail. Joseph Moran, charged with criminally assaulting Mrs. Mary Kress at her home in Blackham township a few weeks ago, and who was threatened with lynching by a concourse of excited citizens the other day, was not taken through the streets of Jackson to make his final appearance in court. The court went to the jail and held Moran for trial in the circuit court in bail of \$5,000. The accused was serving a 20-year sentence for assaulting an old woman when pardoned by Gov. Pingree.

Tomborial Artists. U. of M. underclassmen are still playing Samson and Delilah with each other, and shaven pates spring up like mushrooms. It's thusly: A certain student who is duly or unduly prominent in his class is picked out by the opposite faction. A committee of half a dozen, selected or self-appointed, wait upon him at his room and inform him of his fate. Shavers are produced and—the victim visits the barber chair at an early hour the following morning.

Death of a Noted Fenian. James Stephens, the well-known Fenian leader of the 1860s movement, died at his home at Sutton, Ireland, Friday, in the pretty cottage which was presented to him by his countrymen in May, 1892, a few months after his return to Ireland from his twenty-five years of exile. However soberly written the history of James Stephens would surpass in interest most romances. He organized what was described as "the greatest and most widespread secret society of modern days," and he risked his life and lost his liberty in the effort to free Ireland by force of arms and establish an Irish republic. While organizing the Fenians in Ireland he covered on foot in the year 1859 no fewer than 3,500 miles and met thousands of people, in not one of whom he made a mistake. Mr. Stephens was 72 years old, but until within a few months he was possessed of unimpaired physical and mental powers.

Panic Caused by a Runaway. A maddened runaway horse attached to a wagon created a panic on Washington street, Indianapolis, Friday afternoon, at the hour when that thoroughfare is the most congested. Mrs. H. C. Patterson of Irvington, wife of a minister, and the infant child of Mrs. O. F. Shaw of 221 New York street, in a baby carriage pushed by Mrs. Patterson, were struck and it is feared that both will die.

To Build Indiana Railroad. The Fort Wayne and Wabash Railway company, to construct and operate a single or double track standard gauge railroad from Fort Wayne to Wabash, forty-two miles, has been incorporated, with a capital stock of \$50,000. The directors are Aaron N. Dukes, Richard A. Edwards, William B. McClintic, G. Stewart, John F. Unger, Elbert J. Baker and Elbert W. Shirk. The line is to be built along the Wabash and Erie canal as far as practicable.

REPUBLICANS VICTORIOUS

So Far as the State Ticket is Concerned.

PLURALITY IS OVER 67,000.

Indications are That Both Constitutional Amendments Have Been Lost—The Van Buren County Seat Fight Resulted in a Victory for Paw Paw.

Republicans Win in the State. Voters throughout the state were apathetic on the 1st and their indifference resulted in a light vote being polled. Justice Robert M. Montgomery is re-elected to the supreme court bench by a plurality of more than 67,000. The Republican candidates for regents of the University of Michigan, Frank W. Fletcher, of Alpena, and Henry W. Carey, of Manistee, will not run far behind the head of the ticket. From meager reports received it is more than probable that the legislative salary and the Bay county court amendments to the constitution were defeated. For the state ticket Wayne county went overwhelmingly Republican. Montgomery, for supreme court justice, and Fletcher and Carey for regents of the university, carried every ward in the city. Probably the most interesting fight in the state was over the Van Buren county seat. According to returns Paw Paw wins a victory by 590 votes. More votes were cast in this county than at a presidential election.

Exciting Election at Jerome. The people of Jerome have voted against the consolidation of their four school districts, and the result of the vote has been sent to Lansing in the hope that the consolidation act will be repealed before the legislature adjourns. The act was slipped through the legislature early in the session, and when its provisions became generally known a howl of indignation arose. A most bitter feeling was engendered, and finally as a compromise a local election was ordered at which the widest excitement prevailed. Women were taken from sick beds and carried to the polls to vote. Men called each other liars and other harsh names, and several fist fights were prevented with difficulty.

Cracked the Safe and Got \$40. The safe in the office of the Holly Milling Co. was looted early on the morning of Mar. 31. The robbers secured only \$40. Charles H. S. Poole, secretary, took \$500 home with him the night before. The thieves were evidently after this, the pressure for admission to the state home for the feeble minded and epileptic is very great and it promises to continue for years to come unless the scope of the institution is greatly enlarged.

Notwithstanding the recent opening at Lapeer of a cottage which accommodates 100 epileptics, the pressure for admission to the state home for the feeble minded and epileptic is very great and it promises to continue for years to come unless the scope of the institution is greatly enlarged. The management expects to be able to admit 150 more patients on July 1, when the population of the institution will be 525. A majority of the patients to be admitted this summer will be children.

Court Held in Jail. Joseph Moran, charged with criminally assaulting Mrs. Mary Kress at her home in Blackham township a few weeks ago, and who was threatened with lynching by a concourse of excited citizens the other day, was not taken through the streets of Jackson to make his final appearance in court. The court went to the jail and held Moran for trial in the circuit court in bail of \$5,000. The accused was serving a 20-year sentence for assaulting an old woman when pardoned by Gov. Pingree.

Tomborial Artists. U. of M. underclassmen are still playing Samson and Delilah with each other, and shaven pates spring up like mushrooms. It's thusly: A certain student who is duly or unduly prominent in his class is picked out by the opposite faction. A committee of half a dozen, selected or self-appointed, wait upon him at his room and inform him of his fate. Shavers are produced and—the victim visits the barber chair at an early hour the following morning.

Death of a Noted Fenian. James Stephens, the well-known Fenian leader of the 1860s movement, died at his home at Sutton, Ireland, Friday, in the pretty cottage which was presented to him by his countrymen in May, 1892, a few months after his return to Ireland from his twenty-five years of exile. However soberly written the history of James Stephens would surpass in interest most romances. He organized what was described as "the greatest and most widespread secret society of modern days," and he risked his life and lost his liberty in the effort to free Ireland by force of arms and establish an Irish republic. While organizing the Fenians in Ireland he covered on foot in the year 1859 no fewer than 3,500 miles and met thousands of people, in not one of whom he made a mistake. Mr. Stephens was 72 years old, but until within a few months he was possessed of unimpaired physical and mental powers.

Panic Caused by a Runaway. A maddened runaway horse attached to a wagon created a panic on Washington street, Indianapolis, Friday afternoon, at the hour when that thoroughfare is the most congested. Mrs. H. C. Patterson of Irvington, wife of a minister, and the infant child of Mrs. O. F. Shaw of 221 New York street, in a baby carriage pushed by Mrs. Patterson, were struck and it is feared that both will die.

To Build Indiana Railroad. The Fort Wayne and Wabash Railway company, to construct and operate a single or double track standard gauge railroad from Fort Wayne to Wabash, forty-two miles, has been incorporated, with a capital stock of \$50,000. The directors are Aaron N. Dukes, Richard A. Edwards, William B. McClintic, G. Stewart, John F. Unger, Elbert J. Baker and Elbert W. Shirk. The line is to be built along the Wabash and Erie canal as far as practicable.

MINOR MICHIGAN MATTERS.

Prospecting for coal in the neighborhood of Bancroft will begin this week. Howell will bond for \$15,000 for the purpose of buying an electric light plant.

A total of 130,000 trout fry has been planted in Muskegon county streams this spring. There is a smallpox scare at Hart and the schools will be closed to await developments.

The town of Selkirk has nine cases of smallpox, and many people have been exposed. There are 2,880 Knights of the Maccabees and 1,600 Ladies of the Maccabees in Oakland county.

About \$25,000 worth of property belonging to Page & Co. at Ionia, was destroyed by fire on Mar. 31. Belding is to have a new factory which will give employment to 500 hands. It is to be a silk fabric mill.

On the 26th, at Iron Mountain, Aug. Johnson, a Swede, was attacked and stabbed by five men. He cannot live. Mrs. Christine Grady, of Grand Rapids, aged 40 years, committed suicide by hanging herself while temporarily deranged.

Chas. Quick, editor of the Lowell Journal, has sold his paper to the Rev. Mr. Davidson, pastor of the Baptist church there. The Sovereign Consistory of Scottish Rite Masons will meet in Bay City, April 8. There is a class of nearly 100 to be initiated.

Jas. A. Moore, member of the city council of Traverse City, committed suicide by shooting himself on the 1st. He was despondent. Earl Gifford, of Branch county, recently sheared 25 sheep, the fleeces of which weighed 305 pounds, an average of 12 1/2 pounds each.

Thos. Flaven, a contractor of Port Huron, has mysteriously disappeared, and his friends are at a loss to account for his whereabouts. The village council of Centreville on the 2d passed an ordinance prohibiting the sale of intoxicating liquors in this village after May 1.

M. A. Jennings, proprietor of the Highland fruit farm, near Benton Harbor, will destroy 600 plum trees affected with San Jose scale. The strike of the painters and decorators at Saginaw ended on the 2d. The demands of the men for an 8-hour day at 25 cents an hour was granted.

It is said that the Pere Marquette railroad is planning to reduce fares to a flat two-cent per mile rate, and cut out mileage and all privileged transportation. Cornelius DeBryam, of Kalamazoo, is dead as the result of the cat bite received a week ago. DeBryam was one of the pioneer celery growers, and was over 8 years of age.

Notwithstanding the presence of the legislature and its blighting influence on the surplus, Michigan started business on the 1st with a balance of \$2,789,731 25 in its strong box. Samuel B. Collins, member of the state house of representatives from Jackson in 1899-1900, died in that city on the 1st. For years he had been one of Jackson's foremost citizens.

The members of the Carpenters and Joiners' union at Port Huron, 150 in all, are on a strike. They want 25 cents an hour, with nine hours' work and pay day on Saturday night. Ora Passage and M. A. Patterson were seriously injured by the explosion of a 15-horse power gas engine at the Hamilton rife factory at Plymouth on the 1st. It is thought both men will recover.

Reliable information comes from Grand Rapids that Cashier Chas. A. Johnson stated that if he went to prison for stealing from the First National bank, he would drag a number of others with him. Two rural mail routes have been established at Holland, one along the south side of Black lake and south to Laketown and Filmore in Allegan county; the second running east and north through townships Holland and Olive.

John Vosberg, aged 13, of Grand was sent home from school with a note from his teacher, reprimanding him. His mother insisted on showing the note to his father, and while she was about the lad shot himself, dying on the 2nd.

Surveyors will soon be at work laying out the line between Romeo and Inlay City for an extension of the electric railway from the former place. It is probable that the line will go through to Marlette, 22 miles north of Inlay City.

The National bank of Ionia, in process of formation to succeed the private bank of Webber Bros., will be in operation by May 1st. The capital stock will be \$50,000, and a strong feature is the fact that the stock will be limited to \$3,000 to any one man.

Wheat in branch county is in excellent condition, having safely passed through the winter frosts. The heavy covering of snow during February and the first half of March completely protected it, and if the Hessian fly does not injure it this spring it will yield well. Farmers report most wheat fields in good condition.

David Henning, the millionaire who died at Battle Creek on the 1st, was known one time as the "Chicago Apple King." Henning learned the cooper trade in Detroit and started a shop in Ann Arbor. Finding himself overstocked with unsalable barrels he filled them with apples and the sale of these started him on the road to wealth.

Fires were started under the Toledo & Menro railway power house boilers on the 1st, and part of the machinery was tested. A trial trip over the line will be made this week, and the formal opening of the road, it is expected, will occur the latter part of the week.

EARTHQUAKE IN TURKEY.

Interrupted the Sultan's Reception and Caused a Panic.

COUNT TOLSTOI IS BANISHED.

Escorted to the Frontier by Gen darmes—The Attempted Assassination of Privy Councillor the Cause—What the War in the Philippines Cost the U. S.

Earthquake in Turkey. An earthquake was felt in the palace at Constantinople on Mar. 31, at the moment of the Bairan ceremony when the high officials were passing before the sultan's throne. A panic resulted, particularly among the diplomatists in the gallery many of whom immediately left the palace. The band ceased playing and the musicians rushed to the doors. Pieces of plaster fell from the ceiling and portions of the chandeliers were broken, adding to the general alarm. The sultan arose from his throne and took a few steps apparently intending to leave the chamber, but he preserved great calmness and presence of mind which had a good effect. After a moment's hesitation his majesty reentered himself upon the throne and ordered the ceremony to proceed. A reception followed, without further incident.

Tolstoi Has Been Banished. It was rumored several days ago, but generally disbelieved, that Count Leo Tolstoi had been banished from Russia because of the attempted assassination of Privy Councillor Pobiedonostzeff, chief procurator of the Holy Synod, who was shot at early in the morning of March 22 while sitting in his study, the attempt being attributed to a desire for revenge growing out of the excommunication of Count Tolstoi. Owing to the indefiniteness of the rumor it was disregarded at St. Petersburg. A private letter from a trustworthy source in Vilna, capital of the government of that name, says Count Tolstoi was reported to have passed through Vilna, March 26, being escorted to the frontier by two gen darmes.

Aginaldo Becomes a Citizen. The war department received information from Gen. McArthur on the 2d that Aginaldo has taken the oath of allegiance to the U. S. under the terms of amnesty offered by Gen. McArthur by direction of the president. The dispatch conveying this information contained much more than was given to the public. The portion withheld related to the future disposition of Aginaldo, and made suggestions as to what the late chief of the insurrection might accomplish. No official statement could be obtained as to what finally would be done with the prisoner. Gen. McArthur has hopes that a great deal may be accomplished through Aginaldo.

Will Sue the State. The U. S. attorney-general is about to commence suit against the state of Michigan for the amount of tolls collected by the state officials on the Sault canal for the period between the time when the canal was accepted by the general government and the time when control actually passed to the U. S. The amount claimed is about \$90,000, and suit would have begun before but for the plea of Attorney-General Oren for time to make his reply to the demand. That reply has not been made, and the suit is likely to be commenced as soon as the papers can be prepared.

Prime Minister Balfour. Lord Salisbury's improvement is marked. Contradictions of the report of his falling health and impending retirement are emphasized, but those closest in touch with public affairs are not misled. The prime minister's intense eagerness to be relieved from official cares is known, and his retirement from public life is much nearer than is generally believed. One forecast may be repeated with confidence, as it is obtained from high authority. This is the speedy appointment of Mr. Balfour as prime minister, with elevation to the peerage.

Cost of the War. Here's the cost to the United States of the war in the Philippines, from official sources, in lives and money: Army officers killed or died from wounds 54; Army privates killed or died from wounds 83; Navy officers killed or died from wounds 2; Enlisted men in army killed or died from wounds 16; Deaths from disease, officers 4; Deaths from disease, enlisted men 2,077.

Total cost in lives 3,028; Expenditures on account of military and naval operations 173,550,000; Paid Spain under treaty of Paris 20,000,000; Paid Spain for Cagayan and Sibutu 100,000; Interest on war loan since June 30, '99 8,423,000; Philippine commissioners and miscellaneous 500,000; Total cost in money 202,573,000.

Lively Time in Denver. J. T. Diber was instantly killed and A. T. Rice fatally wounded by Max Rogers in a fight at Overland Park, Denver, on the 2nd, said to have started in a dispute over politics. Rogers used a Winchester rife. The men were all horsemen connected with the Overland Park track.

It is believed the stranger who committed suicide at Jackson recently, by taking carbolic acid, lived at Akron, O. Photographs of him have been sent there.

The supreme court convened on the 2nd at Lansing for the April term, all the justices being present. Chief Justice Montgomery presiding. Opinions were handed down in the following cases: Affirmed—McGrath vs. Myers. Brown vs. Snider, Peerless Manufacturing Co. vs. Bagley estate. Reversed—Village of Red Jacket vs. Pinton, Carpenter, Wright vs. Hubbard, County of Wayne vs. Reynolds.

Mayfield township is gaining notoriety for election recounts. Last year the republicans demanded one, claiming fraud of some sort, and this year the democrats have ordered a recount on the same grounds. They claim that the ballots thrown out on account of distinguishing marks should have been counted according to the intention of the voter. Some of the voters in that neck of the woods turned their ballots over and wrote their names on the back. The recount will take place immediately.

DOINGS OF THE 41ST SESSION. Gov. The school is for the benefit of the members of the faculty and those residing near the college who have children of school age, and the members of the college faculty pay three-fifths of the taxes as assessed in the district. A hearing will be given on the bill. The persons opposing the formation of the district have commenced legal proceedings to dissolve the district, and a warm fight is expected.

Woman's Home

everything. It is a universal dictum that American women age very early and soon lose their youth. Like many accepted opinions, it is erroneous, for American women are bien conservee in every sense of the word long after they have passed middle age, and they retain their appearance of youth in a wonderful manner. Wherever you encounter them they are agreeable, easy and willing to meet any indication of friendliness in a most hearty manner.—St. Petersburg Novosti.

THE BUSINESS WOMAN.
The question of woman and matrimony with an admixture of business seems to me to be individual and a matter of personal taste upon the part of the man in the case. If he wants a clinging vine, some one who will put him on a pedestal and be grateful that fate has given her a god (usually tin), let him keep away from the business woman. But if he wants a thimble who will take him for what he is—and in spite of it—who will be a wife and not a mistress, let him choose a woman who has been out in the business world and gained a broader view of the world and of man. Such a one will take a man for just what he is worth—no foolish ideals about his greatness; just a plain man—good fellow who won't bluff, because he knows he cannot; and they will be happy because neither expects too much, says the New York Telegram.

I do not believe that business ever unfitted any woman for matrimony who was originally fitted for it. She can go through a business career without any loss of any kind. It rests entirely with her, and she can gain much which will be of incalculable advantage, in making her life happy and that of the man who gets her. Business broadens her and gives her common sense—I should be polite and say, more common sense.

TALMAGE'S SERMON.

RESURRECTION OF THE REDEEMER SUNDAY'S SUBJECT

"Now is Christ risen from the Dead and Become the First Fruits of Them That Sleep"—First Book Corinthians, Chapter Twenty-Five, Twentieth Verse

(Copyright, 1901, by Louis Klopfch, N. Y.)
Washington, April 7.—The great Christian festival celebrated in all the churches is the theme of Dr. Talmage's discourse, I Corinthians xv, 20, "Now is Christ risen from the dead and become the first fruits of them that slept."

On this glorious Easter morning, amid the music and the flowers, I give you Christian salutation. This morning, Russian meeting Russian on the streets of St. Petersburg hails him with the salutation, "Christ is risen!" and is answered by his friend in salutation, "He is risen indeed!" In some parts of England and Ireland to this very day there is the superstition that on Easter morning the sun dances in the heavens. And well may we forgive such a superstition, which illustrates the fact that the natural world seems to sympathize with the spiritual.

Hail, Easter morning! Flowers! Flowers! All of them a-voice, all of them a-tongue, all of them full of speech to-day. I bend over one of the lilies, and I hear it say, "Consider the lilies of the field, how they grow; they toil not, neither do they spin, yet Solomon in all his glory was not arrayed like one of these." I bend over a rose and it seems to whisper, "I am the rose of Sharon." And then I stand and listen. From all sides there comes and the chorus of flowers, saying, "If God so clothed the grass of the field which to-day is and to-morrow is cast into the oven, shall he not much more clothe you, O ye of little faith?"

Flowers! Flowers! Braid them into the bride's hair. Flowers! Flowers! Strew them over the graves of the dead, sweet prophecy of the resurrection. Flowers! Flowers! Twist them into a garland for my Lord Jesus on Easter morning, and "Glory be to the Father, and to the Son, and to the Holy Ghost as it was in the beginning, is now and ever shall be." The women came to the Saviour's tomb, and they dropped spices all around the tomb, and those spices were the seed that began to grow, and from them came all the flowers of this Easter morn. The two angels robed in white took hold of the stone at the Saviour's tomb, and they hurled it with such force down the hill that it crushed in the door of the world's sepulchre and the stark and the dead must come forth.

The World's Great Conquerors.

If I should come to you and ask you for the names of the great conquerors of the world you would say Alexander, Caesar, Philip, Napoleon I. Ah, you have forgotten to mention the name of a greater conqueror than all these—a cruel, a ghastly conqueror. He rode on a black horse across Waterloo and Chalons and A-lanta, the bloody hoofs crushing the hearts of nations. It is the conqueror Death. He carries a black flag and he takes no prisoners. He digs a trench across the hemispheres and fills it with the carcasses of nations. Fifty times would the world have been depopulated had not God kept making new generations. Fifty times the world would have swung lifeless through the air—no man on the mountain, no man on the sea, an abandoned ship plowing through immensity. Again and again has he done this work with all generations. He is a monarch as well as a conqueror; his palace a sepulcher; his fountains the falling tears of a world. Blessed be God! In the light of this Easter morning I see the prophecy that his scepter shall be broken, and his palace shall be demolished. The hour is coming when all who are in their graves shall come forth. Christ risen, we shall rise. Jesus, "the first fruits of them that slept."

Now, around this doctrine of the resurrection there are a great many mysteries. You come to me and say, If the bodies of the dead are to be raised, how is this and how is that? And you ask me a thousand questions I am incompetent to answer. But there are a great many things you believe that you are not able to explain. You would be a very foolish man to say, "I don't believe anything I can't understand." Why, putting down one kind of flower seed, comes there up this flower of this color? Why, putting down another flower seed, comes there up a flower of this color? One flower white, another flower yellow, another flower crimson. Why the difference when the seeds look to be very much alike—are very much alike? Explain these things. Explain that wart on the finger. Explain the difference why the oak leaf is different from the leaf of the hickory. Tell me how the Lord Almighty can turn the chariot of his omnipotence on a rose leaf. You ask me questions about the resurrection I cannot answer. I will ask you a thousand questions about everyday life you cannot answer.

Significance of a Great Sound.

You have noticed, I suppose, in reading the story of the resurrection that almost every account of the Bible gives the idea that the characteristic of that day will be a great sound. I do not know that it will be very loud, but I know it will be very penetrating. In the mausoleum where silence has reigned a thousand years that voice must penetrate. In the coral cave of the deep that voice must penetrate. Millions of spirits will come through the gates of eternity, and they will come to the tombs of the earth, and they will cry, "Give us back our bod-

ies; we gave them to you in corruption; surrender them now in incorruption." Hundreds of spirits hovering about the fields of Gettysburg, for there the bodies are buried. A hundred thousand spirits coming to Greenwood, for there the bodies are buried, waiting for the reunion of body and soul.

All along the sea route from New York to Liverpool, at every few miles where a steamer went down, departed spirits coming back, hovering over the wave. There is where the City of Boston perished. Found at last. There is where the President perished. Steamer found at last. There is where the Central America went down. Spirits hovering, hundreds of spirits, hovering waiting for the reunion of body and soul. Out on the prairie a spirit alighted. There is where a traveler died in the snow. Crash goes Westminster abbey, and the poets and the orators come forth; wonderful mingling of good and bad. Crash go the pyramids of Egypt, and the monarchs come forth.

The Immortal Body.

"But," you say, "if this doctrine of the resurrection is true, as prefigured by this Easter morning, can you tell us something about the resurrected body?" I can. There are mysteries about that, but I shall tell you three or four things in regard to the resurrected body that are beyond guessing and beyond mistake.

In the first place, I remark in regard to your resurrected body, it will be a glorious body. The body we have now is a mere skeleton of what it would have been if sin had not marred and defaced it. Take the most exquisite statue that was ever made by an artist and chip it here and chip it there with a chisel and batter and bruise it here and there and then stand it out in the storms of a hundred years, and the beauty would be gone. Well, the human body has been chipped and battered and bruised and damaged with the storms of thousands of years—the physical defects of other generations coming down from generation to generation, we inheriting the infelicities of past generations. But in the morning of the resurrection the body will be adorned and beautified according to the original model. And there is no such difference between a gymnast and an emaciated wretch in a lazaretto as there will be a difference between our bodies as they are now and our resurrected forms. There you will see the perfect eye after the waters of death have washed out the stains of tears and study. There you will see the perfect hand after the knots of toil have been untied from the knuckles. There you will see the form erect and elastic after the burdens have gone off the shoulder—the very life of God in the body. In this world the most impressive thing, the most expressive thing, is the human face, but that face is veiled with the griefs of a thousand years. But in the resurrection morn that veil will be taken away from the face, and the noonday sun is dull and dim and stupid compared with the outflaming glories of the countenances of the saved. When those faces of the righteous, those resurrected faces, turn toward the gate, or look up toward the throne, it will be like the dawning of a new morning on the bosom of everlasting day. O glorious, resurrected body!

But I remark, also, in regard to that body which you are to get in the resurrection, it will be an important body. These bodies are wasting away. Somebody has said that as soon as we begin to live we begin to die. Unless we keep putting the fuel into the furnace the furnace dies out. The blood vessels are canals taking the breadstuffs to all parts of the system. We must be reconstructed hour by hour, day by day. Sickness and death are at all times trying to get their pry under the tenement or to push us out of the embankment of the grave. But, blessed be God, in the resurrection we will get a body immortal. No malaria in the air, no cough, no neuralgic twinge, no rheumatic pang, no fluttering of the heart, no shortness of breath, no ambivalence, no dispensary, no hospital, no invalid's chair, no spectacles to improve the dim vision, but health, immortal health! O ye who have aches and pains indescribable this morning, ye who are never well, ye who are lacerated with physical distress, let me tell you of the resurrected body, free from all disease. Immortal! Immortal!

In Heaven.

Plenty of occupation in heaven. I suppose Broadway, New York, in the busiest season of the year at noonday is not so busy as heaven is all the time. Grand projects of mercy for other worlds. Victories to be celebrated. The downfall of despotism on earth to be announced. Great songs to be learned and sung. Great expeditions on which God shall send forth his children. Plenty to do, but no fatigue. If you are seated under the trees of life, it will not be to rest, but to talk over with some old comrade old times—the battles where you fought shoulder to shoulder.

Sometimes in this world we feel we would like to have such a body as that. There is so much work to be done for Christ, there are so many tears to be wiped away, there are so many burdens to life, there is so much to be achieved for Christ, we sometimes wish that from the first of January to the last of December we could toil on without stopping to sleep or to take any recreation or to rest or even to take food—that we could toil right on without stopping a moment in our work of commending Christ and heaven to all the people. But we all get tired. It is a characteristic of the human body in this condition; we must get tired. Is it not a glorious thought

that we are going to have a body that will never grow weary? O glorious resurrection day! Gladly will I fling aside this poor body of sin and fling it into the tomb if at thy bidding I shall have a body that never wearies. That is a splendid resurrection hymn that we have all sung:

So Jesus slept. God's dying Son
Passed through the grave and blessed
the bed.
Rest here, blest saint, till from his
throne
The morning breaks to pierce the
shade.

The Risen Savior.

O blessed resurrection! Speak out, sweet flowers, beautiful flowers! While you tell of a risen Christ tell of the righteous who shall rise. May God fill you this morning with anticipation!

I heard of a father and son who among others were shipwrecked at sea. The father and son climbed into the rigging. The father held on, but the son after awhile lost his hold on the rigging and was dashed down. The father supposed he had gone hopelessly under the wave. The next day the father was brought ashore from the rigging in an exhausted state and laid on a bed in a fisherman's hut, and after many hours had passed he came to consciousness and saw lying beside him on the same bed his boy. Oh, my friends, what a glorious thing it will be if we wake up at last to find our loved ones beside us, coming up from the same plot in the graveyard, coming up in the same morning light—the father and son alive forever, all the loved ones alive forever, never more to weep, never more to part, never more to die.

May the God of peace that brought again from the dead our Lord Jesus, that great Shepherd of the sheep, through the blood of the everlasting covenant make you perfect in every good work, to do his will, and let the associations of this morning transport our thoughts to the grander assemblage before the throne. The one hundred and forty and four thousand and the "great multitude that no man can number," some of our best friends among them, we after awhile to join the multitude. Glorious anticipation!

Blest are the saints beloved of God; Washed are their robes in Jesus' blood. Brighter than angels, lo, they shine, Their wondrous splendor and sublime.

My soul anticipates the day,
Would stretch her wings and soar
away
To aid the song, the palm to bear,
And bow, the chief of sinners, there.

CURIOUS IDEAS OF CHINESE.

Belief That Men Should Not Rob Animals of Milk.

A curious system of philosophy regarding eating is evolved by some persons, but the queerest "anti-pronouncement in some time is that published in the Loa Chow Herald regarding the use by man of animal's milk. The erudite Chinese who edit this journal of the twentieth century publish a proclamation which says: "Man should not rob animals of their own proper food; and, of all animals, the cow is the most valuable to man. The sellers of milk blacken their souls for gain; but those who drink milk do so in the foolish belief that it is good for them. Before taking any medicine, we should carefully investigate its properties, and who does so with milk? Milk is the natural food for babes and of young animals; but when adults drink it, do they not thereby endanger the life of the suckling calf, and arouse bitter resentment in the souls of the calf and its mother? Beasts have not the power of speech, and so cannot tell men that by drinking cow's milk they will become like quadrupeds. If men must have a strengthening draught, there are a thousand better things than milk, so why slect that? Besides, the term of life is foreordained and it cannot be prolonged by drinking milk. Everyone who reads this warning is especially enjoined to abstain from milk in the future. Children whose parents will not allow them to drink milk will not be stunted in growth, but they will have their lives prolonged and be immune in epidemics. So it is proclaimed in the Hall of Good Counsel."

Fun and Pathos of Sing Sing.

Of all griefs, probably these are the hardest to bear which, while real and serious to the people who suffer them, are of a kind to excite unsympathetic smiles in everybody else. So it is no wonder that the residents of Sing Sing are eager to change the picturesque name of their village. They know perfectly well that to the outside world Sing Sing means a big prison, and they have wearied of the jests to which the identification of the title and the institution exposes them. So they want to say that they live in Ossining instead of in Sing Sing, and the desire is natural enough. But, unfortunately, it is also funny and possibly it would be wiser to endure their present ill than to bring their sensitiveness to general attention by taking action for relief. And how long would it be, moreover, before the prison association fastened itself upon Ossining? What Sing Sing wants to do is to grow so big that it can win recognition for itself. There is no other cure for its woes, but a cultivation of a philosophical indifference will do much to mitigate them, as it will for most other woes.—New York Times.

It is the opinion of experts that the opening of China and Siberia will disclose large deposits of gold and that Asia after a while will furnish a large part of the world's supply.

IS A MAN OF GENIUS.

THE REMARKABLE CAREER OF PROF. PUPIN.

Inventor of Ocean Telephone Was a Poor Slav Emigrant Boy—Came to This Country from Austria in 1874—A Remarkable Career.

Prof. Pupin, of Columbia university, who has recently gained international reputation as the inventor of the ocean telephone, is the hero of a remarkable career. Few men even in America have risen so quickly and in the face of so many obstacles as he. The man who has announced the greatest invention since the telephone, came to New York in 1874, almost penniless and without a word of English. In 26 years he has become an authority on electricity, a professor in Columbia university and disposes of a single one of his inventions for half a million dollars.

Of Slavonian Descent.

Prof. Michael I. Pupin is a Slav, coming from the military frontier of Austria. Like all young men of his country, he was sent to a military school. He ran away in 1874 and came to this country. The appearance of New York struck the young Slav with terror. He was unable to ask for a direction, and every business seemed barred against him. He was without a single friend.

Like most immigrants in his position, he went to the country and began work on a farm as a day laborer. Within a month he had learned to speak enough English to warrant his returning to New York. His teacher was the daughter of the farmer who employed him. The lessons followed the long day's work and lasted usually till past midnight.

The next five years saw a severe struggle. Pupin worked at anything

PROF. MICHAEL I. PUPIN.

and everything which would yield an honest living. Then he invented a holder for newspapers, and this little venture netted him several thousands in profit. He immediately prepared himself for Columbia, entering the college in 1879. He graduated in 1883.

Self Supporting Student.

While still supporting himself, Pupin went to the University of Cambridge, Eng., and afterward to Berlin, where he specialized under the famous Prof. Helmholtz. He took his degree of Ph. D. with honor in Berlin, returned to New York and was appointed an instructor at Columbia in 1889. When the electrical engineering department was started at Columbia he was placed in charge.

Prof. Pupin has been favorably known for years as a practical electrician. He has patented electrical inventions which promise wide utility. The importance of his latest discovery cannot be overestimated. It enables telephone circuits to be connected over ordinary telegraph wires, thus disposing of the necessity of using copper wires. It will be possible to telegraph and telephone over the same wire at the same time. With the new system we will soon talk across the continent. Within five years, says Prof. Pupin, we will talk by telephone from New York to London.

Eggs That Will Keep.

It is said that a carload of evaporated eggs, valued at \$14,000, was lately shipped from Springfield, Mass., for San Francisco, where it will be placed on a steamer bound for Cape Nome. The eggs were put in one-pound screwtop cans, sixty cans in a case, and will answer any purpose in the culinary line except boiling. The moisture being taken out of them when they are prepared leaves nothing to boil. The largest egg-evaporating establishment in the world is located at Springfield. The process of evaporating is done with hot air, and it takes eight hours to thoroughly evaporate an egg. About four dozen are equal to a pound of the preparation. The Springfield factory employs seventy-five people, and its capacity for consuming eggs is about 400 cases a day. The goods are shipped to all foreign countries, and in Europe especially there is a big demand, as the English government has placed the preparation on the hospital supply list. The Klondike country is a heavy user of this brand of evaporated eggs, as no matter what the price of the fresh fruit may be or how scarce it is, the evaporated egg retains its old price, and is always on hand and ready for business.—New England Grocer.

Only Mosquitoes Carry Yellow Fever.

The commission consisting of Drs. Reed, Carroll and Agramonte, which has been investigating yellow fever near Havana, has arrived at two important conclusions, first, that the specific cause of the disease is unknown, and second, that it can be carried only by mosquitoes. Consequently the disinfection of clothing and houses is useless. It has been settled furthermore, that yellow fever is not due to dirt. It may occur in the cleanest localities.

Sees a Lesson in Fiction.

Two hundred young women braved yesterday's rain to attend the Sunday afternoon "open door" session of the Chicago Woman's Club in the Fine Arts building, says the Chicago Tribune. Miss Clara Dixon presided and introduced the speakers. Carl Lambert gave several selections on the violin, accompanied by Mrs. Favorite. Miss Bingham sang. Martha Foote Crow of Northwestern University delivered the principal address, speaking on "The Studies of Modern Fiction." "The inspiration for a higher life in this world come from literature," she said. "I think I understand the terrible loneliness of the working girl in a great city. She may have friends, but then there is a feeling of being alone when she looks about her." "I think I see a gradual movement among men and women to extend a helping hand to all these brothers and sisters who may need it. There is none of us but who needs some kind of help. The literature of today I believe more truly reflects the conditions, hopes and ambitions of the people than the literature of any other age."

A WOMAN'S HEART.

Mrs. Samuel G. Dyer Tells a Harrowing Tale of Suffering.

M'Carron, Mich., April 8.—(Special.)—Mrs. Samuel G. Dyer of this place has given the following interesting letter for publication:

"For years I suffered intense pain in the region of the heart. I doctored with the best physicians. Some of them would relieve me for a short time, but the pain always returned. My heart was so bad that I would have to sit up in bed for hours, to get relief. I would lie awake almost all night. I am 62 years of age, and no one can understand how much I suffered with this Heart Trouble.

"About a year ago I heard of Dodd's Kidney Pills, and commenced to use them. From the first my condition improved. The pain in my heart gradually grew less, and my general health much better, and now I can say positively that I am entirely cured. I can sleep all night, and enjoy almost perfect health. I thank God for the cure that has come to me through the use of Dodd's Kidney Pills.

"I have thought long over the matter of giving this letter for publication, and am doing so now without any solicitation whatever, and simply because I feel it to be my duty to express the profound gratitude I feel for my recovery, and to let others who may be suffering as I was know how they may find a cure. I know that nothing else but Dodd's Kidney Pills cured me, because I have taken no other medicine for over a year. I feel better now than I have for many years, and it is all due to the use of Dodd's Kidney Pills."

Mrs. Dyer's case and its cure has attracted a great deal of attention, and her letter is a splendid tribute to the curative properties of Dodd's Kidney Pills.

THE HOME GOLD CURE.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liqueur Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "Home Gold Cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Wives Cure your husbands!! Children cure Your Father!! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many have been cured and made temperate men by having the "CURE" administered by their friends in coffee or tea and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. C337 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia, Pa. All correspondence strictly confidential.

A WORTHY SUCCESSOR.

"Something New Under The Sun."

All doctors have tried to cure CATARRH by the use of powders, acid gases inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes so that their mucus have aimed to cure while pastes and ointment cannot reach the disease. An old and experienced practitioner who has for many years cured a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which was faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES" the GUARANTEED CATARRH CURE and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use. "SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. I cure all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is an ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if accompanied each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. (337) EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street Philadelphia.

Standard books are ever welcome when they come to us in forms and binding representing all the embellishments of the arts of bookmaking. Such a book is (War in Africa) published by The Dominion Company Co., Chicago a copy of which has just come to our desk. The contents are well arranged the illustrations are fine, the print is clear and neat and the binding is superb. The Dominion Company is forging ahead as the leading western publishing house making a specialty of low subscription books. Having salespeople in nearly every nook of the country, the company enjoys a large and growing trade. As this company has a suo-voc reputation for liberality towards its agents and fair treatment of them, an agency in this community for the above book, or some other published by this company, would be a source of considerable profit to the one fortunate enough to secure it. Interested readers should write the company for full particulars.

Running sores, ulcers, boils, pimples, etc., quickly cured by Banner Salve, the most healing salve in the world. A sure cure for piles. T. H. Fritz, Cass City; F. A. Francis, Kingstons.

CELESTINE KING'S NATURE'S CURE

Headache for Forty Years.

For forty years I suffered from sick headaches. A year ago I began using Celestine King's Nature's Cure. The result was gratifying and surprising, my headaches leaving at once. The headaches used to return every seventh day, but thanks to Celestine King, I have had but one headache in the last eleven months. I know that what cured me will help others.—Mrs. John D. Van Keuren, Sangerites, N. Y. Celestine King cures Constipation, Nerve, Stomach, Liver and Kidney diseases.

Rescue.

John Atkinson is on the sick list at the present time.

Mrs. Phillip Myers has decided to leave this vicinity and will make Lapeer her home in the future.

The township board met last Saturday and appointed John Ashmore Health Officer for the coming year.

This year the dog warden will be a memory of the past, and the worthless curs will be allowed to live just the same as a dog of some use.

Large numbers of wild geese are flying northward this spring and several have been captured. They fly very low and seem to light in the cornfields to feed. They are heavy and fat and seem to come from a country where they were well fed.

John Myers had a serious misfortune last week. For some reason he got mixed up with a large sheep of the male persuasion and as a result he went off of the bridge of a barn to the ground, a distance of about ten feet. For the next four weeks he will wear a badly sprained ankle. While he suffers considerable pain he feels grateful that the ferocious animal did not devour him while it had him prostrate.

Our Bro. Scribe, of Beaulieu, has developed an unkind turn of mind. We would like a little insight into the "game" to which he refers. We fully believe it was a Republican victory. Only the supervisor was lost on the ticket. You should not live so far from the centre of culture and information, then you would not get such wild ideas. You have been dreaming Brother, of your youthful days and in some manner got the little game mixed up with your dreams.

Martin McKenzie and Frank Carroll, commander and record keeper of Beaulieu Tent, 854, K. O. T. M. called on Mrs. Patrick Laudrigan last Monday and gave her a check for nine hundred and fifty dollars, the full payment of her claim against the order. Fifty dollars was paid previous to his death, as he was unable to work and the money that was rightfully his was paid without one word of protest. These prompt payments are the cause of the wonderful growth of the order—at present very near one hundred thousand in Michigan,—more men in this state than in the whole regular army in the United States.

He Kept his leg.

Twelve years ago T. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty nail. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctor urged amputation, "but," he writes, "I used one bottle of Electric Bitters and my leg was saved, and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. T. H. Fritz, Cass City; F. A. Francis, Kingstons, will guarantee satisfaction or refund money. Only 50 cents.

The Best Remedy for Rheumatism.

QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. L. Parson & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this treatment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale at Bond's Drug Store.

SEED DEPARTMENT

Why send away for seeds

and take chances on getting poor stuff and not true to name when you can get the very best northern grown Seeds at home and at just as low a price as possible. And if you will stop and think, men who have reliable seeds don't have to sell at half price.

Seeds Sold Cheap

Are Cheap Seeds.

Nine times out of ten; has been my experience for the past twenty years that I have handled Seeds. While I have nearly everything for the garden and field the best I can buy, you must understand I can't warrant anything as I buy of the most Reliable Houses and they will not warrant them to me.

Our fellow scribe of Caro Journal found fault with Scribe Chronicle last week. Deal gently brothers! Let us all try and only write such news as is of interest to the many readers who are at a distance as well as the ones in the same neighborhood. Do not be personal if it can be avoided.

"Stick to it"

Geo. L. Heard, of High Tower, Georgia, writes: "Eckema broke out on my baby covering his entire body. Under treatment of our family physician he got worse as he could not sleep for the burning and itching. We used a box of 'Banner Salve' on him and by the time it was gone he was well. The Doctor seeing it was curing him said, 'Stick to it for it is doing him more good than anything I have done for him.'" T. H. Fritz, Cass City; F. A. Francis, Kingston.

A Testimonial From old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. Wandering Willie's Reflections.

(The black, silver-specked trading horse.)

I once thought myself a respectable horse, And thought I was owned for better or worse; But I met with abuse and then understood My owner begrudged me even my food.

My limbs were yet sound, my hair it was sleek, My habits were neither to bite nor to kick; I wasn't a balky, I'm not of that type.

But something went wrong with my gullet or pipe; It made a harsh noise, 'twas a queer kind of air, For which most hearing folks seemed not to care.

But, my owner decided to jockey me off, Though I thought at the time 'twas a little bit rough;

And while I could then object with a "neigh," There are few who heed much what horses may say.

'Twas roughish enough, and the wrong I could feel, I had horse sense enough to see into the deal,—

So, on, like a bogus dollar I sped; Sometimes twice a day changed my board and my bed.

And felt like a tramp, of self-respect shorn, And sometimes had wished I had never been born.

But a silver lining may be in each cloud; So I, of one thing still remain proud:

When I got a good chance my ailment I showed, And roused true suspicions on rascals who crowded;

So, I, in this way human nature could see, And felt myself often superior to man.

The whole lie, the half lie, just as it would suit, Showed men could stoop lower at times than the brute;

Or, not telling, itself, showed the wish to deceive, Which no cloak and no art can of falsehood relieve.

But exceptions there were to this, I confess, Some told all my faults and left nothing to guess;

They talked it all over, the pro and the con. Just as I, if left to myself, would have done.

They made a square deal, with naught to mislead, And, I said, that's like horses that's honest indeed;

For vice I feel scorn; while the virtues of some I speak for themselves and can't remain dumb.

'Twas over 'tis strange how the liars will croak, About honest men their own doings to cloak.

I've known vice in horses, and much that's amiss, But never depravedly witnessed like this:

How low! I'd rather be spavined and curbed, Whipped hard; yea, be with an earthquake disturbed;

With every joint dislocated from its case, And every bone thrown out of its place,

And every sinew and every twisted round, Until hardly the horse anywhere could be found,

Than be a low liar and following the trade Of the class who out of such refuse are made.

—JAS. MAC ANTIUR.

The stomach controls the situation, Those who are hearty and strong are those who can eat and digest plenty of food.
