COUNCIL PROCEEDINGS.

Council Rooms, Cass City, Mich., June 20, 1904.

Regular meeting of the Council called to order by the President. The following trustees were present: Campbell, Bigelow, Striffler and Clark.

Minutes of previous meeting read and approved.

The following bills were read and referred to committee on claims and accounts:

- Henry Herr, labor..... \$ 15 75
- MacKinnon Mfg. Co., smokestack..... 112 00
- General Electric Co., inv. 6-4..... 2 41
- W. J. Moore, phone, powerhouse..... 5 00
- J. T. Wing & Co., inv. 6-11..... 4 83
- Adze Gettrey, labor..... 15 50
- Gid. Koster labor..... 11 25
- G. G. Matzen, salary and sundries..... 15 20
- W. N. Straube, salary 5-13 to 6-13..... 87 50
- W. N. Straube, money paid to Harp..... 7 06
- Nike Seeger, labor..... 10 50
- Emil Floto, labor..... 7 50
- Chas. Wright, labor..... 6 00
- William Wilson, labor..... 33 00
- W. J. Moore, extension bell..... 5 00

Committee reported favorably on all bills as read excepting bill of W. J. Moore for extension bell.

Moved by Striffler supported by Clark that the report of the committee be accepted and orders drawn for the several amounts. Carried.

The president then called Mr. Campbell to take the chair.

Liquor dealer's bond of Anthony Doerr was read with Anthony Doerr as principal and Amel Frutchey and Archibald A. Hitchcock as sureties in the sum of \$5,000.

Moved by Clark supported by Striffler that the bond be accepted. Yeas—Clark, Striffler. Nays—Bigelow.

Application of A. A. P. McDowell for water supply in Etherinton building was read. Moved by Striffler supported by Bigelow that application be granted.

Committee on streets and sidewalks recommended that instead of cement walk being built on north side of Main street between Seeger and Oak streets, cement walk be built on south side of Main street from Seeger street to Oak street.

Moved by Bigelow supported by Striffler that the recommendation of the committee be adopted. Carried.

Moved by Striffler, supported by Bigelow that Angus McGillivray be appointed poundmaster. Carried.

Moved by Striffler supported by Clark that the village attorney examine the ordinances and advise what changes are necessary and that the ordinances be then printed in pamphlet form. Carried.

Moved by Striffler supported by Bigelow that the village attorney effect a settlement with Mr. J. H. Davis for water supplied to street sprinkler. Carried.

Moved by Striffler supported by Clark that H. L. McDermott, W. J. Campbell, N. Bigelow, J. D. Crosby, and E. H. Pinney be appointed a committee with power to act, to confer with George Nettleton in regard to a survey of Cass River for estimate on cost of dam for water power. Carried.

Moved by Bigelow supported by Striffler that E. B. Landon, village attorney, be added to above committee. Carried.

Moved by Striffler supported by Bigelow that the assessment roll of the village as handed in by assessor be accepted. Carried.

Moved by Striffler supported by Bigelow that the amount of tax to be raised be referred to committee on ways and means. Carried.

Moved by Striffler supported by Bigelow that the poundmaster's bond be fixed at \$100. Carried.

On motion of Striffler supported by Bigelow council adjourned.

C. G. MATZEN, Clerk.

A Trade Mark.

Frank J. Dean presents to the theater-going public of this village next week the Lillian Lyons Stock Co. A company of absolute superiority, well to the front in the race for popularity. The name of Frank J. Dean has for five seasons been a "trade mark" for a good, clean, well staged and up-to-date production. Those who attend a performance of "The Lillian Lyons Stock Co." can assure themselves of an evening's enjoyment, served up in the latest style. Our specialty artists are a decided feature having been chosen from among the leading Vaudeville performers of the day, and with our long experience we could not do otherwise than choose pleasing and catchy acts. The company opens Monday evening in "The Shadow of the Cross," a four act scenic drama.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

"Vernor's" Ginger Ale, cool and sparkling, at CANDY KITCHEN.

Magazines of all kinds at the ENTERPRISE office, Seeger Street.

Ginseng a Profitable Crop.

Written for the ENTERPRISE by Clive Hall Dye, Horticultural Specialist.

For the past five years the writer has devoted a great deal of time to the study of profit bearing crops and next to the Rubber Industry of South America there is nothing I have seen so profitable as the culture of Ginseng.

After reading the Government Statistics concerning the plant, I wrote to Mr. W. A. Bates, of Cuba, N.

Y., who is probably the largest grower in the United States, stating the object I had in view and also an invitation to visit his garden. In reply I received a work on Ginseng written by himself and also an invitation to visit his garden.

It is not my purpose in this brief article to give a description of his garden but rather to show what profit there is in the business; in order that many who are in ignorance of this valuable product, may have their eyes opened to it and perhaps join in swelling the amount annually exported to China and incidentally assist in creating a new source of wealth for the agricultural communities of the United States.

The amount of Ginseng which can be annually exported to China without overstocking the market, is reported by U. S. Consul Johnson, (who made a very exhaustive examination of the subject) to be over \$20,000,000 worth. Now as the United States has never exported Ginseng to the amount of \$1,000,000 annually, although we have sent all we could get our hands on, it will readily be seen that the field for an extensive and lucrative business is open to those who are sharp enough to avail themselves of the advice of those who are posted on this subject.

Not wet or muddy soils, such as prevail in hardwood forests, and is found wild in the following states:—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North and South Carolina, Georgia, Alabama, Kentucky, Tennessee, Arkansas, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa and Missouri, but by cultivation and a

proper treatment of the various soils this natural range can be greatly increased, in fact it can be grown almost anywhere in the temperate zone. From figures furnished by Mr. Bates, the following showing how an acre of Ginseng can be started from 2,000 fine selected seed bearing roots planted in 1904, and figured for a period of five years, is more than justified by the results of his garden.

This 2,000 plants should average 20 seeds to the plant summer of 1905; and 50 seeds to the plant each following year. First year 40,000 seeds; second year 100,000 seeds. As it takes 18 months for Ginseng seed to germinate, seeds of 1905 crop will produce plants summer of 1907; seeds of 1906 crop will produce plants spring of 1908; seeds of 1907 crop will produce plants spring of 1909, and at the end of this period of time should have 200,000 growing plants, allowing 40,000 seeds for loss besides having the 1908 and 1909 crops of seed on hand and the 2,000 roots you began figured on the same basis as above, viz., 2 ozs to the root would give 83 1/2 lbs. dry root, figured at \$9.00 per lb. would make a total of \$750.00 cash, 200,000 growing plants or an acre and 200,000 seeds on hand.

In speaking of Ginseng Mr. Bates says: Anyone can start in the business who has the will and a plot of ground. I have started quite a number with a few roots and seeds from my garden, who are in position today to realize a comfortable fortune therefrom in the next few years.

By the courtesy of Mr. Bates, whom I have always found to be willing to assist others in the business of procuring a start, I am enabled to show a bed (4 ft. x 186 ft) of five year old plants, ready to harvest as soon as the seed falls, which will realize at market prices about \$3400.00 or as much as the entire income from a large farm planted to ordinary crops.

This should cause readers to pause and consider the propriety of planting, at least, a small lot.

The expense attached to an experimental bed is so trivial that no one can afford to neglect this matter.

CLIVE HALL DYE, Dayton, O.

Church Wedding.

A quiet church wedding took place last evening in the Epworth League parlors of the M. E. Church, when Miss Blanch Hansler, granddaughter of Mr. and Mrs. S. Ostrander, and with whom she has made her home for a number of years, was united in marriage to John M. Hill, son of Mr. and Mrs. N. Hill. The ceremony was performed by Rev. M. W. Gifford, in the presence of a company of invited guests. The decorations were not elaborate but very pretty, a canopy being arranged in white and green and the altar rail being trimmed to match. Ferns and palms completed the decorations. Miss Lottie Bradley supported the bride, and Roy Hill acted as best man. Miss Cecil Fritz presided at the piano, playing softly the strains of "Hearts and Flowers," during the ceremony. At its conclusion the guests repaired to the newly furnished residence of Mr. and Mrs. Hill, at the corner of Sanilac and Maple Streets, where a reception was given. The happy couple slipped away unexpectedly on the evening train north, and are spending a few days with relatives near Woodstock, Ont., before settling down in their pretty little home. All wish them much joy.

Owing to the difficulties attending the moving of the ENTERPRISE office this week, we are obliged to withhold the report of the graduating exercises until our next issue, and hope the members of the class and their friends will bear with us, as it is not our choice but compulsory.

Republican Candidates.

At the Republican county convention held at Caro yesterday the following were placed in nomination: Judge of Probate—John M. Smith, of Caro.

Representative—Wm. McKay, of Caro.

Sheriff—Samuel Daugherty, of Caro Prosecutor—J. D. Brooker, of Cass City.

Clerk—N. Hamilton, of Novesta. Treasurer—J. H. Millikin, of Almer. Register of Deeds—John Gollen, of Vassar.

Circuit Court Commissioners—A. J. Randall, of Caro; E. Evans, of Millington.

Coroner—Dr. S. F. Chase, of Caro. Surveyor—B. S. Brumley, of East Dayton.

J. B. Drooker, of this place, was also chosen delegate to the state judicial convention, and A. A. McKenzie to the state governmental convention.

While assisting at the barn raising of L. J. Carroll, north of town, on Monday, Jas. Pratt suffered a painful injury. The handle of a "commander," which was being wielded by John W. Dickhout, broke, allowing the head to descend with considerable force some twenty feet below, striking Mr. Pratt on the forehead and nose. He was considerably stunned and bled very freely. Dr. M. M. Wickware was quickly summoned and found that Mr. Pratt had suffered a compound fracture of the nose, besides a few cuts and bruises. However, he is doing nicely at present.

Base Ball.

On Friday last our High School nine went to Kingston by the afternoon train and crossed bats with the team of that place. It promised to be a very even and exciting game but ended in a dispute and both teams are claiming the game, owing apparently to the umpire being unable to stand by a decision. The Kingston boys started out finely and scored twice in the first, and three times in the second, but in the third Cass City also made three scores, shutting out their opponents. In the fifth Cass City scored one more. Then neither side secured anything more until the ninth inning. Phillips made home safely, tying the score, and Perkins came in home also, but almost immediately the third man was put out. Here the dispute came in, as to whether the score made by Perkins should count. Kingston refused to stand for it and our boys were called from the field. They have offered to play Kingston here for a purse, but we have not yet learned of their acceptance.

On Tuesday, the Lacey Shoe Company team, of Caro, came over here and played the return game with the town nine, the result being very much better than our people hoped for. Our boys won to the tune of fourteen to three, and attribute much of the success of the game to the excellent pitching of Duncanson, who has won a reputation as a twirler remarkable for the time he has been at the front, this being his first season. Batteries: Cass City, Duncanson and Kuapp; Lacey, McLaughlin and Atwood. The Caro pitcher complained that he was supported poorly. At any rate our boys kept piling on the scores with the above-mentioned result and an innings in their favor.

For Auditor General.

M. J. McLeod was born of Scotch parentage in Huron county, Ontario, January 22, 1868. When he was still less than a year old his parents moved to Attica, Lapeer county, Michigan, where the family remained until 1880, when they returned to Canada locating in Sarala. Here young McLeod completed the common school education begun in Attica afterwards supplemented by a course in a commercial college. Being one of a large family and his parents being poor he had to tackle the problem of self support at the age of 14 years when he became a grocery clerk. He afterwards took up the steam fitting trade and in 1888 was employed by the St. Clair Tunnel Company as a steam fitter. After the completion of the tunnel in 1891, Mr. McLeod went to Detroit to live and had his residence in that city ever since. There he was first employed as conductor for the Citizens Street Railway Company. In 1895 he was elected Business Agent of the Street Railway Employees Association to which position he was re-elected five consecutive terms. In 1898, as evidence of the high estimate placed upon his honesty and ability by Mr. McLeod's fellow townsmen, he was elected to the Michigan House of Representatives by a large majority. In March 1901 Governor Bliss appointed him Deputy Labor Commissioner and, in acknowledgement of his fitness for the position, he was re-appointed in March 1903 for the term he is now serving. In politics Mr. McLeod has always been a staunch Republican and is now a candidate for Auditor General.

The Lillian Lyons Stock Co.

Coruna Independent, in speaking of the Lillian Lyons Stock Co., says: "The Lillian Lyons Stock Co. closed a 3-night engagement at the Casino Saturday night. This company will always be sure of a big business any time they return to this city. On Friday evening at the performance of "The Two Orphans," the Casino was crowded to its utmost capacity, and this popular drama was given in a most creditable manner. The costumes and stage settings were the finest ever shown in this vicinity. It is safe to say that during the three nights the company played to 2,500 satisfied people." The above company will appear in the Cass City Opera House for one solid week starting Monday, June 27th.

This week has been one of "hard, hard trials and great tribulations," to the ENTERPRISE force, owing to the operation of moving the office and equipment to the Etherinton Building on Seeger Street, and this issue of the paper has been put out under difficulties which cannot be described, so that we must ask our readers to kindly forgive all sins of omission and commission, and we will earnestly endeavor to make amends for all short-comings by paying strict attention to business and the publication of a newsy paper ever after. We appreciate fully the fact that already our friends are finding us in our new location, and contributing their mites, dollars and news items, and we hope they will not grow weary in well doing.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, or summer complaint, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

Organ for Sale.

In good condition and at reasonable price. Mrs. H. L. HUNT 6-9-

The village pound was sold at auction this morning, to A. A. Hitchcock, the price paid being \$100.

The Watcher.

I am so glad that Love fell asleep
Before the morning came;
Better this lonely watch I keep
Than those mad tears too vain to leap.
That burned my cheeks like flame.
What time he turned to sob and weep
And call a certain name.

I am so glad that Love is still.
With folded hands and empty will
In this strange loneliness and chill,
With silence folding us,
Than soothe and strive and soothe until
The grief grew hideous.

I am so glad that for a space
Comes respite from his pain.
While yet the dawn comes in apace
For me this one dull hour of grace
For me who must remain,
Afraid to look upon Love's face
Lest he might wake again.
—Theodosia Garrison in New York Herald.

The DREAMER and the DREAM
BY JULIA TRUITT BISHOP

Copyright, 1901, by Daily Story Publishing Company.

Laurie went for the hundredth time and looked at the "spare room." She knew every smallest detail of its arrangement by heart; the gay rag carpet, the blue-and-white spread, the open-worked pillow shams. Were they not part and parcel of the spare room, always in order and ready for the chance comer? But she herself had gathered the honeysuckle blooms and the wild grasses for the tall vase in the window, and she herself had arranged the few little books on the stand with the white cloth. Was it chance that the pretty copy of Tennyson was the topmost one of the little heap, and that it lay shyly open at the poem about the king who wooed a beggar maid?

When she had looked wistfully at everything once more, then again she read the letter—for he had written the letter to her, and not to her father and mother, as might have been expected. Her cheeks flamed as she read again:

"I will be there Thursday, and I am going to have a great surprise for you this time. This will be the fourth summer I have spent at the farm, and it will be like going home again. I have watched you grow up, little Laurie, and have thought about you a great deal more, I am sure, than you have thought about a stupid, stiff, selfish old fellow like me."

Thursday. He was to be here Thursday, and this was the time. She had begun arranging the room for him four days ago, and every day swept and garnished it afresh and gone to the woods for more flowers. Even now she went to the window and twisted the tendrils of honeysuckle so that the flowers would show better, and resolved to go to the woods after prettier ones, after all, and then was in a panic lest he should come while she was gone. If only she might have made this room look as she had dreamed it, over and over again.

She stood, seeing it through a golden haze. Filmy laces floated at the window, caught and drifted here and there by the breeze; and soft carpets were on the floor, and tall mirrors stood between the windows, and everything was so beautiful that the golden-banded bumblebee on the

A letter to her—
honeysuckle blooms seemed to be frightened with idle, wistful dreams. Her eyes fell before the open book, as though he had been there beside the book, looking at her—for had he not given her the book?—and had read the poem, and told her that if the king really loved the beggar maid she was the only woman in the world for him, and poverty was a little thing compared with love.

"Laurie!" cried her mother from the kitchen; "run here a minute and fetch me in some wood—an I wish while you're out you'd see if the chickens have got back into the garden. The way they're carried on we won't have any vegetables left by the time Mr. Fairlie comes. What was

that he wrote 'bout havin' a s'prise for ye?"

"He said he'd have a great surprise for me this time," said Laurie, waiting a moment with her face turned away.

"Well, I hope it ain't any more of them shrimps he brought last time," said Mrs. Morrell, comfortably. "I'd jest as soon eat fishbat an' done with it. I jest know it's somethin' to eat, for he knows nothin' else wouldn't s'prise us. Run on an' get the wood, Laurie—an' there goes one o' them chickens into the garden!"

Laurie hurried away, her shy, willow-branch face turned from her mother's

"Well, here she is!"

eyes. But once in the garden she found the row of hollyhocks against the further fence, and walked beside them, touching their petals tenderly. "He likes hollyhocks," she said to herself. "That's why I planted 'em again this year. He says they made him think of his grandmother's garden. It would be nice to have a whole garden planted with hollyhocks and marigolds and pinks, just for him."

And then, all in a moment, she had planted just such a garden, and it had grown to its full glory; and the figure coming down one of the pink-bordered walks was not his grandmother, but was Laurie herself, clad in the short-waisted old brocade, like that pretty picture of his grandmother when she was so fair and young, and was the belle of the whole country round.

"Laurie!" called her mother. "Ain't you ever coming with that wood?"

The wood was carried in, and Laurie was at once placed in charge of the churn, and began splashing the dasher up and down wearily.

"Well, I declare!" exclaimed her mother, with quite justifiable vexation. "You ain't payin' a bit of attention to what you're doin'. Look how you've splashed up this floor. An' your cheeks is that red, a body'd think ye had fever. Jest as like as not you're frettin' because ye'll have more work to do now that he's comin', but the money's somethin', I reckon! People can't always consult children, like you, when they want to take in boarders. Listen! Ain't that the stage comin'? You'll have to go out an' meet 'im, for I've got my hands in the dough."

But before she had finished speaking Laurie was off like a flash, and was hidden away in the dining room, drawn back into a corner—holding her heart down to keep it from bursting. There was a rattle of wheels and a cheerful "Hello!" at the gate, and then the sound of dragging trunks down from the roof of the stage, and her father's voice in loud and cheerful greeting. He was down now—he was paying the driver—he was coming along the walk, and up the steps, and into the house. He would be there in another moment. She could hide no longer. She must creep out of her corner and meet him.

He came along the bright hallway,

tall, pale from work, but smiling with frank delight.

"Ah, here she is!" he cried, catching her brown, rough little hand and drawing her closer. "Didn't I tell you, Laurie, that I had a surprise for you this time! Well, here she is. This is my wife, Mrs. Olga Fairlie, if you please—and we are both going to spend a whole, long summer with you."

The beautiful woman with the blue eyes and the golden rings of hair took the hand he put into hers, and looked at the small, frightened face. Clearly, this country was not so healthful, after all. A look at this girl, with her white cheeks and startled eyes, suggested the thought that they might have belonged to some wild thing out of the woods.

"Mr. Morrell came staggering in with a trunk, shouting cordially, 'Well, if this ain't a surprise!' Mrs. Morrell peeped in from the kitchen, smiling and nodding.

"I can't shake hands," she said; "but you've gone and got married, have ye? Well, I'll bet Laurie's glad to hear that. The lady'll be so much com'pny for her. Just go to your room—you know where it is."

Mrs. Fairlie pulled off her gloves and looked around the room a little disdainfully.

"You have talked so much about your little woodland nymph that I suppose I expected too much," she said. "She's rather a commonplace little country girl, it seems to me—no powers of conversation—no expression—and not the smallest spark of imagination."

Mr. Fairlie did not try to answer. He stood still, looking absently at the heap of books on the table.

"Here are her books," he said, fingering them one by one. "See—Longfellow, Whittier—Mrs. Browning—I gave her Tennyson, too, I think. I wonder what she has done with that?"

FISHING IS NOT COSTLY.

Sportsmen Here and in Canada May Angle for Salmon Cheaply.

In England salmon fishing is one of the most costly of sports, and even here it is the popular belief that the sport is of necessity one for the rich alone, no man of even moderate means presuming so much as to think of indulging in it. In the British Isles and other parts of northern Europe this is undoubtedly true. Even in this country and in Canada in the last few years the salmon waters have been taken by clubs and individuals, so that now the fishing is restricted to the few; but Labrador and Newfoundland are left free and moderately accessible to the fishing public living in the eastern states, and improved traveling facilities have made the trip to Newfoundland a matter of ease, so that the number of sportsmen visiting that island is increasing enormously.

Fortunately the island is large—more than 300 miles each way—and the rivers very numerous, so that it will be some time before the country is crowded. Thus far only a very few of the most accessible rivers have been fished in at all. Along the east coast and the northern peninsula are many rivers that have never known a fisherman. At the present time these are rather difficult of access by land, it is true, but by chartering a small vessel fisherman can, at moderate cost, visit the most remote of them and be sure of almost unlimited salmon.

Making Sunday Cheerful.

Sunday is often dull for the boys in the families where the parents believe it is proper to keep quiet on this day. The boys grow restless after church and Sunday school are over, and do not know what to do with themselves. Yet the day may be kept quite differently from other days and still not be dull. One little mother of whom a recent writer tells, and who had three little boys, has made Sunday so delightful that all three lads look forward to it with pleasure. She chooses some especially beautiful stories which are read during the quiet afternoon, and keeps for this day favorite walks in woody fields. And to close the afternoon comes "candle lighting time" when, at twilight, the boys each light their own candles and the three-branched candelabrum by which to eat their simple supper. And Sunday is thoroughly enjoyed.

To Impress Children.

One great reason why children often disobey is because they do not understand what is desired of them. They are careless, their minds wander while they are being instructed, and consequently they disobey. A very effectual way to secure a child's obedience is to insist upon a direct gaze during the time the mother is talking to him. Have him look the speaker straight in the eyes, and if still inclined to wandering, have him repeat what has been told him. This impresses it on his mind and increases its importance, and there is nothing a child likes better than to know that what he is to do is important, or even that it is important that he refrain from certain acts. And really, what is more important to both child and mother than obedience on the part of the child?

Petroleum Fields Still Prolific.

The statistics used to show that the Russian petroleum fields are becoming exhausted are misleading. During last year a strike stopped production for twenty days, and a fire wiped out the five "gushers" and sixty-two pump wells of the Bibi-Eitab district for five weeks. These fire and strike losses, estimated at 4,200,000 barrels, would bring the production to 75,826,800 barrels for the year, which amount is almost that for 1923, and is slightly in excess of the American production.

ANDALUSIAN CITY OF MEXICO
SPECIAL CORRESPONDENCE

Imagine an Andalusian city, semi-oriental, with much of the Moorish in its architecture, flung into a great mountain gorge; its streets sometimes so narrow that neighbors are neighbors indeed; streets that ascend the mountain side with amazing steepness, with here and there massive arches thrown across, and everywhere color to delight an artist.

There is nothing like it anywhere else; for sheer picturesqueness, for something that seems remote from America—a city that might be found in the heart of Asia or in northern Africa—Guanajuato is without peer or rival. And underneath these streets that wind and climb, and down which on rainy afternoons the water pours in torrents, are some of the deepest mines in the world, mines whose production in silver and gold, the ore often rich in the yellow metal, now reaches to more than a thousand million dollars.

Families here have in the past been enriched beyond the dreams of avarice; daughters of the great miners have astonished the capitals of Europe with their lavishness, and the men have squandered wealth with open hand in Paris, in the great gambling palaces of the old world, or built them mansions in the city of Mexico.

Mines there are here dating back to 1548, to the days when the king's conductors, or treasure trains, with their little flags flying, passed safely down the long and dusty roads to the capital where the viceroys ruled. There is always romance in mining, and nowhere more of it than here. The product of the mines of Guanajuato, flung into Spain, upset the ratio of gold and silver in distant India in the years when the emperors reigned.

There have been years of "bonanza," when the great mine owners lived with the luxury of princes, when costly wines and furnishings for their houses, ordered from France and Italy, came up the almost interminable roads from distant Vera Cruz, and huge mirrors, worth thousands of dollars, arrived by the most primitive methods of transportation.

Mexico lacks her Bret Harle, else all this would have passed into verse and story. Nowhere such gamblers as in the centers of the yield of the precious metals. Nowhere such reckless spending, such a riot of life and such sudden enrichments of humble men. Mining, with all modern scientific methods, is still much of a lottery; fifty years ago it was still more of a lottery.

Mexican Indian Village.

Here, within almost a quarter of a century after the Spaniards, those men of iron and valiant hearts, had conquered Mexico, the hapless Indians toiled as slaves in the bowels of the earth that men might live as nobles in two lands, and their patient labor was transmuted into an Asiatic luxury for the fortunate few who held the titles to the mines. The decay of Spain dates from the opening of the mines of Peru and Mexico; opulence and ostentation succeeded the long centuries of martial simplicity when Spaniards were, with frequent reverence, driving the Moors down to the south of the Iberian peninsula, and then across into the Africa whence they had come.

The veta madre, or mother vein, of Guanajuato is one of the world's great ore bodies. Several parallel veins compose it, running from northwest to southeast, and varying in width where they unite from five to eighty yards. The points where the veins approach one another most closely, and are richest in silver, correspond with the valleys that intersect the direction of the vein. The city has been built as the surrounding mountains allowed; there was no other plan possible; hence its astonishing picturesqueness.

Spaniards and Britons have operated here, and a vast amount of British capital in former days has gone into the mines and reduction works. Here worked, in the early part of the last century, the famous miners from old Cornwall, the Cornishmen recognizing no other real miners in the world. They won evil fame here for their drunkenness and turbulence, but were recognized to be superior miners, more

REVIVAL OF THE INN.

Public Houses are Changed to Suit the Needs of the Day.

While some reformers are bent on ending the public house, others are busy at mending it. We need not decide for both; in many places there are too many public houses, and of those that would in any case remain, many might well be bettered. The annual report of the public house trust shows that substantial progress is being made in this direction. The principal aim of the trust is the revival of the inn as a place of all-round refreshment and its extinction as a mere drinking bar. "The man who asks for bovill gets the same smile as the man who asks for beer," that is the advertisement of the motto. Lord Grey's movement is a most hopeful one; it takes for granted that men will not be deprived of their beer; but it offers every inducement to the consumption of other cups than those which inebriate, and of eatables as well as drinkables, and it provides decent, wholesome, cheerful surroundings. The movement is peculiarly opportune in rural districts. It comes at a time when there is a considerable revival in the wayside inn as a place of necessary refreshment. Hosteries which seemed to have been killed by the railway are coming to life, thanks to the bicycle and the motor. At a time when so many people are thus taking to the road again, it is very appropriate that an effort should be made to improve the roadside inn.—London Chronicle.

ERRORS OF THE TYPES.

A Few of the Misprints That Shorten Editors' Lives.

At a literary dinner in New York C. D. Gibson, the illustrator, quoted a number of amusing misprints for several years, and already had in his collection 200 good specimens.

He first quoted a misprint about a bishop who was confined to the house with a violent cold. The newspaper that mentioned the prelate's illness said he was "confined to the house with a violent scold."

Another quotation concerned a British nobleman who had joined a party of friends in Hampshire for the purpose of shooting pheasants. This the compositor had made to read: "He has joined a party of friends in Hampshire for the purpose of shooting peasants."

"That, though," said Mr. Gibson, "is an old and famous misprint, and you may have heard of it before. You may, too, have heard of the one about a 'surgeon taken alive in the river that sold for six cents a pound.' But I doubt if any of you have ever heard of the misprint that appeared last February in a Vermont newspaper. This paper wished to say, in praise of a very aged and distinguished citizen:

"John Green is a noble old burgher, proudly loving his native state."

"But the types made this sentence run: "John Green is a nobby old burglar, prowling around in a naked state."

Stuff Heroes are Made Of.

Five millions for heroes—come, bring on the stuff! Disburse it at once, we have heroes enough. There's the hero who rescues the drowning from death. The hero who braves the red flames' tongue and breath. There are heroes on land, there are heroes on sea. There are heroes of varying style and degree.

But the man who slams out a homer when there are two or three men on bases and brings in the runs that win the game for the home team in the last inning of the ninth inning—He is the kind of a hero for me!

The women. God bless them, come in for a share Of the heroine fund—there are heroes to spare. In the ranks of the sex; there's the one who can bake. The pies, rich and juicy, like mother would make. There's the heroic woman, a marvel, I ween. Who raises six children and keeps them all clean.

But the woman who never trumps her partner's ace, never leads from a short suit, and not once during the evening asks what is trumps and whose ace is the kind of a hero I mean. —New York Times.

Had His Revenge.

The few persons on the uptown elevated station at Chambers street early Friday morning were startled a bit to see a thick-set chap climb over the railing just north of the men's waiting room. He looked down toward the street and rubbed his nose. In a moment or so another fellow was seen at the top of the stairway. In two shakes of a lamb's tail, he, too, was over the railing. Both of them looked across at the other station, but it was deserted. There is a turnstile there instead of a ticket chopper.

"We ought to tell the man," said a woman to her escort.

"Nix," was the reply. "The company stuck me on a plugged dime the other day. Now we're square."—New York Sun.

What He Needed.

Admiral Walker, since becoming one of the Panama Canal Commissioners, has had his patience somewhat tried by persons who have been to the isthmus giving him gratuitous information concerning the climate there.

One man informed him that after returning from a journey to the place he went to his physician to learn if he had malaria in his system. The doctor showed him a drop of his blood under the microscope, "and," said the narrator, "it was full of the microbes of malaria. They looked like a lot of lively potato bugs."

"Then what you need, I should think," said the admiral dryly, "would be a dose of insect powder."

All women are made of glass to the very young man.

SCIENCE and INVENTION

An Englishman's Invention.

What can make a building look more unsightly than a lot of faded, torn and ragged awnings, flapping in the wind and adjusted at every angle from vertical to horizontal? Those half or wholly raised form pockets for the lodgment of snow or rain, with which to deluge some unsuspecting passerby the next time the shade is lowered, and even when folded as closely as possible against the window frame they present a rumpled and unpleasant appearance. Of course, while the awnings are new, they add much to the appearance of the building during the few hours they are in actual use, but they cannot be maintained in that position, as the occupants of the rooms cannot do without the light the shades prevent from entering. It has taken an English inventor to supply an improvement over the old form of awning, as shown in the illustration. Instead of attaching the upper edge of the awning to the window casing by tacks or otherwise, this awning is mounted on a spring roller, which lies back of the face board of the frame in a horizontal recess or pocket formed for the purpose. It will be noticed that the face board of the pocket is secured to the outer end of the awning and to the swinging rods which maintain the awning at an angle with the window frame. When the awning is in use as a protection from the sun's rays, the face board is lowered with it, and the canvas unrolls from the roller in

Rolls Into the Window Casing.

the pocket; but upon returning the awning to its pocket, the facing follows and closes the opening in such a manner as to completely hide the shade from view. The improved appearance of a building thus equipped is at once obvious.

The inventor is Stephen Prebble of Brixton, England.

The Power of Science.

In the Popular Science Monthly President Jordan of Stanford university says: "In mechanics we know that the force of a moving body is not measured by the substance. Its momentum or effective power is found in its weight multiplied by its speed. This illustration has been used in praise of American science. The power of science lies not in individual erudition. It lies in its striking power. American science is dynamic; it is always under way. In every branch of science the best American workers have been those most strenuous in their personal efforts, most eager to make their own work useful to the world at large. In almost every branch of utilitarian science America already stands in the lead. This fact England has already recognized with dignified dismay. We hear much of it now; we shall hear more of it still later, for quite as remarkable as the growth of American science is the advance of American schools. Whenever I visit a department of applied science in America I see that it has doubled its power, its staff and its equipments since the time of my last visit. My visits are not very frequent, perhaps once in five or ten years, let us say; but what will be the end of it? To double once in fifty years is a rare thing in the universities of the old world, but even that in a few centuries would accomplish wonders."

Height of Waves.

It has been decided that the average height of all the waves running in a gale in open sea are about twenty feet. But the height of individual waves varies considerably. Vauban Cornish reports to the Royal Geographical society: "During a strong gale in the north Atlantic, with a heavy sea of more than ordinary regularity, I have observed in the course of a morning numerous waves from thirty feet up to a measured height of not less than forty feet, when the average of all the waves was perhaps twenty-five feet. It is, I think, clear that in any statement we may make as to the size of the waves in a gale at sea, we ought not to neglect the mention of the larger waves which occur at fairly frequent intervals. These, which I term the ordinary maximum waves, are, I think, what seamen really refer to when they state the size of the waves met with during a storm at sea. 'About forty feet' is a common estimate of the height of the larger waves in a severe gale in the north Atlantic, and this estimate is not really incompatible with the recorded average of little more than twenty feet."

Bridge Over the Zambesi.

A huge one-span arched steel bridge which is to carry the Cape to Cairo railroad across the waters of the Zambesi river, just below the Victoria falls, will shortly be swung into position. This bridge will be the highest in the world, with a main span of 500 feet. The materials used in the construction of the bridge are to be transported from one bank to the other across the gorge by an electric cableway.

Cass City Enterprise.

An independent newspaper published every Thursday by A. P. McDowell, Seeger Street, Cass City, Tuscola Co., Mich.

Advertisements.
All changes of advertisements must be sent to this office no later than Wednesday noon of each week, else they can not be inserted in that week's issue. Reasonable rates are charged for display advertisements. Local notices in our paid local columns are five cents per line for first insertion. Notices of funerals, lectures, concerts and all entertainments of a money-making character are charged for at the rate of one dollar for each insertion. Cards of thanks are twenty-five cents for each insertion.

The wide circulation of the ENTERPRISE in the counties of Tuscola, Huron and Sanilac, makes it a valuable advertising medium.

A. A. P. McDowell, Proprietor.

Hump Back

SCOTT'S EMULSION won't make a hump back straight, neither will it make a short leg long, but it feeds soft bones and heals diseased bone and is among the few genuine means of recovery in rickets and bone consumption.

Send for free sample.
SCOTT'S EMULSION, Chemists,
409-415 Pearl Street, New York.
50c. and \$1.00; all druggists.

Novesta Corners.

Last week's correspondence.
John D. McLaughlin's father is here on a brief visit.

B. Hicks lost a horse last Tuesday. Result of two much lost.

Mrs. Handly's mother, of Sanilac arrived for an extended visit here.

John McLaughlin attended the ball game at Kingston last Wednesday.

Dr. Howell and wife were the guests of Mrs. Anna Handly last Sunday.

Alph Sowan and wife are rejoicing over the arrival of a baby girl born the 10th inst.

Warren Mason and wife, of Sanilac Centre, were the guests of Mrs. Handly the latter part of last week.

Pingree

Gracie Severance is visiting in Flint.

Cecile Auslander is very low at present.

Mr. Kisers visited at Wickware Sunday.

Percy Mark drove to Kingston Sunday.

Maude Craig visited at Kingston last week.

Frank McGregory is better and able to be out.

The M. B. Sunday school are preparing for children's exercises.

Ethel and George Braekenburg visited at Mr. Granger's Sunday.

Mr. Cole, of Shiloh, preached in the Mennonite church Sunday evening.

Elder Bowman and wife attended the Mennonite camp meeting, June 15 to 22.

Will Towle, who has been attending school at Mt. Pleasant returned home Saturday.

Several young people from Shabbona and Wickware attended the services here Sunday.

Novesta

Mrs. J. Dodge and Mrs. Foote, of Elmwood called on friends here last week.

Mrs. F. C. Lee and daughter, Lela, of Cass City, visited at D. McLarty's on Sunday.

School will close in Dist. No. 3 on Tuesday, 28th, with a picnic in N. Hamilton's woods.

Mr. and Mrs. Robert Jacoby, of Ellington, visited the latter's parents and attended the exercises at the church on Sunday.

A. A. Livingston, M. H. Quick, Robert Brown and Howard Rutherford attended the Republican convention at Caro on Wednesday.

Children's Day was observed at the Disciple church on Sunday. A fine program was rendered by the children. There was a good attendance.

Mrs. Wm. Justin was called to Detroit on Tuesday to assist in caring for a little daughter which arrived at the home of Mr. and Mrs. Elmer Koon's.

East Dayton.

Warm and dry.

I. Gillosky raised the frame of his new barn Tuesday.

Wm. Riley was in Marlette on business one day last week.

The decision on moving the M. E. church was postponed for one week.

A. L. Adams is smiling all the while now; it's a girl, arrived last Wednesday.

Mr. and Mrs. Matt Watters spent Saturday and Sunday with friends in Cass City.

Mrs. S. A. Perkins and son, Seldon, are visiting her sister, Mrs. Mark Hobar, in Fairgrove.

I. Lynch will raise a large barn frame next Tuesday. F. Froede is doing the carpenter work.

The liveliest game of base ball that has been played here for several years, came off Saturday afternoon between the "old men" and the "boys." The men did the boys up; the score standing 8 to 24 in favor of the men.

The seven months' old child of Mr. and Mrs. Archie Crittenden, died the 19th inst at the hospital in Detroit, where Mrs. Crittenden had taken it to have an operation performed. The funeral was held at the residence on Tuesday at two p. m.

BEVE-O

The new discovery called BEVE-O is a big success. If you have used a preparation of that kind do not neglect getting BEVE-O.

This new discovery is only for Heaves, Coughs, Disasters and Kidney Troubles. Its remarkable results have proven its superiority. A few doses in hot bran mash will break up distemper and stop the cough and quickly reduce swollen or putted legs. All druggists, etc.

Cascarels
CANDY CATHARTIC

GENUINE STAMPED C. C. NEVER SOLD IN BULK
BEWARE OF THE DEALER WHO TRIES TO SELL "something just as good."

Beauley.

Our farmers are wanting rain. What a change!

Hugh J. McDonald was a caller in town this week.

The ice cream social at L. J. Carroll's was a grand success, netting \$18.15.

J. W. Young removed his windmill from his Fairview farm to his Model farm, where he pastures eighty of his young cattle for the summer.

A Scot, who served an Irishman as guide and friend on a fishing trip had what some would call "the national weakness" for claiming relationship with all the influential families in that part of Scotland.

One day the Irishman met him on the road driving a pig and saw a little fun. "Well, Donald," said he, "is that one of your grand relations?" "Oh, no," said Donald, quietly, "this is just an acquaintance like yourself."

The 4th of July will soon be here again and the young people say it can't come too soon for they know that it will be a big day in Beauley as usual.

The committee on arrangements thought it best to have the picnic in Hugh McDermott's grove this year as it is beautifully situated on the banks of the little Pigeon River, one mile south of Beauley. See bills for speaker, music and games. Come every body, small and great, rich and poor, high and low—Yes even the Irish are welcome.

That Throbbing Headache

Wouldn't you be glad, if you could get rid of that throbbing headache that is so common with all those who are suffering with Sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by T. H. Fritz, Druggist, Cass City; F. A. Francis, Kingston.

Bay Port.

Mrs. Louis Dubey, who has been ill, is better.

Rev. Staphin, of Elkton, occupied the M. E. pulpit Sunday.

Dr. Keith Morris and wife, of Gagetown, visited friends in town Sunday.

Miss Ida Schmidt, of Bay City, was the guest of Georgia E. Tanner Saturday.

Frank Tracey, of Cheboygan, formerly of Bay Port, is visiting friends in town.

Robt. Wallace has returned from Lansing, where he has been attending the M. A. C.

The first excursion of the year was here Saturday, it being the high schools of Saginaw and Bay City.

The regular Sunday excursions running from Saginaw and Bay City here, will commence next Sunday, June 25th.

The school will give an entertainment in the K. O. T. M. Hall Thursday evening and a basket picnic on the grove Friday.

Mrs. W. H. Wallace, who has been at Alma, attending the graduating exercises, returned home Friday night. Her daughter, Belle, returned with her and Nellie came Saturday night.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by T. H. Fritz, Druggist, Cass City; F. A. Francis, Kingston.

Death on the Culp Bank.

No matter what form death assumes, it is never welcome. The grim messenger makes his appearance in many forms in the anthracite mines of Pennsylvania, but only one form is painless and pleasant, and to only one the victims go unconsciously. It is the death of the burning culm bank.

Many times during the year is such a death recorded when one of these great culm banks is burning. The fire is not seen in the daytime, and at night it shines only with a faint glow through the layers of ashes which separate the live coals from the outer air.

To these burning banks tramps and other unfortunates forced to spend a night in the open air go when the nights grow chilly. The warm breath of the culm lures them on with a promise of a warm bed for the night, and they lie down to sleep in the comfortable atmosphere of the bank and never open their eyes again.

The noxious gases emanating from the bank wait over them so softly that they are soon asleep, and in many cases they never awaken, being suffocated during their slumbers.—Detroit Free Press.

"Let's go out 'n' see what's burnin'," said Pat to Mike at the theater.

"What d'y'e mean?"

"Those two men behind us said they were goin' to the foyer!"—Detroit Free Press.

Elmwood.

Mrs. Warren Smith, who has been seriously ill, is improving.

John Fournier, of Gagetown, spent Sunday with friends here.

D. E. Turner and family visited at Geo. Clara's, near Gagetown, Sunday.

Mr. and Mrs. Albert Darbee, of Akron, visited at Geo. Compton's Sunday.

Mrs. M. A. Smith, of Ellington, visited her daughter, Mrs. Geo. Compton, last week.

Mrs. Patrick Toohy visited her daughter, Mrs. Sheridan, at Caro, the first of the week.

Albert Russell has returned from Detroit, where he has been receiving treatment for stomach trouble. He is improving.

C. A. Hargrave is calling on the farmers for butter and eggs, this week as usual, notwithstanding the report from Cedar Run to the contrary.

Rev. C. A. Lohnes, of Tuscola, preached in the Cedar Run school-house last Sunday. Rev. Weidenhammer filled his appointment at Tuscola.

Miss Nellie Turner, one of our most popular school teachers, was married June 17th to Mr. Bradly, of Akron. The marriage took place at the home of the bride and was a very pleasant event. A large circle of friends wish them much future happiness.

POULTRY.

Thousands die every year from vermin. It is impossible for poultry to do well in this condition. STAR LOUSE KILLER is a sure killer to all vermin on poultry, cattle, horses, etc. One pound cures 25 cents. Don't neglect this.

Karr's Corners.

Geo. Clara raised an addition to his barn Saturday last.

Don't forget the picnic in Karr's grove the Fourth of July.

Mrs. M. C. Tanner returned from Cass City Saturday night.

Mrs. Parmer Karr visited her son at Kingston Saturday and Sunday last.

Chas. Karr, of Balsam Row Farm, is confined to his bed with rheumatism.

Mr. and Mrs. John Atkinson lost their infant daughter Saturday night. It was found dead Sunday morning. The doctor pronounced it an epileptic fit.

Last week's correspondence.
Mina Russel is working at Charles Tuttle's.

The wall for Jno. Muma's barn is completed.

Mrs. M. C. Tanner lost a valuable cow last week.

Mose Karr lost a horse. A bee was held there Tuesday.

Parmer Karr and wife visited at Geo. Karr's Sunday last.

Henry Masters shingled John Leymunson's barn last week.

Fred Harrison is hauling milk for the new creamery at Cass City.

Chas. Tuttle now wears one of those broad smiles on account of the arrival of a baby girl.

Mrs. M. C. Tanner is at the home of her sister, Mrs. John McLellan, of Cass City, this week.

Hugh Karr left Wednesday for East Jordan where his brother, Claude, went a short time ago.

We might mention that an Armenian lecture was given at Bethel Church a week ago Monday night.

The Children's Day services rendered at Bethel Church were largely attended. The church was crowded full and there was a large number outside who could not enter.

A large picnic is planned by the members of the M. E. Churches of this place and of Gagetown on the Fourth of July in Geo. Karr's grove. All are invited to come and have a glorious time.

SUGAR BEET TOPS.

An Important Item to Growers. Practical Ways of Utilizing Them.

In handling the tops and stems of sugar beets as food for live stock the best way is either to mix them with the pulp in silos or to silo them alone and hold until thorough fermentation has taken place, but unfortunately our Colorado people have not thought enough of silos to build many of them. Where large fields are available the cheapest and most convenient way to utilize beet tops is to pasture stock upon them as they lie on the ground and thus get the benefit of valuable fertilization. On the other hand, if the tops are left scattered over the field exposed to the sun the foliage dries and becomes spattered with dirt from the rain and snow. If exposed to frost the leaves separate from the stems, and a large amount of feed thus fails to reach the pens. If the tops are gathered soon after they are cut from the beets and are well mixed with pulp and packed in the silo they make an excellent ration.

In siloing no better way can be found than to dig a pit and pack the beet pulp and tops by thoroughly tramping them down with a horse. Cover the whole mass with a foot or so of earth, which serves to exclude the air. The beet tops and pulp thus preserved will be as good a year from the time they were siloed as when first packed. Probably the most simple and practical way to utilize beet tops in this country is to turn sheep or cattle into the field immediately after the beets have been harvested. A ton of alfalfa hay to the acre should be fed with the tops, so that the soil will become fertilized by the stock feeding upon it. The beet tops when utilized in this way are worth considerable as a fertilizer, and growers will find with time that they must consider this little matter of fertility if they desire to remain in the sugar beet business.—Field and Farm.

Irrigation Items.

According to Professor Hilgard of the University of California, the right to a single inch of water sells for \$1,250, and irrigated orange lands have sold for \$1,800 per acre in the Santa Ana valley in southern California. He finds that the gravel deposits of the river where it leaves the mountains act as a regulator, the water sinking into this debris, where it is stored up without expense for dams or losses from evaporation, and this water feeds the arid lands.

Mr. A. E. Chandler in a report on irrigation in central California expresses the opinion that some canals on which the losses are large could be cemented for a cost of between \$4,000 and \$5,000 per mile and that the loss of water in a single season in some sections has been 28 per cent more than the cost of this work.

A Slender.

The Lady—I gave you a piece of pie last week, and you've been sending your friends here ever since.

The Tramp—You're mistaken, lady. Them was my enemies.—Judge.

Health Rules.

One of Queen Victoria's health rules is said to have been: "Do whatever you like, but do it in moderation," or words to that effect, and a similar rule might be adopted with still greater profit by the men and women of the present day. The people of Queen Victoria's generation had not made a fad of health, and every newspaper they picked up did not worry them with conflicting hygienic rules. The no breakfast fad, if he existed, was less prominent than at present, and those who thought that the first ought to be the best meal of the day did not publish their views from every roof top, figuratively speaking. Vegetarians and meat eaters wrangled only in inconspicuous corners, and the devotees of the cold bath were content with fewer victims. Today, when all these and a million other so called health rules are being dinned into the ears of a long suffering public on all sides, it is more than ever important to bear in mind that inclinations and disinclinations were not arbitrarily imposed by nature in animal organisms; that they exist for our guidance and not solely to mislead us.—New York Times.

HOUSE PLANTS.

Asparagus Ferns, Maiden Hair Ferns, Boston and Anna Foster Ferns, Pelargoniums, Geraniums, Fuchsias, Begonias, Coleus, and Palms—just received from the greenhouses. Strong healthy plants and for sale at reasonable prices at the

ENTERPRISE OFFICE.

What's Broken?
Well, doesn't make much difference; you'll find we can fix it for you. That's our business.

Your Horses' Feet
need attention too, and that's right in our line as we have made a careful study of their needs and are prepared to give your horse the best pair of shoes he ever had.

J. A. RENSHLER.

Diseased Men Cured

We make no misleading statements or unsubstantiated propositions to the afflicted in order to secure their patronage. We cure to stay cured. Stricture, Varicocele, Nervous Debility, Blood Diseases, Weakness, Kidney and Urinary Diseases and all diseases due to inheritance, habits, excesses, or the results of specific diseases. The many years of our successful practice in Detroit proves that our special treatment for men is safe and certain. You do not want to be mutilated and maimed for life in trying to be cured of Varicocele, Stricture and kindred troubles by surgical procedures. We guarantee a Safe and Positive Cure in the shortest possible time without injurious after-effects. Our charges will be as low as possible for conscientious, skillful and successful services. CONSULTATION FREE. SPECIAL HOME TREATMENT FOR PATIENTS WHO CANNOT CALL. Question Blank Sent Free.

HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over 20 years with the best of results. I have not had a doctor in the house for that long time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jackson, Mich.

Because this great medicine relieves stomach pains, frees the constipated bowels and invigorates the torpid liver and weakens the kidneys

No DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, dizziness, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.

IMPROVED PERFECTION TINS.

If you make a rich, delicate cake you don't want to spoil its good looks and your own good temper in taking it out of the tin.

There is no danger of breaking the cake if you use the Improved Perfection Tins. They are far ahead of the old-fashioned solid tins.

FOR LAYER CAKES.
9 in., Round..... 10c.
10 in., Round..... 15c.

FOR LOAF OR ROLL CAKES.
8 1/2 x 11 in., Square... 15c.
9 x 12 in., Square... 20c.

DEEP, FOR LOAF CAKES.
10 in., Round, with Tube, 25c.
10 in., Round, no Tube, 20c.
5 1/2 x 8 1/2 in., Oblong, 20c.

FOR ANGEL-FOOD CAKES.
9 x 9 in., Square, 30c.

No greasing of papers for the bottom of the Cake Tin. These Tins are simple, durable, and up to date. Everybody uses them.

The Improved Perfection Tins do not leak batter. The patented groove, into which the bottom springs, prevents it. Get the genuine. Others are useless.

Do YOU WANT YOUR PERFECT HEALTH?

QUESTIONS

Where can I find a solid institution? Where can I find a specialist who will restore me to perfect health? Where can I find a specialist whose reputation has been established by the cures he has made, rather than by his own self-assertion? When a person asks these questions, he is standing on the threshold of his future and he should weigh them carefully. A mistake may mean years of suffering and perhaps life itself. Sift it down and you will find that the **DETROIT CLINIC** with **DR. MORRISON** at its head, is the most successful institution for his cure of chronic diseases.

HIS ORIGINAL METHODS

Of treating diseases gives him advantages possessed by no other physician, and the records will show a large percentage of cures in Rheumatism, Neuralgia, Dyspepsia, Indigestion, Catarrh of the Nose, Throat, Stomach, and Bowels, Bronchitis, Asthma, Dropsy, Diseases of the Heart, Lungs, Liver, Kidneys and Bladder, Alcoholism and the Opium Habit, Blood and Skin Diseases, Constipation, Chronic Ulcers and Fever Sores, Tumors, Nervous and Physical Debility, Insomnia, Melancholia, and Epilepsy, than any other institution in America.

What the People Say.

The Detroit News-Tribune, of July 30, 1898, said: "It is no invidious comparison to say that no specialist in Detroit or in the State of Michigan, has had such a wide experience as Dr. Morrison, and as an expert diagnostician he has few equals in this country."

I spent 3 years and hundreds of dollars looking for relief from Stomach and Liver Disease that made life a burden to me. I consulted Dr. Morrison of Detroit and after a course of his treatment was cured. I advise all who suffer to consult him. C. A. BANISTER, Port Huron, Mich.

I was cured in two months of deafness and roaring in the ears that had troubled me for 8 years, by Dr. Morrison of Detroit Clinic. FRANK BOND, Cass City, Mich.

I had a cough for 18 months, lost 23 pounds in weight, was given up by my doctor who said I had consumption, I was cured in 5 months by Dr. Morrison of Detroit.

AGNESS QUINN, Gagetown, Mich.

What has been done for others can be done for you. A thorough examination and an honest opinion Free and confidential in every case. A cure if you desire it will cost you but a fraction of what it will be worth to you.

DR. MORRISON CAN BE CONSULTED AT

Gordon Hotel, Cass City,

Thursday, July 7th.

Kingston Hotel, Friday, July 8th.

Remember every patient is examined by Dr. Morrison personally and not by so called "consulting physicians" who have no interest in your case excepting your money—If unable to consult the doctor in person, write to the **DETROIT CLINIC**, Detroit, Mich., asking for question blanks.

UNSURVEYED ROADS.

THE NECESSITY FOR PROPER GRADES AND SURFACES.

Enormous Extra Cost in Hauling Over Roads Not Properly Graded. The Expense of Moving Products on Unimproved Highways.

In his ninth annual report the commissioner of public roads of New Jersey says: "The United States government experts say on the subject of unsurveyed roads: 'Many roads of this country were originally laid out without any attention to general topography, regardless of grades or direction. Most of them remain today where they were originally located and where untold labor, expense and energy have been wasted in trying to haul over them. It is a great error to continue to follow these primitive paths with public highways. The proper thing to do is to call in a good engineer and have the location so changed as to throw the roads around the ends or along the sides of the steep hills and ridges instead of continuing to go over them.'"

"The question is, Are we following the 'primitive paths?' If we have not changed them we are certainly doing so."

"To illustrate the enormous extra cost of hauling over such unskillfully placed roads and to get an idea of the obstruction that these old highways place in the way of progress and prosperity, one may observe the accompanying cut showing the consequences of the hills of these unsurveyed roads."

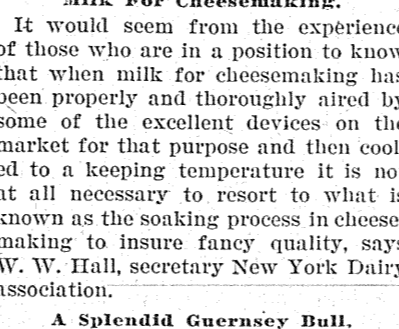

It will be seen that what one horse can pull on a level requires two horses to draw when a hill rising two feet to a hundred is reached, requires three horses to draw when a hill rising four feet to a hundred is reached, four horses when a rise of six feet to a hundred is encountered and requires six horses to draw when a hill rising ten feet to a hundred stands in the road. The enormous extra cost of hauling on these roads over roads on a level is therefore apparent. The legal rate in many sections is 3 to 4 per cent maximum, beyond which a grade is not allowed to go. Grades of even this steepness are the exception, roads being kept to 1 or 1 1/2 per cent as far as possible. By the most ordinary surveying of the roads of any section outside of mountain districts can be brought to reasonable grades. The government and all other authorities urge sections using these 'primitive paths' to correct them by proper surveying."

General Roy Stone of the government service said several years ago of what he called the "hill tax": "The people have paid this tax for a hundred years, and yet they wonder why they are poor." It is apparent that it is the duty of the thinking people of this section to bring about a revolution in the systems of public highways of the section hereabouts without which we cannot expect

Advantages of Dairy Schools. Dairy schools are now in operation in many states, and short courses of instruction on butter and cheese making are given at some of the agricultural colleges. It was long ago demonstrated that inferior butter could not compete with oleomargarine and that good butter of choice quality could always be sold at a good price. The fact has also been demonstrated that there was much to learn in making good butter and that cleanliness and the proper management of the milk were essential in producing the choice article. There has been a wonderful advance in methods of buttermaking, and oleomargarine is responsible for it. Consumers will not purchase the counterfeit article if they can get the genuine, and poor butter is as much a counterfeiter as any other imitation.—St. Louis Globe-Democrat.

Milk For Cheesemaking. It would seem from the experience of those who are in a position to know that when milk for cheesemaking has been properly and thoroughly aired by some of the excellent devices on the market for that purpose and then cooled to a keeping temperature it is not at all necessary to resort to what is known as the soaking process in cheesemaking to insure fancy quality, says W. W. Hall, secretary New York Dairy Association.

A Splendid Guernsey Bull.

This picture of Glenwood's Sheet Anchor of Haddon is reproduced from Hoard's Dairyman.

Pressing in Canada. First place a piece of cheesecloth carefully in the cheese hoops. When the hoop is full lay the edges of the cloth smoothly over the top and apply the pressure. Cheedars are pressed from forty-eight to seventy-two hours and should be turned after one hour and the cloth changed. As a rule cheeses are only pressed about twenty-four hours in this country. The final pressure for a good cheddar should be 600 to 700 pounds for a ten pound cheese.

Dairying in Canada. The outlook for winter butter is good, says a Canadian correspondent of Hoard's Dairyman. Stocks are light, and holders of choice fall creamery are not selling, believing better things are in store for them. Winter creamery butter is not altogether dependent on the export trade for a market. The local demand for this quality is increasing every year, and many factories find a ready market for their winter's output right at home. By all means our dairymen should make butter instead of cheese during the winter.

HIGHWAY BUILDING.

THE CONSTRUCTION AND MAINTENANCE OF CLAY ROADS.

Some Points by a Michigan Road Engineer—How They Should Be Drained and Crowned—Treatment of Sand Highways.

Clay and all classes of wet roads need thorough draining, says Frank F. Rogers, consulting engineer of the Michigan highway commission, in Good Roads Magazine. Where there is much surface water large open ditches must be provided. It is important that these ditches have sufficient capacity to handle all ordinary storms without flooding the road. They should have continuous grades and free outlets to the natural water courses intersecting the roads. It may be necessary to improve these water courses for some distance outside the road allowance to prevent backwater. When necessary this requirement should not be neglected.

Such ditches should be located along the side of the road from which the most water comes, so as to prevent as much water as possible from soaking into the roadbed. Large open ditches may be placed between the regular gutters and the fence line, with occasional openings through the shoulders between the gutters and the main ditches. When large deep ditches are located alongside the roadbed they should be protected by suitable guard rails.

All springy places and most clay roads will be improved by underdrains. To be of the most value their trenches should be filled with cinders, coarse gravel or broken stone up to the road surface; otherwise the road becomes puddled on the surface and prevents a great deal of water from entering the drains. Two lines of tiles from two to three feet deep parallel to the center line of the road and from eight to ten feet distant on either side will be found of great value to all clay roads.

On springy hills the drains should run diagonally from the center to either gutter, where suitable outlets must be provided. The frequency of such drains will depend upon the amount of water to be handled.

Underdrains in each gutter or along the margins of the grade, as above mentioned, are of great value where large open ditches are not required to handle the surface water, inasmuch as they lower the water plain some two or three feet more than would be possible without them. A drain down the center of the road, having the trench filled with some coarse material, often serves the same purpose.

Clay roads should be kept well crowned, having from one-half to three-fourths of an inch rise to each foot in width. Any more than this is a positive injury and should not be tolerated. They should be smoothed down each spring after the ground has settled and as often thereafter during the season as they become rutted. After being leveled with a scraper a good rolling will prevent their becoming rutted so easily again and will leave them in excellent shape to make fine summer roads. In fact, there are no better temporary roads than well shaped clay roads when dry, smooth and hard.

Sand roads need quite different treatment. They should be but slightly crowned and have very shallow gutters. They can also be made rather narrow. It is better to allow the sides to grass over whenever possible. Their worst enemy is dry weather, and they should be built and repaired with a view to retaining as much moisture as possible. Trees should be planted along the roadside and the natural ones and much of the brush allowed to grow—in short, it is best to do everything possible to keep them very much in the condition of forest roads.

Resemblances. "Everybody says the baby looks like you. Doesn't that please you?" "I don't know," replied Popley, "but I tell you what—I'm glad nobody thinks of saying 'I look like the baby.'"—Philadelphia Public Ledger.

Uncommon Wisdom.

Some Michigan People Profit by Neighbors' Experience.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it, and every man, woman and child in Michigan who knows the misery of a bad back, the nervousness and restlessness caused by kidney complaint or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice. Arthur J. Pierce, of 38 Monroe street, Coldwater, proprietor of the cigar factory on Chicago street, says: "For some months I was annoyed with a dull aching pain across the small of the back at times quite severe. I saw Dean's Kidney Pills recommended for such troubles and procured a box at E. K. Clarke's drug store. The remedy relieved me right away and it was only a short time until I felt as well as ever. I highly recommend Dean's Kidney Pills to others troubled as I was."

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Don't, and take no substitute.

The man that never has to write off a loss has mighty little else to post.

An eastern millionaire has cinched the domestic situation by marrying his cook.

Look out for the woman who says: "You know I never gossip, but did you hear," etc., etc.

Can it be true that Ma is flirting with Mr. Touissant, chief of the Chinese bandits? We'll tell Pa.

When a man slaps the public in the face he need not expect it to drop on its knees and kiss his hand.

Alfred Austin now publishes an ode entitled "Forgiveness." But if Mr. Austin is really penitent let him keep quiet.

An automobile has caused a St. Louis man and his wife to go into the divorce court. It has now done its worst.

The use of "mustard brown" socks in the United States army will probably result in placing every soldier in the smart set.

At first it is hard to find a name for the baby, but when the poor old man gets to walking the floor at nights with it names come easy.

The widow who has scattered the ashes of her husband on two continents may be trying to make extra work for the last day.

A Boston paper says of "dear, delightful Joe Jefferson" that "eternal sunshine radiates from his brow." To all of which Rip will probably say, "O, fudge!"

If you find, in looking through your pile of \$100 bills, one with a poorly executed portrait of Thomas H. Benton upon it, you may know it is a counterfeit.

In the absence of explicit directions in the cook books for eating crow it is recommended that the bird be well cooked, lightly seasoned, and swallowed hastily.

Of course the university of New York, which is going to confer the degree of master of letters on Mrs. Russell Sage at the commencement exercises, isn't bidding.

A certain railroad is trying to determine the value of some Sioux Indians injured in a wreck, but who would not rather be "Comes Last" than "Kills Ahead?"

Joseph Chamberlain foretells a time when "America will have to import its foodstuffs." Evidently Mr. Chamberlain doesn't take any stock in the race suicide bog.

A French scientist says automobilism causes consumption. He may not be altogether right, but it can be said that few automobile enthusiasts are likely to die of consumption.

A Wabasha, Minn., paper states that a young woman of that town "is sick of being threatened with appendicitis." And if they don't quit threatening her with it there will be trouble.

A Pittsburg man went home the other night and shot himself because supper wasn't ready. Being afraid of the cook he probably thought that was the only way to get even with her.

If the clergymen of the various denominations keep on agreeing not to marry divorced persons, the justices of the peace will be buying automobiles and living in brownstone fronts.

A Pawtucket (R. I.) lad batted a ball in such a way that it landed in the powerhouse of a cotton mill near the grounds and stopped the plant for the rest of the day. The boy made a run for home.

The latest educational authority advises parents to "kneel down and pray" before walloping their children. Down this way they generally reach up for a fresh hold on the subject under discussion.

The government of Queensland has offered a prize of \$25,000 for a sure method of exterminating the opuntia, a species of cactus. That's easy. Pull every opuntia up by the roots. We claim the money.

Ants that are fierce enemies of the boll weevil are being brought to this country from South America. In a few years there will be wild appeals for somebody to discover how we may get rid of the ants.

A woman who claims to be the daughter of Cecil Rhodes has been discovered in South Carolina. The wonder of it is that widows and daughters of Cecil haven't been bobbing up in all parts of the civilized world.

Members of the American Medical association have made the discovery that the young men of this country are working themselves to death. This is one of the results of trying to run automobiles that break down every three miles.

Important News From All Parts of Michigan

Happenings of the Week Chronicled Briefly For Busy Readers

Red Wins—Uncle Sam Pays.
Joyfulness unalloyed prevailed in the little village of Athens Wednesday, occasioned by an unusual contact with Uncle Sam's beneficence. Half a hundred Indians—braves, squaws and papooses—came into the possession of the largest amount of money they ever saw in a bunch, each being presented with \$20 by a special representative of the United States government.

The Athens Indians had one Moguego for their leader, and somewhat his interests in the village were of the prairie were overlooked. His descendants—a small army of them, some of whom did not know they were descendants until notified—have for years been fighting to regain what was due to the long-dead Moguego.

G. A. R. Officers.
The annual encampment of the Michigan G. A. R. in Battle Creek was largely attended and a very humorous and enjoyable occasion. The business closed with the election of officers. The roster standing as follows:

Commander, George H. Hopkins, Detroit; senior vice-commander, John J. Cornwell, Battle Creek; junior vice-commander, D. J. Willison, Jackson; medical director, Dr. W. W. Root, Lansing; chaplain, Rev. William Putnam, Lansing. The executive committee and 19 delegates to the national encampment will be named this morning.

The Sons of Veterans elected the following officers: Commander, Frank J. Kellogg, Battle Creek; senior vice-commander, H. A. Larock, Dimondale; junior vice-commander, James A. Dana, Muskegon; and delegate to national convention, Walter Raines, Battle Creek.

Ladies of the G. A. R. elected Mrs. Nellie Ward, Benton Harbor, commander; Mrs. Flora Vos, Caseville, senior vice-commander; Mrs. John Merritt, Muskegon, junior vice-commander; Mrs. William Bailey, Detroit, chaplain.

Tie-Up Is Over.
The Masters and Pilots association gave up its fight with the vessel owners late Tuesday night and the rush for boats began at once and telegrams were flashed to the owners all along the coast.

A certain railroad is trying to determine the value of some Sioux Indians injured in a wreck, but who would not rather be "Comes Last" than "Kills Ahead?"

Detroit Murderer Caught.
William Stevens, who is wanted in Detroit for the murder of Ralph Calkins, a bartender in Bowman Bros. Great avenue saloon, on the night of May 13, has been captured in St. Louis while, it is claimed, he was perpetrating a hold-up similar to that in which he is alleged to have shot down Calkins.

W. B. Comstock Hurt.
William B. Comstock, the well known Alpena, Mich., capitalist and railroad man, was injured in a collision on the Alpena and Grand Haven line between Alpena and Geneva and through Canandaigua, N. Y., was injured in a collision on the eastern and uncompleted end of the line Sunday Mr. Comstock, F. W. Walker, H. A. Haigh, of Detroit, and others of the company were on board two work trains that came together and all were badly shaken and sustained minor injuries. Mr. Comstock's were the most serious injuries and his physicians fear internal complications.

Smelt Offices Go.
The meeting of the Michigan postmasters in Lansing Thursday afternoon was devoted to the reading of papers. In an address on "Fourth Class Boys," Postmaster Ely, of Davidsburg, declared that the fourth-class men see no danger to themselves in the greater development of the rural free delivery service, bringing the mail out from larger offices. He said that over a fifth of the fourth-class offices in Michigan have already been closed on this account.

Caught the Crooks.
George Briggs, an Adrian farmer, is a champion "stringer," and two alleged very clever green goods men are locked up as a result. They gave their names to Sheriff Shepherd as Charles Brown and Henry Love. They offered him counterfeit money cheap. Briggs tipped off the sheriff, and then made believe negotiations with the men. After several weeks "fun" with them, he handed them over.

Frank Arnold, of Decatur, despondent, tried to end his life by aid of arsenic. He failed to take enough.

Brief and Effective.
Probably the shortest address ever given to a jury in the United States was made by Prosecuting Attorney Hooper in Justice Merritt's court in Battle Creek, Dell Davis, a well known character about town, was on trial charged with the larceny of a whip from a farmer's buggy. Davis's attorney made a long speech to the jury, claiming that Davis only borrowed the whip to kill a rat. When he got through Prosecutor Hooper arose, looked at the jury and exclaimed "Rats!" and sat down. The jury convicted Davis at once.

Larrison Is Insane.
Charles O. Larrison, the Detroit man brought to the Ionia prison last week on conviction for a serious offense against his step daughter, imagines he is in a secret room in a Detroit hospital and that gas of various kinds is turned on so that his mind will be weakened. He imagines that a resort is also connected with the hospital and that the police have twice raided it. Today he was carefully examined by Prison Physician Haynes, who pronounced him of unsound mind and Warden Hill ordered his transfer to the state asylum.

Claimed He Was Swindled.
A man registered at the Wayne hotel as George Andrews of Kansas, was arrested near the Michigan Central depot, Detroit, Sunday night at the instance of ex-Congressman F. W. Wheeler, who alleges Andrews swindled him out of \$6,000 some time ago. Mr. Wheeler was walking on the street when he saw Andrews. On being seized by a policeman the prisoner tried to chew up and swallow a letter giving the police many pointers when they secured it. The officers claim Andrews is an important capture.

Train Broke Apart.
A freight wreck occurred Saturday on the Michigan Central just west of Glenwood which caused several thousand dollars damage. A long heavy loaded train broke in two coming down grade, and when the two portions came together several cars were demolished, 150 feet of track was torn up and two cars loaded with wheat stood crosswise on the track, effectually blocking all traffic. All through trains were sent around by the air line.

STATE NOTES.
There are 12 cases of smallpox in Holland township. The Detroit & Mackinac railroad will install service on July 3 on its new extension to Cheboygan.

The National Chickery Co. of Bay City, is building the largest plant in the state at a cost of \$30,000. Orrie Cove, of Bay City, took land-annum with suicidal intent, but was pumped out and will recover.

E. M. Gline, an Iron River barber, in a despondent fit placed a revolver in his forehead and killed himself. By popular vote it was decided to build an \$8,000 high school to replace the one recently burned in Lake City. Arthur L. Spooner, of Sault Ste. Marie, a railway mail clerk, shot himself in the head. If he recovers he will be blind.

The war department has allowed the state of Michigan \$27,925 for the purchase of equipment for the National Guard.

Florence Whipple, aged 15, of Menominee, is missing from her home and her parents fear she has been enticed away.

A meeting has been called to vote on a new \$3,000 addition to the high school building for the normal school in Standish.

The division headquarters of the Alpena & Grand Haven railroad are to be moved to Owosso from Durand in a few months.

The right of way for the Ionia-Owosso electric line is being rapidly granted by farmers and grading will begin September 1.

Cadillac will have a Carnegie library. Two wealthy citizens of the city have presented a site and work will begin soon.

Jacob Roosevelt, one of the best known farmers of Eckerle township, hanged himself in his barn while temporarily deranged.

George Hancock, 16 years old, recently adopted from the industrial school was drowned in Brewster lake Sunday while swimming.

Only married men are now eligible on Saginaw's police force.

The convention of the Michigan Blind People's association will be held in Lansing, June 21-23.

Lansing's assessed personal valuation this year is \$10,599,329 as compared with \$8,721,155 last year; real estate valuation is increased \$1,879,365.

Will Williams, of Lapeer, met with an accident on the Great Northern railway which may cost him his life. He is now in a hospital at Crookston, Minn.

Harry Pattee, a fireman on the Pontiac, Oxford & Northern railroad, was struck in the abdomen by a flying stick while switching cars and terribly injured.

By the bursting of a soda water gas tank J. Edwin Pennycook, of Ann Arbor, had his leg so badly mangled yesterday afternoon as to necessitate amputation.

While Harry Root was sawing wood with a large circle saw on the farm near Clayton his foot caught in the saw and was nearly severed just above the ankle.

The class of 1900 of the Michigan Agricultural college has donated a handsome drinking fountain to the college and it will be in place for commencement.

Frank Murray, 38, a sailor beating his way to Chicago, fell under a freight train at Niles Sunday and was crushed to death. He was going to Chicago to see a brother.

As conditions at Jackson now permit the reception of convicts Gov. Bliss has withdrawn his request to the circuit judges that they sentence them elsewhere.

The barn on Wm. Rosenberg's farm, in Newburg, burned and two calves and several hogs were cremated. Some valuable farm implements were destroyed. Loss, \$1,500.

Over \$300,000 is being expended on improvements in Charlotte this year, mostly for residences, but including the new Masonic temple and the Beach Bros. foundry.

Gov. Bliss has granted the desired requisition on the governor of Missouri for Wm. Stevens, the alleged murderer of Private John O'Connor, and Ralph Calkins at Detroit.

Burglars broke into the office and forced the safe of the Itasca Roller Mills Co. Tuesday night, securing nearly \$300 in cash and also carried away many valuable papers.

Lenord Houghtaling, of Flint, who went to Malta, Mont., some time ago, was shot in that city and died from his wounds. He was working to earn money to return to his home.

By 24 votes Three Rivers fails to get a new high school. A special election was called to vote on the proposition to bond for \$25,000 for a building to replace the high school which burned last winter.

Miss Julia O'Connor, of Owosso, has asked the war department concerning the death of Private John O'Connor, killed last month at the battle of Lake Ligausa, P. I., and whom she believes to be her brother.

"No friends, no relatives, perfectly sober, drowned—John Vanderlick." Such was the note found pinned on the body some boys fished up from beneath the wreckage of a shipwreck. The dead man was a laborer.

Richard Brewer, the Montrose young man who has been in jail for some weeks, charged with abusing 5-year-old Edith Hobson, of the same township, pleaded guilty and was remanded to jail to await sentence, which will likely be next week.

Six years ago the assessed valuation of Boyne was only \$55,000; now it is over the \$700,000 mark. The population was about 800 and every soul dependent; now it is estimated close to 3,000, with moving suburbs to the north and south.

Fire Friday morning destroyed one large building of the Johnson Cooper Co., in Coldwater, Loss \$5,000; insurance, \$3,000. Sixteen coopers lost \$400 worth of tools. The portion of the plant destroyed made pork barrels for Armour & Co.

Sherwood Kenison, of Millington, says he will not make complaint against his brother half and Arthur Haskell, who, it is alleged, eloped for the third time a few days ago, as he has not the time to spare at present, his crops needing his attention.

Gearing Bros., of Detroit, the contractors who will erect the new life saving station and government building on Middle Island, now have a crew at work. The site is now covered with a dense growth of timber, which will have to be cleared away.

The News of the World Told by the Telegraph

Items of Current Interest Gathered From All Parts of the New and the Old World

National Convention.
The official program for the week and deliberations of the Republican national convention in Chicago is as follows:

Tuesday, June 21—Convention called to order by Chairman Henry C. Payne; prayer by Rev. Timothy P. Frost, Reading of the call for the convention by Secretary Elmer Dover; introduction of "Temporary Chairman" Elihu Root, who will address the convention and report the names of the temporary officials; appointment of committees on permanent organization, credentials, rules and resolutions.

Wednesday, June 22—Prayer by Rev. Thomas E. Cox; report of the committee on permanent organization; introduction and speech of Permanent Chairman Joseph G. Cannon; report of committee on rules; naming by state delegations of the members of the new national committee.

Thursday, June 23—Prayer by Rev. Thaddeus A. Sivalley; call for presidential nominations; presentation of the name of President Roosevelt by Frank S. Black, of New York, and seconding speeches by Sen. R. Beveridge, of Indiana, and others; nomination of vice-president; selection of committees for notification of candidates.

The Slocum Horror.
Like a city of the dead was the German settlement in the vicinity of St. Mary's Lutheran church, in East Sixth street, New York, where they were burying Saturday more than 100 victims of the Slocum horror. Not a block was without its funeral. There were rows of dwellings with a hearse at every door. In some houses a burial service was being read on every floor, and the hearse stood two and three abreast at the curb. Unceasing search for over three days and nights has resulted in the recovery of 581 bodies of victims of the disaster. Of these, 541 have been identified. Hopes are expressed that comparatively few bodies remain to be recovered.

Sunny Cuba.
The recent hurricane in the province of Santiago de Cuba has resulted in the death of more than 100 persons. The most severe loss was at the village of El Cobro, where about sixty persons were drowned. The river rose instantly, destroying the lower part of the village. Bodies were carried eight miles to the bay. Thirty bodies were recovered.

Six persons were drowned at Daiquiri, fourteen at El Caney and many in the surrounding country. The list is still incomplete. All the bridges at El Cobro, several at Daiquiri and four of the central railroads and miles of track have been destroyed.

The P. M. a Great System.
The syndicate which controls the Pere Marquette system, and which recently purchased the Cincinnati, Hamilton & Dayton, has just closed a deal by which it has acquired the Chicago, Cincinnati & Louisville road. By its recent purchases and trackage arrangements the Pere Marquette has secured terminals in Cincinnati, Chicago, Springfield, Fort Wayne, Toledo, Detroit and Buffalo, and has assumed proportions which warrant the belief that it soon will be absorbed by one of the larger systems, possibly the Vanderbilt.

CONDENSED.
Boston's big celebration of Bunker Hill day resulted in over 200 people seeking aid from injuries. Revolvers, firecrackers, caps, torpedoes and night fireworks all helped the gruesome work along.

A huge portrait, 20x17 feet, of the late Senator Marcus A. Hanna has been hung in the Coliseum at Chicago, the only picture there. It is directly behind the speaker's platform in the most prominent place possible.

Thos. F. Kennedy, said to be a member of the noted Knox-Whitman gang of forgers, was arrested in New York yesterday, charged with having raised a \$10 draft to \$10,000, depositing it in the German-American bank of Buffalo and then drawing out \$500.

Rockefeller in Copper.
The announcement is made of a combination of mining interests of America, with John D. Rockefeller at its head. The capital of the merged companies, it is said, will be \$2,500,000 and the purpose is to control the mineral output of the United States with the possible exception of the Calumet & Hecla copper mine in Michigan.

The best fears no test.

EXCURSION STEAMER GENERAL SLOCUM.

(Vessel Burned in Hell Gate, East River, With Great Loss of Life.)

Theophile Belanger dropped dead of fright at St. Scholastique, Que., as the hangman clicked the lever which was to drop Belanger through the drop.

Charles E. Cook, a Fire Island Fish Co. manager, jumped into the bay near Long Island, after a wad of bills that blew from his hands. He rescued only \$1 and barely escaped drowning.

J. H. Hull, clerk of the Wolf Lake club house near Chicago, whose dead body was found in a naptha tank car, is now said to have been suffering from a delusion that officers were pursuing him, and to have jumped into the naptha for safety.

Bell Says No Apologies.
Adjt.-Gen. Bell says concerning the deportation of union miners and others from the Cripple Creek district:

"The powers of the military in dealing with an organization engaged in insurrection against the lawful authorities of the state in a conspiracy against the lives of its citizens, recently has been defined by the honorable supreme court of this state in re Moyer, to which I refer you for my authority. I am taking only such steps as are necessary to restore peace in this community and to render safe the lives of its citizens. Many innocent lives already have been sacrificed and the authorities of Colorado propose that these assassinations shall cease."

"In older and more settled communities the election of who are and who are not desirable citizens may be a slow process. The people of Colorado love order and peace and law, just as much as those of the older communities. But in our state, sometimes the election of citizens in a hurry and the murderous, unspeakable outrages at the Independence station a week ago, coming as a culmination of many hidden crimes, all traceable to the Western Federation of Miners, precipitated such an election of citizens."

"It is not uncommon often here for the peaceable citizens to go to a man of the community and tell him to go, that he is not wanted. Such a notice is never disregarded. The one notified goes for the good of the community; if there is no other law there is at least a fundamental one that gives the people the power to hang one man, send another to the penitentiary, fine a lesser culprit and the unwritten power to impose the lighter sentence of enforced departure to other fields for those who, not having transgressed, the written law are yet disturbing elements in the general peace."

"These men were deported to the Kansas-Tomorrow line and more will follow tomorrow, for which no apologies are made to any other field; they return they will be immediately placed in the military prison and there remain indefinitely."

Mrs. Charles Holt, wife of a farmer near Rodney, committed suicide with rat poison because she was tired of life.

The men who held up the North Coast limited near Bearmouth, Montana, secured \$65,000 from the Northern Pacific Express Co.'s safe, which they dynamited. The safe was billed through from the coast to Chicago.

AMUSEMENTS IN DETROIT.
Week Ending June 25.

TEMPLE THEATER AND WONDERLAND.—Afternoons 2:15, 8:15 to 10:15; Evenings 8:15, 10:15 to 10:45.

STEAMERS LEAVING DETROIT.
Standard Time.

WHITE STAR LINE. For Liverpool at 8:30 a. m. and 3:30 p. m. For Toledo at 4:30 p. m. Leave for London at 6:30 a. m. For Detroit & Cleveland N.Y.—Cos-Foot of Wayne St. For Cleveland daily 10:20 a. m. For Mackinac Island at 6:30 a. m. For Detroit Buffalo Steamboat Co.—Foot of Wayne; for Buffalo Mon. Wed. Friday 4:00 p. m.

THE MARKETS.
LIVE STOCK.
Detroit—Choice steers, \$5 25; good to choice butcher steers, 4 00 to 4 25; light to good butcher steers and calves, 2 50 to 3 50; heavy fat, 4 25; mixed butcher's fat cows, \$3 00; canners, \$1 25 to \$1 50; common butchers, \$2 50 to \$3 00; good well-bred feeders, \$3 50 to \$4 00; light stockers, \$2 00 to \$2 50.

Milch cows and springers steady at \$25 00.

Veal calves—Trade barely steady at last week's prices. Best, \$4 75 to \$5 00; others, \$4 00 to \$4 50.

Hogs—Good to choice hogs, \$4 00 to \$4 25; mixed, \$3 50 to \$4 00; light to good, \$3 50 to \$4 00; heavy, \$3 00 to \$3 50; fair to good, \$2 50 to \$3 00; common, \$2 00 to \$2 50; bulk of sales at \$4 00 to \$4 25.

East Buffalo.—Best export steers, \$6 00 to \$6 25; best 1,200 to 1,300 lb shipping steers, \$5 25 to \$5 50; good to choice, \$4 50 to \$5 00; canners, \$4 85 to \$5 10; 900 to 1,000 lb, \$4 60 to \$4 85; best fat cows, \$3 75 to \$4 00; mixed, \$2 50 to \$3 00; best fat heifers if dry fed, \$4 75 to \$5 00; medium heifers, \$4 00 to \$4 50; light to good, \$3 50 to \$4 00; fair to good, \$3 00 to \$3 50; common, \$2 50 to \$3 00; fresh cows and springers, steady, best, \$4 00 to \$4 50; medium to good, \$3 50 to \$4 00; fair to good, \$3 00 to \$3 50; bulk of sales at \$4 00 to \$4 25.

Hogs—Mixed, \$5 15 to \$5 25; medium heavy, \$5 20 to \$5 25; yorkers, \$5 10 to \$5 25; pigs, \$4 90 to \$5 20; roughs, \$4 40 to \$4 50; stags.

Sheep.—Best spring lambs, \$6 75 to \$7 00; fair to good, \$6 00 to \$6 50; culis, common, \$4 50 to \$5 00; best yearling, \$4 50 to \$5 00; fair to good, \$4 50 to \$5 00; culis and hucks, \$2 50 to \$3 00; ewes, \$4 25 to \$4 50; weathers, \$5 25 to \$5 50; yearlings, \$6 00 to \$6 50.

Corn.—No. 3 mixed, 49¢; No. 3 yellow, 1 car at 52¢, closing 51 1/2¢ bid.

Alkali Ike, a noted western character, has turned up at Fort Steele, alive and well and strenuously denies the report recently published that he was dead. Smoked from burning cigars in the basement of Holtz's cafe, on Broadway, New York, overcame 20 firemen, their eyes paining so intensely that they could not continue work.

A check for \$135,057 04 has been paid to the United States government by the Louisiana Purchase Co., this sum being 49 per cent of the gross gate receipts from the day of the opening, April 30, to midnight June 15.

Philanthropists Seek to Save Poor Children of Great City

A tent hospital for tuberculous children has been opened at Sea Breeze, Coney Island, New York. It is under the management of the Association for Improving the Condition of the Poor, being a part of their summer colony of homes. It is the first hospital in America to be maintained in winter as well as in summer for the exclusive purpose of seaside treatment of the non-pulmonary forms of the disease, such as scrofula and tuberculosis of the bones, joints and lymph lobes.

It has been shown in France, England and other countries that this peculiar form of tuberculosis can be cured by sea air. In France, where there are the most successful tent hospitals, girls and boys suffering from tuberculosis are kept as near the water as possible, some living on ships anchored out at sea, while in other cases ambulances are employed to carry the children to the ocean edge every day.

The tent hospital, though the idea of scientific men, is partially the outgrowth of the intuition of nurses. A large number of tuberculous children have been coming to the Sea Breeze colony every year, and the effect of the salt air upon them so impressed the attendants that they recommended an ocean hospital, to be kept open the year around. Some \$15,000 was appropriated in February and the work started. Other help has been given, and the sanitarium is now complete.

The institution is not an exact copy of any European beach hospital, but represents the best ideas of all sanitariums of its type. The camps are as picturesque as they are useful. Built on a gigantic octagonal plan, the ocean home seems a veritable nest of tents. Each separate one rises from a point of the central platform, and is devoted to a special purpose. The platform is generous and comfortable, and encircles an open space of sand. The whole is just above high water mark. One tent is the office, another the

Hospital, For the Treatment of Pulmonary Diseases Established on the Sea Shore—Has Been of Incalculable Benefit in Short Time.

Patients were changed from darkened places to those where there was plenty of sun. We furnished woolen clothing and nourishing food and increased the heating arrangements. In one branch of the work we added a corps of disinfectors to our staff. These trained visitors went directly to the homes of diseased children, cleaned every room, disinfected all furniture and clothing, and gave little talks to members of the family on how to prevent the spread of the disease.

"Our tent hospital will first of all try to cure the little patients who have been carried through the winter by our workers. We will then take in convalescents from other sources who would in the general run of things have to go back to sweltering tenements and perhaps undo all the good they had received at the sanitariums."

"The tent hospital is the climax of our fresh air work for tenement children. In the tents they will practically be living outdoors. There is very little hope of recovery for a tuberculous child who is obliged to sleep in

At Play.

departments, police headquarters, houses and parks are made of sand, shells and pebbles, and the children mimic the ways of the city in a very lifelike manner. The seaweed floating in with the tides is a constant joy. The kind that snaps is called firecrackers. The feathery sort trims little sunbonnets, and the brown coral types make wonderful dress trimmings for miniature dames. The fiddler crabs, jellyfish, and all small dwellers of the ocean are captured and made friends with. Often they are swapped to the orphans at the St. John's home next door for more concrete objects, such as pink candy sticks or marbles.

When the wild roses come, rose parties are the order of the day, and the home can hardly hold the dower treasures brought in by the little ones. September ushers in the goldenrod, the favorite of the east Side mothers, and bundles of it are sent home by the day parties to the neighbors who can't get a vacation. For the boys there is nothing like baseball. Teams are gotten up by the youngsters, and called after all the colleges, the boys even assuming the names of the big players. The children dance on the piazza, and the mothers rock back and forth, humming and crooning in their willow chairs.

Other fresh air societies are watching the work being done by the association in its tent hospital, and no doubt ere the season passes by plans will be made to dot the ocean front with tents for the isolation and cure of tuberculous cases among the poor children of the Greater City.—New York Times.

Status of the Sun.

"The sun should be regarded as an incipient binary star," says Prof. Bigelow in the Weather Review. Recent scientific work in investigating the circulation of the solar atmosphere in accordance with the laws governing the convective and radi-

GOOD WORK OF FILIPINOS.

Faithful and Industrious in an Unaccustomed Climate.

Sixty Filipinos on the United States cable ship Burnside did excellent work on the rough seas off the coast of Alaska last year. Twenty of them were detailed for laying and repairing cables. They were thus engaged for three months, during which time they experienced a great deal of rough weather, one voyage having been so trying that the Burnside narrowly escaped destruction. The Filipinos, however, in spite of the severe climate and the difficult nature of the work, proved so efficient and trustworthy that Lieut.-Col. Allen of the United States signal corps says in his official report: "The work was always cheerfully performed by them, and in no case during the entire trip was any sort of punishment administered to these men. They continually grew in strength, and with the exception of slight colds from exposure they were in excellent health throughout. The point desired to be made prominent is that these men taken from the Philippine islands and sent directly into the cold of Alaska were able to perform all the duties required of them in the most satisfactory manner." Gen. Greely says: "The marked success of the past year has caused the chief signal officer of the army to engage a Filipino crew for the operations in Alaskan waters for the coming summer."

HE GOT THEM MIXED.

Explanation Dawned Rapidly on Mind of Housewife.

A lady walked into a grocer's shop one day with her sleeves turned up to her elbows and a fighting light in her eyes. "This . . . here," she observed with a sniff, as she banged a piece of yellow substance on the counter, "is the soap that does the washin' of itself; the soap what makes ev'ry washin' day a kind of glorified bean feast; the soap what gits all the linen as white as snow and as sweet as a hazelnut by dinner time, and lets the happy housewife spend the rest of the day playin' with the children, and here am I been scrubbin' three mortal hours with that lump, and ain't got so much lather out of it as I could get from a brickbat." "I beg your pardon," remarked the grocer, "but it isn't the soap. Your little boy came in here yesterday for half a pound of both soap and cheese; that's the cheese."

"The cheese!" gasped the lady. "That accounts for the other thing, then."

"The other thing?" queried the grocer.

"Yes, the other thing," came the reply. "I was layin' awake half the night wonderin' what it was made the Welsh rabbit we had for supper taste so funny."—Kansas City Independent.

Kate Sanborn Queries.

After speaking of vast piles of decaying carcasses of the herons, slaying their plumes and the thousands of young birds left to starve, all for the sake of securing the plumes for women's hats, Mr. Scott says: "I wish clearly to emphasize the fact that I do not blame the women who use these decorations, for men are the responsible parties. No woman ever wears a decoration of any kind, much less the feather of a bird, for her own pleasure, or to attract the attention of other women. The object for which women wear decorations is to enhance their attractiveness and beauty to men, not to themselves, or to each other. And as long as men care to have women's hats decorated with feathers and express their approval by admiration bestowed, just so long will the custom endure."

Does Mr. Scott know women as well as he does birds?—From her article in National Magazine.

Play you Are the Sunshine.

You say you're feeling blue, lad?
"That things are going wrong?"
If that's the case for true, lad,
Cheer up and sing a song.
You're the sunshine like you, lad,
For all-for me and you
To play you are the sunshine
And the stars be blue,
When the skies are blue and clear, lad,
When'er you drop a tear, lad,
I saddens all the rest.
Smile on—don't mind the knocks, lad,
Just keep your own heart true.
Play you're the golden sunshine
And let the sky be blue,
When you are feeling blue, lad,
And half inclined to cry,
You're the sunshine like you, lad—
Intended for the sky.
The sunshine role sits better
On husky chaps like you,
Then be a human sunbeam,
Let but the sky be blue.
—Baltimore American.

Long Term of Faithful Service.

On Tuesday, May 10, Prof. Charles Koelt completed his fiftieth year as organist of St. Mary's Catholic church in Ottumwa, Iowa. His compensation has always been small. He began with a little melodeon and it is said that he has never omitted a mass, vespers or benediction at which he had promised to play. He is now 69 years of age.

In a Profitless Chase.

In regard to the British operations in Somaliland the London Telegraph said recently: "Our chase of the mad mullah has lasted longer than the chase of Dewet and we have not caught him yet. Our troops have done their best in a region which produces nothing and has defied all attempts to make it grow laurels."

Resigns from Brown Faculty.

Archibald Delaney, for nearly twenty years steward of Brown university, has resigned, his resignation to take effect Aug. 1. Mr. Delaney has served the college in the capacity of steward since 1885 and is well known to Brown men throughout the country. He will be succeeded by E. A. Buringame, a civil engineer of Providence.

CHINESE SOLDIERS CUT SHORT A MOST PROMISING CAREER

LEWIS ETZEL

(Young American Journalist Who Was Slain by Chinese Soldiers.)

JAPAN'S MISRULE IN KOREA.

Probability That She Will Avoid Former Mistakes.

Once again Japan finds herself in control of Korea, "land of the morning freshness." This is by no means a new experience for Japan. It was in the third century A. D. that the empress regent of Japan herself led an expedition against Korea. From that time to the end of the fourteenth century, with a few interruptions, the relations of Korea to Japan were those of vassal to suzerain. Then China came into ascendancy and from that time on up to the war of 1894 she retained the principal control of the hermit kingdom. That war ended Chinese suzerainty in Korea and gave to Japan the control of a country which it had coveted for centuries.

But the Japanese showed little wisdom or moderation in their treatment of the Koreans. The admiral of the Jap must pass over the period from 1894 to 1897 with closed eyes lest his confidence in the intelligence of Japanese statecraft receive a severe blow. Korea was ruled with a high hand. Business and political morality were thrown to the wind, the public offices became more corrupt than before, if such a thing were possible in a country cursed for centuries by a system of official corruption for which it would be difficult to find a parallel.

At the same time a series of the most drastic reforms was instituted, and Korea shuddered with horror at the desecration of its most revered customs and traditions. Japan, flattered by its brilliant military success, became irrational. She insisted upon the abolition of the Korean method of wearing the hair. The king was made to cut off his topknot and the people were compelled to do the same. The queen, a bitter enemy of Japan, was murdered, the Japanese minister being an accessory to the outrage. Then the terrified king fled to the Russian embassy for protection, a mob of Koreans murdered the agents of Japan in the higher official positions, and the uprising swept Japan from the Korean coast. Russia became the dominant influence.

Now the fortunes of war have given Korea to the Japanese once more. It is to be hoped that they will profit by their former experience and rule Korea with moderation. The art of governing a colony lies in non-interference with the non-essentials and concentration upon the essentials. The Japanese are quick to learn. It is to be hoped that in their future treatment of Korea they will not make the mess of things they did in 1894-7.

Bourke Cockran to Marry?

It is rumored that Bourke Cockran will not remain a widower much longer. His name is being coupled with that of Mrs. Adolf Ladenburg, the handsome widow of the banker, but then the gossips find a new suitor for Mrs. Ladenburg every few months. However, Mr. Cockran's liking for her is not concealed, and at the Graveyard race track he is her shadow. Mr. Cockran is one of the most distinguished looking men on Long Island.

German Historian Dead.

The death is reported from Jena of Dr. Ottokar Lorenz, a well-known historian. He began by studying law, but after 1850 philology and history claimed his attention. He was made professor of history at Vienna in 1860, and was employed on the state archives, but lost the latter position in consequence of his political views. In 1885 he went to Jena as professor. His contributions to German and Austrian history were numerous and valuable.

DARTMOUTH TO LAY STONE.

Descendant of Englishman After Whom College Was Named.

Lord Dartmouth will lay the foundation stone of the new building to be erected by the alumni of Dartmouth college in place of the one burned some time ago. The present earl is the fourth, a direct descendant of the man after whom the college was named by Dr. Wheelock, its first president. His lordship has the right to bear the arms of the first president of the United States—three stars and two stripes—for the first Lord Dartmouth was a son of Elizabeth Washington, oldest daughter and chief heiress of Sir William Washington of Eastington, Leicestershire. The earl has devoted recent years to literary and historical research, and his services have been appreciated by King Edward, who has appointed him one of the members of the royal commission on historical manuscripts.

HIS PERIOD OF LEISURE.

Work as Organizer Completed, Von Moltke Waited for War.

Talk of army reorganization recalls a story told of Von Moltke, the great German military master, who held that when war begins the work of the organizer ceases. In 1870, a few days after the mobilization of the Germany army had been ordered, a friend of Von Moltke, who was anxious to see him on important business, called upon him in some trepidation of mind, expecting to find him overwhelmed with work. He was shown into the count's study and found him lying on a sofa reading a French novel. "You could not have come at a better time, my dear fellow," was his welcome. "My work was ended when mobilization was ordered. I begin again when we move to the front."

BACK FROM FOOL FEAT.

Man Who Crossed Ocean in Seventeen-Foot Dory Home Again.

Capt. Ludwig Eisenbaum, the lone navigator who crossed the Atlantic from Boston in a seventeen-foot dory, has come back to New York as a member of the crew of the Red Star line steamship Kroonland, from Antwerp. He brought his dory with him, and it is said that both will be seen later at the St. Louis exposition. The captain's trip was almost a constant fight with death. Twice he was sighted in mid-Atlantic by passing steamships, and the skipper of one vessel spent considerable time urging him to abandon his perilous undertaking. He had several narrow escapes from drowning and once he lost nearly all of his provisions.

The General Utility Consul.

In those larger towns in Turkey where England is represented by a consul, that official is looked upon as a sort of court of appeals by Christians. Armenians, Bulgarians, Macedonians and even Jews, who have probably never heard an English word spoken, will appeal to the British consul when in difficulties, and he rarely refuses his kind offices. In ordinary cases his unofficial backing of the "giaoours" is effective.

When Mansfield "Does Things."

To Richard Mansfield an enthusiastic woman admirer had paid tribute of praise, adding: "I suppose, sir, that when in the spirit of those great roles you forget your real self for days." "Yes, madam, for days, as well as nights. It is then I do those dreadful things—trample on the upturned features of my leading lady, and hurl tenderloin steaks at waiters." "And you do not know of it at all?" "Not a solitary thing, madam, until I read the papers next day."

WANTED NO LIME IN SHOES.

Wealthy Contractor Did Not Want the Salesman to Give Him Away.

There is a rich contractor living out in Germantown about whom many amusing stories are told. For years he has purchased his shoes at the one place, a little shop on Main street, and thither he repaired the other day, and was waited on by a new clerk, who didn't know him. The new clerk, sizing the customer up as a laboring man, tried on a pair of cheap brogans, which suited the contractor, except that he thought them a trifle hard to pull on.

"I'll fix that all right," said the clerk, and he dusted a little powder in each shoe. Much to his surprise the contractor grew livid with rage.

"What d'ye mane by insultin' me that way?" he demanded. Just then the proprietor came in and inquired as to the trouble.

"The young dude is after puttin' chloride o' lime in me shoes!" exclaimed the irate contractor. "Tis an insult!"

The proprietor explained that the supposed chloride of lime was merely a harmless powder to make the shoe go on with greater comfort, and the old man was satisfied.—Philadelphia Record.

HOT SPRINGS OF MONGOLIA.

Luxurious Surroundings for Bathing Are Not Demanded.

A traveler in Mongolia writes: "There are some hot springs by the road about twenty miles north of Chingpeng. The place is named Tangshan. The arrangements for those anxious to benefit by their healing properties are very primitive. A row of twenty or thirty wooden boxes the size of an ordinary packing case are ranged beside the road. In these sit bathers of every age and both sexes, with their heads protruding. Attendants with buckets continuously refill the boxes from the springs. For less luxurious bathers there is accommodation in a pool which has been dug out close by. In this they squat, scooping up the water and pouring it over their heads with brass basins. It is curious to reflect that establishments like Homburg and Aix-les-Bains have had their origin in such beginnings."

Invitation to the Suburbs.

O, you, who are in the city penned,
Are filled with flowers and song;
These lines, in very pity penned,
Are meant for such as you,
I occupy a cot,
Of quaint Queen Anne design,
And there are few that envy not
This country home of mine.
Now days that longest on an smile
And faded with flowers and song;
Come out and visit me awhile,
And fetch your garden line,
While birds on boughs each brother greet,
This wonder-sight will see
A thousand blossoms fling out their sweets
To woo the wandering bee.
In hammock swung we'll gently ride,
And read or idly dream,
In bosky little nook beside
A swift and crystal stream.
Here sunbeams slant through leafy rifts
And gild the earth, and fill the air,
Where apple blossoms fall in drifts
—Sweet summer's scented snow.
Come out, if healthly you would be—
Let my request prevail!
There's a neat cottage, close by me,
That's luckily for sale—
A lovely, airy garden line,
In orchard hills with fruit—
In fact, I'd like to sell you mine,
If that one doesn't suit.
—Town and Country.

Zulu Policemen.

Amongst all the South African native races there are none better qualified to act as guardians of the law than the Zulus. They are the aristocrats of Africa, dignified, honorable and trustworthy to a degree. They are far finer men physically than the ordinary Kafirs, and this is an additional qualification as regards their courage, that was sufficiently shown in their battles with British troops in the old days. Imitation, it is said, is the sincerest flattery, and this is probably why natives of inferior races often try to pass themselves off as Zulus, although they seldom succeed in securing the distinction of entering the Zulu police force.

Joke Not on Him.

At Oxford university a certain undergraduate was adjudged too fond of dress, and it was decided to correct this weakness by dropping him bodily into a fountain. The victim was seized one night when attired in evening dress and promptly immersed. To the surprise of his assailants, he made no resistance, but seemed thoroughly to enjoy his bath. "This won't improve your clothes, old man," said their leader. "Oh, these aren't mine," he replied, mildly. "I heard what was on, so I slipped in and borrowed your dress things for the occasion."

Rival to Roman Goose.

An instance of a sacred bird giving an auspicious omen and assisting in the triumph of the imperial army is cited by Mr. Ito Miyoji, at one time chief secretary of the Japanese imperial cabinet. When the Emperor Jimmu was marching his forces against Nagasunehiko, a crowd of dazzling brilliance perched upon the point of his bow, and blinding the eyes of the rebels, secured victory to the imperial troops.

Think for Yourself.

There is nothing which adds so much to the treasures of the mind and increases its power as its own thinking. Learn to think for yourself, says the Philadelphia Press. It is all very well to hear and read the wisdom of others. But one should not let this take the place of one's own thought. Many persons are like cisterns; they are good to hold the thoughts of others. But when the time comes that they are forced to rely on themselves they have no power to do so.

Sketch of Tent Hospital.

dining room, a third is devoted to recreation, and the rest are dormitories. The furnishings are not only scientific but dainty as well, white being the prevailing color. Over the canvas tops and sides is stretched waterproof khaki. Instead of glass windows there are wire screenings, letting in plenty of air and at the same time keeping out all insect life. The doors are of glass. Over the platform canvas and khaki are stretched, so that the little patients may have their outings even on rainy days. The very delicate will be carried or wheeled about.

All sorts of ingenious things have been done in the way of ventilation, so that as one sits in a tent he feels as if he were in the open air, though there is no draught and no shock from sun or wind. In front of the nest of tents and nearer the roadway are others devoted to medicinal work.

The association has felt the need of such a sanitarium for some time, as its staff has been unable to treat in their other homes the many children suffering from the disease. Tuberculosis has been one of the greatest hindrances to the labors of the summer colony. It is the terror of the tenements—a monster the doctors

an overcrowded tenement house when the temperature is at 100 degrees. Quiet and nourishment are also two items to be taken into consideration.

"The superintendent, Miss Higgenbotham, is one of the most successful trained nurses among crippled children. She has made a life study of their ailments and needs, and besides the scientific knowledge necessary, possesses a sympathetic nature that binds the little folks to her. They have all possible faith in their recovery if she says so. Special supplies have been furnished for these patients. They include flannel coats, trousers or petticoats, sweaters, woolen bathing clothes and eiderdown capes. The treatment will include special exercises. A novel set of games has been adopted that will add to the children's pleasure and instruction and not fatigue or injure them.

"In this work action is the thing. Delay means death sometimes. A sick mother and languishing babe often have to be sent to the seashore the very day of the visit. Here is another point in our method—that is, we take the family, treat it as a unit, and do not separate mother and children. We even try to have them in a little room of their own at the ocean home.

Interior of a Tent.

and workers are always at war with. Dr. Herman Biggs of the health department estimates that some 3,000 or 4,000 children under fifteen years of age suffer from it.

"In our work at the seaside home," said William H. Allen, general agent of the association, "we are confronted with it on every side. Last season we fought it in many ways. We raised \$1,000 to relieve families where there were bad cases. An item was to present beds so that members of the household suffering from it would not have to sleep with well ones. Quar-

Sometimes this is difficult, families are so large. Our experience proves that there is no danger of race suicide among these people. Families grow larger instead of smaller, if we are to believe figures. Six children is the usual number, eight no novelty, and ten general."

Teaching the children how to play is one of the pleasant tasks of the kindergarten. Many a tenement child knows nothing of amusement. Sand games are perhaps liked best, and the youngsters are very original. Subways, elevated roads, stores, fire

tive action of a large mass of matter contracting by its own gravitation, have led Prof. Bigelow to the hypothesis that "the single fiery envelope conceals two disks," a series of observations extending over many years on the period of solar rotation at various points in the surface shows that "the same meridian of the sun is seen twice in a single rotation of the entire mass, first as the Eastern limb, and second, thirteen days later, as the Western limb." Therefore the sun has a dumb-bell figure of rotation.

Preserving Ancient Costume.

The ancient Roman amphitheater of Arles recently witnessed a strange festival, quite Provencal and half Pagan. Mistral, the poet of the Provence, lamenting the gradual disappearance of the picturesque feminine costume of the region before irresistible "Paris fashions," has succeeded in organizing a provincial movement for its preservation. This was publicly launched at a "maidens festival," in which Mistral himself, as "Emperor of Provence," publicly embraced every Provencal maid who having completed eighteen years, had first signed a "vow" never to discard the traditional dress of her ancestors nor new-fangled notions from the capital.

The Light Over There.

For evermore when sorrow came thorny crowned an gray—
When the black storms hid the heavens,
And the light along the way,
We hear him singing—singing in valleys of despair!
"The bells—the bells are ringing—the light is over there!"
The deep voiced Dark wailed round us,
And not a star undimmed;
Like a lost soul sent from heaven back to a homeless world!
But still that singing—singing, sweet as a Love thrilled prayer:
"The bells—the bells are ringing—the light is over there!"
And the weary world list'ning took heart and courage strong,
And blest him for that ray of light that glimmered in his song,
And an echo to his singing came from dim vales and dour:
"The bells—the bells are ringing—the light is over there!"
—Frank L. Stanton, in Atlanta Constitution.

Is Deserving of Monument.

It is proposed to erect a monument at Washington to the memory of the late Major Walter Reed, U. S. A., whose labors demonstrated that yellow fever is transmitted by mosquitoes and who died in Cuba of the disease while conducting his investigation. It is said that Major Reed's discovery made it possible to stamp out the disease in Havana.

Turning Turtle.

The old salts are laughing at Senator Hale's remark about battleships turning over like a turtle. What he meant to say was turning turtle—a very different thing from turning over like a turtle, inasmuch as turtles do not turn over. When a vessel turns turtle it turns over and resembles a turtle right side up.

Crockery Sale.

10 per cent off on
CHAMBER SETS, LAMPS, JARDINERES
June and July.

We can make up nice sets from seven different stock patterns in English porcelain; nice decorations at reasonable prices.

Look over our Glassware, 4-piece Sets, Water Sets and everything in odd pieces. We try to carry a complete stock of everything in the Crockery line and can save you money.

H. L. HUNT.

Local Happenings.

See the new advertisement of the Model.

W. J. Moore, of Caro, has been in town to day.

Miss Ross, of Detroit, is the guest of Mrs. E. McKim.

Burt L. Hunt, of Manchester, spent Sunday in town.

C. L. Coffeen, of Unionville, was in town last Thursday.

Mrs. J. N. Dorman spent a part of last week in Marlette.

Samuel and W. S. Bell, of Akron, did business here on Thursday.

C. DeVon Soper, of Kingston, did business here last Thursday.

Rich. Duggan has been in poor health a part of this week.

Miss Ella Lee Pla treated the pupils of her room to a picnic to-day.

W. D. Hinkley, of Owendale, was in town on business last Friday.

Mrs. Jno. H. Wheeler, northeast of town, has been quite ill this week.

Mr. and Mrs. J. A. Renshler spent Sunday with friends at Ellington.

F. A. Ellis returned yesterday noon from spending a few days at Detroit.

Wilson Harrison and Chris Kastner, of Gagetown, were in town yesterday.

Mrs. Wm. Moore, of Grant township, is critically ill with appendicitis.

Lester Bailey and Will McCallum called on Gagetown friends on Sunday.

Mrs. M. Parent, of Bad Axe, attended the Hill-Hansler wedding last evening.

W. Kile has leased the O. K. James residence, corner of Leach and Pine Streets.

Miss Nettie Millikin and Mr. Baldwin, of Kingston, were in town last evening.

F. S. Wheat and L. J. Young, of Caro, were business visitors in town on Tuesday.

The ENTERPRISE office is now on Seeger Street, just south of the New Sheridan.

Mr. and Mrs. O. Auslander and O. W. Nique, of Shabbona, were in town on Tuesday.

W. A. Fairweather has a fresh announcement in this issue. Note well its contents.

Mrs. Hoffman, of Pigeon, has been spending a few days with Mrs. W. H. Hebblewhite.

Mrs. L. Deming, of Lewiston, who has been spending some time with friends at Ellington, is now the guest of Mrs. J. A. Renshler.

Miss Edith LaFave called on Gagetown friends on Tuesday afternoon and evening.

N. Karr, the Kingston furniture dealer and funeral conductor, was in town on Monday.

Miss Laura Parent, of Bad Axe, has been here for the graduating exercises and to visit friends.

E. McKim returned last week from an extended trip through the northern part of the state.

A purse found at the Opera House last evening, has been left at this office to await an owner.

Rev. and Mrs. D. H. Kyes, of Deford have been in town this week attending the graduating exercises.

Mr. and Mrs. Hersey Young are enjoying an outing at the ranch of the Alpena Ranching Company.

Midsummer bargains on wash goods is the leading feature of A. A. Hitchcock's new advertisement.

Mr. and Mrs. Wm. Zinnecker are happy over the arrival of a little son at their home on Saturday.

Austin Hobart, of Detroit, is in town this week, attending the graduating exercises and visiting friends.

Miss Irene Blades left on Saturday for a brief visit with relatives and friends in White Lake and Midland.

"Problems in Africa's Redemption," will be the topic for the Epworth League next Sunday evening. Leader, I. A. Fritz.

J. Frutechy leaves to-morrow morning for Alpena, while Mrs. Frutechy and little Irene go to Detroit for a couple of weeks.

H. E. Fairweather and daughter, Joyce, of Imlay City, are in town. Mr. Fairweather is packing his household effects for shipment.

Rev. E. H. Bradfield, of Brighton, will occupy the pulpit at the Presbyterian Church next Sunday, both morning and evening.

Miss Mary McPhee left to-day for a trip to Colorado and will take her invalid sister-in-law, Mrs. M. McPhee, of Imlay City, with her.

A cheap excursion will be run over the P. O. & N. E. R. R. to Detroit on Sunday, 20th inst. The train will leave Cass City at 6:30 a. m.

County Commissioner H. P. Bush, of Caro, and Prof. J. F. Goodrich, of Tuscola, were in town last week Thursday for the examinations.

Regular preaching service will be held at the Baptist Church next Sunday morning and the young people will have charge of the evening service.

Myron Hanson, of Silverwood, will sing, "Come Jesus, Redeemer," by Bartlett, next Sunday evening at the M. E. Church.

The residences of E. A. McGeorge and Chas. L. Robinson, on Main Street west, are being treated to fresh coats of exterior paint.

Miss Cecil Fritz, who has been engaged on the teaching staff of the Bad Axe schools for the past year, is at her home here for the vacation.

W. W. Bender's hardware store at Gagetown was broken into on Tuesday night, the burglars securing between \$25 and \$30 worth of plunder.

Grandma Niles, over eighty years of age, has gone on an extended visit to Lapeer friends and to Columbiaville to visit an only daughter and mother of O. E. Niles, of this place.

The Presbyterian Ladies' Aid will give a tea at the home of Mrs. Hugh Seed, Sr., on Wednesday, June 29th. Tea will be served at the usual hour. All are cordially invited.

Letters remaining unclaimed in the Cass City postoffice for the week ending, June 18th, 1904, Joseph Canada, William Colol, Mrs. Sim Pratt, Mr. J. Steorns. H. S. Wickware postmaster.

We understand that Harry Guppy, who went from here to Saco, Mont., a year or so ago, has sold his ranch and stock and is likely to return here the coming fall, as his health is not very good.

Jas. B. Tindale has just received notice of the death of his brother, Robert, at Strathcona, Alberta, N. W. T., Canada. He was formerly a resident of Winnipeg and engaged in the livery business.

Miss Nellie E. Perkins returned the first of the week from Oberlin O., where she has completed a further course in music, and we understand that she intends to remain in town and to organize very shortly classes in music.

J. Cornelius, of Utica, arrived here the first of this week and is placing a new stock of groceries in the Fritz Block. He was one of the sufferers from the recent fire at Utica, so that his entire stock and fixtures here will be new.

In the report of the Bingham-Summers wedding in our last issue the name of the bridesmaid—Miss Myrtle Dilman, was unintentionally omitted, and the mistake was not discovered until too late to rectify it. We humbly apologize.

A Republican caucus, held at the Town Hall, resulted in the choosing of the following delegates to attend the county convention at Caro yesterday: A. A. McKenzie, G. H. Turner, Jno. Marshall, J. A. Caldwell, J. H. Hays, J. H. Striffler, W. M. Morris, Geo. Predmore and A. D. Gillies.

Jas. D. Tuckey has left at our office a stand of rye which measures seven feet and four inches in height, and says he has plenty more of it just as high and some even higher. His neighbors tell him that he has the nicest field of wheat in the section and Jim is kicking himself because it only contains four acres.

A quite wedding occurred on Friday evening, June 17th, at the home of the bride, when Wm. Schwaderer was united in marriage to Mrs. Eliza Hatton. The ceremony was performed by Rev. Jas. W. Penn in the presence of the immediate friends only. Both parties have a large circle of friends who are showering down congratulations.

The usual July 4th program of sports, etc., has been arranged by the ladies and their friends of the Grant M. E. Church, and the picnic will be held this year in Hugh McDermott's grove, south of Beasley. There will be an abundance of good music and speaking and the ladies always have a plenty of good things to eat. See bills for particulars.

The Epworth League supper given at the home of Mr. and Mrs. L. I. Wood, Seeger Street, last Friday evening, was well patronized, so that receipts amounted to some \$9. Unfortunately quite a number who were present were taken sick later in the evening and several had to call for the services of their physician. The sickness was thought to have arisen from the pressed meat used. No serious cases resulted, for which all are thankful.

Regular preaching service will be held at the Baptist Church next Sunday morning and the young people will have charge of the evening service.

Northeast Kingston.

Mrs. George Lee called on Mrs. Eli Leek Saturday.

Miss Blanche Lombard was a Kingston caller Thursday.

Miss Anna Horner visited her sister, Mrs. Mason Leek, last week.

Mr. Cook, of Wilnot, has been assisting E. Leek the past week.

Miss Florence Ogden left Saturday for an extended visit in North Branch.

Mr. and Mrs. Arthur Chase visited the latter's father, Mr. Sweet, on Sunday.

Mrs. Eli Leek and Mrs. George Lee made a business trip to Marlette Friday.

Quite a number from here attended the Temperance Rally at Wilnot, Tuesday.

Mrs. D. L. Rule and Mrs. Lohnes and daughter, Helen, visited at E. Luke's Saturday.

Mr. and Mrs. John Horner visited their daughter, Mrs. Mason Leek, Saturday and Sunday.

Rev. and Mrs. Chas. Lohnes, of Tuscola, have been visiting friends in this vicinity the past week.

George F. Lee visited his daughter, Mrs. Roy Johnson, of Akron, last week. His daughter, Muri, who has been visiting her sister, returned home with him.

Startling Evidence.
Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by T. H. Fritz, Druggist, Cass City; F. A. Francis, Kingston. Trial bottles free, regular sizes 50c, and \$1.00.

O-PINE SALVE cures PILES and nothing else. 50 cents.

Liquor Advertisements in Kansas.
The State Temperance union of Kansas has recently made an interesting investigation to learn the extent of newspaper liquor advertising in that state. S. H. Pitcher of Topeka, representing the union, examined early in July the latest issue of all periodicals on file in the Kansas State Historical society at the statehouse. Liquor advertisements were found in only nineteen papers out of 750 examined. In only three of the nineteen was anything besides beer advertised. Five of the nineteen were papers published in the German language. Atchison, Fort Scott, Leavenworth, Pittsburg and Wichita furnished ten of the papers.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

The residents and carriers of the free delivery district near Cameron, Mo., have offered cash prizes to persons on the routes who keep the road in front of their premises in the best shape.

The National Association of Rural Letter Carriers, it is said, has asked the postmaster general to recommend to congress the passage of a law providing an annual expense allowance to the carriers of \$200 in addition to their salaries.

Notwithstanding the embarrassments of the pending postoffice investigation to the rural service there is no disposition among influential postoffice department officials or among members of congress to allow the system to suffer from what has occurred in the administration of the large appropriations that have been so willingly furnished.

There is no alcohol in Celery King—a medicine fresh from nature's hand. If you have never taken this great tonic laxative ask your friends about it. 25c. at druggists.

Economical.
"Doesn't it cost you a good deal to run this yacht, old man?"
"Yes, but my wife can't spend a cent when she's here."

A Man and a Hatpin.
In a theater rowed a man down in one of the front rows spled on the floor a large hatpin with an amber top. Looking about him, he saw that two women and their escorts had just sat down. To one of the former he presented the pin. A shake of the head indicated that he had made a mistake. Then he tried across the aisle. The women seemed to be interested. The pin was a curiosity and its amber of a unique carving. They hesitated, but the pin was handed back. Desperately he began the search now. Two ladies unattended seemed likely owners. To them he showed the pin. They took it and enjoyed its pattern. Just then the man felt a tug on his sleeve. It was his wife, and she remarked, "Why are you showing my hatpin to strangers?" He blushed, went over to the feminine pair and explained, "It's my wife's hatpin."

He said, but in such consciously gully accents that the women handed it back with doubting smiles.

Driven to Desperation.
Living at an out of the way place remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c. at T. H. Fritz's Drug Store, Cass City; F. A. Francis, Kingston.

DYSPEPTICIDE
The greatest aid to DIGESTION.

Foley's Honey and Tar
heals lungs and stops the cough.

Wanting Men's Clothing?

We Have the Best the Market Affords.

Cotton goods you are aware have advanced. We are selling at the old prices

An A No. 1 Overall for 50c with or without bib.
Good heavy Jacket for 50c
Work Shirts, all styles, 50c

Stop! Don't take imitation celery teas when you ask for Celery King. Celery King is a medicine of great value. The "teas" are urged upon you because they are bought cheap. Never jeopardize your health in a bad cause. Celery King only costs you 25 cents and it never disappoints.
