BEFORE THE SNOW.
Bay City @ Pt. Huron R. R. Will Be Active.
SO SAY THE BAY CITY PAPERS.

According to statements in the Bay City Times of Saturday and the Bay City Tribune of Sunday last, the officials of the Bay City and Port Huron Railroad Company have given assurances that the construction of a steam road east of Bay City to Port Huron is now practically a sure thing and that before snow flies a portion of the road bed will be graded, and that the entire road will be completed and in operation during 1906. This is from a statement made by W. C. Peonyer, the president of the railroad company, who also adds: "A preliminary survey has been made, which is to be followed by a full and complete survey and the letting of contracts, if in the meantime the promises of aid have been realized and put in tangible shape.

"The franchise terminals in Bay City and Port Huron have been secured and a goodly part of the right of way between these points has been secured and a good commencement has been made in getting subscriptions along the line. Nothing has been done in the matter of subscriptions either in Bay City or Port Huron, but this will be taken up shortly."

The Tribune believes the promoters of the road will find it to their advantage to equip this line with the new railway gasoline motors, instead of steam. The motors are attracting wide attention, tests have been satisfactory, and a large number of them are being built for the Union Pacific, Illinois Central, Chicago & Alton and other roads. The C. H. D. & Pere Marquette, it is said is investigating their merits with the view of placing them on all of the short lines of the Great Central system.

The people of this place and vicinity are ready to do their part when something tangible is presented. Committees were appointed some time ago and some preliminary work done, but it was found upon investigation that the officials were not ready at that time to give very definite information and the matter rested awaiting developments. If the time for action is near at hand the committees here will be found ready to do their part.

Windy Gil Will not Down
Lexington News.

Gil Lovejoy recently said to the Port Huron Herald: "I am going to build that Bay City railroad via Peck whether the other fellows go ahead or not."

The Peck Times now pointedly says all the railroad gas has escaped and not one shovel full of dirt has been removed; that it would rather travel on an old mud wagon anyhow than to ride on any railroad that Gil Lovejoy would build. Uncle Tom's scintillating sarcasm is severe, but the old gentleman won't lie.

Passed to Rest
Mrs. J. L. Heller, whose maiden name was Phoebe Teener, was born near Mt. Vernon, Ohio, in 1832, and died at the home of her son, Jas. W. Heller, corner of Third and A Streets, Saturday evening. She came to Michigan thirty-eight years ago, and has been a resident of this state since, excepting for eight years spent in Kansas. Mr. Heller departed this life three years ago and since that time Mrs. Heller has made her home with her son here. She has been a professing Christian and a member of the United Brethren Church since her sixteenth year. The funeral services were held at the home of her son on Tuesday afternoon and were conducted by Rev. R. N. Mulholland, of the M. E. Church. The interment took place in Elkland Cemetery. C. W. Heller, of this place, is also a son of the deceased. Other relatives who were present at the funeral were: Mr. and Mrs. M. P. Heller, their two sons and their wives, of Lansing; Mrs. L. Snow, of Riverdale, Mich.; Mr. and Mrs. W. A. Heller, of Mayville.

SUCCESSFUL.
Teachers' Institute Is Well Attended

The Teachers' Institute for Tuscola County, which opened in the High School rooms here on Monday forenoon, has been well attended at all sessions, the total enrollment so far being one hundred with prospects of even a larger attendance to-morrow.

Prof. J. E. Mitchell, of Alma College, is the conductor; ably assisted by Prof. Geo. B. Randels, of Bellevue, Neb.; Prof. G. S. Waite, of Kalamazoo; Supt. F. E. Sinclair, of this place; and Commissioner H. P. Bush.

Prof. Randels has made a careful and specially helpful presentation of "Child Study," from notes used in the instruction of his classes in the Bellevue College, and the suggestions given are sure to prove beneficial in many ways to the teachers of our county.

Prof. Mitchell, in his reading of Browning's Paracelsus, Bunker Hill oration by Webster, and Midsummer Night's Dream was exceptionally fine.

The subject of Manual Training, presented by Prof. Waite, is one which is of more than passing interest. He is a thorough believer in the training he is advocating, and parents and friends of our schools should improve the opportunity to-morrow of seeing the exhibit which he is making and hearing him speak on the subject. The Professor has placed in our hands a little leaflet which presents the matter very nicely and the contents, or a portion thereof, will endeavor to give to our readers in our next issue.

A reception was tendered the delegates attending the institute, at the M. E. Church, last evening. It was largely attended and was a very enjoyable affair. A musical program was furnished and dainty refreshments served. Ample time was also given for friendly greetings.

This is the first Teachers' Institute to be held at this place and the management is to be heartily congratulated on the entire success of the venture.

Michigan State Fair
With permanent grounds advantageously located on the outskirts of the city of Detroit and new buildings costing more than \$150,000, the 65th annual State Fair gives every promise of a successful exhibition of Michigan's agricultural and industrial products. Liberal premiums have attracted the attention of live-stock breeders and agriculturists, and the display in these lines will be unusually heavy. Seventeen races will be held on the new one mile circle for which purses worth \$7,600 have been hung up. The meeting of the Michigan Trotting and Pacing Circuit will be held at the Fair grounds during the week of September 11-16.

A novelty has been arranged for the last day of the Fair in the automobile races, in which manufacturers of the State will start their cars. Other features are the daily flight of Roy Knabenshue, the Toledo aeronaut, in his dirigible balloon, famous because it is the only airship yet invented capable of flying against a head wind, and Pain's spectacular fireworks display every evening. "The Fall of Port Arthur." Transportation facilities are excellent both for shippers and visitors.

NO! FOR RACES.
Side Attractions will be Feature of Pt. Huron Meet.

There Will Be No Protracted Waits Between Races.

The Port Huron Driving Park Association has inaugurated a new departure in connection with its annual race meeting this year, having secured some special forms of amusement which will help to dispel the monotony of a wait between races.

There will be five days' racing and four races each day from September 4 to 8 inclusive. Among the side attractions will be Madam Marantette, queen of the saddle, who will give an exhibition of fancy riding; D. H. Harris and Master Johnny Harris, with eight horses, holding the world's records for high jumps and fancy gaited horses; Prof. H. S. Jamison, of New York, with five of the best trick dogs in the country. One of these canines will make a jump of 52 feet with the parachute and without.

Everything points to a successful meet this year, and the management has spared no pains nor expense with this object in view.

8-21-2 —Port Huron Herald.

The Gleaner Pic-nic.
The district Gleaner picnic held at Kinnaird's Grove, west of town, last Thursday, under the auspices of Elkland Arbor, was well patronized and all who attended had a very pleasant day's outing. Addresses were made by J. J. England, of Caro, and A. Collins, of Charlotte. The Cass City Cornet Band furnished plenty of good music and there was a good program of sports, in which the following were winners:
Egg race—1st, Robt. McKenzie; 2nd, Clyde Davenport.
100 yard run—1st, Cash Asher; 2nd, Lloyd Donnelly.
Running race, boys under ten—1st, Dorus Benkelman; 2nd, Claud Martin.
Farmer's race over 50 years—1st, Levi Delong; 2nd, Loda Lennedy.
Three-legged race—1st, Ward and Dorus Benkelman; 2nd, Cash Asher and Geo. Dixon.
Men's race, over 200 pounds—1st, Loda Lennedy; 2nd, Reuben Delong.
Sack race—1st, Dan Duncanson; 2nd, Kline.
Blindfold race—1st, Gemmil; 2nd, Joe Dixon.
Running high jump—1st, Roy Phillips; 2nd, Dan Duncanson and Bert Phillips, tie.
Pole vault—1st, Roy Phillips; 2nd, Dan Duncanson.
Run, hop, step, jump—1st, Dan Duncanson; 2nd, Earl Kehoe.
Stand jump—1st, Earl Kehoe; 2nd, Dan Duncanson.
Bun eating contest—1st, Cliff Champion; 2nd, Eugene Schwaderer.

As Small as Ever.
The periodical "swipe" at this end of the county appeared in the last issue, of the Caro Advertiser, wherein the writer is allowed to make false representations regarding the combined excursion two years ago from Caro and Cass City to Bay Port. We quote from the article: "Two years ago when the Caro business men went to Bay Port, the Superintendent of the 'Polly Ann' issued streamers announcing an excursion from inclusive from Kingston and Gageton inclusive, and when our train arrived at Owendale there were seven cars of excursionists to hook onto our train, and without as much as anyone saying 'by your leave.'" The truth of the matter is that a prominent business man of Caro called J. C. Laing, of this place, by telephone, and requested him to use his influence to have the business men of this place join in the excursion to Bay Port. Mr. Laing did so and very successfully, but the Caro Advertiser man seems to have felt sore over the matter every since, as this is not the first time he misrepresented the matter. We are pleased to think that the majority of the Caroites are a friendly and hospitable people, entertain us well when we go there and enjoy a trip occasionally to our little hamlet, but there are a few selfish sinners at the county seat who appear to take a delight in engendering strife and belittling everything and everybody outside of Caro. The "dumping of four or five hundred people in upon the Caro excursionists was considered very presumptuous if not more." How nice and kind! After we had been urged to assist in making the excursion a success and the outing a pleasant one!

QUIETLY WED.
A quiet wedding occurred at the home of Mrs. Carroll, of Menominee, Mich., on Thursday, Aug. 17th, when Miss Ethel Mae Karr, daughter of Mr. and Mrs. L. E. Karr, of this place, was united in marriage to John A. Baetz, of Milwaukee, Wis. Both young people have been employed at the Upper Peninsula Hospital at Newberry for some time, the groom being dispensing pharmacist and leader of the band and orchestra at the Hospital. They will spend a few days at Mackinac Island before returning to their home at Newberry, where Mr. Baetz will resume his duties. The bride's many friends here extend congratulations.

See the announcement of the German Jubilee at Pigeon, in another column.

Wm. Story had three ribs broken in a lumber camp near Sebawaing, last week.

The steamer C. W. Liken, plying between Sebawaing and Bay City, was burned to the water's edge on the night of the 13th, Capt. Trudo and his nephew barely escaping with their lives.

BREAD.—Detroit Bread fresh daily.
KANDY KITCHEN.

Local Happenings.
Fred Maier spent last week in Detroit.
A. A. Jones made a trip to Argyle on Tuesday.
Miss Florence Clarke spent last week in Detroit.
Ray Riker has taken a position at Battle Creek.
Mrs. Julia Dann is visiting a sister at Northville.
S. Champion made a trip to Imlay City on Saturday.
L. I. Wood made business trip to Saginaw last week.
Lloyd Yakes has recently accepted a position in Detroit.
E. A. McGeorge attended the races at Saginaw last week.
Dr. A. J. Charlton, of Greenleaf, was in town this morning.
A. H. Ale made a business trip to Elkton last Thursday.
W. S. Fritz, of Caro, spent Sunday with his brothers here.
Mrs. Mretta Ramsey returned from Oak Bluff on Saturday.
John Proctor, of Shabbona, did business in town on Monday.
Miss Belle MacArthur returned yesterday from Rogers City.
Miss Lola Fritz returned on Monday from an outing at Oak Bluff.
S. H. Heron, of Grant township, did business in town on Saturday.
The stone foundations of the new DeWitt Block have been started.
Little Miss Pauline Elliott spent last week with little friends at Deford.
Dr. W. A. Wellemeyer, of Vassar, spent Sunday with friends in town.
Miss Rose Bixby has been visiting friends at Noko, southeast of town.
Mr. and Mrs. E. W. Keating called on relatives in Grant township Sunday.
Mr. and Mrs. N. Kitchin spent the first of last week with friends at Caro.
Chas. E. McCue has been entertaining a brother and his wife from Iowa.
Luelle and Elvin Seed, of Port Huron, are visiting with friends here.
L. C. Bart, from New Jersey, is visiting with relatives here and at Wickware.
Miss Lena Hartz, of Wisner, is the guest of Miss Ethel Martin, north of town.
W. A. Mudge has purchased the undertaking business of A. H. Traver at Caro.
Mr. and Mrs. Meadows, of Oliver township, called on friends here on Monday.
Miss Watson, of Detroit, has been the guest of Mrs. Hersey Young for a few days.
Miss Mae Mulholland returned on Monday from spending the season at Orion.
Andrew Hamilton, of Shabbona, was a pleasant caller at our sanctum on Saturday.
Miss Doris Holloway, of Caro, has been visiting friends here during the past week.
Mrs. Ed. Eno is numbered with the sick and is under the care of Dr. M. M. Wickware.
Miss Chlorise Moore, of St. Clairsville, O., is the guest of her sister, Mrs. A. A. Jones.
Miss Clara Lenzner treated a company of her friends to a corn roast last Friday evening.
A. D. Gillies is painting the new verandahs about the residence of Dr. A. N. Treadgold.
S. Champion has been engaged as poultry judge of the Sandusky and Imlay City Fairs.
Miss Blanche Morrison, of Chatham, Ont., is the guest of her cousin, Mrs. A. A. Hitchcock.
The Misses Myrtle and Edith Mead have been visiting relatives at Marine City and Crosswell.
John J. Klein has been employed in Pontiac for some time, where his family has joined him.
Mr. and Mrs. Henry Klinkman, from east of town, recently paid a visit to friends in Mayville.
A telephone has been placed at the farm residence of A. Randall, west of town—No. 66, 5 rings.
Mrs. W. Fallis, who has been visiting her parents at Caro, left last week for a trip to Minneapolis.
Mrs. Edward Pinney has been entertaining her mother, Mrs. Haines, and son, Carl, from Flint.
The Misses Burt have moved their household effects to the home of their brother, George, at Wickware, and rented the residence on Garfield Avenue to Chas. Wilder.

Mr. and Mrs. J. A. Moore and two little daughters, who have been the guests of Mr. Moore's sister, Mrs. A. A. Jones, left for their home at Bellaire O., on Monday morning.

JOAN OF THE SWORD HAND

By S. R. CROCKETT, Author of "The Raiders," etc.
(Copyright, 1898, 1900, by S. R. Crockett.)

CHAPTER XX.—Continued.

"So good a fortune from so wise a soothsayer deserves this!"

And she kissed the Chancellor frankly on the mouth.

"I care for nothing now—I have gotten my will!" said the Princess Margaret, nodding her head to the Father as he went out.

For the golden lamp was burning itself out, and without in the dark the Alla said "Hush!" like a mother who soothes her children to sleep.

CHAPTER XXI.

A Perilous Honeymoon.

Never was day so largely and gloriously blue since Courtland was a city as the first morning of the married life of Maurice and Margaret von Lynar, Count and Countess von Loen. The summer floods had subsided, and the tawny dye had clean gone out of the Alla, which was now as clear as aquamarine, and laved rather than fretted the dark green piles of the Summer Palace.

The Princesses (so they said without) were more than ever inseparable. They were constantly talking confidentially together, for all the world like schoolgirls with a secret.

"There is something toward today," said a decent widow woman who lived in the Königstrasse to her neighbor. "My son, who as you know is a chorister, is gone to practice the Wedding Hymn at the cathedral. I am going thither to get a good place. I will not miss it, whatever it is. Perhaps they are going to make the Princess Joan do penance for her fault, in a white sheer with a candle in her hand a yard long! That would be rare sport. I would not miss it for so much as four farthings!"

And the chorister's mother hobbled off, telling everybody she met the same story. And so in half an hour the news had spread all over the city, and there began to be makings of quite a respectable crowd in the Dom Platz of Courtland.

It was half past eleven when the archers of the guard appeared at the entrance of the square which leads from the palace. Behind them, rank upon rank could be seen the lances of the wild Cossacks of Prince Ivan's escort who had remained behind when the Muscovite army went back to the Russian plains. Their dusky goat's-hair tents, which had long covered the banks of the Alla, had now been struck and were laded upon baggage-horses and sumpter mules.

Meanwhile, in the river paler of the Summer Palace, the two Princesses were talking together even as the people had said. The Princess Margaret sat on a low stool, leaning her elbow on her companion's knee. And though she sometimes looked away, it was not for long, and Maurice, meeting her ever-recurrent gaze, found that a new thing had come into her eyes.

Presently a low tapping was heard at the inner door, from which a passage communicated with the rooms of the Princess Margaret. The Sparhawk would have risen, for the moment forgetful of their duties. But with a slight pressure of her arm upon his knee the Princess restrained

"Enter!" she called aloud in her clear, imperious voice.

Thora entered hurriedly and, closing the door behind her, she stood with the latch in her hand. "My Princess," she said in a voice that was little more than a whisper, "I have heard ill news. They are making the cathedral ready for a wedding. The Cossacks have struck their tents. I think a plot is on foot to marry you this day

"What shall we do? I had counted on this one day."

to Prince Ivan, and to carry you off with him to Moscow."

The Sparhawk sprang to his feet and laid his hand on the place where his sword-hilt should have been.

"Never," he cried; "it is impossible! The Princess is—"

He was about to add, "She is married already," but with a quick gesture of warning Margaret stopped him.

"Who told you this?" she queried, turning again to Thora of Bornholm.

"Johannes Rode of the Prince's guard told me a moment ago," she answered. "He has just returned from the Muscovite camp."

"I thank you, Thora—I shall not forget this faithfulness," said Margaret.

"Margaret, you have my leave to go!" The Princess spoke calmly, and to the ear even a little coldly.

The door closed upon the Swedish maiden. Margaret and Maurice turned to each other with one pregnant instinct and took hands.

"Already!" said Margaret faintly, going back into the woman; "they might have left us alone a little longer. How shall we meet this? What shall we do? I had counted on this one day."

"Margaret," answered the Sparhawk impulsively, "this shall not daunt us. We would have told your brother Louis one day. We will tell him now. Duchess Joan is safe out of his reach. Kernsberg is re-occupied, the Muscovite army returned. There is no need to keep up the masquerade any longer. Whatever may come of it, let us go to your brother. That will end it swiftly, at all events." The Princess put away his restraining clasp and came closer to him.

"No, no," she cried; "you must not. You do not know my brother. He is not to be trusted. He will slay you for having cheated him of his bride—Ivan for having forestalled him with me."

"But you cannot marry Ivan. That were an outrage against the laws of God and Man!"

"Marry Ivan!" she cried, to the full as impulsively as her lover; "not though they set ravens to pick the live flesh off my bones! But yet the thought of torture and death for you—that I cannot abide. We must continue to deceive them. Let me think!—let me think!"

Hastily she barred the door which led out upon the corridor. Then taking Maurice's hand once more she led him over to the window, from which she could see the green Alla cutting its way through the city bounds and presently escaping into the yet greener corn lands on its way to the sea.

"It is for this one day's delay that we must plan. To-night we will certainly escape. I can trust certain of those of my household. I have tried them before."

Maurice, you must take him—lie down on this couch away from the light. There is a rumor of the Black Death in the city—we must build on that. They say an Astrakhan trader is dead of it already. For one day we may save off with this. It is the poor best we can do. Lie down, I will call Thora. She is staunch and fully to be trusted."

The Princess Margaret went to the inner door and clapped her hands sharply.

The fair-haired Swedish maiden came running to her. She had been waiting on such a signal.

"Thora," said her mistress in a quick whisper, "we must put off this marriage. I would sooner die than marry Ivan. You have that drug you spoke of—that which gives the appearance of sickness unto death without the reality. The Lady Joan must be ill, very ill. You understand, we must deceive even the Prince's physicians."

The girl nodded with quick understanding, and, turning, she sped away into the inner chambers to her own sleeping chamber, the key of which (as was the custom in Courtland) she carried in her pocket.

"This will also keep you from being suspected—as in public places you would have been," whispered Margaret to her young husband. "What Thora thinks or knows does not matter. I can trust Thora with my life—nay, with what is far more, with yours."

A light tap and the girl re-entered, a tall phial in her hand. With a swift look at her mistress to obtain permission, she went to the couch upon which the Sparhawk had lain down. Then with deft hand she opened the bottle, and pouring a little of the colorless liquid into a cup she gave it him to drink. In a few minutes a sickly pallor overspread Maurice von Lynar's brow. His eyes appeared injected, the lips paled to a grey white, beads of perspiration stood on the forehead, and his whole countenance took on the hue and expression of mortal sickness.

"Now," said Thora, when she had finished, "will the noble lady deign to swallow one of these pellicles, and in ten minutes not a leech in the country will be able to pronounce that she is not suffering from a dangerous disease."

"You are sure, Thora," said the Princess Margaret almost fiercely, laying her hand on the tirewoman's wrist, "that there is no harm in all this? Remember, on your life be it!"

The placid, flaxen-haired woman turned with the little silver box in her hand.

"DANGER there is, dear mistress," she said softly, "but not, I think, so great danger as we are already in. But I will prove my honesty—"

She took first a little of the liquid, and immediately after swallowed one of the white pellicles she had given to Maurice.

"It will be as well," she said, "when the Prince's wiseacre physicians come, that they should find another sickening of the same disease."

Thora of Bornholm passed about the couch and took up a waiting-maid's station some way behind.

"All is ready," she said softly.

"We will forestall them," answered the Princess. "Thora, send and bid Prince Louis come hither quickly."

ing?" added the girl. "I will dispatch Johannes Rode. He will go quickly and answer as I bid him with discretion and without asking questions."

And with the noiseless tread peculiar to most blonde women of large physique, Thora disappeared through the private door by which she had entered.

The Princess Margaret knelt down by the couch and looked into the face of the Sparhawk. Even she who had seen the wonder was amazed and almost frightened by the ghastly effect the drug had wrought in such short space.

"You are sure that you do not feel any ill effects—you are perfectly well?" she said, with tremulous anxiety in her voice.

The Sparhawk smiled and nodded reassuringly up at her.

"Never better," he said. "My nerves are iron, my muscles steel. I feel as if, for my Margaret's sake, I could vanquish an army single-handed!"

The Princess rose from her place and unlocked the main door.

"We will be ready for them," she said. "All must appear as though we had no motive for concealment."

And, having drawn the curtains somewhat closer, she knelt down again by the bed-head.

"You are sure, Thora," said the Princess Margaret, almost fiercely, "that there is no harm in this?"

again by the bed-head. There was no sound in the room as the youthful husband and wife thus waited their fate hand in hand, save only the soft continuous sibilance of their whispered converse, and from without the deeper, note of the Alla sapping the Palace walls.

The Princes of Courtland and Muscovy, inseparable as the Princesses, were on the pleasant, creeper-shaded terrace which looks over the rose-garden of the palace of Courtland down upon the blue sea plain of the Baltic, now stretching blue black from verge to verge under the imminent sun of noon.

"You would desert me, Ivan," Prince Louis was saying, in a tone at once appealing and childishly aggressive; "you would leave me in the hour of need. You would take away from me my sister Margaret, who alone has influence with the Princess, my wife!"

"But you do not try to court the lady with any proper fervor," objected Ivan, half humoring and half irritating his companion; "you observe none of the rules. Speak her soft, praise her eyelashes—surely they are worthy of all praise; give her a pet lamb for a playmate. Feed her with conserves of honey and spice. Surely such comfits would mollify even Joan of the Sword Hand!"

"Tush! you flout me, Ivan—even you. Everyone despises me since—since she flouted me. The woman is a tigress, I tell you. Every time she looks at me her eyes flick across me like a whip-lash!"

(To be continued.)

Alfonso and the Anarchist.

Still a stream of anecdotes from Paris about King Alfonso. He is said to have a prejudice against asses, and when his automobile ran over a Spanish ass near San Sebastian the other day he compensated the owner liberally, and then remarked, "I wish there were no asses in my dominions."

At San Sebastian he went into a tobacconist's shop to buy cigarettes. There was another customer in the shop, who seemed anxious to escape observation. The king looked at him and thought his features familiar, then remembered a portrait of one of the Spanish anarchists arrested after the bomb explosion in Paris. "I see," said the affable monarch, with a laugh, "you are one of the anarchists arrested by mistake. You had nothing to do with the affair, of course. It was some other fellow. Well, well, the police will make their little blunders sometimes!"—London Chronicle.

One Way He Might Find Him.

One of the policemen who stand on downtown corners says that a countryman approached him and said:

"I'm lookin' for my cousin, Thonf. I don't know where he lives or what he does."

"What's his name?" asked the policeman.

"Smith."

"Stand over there on the corner and holler 'Smith,'" said the officer. "Maybe he'll be in the crowd that answers."—Kansas City Times.

Kansas Peace.

Princess Irene, wife of Prince Henry of Prussia, was christened as a child at the close of the war in 1866. Irene means "peace."

Mixed Farming Advisable

Despite all that advocates of persistent crop production without adequate fertilization have to say in support of their easy method of farming, the best interests of our land and of our people must of necessity depend upon the general association of animals and crops upon our farms. Dust unto dust means more than mere fatality to the man who believes in a resurrection and a new life; it suggests, too, the truth of the equally true saying that "all flesh is grass." Plants and animals are mutually dependent upon each other. The plant gives its oxygen for the animal and takes its carbonic acid from the animal in turn. The plant gathers and stores up food for the animal in many different forms and combinations of strength and ingredients. The animal lives upon these stores and in its excreta returns to the land that part which proves superfluous or, should it die and be buried where it was raised, to the soil it is truly returned to dust from whence it sprang and the cycle of existence is completed. Where plants grow and die down year after year they too return unto dust with little loss or some gain so far as nitrogen is concerned. Where animals eat the plant growths they utilize a certain proportion of the food constituents furnished by the soil. There is a loss to the land therefore where animals consume all of the food grown there. The loss is in the flesh, bone, frame, labor, horn, wool, hair, feathers, milk, butter, cheese, eggs, and the hundred and one other animal products produced from the food of a farm. Under natural conditions, where the earth was not crowded unduly with animals and man, the account was perfectly balanced annually between plant food and animal tissue. Under modern conditions things have changed. Where a crop is grown and sold off the farm it takes with it a store of wealth difficult and expensive to recover. The crop is the interest on the year's investment of work and upon the capital invested in the purchase and breaking of the land. But it is more. It is principal, too, unless consumed upon the land where it grew, that part at least of the plant food may be regained in the form of manure. Even then some is lost, so that eventually fertilizers or additional food must be bought, from which the land will store up added ingredients for new plant growths and in time become richer and more fertile. The crop is the interest on the year's investment of work and upon the capital invested in the purchase and breaking of the land. But it is more. It is principal, too, unless consumed upon the land where it grew, that part at least of the plant food may be regained in the form of manure. The crop is the interest on the year's investment

Cass City Enterprise

An independent newspaper. Published every Tuesday by A. P. McDowell, Seeger Street Cass City, Tuscola Co., Mich.

Advertisements.
All changes of advertisements must be sent to this office no later than Wednesday noon of each week, else they can not be inserted in that week's issue. Reasonable rates are charged for display advertisements. Local notices in our paid local columns are five cents per line for first insertion. Notices of festivals, lectures, concerts and all entertainments of a money-making character are big cents a line. Resolutions of respect are charged for at the rate of one dollar for each insertion. Cards of thanks are twenty-five cents for each insertion.

A. A. P. McDowell, Proprietor.

Professional Cards.

BAPTIST—Preaching services at 10:30 a. m. and 7:30 p. m. on Sunday. Sunday school at 12 m. Young people's meeting Sunday evening at 7:30. Prayer meeting on Thursday evening. Rev. J. H. CALLENDER, Pastor.

EVANGELICAL—Services begin with Sunday school at 9:30 a. m. Preaching services 10:30 a. m. and 7:30 p. m. Y. P. A. meeting 6:30 p. m. English services every Sunday evening. Prayer meeting on Wednesday evening. All are invited. Rev. W. BAKER, Pastor.

METHODIST EPISCOPAL—Preaching services at 10:30 a. m. and 7:30 p. m. Sunday. Class meetings follow morning service. Sunday school at 12 m. Junior League at 8:30 p. m. Epworth League at 6:00 p. m. Prayer-meeting at 7:30 on Thursday evening. Rev. R. N. MULLENBART, Pastor.

PRESBYTERIAN—Sunday preaching services, 10:30 a. m. and 7:30 p. m. Prayer meeting on Thursday evening at 7:30. Rev. E. H. BRADFELD, Pastor.

ST. PANCRATIUS R. C. CHURCH—Pastors on the second Sunday of each month at 10:30 a. m. Standard Times on the fourth Sunday of each month at 8:30 a. m. Standard Time. Rev. FR. DWAN, Parish Priest.

5,000 Telegraphers NEEDED

Annually, to fill the new positions created by Railroad and Telegraph Companies. We want Young Men and Ladies of good habits to

LEARN TELEGRAPHY AND R. R. ACCOUNTING.

We furnish 75 per cent. of the Operators and Station Agents in America. Six schools are the largest exclusive Telegraph School in the world. Established 20 years and endorsed by leading Railroad Officials.

We execute a \$200 bond to every student to furnish him or her with position, paying from \$40 to \$60 a month in states east of the Rocky Mountains, or from \$75 to \$100 a month in states west of the Rockies. Our graduates are immediately upon graduation. Students can enter at any time. No vacations. For full particulars regarding any of our schools write direct to our executive office at Cincinnati, O. Catalogue free.

MORSE SCHOOL OF TELEGRAPHY

Cincinnati, Ohio. Cateo, R. B. Atlanta, Ga. LaCross, Wis. Gararhans, Texas. San Francisco, Cal.

CONTINUE

Those who are gaining flesh and strength by regular treatment with

Scott's Emulsion

should continue the treatment in hot weather; smaller dose and a little cod milk with it will do away with any objection which is attached to fatty products during the heated season.

Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 50c. and \$1.00; all druggists.

Correspondence.

Novesta Corners.

Plenty of rain. Threshing has commenced.

Mrs. Alex. Sangster is very sick. Clarence Russell is on the sick list.

Alex Sangster lost some fingers in a threshing machine.

L. Glaspie has bought a pair of three months old western colts.

Jay Ashby, assisted by Tom Colwell, is moving his granary this week.

Mrs. Warren Churchill is spending a week at Romeo and New Haven.

John Slack is building a new barn to replace the one he lost in the cyclone.

Half the hills that man is heir to come from indigestion. Barlock Blood restores strength and tones the stomach; makes indigestion impossible.

Cumber

Mrs. Mills' parents and sisters paid her a pleasant visit last Monday.

Mrs. Ed. Hewlett and Mrs. Johnson visited in Freiburger last Friday.

Wallace Greenleaf, of Cleveland, O., is visiting at the old parental home.

The oat harvesting is very much retarded this week by the recent rains.

Otis Greenleaf, who has been very sick at his father's house, is getting better.

The popular Shabbona doctor paid Dr. A. N. Johnson a very pleasant visit on his way to Uby.

Mrs. Ann Brown spent Sunday afternoon and evening visiting her daughter, Mrs. A. C. Graham, in Freiburgers.

Many of the children in and around Cumber are very sick. Parents should be careful that no green fruit form a part of their children's diet.

Another beautiful daughter was born to Mr. and Mrs. A. C. Graham last Thursday, which adds one more to the population of Freiburgers.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

Canboro.

Richard Jarvis was an Elkton caller Friday evening.

Geo. Rockwood was a business caller in Owendale Saturday.

Services in the Canboro church next Sunday evening, Aug. 27.

Wm. W. Parker, Sr., was a business caller in Cass City Monday.

Mrs. Cyrus Low and son, John, are visiting relatives at Detroit.

Mrs. Fred Hintze, of Linkville, called on old acquaintances Sunday.

Miss Susie Gray, of West Grant, was the guest of Miss Anna Jarvis Sunday.

Henry Mellendorf, Sr., and son, John, were business callers in Gagetown on Monday.

Miss Lena Kinitz, of Detroit, and a friend are visiting at her parental home here.

Mr. and Mrs. Chas. McDonald visited relatives in Gagetown Saturday evening and Sunday.

Mrs. Harvey Parker and daughters, Bertha and Florence, from near Caro, are visiting her parents and other relatives here.

CASTORIA.

Bears the Signature of *Chas. H. Fletcher*

Freiburgers.

A. Hunt was in Tyre Monday.

F. W. Rehil was in Uby Monday.

Morgan Webster did business in Tyre Saturday.

Henry Rehil was in Minden on business on Monday.

Johnston Hunt did business in Cass City Wednesday last.

Chas. Meddaugh transacted business in Tyre Thursday last.

Born, to Mr. and Mrs. A. C. Graham, on Thursday, a baby girl.

Geo. Hunt, of Argyle, visited at his parental home here Sunday.

Dr. A. N. Johnson, of Cumber, was a pleasant caller in town on Friday.

The Misses Edith and Myrtle Caton, of Pontiac, are visiting relatives in town.

There was a dance at Jas. Soule's Tuesday evening. A fine time is reported by all.

J. and Wilfred Creaguer, of Loraine, Ohio, are visiting at their parental home, east of town.

Mrs. A. N. Johnson, of Cumber, and Mrs. Youtil, of Detroit, visited with Mrs. Chas. Pollard on Monday.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse Schools of Telegraphy, in this issue and learn how easily a young man or lady may learn telegraphy and be assured a position. 7-20-17

Deford R.F.D. No. 3

Grant S. Clay took Harry Hunt to Caro Monday.

Quite a rain came Saturday and was badly needed too.

Samuel Bell has been to Millersburg on a visit to his son.

Sliction Bros. expect to load stock at Deford again Friday.

Born, to Mr. and Mrs. Rebacher, Aug. 15th, a daughter.

Quite a number from here attended the Gleaner picnic at Cass City Thursday.

Arthur Colwell called here Sunday and made a short visit with Harry Hunt.

Herman Oesterle has given his house a coat of paint and it looks better for it.

The farmers are complaining about the way the pickles are sorted at the salting stations this season.

There has been several pic-nics held on J. C. Dreher's flats, on the west side of the river, this summer and there may be more this fall.

The Highway Com. let a job of repairing the bridge on the center line, across the Butternut drain, Tuesday. Woodbury and Hollister will do the work.

Fineandish Suffering

is often caused by sores, ulcers and cancers that eat away your skin. Wm. Bell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve, for Ulcers, Sores and Cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at E. Ryan's Drug Store, Cass City; F. A. Francis, Kingston; guaranteed.

Shabbona

Miss Ammy McCallum, of Deford, is visiting Mrs. Truesdell.

Dr. and Mrs. A. W. Truesdell visited at Chevington last week.

Dr. Truesdell was called to Edwin Hurford's, near Cumber, Monday.

The Misses Ethel and Gertrude Leslie spent last week with friends here.

Mrs. Wethey, of Deford, spent last week here, the guest of Mrs. Proctor.

R. Cooley, of Ann Arbor, is visiting Herbert W. Ehlers during the holidays.

The infant son of E. Phetteplace, who has been so very sick, is now better.

Mr. and Mrs. E. Guy and family spent last week with relatives at Kingston.

Mrs. Walter Clark, of Sarnia, Ont., spent a week with nieces, the Misses Hyatt, here.

A. Auslander returned home last Friday from a week's outing at Orion, Pontiac and Detroit.

The Shabbona base ball team is gaining quite a reputation, having never yet sustained a defeat.

Willing Workers met at the home of the pastor, Mr. McCullum, last Tuesday and report an excellent time.

Mrs. E. A. Phillips was called to Yale last Tuesday to attend the funeral of her brother-in-law, Henry Phillips.

Word has been received here of the death at Hillman, on the 19th inst. of Delbert Wilkins, formerly of this place.

Mr. James Atkins has returned to her home in Flint, having spent two weeks with old friends in and around Shabbona.

Maurice Keyworth is spending the last few weeks of his vacation at his old home here, after attending the summer normal at Big Rapids.

Dr. Truesdell was called to Alex Sangster's last Wednesday to assist in dressing Mr. Sangster's hand, which was injured in a threshing machine.

There will be a grove meeting in Chas. Severance's woods Sunday, Sept. 3rd, under the auspices of the M. E. church. Rev. Lester Clark, of Yale, will be present and preach. The afternoon will be devoted to Sabbath school. A cordial invitation is extended to all.

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health. Never fails to relieve and cure a cough, or cold. At E. Ryan's Drug Store, Cass City; F. A. Francis, Kingston; 50c and \$1.00 guaranteed. Trial bottle free.

The post offices at Popple, Ivanhoe, Redman and Rapson have been discontinued, and the patrons of those offices will now be supplied by carriers from Bad Axe.

Wickware.

Threshing is the order of the day.

Mrs. Louis, of Flint, is visiting her son, H. Louis, this week.

Mrs. Joe Wedge is visiting friends in Sanilac Centre this week.

Quite a number of the young folks went to Bay Port Tuesday.

The Busy Bees will meet at the home of Mr. and Mrs. Geo. Cridland Sept. 13th.

Mr. and Mrs. Wm. Bennett visited their son, Wm. Bennett, of Cumber, last Sunday.

Mrs. Geo. Robinson and daughter, Nettie, called on Mrs. John McPhail Monday morning.

Earl and Ora Hunter, of Karr's Corners, visited at their uncle's, Robert Jackson's, Sunday.

Mrs. Thomas Hartwick had a quilting Thursday. Everybody had a good time and two quilts were almost quilted.

Mr. Wedge, of Sanilac Centre, and Mr. Towle, of Carsonville, visited friends in and around Wickware Saturday and Sunday.

L. Burt, of New Jersey, Miss Jennie Burt, of Chicago, and Misses Ida and Bell Burt, of Cass City, are visiting at Geo. Burt's this week.

Soothing and Cooling.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for Piles and skin diseases. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold by L. I. Wood & Co., Cass City; F. A. Francis, Kingston.

Novesta.

John Hamilton was on the sick list last week, but is better at this writing.

Miss Mary Warner is home from Detroit, where she has been for some time.

Miss McDowell, formerly a teacher in Dist. No. 2, is here visiting old friends.

Mr. and Mrs. Bert Brooks and family, of Argyle, visited at A. McPhail's Sunday.

Mrs. A. Livingston and granddaughter, Belle, is visiting friends in West Bay City at present.

Quite a number from these parts attended the Gleaner pic-nic last week in Kinnard's Grove.

Messrs. A. and J. McPhee called on friends here last week and transacted business while here.

F. W. Topping has lost four work horses this spring and summer, they having died from different causes.

Mr. Stone bought a work horse from Cass City parties last week to replace one of his work horses that took sick some time ago.

Mr. and Mrs. M. H. Quick are visiting friends in Ohio, there being a family reunion of Harpers' and Smiths' descendants, and Mrs. Quick being a Smith they will take part in it.

Saturday, about eleven o'clock a. m., lightning struck Angus McPhail's barn and burned it to the ground. Archie McPhail had in ten loads of hay and S. Kennedy had a large quantity of oats which was burned. A. McPhail managed to get out his binder which he had stored in the barn. There was no insurance on the barn or contents so we were informed. The loss will be about \$1,000.

THE ORIGINAL.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar, and refuse any substitute offered as no other preparations will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. All druggists, of Cass City; F. A. Francis, Kingston.

The demand for the McKinley Sheet Music is steadily increasing, because people are finding out its value and the advantage of getting high-class music at so low a price—10c. On sale at the ENTERPRISE Office.

The residence of August Schultz, at Sebawing, was struck by lightning but did not take fire. There was no one in the house at the time, the family being out of town visiting relatives. At Unionville the Moravian church was also struck by lightning, causing a loss of \$1,000.

Take Kodol After Eating.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of indigestion. Kodol is a thorough digestant and a guaranteed cure for Indigestion, Dyspepsia, Gas on the Stomach, Weak Heart, Sour Risings, Bad Breath and all Stomach troubles. Sold by L. I. Wood & Co., Cass City; F. A. Francis, Kingston.

Carl Gould, aged 12, of Standish, was visiting his grandfather, four miles north of Vassar, and while playing with another boy, digging in a sand bank, he was buried by a cave-in. His little companion dug desperately to rescue him, but the sand caved in as rapidly as he dug it away. He ran to Carl's grandfather, who was working nearby, but when the lad's body was uncovered life had fled.

His Only Chance.

"Is there a man in all this audience," demanded the female lecturer on woman's rights, "that has ever done anything to lighten the burden on his wife's shoulders? What do you know of woman's work? Is there a man here," she continued, folding her arms and looking over the assembly with superb scorn, "that has ever got up in the morning, leaving his tired, worn-out wife to enjoy her slumbers, gone quietly downstairs, made the fire, cooked his own breakfast, sewed the missing buttons on the children's clothes, darned the family stockings, scoured the pots and kettles, cleaned and filled the lamps and done all this if necessary day after day uncomplainingly? If there be such a man in this audience let him rise up! I should really like to see him."

And in the rear of the hall a mild looking man in spectacles, in obedience to the summons, timidly arose. He was the husband of the eloquent speaker. It was the first time he had ever had a chance to assert himself.—Novel Magazine.

Pleasantly Effective.

Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. These famous little pills are a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tonic and strengthen the liver. Cure Jaundice. Sold by L. I. Wood & Co., Cass City; F. A. Francis, Kingston.

Kold Ice Cream. KANDY KITCHEN.

The more patronage given your town when you patronize anyone, makes your town a better business center, the better business center your town is, the more valuable your farming land will be, and the more marketable when you want to sell. A farm near Detroit is considered to be a small mint for its owner just because there is a business center near by, and this condition works down to the farming land surrounding the small towns, the better the town the more valuable is its farming section when it is a question of price. The farmer has almost as much to do in the making of the small towns through out the country, as the residents, and in like manner can the town resident help the farmer. In the new town of the country, no land is of any value if away from a market town, and on the other hand no towns are built on alkali deserts but are made the center of the most prosperous farming communities a condition which proves that the business man and farmer are necessary factors to each other's welfare and without one, the other must necessarily sacrifice something.

CASS CITY, MICH.

SOCIALISM.

The Cass City Socialist Club has made arrangements with this paper for the use of a half column weekly, in which they will endeavor to explain Socialism. The editor is in no way responsible. Any subscriber to the Express may ask questions in regard to Socialism, to be answered in this column. Conditions—Write questions in plain language, to the point, and sign full name. Address: "Socialist Club, Box 1, Cass City."

Making the Change.

What laws would the Socialists repeal and what laws would they pass if the national and state governments were in their hands?

They will repeal every law that stands in the way of acquiring and operating the industries for the benefit of all the people, and will enact such necessary laws as will enable the people to acquire and operate the industries, leaving the people free to acquire and operate the industries, leaving the people free to change such regulations as future development shall make necessary.

How will you prevent the old parties from stealing the Socialist vote, if you do get a majority? To me this seems to be the real danger. The old parties steal out each other; what will hinder them from keeping the Socialists down by stealing the vote? The old parties have control of the election machinery.

With the increase of the Socialist vote the Socialists become entitled to a certain number of election judges and commissioners. Besides, the Socialists have the right to send watchers to the polls. Of course, the old parties are stealing Socialist votes all the time, and our vote is considerably larger than officially reported. But our victories in the various parts of the country show that the old parties cannot steal all our vote all the time, and gradually we shall teach them a lesson in honest vote counting.

Suppose a Socialist government were trusted with control, would a complete revolution to Socialism be inaugurated, or will this end be reached by gradual stages?

That will be determined by the majority at the time. I should say that an instant adjustment to Socialist ideals would be impossible. It might take months or even years. To make so radical a change at once would be to upset social arrangements and cause confusion. There are many industries, such as railroads, telegraph, express, coal, oil, and many others that are now ready for socializing—all it will require will be to divert the channel of wealth to the public instead of the private treasures. As rapidly as possible other closely related industries will be taken over. The reason for Socialists being the proper persons to do this is that they will want to make a success of it, for they believe in that method, while others who do not believe in such an arrangement will want to make a failure of it, that the people may again give them back the private graft.

Socialism speaks of a "peaceful revolution by the ballot." What reason do you have for thinking it will be peaceful? Would not the capitalists make it a bloody revolution? Would it not be even worse than the slave holders' rebellion, which began simply from the fear that the slaves would be confiscated?

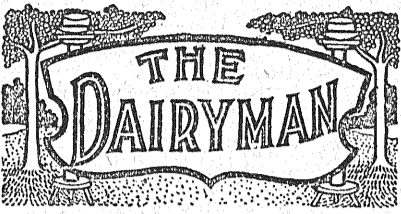

In this country a majority is supposed to rule. If, when we get a majority, the minority refuses to obey the decision, there will be but one thing to do—make them obey or abdicate in the interest of the minority—which the American people will never do. But in case the minority should refuse to obey they will be rebels. When the people decide overwhelmingly that they desire a new order there will be no question but that the minority will submit—or get licked. The peaceful revolution will have occurred when the people decide at the polls that they want a change. The other kind will lie with the capitalists, and on them will be the blood, if any.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 540 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at R. Ryan's Drug Store, Cass City; F. A. Francis, Kingston, price 50c.

The meeting to be held at Grand Rapids, Tuesday and Wednesday, Aug. 29 and 30, for the purpose of organizing a state forestry association, is an effort which if successful in the practical purposes it has in mind will be of far-reaching value to Michigan.

There are some problems directly confronting the larger and better work which the projectors of this association have in mind that can only be solved through state wide cooperation and assistance. Michigan's forests have been sources of enormous wealth to our state and some of this great value can be renewed and retained through the timely and well directed work of such an organization as may be formed at Grand Rapids.

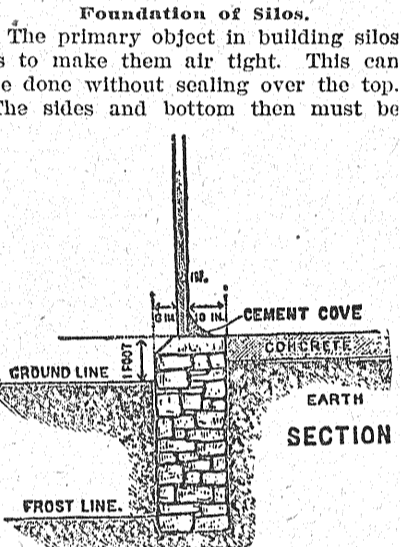

Though not among the most serious of dairy troubles, "mottling" of butter has perhaps been the cause of as much discussion as any, says American Cultivator. The white streaks and patches which mar the beauty of otherwise perfect butter do not affect flavor or aroma of the product, but they displease the eye and thus lower the price.

For a long time the trouble was seemingly beyond control, for it would appear and disappear in a most peculiar way in dairies and creameries where most careful attention was given to all points and where no cause could be assigned with certainty by the vexed maker. Finally irregular distribution of salt was settled upon as the cause and a method of handling established, based on this factor, which practically eliminated the trouble, but it seems that the last word on the subject was not yet said. Recent investigations made by the experiment station at Geneva, N. Y., prove that the success of modern dairy methods rests, so far as mottling is concerned, upon securing removal of casein compounds rather than upon distributing the salt evenly. Butter entirely freed from the casein of the milk—that is, butter washed thoroughly enough to get rid of all buttermilk—will not produce mottles, no matter how unevenly the salt be distributed, and butter containing an excess of buttermilk will produce mottles even if the salt is uniform throughout the mass.

The bulletin notes, experimentally, the effect of many factors upon mottling and shows clearly that only those which prevent perfect removal of the buttermilk tend to produce the defect. This discovery involves no change in methods—it merely explains why the best present methods succeed. Churning at rather low temperature and continuing only until the butter has reached rice grain size, washing twice with water at from 35 to 45 degrees F., and salting and working as usual will give butter free from mottles.

Foundation of Silos.
The primary object in building silos is to make them air tight. This can be done without sealing over the top. The sides and bottom then must be

air tight. Failures sometimes result from building good, tight walls and setting them on porous soils, which allow air to pass in and upward, spoiling the mass. A concrete and brick foundation prevents this. See cement cone in cut. Doors are needed, and must fit tight. The silo does not need a cover of any kind. Rain falling upon the silage surface only seals the top portion all the tighter when no feeding is going on. The illustration shows rock or brick foundations with concrete floor above outside ground level to insure drainage.

Food and Quality of Milk.

Recent evidence collected by F. W. Wolf of the Wisconsin station goes to show that the food of the dairy cow influences the quality of the milk produced to this extent—that the cow will yield a maximum flow of milk of the highest fat content which she is capable of producing on rations relatively rich in nitrogenous substances. The productive capacity of the cow, the prices of feeding stuffs and of the milk products are the main factors that will determine how highly nitrogenous rations can be fed to advantage. Under ordinary conditions in the northern states it will not as a rule, he thinks, be advantageous to feed rations containing over two pounds of digestible protein a day and of a nutritive ration narrower than 1:3.7 to cows of average dairy capacity—American Cultivator.

A Milk Producer.

Buttermakers who are endeavoring to stimulate increased milk production in their respective communities should try to teach the farmers the value of silage. Silage is pre-eminently a food for dairy cattle, and a liberal use of it will cheapen the cost of milk production. Its succulence and palatability, together with the large tonnage per acre, make it an indispensable feed for the dairy farmer. It provides summer conditions for winter dairying and readily supplants summer pasturage when the latter is lacking either through drought or short acreage.—Cor. Creamery Journal.

Where Dairywomen Fail.

The grain ration is where a good many fall down. We ought to remember it is on the amount fed over and above the actual maintenance from which we are to derive our profits and that we must feed with a liberal hand. All there is in profit in such an animal, aside from her calf, lies in the balance left after furnishing her living. So it behooves us to make this living as comprehensive and at the same time as cheap as possible.—Farm Progress.

VITALITY OF MILK.

Those who are engaged and interested in the development of the Holstein-Friesian cow will be pleased to learn a few facts concerning it.

It may be of interest to you to know that New York State alone contains over 9,000 people who are owners of Holstein-Friesian cattle, closely followed by other states. The advanced Registry work of the past year under the provision of the rules adopted for making tests eight months after calving show that the Holstein cow is the largest, longest, most persistent and profitable milker of the dairy cows of the world.

One cow's record, Pauline Paul's, made in 1880, confirmed as it was beyond a doubt, of 1,153 lbs. of butter in one year and her milk of 70 lbs. per day, leaves her still queen of all, but she is closely followed by many others.

It is also becoming widely recognized that the milk from the large and vigorous races of cattle, especially the Holsteins, possess another quality, vitality, and that this quality is communicated to the consumer, human or beast. Thus we have large, strong, vigorous calves, when reared upon Holstein milk rich in fat. Human beings fed upon milk possessing the characteristics of Holstein milk are likewise healthy, strong and vigorous. Professor Carlyle says there is such a thing as vitality in milk and that it is of equal if not greater importance than its chemical composition, especially for the milk supply of the cities, and there can be no question but that the vitality of milk is closely associated with the vitality of the animal producing it. It will not be denied that the milk varies in its food values and in its composition. For example: for the first forty days the pair of pigs receiving skim milk gained 62 pounds; the pair receiving milk poor in fat, 54.8 pounds; and the pair receiving milk rich in fat, 42.2 pounds. For the next ten days the gain was for each pair, 22 lbs., 20½ lbs., and 3¼ lbs., respectively. From fifty to sixty days the results were 20 lbs. gain, 21 lbs. gain, and 6 lbs. loss respectively. After forty days of feeding the pair receiving the milk rich in fat were affected with loss of appetite and diarrhoea and finally did not consume enough to sustain life. (There is little, if any doubt that the same effects are produced on young children by the feeding of milk of certain breeds of cows.) The pair receiving milk poor in fat content as well as those receiving skimmed milk maintained good appetites.

The failure of a pound of milk solids in rich milk to make equal or better gains than a pound of solids in the poor milk was not due apparently to lack of nitrogenous material, but rather the excess or character of the fat. Larger fat globules were found in the richer milk and this fact, in connection with the digestive disturbances, would seem to indicate the reason for the larger gains from a pound of solids with the poorer milk.

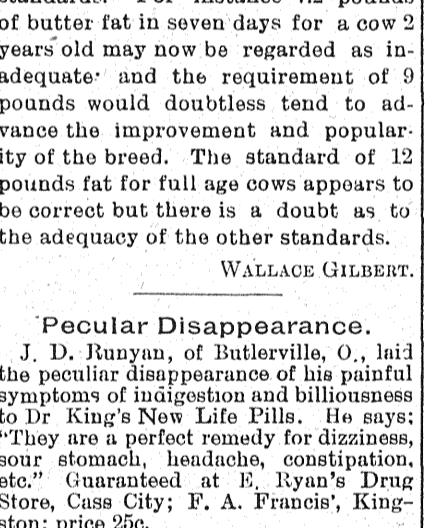

Eminent dairy scientists have suggested the increase of certain of the standards. For instance 7.2 pounds of butter fat in seven days for a cow 2 years old may now be regarded as inadequate and the requirement of 9 pounds would doubtless tend to advance the improvement and popularity of the breed. The standard of 12 pounds fat for full age cows appears to be correct but there is a doubt as to the adequacy of the other standards.

WALLACE GILBERT.

Peculiar Disappearance.
J. D. Runyan, of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy for dizziness, sour stomach, headache, constipation, etc." Guaranteed at R. Ryan's Drug Store, Cass City; F. A. Francis, Kingston, price 25c.

CASTORIA.

The Kind You Have Always Bought.

Port Austin Life Saving Station at Point Aux Barques has been provided with a new and modern surf boat with centre board, sails, etc. Capt. Gill recommended the use of a centre board in both the life and surf boats twenty years ago and his suggestion is at last being acted on.

BANNER SALVE.
The most healing ointment in the world.

A newspaper may boom the advantages of a town through its columns and arouse the interest of outside capital. But with the critical manufacturer or investor the advertising column carries the greatest weight. To him they are thermometers measuring the intensity of public warmth; they are the evidence of push and life; they are the pulse which indicates the healthy condition of the people; they tell him whether or not the community is up to the times in business matters.

The large barn belonging to Sylvester Moore, a farmer living three miles southeast of Vassar, was struck by lightning Sunday and destroyed, together with its contents and two horses.

Weak Kidneys Make Weak Bodies.

Kidney Diseases Cause Half the Common Aches and Pains.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood. Aches and pains and languor and urinary ailments come, and there is an ever-increasing tendency toward diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help. Doan's Kidney Pills act directly on the kidneys and cure every kidney ailment.

Albert Coon, of 925 Page Avenue, Jackson, Mich., blacksmith employed at the Webster wagon works, says: "I had for years weakness and heavy aching pains across the small of my back just over the kidneys. I could not stoop to lift anything without getting sharp twinges in the loins. I could not rest comfortably at night, but rose in the morning tired and unrested. Later the kidney secretions became affected, were highly colored and irregular in action. I heard about Doan's Kidney Pills and procured a box. They helped me from the very start, and one and a-half boxes completely cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Foreclosure Sale.

Default having been made in the payment of money due on and secured by certain mortgage bearing date, the 12th day of September 1899, made and executed by Frederick Nixon to P. A. Herbert and recorded in the office of Register of Deeds for the County of Tuscola, Michigan, in Liber 37 of mortgages, on page 116, which said mortgage was on the 21st day of September, 1899, duly assigned by a written assignment made and executed by said P. A. Herbert to E. G. White and recorded in the Register's office aforesaid in Liber 100 of mortgages on page 488, upon which mortgage there is claimed to be due for principal, interest and taxes, paid by the assignee of said mortgage under the terms of said mortgage the sum of Two Hundred and Thirty-six Dollars and Forty-five Cents.

Now therefore notice is hereby given that said mortgage premises at the front door of the Court House in the village of Caro, at public venue to the highest bidder on the 2nd day of October, 1905, at one o'clock in the afternoon.

The said mortgaged premises being all that certain piece or parcel of land situated and being in the Township of Novesta, in the County of Tuscola and State of Michigan, known and described in said mortgage substantially as follows, to-wit: The southeast quarter of the northwest quarter of section one (1) Township number thirteen (13) north range eleven (11) east, which premises will be sold as aforesaid to satisfy the same on said mortgage and the costs of foreclosure.

Dated this 6th day of July, 1905.

SPECIALISTS

Engelman Medico Surgical Institute, Detroit, Mich.

will make their first visit to

CASS CITY

and will be at the

NEW SHERIDAN

FRIDAY, AUG. 25th.

Tell your sick friends

ONE DAY ONLY.

9 A. M. to 7:30 P. M.

FREE

This Institute in order to introduce their new Medical Discoveries and X-Radium System, sends at its own expense these eminent specialists to give to those who call on the above date, consultation, examination, advice and all medicine required to complete a cure, absolutely free.

These specialists will diagnose your case and give you the benefit of their medical knowledge. They is no experimenting or guess work. You will be told whether you can be cured or not. If your case is curable, they treat you; if incurable they will give you such advice as may prolong your life.

Their treatment gives quick relief and positively cures. Being prepared to suit each individual case the human system is thoroughly cleansed of the disease in a natural and direct manner and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his daily vocation. If you are improving under your family physician do not come and take up their valuable time. They wish to give each one plenty of time, but cannot listen to long stories not pertaining to your case.

They have discarded the old remedies used for ages by the medical world and which it would be folly to depend upon any longer for they do not cure, as thousands die depending on them for relief.

The fact that these Specialists have discovered entirely new treatments and natural cures, gives them control of the Nervous System, Heart, Stomach, Lungs, Kidneys, Catarrh, Consumption, Epilepsy, Deafness, Male and Female Weaknesses, Cancers, Tumors, Piles and other Chronic Diseases.

They treat deafness by an entirely new method and hearing in many cases is restored at once. Catarrh in all its varied forms cured so it will never return. If you have weak lungs or consumption do not fail to be examined.

All cases treated can and will be cured, no difference who you have seen or treated with heretofore. Thousands who have given up all hope of being cured, now have an opportunity to consult specialists of reputation.

Don't fail to call as a visit costs you nothing and may save your life.

If you suspect kidney trouble, bring a two ounce bottle of your urine for chemical and microscopic analysis.

REMEMBER—The free offer is during this visit only and will not be given again. Persons commencing any treatment after this trip will be required to pay, but not one cent will be asked of those commencing treatment during this visit for any medicine necessary to effect a cure; also a positive guarantee to cure will be given to patients accepted under their system of treatment. Those having long standing and complicated diseases, who have failed to get cured and become discouraged, are especially invited to call as thousands who have given up all hopes can testify to permanent cures obtained.

NOTICE—Married Ladies without their Husbands and Minors without their Fathers, will positively not be admitted to consultation.

H. L. HUNT.

Local Happenings.

Miss Della Chapman, of Ubyly, and Miss Lida McNair, of Flint, have been guests of Miss Violet Eno the past week.

T. H. Fritz is building a large poultry house on his recently acquired property at the north end of Seeger Street.

Miss Leila Rushbrook, who has been visiting friends here for some time, returned on Friday to her home at Port Huron.

P. S. McGregory and Chas. H. Travis are attending the meeting of the Huron Baptist Association at Port Austin.

Dr. and Mrs. A. N. Treadgold and Mr. and Mrs. W. A. Fairweather made an automobile trip to Saginaw on Tuesday.

Mr. and Mrs. E. H. Pinney entertained a company of friends at their Forest Home, southeast of town, on Tuesday.

M. P. Heller, of Lansing, arrived here last Friday evening, owing to the serious illness of his mother, Mrs. J. L. Heller.

Mrs. E. A. Steel and daughter, Alice, of Detroit, are visiting at the home of the former's uncle, J. H. Wood, north west of town.

Miss Maude Anderson returned last Thursday from spending a week at Caro, the guest of her sister, Mrs. R. L. Holloway.

"The Woman's Work for Missions," will be the Epworth League topic for next Sunday evening. Mrs. Anna Hunt will lead.

Rev. and Mrs. W. Berge and Mrs. Mary Schwieger left yesterday morning for Capea, to attend the Evangelical camp meeting.

Drs. P. J. Livingston and R. M. Olin, of Caro, have formed a partnership and will have a large suite of rooms in the Gamble Block.

F. Sykes made a business trip to Detroit yesterday and has arranged to place a stock of shoes at his shop the first of next month.

The P. O. & N. R. R. will run another excursion to Cassville on Sunday, the 27th, from Pontiac. Train arrives here at 10:05. Fare 60c.

Miss Ethel McDowell, of Chatham, Ont., who has been visiting her uncle, Wallace Gilbert, of Holbrook, called on friends in town Thursday.

Mrs. N. L. McLaughlin and daughter, of Findlay, Ohio, have been the guests of Mr. and Mrs. C. E. Hanson, south of town, the past week.

Rev. J. W. Fenn has been entertaining an uncle, Amos Fenn, of Leavenworth, Kansas, who has just returned from a trip to the Old Country.

The Loyal Temperance League will meet at the M. E. church to-morrow afternoon at four o'clock, this being the first meeting after vocation.

Mrs. Chas. Rogers, through the insertion of a thirty-two cent advertisement in the ENTERPRISE, secured the return of a \$12 coat, lost on the way to town.

Miss Etta Keating will teach the school in fractional district, No. 6, Elmwood, six miles west and one half mile south of Cass City, for the coming year.

Mrs. Mary Oatout, of this place, who has been at the county jail at Caro for some time, owing to insanity, was removed to the asylum at Pontiac last week.

Mrs. S. J. Beears, who has been visiting friends here for a couple of weeks has returned to Glenocolin, Ont., where she expects to reside in the future.

Mrs. Wm. Schwaderer, Mrs. Hersey Young, Miss Lucy Hutton, Miss Mae Watson, Mrs. H. P. Lee and Frank Beckman leave to-day for an outing at Oak Bluff.

Miss Violet Eno, west of town entertained a company of young people last Friday evening, with a corn roast, in honor of her guest, Miss Della Chapman, of Ubyly.

Master William Deming celebrated his eleventh birthday yesterday, by entertaining a company of his young playmates and treating them to a corn-roast in the evening.

Rev. J. H. Callender, of this place, is announced to give a Doctrinal Sermon this afternoon at the 28th Annual Session of the Huron Baptist Association at Port Austin.

"The Little Red School House," given at the Opera House on Monday evening, was greeted by a very good audience and the play was given in quite satisfactory manner.

The re-arranged program of the Caro Driving Club, for the events of Aug. 29th to Sept. 1st, is at hand. The program is a good one and promises a treat to lovers of the sport.

Glenn Eno left for Pontiac on Saturday afternoon, having first shipped the household effects of his father, Jas. H. Eno. They have taken residence at 14 Sanderson Avenue, Pontiac.

Geo. Fitch, who has been under treatment at Harper's Hospital, Detroit, for some time, has recovered sufficiently to be able to accept a position as office boy in that institution.

J. H. Wood has just sold to parties in Marlette Township, a load of his red wheat, Harvest King, the same weighing sixty-two pounds per bushel. Let us hear from the parties who can do better.

Chas. Rogers, one mile south and one-half mile east of Greenleaf post-office, will sell farm stock and implements at auction on Thursday, August 31st, beginning at one o'clock. Striffler and McKenzie, auctioneers.

Ed. Poole, electrician at Caro, had a very narrow escape from electrocution last week, while repairing broken wires. He was thrown to the ground unconscious but fortunately free from the wires and escaped with burns about his hands.

Wm. Ritohie, a farmer living east of Gageton, lost nearly his whole crop of grain and hay by fire. Sparks from the threshing machine caught in a stack of oats. The wind was blowing strong and a barn and stable were also destroyed.

The Hayes M. E. Church was reopened on Sunday, Aug. 13th, and a memorial bell dedicated, with appropriate services and a sermon from Rev. D. B. Miller, of Almont, pastor at Hayes when the church was built eight years ago.

J. H. Watters does not propose to be beaten on tall corn, and on Monday brought to this office a stalk which measured ten feet six and a quarter inches. It was grown on sandy land and had many tall companions, planted the 19th of May.

The Pigeon base ball team came down last Friday afternoon and played a game with the local nine, the visitors winning by a score of three and two. Cooley and McKenzie formed the local battery, while Gough and Baxter represented Pigeon in that capacity.

An article appears in another column on "Vitality of Milk," from Wallace Gilbert, of the Maple Valley Farm, near Holbrook. This will be followed by other articles along similar lines, which should prove of great interest to our readers who are in the dairy line.

On Sunday morning, Aug. 13th, fire destroyed the barns on the farm of L. L. Bedell, near Fairgrove, together with four acres of wheat, eight acres of barley, fifteen tons of hay, a team of horses, harness and farm tools. The total loss amounted to \$1,500 with no insurance.

Miss Hattie Wood, of this place, who has been employed for several years as an attendant at the Upper Peninsula Hospital at Newberry, has resigned her position at that institution to

accept a situation, secured for her by her brother, Cassius H. Wood, in the Francis Willard Home, at Evanston, Ill. She begins her duties there Sept. 1st.

A very good game of base ball was played at the Driving Park here on Monday between the local nine and the Lions, of Flint. Our boys were victors, the score being five to three in their favor. The batteries were: Cass City—Cooley and Baxter; The Lions—Adams and Daniels. The chief feature of the game was the excellent pitching of Cooley for Cass City.

The Business Men's Excursion to Bay Port on Tuesday was very largely patronized, over four hundred going from this place. The Cass City Band appeared in new uniforms which were quite taking, being of a light "khaki" color, neatly braided. There was good ball play, and the day was a fine one for boating and bathing, so that all enjoyed themselves.

Our fire laddies were called out last Friday evening to quench a fire which started in a straw stack belonging to A. A. Hitchcock, in the old village pound property at the north end of West Street. The straw had been stacked but a few days previously and burned fiercely, but fortunately the fire was kept within control and nothing else caught, although there were sheds and outbuildings close by.

Geo. A. Smith, an expert gunsmith and repair man, of Pontiac, is in town on Tuesday with the view of locating here, provided he receives sufficient encouragement from the business men. He does not expect any financial aid in the way of bonus or otherwise, but wishes to know if those having work in his line will extend their good will and patronage. He expects to be in town again next Monday and decide one way or the other. He would not only do gunsmith work, but is an expert on bicycles, automobiles, sewing machines, umbrellas, etc.

Ice Cream, Cold Drinks, KANDY KITCHEN. 7-20-15.

Card of Thanks.
We hereby wish to thank our many friends for the kindnesses shown during the illness and at the death and funeral of our mother, Mrs. J. L. Heller, and trust that in the hour of affliction they may ever find friends as ready to sympathize.

J. W. HELLER.
C. W. HELLER.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

Wilmut.
Ed. N. Hartt was at Cass City Monday.

Arthur Simenton, of Marlette, is visiting relatives here this week.

Lettie and Cora Hartt spent a couple of days at Marlette last week.

Mrs. Wm. Somers is visiting her daughter, Mrs. Nettie Minis, at Wilmut.

Mr. and Mrs. Albert Irke rejoice over the arrival of an eleven pound girl.

Marshall Mapley, of Pontiac, spent Sunday and Monday at his parental home.

Allie Bella Hartt is visiting her aunt, Mrs. Wm. Weldon, at Cass City, this week.

A large crowd from here went on the business men's excursion to Bay Port on Tuesday.

Mr. and Mrs. John Thompson, of Caro, were calling on relatives at Wilmut Wednesday.

Misses Edna and Carrie Goodrich, of Tuscola, are spending a few days with friends here.

Wm. Penfold returned from Gaylord, where he has been working this summer, on Wednesday evening.

Ben Graves and children, Zella and Willie, who have been visiting at Sanilac and Port Huron, returned home on Tuesday.

Will Laguthlin, after a week's visit with relatives here, returned to Detroit Tuesday. Mrs. Laguthlin will visit a while longer before returning to her home.

Mrs. Fred C. Vorhes, who has been spending the past couple of months with friends and relatives here, went to Rochester Saturday, where she will visit before returning to her home at LaPorte, Ind.

Wm. Evo and Mrs. O. Herrington were married at Caro last Wednesday and returned to the home of the groom the same evening, where supper had been prepared for them. In the evening music was furnished by the charivari band and must have been heard at least a couple of miles away.

The Weight of the World.
A cubic foot of earth weighs about five and a half times as much as a cubic foot of water. A cubic mile of earth then weighs 25,640,000,000 tons. The volume of the earth is 253,880,000 cubic miles. The weight of the world without its atmosphere is 6,000,250,000,000,000,000 tons. If we add to this the weight of the atmosphere given above, we get a grand total—6,000,255,810,000,000,000 tons.

Strange Reward For Life Savers.
"I have seen a good many drowning accidents," said an old sea captain, "and I have seen a good many queer rewards. Once a young man rescued a young widow's little son from the sea. The widow, in her gratitude, asked for the young man's photograph. He sent it to her, and two months later he received a magnificent painting, by Smith, that showed the scene of the rescue accurately, with the little boy and him, both perfect likenesses, struggling like mad in the water."

"A farmer, one of the Pinkertons told me, came from the west to meet a gold brick man. As the farmer and the swindler crossed on the ferry the swindler fell overboard, and the farmer rescued him. He was so grateful that he gave the farmer a brick of solid silver."

"I saved a pretty girl from drowning in my youth," the captain ended. "She gave me a present that weighed 130 pounds. She gave me herself, and I've still got her. She may not be in as good condition now as she was then, but in my eyes somehow she is as sweet and pretty as she ever was."—Philadelphia Bulletin.

Koran and Bible.
Concerning the alleged resemblance between Christianity and Mohammedanism Rev. Napier Malcolm, in "Five Years in a Persian Town," says: "There are really not many resemblances to note. An officer of Indian troops replied to a Mussulman's suggestion that there were resemblances between the two religions, 'There is hardly a single practical point where Mussulmans and Christians are not entirely at issue,' whereupon the Mussulman said: 'Sahib, you have read your Bible and have also read the Koran. I always make that remark to Christians. I made it to a padre the other day, and they almost always say: 'Very true. Mohammedanism has a great deal in common with Christianity.' Well, sahib, when they say that, I know that they have not read the Koran and that they have not read their Bibles.'"

From Jail to the Bench.
Francis Pemberton (1625-97) was imprisoned in the Fleet for debts contracted during a period of youthful extravagance. While in jail he applied himself to the study of law and came to be regarded as a kind of legal oracle by his fellow prisoners, who nicknamed him Counselor. With the fees they gave him for legal advice he bought books to continue his studies. He then prevailed upon his creditors to grant his release from prison that he might do a brilliant career in the palace court at Westminster and subsequently in the house of lords, he became a pulse judge. He was knighted in 1675 and ultimately, on the dismissal of Scroggs, was made lord chief justice in 1681.

The Oldest Paper Books.
What is believed by antiquaries to be the oldest paper book in existence is the "Red Book of Lynn," an ancient register belonging to the corporation of King's Lynn, England. This volume is known as the "Red Book" from its original binding having been of that color. The first entry is a transcript of the will of Peter de Thorndon, Burgess of Lynn, dated 1300. The latest entry is dated in the fifteenth year of King Richard II. Fifty years ago the book was repaired and rebound, and the leaves, which age had reduced to a loose, fibrous substance, were carefully resized as an aid to preservation.

Turn About.
An Irish doctor was asked to attend a patient on Tory Island, off the Irish mainland. The doctor said that he was willing to go, but that the fee would be £2 (\$10), payable in advance. The Tory Islander paid the money and ferried the doctor over from the mainland himself. The physician finished his duties and wished to start back. "The only way to get back was to be rowed back by the same man who had carried him over. The doctor asked what the charge was. "Two pounds," said the Tory Island man, "payable in advance." It was paid.

The Pursuit of Man.
Directly or indirectly we are all interested in the pursuit of the desirable male, for whom every function is really arranged whatever be the ostensible reason. When one sees on all sides how eligible men are run after, fawned upon, flattered, coaxed and humbugged, can the truth of it be denied?—Ladies' Field.

An Unfair Thing.
Mrs. Wickwire—If woman were given the credit she deserves, I don't think man would be quite so prominent in the world's history. Mr. Wickwire—I expect you are right. If she could get all the credit she wanted, he'd be in the poorhouse.

A Funny Will.
Comforting Friend—Has your husband made his will? Prospective Widow—Yes, the wretch. He's left everything to the doctor if he cures 'im, and not a blessed farthing' to his widdler an' orphans.

Painless Sometimes.
Sufferer—Do you extract teeth without pain? Dentist—Not always. I sprained my wrist on one a couple of days ago and it hurts yet.

Indulgent.
"Katherine, you will always find me an indulgent husband."
"Do you mean indulgent to me or indulgent to yourself?"

Discussing the merits of a man's opponents gives him a decided ascendancy over them.—Goethe.

Wanted to Be Useful.
"Woman of the House (with shawl tied around her head)—What are you bothering me now for? Can't you see we're getting ready to move? Ruffon Rats—Yes'm. I thought mebbe you had some pies or scraps o' cake that wuzn't wurth movin' an' you might like to git rid of 'em, ma'am.—Chicago Tribune.

Cause of the Rev.
Mrs. Popley from the bathroom? sako, what's the matter with Willie? Mr. Popley (from the bathroom)—Oh, he wants the earth. Mrs. Popley—Wants the earth? Mr. Popley—Yes; at least that portion of it that I'm trying to wash off his hands and face.—Philadelphia Press.

Misunderstood.
Lieutenant (showing party of visitors over battleship)—This is the quarter deck. One of the Party—Geel! I thought it was all free!—Pittsburg Dispatch.

We wept when we came into the world, and every day tells us why.—Goldsmith.

"Itching hemorrhoids were the plague of my life. Was almost wild. Donan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cronwell, Valley Street, Saugerties, N. Y.

Indigestion Causes Catarrh of the Stomach.
For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure
relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Kodol Digests What You Eat
Make the Stomach Sweet.
