While serving life term

Former teacher fights firing

Stephen Leith, the former Cass City teacher who was sentenced last month to life in prison without parole for

the murder of Chelsea School Supt. Joe Piasecki, is fighting to keep his teaching credentials.

Leith is challenging the Chelsea Board of Education's decision to fire him, according to a story

published in the Detroit News Friday.

The action has outraged Chelsea School officials, who estimate it could cost the district more than \$80,000 in legal fees to fight Leith's appeal.

Leith, who formally protested his firing in a Sept. 29 letter to the Michigan Teacher Tenure Commission, has said in published reports that he wants to keep his teaching credentials in case he wins an appeal of his criminal convictions.

An official with the state Department of Education was quoted as saying advice would be sought before an administrative decision on Leith's appeal is made.

The official said the case has been assigned to an administrative law judge, whose decision could be appealed to the Tenure Commission itself. Its decision could be appealed to state court.

Leith would have to pay for his own attorneys fees or represent himself, as the Michigan Education Association rejected his request for representation in the appeal, according to the story.

Leith was convicted by a jury of first degree murder in the Dec. 16 slaying of Piasecki, 47, following a 2-week trial.

He was also convicted of 2 counts of assault with intent to murder high school Principal Ron Mead, 44, and Phillip Jones, 44, a teachers' union representative, and 3 counts of possession of a firearm in the commission of a felony.

Investigators said Leith shot the 3 men with a 9-mm semi-automatic pistol after storming out of a meeting reportedly to discuss a student's allegations that Leith was

33 teachers seek back wages from Jordan College

More than 30 current and former Jordan College faculty members have filed wage complaints requesting back pay owed since spring, Michigan Department of Labor officials said last week.

Officials said the state Attorney General's Office will be asked to take legal action forcing the college to pay substantiated claims.

At stake are several thousand dollars, money the college simply doesn't have at the present time, according to Jordan President Lexie Coxon. However, Coxon said Thursday, Jordan is making every effort to meet its financial obligations, including back wages, as quickly as possible.

About 33 teachers have filed complaints, most of them requesting 2 to 4 weeks of back wages, said Mike Dankert, chief of the labor department's wage and hour division. About two-thirds of the complaints have been processed to-date, he said.

The amounts involved range from \$500 to \$3,400 per claim, but a majority of the teachers are seeking less than \$1,000, Dankert said.

Once all the claims are investigated — probably in 30 to 60 days — the labor department will compile a summary and submit it to the labor division of the attorney general's office for further action.

Jordan College could appeal the labor department's action, which would result in administrative hearings before an administrative law judge. However, Dankert said, "At this point, there haven't been any appeals filed."

And none are planned, according to Coxon, who said the college doesn't dispute the claims, but needs time to raise the money. "We're working on that just as quickly as we possibly can," she added.

In August, Jordan College emerged intact, but struggling after a year-long fight with the U.S. Department of Education over the school's troubled finances and problems surrounding Jordan's administration of federal student aid programs.

Financial restructuring forced the private, non-profit

school to cut staff and permanently close 2 of its campuses.

In all, some 150 teachers and staff went without pay for some period of time during the battle, which ended with the education department's approval of a procedure for expedited payments of federal student financial aid for eligible Jordan students, enabling the college to open its doors for the fall semester.

As a result of the college's agreement with the education department, Coxon explained last week, all current funding must be used for cur-

rent instruction, and any surplus may be used to meet other financial obligations.

However, there is no surplus, Coxon said, noting the lateness of the agreement hurt fall enrollment.

Coxon pointed out Jordan's financial recovery isn't going to happen overnight, but that the school is looking for a strong spring enrollment.

In the meantime, she said, college officials are focusing on other avenues to improve finances, including restructuring, contributions, selling inventory from the school's 2 closed campuses, and past accounts due to the college.

Malicious destruction

Cass City man charged

Cass City police arrested a Cass City man Sunday on a felony warrant alleging malicious destruction of property over \$100.

George W. Stephenson, 21, was arrested for allegedly punching the driver side window and roof of a 1990 Chevrolet Beretta last Wednesday at the People's Choice gas station, 6144 Cass City Rd., Cass City.

The vehicle was occupied by Allen R. Miller at the time of the 6 p.m. incident, according to reports. Miller told police Stephenson approached his vehicle, started yelling at him and then punched the vehicle.

Damage was estimated at \$287.

Also last week, vandalism was reported at the former Wesley's Milk Plant build-

ing. Cheryl Osentoski reported she was working at the Quaker Maid Dairy Store when she heard glass breaking in the vacant building next door.

The officer on duty was unable to respond because he was in court signing a warrant, however, Village Manager Lou LaPonsie and Cass

City Middle School Principal Don Schelke were asked to check on the building. Upon arrival, they found 4 middle school students in the building.

The boys were returned to school and their parents called, according to reports, which state the incident will be turned over to juvenile authorities.

Minor injuries in 2 accidents

Minor injuries were reported in a pair of traffic accidents in Cass City last week.

Cass City police stated Lynne M. Lowman of Deford suffered a minor head

injury when the vehicle she was a passenger in struck another vehicle from behind on Seeger Street near Rose Street last Wednesday.

The other vehicle was Please turn to back page.

For Sarah Mock memorial

Students plan walk-a-thon

Anita O'Berski remembers Sarah Mock as a special 10-year-old who enjoyed school and loved to help others.

"Sarah was just a very outgoing and friendly person in class," said O'Berski, a fifth grade teacher at Kingston Elementary School. "She always wanted to help people. If she had her work done, she wanted to help the aide or help me check papers."

Tragically, Sarah, the daughter of Ron and Penny Mock, lost her life May 17, 1992, when the tractor she was riding on flipped over on top of her.

But a handful of parents and students are working to keep Sarah's memory alive.

"What would have been (Sarah's) eighth grade class, and parents, have joined together to raise money for a scholarship fund in her memory," said parent Patti Rodenbo, who has helped to spearhead a walk-a-thon planned for this weekend.

The event is scheduled for Saturday from 9 a.m. to 1 p.m. in the Kingston High School gym.

Anyone who can't walk but would like to contribute may do so by sending a donation to the Sarah E. Mock Scholarship Fund in care of Kingston Elementary School, 3644 Ross St., Kingston, MI 48741.

Proceeds from the walk-a-thon will be pooled with money raised in similar events held in each of the past 2 years.

Rodenbo noted fund raisers in honor of Sarah have generated a total of \$4,872 to-date. About \$2,800 was

spent last year on new playground equipment, she said.

The remaining \$2,000 will be added to the amount raised Saturday, and placed in a scholarship fund. The first scholarship will be

awarded to a Kingston High School senior at next year's graduation.

"Sarah was really into education, so we thought this would be something really positive to keep her memory

going," Rodenbo said.

"My son and Sarah were really good friends. He didn't want people to forget her because she was a really wonderful girl. She touched a lot of lives."

TESSA COLES (foreground), a first grader at Kingston Elementary School, enjoys a new swing set purchased in memory of 10-year-old Sarah E. Mock, who died in a 1992 tractor accident. Parents and students are now planning to set up a scholarship fund in honor of Sarah.

CHOICES, CHOICES. Campbell Elementary School students line up for breakfast Friday morning. In all, an average of 200 to 225 Cass City students are taking advantage of the new state-mandated breakfast program on any given day.

Rabbit Tracks

by John Haire

(And anyone else he can get to help.)

How time flies. Don Crouse called to have his subscription transferred to Florida. Most folks remember that Crouse was superintendent of Cass City Schools for 23 1/2 years until he announced a surprise retirement effective Jan. 1, 1988, 6 years ago.

The school has benefited from stability at the top. In over 50 years, only 3 superintendents have served. Prior to Crouse, it was Willis Campbell and, of course, for the last 6 years, Ken Micklash.

Incidentally, when he retired at 56 years old, I wondered (and perhaps, so did he) how he would take to doing nothing on a regular basis.

He cheerfully announced when he called, "I love it."

The final tally on the Shabbona United Methodist Women's (and men's) project is in. A total of 1,240 pies were assembly line produced.

The work netted the church over \$5,000. What's more, the return on labor was a giant (for civic projects) \$15 a hour.

That's 15 dollars, not cents, which is the usual return on labor for most club projects.

Out-of-town media were noticeably absent for the title share deciding game Friday between Cass City and Bay City All Saints.

Probably thought that Cass City had little chance to pull off the upset? They were not alone there, as the 4 Chronicle Forecasters all picked the Hawks to lose.

But win or lose, the Chronicle covers Cass City games and, needless to say, all 4 were happy to be wrong.

Sunday is the time to "fall back" an hour on the clock. Everyone gains the hour back they lost in the spring. More important, with the short days, it's nice to go to work in the daylight.

ALTHOUGH PHEASANT COUNTS were down from last year, these area hunters enjoyed success hunting west of Cass City on opening day. Pictured (from left) are: Jeff Hartel, Don Howard and Mike Karr.

Area Boy Scouts busy

Area Boy Scouts will start selling popcorn Friday.

The scouts also have other exciting activities coming up. A hike is planned for Saturday, when the boys will use their hiking abilities and test

other skills.

The Scouting for Food program will be held the week of Oct. 31. The scouts will pick up donated foods Saturday, Nov. 5. Items needed are vegetables, fruit, pasta, canned meat and fish and

cerale.

Boy Scout Troop 594 recently elected officers for the fall of 1994. They are: Nathan Weippert, honorary senior patrol leader; Chad Wolschlagler, patrol leader; Matt Hillaker, assistant patrol leader; Guy Nanney, troop scribe (historian); Jonathan Fields, troop quartermaster, and Kyle Ross, troop librarian.

There will be a reelection in the spring of 1995.

The Boy Scouts are looking for a merit badge counselor. Anyone interested is asked to contact Nancy Wolschlagler at 872-5397.

5 plead Friday in circuit court

Five people entered pleas Friday in Tuscola County Circuit Court:

•Wayne A. Creason, 33, Caro, pleaded guilty to operating a motor vehicle while under the influence of liquor, third offense, Sept. 17 in Fairgrove Township.

A pre-sentence investigation was ordered and bond was continued at \$100. Sentencing is to be scheduled.

•Fidel Guzman, 27, Saginaw, entered a plea of guilty to attempted carrying a concealed weapon (knife) July 18, 1993, in Reese.

A pre-sentence investigation was ordered and bond was continued at \$2,000. Sentencing is to be set.

•Ricky J. Crittenden, 23, Kingston, pleaded guilty to operating a motor vehicle while under the influence of liquor, third offense, Sept. 24 in Wells Township.

Bond was continued at \$100 and a pre-sentence investigation was ordered. Sentencing is to be scheduled.

•Augusta L. Gronda, 20, Bay City, entered pleas of guilty to larceny in a building and receiving and concealing stolen property valued at less than \$100.

The charges stem from the July 7 break-in of the Fairgrove Market, 2011 Main St., Fairgrove, and the theft of cash and store merchandise, according to court records.

A pre-sentence investigation was ordered for Gronda, whose bond was continued at \$40,000. Sentencing is to be set.

•David L. Kozlowski, 46, Sterling Heights, pleaded guilty to delivery of less than 50 grams of cocaine between June 1, 1991, and May 31, 1993, in Tuscola County.

A pre-sentence investigation was ordered and bond was continued at \$75,000 for

the defendant, who was remanded to the custody of the sheriff's department. Sentencing is to be scheduled.

The shift of school taxes from property to the state sales tax was not the only change brought about by the transfer.

With it went another shift, the local control of our schools to the state.

It's obvious that more and more pressure on small districts is being applied and the trend will continue.

With Gov. John Engler cracking the whip, the golden rule applies. The people with the gold rule. Never mind that the gold is painfully extracted from all of us.

Once it reaches Lansing it no longer is ours to do with what we want or even what we suggest it be spent for.

But, back to the pressure on small districts. Did you catch the stories in the news that schools in the Midland district are considering consolidation? Why? Simply because the state funding has already been tilted to make more money available to larger districts.

Don't believe for a minute that it is only schools in larger population districts that are feeling the clout of the dollar bill.

Switch to Arenac County, which compares in size to schools in the Thumb. A carrot of several million dollars dangling in front of them has schools there ready to study a consolidation.

Add to that the "charter schools" concept, where all schools will be given state money in seeming violation of the separation of church and state as provided in the

constitution, and another plank in school control is hammered into place.

Those are the visible pressures, apparent to even the casual observers of the school scene.

The state is wielding its money hammer in other ways not apparent to folks not intimately involved with the schools.

No longer does the local school board have the power to say just what classes will be offered for graduation. Follow the guidelines or forget about state aid money.

Except for the horrendous paper work involved, you can make a case for the guidelines, but history shows that the bigger the government, the bigger the problem.

It appears sure that down the road we will be paying more and receiving whatever big government decrees in our classrooms.

The local control of schools by the school board had its drawbacks. Too often members ran and were elected to the boards with a single issue axe to grind rather than the overall promotion of better schools.

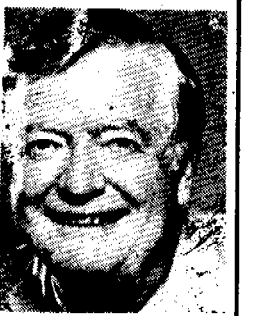

But in the long run, they inevitably were controlled by the other members and the school had to answer to the taxpayer at every election. It kept costs in line.

The sales tax, paid a penny at a time, sugar coats the cost of running the schools but, make no mistake, it will cost more, not less, than the system it replaced.

"If It Fitz...."

Horse racing industry is inherently cruel

By Jim Fitzgerald

I don't mean to be rude, honest, but I have neither the time nor desire to accept the several kind and not-so-kind invitations I've lately received to visit horses at racetracks and farms.

My would-be hosts want to convince me there's no cruelty to animals involved in horse racing.

They're responding to my recent column saying I preferred casino betting to horse betting because "you can play a slot machine without getting blood on your hands." I quoted a jockey's complaints about bloody injuries suffered by horses raced in winter weather.

'WE LOVE HORSES...'

The most eloquent letter came from Lori Reynolds, a groom at the Detroit Race Course:

"Thoroughbreds have been created to race and do it willingly, eagerly, innately. Certainly there are unscrupulous persons involved in the sport who are ignorant, abusive, neglective, cruel. They are the minority and usually not long in business.

"Most of us work at the racetrack because we love horses, as evidenced by our long hours seven days a week caring for our 'kids' for low pay, no respect, no recognition, no benefits. We know our horses run because we care for them, usually better than ourselves, and train and develop them as the true athletes they are.

"You cannot force a horse to perform successfully through cruelty or abuse. They are immensely powerful creatures capable of protecting themselves, and demand respect...

"We are all here to win races and not only for the money angle. It is an athletic test, a competition of horses and humans. Abuse does not create winners. It creates problems."

Lori Reynolds said she and other low-level track workers get "no respect." She has my respect. But not my total agreement.

I also heard from several racetrack employees who said they regularly see horses treated cruelly. For the obvious job-security reasons, they asked that their names be withheld.

There was an anguished call from a woman who said she had broken off a long relationship with a racetrack veterinarian because he condones "terribly cruel" treatment of horses.

So, as far as I'm concerned, there's no question that some horse people are blatantly cruel to horses. But, as Reynolds said, they are a minority.

Many of my critics claimed thoroughbred horses are bred to race and wouldn't be happy doing anything else. Bred by whom?

A depressing number of race fans said it was silly of me to worry about cruelty to race horses because they're treated a lot better than work and riding-stable horses. Does a big cruelty make a smaller cruelty OK?

A MATTER OF CHOICE

And then there were the

several brilliant thinkers who said football players are injured more often than race horses, so why didn't I gripe about that, huh?

Someday I expect to meet a quarterback who quit football in favor of being whipped by a jockey. Right after I meet a horse that quit being a fullback so he'd have more time to be cinched tight and ridden hard.

The key question concerns the choice to be exploited.

Prize fighting is more barbaric than bullfighting, but the boxers choose to do it for the money. Where do the bulls go to vote?

A visit to the most horse-friendly stable in the world wouldn't change my mind, because I believe the horse-racing industry is inherently cruel to horses even when it's run under the kiss-kindest circumstances, in the best of weather.

Some of you probably remember the late Doc Greene, the splendid Detroit News columnist and big horsetrack fan. Greene once said that, until a horse told him so, he'd never believe horses enjoyed being saddled, ridden, whipped, kicked and jerked. Me, neither.

Many uses for pumpkins

Pumpkins can be used for more than just Jack-O'-Lanterns. The seeds scooped out of the pumpkin can be set aside and roasted for a nutritious snack. After Halloween the pumpkin pulp

can be scooped out and processed for pie filling, although it's best mixed with squash to give body to the product. Use a ratio of two thirds squash to one third pumpkin.

67-58 over Vikings

O-G wins in double overtime

Before last week's games, Akron-Fairgrove and Owen-Gage were tied with identical records in the North Central Thumb D League and it figured to be a tight game for league hoop supremacy.

But even the most ardent fan couldn't have predicted how close the 2 teams were to play Thursday. The Bulldogs won in double overtime, 67-58.

Another tight battle is expected next Tuesday when the Bulldogs travel to C-PS. The 'Dogs came back from the brink of defeat in both overtime periods and Coach

Dean Roller says the mental toughness his charges showed could be a definite asset in a close tournament game.

The 2 teams were tied at 50 at the end of regulation time after Angie Wildman tied it with 2 charity tosses. A-F went ahead by a basket with 5 seconds left in the first overtime, but Melody Abfalter tied it with a pair of clutch free throws.

Led by 4 points each from Kate Powers and Susie Roemer in the second overtime, the Bulldogs chalked up the win.

It was a close game all the way. The Vikings went ahead 15-13 at the end of the first quarter and 28-24 at the half. Owen-Gage went ahead 40-39 with a big 16-point third period as Wildman and Abfalter led the attack in the period with 7 points each.

Wildman led all scorers with 27 points and Abfalter netted 16 for the Bulldogs. Denise McGuire led A-F with 20 points.

BULLDOGS LOSE

In the Tuesday game, Owen-Gage bowed at North

Huron, which is in second place in the league, 58-45.

Owen-Gage started slowly and was never able to catch the Tigers although they kept on their heels for most of the game.

After falling behind in the first period, Owen-Gage rallied to move within a point at the half, 22-21. Nora Fawcett kept the Tigers in front at the intermission by accounting for all of her team's points in the second quarter.

The winners bounced back into a 6-point lead in the third quarter and then iced the game with a 20-13 edge in the final 8 minutes.

Roller said that the key to the loss was the inability of his charges to stop the Tigers' inside game.

Cookie sale kick-off set

The kick-off of the annual Girl Scout cookie sale will be held Saturday from 10 a.m. to noon in the Cass City Middle School cafeteria.

All scouts are urged to attend to have fun and pick up their order sheets.

The Cass City and Deford troops, Mid-Thumb Girl Scouts, will be taking cookie orders Nov. 1-12 only, officials said, adding area residents are asked not to place an order before Nov. 1 nor after Nov. 12.

C-PS avenges loss with 25-0 win over Bulldogs

How sweet it is. Carsonville-Port Sanilac avenged an early season setback Saturday with a convincing 25-0 win over visiting Owen-Gage.

The loss leaves Owen-Gage at 2-3 in the North Central Thumb League, 3-4 overall, while C-PS improves to 4-4 overall, having collected its only NCTL victory of the season.

Both schools have one non-conference game remaining as the Bulldogs will travel to face Vestaburg Friday and the Tigers host Dryden in a Saturday tilt.

As in their first meeting, defense ruled Saturday's contest and the Tigers' defense was supreme on the day.

Carsonville held the visitors to 143 total yards. Wade Tetil rushed for 65 yards on 20 totes to lead the Bulldogs while Joe Tkacz, who stunned the Tigers with an 88-yard touchdown run in the 2 schools' first meeting, an 8-7 Bulldog win, was held to 39 yards rushing in 6 carries.

On the other side of the ball, the hosts rolled up big yardage against the Bulldog defense, finding plenty of running room on both cor-

ners. Larry Carter collected most of the Tigers' 221 rushing yards as he was credited with 167 yards on 29 carries.

Although the Tiger ground game moved the ball between the markers, it was the hosts' passing attack that found the end zone.

After a scoreless opening period, C-PS scored twice before the half. John Rosenberg spotted Josh Sherman in the corner of the end zone with 4:25 showing

on the clock to break the scoreless tie. Minutes later Rosenberg hit Ash Haynes with a 20-yard strike and the Tigers enjoyed a 12-0 lead entering the 3rd quarter.

Haynes and Rosenberg teamed up again in the final period when Haynes hauled in a 30-yard pass for his 2nd score on the day that extended the Tigers' lead to 18-0.

David Kelly scored the game's only rushing touch-

down when he scored on a 5-yard run late in the game. Kelly closed out the scoring with a kick for point after.

The Bulldog defensive effort was led by Tetil, who recorded 16 solo tackles and one assist from his line-backer position. Matt Jaworski received credit for 8 solo stops and Joe Tarkacz sack for the guests. Tkacz added 8 tackles while Matt Jarr chipped in with 7 tackles.

First time in 14 years

Hawks upset All Saints to share conference title

For the first time in 14 years, area fans can say "Hail to the champs", as the Cass City Red Hawks upset visiting Bay City All Saints Friday in a battle for a share of the Thumb C National Division title with Laker High.

It was essentially a defensive struggle and team victory although a case could be made for Tim Warneck, who had a career night in his last ever home game. All he did was account for all of Cass City's points and play tough defense. Despite those heroics, the game was won because Cass City refused to bend when the game was on the line.

The Hawks opened a 2-

touchdown lead in the first quarter with a little help from the Cougars and the referees.

The Hawks didn't need any help on the first touchdown drive after taking the opening kickoff to their 42-yard line. Chad Diegel passed to Kevin Storm for a first down to the Saints' 44 and then running plays moved it to the 34.

From there Warneck broke through the line, brushed off a tackler and romped into the end zone 2 1/2 minutes after the game started.

A Cougar drive was thwarted by a fumble recovered by Warneck and the Hawks mounted a drive to score from deep in their own territory.

The Hawks were helped by a roughing the kicker penalty after it appeared that the drive was halted.

Cass City took advantage of the break to score on a spectacular run by Warneck. It appeared that the Hawk drive would stop when it was third and 18 on the 34. But Warneck took a screen pass in the right flat, broke 3 tackles and ran into the end zone.

Warneck then ran for the very important extra points.

The All Saints offense was hampered in the first half by 2 penalties for unsportsmanlike conduct on the sidelines.

The Saints went to their air arm to score with less than a minute left in the half, moving from their own 31-yard line to score. Chris Bannigan tossed to a variety of receivers to move the ball to the seven. A 5-yard penalty moved the ball to the 3, from where Jason Fritz ran for the touchdown.

That ended the scoring for the night, but not the excitement. The Saints took the opening second half kickoff and appeared headed for a touchdown in a drive that consumed over 8 minutes of the quarter.

The ball was on the Cass city 11 when the Hawk defense made its finest stand of the season. Justin Hulburt made 2 big stops and Sam Spencer stopped what could have been a touchdown pass. A field goal attempt was just short.

Cass City had the ball for just 3 plays in the quarter. In the fourth period a long drive was halted by a fumble. The Hawks had moved from the Saints' 46 for a first down on the 9.

But the defense held firm and the Hawks had their coveted share of the league title.

There were heroes galore besides Warneck. Jason Morgan was a one-man wrecking crew on defense. He was responsible for 20 tackles, 5 unassisted. Coach Don Markel pointed to Corey Ulfig, who was moved to

outside linebacker and did a great job.

Warneck averaged 5 yards a carry for 70 yards and Morgan ran for 46 on 12 attempts. Diegel hit 4 of 8 passes for 68 yards. Storm was his favorite receiver with 3 catches for 30 yards.

For All Saints, Bannigan completed 13 of 23 passes for 98 yards

The Hawks end the season at Harbor Beach and will be

playing for pride to cap a season better than most fans thought possible when it opened.

Take care when cooking venison

Venison contains so little fat that you have to be extra careful how you cook it or it ends up very tough. Tenderize venison by soaking the meat in an acid-based marinade like tomato juice, lemon juice, vinegar or wine. Roasting the meat in a pressure cooker or pounding it before cooking can also help tenderize it.

THE PASS FROM Chad Diegel fell off the fingertips of Cass City's Scott Iwankovitch.

Shots fail to fall, Hawks lose pair

The Cass City Red Hawks are mired in a very costly scoring slump that has resulted in 7 losses in their last 8 games, including a pair of defeats last week to Ubyly, 40-29, and the Lakers, 67-27.

Despite the dismal results, Coach Marty Daniel says his charges have continued to work very hard on offense and defense. "We have the effort and the desire", he maintains. "We just need the ball to start falling through the hoop more often."

The shooting drought was especially noticeable in the loss to Ubyly last Tuesday. Cass City converted just 4 of 41 shots from 2-point range and one of 8 3-pointers, for a miserable 20 percent average.

The Bearcats jumped off to an 8-4 lead in the first period and added to it throughout the game.

Cass City was unable to generate any offensive power until the fourth quarter. In the first 3 quarters the team was able to convert just 5 field goals.

Sparked by Lisa Burns, Cass City nearly equaled its point production for the previous 3 quarters in the last 8

minutes. Burns connected for 3 field goals, including a 3-pointer, and a pair of charity tosses for 9 points, to share high scoring honors for Cass City with Kelli VanVliet.

Sharon Kanaby netted 19 for Ubyly.

CASS CITY - K. VanVliet 1-0 (7-13) 9; J. Caister 1-0 (2-0) 2; L. Burns 2-1 (2-3) 9; J. Wright 2-0 (1-2) 5; A. Schelke 1-0 (0-0) 2; P. Daniel 1-0 (0-0) 2.

TOTALS - 8-1 (10-18) 29.

UBLY - J. McCarty 4-0 (0-0) 8; J. Weber 3-0 (0-1) 6; A. Pavalowski 3-0 (0-1) 6; S. Kanaby 5-0 (9-13) 19; M. Anthony 0-0 (1-2) 1.

TOTALS - 15-0 (10-23) 40.

compared to just 20 percent for Cass City.

Cass City trailed at the intermission, 30-9, and from there the winners coasted in to keep their National Division Thumb C record spotless.

JV - FRESHMEN

The Cass City junior varsity won twice and the freshmen lost a pair during the week. The JV squad defeated the Lakers, 38-31, and Ubyly, 42-37, while the freshmen lost, 45-42, to the Lakers and 47-26, to Ubyly.

CASS CITY - W. Mayer 3-0 (0-0) 6; K. VanVliet 2-0 (3-7) 7; J. Caister 1-0 (0-0) 2; J. Wright 1-0 (0-0) 2; A. Schelke 2-0 (0-0) 4; P. Daniel 1-0 (0-2) 2; C. Britt 2-0 (0-0) 4.

TOTALS - 12-0 (3-9) 27.

LAKER GAME

The Hawks proved to be no match for the undefeated in the league Lakers Saturday as the winners dominated visiting Cass City.

The Lakers jumped off to a 19-3 first period lead and never looked back. The taller Lakers won the battle of the boards, 29 to 20, and outshot the Hawks, hitting 37 percent

LAKERS - Bollenbacher 5-1 (1-3) 14; Bolda 1-0 (2-2) 4; McLellan 3-0 (1-2) 7; Smith 2-0 (1-2) 5; Damm 1-1 (2-2) 7; Drury 5-0 (1-2) 11; Herbert 1-0 (0-0) 2; Kruger 0-0 (1-2) 1; Weidman 7-0 (2-2) 16.

ARTRAIN coming to Bad Axe Nov. 3-6

America's fascination with travel and technology will be the theme when ARTRAIN, the museum in motion, brings "The Romance of Transportation" exhibition to Bad Axe Nov. 3-6.

The nation's only traveling museum in a train, ARTRAIN is comprised of 4 converted rail cars housing 3 exhibition galleries and an artists' studio. Bad Axe is one of only 25 towns and cities nationwide that will host "The Romance of Transportation" during the 1994 touring season.

"The Romance of Transportation: Vehicle and Voyage in North American Art" features about 75 works from public and private collections.

Included are paintings, sculptures, photographs, and prints depicting the transportation phenomenon of the past 200 years from many different viewpoints and through many media. The exhibition explores a variety of themes, including the opening of the West, the coming of railroad, the automobile revolution, and space age.

ARTRAIN visitors encounter familiar names in art as well as discover new ones. Among artists represented in exhibition are pop artist Andy Warhol, realist Thomas Hart Benton, sculptor Claes Oldenburt, African-American collage artist Romare Bearden, photographer Dorothea Lang, and photo realist Richard Estes.

Hands-on displays, music and audiovisual programs offer innovative means of experiencing the exhibition that will appeal to people of all ages.

Additional information is available by contacting Theresa Sugden at 269-7661.

The word "textile" comes from the Latin term *texere*, meaning "to weave."

Time For Flu Shots

It is time for flu shots again. Each fall and early winter, people at high risk of complications if they get this serious influenza virus should receive the shot. Unfortunately, only about 20% of people who should get the immunization do so. This allows the virus to spread more easily as it goes through a community. The virus normally spreads during the winter months, so it is important to get the shot by mid-November.

A person should get the shot if he is over 65 or if he has any severe or chronic illness, such as heart disease, lung disease, or diabetes. Residents of nursing homes or other long-term care facilities should routinely get the shot. Younger people should have the shot if they have any chronic illness such as kidney failure or immune deficiencies.

Since the immunization is incubated in eggs, if a person is allergic to eggs, chickens, or feathers the shot should not be given without first doing a scratch test to verify the allergy. The shot should not be given during an acute respiratory infection or other active infection.

The shots are very safe and if any reaction occurs it is a mild fever with aching and fatigue. This may last one to two days. Rarely, a person will get hives, which is probably due to an egg allergy.

The more serious paralysis of Guillain-Barre syndrome is very rare and is only known to be associated with the "swine flu" component which was last used in 1976. Epidemiologists predict which strains of the virus are likely each year, so the shot is different each year.

Letters to the editor

Thumb's Allen supports Engler

Dear Editor:

Last week, a Republican

A special lady in community

To the Editor:

We have a special lady that lives in our community that I think deserves some recognition, Janice Winter.

Besides running the Colony House, she also finds time to visit people in hospitals and nursing homes. She also has a father-in-law in a nursing home.

When I was in the hospital back in August she dropped in to see me a couple of times.

And I'm sure there are a lot of other people she has done things for that we don't know about.

But the most recent thing was when an elderly neighbor came home (from being in the hospital and Tendercare) there was a large yellow ribbon on a tree in the front yard.

Horoscopes not for pupils

To the Editor,

Recently our children received the Hawk Herald through the high school. We were appalled at the horoscope being printed in this paper which is for our children to read. This is not our belief as Christian parents. We believe that this is witchcraft and of the world. There is enough trouble in our schools without adding more.

The idea of the horoscopes is to predict the future and only the Lord knows our future. So we are asking for this to not be printed in our children's school paper.

for Wolpe group was formally announced in the media, and Dick Allen was named as one of the group's organizers. Perhaps what wasn't clear from the initial newspaper articles and recent radio advertisements is that this Dick Allen is a former legislator from Ithaca, the executive director of the State Fair, and the organizer of the DELMAC annual Labor Day bike trip; not the current state representative from the Thumb Area. While I respect Mr. Allen's right to endorse whomever he chooses, I want to make it clear that I am in no way connected to the Republicans for Wolpe group and I do not in any way share its views. In fact, I am lending my wholehearted support to the re-election of John Engler for Governor of the State of Michigan. As a member of the House Appropriations Committee, I can personally attest to the dire

financial problems our state was in when John Engler assumed office, and he has in fact resolved them. Governor Engler inherited a \$1.8 billion deficit 4 years ago and today, the state's total savings account (Michigan Budget Stabilization Fund) is now up to \$663.9 million, the largest Rainy Day Fund balance in Michigan's history. It is

without question that I offer my unqualified support to Governor John Engler and would encourage the taxpayers of Michigan to follow suit.

Sincerely,

Dick Allen
State Representative

Check movies for pornography

Dear Resident,

Oct. 23-30 is pornography awareness week. Pornography degrades sexuality and is a tool in the victimization of women and children.

The Living Word Worship Center urges individuals to call local businesses that carry videos and magazines, and ask questions, "Do you carry videos with the VM rating?" Meaning very mature audience. "Do you carry Adult Only videos? Do you carry videos that have no rating? What type of magazines do you carry?"

Questions such as these can help you better understand what type of material is in your town stores and will help you determine whether or not to continue to support that business.

Please, tie the white ribbon on the antenna of your vehicle, letting others know, that we are saying NO to pornography!

It is time for the church to take a stand against evil!

In His Service,

Rev. Scott M. Tysick

- LEGISLATIVE - State Senator (27th District) and State Representative (83rd District).
- STATE BOARDS - 2 Members of the State Board of Education, 2 Members of the Board of Regents of the University of Michigan, 2 Members of the Michigan State University Board of Trustees, 2 Members of the Wayne State University Board of Governors.
- COUNTY - County Road Commissioner and County Commissioners.
- TOWNSHIP - Various Offices to be filled due to vacancies.
- NON-PARTISAN OFFICERS, VIZ: 2 Justices of the Supreme Court, 2 Judges of the Court of Appeals (4th District), Judge of Probate Court

AND ALSO TO VOTE ON THE FOLLOWING PROPOSALS:

STATE - Proposal A - A PROPOSAL TO CONVENE A CONSTITUTIONAL CONVENTION FOR THE PURPOSE OF DRAFTING A GENERAL REVISION OF THE STATE CONSTITUTION. Shall a convention of elected delegates be convened in 1995 to draft a general revision of the state constitution for presentation to the state's voters for their approval or rejection?

Proposal B - A PROPOSAL TO LIMIT CRIMINAL APPEALS. The proposed constitutional amendment would restrict a criminal defendant who pleads guilty or nolo contendere (no contest) from appealing his or her conviction without the permission of the court. Currently, someone who pleads guilty or no contest to a crime has the automatic right to appeal. Should this proposal be adopted?

Proposal C - A REFERENDUM ON PUBLIC ACT 143 OF 1993 - AN AMENDMENT TO MICHIGAN'S AUTO INSURANCE LAWS. Public Act 143 of 1993 would: 1) Reduce auto insurance rates by 16% (average) for 6 months for policyholders reducing personal injury (medical) insurance to \$1 million. Extra coverage made available at added cost. 2) Permit Insurance Commissioner to waive company's obligation to reduce rates if statutory formula would be in excess of 1989-1992 state average. 3) Place limits on personal injury (medical) benefits. 4) Limit fees paid to health care providers. 5) Limit right to sue by setting higher standards for the recovery of damages for "pain and suffering" and prevent uninsured drivers and drivers over 50% at fault from collecting damages. 6) Allow rate reductions for accident-free driving with same insurer. Should the law be approved?

Proposal P - A PROPOSAL TO ESTABLISH A MICHIGAN STATE PARKS ENDOWMENT FUND, INCREASE THE MAXIMUM ALLOWABLE AMOUNT OF FUNDS IN THE MICHIGAN NATURAL RESOURCES TRUST FUND AND ELIMINATE THE DIVERSION OF DEDICATED REVENUE FROM THE MICHIGAN NATURAL RESOURCES TRUST FUND. The proposed constitutional amendment would: 1) Establish a Michigan State Parks Endowment Fund to be funded by certain royalties, bonuses and rentals collected by the state from the drilling of oil and gas or mining of minerals on state-owned land. 2) Require that money in Endowment Fund be used to operate, maintain and improve Michigan state parks. 3) Limit accumulated principal of the Endowment Fund to \$800 million with annual adjustments for inflation. 4) Increase the maximum principal of the Michigan Natural Resources Trust Fund from \$200 million to \$400 million. 5) Eliminate the diversion of dedicated revenue from the Michigan Natural Resources Trust Fund. Should this proposal be adopted?

Local participation in the state-mandated school breakfast program has been better than expected, according to Cass City School officials.

The program, new to area schools this year, offers students a variety of breakfast choices such as cereal, muffins, juice and milk, at a cost of 80 cents per day, 30 cents for students who qualify for reduced meals.

In Cass City, the menu includes a hot breakfast — breakfast pizza, pancakes and sausage or an egg and ham biscuit, for example — once a week.

Student response has been good, Cass City Supt. Ken Micklash reported.

"I was surprised, actually, to see the level of participation," he said, noting about 13 percent of the school's 1,640 students are taking advantage of the program. "On any given day in the district, we're feeding 200 to 225 kids breakfast."

Participation has been highest at the lower grade levels.

At Campbell Elementary, an average of 60 to 80 students (10 to 14 percent of the building's enrollment) eat breakfast each day. The average is 25 to 30 students (25 to 30 percent) at Deford Elementary, and about 100 students (19 percent) at the middle school.

The figure is much lower at the high school, where 10 to 12 students eat breakfast. Micklash pointed out, however, that the numbers represent only those students taking a full breakfast; a number of high school students will grab some juice or a bagel, rather than sitting down to breakfast, he said.

A LA CARTE

Kathy Jewett, who's in charge of the school's food service program, agreed,

adding the a la carte offerings have been popular with high school students who want to grab a bite on their way to the skill center, for example.

Students "seem to like the food," Jewett commented. "I haven't heard any negative comments."

"As far as numbers, I really haven't had a chance to break that down," Jewett added, referring to how well the program will fare in terms of cost to the district. "It's probably going to be a break-even" situation.

That isn't the case, at least not yet, in the Owen-Gage School District, according to Supt. Manuel Thies.

Thies reported a little over 13 percent of the district's 316 students are eating breakfast each day on average, but that isn't enough to offset the cost of the food.

"As it stands right now, it's not a break-even situation for us," he said. Thies added, however, that the numbers appear to be inching up, and he hopes that will continue as colder weather sets in.

The superintendent noted few upperclassmen are taking advantage of the program. Among students in grades K-6, an average of 30 kids eat breakfast each day. "At the high school," he said, "we are running about 10 or 12 individuals."

VERY PLEASED

In the Kingston School District, more than 22 percent of the 771 students enrolled are eating breakfast on average per day.

"Our participation has been excellent. We've been very

Significant changes in disaster program

The recent approval of the FY 1995 USDA Appropriations Bill by Congress and President Clinton also included funding for a 1994 crop disaster program for farmers suffering losses due to eligible weather conditions such as freeze, frost, flood and drought.

Details of the program are still being ironed out, but should be available within the next 2 to 3 weeks.

One significant change in the program is that there will be a reduction in benefits for producers who incur less expenses in crop production by not planting, or harvesting the crop in their fields.

"This has been a glitch in the disaster program since its inception," said Jim Byrum, state executive director of the Agricultural Stabilization and Conservation Service (ASCS). "Producers who

pleased," said Supt. Jerry H. Laycock. "And it's been growing right along."

Laycock reported 125 to 130 students in grades K-6 are taking advantage of the morning meal, representing about 30 percent of students enrolled. Another 50 to 75 students (14 to 21 percent) are eating breakfast each day in the junior/senior high building, he said.

Officials in the Ugly Community Schools report participation in their breakfast program has been low so far. "It's running about 50 kids a day. It's really a low percentage," said Mark Tenbusch, the district's business manager.

Enrollment in the district totals about 912 students.

Despite the numbers, Tenbusch said a majority of students eating breakfast qualify for reduced or free meals, which means the district will probably break even after reimbursements from the state are figured into the breakfast program.

Dollars and cents aside, some school officials say that while it's hard to say what impact the breakfast program is having on student performance, it's likely that offering the morning meal won't hurt.

Laycock commented teachers and aides he's spoken with say they've noticed an improvement in students' attentiveness and in school work.

"It's hard to measure," Micklash said, "(but) I would assume it's got to have a positive impact. It obviously is a service that parents feel is worthwhile.

make every effort to plant, and harvest have been getting the same benefits as farmers who don't even plant their crop, or leave a poor crop in the field, rather than attempt to harvest it."
