Harry Young **Sells Interest in**

James R. Gross Is Now a Partner with Fred Maier in Cass City Market.

After being in business in Cass City for 41 years, Harry Young sold his interest in the Cass City Meat Market this week to James R. Gross, who becomes a partner with Fred Maier at this food cen-

Mr. Gross has had a valuable experience in the meat business. For several years, he worked for market in Toledo, Ohio, and the Verda Zuschnitt as asssitant hostlast eight years he has been a traveling representative of the Swift Packing Co.

Mr. Young, after being employed in Detroit markets, came to Cass City in November, 1899, and was a silent partner in the W. C. Jenks meat market for about two years, and then with John A. Benkelman as a partner, purchased the meat market from Mr. Jenks. After several years, Mr. Young bought Mr. Benkelman's interest in the business and was its sole owner Lead Changed Four Times in until January, 1924, when he sold a share in the market to Fred Maier, who had been employed there for several years, Mr. Young still owns the building where the business is conducted.

During the 41 years, Mr. Young has always been actively engaged in conducting his Cass City businss venture, and after that long period of strict attention to merchandising, has decided that he has earned a rest from the exacting duties of business life.

Questionnaires Are Sent to Fifty Men

Allotment Is Less for 1941

The sugar beet acreage allotted to the United States for the 1941 crop is 820,000 acres or 16.2% less than the acres planted in 1940.

Allotments for the growers will be established by a district sugar beet acreage allotment committee. A form made up of questions will be mailed to each sugar beet grower. All questions should be answered by the grower and returned to the County Agricultural

Conservation office before Feb. 22, 1941. This form is also a request In view of the reduction in acreduce sugar beets, growers can as-

So the pilot sticks a clothespin on the throttle to land, the clothespin

to land.

Michigan Mirror Non-Partisan News Letter

Lansing-Instead of a bi-parti-Association will hold its February san form of state government being asset in disguise.

Take it from Gov. Murray D. Cranford 2:30 n. m., Rev. S. B. whose broad smile has almost the St. Lawrence navigation and whose broad smile has already power project. The Great Lakesearned for him the title of "Happy St. Lawrence system is a potential

The Methodist Church—Rev. H. Michigan executive put the situation this way: "When I propose anything to the Legislature we have in Lansing today, it has to be the merchant marine we and Britgood. Otherwise you can imagine ain so badly need can be built." |what chance it has of getting any | onsideration at all."

> was a ruling by the newly appoint- sary maritime shipping needs ed civil service commission, created through the ability of our Great by constitutional authority, that all Lakes shipyards to build and declassified state employees—whether liver ships to salt water." Republicans or Democrats—are to be considered henceforth as duly protected under civil service from patronage raids.

A ruling by Attorney General Herbert J. Rushton clearly vested tending into 17 states. the commission in complete jurisdiction over the state payroll covering 18,000 employees, and Rushton said in effect that the commission members constitute "a rule unto themselves."

Law Making Powers

The air-tight amendment setting up civil service in Michigan also empowered the commission with authority to make its own laws and to construe the amendment in every particular. The legislature is stripped of its rights completely; partisan by-play is relegated to ancient history.

Competitive examinations have been ordered to fill the jobs of 2,785 state employees who have had no previous civil service status. And, furthermore, the commission has consideration in its merit ratings Republicans or Democrats will retain equal privileges of opportunity

Civil service advocates believe that the merit plan will increase governmental efficiency and lower payroll costs. Former Governor Alex J. Groesbeck went on record favoring a "living wage" to state workers in the lower pay bracket indicating that stabilization of pay may make beginning jobs of government more attractive financially for career employees.

Civil service, once the butt of Wednesday and Saturday evenings, legislative jokes, has regained much 7:30-9:30. Other times by appointsons of Royal Oak spent the weekend with the latter's parents, Mr.

Division of Spoils?

In other respects, however, signs were in evidence that bi-partisan control would "by-party"—whether Republican or Democrat. Pick your own interpretation.

1. The house committee on agriculture released a bill whereby the commissioner of agriculture would be appointed by the state board of agriculture. It was expected to shelve a bill proposed by Rep. Edward J. Walsh, Detroit, Democratic floor leader, for appointment of a five-member agricultural commission on a staggered term basis.

2. Reporting out of Senate com-The ceremony was performed by mittee of a bill by Sen. D. Hale Superior Judge Carl W. Hall at his Brake, Stanton, providing for nomination and election of the state highway commissioner on a partisan basis. This was to clarify the elections non-partisan, and is aimed at the anticipated candidacy of G. Donald Kennedy for state highway commissioner. 1939 amendment making judicial

commissioner.

3. Ruling by Attorney General
Herbert J. Rushton that the senate
may confirm legally the Republican
appointments of former Governor
Dickinson instead of the appointees of Governor Van Wagoner. Eleven days before he left office, Mr. Dickinson sent the names of 58 Republiinson sent the names of 58 Republican appointments to Fred I. Chase, secretary of the Senate. On January 1, inaugural day, Governor Van Wagoner furnished a rival list of 44 names.

The Rushton ruling is expected to provide the Republican leadership with something tangible for trading purposes. It may result in a division of offices between the two parties, according to bargaining agreement.

Following up the appeal by Wilcome in handy on swanky 1941 air- liam Knudsen, arms production chief, for an immediate survey of The reason: A plane's antenna all industrial resources, Governor Van Wagoner ordered the state when in flight. The pilot is sup- planning commission to conduct such a survey in Michigan.

"I suppose you need it to pay small bills?" the clerk suggested. "No," said the borrower. "Possibly to pay your insurance?" "No." "For doctor or dentist bills, is it?" "No," said tant than that. I need it to take

Origin of '40 and 8'

Twenty years ago, a Philadelphian, Joseph W. Breen, was reminiscing with buddies, about their mode of travel through France during the World war. And from that recollection, the organization known today as the "40 and 8," the honor society of the American Legion, came into being. Founded in Philadelphia, the organization has grown into a national organization of several thousand legionnaires. Recently, the parent organization honored the founder.

Fingers Came First

Forks were used as weapons in ancient times, and were not introduced into England from Italy for table use until early in the Seven-

Air Defense of

Intense Activity on Part Of Anti-Aircraft Units Never Slackens.

LONDON.-Behind each formal statement announcing that another German bomber has been destroyed lies a story of intense but ordered activity by anti-aircraft units, says the British air ministry. First comes the message, brief

and to the point:

"Enemy aircraft approaching at position X. Height 12,000 feet. Warn all batteries in area."

Within 30 seconds the anti-aircraft crews are at their allotted stations. in lonely fields, by quiet country lanes, among the rough bents of a coastline which at first sight might seem deserted.

Guns are loaded. Quick-firing Bofors are ready to load the sky with menace.

Beams Stab Sky, The gunlayers swing their long

barrels into the darkness. It is a clear night, with little cloud to give refuge to the enemy. As yet there is no sound, only the silence of waiting.

Suddenly a searchlight shoots a pencil of light into the sky. Another thin beam appears toward the west, then another, and another. Soon a dozen searchlights are groping into the blackness above. From far up in the silent sky, faint but unmistakable, comes the sound of

In the beams of the searchlights a speck is seen flying toward the

The enemy is "held." Nearby is a predictor. It is ready now to play its part. Its complicated collection of knobs, lenses and dials can do the work of four men, telling the gunners where to direct their fire.

Plane Is Downed.

Dramatically, without warning, firing levers are rammed over, there is a reverberating boom and a shell leaps into the air, to explode with an orange flash thousands of feet in the darkness above. Another gun takes up the challenge, and another and another. The noise is deafen-

The invading aircraft, still held by the searchlights, is flying toward the east, orange-white flashes in its wake. Guns still boom, although the sounds of the exploding shells are now more distant. Strange falling lights are seen in the sky. Again there is silence. But this time they are waiting for the news

which may tell of success. A telephone speaks. "An aircraft, believed a Heinkel 111, reported down in flames in a wood about 12 miles from position X. Looks like one of your batteries.

Town Through Mistake Disposes of Its Park

Good show!"

ADA, OKLA. - Walter Brooks didn't buy the Empire State building or the Brooklyn bridge, but he won't get to keep the 10 acres of city park that he bought near Roff either

Brooks wanted 10 acres of ground near Roff and chose the property from a tax resale list. After bidding for the 10 acres, he went to the location of the property and found that he had bought Roff's city park. Through a mistake that hasn't been accounted for yet, the park property had been listed on the tax

So Brooks will get his money back and Roff will keep its park.

'Rain Destroyer' Fails

And Dies of Exposure NEW DELHI, INDIA.-The life duty of Sobhagmal, inherited from his father, was to keep the rain away from the village of Tajjan, near New Delhi.

When the village was threatened with a furious storm, Sobhagmal climbed a neighboring hill and began uttering wild imprecations against the elements and brandishing his sword.

Nothing happened except Sobhagmal got wet and died of exposure. Now Sobhagmal's son has inherited

Dane's Pension \$2,200, Income Tax Is \$1,800

WAVERLY, IOWA.-If Wilhelm Tofte, Copenhagen, Denmark, received \$1,800 a year less pension, he'd still be almost even.

In a letter to his son, William Tofte, who lives here, the elder Tofte, a retired government employee, revealed that a pension of \$2,200 annually, he must turn back the \$1.800 as income tax.

He gained the pension by contributing 4 per cent of his salary for more than 50 years.

Colorado 'U' Students

Unite in Job Hunting BOULDER, COLO .- A co-operative employment agency among students has opened at the University of Colorado.

After finding it difficult to bring vacancies and students together eight students pooled their abilities Supported by the school's administration, they made a file of prospective student employers in Boulder and another file of job-seeking students.

Ability Integrity **Experience**

Native of Lapeer County, Judge Louis C. Cramton was born on a farm bought by his grandfather from the United States in 1836 when Michigan was still a territory.

He is a graduate of the Law School of the University of Michigan; was admitted to the bar in 1899; has served as Law Clerk of the Michigan State Senate, 1903-07, Circuit Court Commissioner and Assistant Prosecuting Attorney of Lapeer County, and Special Attorney to the Secretary of the Interior. In 1937 he received the honorary degree of Doctor of Laws from Alma College.

Member of the Michigan House of Representatives in 1909, he later served as member of the United States House of Representatives, 1913-31.

He has now served six years as your Circuit Judge, in the Counties of Tuscola and Lapcer, and is a candidate for a second term.

As Judge he has brought the business of the Court right up to date, and by weekly attendance at Caro he has expedited the court work and served the convenience of litigants and

Judge Cramton has made liberal use of the probation law in the cases of first offenders, requiring reasonable performance of probation conditions. Repeated violations bring prison

He has taken active interest in requiring fathers in divorce cases to pay alimony for the support of children as ordered, in order that the children may not be in want or become a burden

With his proven integrity and ability, the people of this judicial circuit take no chances when they give him a second term in this very important

Child Stops a Train

As He Hunts Chestnut MILWAUKEE. — Two-year-old Roger Cielinski toddled after a slippery chestnut into the path of

an electric train. The motorman brought the coaches to a stop, jumped to the ground, looked - and nearly

Roger was climbing down from the train's cowcatcher still looking for his chestnut.

Pastel Wools, Silks Outstanding In Spring Materials for M'Lady By CHERIE NICHOLAS

SEASON of perfectly fascinating colorful wools and woolknits is with us, so prepare to yield to temptation to the limit of your clothes budget. The little pastel wool dresses called "classics" because of the sculptural simplicity of their styling, are ideal for immediate wear. Don one of these neat, sweetly tailored frocks, so refreshingly springlike in color, and you will find yourself buoyantly taking

an entirely new outlook on life. In regard to costume suits, the big news is that of woolens keyed to the dominate note in prints, the two going fifty-fifty in an ensemble technique. This flair for combining print silk with wool in related color is one of those fashion gestures that bids fair to develop into a far-flung vogue as the season progresses.

Capes have dashed into the limelight of fashion dramatically and importantly. Yes, indeed, capes are just about to "steal the show" this spring, the smartest being full length. Some are of soft wools in beige or cinnamon or navy, if you please. The light-colored wools have blended fur collars, while the navy after the manner of officers' capes. At any rate, fashion is making a dramatic play on capes, both in pastel wool weaves and navy.

Another highlight in fashion's realm is that of woolknits in pastels and rich dark colors. Many of the wool knits can scarcely be told from

sweaters, coats and ensembles. Note the casual little frock above to the left in the picture. A frock of this type is almost a necessity for a young gad-about who takes week-end trips and who is "dated" for informal daytime affairs. Fashioned of light blue jersey, it has a basque top with scalloped edges, and the jersey is gored in soft flattering lines for skirt fullness. Important background for jewels

is the beautiful evening sweater shown to the right above. It is in strawberry pink wool chenille yarn. The ribbed drape at the hips with front zipper closing and the long sleeves make it particularly new The pretty dress below to the left

in the group is a cream beige wool. Its gathered neckline, front peplum effect and jewel buttons are outstanding style points.

Plaid and striped woolens promise to be better than ever this season. Their coloring will be, for the most part, pastel. An interesting color note about the smartest of plaids is that so many feature the new yellows and golden hues. The clever tweed spectator suit which versions take on a military aspect | you see on the seated figure claims distinction in that it goes in for voguish yellow and gold, patterned with cream beige. The make-up of the costume-entire includes, in addition to the beautifully cut jacket a yellow woolknit sweater and a matching felt hat.

(Released by Western Newspaper Union.

Cravat Silk

With m'lady's present flair for accessories to match her hat milliners are turning more and more to beautiful silk weaves as likable media for their creations. For the postillion hat and matching jacket ensemble pictured, Lilly Dache, noted for high artistry in hat design, uses men's bright cravat silk diagonally in a most effective manner.

Dinner Dress

For an unusual dinner dress, have one made of heavy white silk crepe with long, full skirt and long sleeves gathered into the wrist. Over this wear a tight little velvet or velveteen sleeveless bodice laced peasant fashion with gold or silver cord. It is a dress that can go anywhere and will stand out in a crowd for its youthful distinction.

Red Shoes

Red shoes are important footwear news. They are showing them in leading stores to wear with smart looking navy suits.

Lots of Color in Sight On Spring Style Horizon

align yourself with the pastel enthusiasts or you can go colorfully South furnished a \$500 bond for his ap-American. There is a convincing argument in favor of either.

Speaking of the lighter colors, of course you will want at least one, if not several, of the perfectly charming and most flattering pastel wool frocks. Chapters could be written about these fascinating

proper outlet.

And I do hereby certify that the above embraces a full and true report of all the Drains constructed, finished or begun under my supervision, or applied for during the year now ending, Oct. 1, 1940, and that the financial statement of each drain, exhmitted heavailth is true and correct. Submitted herewith is true and correct.

All of which is respectfully submitted.

JAMES OSBURN, County Drain Commissione of the County of Tuscola.

of the County of Tuscola.

Dated at Caro, Michigan, this 1st day of October, A. D. 1940.

Motion made by Supervisor Burns and supported by Supervisor Jamison that the report of the Drain Commissioner be accepted and spread on the records. Motion

cepted and spread on the records. Motion carried.

James Schwaderer, County Engineer and A. W. Atkins, of the Road Commission appeared before the board and stated that they would be glad to work with the different Townships in solving the problem of the roadside ditches, or they would work with a committee appointed for that purpose stating that they have the equipment to do this work, if the Townships could raise part of the money, they would go as far as possible co-operating with drain commissioner and the Townships.

Motion made by Supervisor Burns and supported by Supervisor Gunsell that this matter be left with the Committee on Roads and Bridges, to work with the Road Commission to solve the problem of roadside ditches. Motion carried.

Motion made by Supervisor Miller and supported by Supervisor Barriger that we adjourn until Monday morning at 9:80.

Motion carried.

WALTER KELLEY, Chairman. CLARE W. HORNING, Clerk.

ERNEST LUDER. Clerk Pro-tem.

WHY MOTHERS GET TIRED

There's a lot of work to running a home. Especially a farm home. A homemaker needs all the help she can get. She needs lowpriced help that can take some of the heavy work off her hands.

It's hard work if one must pump and carry 20 or 30 heavy buckets of water every day, and 15 or 20 extra buckets on washday. It's hard work if one must carry wood and build fires for hot water, and cook over a scorching hot stove, and do a big washing and ironing by hand, and churn the butter and take care of a hundred other chores that keep a woman busy from dawn to dark. No wonder mothers get tired, and worn.

We like to see the householder buying electric help-partly of course because we are in business to sell electric service, but more than that-because we know how much good a family gets out of a water system or an electric water heater or an electric range or washing machine or ironer.

Nowadays more and more women are Managers. Instead of using precious time and strength on manual labor, they just turn the faucet or flip the switch and let electricity do the heavy work. The homemaker can give more of herself to her really big and important job—the task of raising a happy, healthy family.

Vote in Senate Holds Key to Decision On Extent of U.S. Plans to Aid British: Auto Plants Adopt 'All-Out' Schedules In Drive to Boost Defense Production

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

(Released by Western Newspaper Union.)

NATIONAL DEBATE: America's Role

A state which, in the epoch of race poisoning, dedicates itself to cherishing its best racial elements must some day be master of the world. Let the adherents of our movement never forget this.-Closing words of Adolf Hitler's "Mein Kampf."

In the historic halls where Clay and Webster debated, where an empire was planned by the winning of the West, where Woodrow Wilson pledged "our lives, our fortunes and our sacred honor" in the cause of democracy, another crisis of America is being weighed in the balance.

Congress is considering what will be the results of a policy of unrestricted help to Great Britain in her moment of travail with German

President Roosevelt asked for unprecedented powers to deal with the situation, powers which will make this nation an economic ally, if not a belligerent one, with the last outpost against authoritative government in Europe. His bill would permit him to lease or lend England, without further congressional consultation, all material aid in the way of munitions and supplies. It is admitted generally that these supplies, if they can be manufactured and arrive in time, will be the only way in which Britain can hold out. Even with them, Britain is given but a 50-50 chance.

Even the inaugural ceremonies which placed Mr. Roosevelt in office for the third term lacked the usual gaiety due to the somber effects of the hour. The battle al-

REP. TINKHAM AND REP. FISH They "bellowed" opposition.

ready had begun in the nouse. inet members told legislators that a crushing blow will be started by the Axis powers within 60 or 90 days. As an echo, came word from Berlin and Rome confirming this predic-

Opposition

But there was no sign of quick agreement. Isolationists, including Representative Fish (R., N. Y.) and Tinkham (R., Mass.) bellowed their opposition. The bearded Massachusetts congressman shook his finger at Secretaries Knox, Stimson and Morgenthau and challenged them to prove that if Britain falls the United States will be attacked.

Isolationist views are that an America of 130,000,000 people can stand alone; that Hitler and Japan would be ready to do business on just as good terms with us as would a victorious Britain; that all-out aid to Britain will only create vast taxes and vast debt. They feel the United States should mind its own

The President's view, and apparently the view of a majority in both houses, is that the United States already stands warned by both Japan and Hitler that in an Axis-controlled world a democracy cannot hope to exist: that if England goes down unaided she will line up with America's enemies to add to its confusion.

With combined powers of 800,000,-000 people opposing our 130,000,000, Germany would control export that would jeopardize the living power of 3,000,000 U.S. cotton growers and 1,000,000 U.S. wheat exporters. The combined navies of a defeated England and the Axis powers would exceed ours by three times, and the ship building capacity would be six times that of the United States.

Senate Is Key

Administration defense leaders say the power is needed at once, that every day, lost is an opportunity lost. But they despair of having the bill passed before March 1, if then. They recall that conscription, for America's own defense, was debated almost six months and the program delayed a year, due to the approach of winter and inability to send men to camp because barracks were delayed until selective service was voted.

PRODUCTION: All-Out Schedule

The National Automobile Manufacturers association has decided it will not hold its national show in New York this year. The industry is too busy with defense production. New models will come off the assembly lines as usual, but the yearly exhibits at the Grand Central Palace won't be held and neither will exhibits elsewhere, except in distributors' own show rooms.

Strikes in isolated sections cut somewhat into production, although the department of labor said that such stoppages were only a fraction

WASHINGTON, D. C.—Here is the new defense poster, printed in patriotic colors, which will be displayed by manufacturers after they have complied with instructions in connection with "Preparedness Through Production" week. Governors of more than a score of industrial states have proclaimed their willingness to co-operate with the defense commission and the National Association of Manufacturers by urging manufacturers to register their facilities for defense production.

as compared to those during the war effort in 1917. One stoppage was at the Saginaw, Mich., plant of the Eaton Manufacturing company, where airplane parts are being made. It was called by the C. I. O. Automobile Workers who charged the firm refused to hire 300 men under an agreement signed last December after another strike. James F. Dewey, federal labor mediator, speeded to the scene in a hurry. He said he would take drastic steps if the plant was not in operation within 24 hours. The strike ended within that period.

In San Diego, Calif., a strike was threatened at the plant of the Ryan Aeronautical company. State draft headquarters issued a statement that men who went on strike would be considered by draft boards to have no employment and therefore no longer exempted from the selective service act as defense workers. The ruling stood less than 24 hours. Brig. Gen. Lewis B. Hershey, acting federal director of the law,

Meanwhile Sidney Hillman, C.I.O. vice president and assistant director of the Office of Production Management, was ill in a Baltimore hospital. It is Mr. Hillman's job to handle labor problems in the defense effort and Washington was anxious over his condition and hoped for his speedy return.

CONFERENCES: Miles Apart

Miles apart in spirit and purpose were two conferences. In Washington met President Roosevelt and Wendell Willkie, who opposed him as the 1940 Republican candidate. They came together, agreed in advance that all aid must be given Britain to defeat Germany. They sought a formula to battle for that objective.

In Germany, Hitler and Mussolini met. The place of their conferences was kept a secret except that it was in Germany, and all telephones out of the Reich were closed down to prevent the knowledge getting about.

It was a subtle compliment to the British air force.

Previously when the two Axis partners met to discuss war plans, it was at Brenner pass, on the border of the two countries. This time Mussolini went to Hitler. There also was a subtle difference there. Il Duce had started out on a war of his own, took a licking on several fronts and required help to extract him from the situation which result-

Hitler was giving Italy such help, probably more than was desired. Not only did Hitler send troops, airplanes, tanks and soldiers. He also sent economic experts, another subtle point since economic experts always follow the German army into occupied territory to take over its

economic life. What transpired at the conference wasn't made public in detail. Announcements merely said the two leaders had made plans for the 1941 putsch on England. It was anyone's guess who made the plans and who gave the orders.

TRENDS...

I President Roosevelt is reported interested in a plan for pooling state reserves of the unemployment insurance system. Some states are building reserves far above needs, while others have inadequate funds.

A Surveying the municipal bond market for the past 12 months, Barcus, Kindred & Co., Chicago, found an increase of \$70,245,400 in the volume of state and municipal financing last year compared with the year before. The 1940 total was \$1.168.849.865, compared with \$1,098,604,265 the year before. The rising trend was most pronounced in the closing months of the year.

I Farm groups are suggesting that the United States demand of Great Britain a statement of its coming food needs, and that the administration propose a good quota of these be filled by American orders in proportion to the amount of defense materials

IN THE ARMY: Yard Birds

Slang changes in the army as well as in civil life. Many veterans of the World war getting back into camp today would hardly know what some of the men were talking about. For instance, in 1917 a new recruit was a "rookie," today he is a "yard

The army is anticipating many new "yard birds." Some of them bear names widely known in civil life. Others drew attention due to the methods of their arrival.

In the first class was Daniel R. Topping, millionaire owner of the Brooklyn Dodgers and husband of skater-actress Sonja Henie. He has a low draft number and was classified for immediate duty, although married. Said Topping: "My wife is scarcely dependent upon my income." In somewhat the same situation was Yehudi Menuhin, world famous violinist, also married. A California board ruled his wife, the former Nola Nicholas of Austria, has an independent income and Menuhin had acquired wealth through his musical genius which would provide for her. He asked for no exemption and received none. But he was given a 90-day leave in order to complete a planned South American tour.

Arthur Victory Christman, 22, was "yard bird." He was born at 11 a. m. November 11, 1918, in New York. A draft board in New Jersey sent him to camp.

Wendell Grove, 26, a baritone horn player, read that the Third Infantry band at Fort Snelling needed his type of musician. He tried to enlist and was turned down because he is married. The next day he appeared at the recruiting office with a note which read: "I hereby certify that I have no objection to my husband entering the army for a year. Signed Mrs. Wendell Grove.' He's a "yard bird" now.

Frank B. Thompson, 45, president of the \$5,000,000 Glenmore Distilleries, got a leave of absence and

WINTHROP ROCKEFELLER, son of John D. Rockefeller Jr., oil tycoon, is pictured here as he was inducted into the army by a Selective Service board in New York city. He's a "yard-

joined the Kentucky National Guard as a private, although he served in the World war as a lieutenant. The following day he was taken out of the ranks and made captain of the company in which he enlisted.

Leopold Stokowski, conductor of the Philadelphia orchestra and movie producer, is a special kind of "yard bird." He will devote three days a week to directing the Third Coast Artillery band at San Pedro, Calif.

MISCELLANY:

(I How the army has grown! Now there are more civilians employed by the army than there were soldiers in the entire military establishment a year ago. The war department announced that use of civilians in non-military work is a definite policy and that 180,000 are now so employed.

C Declaration that a radio station "cannot be an advocate" but must represent all sides of public information "without bias" was made by the Federal Communications commission. The commission rebuked station WAAB of Boston for deviating from this policy, but renewed its license because it said the owner had pledged "not to color or edi-

torialize" news in the future. In the midst of the inaugural excitement, a daughter was born to Mr. and Mrs. Thomas Corcoran, once high on the staff of New Deal

FARM

MOLASSES ADDS FOOD TO SILAGE

Topics

Tests Establish Its Value As Nutrient.

By C. B. BENDER (Assoc. Professor in Animal Husbandry,

Rutgers University.) Alcohol and the same acids which are found in vinegar, cow's milk and rancid butter occur in grass silage when molasses is added and they are also contained in corn silage. But that's nothing to be held against silages, for these ingredients are used by cows for heat and energy. Experiment station trials which

brought about this conclusion were started because many dairymen were of the opinion that the cost of molasses is a direct preservation charge when the molasses is used in the preservation of grasses and legumes as silage.

Some farmers felt that molasses is added to silage in order to preserve it because the bacteria convert the sugar in the molasses to various acids which preserve the green crop in the silo. Although dairymen have fed molasses to cattle for years and know its value, some believed this value to be lost as soon as the sugar is converted into acids.

The studies were made to determine the chemical changes which occurred in the silo when silage is made with grass and preserved with molasses. It was found that the sugar is converted by bacteria into alcohol and into acetic acid which is found in vinegar; lactic acid, which is found in cow's milk, and butyric acid, which is found in rancid butter.

Another experiment was then set up whereby these acids and alcohol were fed to animals. As the result of these metabolism trials it was definitely established that all of them were utilized for energy or heat by the animal's body. This means that they take their place along side of the carbohydrates in corn, oats and other dairy feeds as definite nutri-

Advises Blue Banding

Winter's Heavy Layers

Mid-winter-which means sometime during December and January to the poultryman-is the proper time to examine each laying bird in the pullet flock carefully and "blueband" the heavy producers for future identification, says Dr. W. C. Thompson, poultry husbandman at the New Jersey Agricultural Experiment station, Rutgers university.

Farmers who find trapnesting impossible may accomplish this identification job accurately and inexpensively by the "blue banding sys-This involves handling and examining the pullets, reading the external characteristics and deciding which individuals possess those its indicative of heavy egg vield during the past two or three months. A blue celluloid leg band is placed on the right shank of each pullet judged to be in heavy winter production at that time. Such simple designation becomes at once a record and an indicator.

"The heavy layer in mid-winter has a deep broad body, long keel, easily pliable skin, bright red soft head parts, brilliant prominent eyes and shows loss of yellow pigmenta-

Mites on Poultry

Mites do not live on chickens as do lice, but suck blood from the skin of the birds while they are on the roost at night. They then return to some dark place during the day. Cracks and crevices in the poultry house or on the roosts are the places they generally hide. Painting the roosts with nicotine sulphate will prevent the loss from these para-

Farm Notes

At present prices for tankage and corn, 100 pounds of skimmilk is worth about 30 cents to feed to hogs. This amount of milk will replace 6.5 pounds of tankage.

Eggs as packaged by nature are an excellent food but too much heat in cooking them will damage the food and health values originally in the package.

Exports of nearly all United States farm products, except cotton, were greatly reduced during the first 12 months of the current European war, reports the U.S. department of agriculture.

Rubber tires on farm equipment may reduce rolling resistance by as much as 46 per cent.

Present indications are that hog slaughter will be reduced materially in the first quarter of 1941, according to the U.S. Bureau of Agricultura! Economics.

If fully developed, the usage of cotton for a new cement-cotton roofing shingle might require 1,000.000 bales annually, a. U. S. department of agriculture official estimates

GETTING UP NIGHTS DUE TO SLUGGISH KIDNEYS HARD TO CORRECT

Drink milk, fruit and vegetable juices. Lots of soft water. Very little tea, coffee or alcoholics. If you disobey these rules and sluggishness follows, help kidney elimination. Use a kidney laxer. Just say BUKETS to any druggist. Your 25c back if not pleased. Locally at L. I. Wood & Co.—Advertisement.

Epidemic of **Cold Symptoms**

666 Liquid or 666 Tablets with 666 Salve or 666 Nose Drops generally relieves cold symptoms the first day.
