Jeffery Returns to Draft Board.
George F. Jeffery has consented to return as a member of the Tuscola County Draft Board from which he resigned several weeks ago. Mr. Jeffery was secretary of the board and was succeeded after his resignation by E. B. Schwaderer of Cass City, a member of the board, who was elected to that office. Other members of the board are John N. McAlpine of Fairgrove, the chairman, and Edwin H. Streeter of Caro.

There will be no occasion for any pupil to skip school next Wednesday for there "ain't going to be no school." Several of the teachers and many of the boy students will enjoy hunting on this first day of the hunting season. Other instructors will observe visiting day when they will watch methods employed in neighboring schools.

"PHEASANT DAY" AT THE CASS CITY SCHOOL

Mrs. Scriver Has Watched Cass City Grow from Indian Settlement to Present Size

The distinction of being the first white baby to live in what is now the village of Cass City belongs to Mrs. John Scriver, 83, who came here with her parents when she was six months old.

Mrs. Scriver says that her playmates for many years were Indian children and she remembers well when her mother took her to visit the first new-born white baby in this community.

Rosa Seeger was born in Lancaster, New York, on April 28, 1868, and the following October came with her parents to this part of the Thumb district. Mrs. Scriver says: "Of course this was all dense woods and my father had to clear a spot to build our home." Her parents, Mr. and Mrs. W. C. Seeger, carried all of their belongings from Vassar to Cass City on their backs.

Mrs. Scriver plainly recalls the days of hardships and worry that followed the death of her father in 1872, when he was accidentally shot by a friend while hunting. He was the first white man to be buried in

Coming Auctions.

M. E. Kenney has rented his farm, 4 miles east and 1 1/2 miles south of Cass City, on M-53, and will sell cattle, horses, swine, poultry, farm implements and household goods at auction, on tomorrow (Saturday) afternoon, October 11. Arnold Copeland is the auctioneer and the Cass City State Bank is clerk. Full particulars are printed on page seven.

James S. Spencer will have a farm sale, one mile north and one and three-quarters miles east of Kingston, with Arnold Copeland as auctioneer and the Kingston State Bank as clerk. His sale date is Tuesday, October 14. The property is listed on page seven.

Zygmunt Mis will have a farm sale, two miles west, one mile south and one and a half miles west of Deford, on Thursday, October 23. Full particulars will be printed in the Chronicle next week.

Charles Hirsch has selected Friday, October 31, for a farm auction sale, four miles west of Argyle. Full particulars will be printed in a later number of the Chronicle.

Community Club Presents First Program Tuesday

Roeland Van Cavel, "a Funny Dutchman," Will Present the Program.

The Cass City Community Club will open its series of autumn and winter programs on Tuesday evening, October 14, at the school auditorium. The dinner will be served by the Novesta Church of Christ Ladies' Aid Society.

The evening program attraction is Roeland Van Cavel, "a funny Dutchman with a thoroughly amusing and entertaining demonstration," according to the announcement of the program committee.

When the curtain rises Mr. Van Cavel is singing the Dutch national anthem and supposedly making wooden shoes. He tells about the Holland dykes, the Dutch school system, the home life of the Hollanders, their clothing and tulip growing. Mr. Van Cavel briefly states his impression of the United States before he came here and what he really found when he got here.

Mr. Van Cavel is secured from the entertainment bureau of the Northwest Assembly and will speak to students here at the afternoon session of the local school.

Rev. Frank B. Smith is president of the Community Club; Frederick Pinney, vice president; Thos. Smith, secretary; and George Dillman, treasurer. J. Ivan Niergard is in charge of ticket sales, and the program committee consists of the president, the vice president and Audley Rawson.

Gifford Chapter, No. 369, Entertains

On Saturday night, October 4, Past Matron's night was observed by the Gagetown Order of Eastern Star. A class of eight candidates was initiated into the order. Mrs. Marion Knight, Grand Martha of the Grand Chapter of Michigan, of Detroit, was the honor guest. Guests were present from Detroit and Midland as well as from neighboring chapters.

The chapter rooms were beautifully with autumn flowers. After the ceremony, a tea was served with the presiding matron, Mrs. Vina Wallace, and associate matron, Mrs. Shirley Ross, pouring.

Mrs. Scriver Has Watched Cass City Grow from Indian Settlement to Present Size

These parts. Though there was plenty of game in the woods in those days there was no man in the family to kill it for them as her two brothers were too young to hunt and many times they went hungry. The Indians were good friends of the Seeger family and it was indeed a happy Sunday when the Indians, who had a camp on the stream which flows past the present western village limits, would invite them to a dinner of roast woodchuck, bear, or wild fowl.

On one of these visits, the Indian chief, seeing the Seeger children going barefoot in the snow for want of shoes, offered to make moccasins for them in return for rocking the Indians' paposes. Mrs. Scriver says that she has never since been as proud of a pair of shoes.

On January 8, 1880, she was married to John Scriver and they moved to a farm, 1 1/2 miles south and 1/2 mile east of Cass City, where they lived until coming to the home on West Street where

Frost Expected

Lansing—Hold on to your hats, folks—we're going somewhere!

Staggering to the imagination of the Michigan man on the street is the latest federal payroll tax proposal, blessed by President Franklin D. Roosevelt and Secretary of the Treasury Henry Morgenthau, to skim more millions of dollars from the national income—all in the name of our economic good health.

It puts the Michigan legislative situation, in which Governor Van Wagener is to deliver an address today (Thursday), into a modest corner of incidental interest. The governor and the legislature may get the headlines, but they will be only symptoms of a tremendous problem which is worrying Washington these days and is giving even housewives an occasional jitter.

Let's consider the Michigan scene first, take a look at the symptoms.

Among the many vetoes exercised by Governor Van Wagener was one chopping more than \$3,000,000 off the regular appropriation bill. Reason: "Balancing the budget."

When the legislature enacted the bill last spring, members anticipated an average of \$10 per month increase in salaries of employees in the lower pay bracket. Then the state civil service commission, a supreme court unto itself under the state amendment creating it, ordered blanket wage increases averaging \$25 a month for hospital and prison employees.

Result: A deficit of around \$2,000,000 is anticipated in the same appropriation bill, and Leo J. No-

Five Found Guilty of Game Violations

Ed Linizer, 39, and Jack Sadlar, 34, both of Detroit, were taken into custody by Conservation Lyford Cross, at Fish Point, in Akron Township, charged with hunting ducks with a motor boat Sunday and hunting after 4:00 p. m. Each one paid a \$50 fine and \$7 costs.

Koore Nooden, 43, hunting after 4:00 p. m., and having four shells in place of the limit of three in his gun, was assessed a \$25 fine and \$7 costs.

Ray Shingler and Frank Mitchell, both of Millington, were arrested on the charge of hunting pheasants out of season by Sheriff Homer Hillaker and Conservation Officer Cross on October 6. Each man was given his choice of paying \$50 fine and \$14.95 costs, or spending 90 days in jail.

ALMA COLLEGE OFFICIAL TO PREACH HERE SUNDAY

Dr. Roy Hamilton, vice president of Alma College, will occupy the pulpit at the Presbyterian Church Sunday morning, October 12.

4-H Club Achievement Program at Vassar

All summer 4-H club members of Tuscola County who have completed their projects and records will be given a banquet and a theatre party at Vassar on Saturday, October 18. The banquet will be served in the Vassar High School gymnasium at noon.

An interesting program is being arranged. Achievement certificates and pin awards will be presented all members who complete their projects. Special awards will be given to honor members. About 275 members and 25 leaders will be present. Members of the Tuscola County 4-H Club Council will take part in the program.

Marion Harrington and Neva Achenbach, winners of the state contest in dairy foods demonstrations, will be on hand to tell about their trip to Memphis, Tennessee, and perhaps to put on their demonstration.

League Swings into Mid-season Form

By Dr. B. H. Starmann, Secretary of Bowling League.

The third week of the schedule of the Cass City Bowling League found the pin toppers in true mid-season form. Many very creditable totals resulted as the pressure increased.

Frank Reid quickly decided that one week was enough for Walt Mann to have all the glory and so proceeded to tie the 587 three-game total bowled by Walt the previous week. After opening with 211 and 222, Frank had a very excellent chance to establish a new high but alas, his last game was marred by

Mrs. McComb Died at Millington

Mrs. Lewis McComb, mother of School Commissioner Ben H. McComb, passed away at her home in Millington on Wednesday, October 8, after a four months' illness of cancer. Rev. Milton L. Bunker of Flint will conduct funeral services in the Methodist Church in Millington (Friday) afternoon at two o'clock. Burial will be made in the Millington Cemetery.

Frances McClew, daughter of Peter and Anna McClew, was born May 3, 1869, in Millington, Michigan. In 1887, she was united in marriage with Lewis McComb. With her husband, she followed the occupation of farming until his death in 1925. Mrs. McComb was a member of the Nazarene Church.

Besides Ben McComb, the deceased is survived by another son, Karl, of Millington and a daughter, Mrs. Gladys York, of Houghton and six grandchildren. Two brothers, William McClew of Eugene, Oregon, and Paul McClew of Middleport, N. Y., and two sisters, Mrs. Grace Crippen of Millington and Mrs. Emma Burroughs of Romeo, Michigan, also remain.

Mrs. McComb was a Gold Star Mother, her son, Lee, having died in World War I.

Locals Suffered Their First Defeat at Hands of Caro

Won Their Second League Contest from Sandusky Last Friday Afternoon.

The Cass City High School football squad lost their first contest of the season and their opponents, Caro, were scored against the first time this autumn in the game played here Wednesday afternoon. The county seat lads carried home the long end of the 19-6 score.

Huffman of Caro was the outstanding player of the afternoon, securing two of his team's three touchdowns.

Caro blocked a kick in the first quarter and ran the ball over from the 20-yard line. In the second, Cass City was penalized on interference with a forward pass to the 20-yard line and Huffman scored his second touchdown.

Profit made Cass City's only touchdown in the second quarter and Middaugh carried the ball over the line for an additional six points for Caro in the last quarter.

Both Cass City and Caro had won two games in the Upper Turn to page 5, please.

More Names and Addresses of Young Men in the Service

The Chronicle last week printed the names and addresses of 23 young men who had entered the service of Uncle Sam from this community in order that friends wishing to write them might have the correct mailing addresses. Others will be added from time to time. The following are additions to last week's list:

Sergeant Dwight E. Turner, 316 School Sqdn., Sheppard Field, Wichita Falls, Texas.

Pvt. Clifford Ryan, Pk. 123 Rec. Depot, Marine Barracks, Parris Island, S. C.

Thumb Holy Name Society at Vassar

Two thousand men and boys are expected to attend the annual Thumb District Holy Name Society rally at the Vassar High School auditorium Sunday, October 12, at 2:30 p. m.

Henry E. Nagely, Jr., of Saginaw will be the principal speaker. Other speakers include Sergeant Donald Clark of Fort Custer; Leo Bliss, Pigeon; Rev. James E. Frawley, pastor of Vassar; Rev. Fr. A. P. Hafner, pastor of Pigeon.

Other entertainment will be featured by Ferdinand Klass, soloist of Bay City. Officers for the ensuing year will be elected.

The rally will close with benediction of the Blessed Sacrament at St. Patrick's Church of Vassar.

Bean Crop Goes 28 Bushels to the Acre

Nick Alexander combined recently five acres of beans on the farm of the late Cloia Moore Heron that produced 27 bushels to the acre and nine acres on the S. H. Heron farm that went 28 bushels to the acre. Mr. Alexander works both of these Grant Township farms for S. H. Heron and in addition grows crops on the greater part of the neighboring farm of Frank Reader.

Two East Dayton Young Men Run Barefoot to Capture Man Who Drives Away Family Car

"The boys must be leaving early" thought Mrs. Alex Hunter as she heard a car backing out of the yard at their farm home, two miles southeast of East Dayton, on Sunday morning at six-fifteen o'clock. She stepped into the boys' bedroom that she might better observe the departure of her offspring and was surprised to find both of her sons still in bed.

Informing them of the car's departure, Jack, 20, and a brother, two years older, stopped only long enough to each don a pair of trousers and then hopped into Jack's car and started in pursuit. Into Kingston village and out again, along country roads, back to Kingston and out again the chase lasted for ten miles. Finally the chase grew close, and in attempting to make a highway turn, the driver of the appropriated car failed and went into an adjoining field, smashing the automobile. He started hotfoot across the section with the two barefoot young men in pursuit and was soon apprehended.

Four Plead Guilty in Tuscola Circuit Court on Monday

Two Charged with Larceny Were Placed on Probation by Judge Cramton

In the Tuscola Circuit Court on Monday, John Kastruba, 22, of Detroit was sentenced to a two to 15-year term in the state prison at Jackson because of failure to observe probationary requirements. Kastruba pleaded guilty on May 27, 1936, to the charge of assault with attempt to rob without arms and was placed on probation for three years and later the period was extended for two more years.

Kastruba is the young man who, while attempting a holdup in the general store of Mrs. S. H. Brown in Cass City, on Saturday evening, January 25, 1936, was put to flight in a rain of grocery scoops and counter hardware aimed at his head by the merchant and minus the money he demanded.

Irving Morrish of Flint pleaded guilty to unlawfully driving away an automobile.

David Ryckman pleaded guilty to non-support and was remanded to the custody of the sheriff. Next day, costs and back payments were paid and he was released.

William Telfor of Caro pleaded guilty to a larceny charge and was remanded to the custody of the sheriff to await sentence.

Michael Wendling of Sebawing Concluded on page four.

Herbert Hartwick Hurt in Auto Crash

Cars driven by Herbert Hartwick of Temperance and Mrs. Frances Burnham met at a highway intersection, two and a half miles northeast of Caro, Monday at 4:00 p. m. Mr. Hartwick suffered rib fractures and facial and body injuries. Mrs. Irene McCann, mother of Mrs. Burnham and a passenger in the Burnham car, received cuts in the face.

Both cars were damaged.

Rev. W. H. Hastings and Miss Powell Married Yesterday

In the First Congregational Church at Webster Groves, Missouri, which was decorated with ferns banked at the chancel and four candelabra of tall white candles, yesterday (Thursday) afternoon, occurred the marriage of Rev. Wendling H. Hastings, pastor of the First Presbyterian Church of Cass City, and Miss Elizabeth Waples Powell, daughter of Mr. and Mrs. Harold Ayres Powell, of Webster Groves.

The ceremony was read at five o'clock by the Rev. Ervine Ingles, and before the blessing, a short celebration of the Holy Communion was observed.

Mrs. Francis Powell Wilson of Los Angeles, California, the bride's sister, was matron of honor and the bridesmaids were Mrs. William Marbury of St. Louis and Miss Dorothy Ernst of Milwaukee. Charles Sheldon Hastings of Cass City, brother of the groom, was best man and John Hitchcock Powell, brother of the bride, and Paul Ditto of Saginaw, were ushers.

The bride's dress was a formal and bolero jacket of sheer white wool over ivory satin. The gown had a wide girle and straps of lace embroidered with pearls. The jacket

WILMOT.

Sunday guests at the E. V. Evans home were Mrs. Lee Penfold and family of Kinde, Mr. and Mrs. J. Lee Evans and children of Pontiac, Mr. and Mrs. Sam Miller and two children of Clarkston.

Mr. and Mrs. Robert Atfield and Mrs. Cora Atfield of Pontiac were callers in town Monday.

Mr. and Mrs. Cleo Evans spent Sunday with Mr. and Mrs. Ed Martin of Marlette.

Gerald Hurschburger and Raymond Warner enjoyed a day of fishing in Bay Port Sunday.

Mr. and Mrs. Francis Stout of Pontiac spent the week-end at their home here.

Mr. and Mrs. Rube Hera of Connersville, Indiana, are spending a week with Mrs. Joe Schlunz.

Mr. and Mrs. Gerald Hurschburger and Mr. and Mrs. Raymond Warner and son, Ross, were callers in Bay City and Saginaw recently.

Mr. and Mrs. Royce Curtis and son, Edward, of Caro spent Sunday afternoon and evening at the home of the latter's grandparents, Mr. and Mrs. William Moulton.

Concluded from first page. Wicki, state budget director, has drafted a bill for introduction in the legislature, reconvening today, to appropriate this additional sum.

Rising Prices

A worry to state officials, as it is to housewives, is the mounting cost of commodities. Everything costs more than they did six months ago, except your newspaper and a few other items.

Prices at wholesale have climbed 20 per cent over the level existing in pre-war months before September, 1939. The cost of living is up 7 per cent and mounting almost daily. This is particularly true of food.

Under the price control bill endorsed by Leon Henderson, price expert at Washington, agricultural prices could rise to 110 per cent of parity—that is, 10 per cent above the level existing between 1909 and 1914.

At Washington today (Thursday) is Michigan's commissioner of agriculture, dirt farmer Leo V. Card, who is to oppose any attempt to fix a ceiling on agricultural products at less than parity.

As everyone knows, continued increase in farm prices are bound to form a base for additional rise in living costs; these higher costs will form a base for demands by labor for further wages; such higher wages in turn will increase cost of commodities, and so on and on—the old inflationary spiral that pushes itself upward by its own momentum. It is like the old question about which came first—the chicken or the egg. But that isn't all.

Announcements have been received of the arrival of a son, John Danny Dayton, to Mr. and Mrs. Albert C. Dayton of Port Huron. Mrs. Dayton will be remembered by many Cass City people as Thelma Schreiber.

The Erskine Ladies' Aid met on Thursday afternoon with Mrs. Archie MacAlpine on West Main Street. Following the business meeting, Mrs. Ella Vance recited several original poems and a Stanley Brush demonstration was held.

Corporal John Bayley, who is in training with the army air corps at Chanute Field, Rantoul, Illinois, is spending a ten-day furlough with his parents, Mr. and Mrs. Richard Bayley. Mr. Bayley expects to be transferred to Oregon in the near future.

The Revs. Frank Smith and S. P. Kirm of Cass City attended the Tuscola County Ministers' Association meeting at Caro Monday. They report plans under way for the observance of a county-wide Go-to-Church Sunday in the near future, and also plans to re-establish the work of Christian education throughout the county.

A birthday dinner was served by Mr. and Mrs. Andrew Cross, in their home on Third Street Saturday night in honor of their daughters, Miss Doris Cross, whose birthday is October 9, and Lena May Cross, whose anniversary is October 7. Guests included John Tewksbury, Cass City; Mrs. Ella Cross, Birmingham; Mr. and Mrs. George Wilkins and son, George, of Kingston.

A party sponsored by the Altar Society of the St. Pancratius Church was held in the home of Mr. and Mrs. Vern Bogart on October 2. There were about sixty guests present including neighbors, members of the parish and their friends. Bingo was played and a lunch was served. The next party of the Altar Society will be held October 16 at the home of Mr. and Mrs. Clifford Demo in Cass City. Everyone is invited to attend.

Mrs. J. D. Turner, assisted by Mrs. Donald Schell and Mrs. Howard Wooley, entertained at a reception Friday evening in the Turner home in honor of Mr. and Mrs. Louis Elias (Esther Turner), who were married September 13. Forty relatives and friends were present. Mrs. Wooley played a piano solo and Mrs. Otis Heath, with Mrs. Wooley at the piano, sang "At the End of Honeymoon Lane." Mr. and Mrs. Elias received many gifts.

A surprise birthday party was held Sunday in the home of Mr. and Mrs. Herman Behr in honor of Mrs. Behr's birthday, which was near that date. A potluck dinner and social time were enjoyed. Guests were Lobe Fisher, Mrs. Fred Heideman, Mr. and Mrs. Otto Fisher and son, Kenneth, all of Marlette; Mr. and Mrs. Frank Peters, Mr. and Mrs. Stewart Behr and two children, Mr. and Mrs. Louis Behr and children, all of Argyle; Mr. and Mrs. O. Hartle and children of Port Huron; and Ernest Behr of Marysville. Mrs. Behr received many gifts.

Mrs. Hiram Willis returned on Tuesday evening from a two weeks' trip with her son-in-law and daughter, Mr. and Mrs. Charles King, of Pontiac. The party visited William Willis and Mrs. L. Henry, brother and sister of Mrs. Willis, at Leota, Kansas. At Syracuse, Kansas, they visited Harris Willis, brother of Mrs. Willis, whom she had not seen in twenty-six years. Two days were spent at Colorado Springs and they called at the Whale place of business and visited with Mrs. Charles Whale. At Pueblo, Colorado, they talked over the telephone to Mrs. Nina Henry, the former Nina Karr, a teacher in the public school there. Six different states and many places of interest were visited.

Under the new anti-inflation plan, all employers would pay 3 per cent unemployment tax on their payrolls. At present employers who hire less than eight persons are exempt.

Old age taxes, now 1 per cent by the employer and 1 per cent by the employee, would be boosted immediately to 1 1/2 or 2 per cent on each party. Laugh that off!

Pinch of Priorities
Add to this tax-bugger-ride the prospect of a sharp decline in state revenue in 1942, and you have something to think about.

Budget Director Nowicki forecasts a marked drop in sales taxes by January 1.

Governor Van Wagoner told a congressional committee in Detroit that Michigan faces "economic chaos within three months" unless priorities of materials were extended to non-defense industries. Furthermore, he admitted that the outlook of state finances in 1942-43 was "definitely dangerous."

Well, folks, we're on our way. The grade is steep, so hang on to your hats!

Buy Winter Coal Now

"Buy winter coal now," U. S. government agencies are advising, "to avoid a very grave danger of a shortage of coal next winter." Buying and storage of coal is advocated as a direct and substantial aid to national defense, because it will lighten the load that defense production is placing increasingly on the transport system. Follow the government's expert advice by putting your winter fuel needs into the bin now.

Wondering about the 1942 cars?

Here is Buick's superb solution to the problems posed by making our national defense, as it should be, industrial America's No. 1 job

BUICK BUILDS FOR DEFENSE

Our assignments Building Pratt & Whitney valve-in-head aircraft engines for defense use.

IT WAS no time to duck or dodge the facts. I So we didn't try.

Instead we said—these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car—certainly not for any "ersatz" number.

We had to have a real and representative Buick. One we could be proud of. One able enough, active enough, durable enough to serve till annual new models are the rule again.

We resolved on a 1942 automobile of such merit as could carry the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.

Now we're announcing those 1942 cars.

Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.

There's a better answer—you drive these cars themselves. Come on, do that! Put your own yardstick on their quality.

It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.

No other car has **ALL THIS FOR YOU IN 'FORTY-TWO**

The Young People's Mission Circle of the Evangelical Church met Friday evening with Mr. and Mrs. E. W. Kercher. After a short business meeting, in charge of the president, Miss Marjory Schwegler, the members worked on the Kentucky Mission projects. Refreshments were served.

Solomon C. Striffler has demonstrated that cotton may be grown on an Elkland Township farm even though it will not ripen this season. His son, Delvin, secured the seed when he was living in Tennessee last year. A sample of the plants grown by Mr. Striffler is on display in the Chronicle office.

Mrs. C. W. Hastings, Rev. Wendling Hastings, the deacons of the Presbyterian Church, their wives and friends, enjoyed a potluck supper Friday evening in the home of Mr. and Mrs. Richard Bayley in honor of their son, Corporal John Bayley, of Chanute Field, Rantoul, Illinois, who is home on a furlough. John Bayley was a former deacon.

Mrs. William McCallum and Mrs. C. Willy motored to Saginaw on Sunday morning where they met their daughters, Miss Kathleen McCallum and Miss Elsie Willy, both of whom are student nurses in Hurley Hospital in Flint. The two girls spent the day at their homes here and in the evening were accompanied to Saginaw by Mrs. McCallum and Miss Caroline Garety.

Mr. and Mrs. George Johnson and son, Wayne, of Pontiac came on Thursday to visit Mrs. Johnson's parents, Mr. and Mrs. Whitley McLean. On Friday, Mr. and Mrs. McLean and their guests visited in Mt. Pleasant and Coleman, returning to Cass City Saturday. On Saturday evening, Mr. and Mrs. John Beltz of Mt. Clemens and Mr. and Mrs. Arley Burns of Romeo came to spend Sunday at the McLean home. Mrs. Beltz and Mrs. Burns are nieces of Mrs. McLean.

A regular meeting of the Cass City Grange will be held tonight (Friday) at the Bird schoolhouse. This is the annual meeting and election of officers will be held. Mr. and Mrs. Walter Schell and Mr. and Mrs. Arthur Moore are hosts and hostesses. A potluck supper will be served. On Friday, October 17, the degree teams of Lapeer County will come to Cass City and give the third and fourth degrees to a class of candidates in the high school auditorium. Any Grange member is welcome to attend this meeting.

Governor Murray D. Van Wagener, his secretary, State Highway Commissioner G. Donald Kennedy and Mr. Doorhie called at the home of State Representative Audley Rawson, Republican floor leader, Monday evening to discuss legislative matters. Mr. Rawson left Wednesday afternoon to attend the legislative session.

REV. W. H. HASTINGS AND MISS POWELL MARRIED YESTERDAY

Concluded from first page. Richard had full sleeves caught into a tight cuff of lace. The fingertip veil, belonging to the bride's great aunt, Mrs. Lyman P. Powell, of Mountain Lakes, N. J., completed the wedding costume with a modest veil which fell over a pointed coronet of rose point lace. She carried a prayer book and bouquet of gardenias.

The bridesmaids' dresses were made alike of taffeta, floor-length, with heart-shaped necklines, pointed yokes and cuffs, and bouffant skirts. The color of the dresses and veils were a dusty pink and their flowers a dark red. The dress of the matron of honor was dark red with a matching veil over her head secured by a knot of flowers like her bouquet of deep pumpkin daisy chrysanthemums. All three wore pearls, gifts from the bride.

Mrs. Hastings wore a draped dress of pink wool and a corsage of gardenias, and Mrs. Powell an afternoon dress of soft blue-green wool and a gardenia corsage.

A bridal dinner was served for members of the two families and close friends.

Miss Powell attended Washington University and graduated from the University of Wisconsin where she was a member of Alpha Xi Delta. After receiving her master's degree at Wisconsin, she did graduate work at Julliard Institute of Music in New York and the American Conservatory in Fontainebleau, France. For the past two years, she has taught piano and theory at Sullins College, Bristol, Virginia.

Mr. Hastings graduated from Alma College in June of 1938 with a degree of Bachelor of Arts, having majored in philosophy and English. He was ordained October 2, 1938, by the Presbytery of Saginaw in the First Presbyterian Church, Saginaw, where he had served as assistant pastor through 1936 and part of 1937. Previous to his work in First Church, Saginaw, Mr. Hastings served the Tenth Presbyterian Church at Birch Run, where he succeeded his father upon the latter's death in 1934. From 1937, he served the Presbyterian Church at Harrison until he came to Cass City in September, 1939, to commence his pastorate here.

LEAGUE SWINGS INTO MID-SEASON FORM

Concluded from first page. two splits and a costly miss giving him a closing 154 and the tie.

Not to be outdone by these two, the "Grand Old Man" Landon made a powerful bid to pass both and fell a bare seven pins short when he missed in the last frame of his third game and had to be content with a "mere" 580.

Other very creditable three-game totals were Retherford's 552, Wallace's 540, Dr. Starmann's 539, and Ben Kirton's 536.

A new high three-game total for teams was chalked up by Clark Knapp's team who posted a powerful 2,364. A new high single game total was posted by Reid's team with an 893. In fact the only high that was left untouched from the week before was Mann's 246 for a single game.

Allow four minutes to select from each group of words the one most closely connected to the object bearing the same number.

- 1. Magazine, canoe, duck, salary, home run, January. 2. Street, garden, swing, automobile, music, ribbon. 3. Magazine, book, newspaper, pamphlet, letter, telegram. 4. Conductor, sky, street-cleaner, fireman, engineer, lineman. (Public Ledger—WNU Service.)

Answers to the Above Test. 1. Home run. 2. Garden. 3. Magazine. 4. Fireman.

Buying Sun Glasses

Sun glasses, if worn unnecessarily and continuously may lower one's tolerance to light and instigate a discomfort in moderate illumination, according to some eye specialists. In choosing a sun glass, they say, remember that all good quality absorptive and sun lenses on the market are of value and will serve your purpose as a glass for the beach, snow, and bright summer day wear. When you are buying a pair of sun glasses, step outside on the sidewalk and try them on to see if they will suit your purpose.

Cleaning Varnished Woodwork

To clean varnished and shellacked furniture and woodwork, these ingredients will aid the housewife: One quart boiling water, three tablespoons linseed oil, and one tablespoon turpentine. Remove boiling water from stove, add linseed oil and turpentine—wash furniture with cloth wrung out of this solution. Rub dry with another clean, dry cloth.

3,000 Quit Homes to Make Room for Mill

Evacuate Half of Town for Defense Plant.

HOMESTEAD, PA. — A mass evacuation movement, involving almost half the population of this industrial community of 19,000, is under way to make room for a huge \$75,000,000 extension of the local mills of the Carnegie-Illinois Steel corporation, made necessary by expanding defense requirements.

An estimated 8,000 people, now living in the area that will be razed to build the steel plant addition must find new homes in the near future, when the 1,363 buildings in the affected section will be torn down.

The extension was approved by Director William S. Knudsen of the Office of Production Management. It will be built in response to navy department requests for construction of an armor forging and machine plant, a new open hearth plant and a new slabbing and wide plate mill, for which the property must be purchased and railroad tracks relocated.

Almost a complete community in itself, the area to be razed includes the following buildings, aside from private dwellings: Eleven churches, two convents, five schools, five clubs, 68 groceries, 46 shops, 23 saloons, three garages, two drugstores, two service stations, two cleaning establishments, two junkyards, a planing mill, waterworks, knife factory, machine shop and a baking company.

Many of the 2,000 families that are being forced from the district include employees of the Carnegie-Illinois mills. They must find new living quarters despite a housing shortage and despite the fact that many have lived in the affected area almost all their lives.

Supai Indians Living Frugally in 'Shangri-La'

GRAND CANYON, ARIZ. — An actual "Shangri-La" is located in a remote and inaccessible branch of the Grand Canyon on the Colorado.

According to J. W. Hoover, professor at the Arizona State Teachers' college at Tempe, more than 200 members of the Supai Indian tribe of Arizona live in this hideaway, and their only contact with the outside world is by the postman's weekly trip over the 30-mile trail.

"Sited in Havasu canyon and oasis, it is surrounded by towering and unbreakable walls of rock," Hoover said. "Descent is hazardous by a trail cut in the rocks."

"It is quite remarkable that this American Eden which actually is within the confines of Grand Canyon National park, has not become a mecca for tourists," he said. "Actually it is virtually untouched and unknown."

Hoover pointed out that the 200 inhabitants live happily on an annual income of \$6,635. This means that the average inhabitant gets along on \$35 a year, he added.

"When a visitor arrives," Hoover said, "he hears the voices of children echoing and is overwhelmed by a feeling of being in a world apart."

San Francisco Aqueduct Rivals Famous Bridges

SAN FRANCISCO.—San Francisco has a third bridge with as impressive a record as the more famous Golden Gate and San Francisco-Oakland Bay bridges—the Third and Channel aqueduct—city engineers revealed recently.

This little drawbridge—the heaviest single-leaf bascule ever constructed—is rated an unlimited load limit.

Since its dedication in 1933, more than 77,000,000 cars have passed over its span and its gates have been raised more than 177,000 times to allow ships to move up and down stream.

An average of 1,600 cars an hour has been established—until recently, even greater than the bay bridge figure.

Plan to Tear Up Street Rails for Scrap Iron

WASHINGTON. — The abandoned street car tracks in scores of cities probably will be torn up soon to provide scrap iron and steel for the armament program.

Ralph Budd, defense transportation commissioner, said that a plan is being considered for the WPA to help provide funds for removing the rails and making necessary repairs to streets. A survey has indicated that more than 232,000 tons of scrap are imbedded in city streets.

At the same time, defense officials called on the railroads to remove all sidings, branch lines and industrial tracks where they are not actually needed for present or prospective business.

Army Feet Are Bigger, U. S. Buyers Discover

WASHINGTON.—Soldier's feet are larger than government buyers estimated at the start of the defense program, and as a result the average cost of each pair of shoes has increased two cents.

Defense purchase officials said the demand for larger shoe sizes in the army had been heavier than anticipated.

Never an Auto Death. Some sort of safety record is claimed by Italy, town of 1,300 population in Ellis county, Texas. Italy has never had a death within its city limits caused by an automobile accident. Furthermore, no murder has ever been committed among the white citizenship since the town was organized 65 years ago.

Stained Glass. Stained glass of the Middle ages is irregular in thickness and because of this the light rays are bent passing through it. The old stained glass is usually from one-sixteenth to a quarter of an inch thick.

NECROLOGY

Marcus J. Connell.

On September 28, Marcus J. Connell passed away at Cut Knife, Sask., following a stroke. He had been ill two days. Funeral services were held at Freemont, Sask., on September 30 and burial at Caruthers.

Mr. Connell, a director of his school district and province tax collector, had gone to Cut Knife to a teachers' convention and was stricken while sitting in a car. He was removed to a hospital where he passed away.

He was born in Oliver Township, Huron County, Michigan, on July 22, 1888, and went to the Canadian Northwest in 1907 where he engaged in farming.

He is survived by a foster daughter, Elma; three brothers, Martin and Robert, of Detroit and Bower, of Grant Township; and two sisters, Mrs. N. D. McPhail, of Interlochen and Mrs. Joseph Crawford, of Elkland Township.

Mr. and Mrs. Connell spent from November 11, 1939, to April 1, 1940, with relatives in Michigan. His mother passed away here on April 16th last.

Baby Leslie.

Funeral services for the two-

day-old son of Mr. and Mrs. Albert Leslie were conducted Sunday in the Leslie home in Evergreen Township. The baby passed away Saturday in the home. Rev. F. E. Purdy, pastor of the Decker Methodist Church, officiated. Burial was in Elkland Cemetery.

HAS WATCHED CASS CITY GROW FROM INDIAN SETTLEMENT

Concluded from first page.

Mr. Scriver passed away November 24, 1934, and where Mrs. Scriver still lives.

Mrs. Scriver says it has been interesting to see Cass City grow. She has been a member of the Methodist Church for over 40 years and she says she couldn't get along without her radio to listen to the services since she has been unable to get to church.

Mrs. Scriver lives alone and does all her own work, and many younger women would be put to shame if they would see the neat and clean rooms of her home. Her leisure time is spent with her Bible, which she easily reads without glasses.

Mr. and Mrs. Scriver had one daughter, Mrs. Lillie Good, who died June 19, 1922. Mrs. Scriver's only close relative is a brother, Christopher Seeger, of Cass City.

LOCALS SUFFERED THEIR FIRST DEFEAT AT HANDS OF CARO

Concluded from first page. Thumb League previous to Wednesday's encounter.

Sandusky Defeated. A touchdown in the first quarter by Kloc and two in the second quarter by Strickland proved to be enough for the Maroon and Grey to take their third consecutive victory Friday at Sandusky's expense. A heavy Sandusky team put up a stubborn resistance to the local running attack, but the locals were out-blocking and running for a victory and couldn't be stopped until after they had piled up three touchdowns. Root converted two out of three points after touchdowns.

Sandusky's score came in the fourth quarter as they hammered their way down into scoring territory when Kenny took the ball off tackle for a touchdown. Woodward added the extra point.

Women Increase Lead Over Men in Big Cities

WASHINGTON. — Women's predominance in the population of the big cities is growing, according to a report from the census bureau. They outnumber males in 26 of the 92 cities of more than 100,000 population, 13 more than in 1930.

Washing Women in Big Cities

Atlanta had the largest proportion of females, there being only 84.9 males counted there for each 100 females. Richmond Borough in New York city was at the other extreme, 109.3 to 100.

For the country as a whole the excess of males over females, which has continued throughout the nation's life, reached its peak in 1910, but has since been dropping at the rate of about 100,000 a year and last year amounted to only 697,051. Women outnumbered men in Atlantic seaboard states, but men were found to be more numerous in the Middle West, Southwest, Rocky Mountain states and on the Pacific coast.

All United Dairy farmers in Sanilac and Tuscola Counties try and attend this meeting as it will be worth while.—Advertisement.

Hearing Helps Blind to 'See'

Psychologists Test Ability Of the Sightless to Avoid Obstacles.

Ithaca, N. Y.—Cornell psychologists announce that they have found the solution of what constitutes the so-called "sixth sense" in the blind which enables them to avoid obstacles. The blind avoid obstacles through the sense of hearing, according to the psychologists.

It is believed that the discovery will not only bring hope and confidence to the newly blind, but also will provide techniques for those who have been blind for many years and enable them to obtain a freedom of movement now denied them. The Cornell findings are said by the scientists to have implications also for persons moving about during blackouts, which already have resulted in many accidents in England. As a result of the new findings, those blinded by accidents, or by war, need not resign themselves to utter dependence upon their sighted neighbors, the psychologists say.

The reported solution of the problem resulted from the collaboration of a two-man team, one of whom is blind, working under the direction of Dr. Karl M. Dallenbach, professor of psychology at Cornell. The workers are Michael Supa, blind graduate student from Binghamton, a graduate of Colgate in 1940, and Milton Cotzin, graduate assistant, a native of Worcester, Mass., A. B. Clark university in 1938 and M. A., University of Nebraska, 1939.

A Puzzle for Centuries. The peculiar ability of the blind to avoid obstacles has baffled mankind for centuries. Casual observers and amateur experimenters have been responsible for highly fanciful explanations of a "power" supposedly possessed only by the blind themselves.

Many vague descriptive terms were used to label this special ability—terms ranging from "facial vision," "warning sense" and "distance sense" to "telectesthesia," "paroptic vision" and the so-called "sixth sense of the blind." The halo of mysticism and supernaturalism attending this ability of the blind is undoubtedly due to the misunderstanding created by the term "sixth sense," according to the experimenters.

In a series of carefully controlled experiments consisting of more than 1,500 trials, the three psychologists used four subjects, two totally blind and two with normal vision. The latter believed beforehand that they would be incapable of perceiving the presence of objects without vision. But, from the very outset, these subjects, who were now completely blindfolded, were able to detect the presence of an artificial wall which was placed in their path.

Test Subjects' Reactions. Throughout the series the subjects were asked to state how they thought it was possible for them to distinguish the presence of the obstacle. At first, none was able to give a definite reason but said that they "just knew it was there." Then, some thought that sounds aided in their determinations. The others said that an indefinite pressure experience on the forehead served as their cue. Tests were now devised to determine objectively which of these subjective reports was correct.

A mask of heavy felt was constructed so as to cover the entire head and face without touching any parts of the face or forehead. This eliminated the possibility of any sources of stimulation of pressure upon the covered parts. Despite this heavy veil, hearing was not impeded. As in the preceding series, all subjects were able to detect the pressure of the wall.

Clean Tractor Radiator Before Putting It Away

Before putting the tractor away for the winter, it is advisable to clean out the radiator thoroughly with a strong solution of washing soda.

Fill the radiator half full of rain water. Take an equal quantity of the water, heat to boiling and add all the washing soda it will dissolve. Pour this hot saturated solution into the radiator and run the engine for 10 to 20 hours at regular farm work. Then drain out completely, flush with clean water and refill as usual. This yearly treatment helps to prevent scale from forming in the cooling system.

Scale that already is present can be removed by making a weak acid solution consisting of one part of hydrochloric acid and seven parts of rain water. Allow this solution to stand in the radiator for 36 hours without running the tractor. Then drain and refill with clean water and so on three handfuls of washing soda. Run the engine for five or ten minutes, again drain, and fill with clean water. The soda treatment neutralizes any acid that may be left in the system.

Many weed seeds are destroyed when they are put in the silo.

Of the moisture that falls on the soil, only about 50 per cent is available for plant growth, approximately 50 per cent being lost through evaporation and run-off.

Poison ivy may be killed out by applying sodium chlorate to the patch at the rate of three pounds per square rod, preferably in the dry form if distributed in the fall. Handle with care to avoid fire danger.

A properly placed rat trap is more important than a properly baited one.

Essentially the same methods of feeding dairy heifers can be used for bulls under six months of age.

Containing 80 to 85 per cent cream and milk products, ice cream requires the milk of nearly 1,000,000 cows—over 1 1/2 billion quarts of milk a year. About 10,000 manufacturing plants produce 280,000,000 gallons of ice cream annually.

APPLES HELD ON TREE BY SPRAY

Premature Fruit Dropping Greatly Reduced.

By W. H. THIES (Extension Horticulturist, Massachusetts State College.)

Apple growers who have lost fruit in previous years by premature dropping made their fruit "stick to the trees" by using the new hormone sprays available for the first time this year.

Correct timing of the spray is very important, as its effectiveness is usually not more than from two to three weeks. Tests on McIntosh show that the spray loses its effectiveness after 8 to 10 days. With long-stemmed varieties such as Williams, Rome Beauty, or Delicious, good control of dropping is obtained for three to four weeks following the spray.

Because of the relatively brief period of effectiveness it is important that application be delayed as long as possible, preferably being made just prior to dropping or soon after its beginning, in order to have the effect when needed most. The material takes effect within one to two days after application.

In the experimental work at the federal horticultural station, Beltsville, Md., pure hormones were used. The amount needed is almost unbelievably small. A concentration of 10 parts per 1,000,000 (one ounce to 700 gallons) in water was given effective control. A stronger spray is liable to make the fruit stick to the tree so tightly that fruit cannot be pulled off without becoming damaged.

Early McIntosh and Red Duchess apples sprayed at the period of ripening and picked from 12 to 20 days after spraying dropped an average of only 19 per cent of their fruit, as compared with a drop of 70.9 per cent of the fruit on unsprayed trees. Other tests on summer and fall apples gave equally conclusive evidence of the ability of the spray to hold fruit on the trees.

So far, no injury to tree, fruit, or foliage has been observed when hormone sprays have been used. The only effect on the fruit is to delay dropping, thus giving time for better color development and some improvement in size.

Though this spray greatly reduces fruit drop, it does not stop the normal ripening of fruit on the tree. Thus, caution must be used not to delay picking beyond proper maturity, or the fruit may become too ripe on the tree for good handling and storage quality. Such troubles as water core and physiological breakdown in storage are liable to be serious in over-mature fruit.

The two chemicals that have proved outstandingly effective in preventing the premature dropping of apples are known as naphthaleneacetic acid and naphthaleneacetamide.

During the past few weeks thousands and thousands of children have returned to school.

School authorities have been very co-operative in developing and assisting in safety programs. They have been very successful in the prevention of accidents to school children. Accidents that have happened to school children have therefore not been the fault of school authorities because of their lack of interest, but rather due to the indifference of the motorist in providing his share of co-operation to make the school area safe.

Let's be especially careful around schools—slow up—protect those children.

Automobile fatalities for the first six months of this year show an increase of 17 per cent over the first half of last year.

Automobile injuries also show a marked increase, and the figures are still going up.

This increase has a marked effect on production in all operations and on national defense. We should all be alert to this program and contribute our part to the defense program by driving carefully. Courtesy in driving produces wonderful results and pays big dividends. You will feel better at the end of the day for any courtesy you have rendered as a safe driver. It's smart to be careful.

AH, THAT NIGHT, OF ALL DARK NIGHTS... AND THEN A LIGHT—A LIGHT

—From wood cut of an old painting.

SYMBOLIC of our own dark nights and the light of day for which all humanity hopes, is the painting shown here and the lines quoted from Joaquin Miller's famous poem about Columbus.

That was a dark night—before the sight of land and the great discovery that the world need not be the narrow, pinched, uninspired thing it had been thought to be. "Pale and wan," Columbus was on deck and "peered through darkness." It took a long time for the light to break through.

"And then a light—a light." Even as now we pray for it. When it came after that fearful night for Columbus, "it grew to be time's burst of dawn," and he gained a world! No darkness but what has its dawn—whether in 1492 or in our own times.

Mrs. John Heckman in the laundry of her farm home at 2741 Little Road, Clinton Twp., Macomb County

Electricity DOES THE WASHING

At best, washday on the farm isn't exactly a holiday. But for Mrs. John Heckman, Macomb County, it isn't all drudgery, either.

These four electric servants take much of the work of washday off her hands:

- 1. Running water—pumped electrically. No tiresome pumping or heavy carrying.
2. Hot water—plenty of it without waiting—supplied automatically by a 110-gallon electric water heater.
3. A fully automatic "Home Laundry" which does practically everything but hang up the clothes—soaking, washing, rinsing and damp drying without attention.
4. An electric ironer which makes ironing an easy, sit-down operation.

These four big helpers use only about 20c worth of electricity in doing the complete laundry, including ironing, for the Heckman family. Any woman will tell you that's a pretty good bargain.

Mrs. Lyon and Miss Burt Enjoy Stay in South Dakota

Mrs. H. S. Lyon, 409 Elmwood Avenue, Joliet, Illinois, and her sister, Miss Ida Burt, of Jackson, both former residents of Sanilac County, recently returned from a two weeks' stay in South Dakota, where they visited Mr. and Mrs. Lewis Alsager and daughter, Katherine, near Bison. Mrs. Alsager is a sister of Mrs. Lyon and Miss Burt and has lived in South Dakota for 26 years. This is Mrs. Lyon's first trip to Dakota. Miss Burt has made the trip a number of times.

With a party of 16 one day was spent at Custer State Forest in the Buttes. There grow the wild plums, choke cherries and Buffalo berries, all of which grow in many parts of Dakota. The exciting event of the day was shooting four large rattlesnakes, and "honoring" Mrs. Lyon, they presented her with two of the rattles.

The principal point of interest in Bison is their new school building, including grade and high school. On the lawn stands a monument to Hugh Glass, who was one of Dakota's honored citizens, and they tell this story: Hugh Glass was one of a party of surveyors who were attacked by a bear and Glass was badly wounded. The party left him with two other men, with food to care for them and him. Believing Glass would not live, the two men deserted him taking the food with them. Glass survived and crawled many miles before he came to some friendly Indians who cared for him until he was able to go on alone.

Two days were spent in Rapid City and the Black Hills. Rapid City is the gateway to the Hills. It is the largest commercial center, and has special advantages for tourists. Nearby is Dinosaur Park. Black Hills cover an area of about 100 miles north and south, and 50 miles east and west. Mrs. Lyon and Miss Burt drove to Mt. Rushmore Memorial. Two faces, Thomas Jefferson and Theodore Roosevelt are not yet completed.

They drove through the Needles' Highway and Iron Mountain Road where the wonderful scenery could not be described. They left the Hills by way of Lead and Deadwood. In Lead is the greatest gold mine in the world. For 40 years it has increased in size, and has grown from less than 10 acres to 2,000 along the mineral zone. Deadwood is connected with the mining industries and sprang into existence as the commercial center in the early mining days.

The Dakota crops are fairly good this year, but the farmers have the ever present pest, the grasshopper, which sometimes takes the entire crop. And still most of the people there, if they go away, will most always return. If you ask them why they stay in Dakota with its pests and sometimes dry seasons, they ask "why do you stay in Illinois?" Mrs. Lyon says she isn't ready to live in Dakota yet, but she enjoyed this first trip so much she would like to return next year.

In a note to the Chronicle, Mrs. Lyon speaks of Mrs. John McLarty as follows: "One very fine person to whom I went to school was Sarah Jane Dickson. How I would like to see her again. She lived on a farm just north of Cass City, but I do not recall her married name. When I go to Cass City next June I hope to see this former teacher."

This Week in Defense.

From National Editorial Association Defense Advisory Committee.

Lend-Lease Expediter Harriman and Lord Beaverbrook, heads of the U. S. and British missions to Moscow, announced in a joint statement the United States and Great Britain have "decided to place at the disposal of the Soviet Government practically every requirement for which the Soviet military and civil authorities have asked." The President told his press conference his rule of thumb of 50-50 allocation of war material production between this country and anti-Axis foreign powers is still in effect on the average.

Agriculture Secretary Wickard, speaking in Memphis, Tennessee, said this country has shipped or bought for England about half a billion dollars worth of food, and "within the next year we expect to ship or buy at least another billion dollars worth." Federal Loan Administrator Jones announced the third disbursement of \$75,000,000 on the \$425,000,000 loan to Britain. He also announced a second disbursement of \$20,000,000 of the \$100,000,000 authorized for the Amtorg Trading Corporation, a U. S. corporation owned by Russian interests.

Freedom of Religion in Russia President Roosevelt told his press conference that W. Averell Harriman, chief of the American Mission to Moscow, has been specifically instructed to take up with the Russian government the question of religious freedom in the Soviet Union. Earlier he issued a statement that "it is hoped . . . an entering wedge for the practice of complete freedom of religion is definitely on its way" in Russia.

Post-War International Cooperation Supreme Court Justice Jackson

told the annual convention of the American Bar Association that "at the end of this war we must either throw the full weight of American influence to the support of an international order based on law, or we must outstrip the world in naval and air and perhaps military force." The tragedy and irony of the present position of the United States, he said, is that this country which would not join a League of Nations which advocated economic sanctions, is "now imposing those very sanctions against half the world in an effort to turn the fortunes of war."

Inflation Control Price Administrator Henderson, speaking in New York, said that the country is now experiencing the "jagged, irregular price advances" with which inflation starts. Unless inflation is restricted, he said, it will prevent arming and undermine the priorities system because "the getting of materials will depend not on the buyer's need but the seller's greed."

He said a doubling of prices means a reduction in value by 50 per cent of every insurance policy, annuity, savings account, pension or other form of savings.

Treasury Secretary Morgenthau, speaking in Chicago, said the Treasury is anxious to divert into defense stamps and bonds spending produced by pay increases and bonuses. He suggested every Christmas bonus be paid in defense bonds or stamps.

Partially to combat inflation, the President plans to ask Congress to extend the Social Security program to 80,000,000 persons—double the number now covered. Increased payroll taxes under the program would remove additional funds from circulation.

Taxation Treasury Secretary Morgenthau, in his Chicago speech, also said defense expenditures are "inadequate" and the 1941 tax bill was "a good start" but not large enough to raise the necessary revenue, check inflation or take the profit out of war. He said the U. S. is trying to be the arsenal of democracy by devoting only 20 per cent of factory and mining output to defense, only 30 per cent of durable goods produced, only 16 per cent of national income.

The Bureau of Internal Revenue announced it will prosecute dealers attempting to make large profits by misrepresenting the new Federal taxes as larger than they are or by pretending to absorb the taxes themselves when actually passing them on to the consumer.

Farming Out OPM Contract Distribution Division Director Odium called on smaller manufacturers to "drum up a subcontract on your own, if possible," and asked larger manufacturers to pass on their backlog of work to small concerns facing shut-down for lack of civilian materials or defense orders. Bradley D. Nash of the Financial Section of OPM's Contract Distribution Division, told the American Bankers' Association in Chicago the Division field offices will be prepared to consult and advise prime or subcontracting groups and their financial representatives to inform them of availability of properly equipped subcontractors, location of machinery and other equipment which may be required. Mr. Odium has

said as many as 200 offices might be opened.

Under Secretary of Navy Forrestal instructed all bureaus and offices of the Navy and the Marine Corps in ways to help spread Navy defense work among smaller manufacturers.

Employment, Labor Training and Supply

Labor Secretary Perkins said total non-agricultural employment of 39,542,000 last month was 3,640,000 workers more than in August, 1940, and 1,166,000 more than in August, 1929. Miss Perkins said the "unusual" demand in the canning industry is giving the country its "most extraordinary expansion of employment in history."

The OPM Labor Division reported it has given assistance to almost 1,800 defense contractors employing more than 2,500,000 workers during its first year, and has established 22 District Offices. The WPA said its in-plant defense training program, which trains workers for four weeks in plants which usually later hire them, is operated in 72 cities and 24 states. Federal Security Administrator McNutt announced shortages of qualified workers exist in 126 or 514 occupations selected as essential to defense, and are expected in an additional 88 occupations before November 1.

Ships

The Navy announced 38 keels were laid and 26 ships launched from September 1 to October 3. The Department predicted "even greater acceleration in October." The Maritime Commission chartered two ships to the Irish Free State to be under Irish flag with Irish crews, and chartered three more to carry nitrates to the U. S. from South America.

Civilian Defense

The Department of Justice announced the OCD and FBI have completed plans for "FBI Civilian Defense Courses" in 55 U. S. cities and territories where FBI field headquarters offices are located. The courses will train police and other officials for various law enforcement duties in emergencies. OCD Director LaGuardia said 85 hospitals have started courses in the program to train 100,000 nurses' aides and 153 Red Cross chapters have also started their courses. He announced a committee of public and parochial school administrators is preparing a manual of instructions to protect lives of elementary and high school children and school buildings in event of an emergency and the Advisory Committee on Civilian Fire Defense is studying auxiliary fire-fighting apparatus.

Army

Lieutenant General McNair, director of the Louisiana maneuvers, blamed officer leadership for "a

mess of faults"—including weak discipline—revealed in war games. He said leadership would be improved by removal of unqualified officers but this does not mean there will be a "purge." War Secretary Stimson denied rumors there is a plan to reduce the Army's manpower to free more equipment for Britain and Russia. He said "our Army has an enormous task that is no longer confined to the defense of the U. S. but has the work of manning a large line of outposts." He noted present Army strength is nearly 1.4 per cent of U. S. population and about the size of the quickly defeated armies of Holland and Belgium.

Biggest Island

Australia is the largest island in the world—so big, in fact, that it is often referred to as a continent. It contains 2,974,581 square miles. Despite the fact that Australia could easily support 150,000,000 people, only about 6,000,000 persons live there and most of the interior is still unexplored.

HOLBROOK.

Mr. and Mrs. Edwin Trathen of Ubyly and Mr. Trathen's sister, Mrs. Annie Johnson, of Flint visited on Wednesday with Mr. and Mrs. Loren Trathen.

Mr. and Mrs. John Stepki and daughter, Anna Mae, of Freiburger visited Sunday at the Gordon Jackson home.

Mrs. Donald Becker and son, Robert, of Wayne are spending the week here.

Raymond Walker, son of Mr. and Mrs. Harry Walker, passed away at a Lapeer hospital Sunday. The cause of death was pneumonia.

Miss Helen Hewitt of Detroit visited at the home of her grandparents, Mr. and Mrs. James Hewitt, over the week-end.

Mrs. Howard Hill entertained some ladies at a quilting at her home Wednesday.

TO YOUR Good Health

by DR. NATHAN S. DAVIS, III

HEALTH ROUND-UP ALSO FOR ADULTS

To lessen the chance of acquiring diseases from other children and to find and if possible correct any defects, progressive towns and counties have started the "Pre-School Round-Ups," "Summer Round-Ups," and school health programs. However, the health of children is in danger for they are exposed daily to parents, teachers and other adults who may have tuberculosis or some other chronic infectious diseases or are carriers of disease.

It is imperative, therefore, that campaigns be started for a general "Health Round-Up" of adults. It has been definitely shown that periodic health examinations of adults improve the health and increase the efficiency of those examined and elevate the standards of health of the community.

Many state and county medical societies, public health departments, women's clubs, and parent-teachers associations have made "Pre-School Round-Ups" their most important undertaking.

It is only natural that parents are interested in doing everything in their power to keep their children well. They now know that proper prenatal care is the best way in which to insure a healthy baby and are learning that regular medical supervision during the first years of life is necessary to its normal healthy development.

The medical profession is convinced that the periodic health inventories should be made by the family doctor. He knows the ancestry, environment and economic situation of the family and its social problems, may even have cared for one or both of the parents since their birth which he may also have attended. He has cared for the child since its birth both in health and disease and is the one who should

make the examinations and carry out the immunization programs, etc., incident to the "Round-Ups." He should also prescribe what may be needed for the prevention of disease and for the correction of any defects that may be found in any member of the family. Because of his intimate knowledge of the child and of the family, he is much better able to differentiate between functional and organic disorders and to detect slight abnormalities than is a strange physician, no matter how eminent a specialist the latter may be.

The "Pre-School and Summer Round-Ups" are important not only as a method of taking stock of the health of the children of a community and of making sure that each and every child is vaccinated and immunized against diphtheria; but also because they call attention to the need for similar "Round-Ups" of those with whom the children come in contact.

It is well to keep in mind, then, the value of having children examined by physician. So, now that the schools are open for the season, it would be well to see to it that your children and all with whom they will come in contact at home and at school are examined by a physician, preferably by their family doctor and that his recommendations are carried out.

"Life is short, and the art long; the occasion fleeting; experience fallacious, and judgment difficult. The physician must not only be prepared to do what is right himself, but also to make the patient, the attendants, and externals cooperate."—Hippocrates.

QUESTION BOX
Send questions to Dr. Nathan S. Davis III, Winnetka, Ill. (Enclose a self-addressed, stamped envelope.)
Q.—I am too fat and I have dieted and exercised and taken off a few pounds. But it comes right back. One of my neighbors takes thyroid to keep her weight down. Do you think I need it, too? Miss R.
A.—Thyroid should be taken only when prescribed by a physician. Remain on the diet until you have lost the amount desired, then increase it just enough to prevent gain in weight.

WRONG SUGGESTION

The bore had more than outstayed his welcome and at the end of a fortnight, his weary host thought of a sure way, he hoped, to get rid of him.

"Don't you think your wife and family must be lonesome when separated so long from you?" he inquired of the unwanted visitor.

"It had not occurred to me," said the latter, springing to his feet, "thanks for reminding me, I'll use your telephone at once and ask them to drive down and join me here."

Not Dumb

"I don't suppose you keep anything so civilized as dog biscuits in this rundown, one-horse, jay town, do you?" snarled the tourist.

Men Easier to Serve

A waitress of much experience in places catering to people from everywhere says the best tippers are from Detroit, Pittsburgh, and San Francisco. The worst, in order named, are from San Antonio, Portland, Ore., and Boston. Men, she says, are easier to serve than women because the former make up their minds quickly as to what they want. Dishes most in demand in America's popular priced restaurants are roast beef, T-bone steak, baked ham and fried chicken.

Neon Lights

Neon, used in neon lights, was discovered by Sir William Ramsay and W. M. Travers in 1898. The development of a gaseous conductor tube employing neon gas dates back to about 1911, but the use of neon in commercial advertising is comparatively new. Ramsay, distilling liquid air chilled to the cold temperature of more than 400 degrees below zero, F., obtained a strange gas boiling off, which he named "neon," meaning new.

Cleaning Plaster Ornaments

To clean plaster ornaments, try dipping them in thick liquid starch. Brush off the starch when dry and the dirt will come off with it. The plaster will be spotless and clean as when new.

Longest Train by Woman

The longest train ever worn by a woman was probably worn by Catherine the Great of Russia at her coronation in 1762. This was 225 feet in length and required 50 train bearers to support it.

Drudge

A drudge is a man with a task and without a vision, while a visionary is a man with a vision without a task.
