**Coach Ross Presented Letters to Members of the 1941 Football Squad.**

Ronald Finch, head football coach of Central Michigan College of Education at Mt. Pleasant, was speaker of the evening at the all-sports banquet at the school auditorium Tuesday evening. He gave young athletes wholesome advice, telling them to strive for good marks in their studies, maintain good habits, show a willingness to meet training requirements, be gentlemanly in conduct and show appreciation for advantages offered by their school by reflecting an attitude of good citizenship. He was introduced by Orion Cardew, a member of the local school faculty.

Wesley Dunn of Bay City, former member of the school faculty here; Harold Parker, who succeeded him; and Henry Williams of Bay City and formerly of Honolulu, spoke briefly.

Vilas Dale Moore, who expected to leave for Fort Custer Wednesday morning, was among the guests. He was temporarily deferred, it was learned Wednesday.

The chicken dinner was served by women of the Bethel Methodist Church and the evening's program was sponsored by the Cass City Community Club. The club's guests included four groups of high school athletes, players in football, track, basketball and baseball.

Mr. Holmberg announced the appointment of Clark Knapp as head waiter and Horace Bulen as dinner ticket sales manager for the coming year. Mr. Holmberg expressed the desire that the club might have a larger membership than ever before the coming year.

Lester Ross presented letters to 22 members of the football squad and Steve Guc, captain of the team.

Crosswell will bring almost the same team here Friday that played a tie game with the Maroon and Grey group in their encounter last year.

### Asks Farmers to Refrain from Cutting Detroit Milk Supply

Fred W. Meyer, president-manager of the Michigan Milk Producers' Association, has requested the 10,000 farmers supplying milk to the Detroit milk market through his association to refrain from cutting off the city's supply of milk until arbiters, now hearing a price dispute between producers and distributors, "have had time to judge the matter."

Meyer said he believes the association members, who last week threatened to withhold milk from Detroit unless local dealers boost their bulk prices, would reconsider their threat in view of the fact that the United States is now at war and Detroit is a vital defense area of the nation. Arbitration of the dispute has begun before a five man board named by both factions.

The threatened milk strike of the United Dairy Farmers was postponed Tuesday for one week to await the result of price arbitration now in progress.

Responding to appeals of the arbiters and to patriotic impulses, delegates to the Flint convention rescinded instructions to members to withhold milk Wednesday and set December 17 as a new deadline.

### Auxiliary Fire and Police Units for Each Village

County Defense Council Head Is Contacting Mayors and Other Officials.

Dr. E. C. Swanson of Vassar, chairman of the Tuscola County Defense Council, was asked Tuesday afternoon to contact local officials throughout this county and speed the organization of Auxiliary Fire and Police Units in each village. This request came direct from Lieutenant Colonel Howard A. Furlong, administrator for the State Defense Council, and followed closely the warning of enemy aircraft over San Francisco and New York City.

The Lieutenant Colonel said, "The participation of the United States in active warfare makes it necessary for Michigan to speed up its organization of Auxiliary Fire and Police Units. The responsibility of impressing on the public the need for this organization is one of the many activities of the County Council."

"It must be clearly understood that the full responsibility for the organization and operation of such units must remain with the constituted local government officials. It is imperative that you contact immediately the mayors and discuss with them the needs of your county in respect to Auxiliary Fire and Police protection."

Acting swiftly in response to this communication, Dr. Swanson is contacting superintendents of schools, mayors, war veterans, fire chiefs, police chiefs and sheriff's officers, newspapers, supervisors, and other centers of production and supply such as elevators, creameries, the sugar plant and food warehouses.

The Defense Council will assist all local governing bodies in following up on this matter.

### Senate Vote Monday Was 88 to 0 and That of the House 388 to 1.

Within 36 minutes after Congress had received a message from President Roosevelt early Thursday afternoon, both houses declared war against Germany and Italy, according to radio reports.

Italy, and then Germany, had declared war against the United States Thursday morning (our time).

Congress Monday declared war upon Japan.

The Senate, acting with unprecedented speed, voted first. The action came within 21 minutes after the President had asked a joint session of Congress for such a declaration. The vote was 82 to 0.

The House also speeded its action, limiting discussion on the floor, and began its roll call at 1:05 p. m. The vote there stood 388 to 1. Representative Jeannette Rankin, Montana Republican, who voted against war in 1917, again cast a negative vote, the only recorded in either hall of Congress.

The text of President Roosevelt's war message to the joint session of Congress follows:

To the Congress of the United States:

Yesterday, December 7, 1941—a date which will live in infamy—the United States of America was suddenly and deliberately attacked by naval and air forces of the Empire of Japan.

The United States was at peace with that nation and, at the solicitation of Japan, was still in conversation with its Government and its Emperor looking toward the maintenance of peace in the Pacific.

Indeed, one hour after Japanese air squadrons had commenced bombing in Oahu, the Japanese Ambassador to the United States and his colleague delivered to the Secretary of State a formal reply to a recent American message. While this reply stated that it seemed useless to continue the existing diplomatic negotiations, it contained no threat or hint of war.

Star of the East, that long ago Brought wise men on their way Where, angels singing to and fro, The Child of Bethlehem lay— Above that Syrian hill afar Thou shinest out, tonight, O Star!

Star of the East, the night were drear

But for the tender grace That with thy glory comes to cheer Earth's loneliest, darkest place, For by that charity we see Where there is hope for all and me.

Star of the East, show us the way In wisdom undefiled To seek that manger out and lay Our gifts before the Child— To bring our hearts and after them Unto our King in Bethlehem! —Eugene Field.

## Mistletoe Loses Charms

**When Berries Are Gone**  
In the language of flowers, Mistletoe means "give me a kiss." This has its basis in a Scandinavian myth. And from this old tale we derive our custom of kissing under the mistletoe.

As it hangs upon the chandelier or in the doorway, each lad may claim a kiss from the maid who chances beneath it with this provision: that the lad remove a berry to give to the maid, until, at last, when no berries are left, the bough loses its spell and no more kisses are then available.

The story continues "that the maiden who receives no kisses under the mistletoe will not marry that year."

## Christmas Anyway

With the approach of another Christmas, Britons recall last year's celebrations when they observed the holiday underground where they could be safe from Nazi bombers. Mothers and their children gathered in shelters like the one above to celebrate the Christmas season. Last year hostilities were ceased for three days during the Christmas observance.

## Observe Rules When Sending Greeting Cards

Definite rules govern the signing of Christmas cards, even though they are the expression of friendship and good wishes.

It is important that the cards reflect the degree of intimacy existing between the sender and the recipient. An air of formality in a card to a very good friend is as improper as an intimate greeting to a casual business acquaintance. Many persons prefer to select cards separately to find a personal subject and message for each friend. This is an ideal thing to do, but it requires considerable time.

Handwritten signatures are written different than names on formally engraved cards. When signing your name, it is best not to include titles—that is, do not put "Mr." or "Mrs." before your name. When names are engraved, however, they achieve a more formal tone and therefore require titles. The only exception to this is the single man whose name is never preceded by a "Mr." even though it is engraved on the card.

Married couples writing informal cards to friends are faced with several special problems. There is no definite rule which tells whose name stands first, but if the names are written by hand it is better for the one who signs them to write his or her own name last. When the name is printed on the card it is immaterial whether the husband's or the wife's name comes first.

A very nice signature for a family would be: "From the George Karpes—all five." If there are only three in the family it would be equally suitable to write, "John, Mary and the Baby."

It is entirely proper to sign your name alone when sending cards to a business acquaintance whom your wife (or husband) does not know. In this case the card is addressed to the business acquaintance alone, even though he or she is married. Cards sent to a good friend, even though he is not known by your husband or wife, may be signed with both your names.

Whenever doubt arises concerning the manner in which a Christmas card should be addressed or signed, use your own sense of good taste. After all, the mere fact you are sending a card is an expression of friendship, and as a result almost any errors you may make will be completely overlooked.

## Superstitions Surround 'Powers' of Christmas

There is a Scottish belief that to be born on Christmas is to have the power to see spirits and even to command them. Sir Walter Scott says that the Spaniards attributed the haggard and downcast looks of Philip II to the terrible visions he was able to see because he was born on Christmas.

French peasants believe that babies born on Christmas have the gift of prophecy.

In Silesia a baby born on Christmas will become either a lawyer or a thief.

In middle Europe it is said that if a baby is born at sermon time Christmas eve, someone in the house will die within the year.

English mothers used to take sick babies to the door Christmas eve midnight. Mary was expected to pass with the Christ Child. If the baby recovered, it was a sign that it had been touched by Christ, with healing fingers, and if it died, the Christ Child had called the baby to be His playmate in heaven.

## Chimney and Santa

It is reported that Santa's custom of coming down the chimney on Christmas eve stems from an old English notion—that sweeping down the chimney at New Year's was necessary so that good luck could enter in.

Oahu Island is only 40 miles in length and about 20 in width. ## LETTERS

Mrs. Clara Cridland of Detroit, a former Cass City resident, writes the Chronicle from Berkeley, California, as follows:

I have contemplated for some time taking a trip to the Canadian West to visit my brothers and a sister, some of whom I had not seen for 25 to 30 years. Leaving Detroit August 3 on the Wabash, I arrived at Winnipeg on Aug. 4, and leaving there at 10:30 by the Canadian Pacific, I was beginning to see the wonderful West—hundreds of acres of wheat in stook as far as one could see and enjoying it every minute of the time.

At 5:30 p. m., I arrived in Melville where my brother, Milton Davis, and wife met me, a brother I had not seen for 12 years. We drove to Canora where they reside, he being employed by the Great Northern Elevator Co. as manager. It is a very nice town of 1600 and there is a very wonderful farming country with lots of wheat. I was kept visiting all the time and was asked about all old friends at Cass City.

At Moosejaw, Sask., I visited my brother, Will Davis and family which consists of Mrs. Davis, Glen, who is married and has two little boys; Pauline, assistant manager in the T. Eaton store; Maxine, married and has one child; and Kenneth and wife, living in Kirkland, Lake, Ont. He is in active service, located in Noranda, Que. War effort is a vital part of their existence at the present time.

At Eyebrow, I visited my brother, John Davis, a brother I hadn't seen for 30 years, and his wife. I found him changed very little for that length of time, only like the rest of us, a few gray hairs. His married daughter lives near Moose

Jaw with two children. The fact that his two boys are in training rather put a cloud over it all. One is stationed at Hamilton and the other at Onbeck, Ont. I stayed at Eyebrow a week. John read several Chronicles I had brought along and he asked about so many whose names he came across.

I returned to Canora and left there on Aug. 25 for Edmonton, Alta., by way of the Great Northern. Having a stop over for a day gave me a chance to see the city which is a beautiful place and the surrounding country is wonderful. But I must say again that the one thing that really takes the joy out of life here is war.

Aug. 26, I left for Peace River, and was met by my sister, Anna, (Mrs. David Boyd), and husband. I had not had the pleasure of seeing her for 12 years. Her family consists of a son, Earl, and wife; another son, Lee, wife and family of three children; the youngest son, Gordon, and wife in Petawawa, Ont., and a daughter, Mrs. Cary, in Vancouver. Lee and Gordon are in active service. I stayed at Peace River for three weeks enjoying the scenery. Peace River is in a valley with hills all around. There is a wonderful farming country with wheat and all other kinds of grain.

My sister and I left Peace River Sept. 18 for Edmonton. We passed through a real snowstorm. The spruce trees which covered the hills and mountains were covered, making it look quite like Christmas. Snow was about three inches deep. We reached Jasper National Park, a place of beauty, at 1:30 p. m. One has to see this place to appreciate it. Hills and mountains are covered with spruce and other shrubbery and the coloring of the autumn leaves made a most wonderful sight. We reached Vancouver on Sept. 20 where we were met by Mrs. Boyd's daughter and

husband. Vancouver has many places of interest of which one never tires.

On Sept. 29, I left for Hoquiam, Wash., to visit my brother, Walter Davis, and family. He has two daughters and three sons.

I might add that my brother, Walter, is employed by the Gray Harbor Chair Co., John Davis is farming, and Will Davis is temporarily in Grand Prairie selling tractors. I am at present with my daughter, Mrs. Harry Guppy at Berkeley, California. Am leaving in another week for Detroit where I expect I will find the weather very much changed.

## Clothes 'At Ease'

Sergeant Frye of the Seventy-Sixth Infantry, Camp Roberts, supervised the latest group of trainees to arrive here in their first formation at Retreat. He immediately spotted a rookie who was very small but whose uniform was very large. "Look here," the Sarge yelled, "everybody is at attention but you! Didn't you hear my command?" "Sir," said the diminutive trainee politely, "I am at attention but my clothes are at ease."

Lansing—That 60-day "cooling off" period for strikes in national defense industries, as proposed in the Smith bill adopted by the House last week, was a national bouquet handed to the Michigan state legislature.

It was the much-abused legislation which, in 1939, provided a waiting time of five days between the actual call and the actual walk-out in an industrial strike. A 30-day clause, affecting public emergencies, was later interpreted by the state labor mediation board to apply to national defense industries.

The significant difference is that the proposed federal plan is just twice as severe.

Minnesota requires a 10-day notice; Colorado, 30 days. But Michigan, one of the few outstanding "arsenals" in the defense program, has apparently set a precedent of national importance.

Labor's right to strike, as well as its fundamental right of collective bargaining, is fully recognized under the Smith bill.

The Canadian war-time labor plan of requiring a secret ballot for strike elections in defense plants is incorporated in the house bill. The Wagner act set a precedent for this in the arrangement for collective bargaining elections under government supervision. The strike election merely asks for a majority vote, as contrasted to the C. I. O. strike in the "captive" coal mine field called personally by John L. Lewis.

Another reflection of public resentment against Lewis' closed turn to page 8, please.

### Steel Rolling Family

Four generations of skill handed down in one family—fifth generation in training—is the history of the Dasbachs, expert steel rollers. Joseph Dasbach, boss roller, native of Alsace-Lorraine, went to work in 1852. Son John J. started in 1862—became boss roller. Grandson Joseph II was boss roller from 1883 to 1933. Great-grandson Norman took up in 1916; today is expert roller. Great-great-grandson Norman, 16, is getting a technical education to become a skilled steel technician like his forebears.

### Grease Screws

If brads and screws are lubricated with cup grease they can be driven home into hard wood with less effort and without spoiling the slots or breaking the screws. Only a very little grease is needed. A good idea is to keep a porcelain jar or glass container full of cup grease handy on the work bench, where the screws can be dipped into the grease.

### Tape Stops Shakes

Drivers of the 500-mile automobile race wear two feet of adhesive tape around the stomach to keep integral organs from shaking apart. They carry powder puffs to wipe off their goggles.

### Marines Protect

To protect American lives and property the U. S. marines have landed on foreign soil at least 200 times, according to official records.

### Bottom Faker

The bottom faker might be a member of the underworld—instead he is on the finishing end in a boot and shoe factory.

### PRESIDENT'S MESSAGE.

Concluded from first page.

It will be recorded that the distance of Hawaii from Japan makes it obvious that the attack was deliberately planned many days or even weeks ago. During the intervening time, the Japanese Government has deliberately sought to deceive the United States by false statements and expressions of hope for continued peace.

The attack yesterday on the Hawaiian Islands has caused severe damage to American naval and military forces. Very many American lives have been lost. In addition, American ships have been reported torpedoed on the high seas between San Francisco and Honolulu.

Yesterday the Japanese Government also launched an attack against Malaya.

Last night Japanese forces attacked Hong Kong.

Last night Japanese forces attacked Guam.

Last night Japanese forces attacked the Philippine Islands.

Last night the Japanese attacked Wake Island.

This morning the Japanese attacked Midway Island.

Japan has, therefore, undertaken a surprise offensive extending throughout the Pacific area. The facts of yesterday speak for themselves. The people of the United States have already formed their opinions and well understand the implications to the very life and safety of our Nation.

As commander in chief of the Army and Navy I have directed that all measures be taken for our defense.

Always will we remember the character of the onslaught against us.

No matter how long it may take us to overcome this premeditated invasion, the American people in their righteous might will win through to absolute victory.

I believe I interpret the will of Congress and of the people when I assert that we will not only defend ourselves to the utmost, but will make very certain that this form of treachery shall never endanger us again.

Hostilities exist. There is no blinking at the fact that our people, our territory and our interest are in grave danger.

With confidence in our armed forces—with the unbounding determination of our people—we will gain the inevitable triumph—so help us God.

I ask that Congress declare that since the unprovoked and dastardly attack by Japan on Sunday, December 7, a state of war has existed between the United States and the Japanese Empire.

FRANKLIN D. ROOSEVELT.

The White House, Dec. 8, 1941.

### How True

Summer Boarder—What a beautiful view that is!

Farmer—Maybe. But if you had to plow that view, harrow it, cultivate it, hoe it, mow it, fence it, and pay taxes on it, it wouldn't look so pretty.

### SO!

"I heard again from Harry."

"He writes a splendid love letter, doesn't he?"

### Subtle

She—Let's talk about you for a while.

He—Yes, dear.

She—Well, then, what does a young man like you see in a girl like me?

### The Boss

Robert—Very few women have any knowledge of parliamentary law.

Harold—You don't know my wife. She's been speaker of the house for 25 years.

In presenting letters to the football players, Coach Ross said the team was the best football group he had ever been privileged to coach, winning eight out of nine contests. The local track team was second at the county meet and third in the Upper Thumb and local baseball players won the Upper Thumb championship.

Letters were presented to the following football players: Harold Ballagh, Bill Bird, Ed Bishop, Kenneth Clement, Francis Clara, Melvin Frederick, Captain Steve Guc, Eugene Kloc, Rodney Karr, Carl Kolb, Bernard Larkin, Donald Leitch, Jim McCoy, Ed Phetteplace, Lewis Profit, Junior Root, Bob Rabideau, Delbert Strickland, Jim Sweeney, Bud Sickler, Stanley VanVleet, Nelson Willy.

G. W. Landon, chairman of the Tuscola County Chapter of the Red Cross, read a communication from Red Cross headquarters in which citizens were urged to become active in a blood donors' program. Two hundred thousand units of blood to be processed into dried plasma has been asked by the Army and Navy through volunteer donors. It will be possible for county chapters desiring to work in cooperation with large centers to participate through the use of a mobile unit (consisting of a truck carrying all necessary equipment), doctors and nurses by setting up a temporary blood center in their area. The Thumb of Michigan is a part of the blood donor center of Detroit. About 35 expressed their willingness to enroll as donors at the Community Club meeting on Tuesday evening. Mr. Landon expects to be in a position to give more information next week regarding this project.

At the suggestion of D. A. Krug, the school building was designated as a depot where gifts for soldiers may be left by their relatives and friends. These should be taken to the school not later than Saturday, December 13. Mr. Krug will take them to Detroit and from that point they will be delivered to soldiers. Goods of a perishable nature cannot be handled.

Kathryn Price, Elaine Kirtton and Lena May Cross, members of the high school band, gave a clarinet trio number with Charles Keen, their instructor, as piano accompanist.

## AUXILIARY AND POLICE UNITS FOR EACH VILLAGE

Concluded from first page.

Following a five-point preparedness program outlined by the chairman. He is asking full public cooperation in carrying out the program which is now getting under way throughout Michigan to meet the threat of total war. A county-wide fingerprinting program and volunteer enrollment will get under way very shortly with public schools, service clubs, etc., cooperating, he said.

Under the state program, the first step will be the enrollment of volunteers for fire fighting and police protection duty in this county. Veterans' organizations are expected to participate in this phase of the work. Secondly, will be a plan for protection of production centers from sabotage and ordinary fire hazards. Third, fingerprinting of their character by the fire and police chiefs in charge of the units. Fourth, Federal Bureau of Investigation Schools and bulletins for members of the Police units. Fifth, a training program for instruction of volunteers in first aid taught according to the Red Cross manual with experienced instructors in charge. This program will also include training in fire fighting and handling of incendiary bombs during air raids.

**In the Spotlight**  
The double-barred cross, thrown into relief by the lighthouse beacon on the Christmas Seal, is one of the best known humanitarian symbols in this country. It is the insignia of the local tuberculosis association. A glaring spotlight has recently been thrown on the tuberculosis menace in that the disease has always taken grim advantages of periods of stress. We must, and tuberculosis authorities believe we can, keep tuberculosis under control in this country. The associations are making every effort to do their part. The people's part at this time is to buy Christmas Seals as generously as possible.

### Navy Training Courses Offered

One of the most striking developments in education during the past ten years has been the tremendous growth of part time schools, evening and correspondence schools, extension courses and other kinds of instruction for men and women who are gainfully employed. States, cities, colleges and many business corporations of the country are spending millions of dollars on education for people who want to learn and learn at the same time.

The chief reason for the success and growth of this kind of instruction is that the studying of any trade or vocation and the obtaining of working experience in the same line, at the same time, is an almost ideal combination for achieving success. The man who can follow his chosen line of work and at the same time continue studies that lead to advancement, obtains a practical knowledge that is hard to get any other way.

Navy Training Courses are studied during active duty and are issued without charge to enlisted men through their Commanding Officers. Study is carried on under the direction of officers on board ships or at Naval Stations on land. All necessary assistance is furnished the bluejackets who wish to improve themselves by this means. Schooling in more than fifty technical jobs and vocations is offered to young patriotic men who join our new "Two-Ocean" Navy.

This free schooling is valued at hundreds of dollars and sailors receive regular U. S. Navy pay as they learn.

A supply of free illustrated booklets for all men interested may be secured from the Navy editor of this newspaper.

**Stains Caused by Bleeding**  
Sometimes stains caused by bleeding of a colored material into white cotton or linen may be removed by boiling the material in heavy suds, although the ease with which such stains can be removed depends entirely upon the nature of the dye.

**Cat Digs Bait**  
When Joseph C. Baker, ardent Newark fisherman, wants to go try his luck in the streams hereabouts, he takes his cat, "Man Sandy," along, and the feline helper soon has gathered a goodly supply of "night-crawlers." The Persian cat reaches into the holes and pulls the "crawlers" out with both paws. Baker follows along with a can and gathers up the bait.

FOR YOUR IN-BETWEEN HOLIDAY PARTIES  
(See Recipes Below)

Expected, and unexpected situations too, arise during the holiday seasons. People drop in just to wish you a "Merry Christmas." Others are invited for some specified time. The night before Christmas you may want to have a "trimming the Christmas tree" party. Or, your daughter may ask a few of her chums in for a small party.

Whether you expect to be on the entertainment committee for a family reunion, or just a hostess for a casual holiday gathering, it's a good idea to put on your thinking cap and plan some easy-to-prepare mass refreshments.

Sandwich makings that the guests can put together themselves are always a good choice for quick-party menus.

Fruit refrigerator cakes are the perfect solution for chief cooks who want to play the role of leisurely hostess without last minute culinary responsibilities. They are practical, too from the standpoint of using left-over fruits that might be cluttering up the refrigerator. These delicacies always have a glamorous "party" look and appeal to every sweet tooth; but, best of all, they can be made in jig time in the morning, leaving the afternoons and early evenings free for "fun."

**Peach Refrigerator Cake.**  
(Serves 8)

1½ cups (1 can) sweetened condensed milk  
¼ cup lemon juice  
1 cup canned sliced peaches (well drained)  
2 egg whites (stiffly beaten)  
24 chocolate wafers

Blend sweetened condensed milk and lemon juice thoroughly. Stir until mixture thickens. Add sliced peaches, which have been well drained. Beat egg whites until stiff and fold into mixture. Line narrow oblong pan with wax paper. Cover with fruit mixture. Add layer of wafers, alternating with the fruit mixture, finishing with a layer of wafers. Chill in refrigerator 6 hours, or longer. To serve, turn out on small platter and carefully remove wax paper. Cut in slices, and serve plain or with whipped cream.

**Refrigerator Fruit Cake.**  
2½ cups graham cracker crumbs (rolled fine)

½ pound marshmallows (cut fine)  
1½ cups dates (cut fine)  
½ cup nut meats (broken)  
½ cup thin cream  
¼ cup Maraschino cherries (cut fine)

Combine ingredients in order listed. Mix well. Press firmly into a tube pan lined with heavy wax paper, buttered. Chill thoroughly in refrigerator over night, or longer. Slice and serve with whipped cream.

**Gingerbread Waffles.**  
(Serves 6)

1 cup molasses  
¼ cup butter  
1 teaspoon soda  
¼ cup sour milk  
1 egg (beaten)  
2 cups cake flour  
2 teasp. ginger  
½ teaspoon salt  
Heat molasses and butter to boiling point. Remove from fire and beat in the soda. Add sour milk, beaten egg, and the flour which has been sifted with the ginger and salt. Mix well. Bake in hot waffle iron. Serve with whipped cream and a dash of nutmeg.

**Refrigerator Fruit Pudding.**  
(Serves 8 to 10)

½ pound prunes  
1-inch stick cinnamon  
6 whole cloves  
½ cup seeded raisins  
¼ cup brown sugar  
1 pkg. lemon flavored gelatin  
¼ cup orange juice  
2 tablespoons lemon juice  
½ cup dried figs (cut fine)  
¼ cup citron (cut fine)  
¼ cup almonds (cut fine)

Soak prunes in sufficient water to cover, until soft. Add cinnamon and cloves and simmer until prunes are tender. Drain, and when cool, stone and chop prunes. Add 1 cup of the prune juice to raisins and brown sugar and heat to boiling point. Dis-

solve gelatin in hot mixture and blend in orange and lemon juices. Chill until almost thickened, then add chopped prunes and all remaining ingredients. Pour into one large mold or individual molds and chill overnight.

**Plum Pudding.**  
(Serves 6)

½ cup milk  
¾ cups soft bread crumbs  
¼ pound suet (ground)  
½ cup sugar  
2 eggs (separated)  
¾ cup seedless raisins  
¾ cup currants  
¼ pound figs (cut fine)  
½ cup citron (sliced thin)  
½ teaspoon nutmeg  
¼ teaspoon cinnamon  
¼ teaspoon cloves  
½ teaspoon mace  
½ teaspoon salt  
¼ cup apple cider

Scald milk and pour over bread crumbs. Cool. Cream ground suet in warm bowl. Add sugar, cream together thoroughly, and add well-beaten egg yolks. Combine these two mixtures. Add cut fruits together with spices and salt. Add cider. Lastly, fold in stiffly beaten egg whites. Pour into well-greased pudding mold. Cover tightly and steam for 6 hours. Serve with hard sauce.

**Left-Over Cake Dessert.**  
(Serves 8)

½ cup butter  
1½ cups sugar  
3 eggs  
½ cup maraschino cherries (cut fine)  
½ cup nut meats (broken)  
½ cup crushed (drained) pineapple  
1 tablespoon lemon juice

Left-over sponge or angel food cake (sliced)

Cream butter, add sugar slowly and beat well. Add beaten egg yolks and blend thoroughly; then add cherries, nut meats, crushed pineapple and lemon juice. Fold in stiffly beaten egg whites.

Line a shallow pan with thinly sliced left-over cake and top with a layer of the filling; repeat until all filling is used, ending with a layer of cake. Chill overnight. To serve, cut in slices and top with whipped cream.

**Graham Cracker Dessert.**  
(Serves 6)

3 tablespoons butter  
½ cup sugar  
2 eggs  
½ cup milk  
1½ cups graham cracker crumbs (rolled fine)

2 teaspoons baking powder  
¼ teaspoon salt  
1 teaspoon vanilla extract

Cream butter and add sugar gradually, while beating constantly. Separate eggs and add egg yolks which have been well-beaten. Combine graham cracker crumbs with the baking powder and salt. Add this mixture alternately with the milk to the butter and sugar mixture. Add vanilla extract. Beat egg whites and fold in carefully. Bake in two well-greased layer-cake pans in a moderately hot oven (375 degrees) for approximately 25 minutes. Serve as a dessert, putting the two layers together and topping with whipped cream.

**Better Baking.**

Quality in food is what Americans look for today. Not only must the ingredients be good, but they must be combined in the best way possible for perfect results. Formerly, just the thought of baking pies, cakes or breads would frighten the inexperienced cook. Today, the most timid beginner has little difficulty in following recipe directions.

Miss Howe's cookbook "Better Baking" contains such recipes, simple and easy to understand, and easy to follow; and the results will do the young cook proud.

You may secure your copy of her cookbook by writing to "Better Baking," in care of Eleanor Howe, 919 North Michigan Avenue, Chicago, Illinois, and enclosing 10 cents in coin.

MIXUP

One man asked another why he had such a "lost" look. His answer was as follows:

"I married a widow who had a grown-up step-daughter. My father came to see me, of course, and, being a widower, he fell in love with my step-daughter and married her. My father, therefore, became my son-in-law, and my step-daughter became my mother, because she had married my father.

"In due time my wife had a son, who was, of course, my father's brother-in-law and my uncle, for he was the brother of my step-daughter. My father's wife, who was my step-daughter, remember, also had a son, who was my brother and at the same time my grandchild, for he was the son of my daughter.

"Now my wife was my grandmother, because she was my mother's mother. I was, therefore, my wife's husband and grandchild, and, as the husband of a person's grandmother is his grandfather, I was my own grandfather."

## Auten's Bid for Lead Falls Short

By Dr. B. H. Starmann, Secretary of Bowling League.

The eleventh week of the current series saw the first serious threat to Landon's individual leadership. On Monday evening, the local banker of note, turned in a 588 series. This increased his average to 179.13 and left it squarely up to Landon on Thursday night. Guy needed at least 526 to remain in the lead.

Needless to say when Thursday night arrived, Auten was on hand to follow Landon's every move. Toward the end of the third game, it became quite apparent that the individual lead would surely change hands. In fact, our banker friend began congratulating himself and informing all of those present that he was the new leader of the league. This of course was rather surprising as we all know how extremely modest he is. But, alas, as so often happens when we "start" counting our chickens before they are hatched, it was not to be. Guy rallied and remained a mere seven one-hundredths of a pin ahead. But, we must give credit where credit is due and Auten did make a gallant try, and maybe next week he will succeed. Next time, he will probably wait until he is sure. At least we hope so.

The battle for the team leadership became more tense as Reid's five and Parsch's boys crossed alleys. Although they totaled more pins, Reid's five nevertheless dropped two games. So at this writing we find Reid's lead reduced to one game. With two weeks to go interest will be centered on the outcome of this torrid race.

No team was successful enough to win all three games this week. The week's "Five Hundred Club" is composed of fifteen members who are as follows: Auten, 588; Dr. Fritz, 569; Ludlow, 540; Pinney, 538; Deering, 535; Landon, 528; Reid, 526; R. McCullough, 520; Wooley, 520; Diaz, 517; Downing, 506; Starmann, 506; Mann, 505;

Gross, 503; and Wilson, 501.

## MAC & SCOTTY DRUG STORE

Concluded from first page.

shop stand was a house provision to prohibit organizational strikes or jurisdictional strikes in any defense plant for the duration of the present emergency.

“Full Sacrifice”

Today's choice of labor and management was expressed by President Roosevelt at the international labor office conference at the White House one month ago, when he said:

“The choice we have to make is this: Shall we make our full sacrifices now, produce to the limit, and deliver our products today and every day to the battle fronts of the entire world? Or shall we remain satisfied with our present rate of armament output, postponing the day of real sacrifice—as did the French—until it is too late?”

“The first is the choice of realism—realism in terms of three shifts a day. The fullest use of every vital machine every minute of every day and every night; realism in terms of staying on the job and getting things made, and entrusting industrial grievances to the established machinery of collective bargaining—the machinery set up by a free people.

“The second choice is the approach of the blind and the deluded who think that perhaps we could do business with Hitler. For them there is still plenty of time. . . . And their tombstones would bear the legend ‘Too late!’”

Living Costs

The labor situation is linked closely to present inflation of prices, as we reviewed recently in this column. Farmers do not want ceiling of farm prices unless Congress puts a limit on labor's wages. Labor sees an opportunity in the defense prosperity to get closed shop agreements with checkoff of union dues from employee's wages. Hence the weapon of calling strikes for increased wages or contracts is valued highly by labor leaders.

Congress doesn't want to offend either the farmer or the laborer, since 1942 is going to be an election year for many congressmen.

In the meanwhile, strikes continue and prices continue to go up in an inflationary spiral. The incentive to “buy now” is pushing a \$3,000,000,000 Christmas retail sales—an all time record for these United States!

Lowering Standards

Federal Price Administrator Leon Henderson warned last week that prices have already climbed 11 per cent, will continue to do so at the rate of 1 1/2 per cent each month, and are expected to soar to 20 per cent above pre-emergency level by next spring—unless something is done at once.

As Henderson phrases it, “It means a 20 per cent reduction in the standard of living of anyone who lives on a fixed income.” Here is another inkling of what the President meant when he referred to “full sacrifice” in our war upon Hitler. Everyone is going to “pay,” in more ways than taxes and bonds, unless income is increased along with prices. Recent price raises have already nullified wage gains of some labor groups.

As every business man knows, a rise in prices forces up costs, a rise in costs forces up living costs, higher living costs heighten wage demands, higher wages add to manufacturing costs leading in turn to higher prices—and so, on and on.

As compiled by Business Week, the increase of prices and costs during the past nine months have been as follows: Wholesale prices, 14.1%; department store prices, 13.4; cost of living, 9.6; hourly wage rates, 10.5; and labor cost per unit of output, 7.7. It is proof of one thing: Inflation is here.

Politics

If a democracy is to function, it must have elections. And 1942 brings another popular poll.

In Michigan the interest is going to center on candidates for governor and United States senator. Governor Murray D. Van Wagener and Prentiss Brown will be the Democrats' choice. Harry F. Kelly is being pushed far into the lead as the Republican's candidate for governor, although Kelly has not committed himself publicly and is heading a movement to organize the party on a state-wide basis.

Fear of offending farm or labor votes in any strike or price legislation is an obvious factor in the present hesitation at Washington. The Smith strike bill drew Michigan support along party lines. Twelve Republicans voted for it, while five Democrats opposed it. And so it goes.

“Too late!” for defense production? “Too late!” for price control? Time will provide the answer.

Advertise it in the Chronicle.

OPPORTUNITY

Servant (who responds to a ring)—Excuse me, please, but we are in great trouble here today. The gentleman of the house has been blown up in an explosion.

Peddler—Ha! Hurt much?

Servant—Blown to atoms. Only a grease spot left of him.

Peddler—Ah! Only a grease spot, you say? Well, here's a bottle of my champion eradicator, which will remove that grease spot in two minutes.

PARTED

“You say that you and your husband have separated?”

“Yes, he spends his vacation in the country and I go to the seashore.”

Accomplished

Two elderly men at a club were discussing the table manners of a new member.

“Well, what do you think of him?” asked one.

“Very remarkable,” replied the other, thoughtfully. “I've heard soup gargled and syphoned, but, upon my word, that's the first time I've ever known it to be yodeled.”

Equal to It

A farmer's son, just home from school, seemed to take pride in using college slang, and at the breakfast table called out: “Mother, chase the cow down this way!”

Mother was equal to the occasion, and remarked to husband: “Give the poor calf some milk. Don't you hear him bawling for it?”

Next!

And when Delilah cut Samson's hair, he became mild as a lamb. Can you understand it?” asked the Sunday school teacher.

“Well,” said little Tommy reflectively, “it does make you feel 'shamed when a woman cuts your hair.”

A Puzzle to Her

“There is one thing I can never understand,” said the patient-looking woman, “and that is why a man who has been sitting with the crowd all the afternoon at a baseball game will come home and say the noise of the children makes him nervous.”

All of Us

“Haven't you had your vacation yet?”

“No, I don't intend to take one this year.”

“How much are you behind in your accounts, old man? Maybe your friends can help you out.”

Practical

Idealist—I shall leave footprints on the sands of time.

Practical Person—What for? No body will want to go 'round looking for footprints. What we want to do for posterity is to help build some good roads.

Ouch!

A Washington paper reports that “The men's Bible class were hosts to the ladies of the Helping Hand society at a lawn party Saturday night. Sandwiches, pie, and pinch were served in abundance.”

Kitty Cat

“My worst sin,” she sighed, “is vanity. I spend hours every day admiring my beauty.”

“That's not vanity,” her friend replied. “That's imagination!”

LIGHT UP

“They say she came down here looking for a match.”

“Yes, she smokes like a volcano.”

Just for Size

“I wish I'd enough money to buy an elephant.”

“What do you want an elephant for?”

“I don't. I want the money.”

True Indeed

“Water attracts electricity.”

“Have you made tests to prove it?”

“Yes. Every time I'm in the bathtub the telephone rings.”

Mistake

Customer—Come, John, we are ready to go.

Milliner—Pardon, madam, here's the hat you bought—that's the box you're wearing.

Progress

“And has your baby learned to talk yet?”

“Oh, yes. We're teaching him to keep quiet now.”

As Usual

Father—Remember, my child, curiosity killed the cat.

Janey—How, daddy?

Hopeless

“Even a worm will turn.”

“What's the use? It's the same both ends.”

Cross Ventilation

Cross ventilation should be provided for any space inclosed by foundation walls, whether it be excavated or not. Where provision is not made for circulation of air within inclosed spaces next to the ground surface, dampness accumulates and timber decays rapidly. Openings for the admission of air help to prevent such decay and increase the life of the structure. The total area of such openings should not be less than 7 per cent of the ground area inclosed.

“Entangling Alliances”

“Entangling alliances” is a phrase credited to President Jefferson. In his first inaugural address he said: “Peace, commerce and honest friendship with all nations—entangling alliances with none.” George Washington said: “Tis our true policy to steer clear of permanent alliances with any portion of the foreign world.”

## Shortage of Doctors

The U. S. faces the possibility of a serious shortage of doctors. So said a man who should know—Thomas Parran, surgeon general of the U. S. public health service. At present, there are about 160,000 practicing physicians throughout the country. If the U. S. enters the war, the army will need at least 40,000. Only 5,000-odd doctors graduate from medical schools each June.

Alligator Tanks  
Are in High Favor

Carry Forty Men and Work  
On Land or Water.

DUNEDIN, FLA.—Alligator tanks—amphibious mechanical vehicles that are equally at home on land, water or swamp—are coming off the assembly line at a defense plant here.

In a recent public demonstration, two of the tanks carried a party of government officials and newsmen through a dense mangrove swamp, then splashed through Clearwater bay at nine miles an hour, and ended up with a brisk 25-miles-an-hour run across open country.

The tanks are being manufactured by the Food Machinery Corp., of Dumdin under a \$3,500,000 navy order. A group of marines is stationed in Dumdin to oversee the manufacture and test the tanks.

The "alligators," offspring of a mercy vehicle designed by Donald Roebeling of Clearwater for hurricane rescue work, are expected to be especially useful for landing troops on hostile shores or for evacuations. Each tank has room for 40 men in its box-like cockpit.

The original navy contract called for manufacture of 300 tanks. However, a second factory is nearing completion in Lakeland, Fla., and the navy has obtained an option calling for construction of 200 more tanks.

The vehicles are powered by 12-cylinder automobile engines, and weigh in the neighborhood of 8,000 pounds. The watertight hull, of rolled steel, is divided into compartments so designed that the tank will not sink even if the cargo space is flooded.

Traction is provided by extra-wide caterpillar cleats, which give extra pull in mud and on steep inclines.

The early models are not armed, but officials pointed out guns could be mounted on the superstructure.

Rajah of Sarawak Grants  
Constitutional Monarchy

LONDON.—The white rajah of Sarawak, who several times has led expeditions against head hunters in his little realm on the island of Borneo, has modified his absolute rule and given his subjects what he termed a constitutional monarchy.

The rajah, Sir Charles Vyner Brooke, issued his decree on the occasion of the centenary of the ascension of his great uncle, the first white rajah. King George VI cabled him congratulations and wished his subjects prosperity and happiness.

The rajah's daughter, named Valerie, but better known to American newspaper readers as "Baba," gained prominence chiefly through her marriage in the United States to a wrestler, Bob Gregory. They were divorced. Lady Brooke, the rancee, has been in America in recent years, assisting in film productions.

Until a century ago Sarawak was a part of the Sultanate of Brunei, but in 1841 James Brooke, an English officer who had helped suppress a rebellion the year before, was made rajah by way of reward.

Gambling Ship to Sail  
In Coast Lumber Trade

LOS ANGELES.—A steel-hulled ship that had been used off the Southern California coast as a gambling barge until police intervened will enter the lumber trade.

The former gambling ship Tango is being refitted as a windjammer in an attempt to prove that sail can still compete with steam in the world's water trade lanes.

She was originally a schooner when laid down in Glasgow, Scotland, in 1904. Her masts were taken out when she was converted for gambling several years ago. The 360-foot hull was found to be in nearly perfect condition. Her new masts will be of wood and steel, 160 feet tall. Officials of the Trans-Atlantic Steamship Company of New York, her new owners, believe she will be the largest six-masted schooner in the world. With a fore-and-aft rig, she will be competing with the few remaining windjammers, nearly all of which are square-rigged.

The schooner, renamed the Marie, will ply in the lumber trade between the West coast and Vladivostok, Russia, or South Africa.

Fewer Telephones, More  
Electricity on Farms

WASHINGTON.—Only one farmer out of four had a telephone in 1940, in contrast to 1930, when one farm out of three had telephone service, the census bureau reported.

"This decrease is usually attributed to the depression," the bureau added.

On the other hand, one farm home in every three was lighted by electricity last year, compared with less than one in seven in 1930.
