

Reid Group Won the Autumn Bowling Series

Captain Reid Is Heavy Contributor in Team's High Pin-fall Total.

By Dr. B. H. Starmann, Secretary of Bowling League.

The first series of the Cass City bowling season has drawn to a close. The allocation of victory goes to Frank Reid and his four team mates, Jankech, Warner, Deering and Miller. They won the title by finishing three full games ahead of Parsch's team who finished in second place. All things considered the victory was a true and thorough one. They had the most total pin-fall as well as the most games won. This was clear cut by more than a thousand pins. So we must give all the credit to them and the rest of us must wait until after the holidays for another chance.

The last week of the season found several marks chalked up that are certainly worthy of mention, all of which go to the before mentioned Reid contingent. This, however, is as it should be as they are the champions. The first was a new high three-game team total of 2,613 pins, surpassing by more than a hundred pins the previous high of the Dr. Starmann five. In establishing this total, they rolled two games of such size to place them second and third in the team single game department. Frank himself compiled a 630 series on games of 212, 233 and 185 to place him in a tie with Frank Haven in this department. This is what might be called a real evening's work for any one team. So to Reid and his team go most of the honors for the first round. But to them we must say there is another round and all the rest of us will be doing all in our power to keep it from happening again.

To Landon goes the honor of Turn to page two, please.

Dr. Libby Speaks Here on World War Problems

Still Believes that World Will Eventually Rid Itself of Wars.

"Just over 20 years ago, on my return from nearly two years' work in Europe with the Quakers, first building houses in the devastated areas of France and then in 1920 as the 'Friends' commissioner, handling personnel problems in their child feeding in Central and Eastern Europe, I dedicated the rest of my life to the prevention of another war," Dr. Frederick J. Libby of Washington, D. C., told an audience that filled the Presbyterian Church here at a union service Sunday evening. The National Council for the Prevention of War has grown out of that decision. Dr. Libby is the executive secretary of that organization. It has been incorporated for 100 years and it will continue to function under that name. Despite the darkness of the present days, Dr. Libby believes the future is not hopeless and that the world will some day get rid of war. Men of good-will can sit down and make better solutions of world problems than by the war method, he said.

He advocated a prevention of the spirit of intolerance and hate toward our racial and other minorities and towards other peoples from growing, either in ourselves or in our communities, and to work with other democratic nations for a just and lasting peace. President Hoover is quoted as having said: "You can blunder into a war, but you can't blunder into a just and enduring peace."

International chaos and anarchy must be replaced by a growing world order, the speaker said. Vital institutions must be established to meet the recognized needs of the world such as equitable access to

Village President's Proclamation

WHEREAS the people of the United States and their armed forces, following a direct and unprovoked attack by an alien power, have entered with determination upon a state of war; and

WHEREAS expansion of our Army, Navy, Marine Corps and Coast Guard, and of our war industries will proceed upon a scale unprecedented in our history; and

WHEREAS American citizens are suffering great injury and property loss from air attack and are in need of direct and immediate help; and

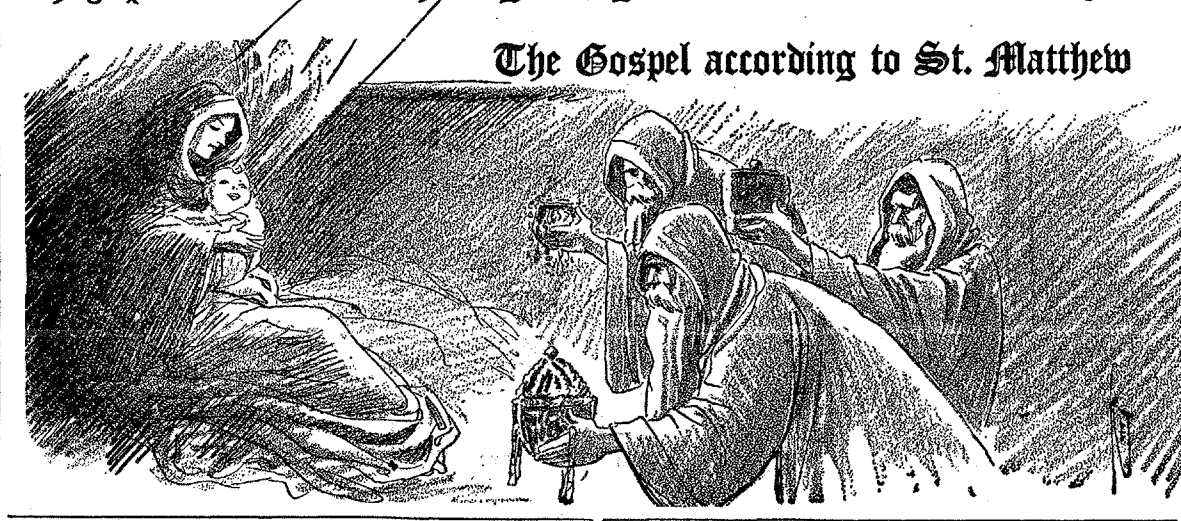

WHEREAS further preparations must be made to protect American cities and American populations from unnecessary suffering during air attack or disaster caused by sabotage; and

WHEREAS the American Red Cross is the only organization in our land equipped and ready; first, to provide welfare assistance to the men who are defending our country at home and overseas, through the services of Red Cross Field Directors, volunteers, and blood donors; second, to assist American evacuees from danger zones; third, to further equip our communities with trained Red Cross Motor Corps, Canteen Corps, Nurses Aide Corps, First Aid units, and other vital rescue corps instrumental in saving human life; fourth, to bolster the strength of the nation and the nation's war effort by such services as Accident Prevention, Disaster Relief, Home Nursing and Public Health Nursing; fifth, to train our young people in the paths of service and good citizenship through the medium of the Junior Red Cross; and

WHEREAS such a program as outlined above will necessitate the expenditure of large sums of money;

THEREFORE, I, E. B. Schwaderer, president of the Village of Cass City, call upon the members of my community to give through our local Red Cross Chapter their generous and unstinted support to the American Red Cross emergency war fund of \$50,000,000 as outlined in President Roosevelt's recent proclamation. This fund not only will aid the national Red Cross to expand its services, place them upon a war basis, and permit this great organization to play its traditional role in saving life, and in helping our country achieve its final victory, but also will aid our local chapter in meeting its war-time public service obligations; and I further proclaim that your contributions to this fund will represent your tangible share in our mighty battle for freedom, for justice, and for the very survival of our nation.

And lo, the star, which they saw in the east, went before them, till it came and stood over where the young child was. When they saw the star, they rejoiced with exceeding great joy. And when they were come into the house, they saw the young child with Mary, his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, frankincense and myrrh.

Presbyterians to Have Christmas Eve Service

For the third year, the Presbyterian Church will be the scene of a midnight service on Christmas Eve. At 11:00 p. m. the bells will ring and the choir will enter singing the old carols that all love. Mrs. Kenneth Curran will be guest violinist and Miss Eleanor McCallum will sing. Green boughs and trees will cast deep shadows in the mellow light of hundreds of candles in every part of the church. As Christmas Day comes in with the passing of the midnight hour, the communion will be celebrated. Members of all churches are welcome to partake, and everyone is invited and encouraged to come and enjoy the music, the Christmas beauty and the service.

Farm Machinery and Repairs in "Bottleneck"

Farmers Urged to Order Repair Parts Now by the Co. U. S. D. A. Council.

Members of the County U. S. D. A. Council, local machinery dealers, and Michigan State College farm engineers are advising farmers to inspect farm machinery and order repair parts now.

The amount of iron and steel available for farm use in 1942 is only about 40% of the amount used in 1941. The County U. S. D. A. Council points out:

1. Farm machines stored for winter should be inspected for worn or broken parts.
2. Parts should be ordered immediately and a list of these parts should be made and tied to the machine.
3. All new parts should be purchased immediately and installed during the winter months.
4. Protect machinery from the weather.
5. A farm shop aids in the care of machinery.
6. Oil and grease cost less than repairs.
7. Repairing and adjusting machinery pays dividends.

A few simple repairs and adjustments each winter will add years to the life of the machine and help prevent costly breakdowns next summer.

Benkelmans Move into New Residence

Mr. and Mrs. Joseph A. Benkelman have moved into their new residence on East Main Street which was built this autumn. This four-room house which provides five-room efficiency faces the south. Living room and kitchen with dining space occupy the front of the residence and two bedrooms are to the north. A short hall leads to the bath and all other rooms of the house and also provides entrance to the garage at the rear of the residence, to the basement and to a stairway leading to a large attic. The attic may be converted into two rooms should it become desirable.

Closets also form a prominent part of this convenient little home. Each bedroom contains a clothes closet and there is a coat closet near the front entrance. The bathroom has a linen closet with clothes chute and a storage closet is found in the hall.

Gum wood is used for the interior finish, doors are of fir and floors in oak. The residence is heated with a hot air furnace and has its private water system. An oil heated tank provides hot water.

All took part in the singing of Christmas and patriotic songs. Two short plays were given. In "Thanks for the Shirt," Maynard McConkey took the part of Arch, Clinton Law the part of Fred, Irene was taken by Mrs. McConkey and Lois by Mrs. Law. Will Start Sawmill Here Next Month

Ralph Partridge has laid the foundation for a 24x54 ft. building at the rear of his lots on East Church Street which will house sawmill machinery. In a frame building that size will be placed machinery for sawing logs, a tractor for power and an overhead swinging saw to cut waste timber into stove lengths.

The construction work on the mill building will start in early January and Mr. Partridge hopes to have it completed by the end of that month.

Large Audience Enjoyed Handel's Messiah Numbers

Union Choir of Thirty-five Present Concert Here on Sunday Evening.

When the "Hallelujah Chorus" from Handel's oratorio "Messiah" was sung as the concluding number of the sacred concert here Sunday evening, the audience rose to its feet, as the audience did when it was first presented in 1741 for the benefit of the Foundling Hospital in Dublin and as audiences for two centuries since then have done.

Recitatives, arias and choruses from the "Messiah" were presented by members of a combined choir in the Presbyterian Church here Sunday evening. About 35 local singers with Charles Keen as director and Mrs. Ethel McCoy as accompanist gave generously of their time in preparing for the evening's concert and its rendition was a pleasure to the large audience who gathered that evening. Solo parts were assigned to Arthur Holmberg, Mrs. Howard Wooley and Miss Eleanor McCallum.

The personnel included the following:

Sopranos—Carolyn Auten, Edith Carlin, Virginia Gift, Mary Holcomb, Eva Mae Joos, Helen Keen, Dorothy Knight, Eva Julia Mosure, Pauline McArthur, Betty McCallum, Eleanor McCallum, Esther McCullough, Kathryn Price, Marjorie Smith, Marjorie Wallingford.

This and That

THERE'S ONE advantage to audiences in having grade operettas in the school auditorium in December over such a production in a spring month on the school lawn and that's the absence of mosquitoes. An out-door production has an unusualness about the event, but the auditorium furnishes more comfortable seats for parents and friends and permits effective lighting effects. Indoors or out-of-doors, grade operettas are enjoyable affairs and reflect much credit on the talents of the young students and the training given them by their instructors. Friday night's operetta was no exception and it was enjoyed by a large audience.

POSTMASTER Arthur Little and postal clerks at the Cass City office were exceedingly busy early this week and it looked as though the Christmas mail would be the heaviest ever. Christmas greeting cards have not lost their popularity. An order for 30,000 one and one-half cent stamps was thought ample for this holiday season's needs here but Tuesday it was feared the supply would be exhausted.

SUNDAY SCHOOLS presented their Christmas programs this week and they attracted large audiences. Children participated in the exercises and pageants and their parents and friends found great pleasure in hearing and seeing the young folks in their various parts. Christmas programs are enjoyable affairs, and while they take much time and patience on the part of their sponsors, the holiday season would be incomplete without the various exercises presented in church and day schools.

Santa to Distribute 700 Sacks of Candy Here Christmas Eve

Because the Chronicle goes to press two days early this week, it is still timely to carry a notice regarding the annual Christmas visit of Santa Claus at the Standard Oil Co.'s station on Christmas Eve. According to Jack Spencer, Angus MacPhail and R. D. Keating, who have arranged the date with Santa, he will arrive right around 7:30 p. m. Santa Claus wants to meet 700 boys and girls on the visit. He has 700 sacks of candy and nuts to distribute.

holding the high individual average over this period. Your correspondent begins to wonder if the rest of us are ever going to be able to displace him. Guy was the only member of the league able to land in the charmed "180" circle. His final average was 180.28. So congratulations, Guy, even if we all shall be doing all in our power to displace you come the new year. It certainly would be unjust, however, to pass by without mention, the one man in the league who made it a real battle for Landon right down to the last game for the individual leadership. I refer to our league member, Meredith Auten, whom we find only a fraction of a pin behind Landon in average. He finished with an average of 179.57. This leaves him in a very excellent position to challenge Landon's lead after the holidays. So, go to it Meredith, and prove yourself the better man and we will be the first to congratulate you if you succeed.

During the last week three teams were successful to the extent of winning all three of their games. Reid (that name again, really it gets quite monotonous doesn't it?) won three from Ludlow, Landon three from Tyo and Schwegler the same from Retherford.

With all the high scoring during the final week the league average was not good. There are only eight members of the "500 Club" this week. They are: Reid, 630; Schwegler, 607; Pinney, 580; Auten, 578; Warner, 578; Landon, 574; Knapp, 520; C. Wallace, 504.

The final standings of the league together with the ten high individual averages are as follows:

FORT'S CONFECTIONERY

The Cass City State Bank

M. B. AUTEN, President
C. M. WALLACE, Cashier

Cass City, Michigan
December 23, 1941

Dear Santa Claus:

Hasn't this world got itself into a deuce of a fix? But tell us, when you travel around this bloody sphere, is there any place, any spot on the entire globe, where you would rather settle down than right here in this Cass City community? Is there any group of people that gets along more congenially or that pulls together more harmoniously? Is there any locality where there is less crime or less real misery? Is there any place where there is a more wholesome and neighborly feeling; is there any spot where the people get behind any worth-while project more whole-heartedly?

Of course, we'll admit that we lost one game out of eight this year in football; we'll admit that we only got three State Champions out of a possible four in the 4-H Club; we'll admit that our bowling reporter is oftentimes obnoxious; we'll admit that we really got it poured on to us during bean harvest; but really Santa, don't you think we're a pretty good sort, have a pretty good time and live in a pretty good locality?

You've been good to us in the past. We are deeply grateful, but this year especially with all the trouble brewing, we ask that you take a special interest in every man, woman and child around here—business people, farmers, laborers, housewives, students and children and give them all a Very Merry Christmas.

Sincerely yours,
IRENE, CLARK, BUZZ

What You Can Do Now for Civilian Council of Defense

Officers of the Tuscola County Civilian Council of Defense are suggesting the following things those who volunteer their services can do at the present time:

1. Sign up for Red Cross first aid courses. Successful completion of such courses will be required of almost every active civilian defense worker, and valuable time will be saved if this instruction is accepted immediately.
2. Sign up for services as an auxiliary fireman.
3. Sign up for services as an auxiliary policeman.
4. Sign up for one of the many Red Cross courses available now; the course will vary from county to county and city to city; get details from Red Cross executives. Among the opportunities offered by the Red Cross are those in home nursing; nutrition; nurse's aid work (serve as assistants to registered nurses); motor corps; canteen corps; staff assistance corps; braille corps; disaster relief; and in blood plasma donations.
5. Community service opportunities exist by the score; check to see whether your county and local agencies cannot use workers as Camp Fire Girl leaders, Friendly visitors, Scout leaders, hospital and clinic helpers, naturalization instructors, public speakers, recreation leaders, life saving, etc.
6. Work on fire prevention; eventually every home, shop and public building will have to be cleaned up to reduce fire hazards to a minimum.
7. Stimulate the waste paper and scrap metal programs. Both are highly important if we are to meet the munitions needs of our own military forces and those of our allies promptly and efficiently.
8. Help the county defense councils with registration work, by typing letters, by making posters, etc.
9. Buy Defense Bonds and Stamps.

No Place for Cattle

Cattle cannot live in the steamy hot lowlands of New Guinea, so a small herd of dairy cattle has been transported into the mountains by airplane and is doing well.

Refrigeration Ancient

As far back as 1837, a railroad tried car-cooling for perishables by insulating some box cars and placing ice in doorways after cars were loaded.

Refugees See Parents Starve

Children Land in New York, Faces Haunted by Sight At French Camp.

NEW YORK.—Fifty-six refugee children, some of them aged beyond their years by the experience of seeing their starving parents begging for bread through the barbed wires of a French concentration camp, were among 301 passengers who arrived recently from Portugal aboard the Portuguese liner Serpa Pinta. Fifty of the passengers, 14 of them children, were found to be suffering from fever and were sent to Ellis Island.

The worn-looking children, already saddened to hear that some of their shipboard playmates were ill, broke down and wept when telling how they said good-by to their parents at Camp de Gurs in France. Some of the children boarded the refugee train for Lisbon at the concentration camp. Others, separated from their parents for months, saw their fathers and mothers at the camp when the train stopped.

"It's horrible that the children are sick," said a little brown-eyed blonde girl, "but it's not as bad as throwing bread to mommy."

Some of the children said they had seen their parents die of starvation and punishment they had suffered. Others were appalled at the changes in their parents after months in the concentration camp.

Thin and Frightful.

"Daddy looked frightful and old," another little girl said. "He used to be big and fat. He looked as thin as a snake."

The children represented 15 different countries, but most of them came from Germany, Austria and Czechoslovakia. They were brought to the United States by the United States Committee for the Care of European Children and were met at the ship by representatives of the Hebrew Sheltering and Immigrant Aid society and the Joint Distribution committee.

Despite their sorrow the children displayed an alert interest in the medical aspects of the fever from which their playmates were suffering. One wanted to know the incubation period for typhoid and ticked off the 21 days on his fingers to figure how long the ill children would be detained at Ellis Island.

"Have they black plague, typhus or just typhoid?" a Vienna child whispered to a reporter.

Berlin Boy Breaks Leg.

One of the fever victims was 11-year-old Claus Peter Gossels, a native of Berlin. An active youngster, he entertained himself the first few days at sea by scrambling about the ship's rigging. Then, one day he fell, and suffered a double fracture of the left leg. The broken leg was set at a hospital in Bermuda.

The youngest passenger was Robert Matzl, who was born five weeks ago in Lisbon. His mother, Mrs. Rudolph Matzl, was with him. The ship carried one stowaway, Hermann Ruszniewski, 29, a Polish Jew, who had served with the French army. He got aboard by climbing the ship's ratline at Casablanca after paying an Arab 1,000 francs for a pier pass. Taken to Ellis Island, he is liable to deportation.

More Jobs in Prospect

For College Students

AUSTIN, TEXAS.—Young Americans asking to work their way through college will have an easier time this fall than ever before if expectations of Dean Arno Nowotny, head of the University of Texas student employment bureau, prove correct.

Dean Nowotny, through whom some 2,000 young men and women obtain jobs each year, said defense work and the draft have taken many workers.

"Consequently, we expect the largest number of part-time job openings for students in history," he added.

Total income of working University of Texas students last year was \$57,000. More than 80 per cent of the students work.

Dog Tardy at School

Only Once in Two Years

DENVER.—One tardy mark given him when he stopped to chase a cat is the only thing that prevented Pal a Belgian shepherd dog, from having a perfect two-year school attendance record.

Donald Cooper's three-year-old dog was cited before the student body at the close of the term for his record.

In the two years Pal didn't miss going to school—even when his master was absent.

Plan Celebration Of Many Holidays During New Year

The new year of 1942 will roll in Wednesday night on the stroke of 12 with the usual number of holidays and three "jinx" days. Included in the calendar are three "Friday the 13ths," in February, March and November.

President Roosevelt will celebrate his birthday, Friday, January 30. The following month will call for the observance of the birthdays of two previous Presidents. Lincoln's birthday anniversary will fall on Thursday, February 12, and Washington's on Sunday, February 22. St. Valentine's day will be Saturday, February 14.

Ash Wednesday, February 18, will mark the beginning of Lent. St. Patrick's day, March 17, comes on Tuesday. Saturday, March 21, will bring a welcome visitor—spring.

April Fool's day, the first of April, will fall on Wednesday. Army day, April 6, commemorating the day the United States entered the World war, will fall on Monday. Pan American day will be observed Tuesday, April 14. Palm Sunday falls on March 29, to be followed on April 3 by Good Friday and on April 5 by Easter Sunday.

Child Health day falls on Friday, May 1. May 10, the second Sunday of the month, marks the observance of Mother's day. Memorial day, May 30—the occasion of the Indianapolis automobile race—will fall on Saturday.

Flag day comes on Sunday, June 14. The first day of summer and the longest day of the year will be Monday, June 22. With a bang the entire nation will greet the first Saturday in July—the glorious Fourth.

Labor day comes on Monday, September 7. Autumn will mark the end of summer on Wednesday, September 23. Halloween—October 31—will be on Saturday, and Armistice day, November 11, on Wednesday. Thanksgiving will be November 19. This will be the last year it is observed on the third Thursday of November.

Then comes Christmas on Friday to be followed a week later by 1943.

New Year's Offers Chance to Secure Potent Good Luck

New Year's day affords everyone the opportunity to bring himself good luck throughout the year. At least that is supposed to be true according to several old superstitions concerning the beginning of a new year.

The "First Foot"—the first person to enter the house on New Year's morning—plays a significant role in the family's future fortunes. He must be a dark man to bring good luck, but if he also brings a gift and "carries in" more than he "takes out," then the house is assured peace and plenty for a whole year. The most auspicious gifts as luck-bringers are a lump of coal and a red herring.

Unmarried persons are advised to look out of the window on New Year's morning. If you see a man, it is a sign you will be wed before the year is out. Should you see a horse, you can have a wish, and it will be realized within the year. To see a dog is lucky, but a cat foretells worry.

A little care will make it possible to bring oneself good luck for the entire year. Wear something new, if possible, on New Year's day, but the garment must be put on when you first dress in the morning. Receipt of a gift is certain to carry luck. Wish everyone you meet "A Happy New Year," but remember when the greeting is given to cross your fingers for luck. Be sure you say "rabbits" as the first word when you wake before anyone has had a chance to speak to you.

Love's progress will be aided on New Year's day if you are careful to put on the left stocking before the right. The potency of this charm is supposed to be increased if you do all things as far as possible left-handedly during the day.

Present Day Calendar Result of Many Beliefs

The calendar has been regulated by mathematics and astronomy. It has been compounded of superstitions and religious rites. Primitive man noted the new moon, watched it wax and wane. He knew the moods of the seasons, and after awhile he sensed they came at regular intervals and that their coming would be sure. The ancient Egyptians calculated time from the rising of the Nile, which occurs in mid-June. The North American Indians computed the length of a journey in so many "sleeps." The Gregorian calendar, which is built around sun, earth, moon and stars, is as accurate as scientific knowledge can make it. It is the calendar most of the world follows. Some conservatives in eastern churches of Orthodox faith cling to the Julian calendar, which is 13 days later.

This year is 2602 in Japan, 5702 to the Jews. In mid-January the Roman year 2695 will begin. In February, the Mohammedan year 1361.

But here in America it is 1942. Let's make the most of every shining hour!

Time marches on!

"Every member of a Farmers' Club, a Grange, or a Farm Bureau is being asked to visit personally several farmers in his neighborhood and to urge them to collect and sell their scrap iron now."

"Every rural and town school is also being asked to take the message, 'Sell your scrap iron now' into the homes of Tuscola County. Every 4-H Club member and leader will be on the job to urge collection and sale of scrap iron now."

Mr. Treiber and the County U. S. D. A. Defense Board asks the cooperation of every citizen.

**What puts the SPARKLE in Christmas?**

EVER stop to think what Christmas
would be like without the joyous color and
sparkle of Christmas lights? Imagine a
Christmas tree without lights! Imagine a
Christmas party in the dark!

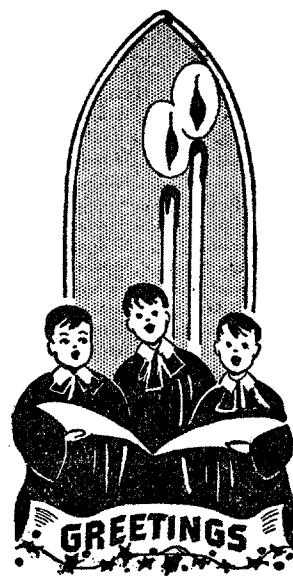

Down through the ages LIGHT has come
to be a symbol of all the finer things that
Christmas stands for. In our everyday life
it is accepted more and more as a great aid
to easier, gayer, safer living.

But at this season of the year we suggest
you think of LIGHT as the thing that adds
a sparkling spirit to everyone's celebration
of Christmas. And use it as such!

3 WAYS TO A BRIGHTER CHRISTMAS IN YOUR HOME

- 1 Decorate with light inside your home—particularly a lighted tree.
- 2 A lighted wreath or row of candles in every window.
- 3 Decorate with light outside your home—in trees and shrubs.

HOLIDAY HOSTESS HINTS

A large, festive cake will confer upon any Christmas banquet a Yuletide air that is quite distinctive. Individual cakes help, too.

When carving turkey, first cut through the leg, crack the joint, and then disjoin the leg from the turkey. Cut the breast in medium thick slices, not in chunks. Use a sharp knife.

Turnips make an excellent garnish. Cook until tender, cool and scoop out the insides. Spread with butter and fill with cubed, seasoned beef. Reheat and surround the fowl platter.

If you spill pumpkin filling over the edge of the crust it is likely to burn during baking. Avoid this by pouring only part of the filling into the crust, put it in the oven, then pour in the balance of the filling.

New Ideas Foster Spirit of Christmas

At Christmas time ideas are more important than ever—amusing ideas to keep minds from too stern realities; clever ideas to make money-saving a pleasure; ideas to stress the old, old Christmas spirit of joy and reverence and gay family gatherings.

Get the family into the spirit of an old-fashioned Christmas with all helping — "deck the hall with boughs of holly," bring in the yule log. If you have no fireplace, then let the yule log become a centerpiece decoration for the table.

Use evergreens, red berries, pine cones, acorns for that home-made Christmasy look. Grandmother's festoon of cedar boughs tied with a big red bow still holds more genuine Christmas spirit than the most expensive artificial decorations.

But if your family demands a change from the too-familiar, suggest they invent decorations. Maybe they want a red, white and blue Christmas. Red barn paint and bluing are still cheap.

For packages, for mantelpieces—think how many everyday things are already red, white or blue, or how easily things may be enameled or dyed. Paint or dip pine cones, sticks and dark things in enamel or show card colors. Dye pipe-cleaners, little fluffy feathers, dried grasses.

A package with red, white and blue feathers tied in with the bow, a Christmas tree decorated solely with balls of cotton, bright red, white and blue—they can't be beat. Strew white and blue stars around; decorate with candy canes crossed saber-wise and tied with a big blue bow. Make huge imitation candles of mailing tube or stove pipe or logs, covered as you please. They are fine for outside the door or by the fireplace.

Whatever you do, hide your solemnity with old-fashioned simple gaiety . . . make it a seriously important family Christmas!
