II. Right-Spirited People (Amos 5:21-24).

God has no pleasure in the religious observances and the pious words of a people who profess to worship, but who come with unrepentant hearts and unclean hands. Can God bless the man (or bis money) who profits either directly or indirectly from the sale of intoxicants? Amos has the answer. Let us heed his plea that righteous ness should run through our national, as well as our personal lives.

"as a mighty stream." III. Right - Living Christians 14:19-21: II Cor. 6:17: I Pet (Rom. We have already suggested that there are 65,000,000 church members in America. If they were all rightliving Christians there can be little question that they would long since have eliminated the liquor business, for it is certainly most unchristian. Apparently they are either not real Christians, or they are asleep to their responsibility. Our Scriptures in this section tell us that in a true Christian life there is 1. No offense (Rom. 14:19-21) The question here is that of eating meat offered to idols, which does not concern us; but the great Christian principle here stated is of the highest importance and bears directly on our daily life. None of us lives to himself (Rom. 14:7). Everything we do counts either for or against Christ. Such an ordinary (we regret) thing as staying away from church service speaks to the world and especially to our neighbors of our loss of interest and respect for the worship of God. Apply that principle to the use of any alcoholic beverage, and every Christian must be a total abstainer. 2. No Compromise (II. Cor. 6:17), We have come to the unscriptural and deeply dangerous viewpoint that if a Christian wants to compromise a bit with the world, the flesh and the devil, that's his "business." God does not think so. He says: "Come out from among them, and be ye separate." The weakness of the church on this matter of liquor is that too many of the 65,000,000 are guilty of the sin (and that's what it is!) of compromise, 3. No Worldliness (I Pet, 4:1-5). Here again the assumption of many is that there are two groups in the church-worldly Christians and spiritually minded ones, and that each is as good as the other. Both classes are there, no doubt about that, but God never has and never will countenance worldliness on the part of His people. Essentially, there are just two opposing principles in this world--selfwill and God's will. We are either controlled by the flesh or by the Spirit of God. Peter makes it clear that the one who claims to belong to Christ should no longer be controlled by self-will, but by God's will. Are we ready, fellow Chris tians, to yield to Him? # TIRES:

The four tires they drove on, plus a spare for emergencies were all that American motorists could legally possess, as the U.S. government began acquiring excess civilian tires. The government was paying 11696; Larkin, 11513; Ludlow, 11ceiling prices of from \$1.50 to \$11.15 for used tires, depending on the amount of tread.

Although the tire sale was voluntary, officials of the Office of Price Administration warned that car owners with more than five tires would be denied gasoline rations when the nation-wide registration took place November 9. #### WILLKIE: Persistent Advocate

Back from a 31,000-mile aerial tour of 14 countries in the war zone, including embattled Russia, the Middle East, India and China, Wendell L. Willkie reiterated a demand for a second front in Europe. He had made this demand frequently during his tour.

Reporting personally to President Roosevelt the results of his observations and of conferences with Joseph Stalin, Chiang Kai-shek and other Allied leaders, Willkie emphasized his conviction that the United Nations inevitably will defeat the Axis and that "Germany will never erush Russia."

In an interview later the 1940 Republican presidential candidate defended his right as a non-military expert to advance proposals which he believes will help shorten the war, reduce its cost in human life and help shape a better post-war world.

#### **EMPLOYMENT:** To Reach 62,500,000

Eventual employment of 62,500,000 Americans in all lines of industry. commerce and agriculture by December, 1943, was predicted by the National Industrial Conference board.

The board reported that current employment figures were 57,700,000 with the total moving steadily upward,

Rise in employment in the past 12 months has been 4,000,000, while 10.000,000 have been added to payrolls since the defense program was undertaken in 1940.

In unequivocal words the Presi dent recommended that 18 and 19year-old youths be drafted for military service. He warned, too, that compulsory allocation of manpower to war industries and agriculture

might become necessary. Recommending a program to ease the manpower situation, Mr. Roosevelt urged: a virtual freeze of workers to their jobs; a system to "stop employers from stealing labor from one another"; a system to use "older men, handicapped people, more

Stradivarins Antonio Stradivarius, famous violin maker of Cremona, Italy, lived from 1644 until 1737. A pupil of Nicolas Amati, he began in 1666 to use his own label on the violins he made and some years later commenced making his own style of instrument. His violins are said to have reached the height of perfection in tone and form from 1700 to 1715. His method created a standard for later times but the secret of his varnish, which shaded from red to orange, and was soft in texture, has never been discovered. It has been estimated that he made 1.116 violins of which over 500 are known to exist today.

Sugar

A survey made by a Lational farm magazine revealed that 500 typical farm women used an average of 125 pounds of sugar each for canning and preserving last year.
