Lesson for November 1

Home and the life which centers in it has lost much of its meaning and value in recent decades. It is appropriate and timely to study for four weeks in our Sunday schools the foundation principles of the home and to learn how we may hinder or help it in its influence. Teachers will wish to make much

of this vital series. We begin right when we inquire what the Bible teaches about marriage, and we find the instruction plentiful and to the point. Concern-

ing marriage we learn of I. Its Origin-Ordained by God (Gen. 2:18-24).

Nations and states have marriage laws, and certain civil requirements must be met. But true marriage Parsch from the Christian viewpoint is far Larkin more than a civil contract. It is an Pinney ordinance which God Himself ordained from the beginning for the

welfare of man. As Adam gave names to the animals (which, incidentally, tells of his intelligence and ability) they 13634; Wallace, 13627; Parsch passed before him. It became evident to him that there was no true fellowship between man and beast. that there must be a "help meet" for man, one of his own kind, with

his capacities of personal being. God quickly and adequately meets every real need of man, so He created out of Adam's own flesh one who was to be his true companion. "If man is the head, she is the crown.' said Matthew Henry. "The man was dust refined, but the woman was dust doubly refined, one move further from the earth. She was not taken out of his head to top him, not out of his feet to be trampled upon by him, but out of his side to be equal with him, under his arm to be protected, and near his heart to

be beloved." So God ordaineo marriage, but down through the ages man has seen fit to tamper with God's holy arrangements, adjusting them to suit himself, so we need to be reminded of the truth.

YOUR REFRIGERATOR. Defrost regulariy-but don't chip off the frost with a knife or sharp tool! Whenever you defrost, clean out the inside of the refrigerator with lukewarm soapy water. Avoid over-crowding: Never store foods that do not require refrigeration. Locate your refrigerator away from heat sources. Do not put hot foods in refrigerator to cool. Unless your refrigerator has a "sealedin-oil" motor, have it oiled and inspected regularly.

YOUR ELECTRIC RANGE. Keep the porcelain exterior clean. Do not use a stiff brush or sharp instrument to remove spilled food from heating elements. (Food should be burned off.) Do not let spilled food dry or harden on the range. Ventilate oven after each baking or roasting operation - leave door open. When cool, wipe inside of oven with a damp cloth.

YOUR ELECTRIC WASHER. Wringer rolls are rubber-and precious. When through using wringer, release pressure on rolls so that they can stretch and breathe. Don't try to force belt buckles, metal buttons, etc., through rolls. When finished washing, drain and rinse the tub, and wipe dry with soft cloth. Drain the hose. Rinse and dry agitator or suction cups. Do not overload washer --- this puts strain on motor.

YOUR VACUUM CLEANER. Before cleaning rugs, pick up such metallic things as hairpins, tacks, nails, etc., by hand. These can cause bag punctures, belt-cuts, or even get tangled up in the fan. Be sure nozzle and brush are adjusted properly. (Improper adjustment may break rubber belt.) Empty dust bag frequently. Once a month, turn it inside out and brush thoroughly. Never, wash bag. Keep brushes free from hair and threads.

Moses permitted divorce heart (Mark 10:4, 5). But God did not intend it from the beginning. The Jewish rabbis had so stretched the interpretation of that act of Moses that a wife could be divorced for almost any reason. The same was true among heathen nations. Our Lord makes it very clear that

man has no authority to determine such matters at all, that the union of life in true marriage is by the act of God, and that no man has power to sunder such a relationship. The whole trend of thought on marriage has been away from its

sacredness as a divine institution. and we need to return to a proper appreciation of it as such. All too often, marriages are mere civil agreements, hastily made before a justice of peace. We need to encourage our young people to recognize

III. Its Dignity-Sanctioned by Christ (John 2:1-5).

The wedding ceremony tells us that marriage "is an honorable estate, instituted by God in the time of man's innocency, confirmed by the teaching and hallowed by the presence of our blessed Lord, and likened by St. Paul to the holy union that exists between Christ and the Church; and therefore is not by any to be entered into unadvisedly, but reverently, discreetly and in the fear of God."

At the very beginning of His public ministry Jesus performed His first miracle as His share of a wedding feast. It is true that He does share every occasion of joy and sorrow of His people, but it seems to be significant that this first occasion for His miraculous power was a wedding.

He was there to rejoice with and to bless those who had exchanged their vows in marriage. Should He not be the unseen guest at every wedding? Whether in the home or in the church; whether the occasion be a simple or an elaborate one; whether a host of friends attend or only the witnesses-always and everywhere Jesus Christ should be recognized as the One who stands by to bless, and to unite the two lives for His own glory. This means that the ceremony

should be a Christian one, with prayer a vital part of it, and the will of God paramount. Then indeed, God may and will join together that which no man can put asunder.

Home Rule and Clean Government for Wayne County

- Proposal No. 2 ... the Wayne County Home Rule Amendment on the Nov. 3 ballot . . . applies to Wayne County only. It does not affect the government of any other county.
- **Proposal No. 2** is not connected in any way with legislative reapportionment.
- Proposal No. 2 has nothing to do with the calling of a Constitutional convention or any other proposal.
- Proposal No. 2 is purely an enabling act permitting the people of Wayne County, with your help, to clean up their government.

Will you give us a lift, neighbor?

QUESTION AND AN ANSWER

Q: If Proposal No. 2 applies to Wayne County alone, why is it necessary for citizens of other counties to vote upon it?

A: Because it is a proposed amendment to the State Constitution, which calls for a statewide vote, even though the proposal affects Wayne County alone.

Gold Standard

A country goes off gold because it lacks sufficient gold to redeem its currency. In other cases, as in the United States, gold is abandoned as a matter of political policy. Switzerland is about to try an entirely new method. Shortly it will conduct a plebiscite allowing the people to decide whether they want the gold standard.

With a picturesque South Sea island landscape as a backdrop, U. S marines are shown taking bombs from a "bomb garden" concealed in the palm trees of Guadalcanal Island. As operational flights against Jap ships, land forces and air bases in the Solomon islands have been stepped up, U. S. air forces have been increasingly employed.

FARM IMPLEMENTS: 20 Per Cent Slash

Farmers would not have new tractors or new plows to hitch them to in 1943, but they would have plenty of repair parts to keep their present machinery operating.

That was clear when the War Production board issued its drastic or der slashing the production of 1943 farm equipment to 20 per cent of the 1940 total, but permitting repair parts production to be 130 per cent of 1940 operations.

Forecasting industrial readjustments in other fields, the WPB order concentrated the new farm equipment output in the hands of small manufacturers in labor-shortage areas.

Repair parts manufacture was left to the big producers. This decision represented a victory for these companies which had held out for retention in their own plants of all the repair parts production, thus preserving the identity of their specialized, trade-name implements. It likewise represented a concession to the department of agriculture which

The second was the voice of Gen. Charles De Gaulle, fighting French leader, who declared that "the hour for revolt has come." Previously De Gaulle had urged French patriots to refrain from overt acts against German rule and to bide their time until the Allies invade the Third voice was that of American Secretary of State Cordell Hull, who said it was "gratifying to see signs cropping out increasingly through France that the people are awakening to the conditions which Laval is attempting to impose on them." RUSSIAN FRONT: Ally Winter Comes

Winter was one ally that could give the hard-pressed Russians im-mediate help. For days past the engagements surging around Stalingrad in the northeast and Mozdok further south in the Caucasus had been a race against time. Thus when snow swept across the Don-Volga steppes the Russians knew their reinforcements had arrived.

Significant was the German high command's communique that the Nazi drive in the Caucasus had been impaired by continued bad weather and that the Russians had undertaken strong, tank-led diversion at tacks against the north flank of the Nazi thrust into Stalingrad.

The strength of Marshal Timoshenko's relief assault from the north was indicated in the communique which said the Russian onslaughts had been undertaken with "fresh, strong infantry and tank forces.

SUBMARINE MENACE: 'Will Get Worse'

Rear Admiral Emory S. Land, chairman of the U.S. Maritime commission, warned the nation that "the submarine menace is going to be progressively worse this winter." Speaking before the Investment Bankers association, he said the menace would grow, because of winter's bad weather and longer nights, giving U-boats better opportunity for concealment.

war work to meet the employmentarmed service demand of 62,500,000 persons is "inevitable," Paul V. Mc-Nutt, war manpower director, declared in testifying before the senate military affairs committee.

McNutt listed three essentials which forthcoming manpower legislations must embrace: (1) Employers in any area must be required to hire all workers through a central bureau; (2) Methods of labor utilization must be controlled to prevent employers from 'hoarding workers": (3) Individuals must remain on the job, or transfer to one more im portant to the war effort.

FEDERAL TAXES: 43,000,000 Will Pay

More than 43,000,000 Americans became subject to direct federal taxation when President Roosevelt signed the new war-time tax bill which congress has spent 10 months in compiling.

Designed to produce revenues of close to 25 billion dollars yearly, the new law extended the tax load to all Americans making more than \$624 a year. Through the President's prompt action in signing the bill, 65 million dollars worth of higher excise taxes from liquor, travel, telephone service, cigarettes, telegrams and other items went into ef-

that "the stage is set for the last, the offensive phase of the war for the United Nations." The German army is "bleeding to death in Soviet Russia," he de-

clared. "Russia," he added, "is bearing more than her share of the common burden. Whatever help in whatever form we can give to Russia to sustain her in her colossal effort should be given in fullest measure and with utmost speed." Once the time has come to take

the offensive and strike while the iron is hot, "it would be folly to delay and overprepare and perhaps miss our opportunity," he concluded. Smuts predicted the war might continue two more years.

EVICTIONS:

Curbed by OPA

Cracking down on landlords attempting to evade rent control, Price Administrator Leon Henderson ordered that no tenant in a rent control area could be evicted except under special circumstances, without three months' notice.

Mr. Henderson explained that some landlords attempting to evade rent control had forced tenants to buy the house or had sold it to someone else willing to pay monthly installments in excess of the legal rent.

"Some of the sales," he said, "have been nothing short of outrageous. Drastic action was necessary in order to maintain the morale of workers in war industry and protect the families of members of the armed forces who pay rent from the threat of overnight eviction for the scent of skunk and of putrefaction | war's duration."
