

Kelly, Ferguson Elected in GOP Landslide Tuesday

Thumb Counties Cast Heavy Vote for the Republican Candidates.

Harry F. Kelly, present secretary of state, defeated Governor Murray D. VanWagoner for the gubernatorial position in Michigan's election and Judge Homer Ferguson, Republican, won the United States senatorship over Prentiss M. Brown, incumbent, by close to 30,000 votes. Kelly's plurality was near 75,000.

The Republican sweep in the state was complete so far as the Lansing government is concerned, including all state offices and a strengthened control of the legislature. Republicans elected 73 of 100 representatives and 25 of 32 senators.

In the nation, the Republicans scored heavily in the election. Democrats won bare control of the house of representatives. Administration leaders are staggered by the immense Republican gains.

Tuscola County.

In Tuscola County, the Republican candidates were swept into office by votes of better than 4 to 1 over their Democratic opponents. County officers elected are: Prosecuting attorney, Timothy C. Quinn; sheriff, Homer Hillaker; clerk, Fred Mathews; treasurer, Arthur M. Willis; register of deeds, Truman Ackerman; drain commissioner, James Osburn; coroners, H. Theron Donahue and Lee Huston; road commissioner, Wm. Proft; surveyor, Roscoe J. Black. James Kirk for state representative and Republican candidates for state offices were given approximately four times as many votes as the Democratic opponents by Tuscola voters.

September primary in a close recount fight, defeated his party opponent, John A. Graham, incumbent, who ran on slips at Tuesday's election. The vote stood at 4,779 for McBride, 3,643 for Graham, and 1,255 for Cash B. Cook (D). All other county candidates. Turn to page 5, please.

One by One the War Calls Saigeon Boys

The Memphis (Tenn.) Commercial Appeal carried a story of four sons of Mr. and Mrs. Walter Saigeon of 2,026 Waverly Place, Memphis, which will make interesting reading to many Cass City folks who remember the parents. Mrs. Saigeon is the former Lucretia Campbell, daughter of the late Mr. and Mrs. Wm. J. Campbell, for many years residents of Cass City. Here's the story from the Commercial Appeal:

"This is the story of the Saigeon brothers.

"There were four . . . until Walter donned a uniform, changed his address to the Midland Flying School, Midland, Texas. Then there were three.

"William volunteered, went to Fort Oglethorpe, Ga. Then there were two.

"Frank Milton left the day after William, and joined him at Fort Oglethorpe. Then there was one.

"Robert has just passed his physical, expects to go any day now. Then there will be none.

"That is the story of the Saigeon boys . . . and the contribution Mr. and Mrs. W. C. Saigeon, 2026 Waverly, have made to the fight for freedom and ultimate victory for the United Nations.

"Walter, who is 30, William, who is 25, and 20-year-old Frank Milton left within six months of each other. All are in the Army. William's wife and children live at 610 Shotwell."

Matinee Tickets to Be Exchanged for Bits of Scrap

No money is required for admission to the matinee at the Cass Theatre here tomorrow (Saturday) afternoon. "The Wizard of Oz", a picture in technicolor, is the attraction scheduled for 3:00 p. m.

Adult or child will be admitted by bringing five pounds of scrap rubber, or 10 pounds of scrap metal to the theatre.

Theatres are using this method in boosting the program of scrap collection, says Manager Schuckert of the Cass Theatre, and he hopes to collect a substantial amount of scrap so badly needed now. Without scrap, the nation's steel mills are faced with a shut-down, for all new steel is 50 per cent scrap.

Car Owners to Apply for Gas Ration Next Week

Local Registration Will Be at School on November 12, 13 and 14.

Stanley Asher has been appointed by the county rationing board to take charge of the gasoline rationing program in the Cass City community.

According to Mr. Asher, all persons should register on Thursday, Friday and Saturday, Nov. 12, 13 and 14, for Ration Book A which entitles the owner to four gallons of gasoline a week after Nov. 22 which is the beginning of the rationing period. J. Ivan Niergarth, who will superintend the registration for Ration Book A, will have a force of clerks in Room 11 at the school building each afternoon from one to five o'clock.

Each automobile owner, in registering, must have with him his certificate of ownership (title) or certificate of registration from the secretary of state, the serial numbers of the five tires for his car, and the number of his use tax (pink \$5) stamp which he displays on his windshield or car window.

All tires over five per car should be taken to the nearest express office and sent to the government who will pay for them at OPA ceiling prices, less cost of repairs, if needed.

This order does not apply to bus-type and truck-type tires and tubes, nor to passenger car tubes, but the government will buy all that are offered.

Owners of more than five tires per passenger car will be denied gasoline for passenger car operation beginning Nov. 22.

The registration of car owners for Ration Books B and C which permits larger gasoline purchases than the A card will start here on Nov. 16, Mr. Asher says. Volunteer registrars at the council rooms will hear the reasons advanced by car owners who feel they need an additional allowance for a higher classification. All owners must start with Ration Book A before higher classification applications are considered.

Car owners are to register at the school where they registered for sugar last spring at dates to be announced by the local committees.

Attentive Audiences Greet Detroit Pastor in Services Here

Evangelistic services at the Salem Evangelical Church continue this week and will come to a close with the services of Sunday, Nov. 8. Attentive and well-repaid audiences have greeted the Rev. Murray H. Willard, who is assisting the pastor, Rev. Stanley P. Kinn. Mr. Willard is the pastor of the East Detroit Evangelical Church, now in his third year with that congregation, having preceded it with a successful nine year pastorate at the Chelsea Ave. Evan-

gelical Church of Detroit. The message for tonight (Friday) will be upon the theme, "The Deadliness of Sin" and for Sunday evening on the theme, "Moving Day." The pastor of the church will speak at the Sunday morning service. Evening services are at eight o'clock.

"An increasing interest has been shown in these services," the pastor says, "and large audiences were present Sunday and Monday evenings. The purpose of these services is to deepen the spiritual life of Christians and challenge people with the Christian claim for a surrendered life. The public is cordially invited to share in the services that yet remain."

Dr. Dixon Returns to Head Lapeer School

Dr. Robt. L. Dixon, superintendent of the Caro State Hospital at Wahjamega, has been appointed as acting superintendent of the Lapeer State Home and Training School to fill the vacancy in the home caused by the recent death of Dr. Fred R. Hanna.

Dr. Dixon was head of the Lapeer institution until 1938 when he was transferred to Wahjamega and Dr. Hanna succeeded Dr. Dixon at Lapeer.

Huron Co. Platoon of U. S. Marines to Leave December 1

On Dec. 1, Huron County is sending out a Marine Platoon to the Marine Corps base in San Diego, California.

These men will be recruited from Huron, Sanilac and Tuscola Counties and will be known as the Huron County Platoon of the U. S. Marines.

The American Legion of Bad Axe is planning a program for these men on Dec. 1 at which time Capt. Chas. Popp, officer in charge of the District of Michigan, will swear in the recruits.

All men who join the platoon will be kept together as a unit during the basic training and will be sent directly from Bad Axe to San Diego, California.

Fuel Oil Ration Books Are Available

Stanley Asher, in charge of fuel oil rationing in the Cass City community, expects that the coupon books will be available here today and tomorrow (Friday and Saturday). They will be distributed at the council room to those who registered last week and this week.

AUTEN SISTERS REGISTER AS JUNIOR HOSTESSES

Almost one-third of the girls at Western College, Oxford, Ohio, have registered to serve as junior hostesses at the newly opened USO headquarters in Oxford. Among this number are Miss Charlotte and Miss Carolyn Auten, daughters of Mr. and Mrs. M. B. Auten of Cass City.

The Oxford USO center was made possible through the cooperative efforts of the people of Oxford. It serves chiefly as social headquarters for the 600 sailors stationed in Oxford to take special training in radio work. Opened last May, the Oxford Naval Station is under the command of Lt. G. L. Dosland.

THREE McRAES ATTENDED CONVENTIONS IN DETROIT

Dr. Ivan MacRae and Dr. June MacRae attended the osteopathic convention in Detroit last week. They were accompanied to Detroit by Archie MacRae.

Miss Lela MacRae attended the North American Beauty Show in Detroit Monday.

This is a true story in fable.

Once upon a time a city man, thinking about his country cousins, said to himself in smug self-satisfaction:

"My poor country relations! They live on a farm many miles from town. Roads are bad. They get to stores with difficulty. They eat mostly meat and potatoes, have few luxuries, enjoy little entertainment, have scant money to spend, are usually in debt—well, it's very sad! I am truly sorry for my country cousins.

That was before 1942, mister. Times have changed!

There's a good reason, too. Your country cousins by now, this eventful November of 1942, are probably feeling downright sorry for you!

In only a few days your automobile will be rationed for limited use of gasoline. And if you're the average American citizen, you'll be given the exciting privilege of burning up four gallons of gasoline every seven days. In a few more weeks, perhaps around Christmas, Uncle Sam will give you a first-full of ration coupons for just about every important commodity you will need. Meat, for example. And then the incidental matter of milk. That's going to be rationed, too.

Your country cousins can have a milk-shake by merely going to the dairy barn. Eggs, butter, chickens, meat, fresh vegetables—yes, your farm relations probably will have all they need. Incidentally, the electric freezing chamber keeps meat and fruit and vegetables fresh all winter.

You have forgotten that the highway is now paved with concrete. Turn to page 5, please.

Wasp Survivor Visits His Mother Here

J. D. KITCHEN.

J. D. Kitchen, 28, survivor of the Aircraft Carrier Wasp which sunk in the Solomon Islands section of the South Pacific on Sept. 15, was granted a 30-day leave and is spending part of that period with his mother, Mrs. John Seeger, in Cass City.

Mr. Kitchen, a gunner's mate, third class, was in the water two hours before he was picked up. He suffered no injuries except his hands were blistered from sliding about 80 feet down a rope. He was cleaning guns at the time the Wasp was hit by a torpedo fired from a Jap sub. He has been in the navy 11 months.

Both J. D. Kitchen and Clarence Horak of Deford, fireman first class, were guests at the Rotary Club luncheon here Tuesday. The relating of the experiences at the Wasp sinking made thrilling stories. Both said they were anxious to return to the fray.

Public Invited to See Hunting Pictures

All persons interested are invited to attend the showing of W. R. Fisher's Canadian hunting pictures at the high school auditorium Tuesday evening, Nov. 10, starting at about 8:30. The films are being shown as the program for the Community Club meeting.

Marcella Conley, 11, Accidentally Killed at Tyre Saturday

Pellets from Shotgun in Hands of Brother, 13, Entered Right Temple.

Marcella Conley, 11 year old daughter of Mr. and Mrs. Wilbur Conley, of Tyre, was instantly killed Saturday afternoon, October 31, when a shotgun was accidentally discharged by her 13-year-old brother, Elmer Conley. The shot entered the right temple.

Another brother, Ralph, 15, had returned from hunting and had left the loaded gun standing in a room where three of the children were playing. Harold Conley, 8, picked up the gun, but Elmer pulled it away from the smaller child and it discharged, the pellets striking Marcella. Both Mr. and Mrs. Conley were away from home visiting a dentist when the tragedy occurred.

Marcella is survived by her parents; four brothers, Ralph, 15, Elmer, 13, Harold, 8, and Robert, 3; and two sisters, Mary, 6, and Ruth, 1 year old.

The body was taken to the Zinger Funeral Home at Uby and funeral services were held from St. Ignatius Catholic Church at 9:00 a. m. Tuesday. The Rev. Fr. Joseph Dudek, pastor, officiated. Burial was in the Ruth Cemetery.

ARMISTICE DAY 1918

ARMISTICE DAY—November 11, 1918—ended the "war-to-end-war."

This stirring event, symbolized by the above cheering crew of one of the guns of Battery D, 105th Regiment Field Artillery, 79th Division of the American Expeditionary Force, was snapped after the last shot had been fired at Etraye, in the Meuse sector.

The Armistice, however, was little more than a temporary truce for a strife-torn world. Every year since then has seen nations conducting some semblance of war. In the beginning most wars were "undeclared" or were gently labeled as "incidents."

In chronological order they follow: During 1918 and 1919 the Poles and Ukrainians fought for control of Eastern Galicia, which was finally awarded to Poland for 25 years. The latter year—1919—saw Russia torn apart.

The Red Russians crushed the White Russians, led by Admiral Kolchak in Siberia, General Denikin in the South, and General Yudenich in Estonia, all of whom were aided by the Allies.

Guerrilla warfare broke out in Ireland in 1919, continuing to 1921. The treaty of peace resulted in the long-demanded Irish Free State. From 1919 to 1926 was the Spanish war in the Rif (Morocco), and starting the same year were the conquests in Arabia by Ibn Saud, who drove King Husain from his throne at Mecca.

Russia attacked Poland in March of 1920, threatening Warsaw. They were defeated by the Poles in October. The same year Turkey attacked the Armenian republic, capturing Kars and Alexandropol and securing direct access to Russia. China, too, was disrupted by internal strife during the early twenties, when confused fighting took place among rival army generals.

In 1921-22 the Greeks invaded Asia Minor but were defeated by the Turks in a month of battle on the Sakaria river. Symrna was burned with a loss of \$200,000,000 and many inhabitants were massacred. Two struggles began in 1925.

First was the Druze rebellion in Syria against French administration, during which Damascus was bombarded. Second was the prolonged struggle between Bolivia and Paraguay over rival claims to Chaco. This ended ten years later.

From 1926 to 1928 was the activity of Kuomintang, Communist and Nationalist forces in China. The moderates established Republican headquarters at Nanking. In 1931-32 the Japanese invaded Manchukuo, drove out the Chinese governor and set up Henry Pu-yi, last of the Manchu dynasty, as emperor. The latter year saw furious fighting in Shanghai between 50,000 Japanese and 120,000 Chinese. Damage to the city was estimated at \$350,000,000.

Italy's "valiant legions" conquered Ethiopia in 1935 and 1936, sounding a more ominous note to the world. Spain's civil war broke out in 1936 when General Franco, with Nazi and Fascist support, led a rebellion against the Spanish republic, which received assistance from Soviet Russia. The bitter civil war ended in March, 1939.

In 1937 Japan invaded Northern China and sent warships and troops to Shanghai, where a grave conflict developed when the Chinese republic at Nanking organized strong resistance. The following year Hitler annexed Austria in a "bloodless conquest." Czechoslovakia was dismembered.

In 1939 Italy conquered Albania and Poland was partitioned for the fourth time by Germany and Russia after Hitler invaded the country. On September 3, 1939, Prime Minister Chamberlain announced in Parliament that a state of war existed between Great Britain and Germany.

In November of that year Russia mobilized troops on the Finnish border north of Leningrad and war began between those two countries. On December 8, 1942, the United States declared war on Japan. This declaration was followed immediately by a declaration of war upon Germany and Italy.

Spain's civil war broke out in 1936 when General Franco, with Nazi and Fascist support, led a rebellion against the Spanish republic, which received assistance from Soviet Russia. The bitter civil war ended in March, 1939.

CHRISTIAN NURTURE IN THE FAMILY

LESSON TEXT—Deuteronomy 6:4-9, 20-25; II Timothy 3:14, 15. GOLDEN TEXT—Train up a child in the way he should go; and when he is old, he will not depart from it.—Proverbs 22:6.

The religious life of the home is a determining factor in the life of the child, for it is in the home that the child's whole existence centers and from which he receives the repeated impressions, day by day, which determine character and destiny.

Twice a day the orthodox Jew repeated the words of verses 4 and 5, "the Shema," in his time of prayer, morning and night. It was the foundation of his faith, declaring the oneness of God in a world of many heathen gods, and calling for complete and absolute devotion to Him.

Here is a matter of great significance to us. The faith which we profess in the church must be effectively brought into the home. It is not enough to carry a Bible on Sunday, it should be in use in the home throughout the week; not only in family worship, but in the incidentals of daily life.

The family altar has gradually disappeared, and it is regrettable that it has, for the testimony of generations indicates that in family worship some of the most useful men and women of all ages have received the direction of life which made them great for God.

Let us not readily assume that it is not possible for us to have a family altar simply because of the difficulties of time, place, etc. But if we cannot have such worship regularly, let us show our children that we have a real interest by reading our Bibles, by sharing some blessing found therein with them, and by making prayer the natural thing in the home at all times, not just in hours of trial or adversity. Let us recognize God's Word in our family life.

The nation that forgets its past will have no future worth remembering. The Israelites were to recall that the glorious history of God's loving kindness toward them bore testimony to the truth of His Word and to the faithfulness with which He had kept them. Their young people would thus be encouraged to trust God for the future. "Hitherto the Lord hath helped," means that henceforth we may count on Him.

In every nation there are those occasions of history when only God could deliver—and He did. The recollection of such events in a way which will give the glory to God rather than to man will strengthen faith and cause men to look to God in the hour of need, and to thank Him in the day of victory.

In the family too, we should cultivate the sacred memories of God's deliverance, of His blessing, of the joy of His fellowship in bright as well as threatening moments. Children who hear such matters gratefully rehearsed in the home have an effective anchor in a time of storm.

That which we learn of Christ and of God's Word is to be translated into living for Christ. The experiences of grace and the remembrance of God's blessing of childhood are not for that period of life alone but for a continuing in God's grace. This carries our thought a bit beyond the responsibility of the parent to provide the proper surroundings and training, and stresses the duty of the child to apply, perfect, and continue that experience of Christian truth and testimony.

Too many careless individuals, who because of the desires of their own wicked hearts have abandoned the church and the Book, blame it on the parents. "They were too strict. We had to go to church too much. They made me go to Sunday school"—such are their excuses. Of course, we know that they are only excuses, not reasons. They are the refuge of the hypocrite who is not willing to face his own terrible responsibility.

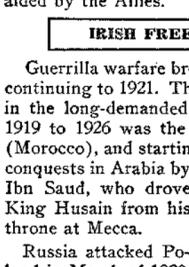

The obligation is on each one of us to continue in the things we have learned, and if we do not, the judgment must come upon us. If we do, salvation and blessing will come to us, and we in turn will pass it on to others.

May this lesson turn many an American home back to God's way.

Russia attacked Poland in March of 1920, threatening Warsaw. They were defeated by the Poles in October. The same year Turkey attacked the Armenian republic, capturing Kars and Alexandropol and securing direct access to Russia. China, too, was disrupted by internal strife during the early twenties, when confused fighting took place among rival army generals.

CHINESE WARRIOR

Italy's "valiant legions" conquered Ethiopia in 1935 and 1936, sounding a more ominous note to the world. Spain's civil war broke out in 1936 when General Franco, with Nazi and Fascist support, led a rebellion against the Spanish republic, which received assistance from Soviet Russia. The bitter civil war ended in March, 1939.

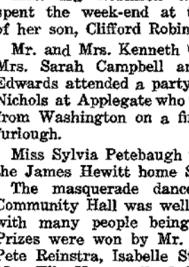

WHITE-SHROUDED FINNISH GUNNERS

In 1937 Japan invaded Northern China and sent warships and troops to Shanghai, where a grave conflict developed when the Chinese republic at Nanking organized strong resistance. The following year Hitler annexed Austria in a "bloodless conquest." Czechoslovakia was dismembered.

GREAT BRITAIN DECLARES WAR

In 1939 Italy conquered Albania and Poland was partitioned for the fourth time by Germany and Russia after Hitler invaded the country. On September 3, 1939, Prime Minister Chamberlain announced in Parliament that a state of war existed between Great Britain and Germany.

Honey Pumpkin Pie Inspires a Harvest Supper (See Recipes Below.)

Harvest Supper Social

One of the nicest things about fall are those harvest supper socials when folks throughout the land gather together with the fruits of their summer labors and heap high the table with steaming chicken fricassee or beefsteak pies, fruits and vegetables, and pies, anything good to eat!

It's partially the food that makes these suppers unforgettable and partially, too, the way it brings old friends together before the long winter pulls in. Whether it's the local grange who sponsors the affair or the ladies' aid, or groups, the affair will be a tremendous success.

Remember the chicken fricassee? *Chicken Fricassee. (Serves 8-10)

- 2 3-pound chickens
- Salt, pepper, ginger
- 3 quarts boiling water
- 1/2 cup each, onion, carrot, celery
- 1 bay leaf
- 4 tablespoons chicken fat
- 4 tablespoons flour
- Juice of 1/2 lemon
- 2 tablespoons minced parsley
- 1 can mushrooms

Clean chickens, cut into pieces for serving. Sprinkle with salt, pepper and few grains of ginger. Cover with boiling water and cook slowly for one hour. Add vegetables and bay leaf and continue cooking until tender. Drain off liquid and surplus fat. Add flour to melted fat and cook until brown. Gradually add 3 cups chicken broth or 1 1/2 cups milk. Season and cook until smooth. Add lemon juice and mushrooms. Place chicken in gravy with minced parsley and heat.

- *Baking Powder Dumplings. 2 cups flour, 4 teaspoons baking powder, 1/2 teaspoon salt, 2 tablespoons butter, 2 eggs, well beaten, Milk

Sift dry ingredients, and chop in butter. Add eggs with enough milk to form a heavy drop batter. Drop quickly by spoonfuls into chicken broth. Cover closely and cook 10 minutes without removing lid.

- *Cabbage and Apple Coleslaw. (Serves 6) 2 cups crisped, dried, shredded cabbage, Salt, 1 cup diced apple, 1/2 cup cooked salad dressing

Mix cabbage and apple with salad dressing and salt. Chill thoroughly and serve from a large bowl. A highly prized and cherished favorite for these fall harvest suppers is Steak and Kidney pie, the meat floating in delicious gravy, topped with a flaky, crisp and golden crust:

- Steak and Kidney Pie. (Serves 6) 2 pounds beef steak (cut 1/4 inch thick), 2 pork kidneys, 2 small onions, minced, 1 teaspoon salt, 1/2 teaspoon pepper

LYNN SAYS: Sudsy Facts: Higher industrial activity and consumer income contribute to larger soap consumption, according to a Department of Agriculture report, making last year's soap consumption the largest on record.

Domestic oils and inedible tallow will take the place of imported and tropical oils for this year's soap supply.

Healthfulness dictates cleanliness, and that means not only in clothing and personal hygiene but in clean surroundings in the home, especially in the kitchen where food is prepared. Light or white floors insure cleanliness, and that means not only in clothing and personal hygiene but in clean surroundings in the home, especially in the kitchen where food is prepared. Light or white floors insure cleanliness. You can restore freshness by laundering draperies, walls, rugs and upholstery by using a soap jelly made by dissolving 1 part soap to 5 parts hot water, letting cool, then whipping to a fluff with a beater.

A Little Bit Humorous

CASUALTY

A little girl rushed up to the nearest policeman. "Please," she sobbed, "will you come and lock a nasty man up?" "What's he been doing?" asked the policeman, kindly. "Oh, he's broken my hoop with his nasty bicycle."

Don't Believe It

A spectre is a man who cheers a football team. Meteors tell you how much gas you are using. A hill is a piece of land with its back up. At a wedding, spaghetti is thrown about. A man who lives to be a hundred is called a centipede. A cataract is a thing for throwing stones.

Portable

Little Mary Ellen was suffering from toothache and her father, hoping to cheer her up, asked: "What would you like me to give you for your birthday next week?" "You might give me some teeth like mamma's so I can take them out when they ache," answered the child.

HAPPY

"Is your son happily married, Jim?" "He sho' is, Boss. He's done got a wife dat kin handle all de laundry he kin git her."

Another Pun

"What was the matter with that quartet singer?" "He met with a baseball accident." "Baseball accident?" "Yes; he died on the base."

Privacy

She's stopping at the Mountain House, But great seclusion seeks; She always dresses in the dark, Because the mountain peaks.

Unanswerable

"Eat fruit," one person advised another who was not feeling so fit. "You can't eat too much fruit." "Adam did," was the laconic reply.

Financial

"Do you intend to stay away long on your vacation?" "I don't know just how long. I shall stay 50 bucks at the seashore and 30 bucks at the mountains."

Can't Hear

His Wife—Oh, what are the wild waves saying? The Radio Fan—Dunno. They're running too wild for me to get it over this worn-out radio.

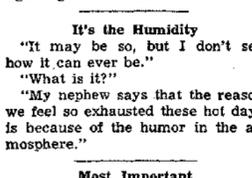

Critics

"Did you manage to raise anything worth eating this year?" "I think so, the cutworms and caterpillars all thought well of it."

On the Surface

"Say, pop, what's a floating debt?" "A motor-boat."

PUBLICITY

"Does Jones try to look on the bright side of things?" "I should say so. He's never content unless he is staring the spotlight right in the face."

It's the Humidity

"It may be so, but I don't see how it can ever be." "What is it?" "My nephew says that the reason we feel so exhausted these hot days is because of the humor in the atmosphere."

Most Important

"Is the postscript always the important part of a woman's letter?" "It is when it's from your wife. That's where she always mentions how much money she wants."

What You Buy With WAR BONDS

A Flying Fortress is to America's air fleet what heavy artillery is to the Army. This gigantic four-motored bomber, equipped with heavy cannon, carries about three tons of bombs and reaches a speed of about 300 miles an hour.

These ships carry a crew of seven to nine men, weigh about 22 1/2 tons, have a wing spread of 105 feet and each motor develops 1,000 horsepower. We need more of these "Flying Fortresses" to compete with the Nazi air force. You can help by investing at least ten percent of your income in War Bonds every payday. Buy them from your bank, post office or other convenient issuing agent. U. S. Treasury Department

Screens Are 'Precious Metal'
Porch and window screens made of wire mesh call for critical attention, for they are probably irreplaceable for the duration of the war. Screens should be well brushed to remove any corrosion, and then painted with a mixture of one-half spar varnish and one-half turpentine, or with paint well thinned with turpentine so that it will not clog the openings in the screen.

Won't Move
What do you know about trees? If a nail is driven into a tree trunk at a point 10 feet up from the ground, and the tree grows at the rate of two feet a year, how much higher will the nail be at the end of 15 years? Answer: The nail will be in the same place.

Only Region
New England is the only region in the United States that uses more fuel oil than gasoline.

NOW WHO'S CRAZY?

In a lucid moment one of the inmates of an insane asylum sat on a sanitarium wall and rubbered at a lone fisherman angling in the creek. "Fishing?" queried the lunatic. "Yes," good naturedly. "Caught anything?" "No." "Had a bite?" "No." "How long have you been fishing?" "Oh, about six hours," yawning. "Say," screeched the lunatic, waving his arms wildly, "you come on in here!"

Fit to Kill
"I say, Dad," said the enthusiastic schoolboy returning home. "we gave a wonderful show at school. Lots of parents came, and though some of them had seen it before, they all had a fine time." "How do you know?" asked his father.

"Why, they laughed all through the play," the boy replied. "And what was the play?" the parent asked. "Hamlet," said his offspring.

ACCLIMATED

But that isn't all, folks. Government payments for soil conservation will be about the same this year as last. This will raise the total cash farm income to around 15.6 billion dollars compared with 11.8 billions in 1941 and the 1935-39 average of 8.5 billions.

What's the farmer doing with all this money? A large portion of this 1942 cash is going into payment of debts, reducing mortgages, savings through war bonds along with purchases of semi-luxury lines which are still available. One of the most encouraging signs, say the experts, is the absence of a speculative spirit which prompted farmers in the last war to go heavily in debt for purchase of land and equipment and then were caught in the vicious postwar price cycle.

No, the average country cousin isn't dumb. Most farm authorities apparently agree that the farmer will come out of this present war with a smaller debt structure and a large backlog of liquid assets—those things like war bonds which can be converted quickly into cash—than ever before.

Because of high material prices, many farmers are postponing new farm construction until the war is over. And here are some more encouraging trends:

Ownership of farms is increasing; tenancy is falling. Rural retail sales have increased each month for 21 consecutive months. Instead of durables being in demand, farmers are turning to clothing, housewares, food specialties and minor luxuries.

The big unfavorable trend, of course, is the growing scarcity of labor. The selective service headquarters at Washington has recommended deferment for farm labor, and there is news of "freezing" labor on dairy and poultry farms. Farmers have been selling livestock, and even additional acreage, so that they can handle their farms themselves.

That is the bearish part of this story. It is one that heralds a possible scarcity of food by 1943 or 1944 with rationing of more and more commodities.

With approximately one-third more income this year than last year and with food right in his own garden and poultry house, or on the "hoof," the Michigan farmer is doing very well, thank you. He represents the true American spirit of free enterprise. Getting the job done is more important to him than getting higher wages at shorter hours.

He is going to make a significant contribution to winning of the war. Yes, the "poor" country cousin is feeling sorry for a lot of city folk these days. Pass the fresh eggs and bacon, and have a laugh on us.

Analysis
Barber—You're getting a little bald on top here. What do you think is causing it?
Customer—I'm not sure, but I imagine it's because my hair is falling out.

Meant Well
A young girl had been promoted to the third grade. Meeting her former second grade teacher, whom she liked very much, she said: "Gee, I wish you were smart enough to teach me this year."

Could Be
"Been fishin' all day, Cholly?"
"Yep."
"Ketch anything?"
"Nope! But I think I'd had better luck if I hadn't forgot my hook."

On Guard
"Out at my uncle's the people go to bed with the chickens."
"Well, at the price chickens sell for now they are certainly worth watching."

Not Saying
"What do you say to a game of golf?"
"It wouldn't be proper to say what I might say if we played golf."

Big Noise
When the game is going badly you can bet your final dollar. That the gent who entered on a pass puts up the loudest holler.

Retribution
"Why are you so determined on buying your wife a new hat?"
"I want to get even with her for buying me a dozen ties last week."

No News
Dewdimple—Cheer up, old chap. No news is good news, you know.
Golladay—Not when you're running a newspaper.

Good Paint Is Economy

It is estimated that on an average exterior painting job done by professional painters, approximately 75 per cent of the cost is for labor, the remaining 25 per cent being for the paint. Inasmuch as it costs as much to apply low quality paint as it does to apply paint of high quality, the difference in cost between high and low class materials represents such a small part of the total painting cost that when durability and lasting satisfaction are considered, use of first class material is a distinct economy.

Twelve Apostles
The twelve apostles were Simon (called Peter by the Lord), James and John, Andrew and Philip, Bartholomew and Matthew, Thomas and James the less, Thaddeus, Simon and Judas Iscariot.

Four Homes, Four Bombers
Four average homes could be heated for a year with fuel oil from a tank car, but four heavy bombers would stay aloft less than 11 hours using the same amount of gasoline.

Act to Defer Stock and Dairy Farmers; Southwestern Pacific Control at Stake In U. S.-Jap Struggle for Guadalcanal; Wage Ceiling Sets \$25,000 Limit on Pay

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

A cigarette was the first thing this wounded Australian soldier asked for and got, when the medical corps got him safely behind the New Guinea fighting lines. Fighting in the Port Moresby area, the Australian army succeeded in pushing the Japs back in the jungles beyond the Owen Stanley mountain range.

FARM LABOR: Deferment at Last

Steadily worse had become the farm labor shortage. Drastic action was necessary to prevent a breakdown in the all-out war program.

Under the program, draft boards are to reclassify from 3A to 3B all such workers already deferred on grounds of dependency.

Employers, including war plants, were instructed to cease hiring skilled farm workers.

SALARY CEILING: \$25,000 Limit

From fabulous-salaried Hollywood stars to low paid shop girls, every American wage earner would feel the impact of Economic Stabilization Director Byrnes' order.

Purpose of the new regulation was to combat inflation and increase federal tax revenue on corporations.

Control of all wages and salaries up to \$5,000 yearly was given to the War Labor board.

Jurisdiction over all salaries above \$5,000 was assumed by the treasury department.

WILLKIE: Reservoir Leaking

American radio listeners who may have expected a rousing, table-thumping tirade from Wendell L. Willkie when he reported on his recent globe-circling air tour.

Appealing for second fronts in Europe and Burma, Willkie urged that we give our Allies more than "boasts and broken promises."

HIGHLIGHTS . . . in the week's news

BOSTON: Dr. Victor Heiser, medical consultant and author said that 42,000 American war production workers had been killed, either on or off the job since Pearl Harbor.

GUADALCANAL: Nip and Tuck

It had become increasingly evident that the Japs had massed a more powerful naval force in the Solomons than the United States could assemble from a navy divided between two oceans.

Outnumbered on three sides by Jap forces with heavy artillery, tanks and supplies, American marines and army units on Guadalcanal Island fought doggedly to hold a small strip of land six miles long and three miles deep and to retain control of Henderson air field.

Whether the embattled Yanks faced another "Bataan" was dependent on how soon planes, heavy weapons and supplies could be brought to Guadalcanal.

Jap onslaughts were repeatedly thrown back. One attack pierced American lines south of the airfield, but prompt counterattacks recaptured the lost positions.

The critical nature of the situation was revealed by mass landing of Jap troops indicating control of the sea in the Guadalcanal area.

With the sinking of the aircraft carrier Wasp reported in a communique, navy losses in the Solomons fighting were brought to 14 ships, including three heavy cruisers, six destroyers and four transport vessels.

NORTH AFRICA: Mediterranean at Stake

American-made and American-manned planes and tanks continued to play a prominent part in the British armored offensive against Marshal Rommel's Africa corps along the El Alamein front—an offensive which might decide the control of the Mediterranean.

Britain's cosmopolitan eighth army, comprising English, Polish, South African, Australian, New Zealand, Fighting French, Greek and American detachments, smashed at Axis troop and supply concentrations. In the forward areas, crack infantrymen picked their way gingerly through tricky land mines and fortifications.

Fighting on both sides had a cautious, feeling-out character in the early stages as Allied and Axis forces tested their strength for decisive blows.

Allied troops showed their mettle in beating back counterattacks by Rommel's tank corps. Meanwhile American and British airmen continued their assaults on key Axis supply ports, bombing Tobruk repeatedly, destroying enemy planes and shipping.

Elsewhere in Africa, evidence had been mounting for weeks that action was imminent. The Vichy government had concentrated most of its available ships and men at Dakar, while American troops were reported in Freetown and Monrovia, Liberia, south of Dakar.

LONDON: The United States marine corps announced that additional units of marines have landed in the British Isles. Col. William T. Clement, Navy Cross veteran of Bataan and Corregidor, commanded the troops. He will serve on the staff of Adm. Harold Stark, commander of United States naval forces in the European war theater with headquarters in London.

RUSSIA: Winter Stalemate

In battered Stalingrad women, children and old men worked ceaselessly amid the crash of shells and bombs to turn out more weapons and ammunition and repair equipment damaged at the front.

Northwest of the city Marshal Timoshenko's relief army hammered at the German flanks. The weather was beginning to break in favor of the Russians.

ATLANTIC CHARTER: F.D.R. Clarifies

Renewed assurances that the Atlantic Charter applies "to all humanity" were given by President Roosevelt.

The President's statement followed Wendell L. Willkie's assertion that millions of people in Asia and eastern Europe were bewildered and anxious about America's war aims and were asking: "What about a Pacific charter? What about a world charter?"

Mr. Roosevelt pointed out that the Atlantic Charter declares among other things that the signatory governments, including Russia and China and all the other United Nations "respect the right of all people to choose the form of government under which they will live; and they wish to see sovereign rights and self-government restored to those who have been forcibly deprived of them."

MACARTHUR: No Presidential Bee

Categorically answering reports that he would be a candidate for president, Gen. Douglas MacArthur announced from his Australian headquarters that he had "no political ambitions whatsoever" and added that "the only hope and ambition I have in the world is for victory for our cause in the war."

"Any suggestion to the contrary must be regarded merely as amiable gestures of goodwill dictated by friendship," he said.

GEN. DOUGLAS MACARTHUR "... no political ambitions."

The Southwest Pacific commander's assertions were contained in a statement in which he praised Australia's war effort. "No nation in the world is making a more supreme war effort than Australia," he said.

NAZI SPY: Tells Sabotage Plot

Unfolded in detail for the first time was the dramatic story of how eight Nazi saboteurs planned a campaign of destruction against key American industries to cripple the nation's war effort.

The story was told by one of the saboteurs—Ernst Peter Burger—who with another of the spies escaped the electric chair by informing on the other six. The occasion was the treason trial in Chicago in which Burger testified against Erna and Max Haupt, parents of Herbert Haupt, young Chicagoan executed as a member of the Nazi band; his uncle and aunt, Walter and Lucille Froehling, and two friends, Otto and Kate Wergin. All were charged with harboring and aiding young Haupt.

Summoned from his Washington jail cell, Burger described in detail the sabotage plans. Included in the Nazis' equipment were boxes of TNT blocks, bombs disguised as coal, incendiary sticks, infernal machines and detonators landed on the East coast from two German U-boats which had brought the conspirators to America from Germany.

NAVY: 14,000 Planes

Funds were provided for the construction of 14,000 naval planes and 500,000 tons of aircraft carriers when President Roosevelt signed a 15 billion dollar appropriations bill.

The bill likewise contained contractual authority for 500,000 tons of cruisers. It was estimated that the provision for half a million tons of aircraft carriers would provide approximately 25 carriers.

War Plants Using Ideas of Workers

Hints on Speeding Output Of Weapons Sought.

DETROIT.—Today's war worker is proving himself to be a resourceful "idea" man.

Corporations which once relied almost exclusively upon high-priced engineers for methods of improving production, now utilize the man at the machine for hunches on speeding output of war weapons, boosting efficiency and reducing scrap.

General Motors corporation, which offers workers war bonds and stamps for acceptable tips, received more than 15,000 suggestions during a 60-day period and paid out more than \$40,000 in awards to men and women in 53 plants throughout the country.

The Packard Motor Car company, building aircraft and marine engines for the army and navy, has received 4,153 suggestions under its "Work to Win" program, 30 per cent of which helped to improve production efficiency. Merit pins are awarded workers whose ideas are accepted by the joint management-labor committee at Packard.

The suggestions which drew one of the \$1,000 war bonds at GM concerned simplification of the machining process on a part for the Allison airplane engine.

A third worker suggested and built a machine that has eliminated a bottleneck in the production of a unit used in the fuel supply system of airplanes.

President George T. Christopher of Packard said his plant already has adopted 117 worker suggestions for speeding output of war engines.

Full protection is given the Packard worker whose suggestion may prove patentable, according to Christopher.

Stop Worrying! There's Plenty of Bear Meat

HELENA, MONT.—You've been hearing about this incipient meat shortage?

Well, just in case it comes, nature—assisted by the Federal Forestry service—has cached away some emergency rations in the western woods.

The annual big game surplus in this area could feed 5,000,000 soldiers for two months without touching the basic herd stock, federal officials estimate.

The Montana surplus could supply 2,300 tons of dressed meat annually, releasing sufficient beef, mutton and pork to feed more than 340,800 soldiers for one month, says Game Warden J. S. McFarland.

This surplus represents the normal annual increase in elk, deer, bear and antelope, and would leave the herds at normal size for reproduction.

Should an extreme food emergency arise, McFarland figures the herds could be cut in half to release enough meat from Montana alone to feed well over 920,000 soldiers for one month.

And there would remain vast untouched flocks of wild sheep, mountain goats, moose, grizzly bear, birds and fish—potential food for thousands more soldiers or civilians.

Soldiers Query a Waitress; Get a Diplomatic Reply

LONDON.—Two American buck privates having breakfast at the Red Cross Milestone club the other morning when one asked the waitress, "Are you American?"

"Yes," she replied. "Married?"

The waitress said she was. "What's your husband do?" "He works in the embassy."

"What's he do there?" "He's the American ambassador," the waitress replied.

Her inquisitor poked his buddy in the ribs. "That's a good gag," he roared. "Meet my pal. He's Joe Kennedy."

The waitress, Mrs. John G. Wissant, laughed and moved away.

Lucky for Sergeant It Wasn't Two Other Girls

MOORE FIELD, TEXAS.—The romantic aspirations of Staff Sergeant John A. Traeger, 504th school squadron, were considerably thwarted recently.

After writing a letter to his girl friend in Seguin, Texas, he enclosed it in an envelope and addressed it to his maiden aunt in Hoboken, N. J. The letter written to his aunt was inserted in another envelope addressed to the girl friend.

Result: His girl friend received a "thank you" note for a delicious layer cake, and his aunt got an invitation to spend two weeks near here.

'Musettes' to Teach Army About Reptiles

NEW YORK.—United States soldiers are to be taught how to tell whether a snake is harmless or poisonous and how to detect poison ivy.

They will learn all this from portable museums—"Musettes," which the department of education of the American Museum of Natural History is planning.

WPB Order Affects Cooking Available Facilities Must Be Utilized Families or persons planning to change their residence were urged Saturday by the War Production Board to investigate thoroughly the utilities available for cooking in prospective living quarters. This precautionary advice was given by James E. Wilson, WPB's deputy regional director in charge of the priorities division, in explaining a WPB order which prohibits connection of an electric range where complete gas facilities are available and the connection of a gas range where complete electric facilities are already installed. He added, however, that in cases where neither complete gas nor electric facilities are available on the premises, and the premises are not equipped with ranges of any kind, service extensions may be made for either gas or electric connections.

Change of Name
The river in Colorado, sonorously named by the Spaniards, El Rio de Las Animas Perdidas en Purgatorio (River of Lost Souls in Purgatory) was pronounced by later French trappers "Purgatoire," but to American cowboys it sounded like "Pickenswire," and that's what they call it today.

Wood Instead of Steel
Slow-burning factory construction uses wooden timbers instead of steel because the outside of large timbers may burn or char while retaining their value as supports, while the steel, under the same load and exposed to the same heat, might buckle.

Proportions in Color Schemes
While no hard and fast rule has been established for color schemes and certain conditions may require modifications, one theory is that the dominant color should approximate one-half of the total color scheme, augmenting hues one-third, and a contrasting hue one-sixth.

Veneer Pattern
It is often desirable to create a pleasing design in the face of a plywood panel by laying up the face veneer in a series of small squares, the direction of the grain of one square being at right angles to the direction of the grain of the adjacent four squares.

TO YOUR Good Health DR. JAMES W. BARTON Released by Western Newspaper Union. DIZZINESS For many years the home treatment of dizziness was a dose of Epsom salts—magnesium sulphate. This dose was given because dizziness was thought due to a sluggish liver and gall bladder and constipation. As a matter of fact, many cases of dizziness are due to these conditions and the treatment by Epsom salts is considered correct.

There are, however, many cases of dizziness due to disturbance—swelling of the tissues—about the balancing canals of the inner ear. Any drug that will remove water from the system, as does Epsom salts, would be considered good treatment. Treatment by Epsom salts is, however, not the method of treatment for dizziness now used by physicians. Dr. K. M. Simonton, in Proceedings Staff Meeting, Mayo Clinic, states that severe vertigo—dizziness—should be treated by (1) rest in bed; (2) avoidance of all movement, especially sudden movement; (3) avoidance of sudden sounds and light; (4) raising the head of the bed to prevent congestion in the inner ear; (5) moderate doses of atropine (to open up blood vessels) and a quieting drug; (6) a soft, light diet; and (7) magnesium sulphate—Epsom salts—taken by mouth.

As attacks of dizziness are accompanied by head noises and loss of hearing (Meniere's disease), the patient is instructed to take six 7/8-grain tablets of ammonium chloride, three times daily with meals, for three days; no medicine is then taken for three days; and the tablets are repeated for three days. No salt is allowed at the table and very little is to be used in cooking. No baking soda—sodium bicarbonate—or other drug containing sodium should be used. To keep the patient free from dizziness, this treatment must be always kept up.

When there is dizziness only and the dizziness is "up and down" rather than "round and round," the liver and gall bladder are considered at fault and Epsom salts is used. When the dizziness is "round and round" and there are head noises, loss of hearing, nausea and vomiting, eating food low in salt and omitting salt with and in food may give relief without the ammonium chloride.

Lights of New York by L. L. STEVENSON. New York's old houses have a fascination for me. Before the Wendel mansion, a square, ugly red brick at Fifth avenue and 39th street, gave way to a store, I used to wander over there and stare in the hope that some day I would glimpse Miss Ella Wendel, the last of her line, who dwelt there alone with a fat poodle. That I never did detect so much as a flicker of life about the house didn't break the habit. So when the Collyer house, an old four-story brownstone at Fifth avenue and 128th street, got into the news because a bank was about to foreclose a mortgage, and Homer and Langley Collyer, who had lived there for years without gas or electricity, were to be evicted, I went up to Harlem and with a lot of others stood around staring. After inspecting the house from all angles, without detecting any more life than the Wendel mansion had showed, I gave up and went downtown. It was that very night that Herbert Clyde Lewis, a Herald-Tribune reporter, had a piece of luck such as newspaper men dream about. As he was sitting on the steps shivering because—to quote him—"it was mugging time in Harlem"—Langley Collyer came out and not only talked but accompanied Lewis to the Herald-Tribune office where he posed for a picture. Lewis wrote a peach of a yarn which, along with his by-line, hit the front page. That of course was a fine thing for him, but not so good for Helen Worden of the World-Telegram, who broke the original story of the impending eviction.

As perhaps you have learned elsewhere, the Collyer brothers, whose family came to this country in the Speedwell which, according to Miss Worden was a "second Mayflower," will not be evicted after all. They had not known of the foreclosure proceedings because the notice had been torn down probably by mischievous children, possibly the same ones who took delight in breaking Collyer windows until there were no more to break. So, having made arrangements to pay back interest, the Collyer brothers can continue to live in the old house that has been their home since 1909, and Langley can continue to be hermits in a great city.

Relieving Pain By Means of Heat

When examining boxers at 2 p. m. for a boxing bout that night, I have often been annoyed by having a boxer step on the scales one or two pounds overweight. The manager of the boxer is sometimes fined for this neglect to have his boxer at the correct weight. Being overweight means covering him up with heavy woollen sweaters, hard brisk exercise, and a Turkish or cabinet bath to get the one or two pounds off within an hour. This effort is both a mental and physical strain as the boxer feels that he is weakening himself and will not be at his best for the evening bout. There is nothing wrong with increased heat of the body by means of exercise or baths, but the heat should be created gradually, not in such a rapid manner. A Turkish or cabinet heat bath, too hot and too prolonged can cause weakness, shock, and collapse. "The heat, whether it is dry or moist, should not be given for a longer than 30-minute period even where there is profuse sweating." However, most individuals who undergo heat treatments by baths or other methods are not boxers or athletes but those with rheumatism or arthritis, soreness and stiffness due to accumulation of waste or fatigue products in the tissues. By means of heat these wastes are hurried out of the system in half the time or less than it would ordinarily take to remove them. Those who are not well should not take heat treatments without supervision. Patients may feel a fullness and throbbing of the head, rapid beating of the heart, and a feeling of great weakness while undergoing heat treatment. For this reason the "steam" room of the Turkish bath establishment has a couch on which the individual should lie down. Sitting erect means more effort on the part of the heart as it is easier to pump blood on the level than up and down.

QUESTION BOX Q.—What causes me to become breathless when I climb stairs or do too much housework? I have a chronic sinus drip. A.—Pain in breast is not likely due to heart disease or physicians would have told you. It is more likely to be due to nervousness or gas pressure. For the sinus condition you might try eating more vegetables and cutting down on liquids as well as on table salt on food and in cooking.

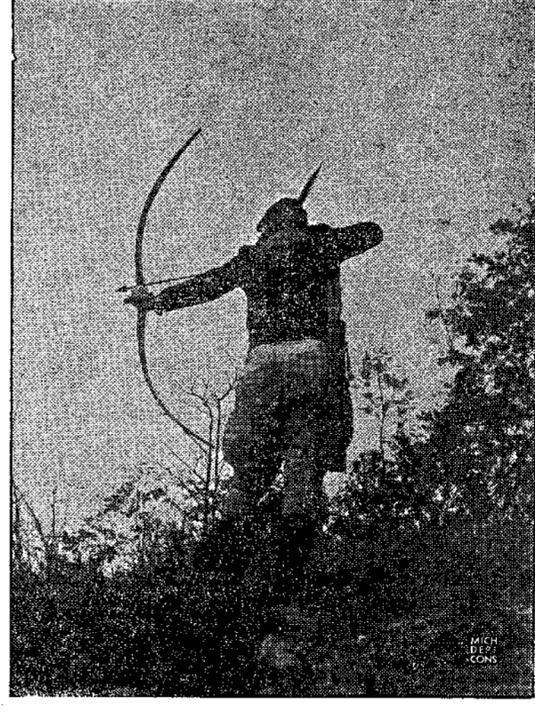

DEATHS James Dobson. James Dobson, 80, of Cass City, passed away Friday morning, Oct. 30, at the home of his son, William Dobson, in Flint following an illness of three weeks. Funeral services were held in the Munro Funeral home at 2:30 p. m. Sunday with the Rev. E. L. Morrison of North Branch officiating. Burial was in the Williamson cemetery. James Dobson was born at Teeswater, Ontario, December 29, 1861. He moved to Michigan in the fall of 1862 and settled on the farm in Grant township, Huron county. He has lived in and near Cass City since that time. On March 2, 1887, he was married to Miss Susanna Grey of Orangeville, Ontario, and for several years they made their home on a farm, seven miles north of town, and then moved to Cass City. One year later they bought the farm, two miles south and one-half mile east of Cass City, where Mrs. Dobson died May 20, 1938, and where Mr. Dobson became seriously ill three weeks ago and was taken to the home of his son in Flint. Besides Mrs. Dobson, two children preceded the father in death, Mrs. Mary Elizabeth Murphy who died in January, 1919, and Robert G. Dobson who passed away in 1935. Mr. Dobson is survived by one son, William, seven grandchildren and six great grandchildren. Robert Byers. Robert Byers, 60, passed away Saturday evening, Oct. 24, at his home, 3506 Harold St., Saginaw, following an illness of six weeks. Funeral services were held at 4:00 p. m. Tuesday from the Wallace-Hovey Funeral Home, the Rev. Mr. Brush, pastor of the Saginaw Presbyterian Church, officiating. Interment was in Forest Lawn Cemetery in Saginaw.

Claude Thornhill declares it happened in a nightclub the other evening: A lovely young thing stared at a man sitting at a near-by table and then asked her escort, "Who is that homely man?" Without wincing, the escort confessed that the man happened to be his brother. "Oh, pardon me," fustered the bundle of beauty. "But really, I hadn't noticed the resemblance." Australian Soldiers Get Alfalfa Ration

CANBERRA, AUSTRALIA. — Lucerne (alfalfa) is going to be mixed in food to soldiers in Australia. B. E. Isley, chairman of the food council, said. He said the decision to use lucerne was made on the suggestion of the nutrition committee, which found it had a high content of vitamins A and C.

Ammunition No Problem

Some deer hunters may have difficulty getting shells for popular calibers of deer rifles this fall, but ammunition is no problem for archers, as many of them make their own and re-use the arrows again and again. More than 1,000 archers hunt deer in Michigan November 1-14, taking bucks in the northern deer counties and bucks, fawns or does in Allegan county. Together they killed only 15 deer and one bear last season, but like fly fishermen they find the sport attractive for the thrill it requires.

DEATHS

Robert Byers was born in Port Huron, April 14, 1882, and when a small boy came to Samiac County. On Nov. 27, 1902, he married Miss Ida Andrews and for many years they made their home on a farm near Holbrook. Twenty-seven years ago they moved to Saginaw where Mr. Byers has been employed as a boiler maker. He is survived by his widow; two sons, Cecil of Saginaw and Darrel Byers of Detroit; two sisters, Mrs. Casper Whalen of Cass City and Mrs. Margaret Rhyndress of Flint; three brothers, Geo. Byers of Saline, Wilbert Byers of Flint and Ralph Byers of Saginaw; and five grandchildren.

CASS CITY DEFEATS MARLETTE ELEVEN

In a non-league game played here last Friday the local football forces showed too much power for a scrappy Marlette team and emerged with a 19-6 victory. This was Cass City's fourth win of the season as compared to two losses. The locals struck twice in the opening period as Kettlewell turned in two touchdowns runs. Cass City's scoring ended with another touchdown jaunt by Kettlewell in the third quarter. This time Kloc added the extra point. Marlette got their only score in the third period as the result of a furious passing attack. This Friday Cass City journeys to Bad Axe to meet an exceptionally strong team from the Huron County seat.
