

## Red Cross War Fund Drive Starts in Elkland Today

Goal of Elkland Township Is \$1,000; Rev. F. B. Smith Is Campaign Head.

The drive for funds to bolster the greatest force for mercy will commence in this community today (Friday), it is announced by Rev. Frank B. Smith, campaign manager for raising the Red Cross war fund in Elkland Township. The township quota is \$1,000. Persons who are not contacted by canvassers may leave their contributions at either bank in Cass City or at the Chronicle office.

Mr. Smith, in announcing the campaign, says: "The youth of our land are sacrificing everything to fight for American principle and practice and our boys are counting on us to support them in every way possible."

"Undoubtedly, our first and foremost obligation is to be constant in intercessory prayer to Almighty God in their behalf. We then should give tangible evidence of our sincerity by the wholehearted offering of our money."

"The American Red Cross is one organization fully devoted to the alleviation of pain and distress. The war time demands upon the Red Cross are of gigantic proportions. The extent of Red Cross help is governed entirely by our generosity."

"As you present your gift, try to catch the vision that you are personally helping everyone of the scores of Elkland Township boys in the armed forces."

## "Gay Nineties" Basketball Game Here on March 16

As basketball was played in the "Gay Nineties" will be demonstrated at the school gymnasium on Tuesday evening, Mar. 16, when business men of Cass City who haven't played in organized basketball for 10 years will romp around the floor and attempt basket shots. There'll be many a laugh and it is anticipated the door contributions will swell to a considerable extent the coffers of the Crippled Children's fund.

Auten's Wildcats, representing the north side of town, will have Andrew Bigelow as manager and will meet Reid's Professionals personally managed by Frank Reid. Dr. Morris will look after the welfare of the Wildcats and Dr. McRae has been chosen to keep the Professionals in condition. To Chalmer Young goes the difficult task of refereeing. He has Herman Doerr and M. C. McLellan as assistants. The high school band will play.

Dr. P. A. Schenck, at the ticket booth, will receive contributions ranging from 25 cents to a "sky limit."

Managers plan to publish the names of players in the Chronicle next week.

A "midnet" preliminary game is scheduled with school boys from the grades as players.

## MRS. ROWE IS WAAC RECRUITING OFFICER

Mrs. Mildred E. Rowe, secretary of the Tuscola County Civilian Defense Volunteer organization, has been named recruiting officer of the WAACs. She has her office on the second floor of the court house at Caro and is ready to receive applications for enlistments for this army auxiliary organization.

## MARY LOU MCCOY FIRST TO JOIN WAACS FROM HERE

Miss Mary Lou McCoy, daughter of Mrs. Ethel McCoy, of Cass City, is first to join the WAACs from this city. She is also the first to join from the Ford Highland Park plant, where she has been employed. Miss McCoy has passed all examinations and is subject to call at any time.

## NAZARENES BUY COOLEY RESIDENCE FOR PARSONAGE

Mrs. Fred Maier has sold the Cooley residence on South Seeger St. to the Nazarene Church congregation, who will use it as a parsonage.

Symbolic of the role the Red Cross is again playing, the 1943 Red Cross War Fund poster depicts the organization as a mother ministering to the needs of the men of the United States armed forces and the victims of war throughout the world. The poster is an appeal to all men and women for contributions to the War Fund. Lawrence Wilbur, noted illustrator, designed the poster. Helen Mueller is the model.

## Tuscola Boys to Market 20,000 lbs. of Live Pork

Youths Enrolled in Swine Feeding Project to Have It Ready by May 1.

"Twenty thousand pounds of live pork ready for market by May 1" was the prediction made last week by Harry Moxley and Bob Laser, Michigan State College specialists, after visiting all boys in Tuscola County enrolled in the F. F. A. 4-H Victory swine feeding project.

In general, boys are doing a good job of feeding although some will have to increase their feeding if their pigs are going to be finished by the time of the county show late in April, Laser said. Both Laser and Moxley emphasized that one secret to efficient and economical pork production is keeping plenty of good feed and water before the hogs at all times. It takes a certain amount of feed to keep the pig alive and after this requirement is met, the extra feed the pig eats will go into fat and growth, they pointed out. They also pointed out the value of protein supplements and emphasized clean comfortable quarters as factors for efficient pork production.

Each specialist visited a different section of the county with the agricultural teacher in that territory. Wm. Tulloch, Francis Ode, Clark Bullen and Richard Bogan, agricultural heads, supervised the visits in their respective territories.

## World's Day of Prayer Service

For a quarter of a century, the first Friday in Lent has been devoted by the missionary groups of Protestant Churches to a World's Day of Prayer service.

For those twenty-four hours, the world is circled by prayers arising from Christian hearts in every land where Jesus Christ is worshiped. Cass City churches will join with this host of Christians on March 12 at 2:30 p. m. at the Methodist church. This union service of devotions and prayers will feature special music and the recognition of the mothers, wives or other near relatives of our boys in National Service. The public is cordially invited to attend and participate.

A Gideon rally was held Sunday and 18 Gideons met at 8:30 a. m. in the E. A. Wanner home here when a short session was held and assignments given to various members present after which nine churches in Huron County were visited. Mr. and Mrs. Wanner visited the Latter Day Saint Church, 10 miles north of Cass City. At noon, 23 met at the Volk Restaurant in Bad Axe, where a banquet was served. Over \$300 were raised at the meetings Sunday.

A. R. Kettlewell and son, Dale, spent Wednesday and Thursday as business callers in Detroit.

## Paragraphs About Men in the Service

Sgt. Wm. J. Toner of Detroit spent from Sunday to Tuesday with his family here this week.

Pvt. Romney Horner returned to California Friday after a 15-day furlough spent with his parents, Mr. and Mrs. Robt. Horner, here.

After a ten-day furlough spent with his wife in Bay City and his parents, Mr. and Mrs. Lloyd Reagh, here, Pvt. Harry Reagh returned to Camp Atterbury, Ind., Thursday.

Marvin Moore, son of Mr. and Mrs. Arthur Moore, who enlisted in the Army Air Corps, left Cass City Thursday for Chicago and from there will go to a camp at San Antonio, Texas. Marvin graduated from Cass City High School in 1940.

Mrs. Arthur Holmberg and daughter, Joan, left Tuesday for a ten-day visit with relatives at Newberry. Mrs. Holmberg's brother, Major Geo. F. Swanson, of the Army Medical Corps, has just returned from Caledonia and is on a 14-day leave.

Mr. and Mrs. Lawrence Tibbals of Detroit left Sunday for New York City where they will reside. Mr. Tibbals, an employee of American Airlines, will be assistant supervisor of Station Procedure at LaGuardia Field. He is the son of Truman L. Tibbals of Ann Arbor, formerly of Cass City.

Lt. Ernest A. Kelly of Quantico, Va., writes: "Our class graduated and were commissioned Second Lieutenants on Wednesday, Feb. 24. Maybe it wasn't as impressive exercises as at West Point or Annapolis, but it means almost as much to us, who have had to go through all the hard work. About my standings—I am in second place in the company of about 130 men and in third place in the whole candidates' class of about 252 men. Now I will have 10 weeks at Reserve Officers' Class before being put on active duty."

## INTANGIBLE TAX MAN WILL BE HERE NEXT WEDNESDAY

Monte Bush, representative of the Michigan Department of Revenue, will be at the Pinney State Bank, Cass City, on Wednesday, Mar. 10, from 9:00 a. m. to 5:00 p. m., for the purpose of furnishing desired information and assisting taxpayers in the preparation of their 1942 intangible tax returns. All returns for the year 1942 must be filed on or before Mar. 31, 1943.

A. R. Kettlewell and son, Dale, spent Wednesday and Thursday as business callers in Detroit.

## Suspend Wheat Marketing Quotas

Notice of the suspension of the 1942-43 and 1943-44 wheat marketing quotas was received this week by Chas. B. Eckfeld, chairman of the Tuscola County Agricultural Conservation Committee.

The suspension of the marketing quotas by the secretary of agriculture on Feb. 23, 1943, was made because of increased demands for the use of wheat as feed in meeting the goals for livestock and poultry for our war needs.

Excess wheat stored in accordance with the provisions of wheat marketing quota regulations may now be released without the payment of the penalty. Elevators and dealers will not require the use of marketing cards after Feb. 23, 1943.

Growers who have given warehouse receipts for stored excess wheat may redeem these by calling at the agricultural conservation office.

## Community Club to be Host to High School Athletes

Coach Ben VanAlstyne of Michigan State Will Be the Speaker Next Tues.

Thirty-five high school athletes with their coaches, Chalmer Young and Harold Parker, will be the honored guests of the Cass City Community Club at their meeting Tuesday night, March 9.

One meeting each year has been set aside by the club to honor the high school boys who have excelled in one or more of the sports sponsored by the school. Last spring's baseball and track teams and this year's football and basketball teams are the honored guests. The baseball team won the Tuscola County championship and placed second in the Upper Thumb League and was coached by Harold Parker. The track team placed second in the county meet and third in the Upper Thumb meet and was coached by Lester Ross. The football team tied with Vassar for the Upper Thumb championship under the tutelage of Coach Chalmer Young. The basketball team is a favorite to win the State Area basketball championship in Class B at Cass City, Mar. 11, 12 and 13.

Coach Ben VanAlstyne, head basketball coach at Michigan State College, will be the speaker of the evening. Coach VanAlstyne has a national reputation as an outstanding college basketball coach and has been at Michigan State for the past 15 years. He will show some movies of his team's games. Charles Keen and his high school orchestra will furnish music during the dinner and program. Coach Chalmer Young will present letters to the football and basketball teams.

The ladies of the Bethel Church will prepare the dinner. Tickets will be sold under the new plan.

## Landscape Lectures Next Thursday

Combined Victory Garden and landscape lectures will be given by O. I. Gregg, garden specialist at Michigan State College, at meetings scheduled for Caro and Vassar on Thursday, Mar. 11, as follows:

Caro Court House at 2 p. m. (slow time).  
Vassar High School at 8 p. m. (fast time).

Mr. Gregg will illustrate his lecture with colored charts and colored slides. Community garden sites are to be arranged in both Caro and Vassar and in other Tuscola villages, so that every family in every Tuscola County village will have a good site on which they may plant a garden.

Garden plans and seed variety recommendations prepared by the Michigan State College garden specialists will be available to all who attend these meetings.

## HOSIERY SHIPMENT LEAVES HERE TOMORROW

Owners of discarded nylon and silk hosiery still have today (Friday) in which to contribute them to the war effort before the first shipment leaves Cass City. It is anticipated that 100 pounds will be shipped from here tomorrow. Collection depots for the discarded hosiery are Smith's Store, Prieskorn's and the Pinney Dry Goods Company.

## 30 More Tuscola Men Have Passed Induction Tests

Three Enlisted in the Navy and Two in the U. S. Marines.

Thirty Tuscola County men passed the physical tests at Detroit recently for induction into Uncle Sam's armed forces. Of this number, three enlisted in the Navy and two in the Marines. The following 25 men went to Fort Custer on Thursday, Mar. 4, for army induction:

Richard Schaffer, Vassar, acting corporal.  
John Putnam, Caro.  
Paul Hess, Caro.  
Remington Shingler, Vassar.  
Leonard Guilds, Cass City.  
John Homakie, Unionville.  
Hubert Reaser, Vassar.  
Donald Schaffer, Vassar.  
Burwyn Wilcox, Kingston.  
Rudolph Koshka, Gilford.  
Sidney Tobias, Caro.  
George Doran, Deford.  
Clifford Campbell, Caro.  
Alfred Will, Cass City.  
Joseph Eveland, Mayville.  
Edwin Ramlow, Mayville.  
Herman Englehart, Vassar.  
Charles Ball, Caro.

Robt. Witkowsky, Caro.  
Everett Childs, Fostoria.  
Clyde Thatcher, Fostoria.  
Richard Walker, Caro.  
Harold Smith, Caro.  
Donald Adams, Fairgrove.  
Leo Kehoe, Gageton (transferred from Washtenaw Co.)

Enlisted in Navy and Marines.  
Blinn Frent of Akron, Maynard Cragg of Gilford and Leroy Landon of Akron enlisted in the Navy; and Blane Smith of Cass City and Clifton Hillaker of Caro in the Marines.

Call for March 10.  
The Tuscola Draft Board has received a call for a group of men to take their physical examinations at Detroit on March 10.

About 75 were called to the Caro State Hospital at Wahjamega on Mar. 2 to receive their preliminary physical tests.

Boys Registered in February.  
The following 18-year-old men registered with the draft board:

You may agree or you may not agree with what the Republican legislature at Lansing is about to do to the Democratic-controlled state highway department, but you will probably agree with us on this:

The legislature's inclination to make the commissioner an appointee of the governor and not an elective official of the people is another bouquet for Harry F. Kelly, the new governor of Michigan.

Governor Kelly is said to favor the reorganization plan, whereby the governor's office would wield control and power in the spending of money for highways. He feels that centralized authority also brings responsibility, and that responsibility, for good roads in Michigan should logically and properly rest with the governor of the state.

This philosophy of public service prompted the appointment of Dr. Robert Ford of the University of Michigan to the newly created post of director of business administration, a glorified title for a trouble shooting efficiency expert whose chief assignment will be the elimination of overlapping governmental agencies and an accompanying simplification of government itself.

Logically the same idea would extend to the highway department, as we have observed before. Governor Kelly has not shown his hand openly in this direction, although he is said to have favored it.

In the legislature's debate on the highway plan, the foremost reason advanced by Republican advocates was the slogan-like idea of "taking the highway department out of politics." Would the Republicans be interested in the idea were the commissioner a Republican instead of a Democrat? Of course, the answer depends upon you were born.

## Special Services at Riverside Church

Rev. and Mrs. R. E. Burk

of Flint will assist the pastor, Rev. E. M. Gibson, in a series of revival services at the Riverside Menonite Brethren in Christ Church. They will furnish special vocal numbers with instrumental accompaniment. These services begin next Sunday evening and will continue for three weeks.

## Happenings in Thumb Towns and Villages

Items Gleaned from Chronicle's Exchanges and Other Sources.

The Sebawaing brewery, the only one in the Upper Thumb, had an output of 13,492 barrels as compared with 12,361 in 1941. Out of 30 breweries in the state, Sebawaing's plant is 20th in output in Michigan. Breweries in the Detroit area produced 84.6% of all beer brewed in the state last year. The war has failed to curtail the beer output in Michigan. In 1942, all breweries produced 3,225,079 compared with 2,992,390 barrels the previous year.

Morgan L. Steele, publisher of the Kingston Enterprise, is serving his 25th year as clerk in that village.

Prosecuting Attorney Thomas R. McAllister of Huron County has announced that the case of the accidental death of Otto Ewald, 56, of Centerline, who was killed in Bach on February 25, when struck by an automobile driven by Bernard E. Larkin, 17, of Cass City, is closed. A jury in an inquest held that both Ewald and Larkin were negligent. Mr. McAllister said Larkin had cooperated in every way with officers throughout the entire investigation.

## Miss Cross and Mr. Hurd Wed Saturday

Saturday afternoon, Feb. 27, in the home of Mr. and Mrs. Andrew Cross of Cass City, their daughter, Miss Doris Elizabeth, became the bride of Adelbert Hurd, also of Cass City, son of Mrs. Wallace Brown, of Flint.

The ceremony which took place at three o'clock before a background of pink and white and under a large white bell, was read by the Rev. George D. Bugbee, pastor of the local Nazarene Church. Mrs. Bugbee sang "I Love You Truly" and as the bride party took their places, she played the wedding march from Lohengrin.

The bride wore a street-length dress of heavenly blue crepe and a corsage of white carnations and snapdragons. She was attended by her sister, Lena May Cross, as maid-of-honor, who wore a dress of deeper blue and a corsage of pink and white carnations and snapdragons.

Donald Cross, brother of the bride, attended Mr. Hurd as best man.

Janiece Bugbee acted as ring bearer and carried the ring in a pretty white receptacle. Immediately following the wedding a luncheon was served, guests being waited upon by the Misses Beatrice McIntosh, Mildred McGregor, Marie Silvernail, Eula Dewey and Leola Lewanna. Thirty-five relatives and friends were present. Out-of-town guests were Mr. and Mrs. Wallace Brown of Flint, John Tewksbury and Mr. and Mrs. Geo. Wilkins of Kingston, and Miss Ella Cross of Birmingham.

Mr. and Mrs. Hurd are living in a second floor apartment of the George Severn Building on North Seeger Street.

Advertise it in the Chronicle.

## Cass City and Bad Axe Game Is First of Tourney Here

Five Upper Thumb Class B Teams Paired; Records Disclose No Favorites.

Representatives of Bad Axe, Caro, Cass City, Marlette and Sandusky high schools attended the meeting at Cass City, Monday, March 1, to draw for their respective opponents at the state sponsored "area" basketball tournament to be held in Cass City, Mar. 11, 12 and 13. The results of the "pairings" are as follows:

Thursday, Mar. 11, Cass City vs. Bad Axe at 8:15 p. m.  
Friday, Mar. 12, Sandusky vs. Marlette at 7:30 p. m. Thursday night winner vs. Caro at 8:45 p. m.

Friday, Mar. 13, the two winners of the Friday night, Mar. 12, games will play for the "area" championship at 8:15 p. m.

Caro High School won the Class B district honors at the Cass City tournament last year and will defend their laurels against four strong and evenly matched teams. Judging from the season's records of the five teams competing, any one might win the championship.

In the basketball games in which Bad Axe, Caro, Cass City, Marlette and Sandusky have met one another this year, the results were as follows: Bad Axe and Cass City broke even in two games; Bad Axe and Caro did likewise; Bad Axe defeated Sandusky once; Cass City has defeated Caro twice and Marlette once. Sandusky has defeated Cass City twice and Marlette once. Marlette's win column is the least impressive, but their team has shown real strength in their recent games. Sandusky, with Beatty, Woodard and Stokliker, three veterans of tournament play as mainstays, is the main threat to any of the schools championship aspiration. Cass City's fast moving team of clever ball handlers led by Kettlewell, forward; Bad Axe with its pair of high scoring forwards, Schmidt and Rice; and Caro with its rangy quintet led by their center, Meddaugh, would not be creating unexpected upsets should one of them win the "area" championship.

## Auction Sales

G. E. Krapf has sold his 100-acre farm in Elkland Township to Orva W. Spaid of Greenleaf Township. Mr. Krapf will have an auction sale of livestock and farm tools on Friday, March 12. Full particulars are printed on page 8.

Because of ill health, John O'Dell will quit farming and has arranged to have an auction sale on Wednesday, Mar. 17, on the farm 5 miles west and 1/2 mile south of Cass City. His advertisement will appear in the Chronicle next week.

## Caro Men Tell Rotarians of County's War Activities

Two Caro men representing two war activities in Tuscola County were speakers at the Rotary Club luncheon here Tuesday.

Alison Stone, recently named county air raid warden, told of the many activities of the Tuscola Civilian Defense. He said they involve civilian protection as well as service corps, the latter showing people how to get the greatest efficiency out of war work. Michigan produces one-third of the nation's war material, was one of the first states to organize for civilian defense and its set-up is considered a model for the country.

Clarence Bougher, county chairman of war bond sales, said the work is supervised by 29 executive chairmen in the county, who have committees formed to cover each walk of life in their respective areas. The county committees have a total of 464 persons participating regularly. In the pledge campaign conducted last May, 9,776 persons were contacted and 8,296 pledges were secured totaling \$781,104.46 for the year. The Cass City community, Mr. Bougher said, was the only area which has exceeded its quota every month. Their total quota, June to January inclusive, was \$86,692.00 and the sales were \$144,712.00.

Tax Notice.  
Wednesday, Mar. 17, is the last day on which I may receive Elkland Township taxes before making returns to the county treasurer. Alex Henry, Elkland Township treasurer.—Advertisement.

# Red Cross Needs \$125,000,000 To Finance Wartime Program

WASHINGTON, D. C.—Faced with the greatest wartime program in history, the American Red Cross will launch its 1943 War Fund appeal for \$125,000,000 on March 1, Chairman Norman H. Davis has announced.

Pointing out that the bulk of the fund will be used to expand Red Cross services to the men of the armed forces and their families, Chairman Davis urged every American man and woman to contribute to the fund.

With the approval of President Roosevelt, who also is President of the American Red Cross, the month of March is being observed as Red Cross Month. Walter S. Gifford, president of the American Telephone and Telegraph Company, is chairman of the Red Cross 1943 War Fund.

"Red Cross services to our armed forces and to the needs of distressed civilians on the battle and home fronts can be supplied only by great expenditures and sacrifices," Chairman Davis said. "We are exerting our utmost efforts to accomplish these tasks with the least possible drain upon the resources of the people in funds, time and energy. We must never falter in our determination to meet these definite obligations. The Red Cross

is confident that all our people will be generous in their support of the 1943 War Fund."

More than 65 percent of the fund received by the national organization will be devoted to meeting Red Cross responsibilities to the armed forces. These include the Red Cross overseas club program, recreation and hospital program, the stationing of field directors at all foreign and domestic military camps and bases, the huge surgical dressing production program, and the blood plasma project which recently was expanded to a total of 4,000,000 pints at the request of the Army and Navy.

Chairman Davis pointed out that the 1943 program will be vastly greater than the accomplishments of last year, in which the Red Cross aided millions of war victims through its foreign war relief program; gave aid to thousands of prisoners of war; collected 1,500,000 pints of blood for the armed forces; produced 520,000,000 surgical dressings, and aided more than 1,500,000 servicemen and their families.

The \$125,000,000 quota, he said, will finance the local, national and international work of the Red Cross for the entire year, barring unforeseen emergencies.

# Improved Uniform SUNDAY SCHOOL LESSON

### BIBLE TEACHINGS AGAINST DRUNKENNESS

LESSON TEXT—1 Samuel 30:16, 17; Isaiah 28:1-4, 7; Galatians 5:19-21. GOLDEN TEXT—"Strong drink shall be bitter to them that drink it."—Isaiah 24:9.

Sowing and reaping is one of those universal laws which applies in all realms of life. What we sow we reap, whether in the farmer's field, in our national life, or in the life of the individual. It is true physically, mentally, morally and spiritually. How surprising then that intelligent Americans think we can go on with the use of intoxicants which have destroyed other nations and expect to escape the same sad consequences. Professional men have wrecked their careers, business men lost their hard earned positions, and rich men dissipated their inheritances; and at the same time each of them has fallen into moral decay—all through their inability to control their desire for drink. Yet we continue to license its sale, and so another generation of young men must meet the same temptation.

Our lesson presents three results of drunkenness.

#### I. Military Defeat (1 Sam. 30:16, 17).

A crisis in the life of King David is related in this chapter. The Amalekites had taken Ziklag. The king and his family were prisoners, held by a host of barbarous men far too strong for them to oppose. He inquired of God and was told to attack. With his little army of 400 men he defeated them. Why? Because in a drunken debauch they were celebrating their victory of the day before.

This was not the first, nor the last, time that military defeat followed indulgence in alcoholic beverages. It has happened even in the present war. Have we learned the lesson? Will we avoid that danger?

In this country our armed forces and defense workers are constantly exposed to temptation—and how many of them fall, anyone may know who has eyes to see.

From distant battlefronts come disquieting reports that intoxicants are among the "supplies" which find quick transportation to the very front, where they are soon put to their destructive use.

#### II. National Decay (Isa. 28:1-4, 7).

Isaiah was a mighty voice against moral corruption, and for the righteousness of God. With true prophetic insight he saw beneath the outward prosperity and apparent glory of his people, and exposed the sins which would soon destroy them as a nation. Outstanding among these destructive forces was drunkenness.

Turning first to the northern kingdom of Israel (for the nation had now been divided), he tells them that though their valleys may be fertile and their cities resplendent, the collapse of all their boasted greatness will surely come if they live in revelry and drunkenness.

He speaks of the coming of "the mighty and the strong one" (v. 2) who will be like a destroying storm. He refers to Assyria—Itself an ungodly people, but used of God to scourge His own people who had become indulgent and sinful.

There is a truth here which we need to learn. When nations forget God and fail in their responsibilities to Him and to their fellow men; when they become vain and self-indulgent, God will bring judgment upon them. He may use as His instrument nations who are themselves pagan, to accomplish His purpose.

The people should be led in repentance and righteousness by their religious leaders. How sad that some set an example in the other direction. Others who live personal lives above reproach are silent on these important questions lest they give offense to someone who may make it difficult for them. How sad!

#### III. Eternal Destruction (Gal. 5:19-21).

Military loss and national declension should be enough to align every right thinking person against intoxicants. But far worse is the fact that they bring many men and women into eternal separation from God.

In this passage "drunkenness and revellings" find their proper place with the other works of the flesh which close the door to the kingdom of God. There is no use trying to dismiss or cover it up as the unfortunate weakness of an otherwise nice person, or the natural result of a bit of social fellowship.

America has too long regarded a drunken person as a joke—or at most a bit of a nuisance to be indulged and tolerated. The Bible says that "they who practice such things shall not inherit the kingdom of God" (v. 21).

That is plain enough, isn't it? Mr. Drinker, outside or inside the church, had you better not think about that before you drink again? Church of Christ, is it not time for you to do something more effective to deliver the young men and women of America from the constant temptation now placed before them?

**Food Value** A recent study shows that the green leaves of lettuce and cabbage contain from 1½ to 3 times as much iron as the white bleached leaves, and about three times as much calcium.

## NOVESTA.

March is not coming in like a lamb.

Mrs. Ralph Youngs is able to be about the house again, after her illness.

Mrs. John Steinman, who is employed in Detroit, spent the week end at her home here.

Mrs. George McArthur spent Sunday at the home of her brother, C. F. Henderson.

Mr. and Mrs. A. H. Henderson visited Sunday afternoon at the home of Mr. and Mrs. Ralph Youngs.

Mrs. Margaret Little spent one day last week at the home of her niece, Mrs. Robt. Jacoby, in Caro.

Bruce Spitzer and Leslie Peasley went to Owosso on Sunday night, returning home on Monday. Mrs. Spitzer, who has been visiting relatives in Lansing and Owosso, returned home with them.

Mrs. Emma Churchill is spending a few weeks visiting her son, Edgar Wade, in Evansville, Ind.

Mr. and Mrs. Everette Field and family of Port Huron came Saturday to spend the week end at the John Pringle home. They were detained over the first of the week by the illness of Mr. Field.

The Ladies' Aid Societies of the Novesta F. W. B. Church, the Church of Christ and the Deford Methodist Church will hold their joint aid dinner in the church annex at Deford Church on Wednesday, Mar. 10.

A roof fire on the dwelling on the Kenneth Churchill farm caused some excitement Sunday morning. A general phone alarm was sent out but was confused with Kenneth's home in Deford, so that only

Claud and Leslie Peasley arrived at the right place. However, by prompt work the fire was soon under control and small damage was done.

### FIRST-AID to the AILING HOUSE

by Roger B. Whitman

Roger B. Whitman—WNU Features.

#### COPPER SCREENS

Question: How can I care for my copper screens to prevent dark streaks from running down the window sills? How can I prepare them for storing during the winter?

Answer: Clean the screens by scrubbing with scouring powder and a stiff fiber brush. Then rinse with clear water and allow to dry. Wipe with benzine (being very careful about fire), and then apply a coat of two parts good quality spar varnish and one part each of linseed oil and turpentine. Or you could use a special thin kind of varnish that can be wiped on. When dry, lay the screens flat in a dry place and cover with newspaper. Screen enamel can be used in place of the varnish.

#### Rusty Nailheads

Question: Flat-headed nails on the boards under the eaves of my house have rusted badly and show through the paint. How can I prevent this from happening the next time I paint? Would touching them up with red lead help?

Answer: Yes, but they should be sandpapered first to remove the rust. Or you could touch them up with shellac. If it is at all possible, better results will be obtained by driving the nailheads slightly below the surface of the wood. The space thus created then is filled with putty and paint applied over it. A nail set is handy for this.

#### Upholstery at Home

Question: I should like to do over some of my upholstered furniture myself, and think I could do a good job if I had some directions. Are there any booklets that I could get?

Answer: The New York State College of Home Economics at Cornell University will send you on request Extension Bulletin No. 295, "Refinishing Old Furniture," by Florence E. Wright, (June, 1934) and Extension Bulletin No. 256, "Reconditioning Furniture," by the same author (April, 1933). I believe these will be sent free to residents of New York state. There may be a small charge for non-residents.

#### Black Incrustations on Silver

Question: How can I clean off the black incrustations from my silver that silver polish does not remove?

Answer: That black corrosion is practically impossible to remove at home. Ordinary tarnishing can be taken off with polish, and sometimes with a hot water and washing soda solution in an aluminum pan. But the black corrosion should be removed by a silversmith, who probably will not make an excessive charge.

#### Unfinished Bookcase

Question: I have an unfinished bookcase on which I should like to get a wax birch color effect. How can I do this?

Answer: Use what is known as a penetrating wax finish; it comes in light, natural and other wood colors. The better stocked paint stores sell it. Or give the wood a coat of thin white shellac, and then finish with two coats of paste wax.

#### Storing Furniture

Question: I intend to store some pieces of furniture in the attic, which is not insulated. What precautions should I take against summer heat and winter cold?

Answer: After cleaning the furniture, polish with a paste wax. Cover the pieces with a heavy kraft paper. If the finish on the furniture is of a good quality, heat and cold should not damage it.

#### Fireproofing Beams

Question: Do you know of any fireproof material I can put on the beams in the basement above the furnace?

Answer: Dealers in asbestos products sell a wallboard material composed of cement and asbestos which you can apply on the basement ceiling. Building material dealers in your community should be able to get the board for you.

#### Smoking Fireplace

Question: Why does our wood-burning fireplace smoke? Our furnace is connected to the same chimney as the fireplace. Could this be the cause?

Answer: If furnace and fireplace are connected to the same flue, that is undoubtedly the cause.

#### Fireplace Coal

Question: We have just bought a coal grate for our fireplace. What size anthracite should we burn in it?

Answer: Use nut size.

## WHY CANNED FRUITS, VEGETABLES, AND SOUPS ARE RATIONED

Every week we are sending shiploads of canned goods to feed our fighting men and our fighting allies in Africa, Britain, and the Pacific islands. We must see that they get all the food they need.

We at home will share all that is left. Point Rationing will be used to guarantee you and everyone a fair share of America's supply of canned and processed fruits and vegetables, soups and juices.

### HOW they are rationed

1. Every eligible man, woman, child, and baby in the United States is being given War Ration Book Two. (This book will not be used for sugar or coffee.)

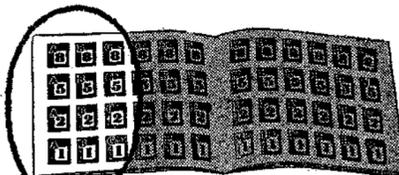

2. The BLUE stamps are for any kind of Canned or Bottled Fruits and Vegetables, Canned or Bottled Juices and Soups, Frozen Fruits and Vegetables, Dried Fruits.

(The red stamps will be used later for meat.)

3. The stamps in this book are POINT stamps. The NUMBER on each stamp shows you how many POINTS that stamp is worth.

4. The LETTERS show you WHEN to use the stamps. The year will be divided into rationing periods. You can use all BLUE stamps marked A, B, and C in the first rationing period. A, B, and C stamps cannot be used after the first rationing period ends.

5. You must use the BLUE stamps when you buy ANY KIND of the rationed processed food. See the official list, showing every kind of rationed processed food, at your grocers. Different kinds of these foods will take different numbers of points. For example, a can of beans may take a different number of points from a can of peas.

6. Of course, the more of anything you buy the more points it will take. For example, a large can of peas takes more points than a small can.

7. The Government will set the points for each kind and size and send out an Official Table of Point Values which your grocer must put up where you can see it. The Government will keep careful watch of the supply of these processed foods and make changes in point values from time to time, probably not oftener than once a month. The Government will announce these changes when it makes them and they will be put up in the stores.

8. The number of points for each kind of processed food will be THE SAME in ALL STORES and in all parts of the country.

WATCH THE OFFICIAL TABLE OF POINT VALUES

#### MACHINE COUNTS TREES.

A new grading and counting machine constructed and put in use at Michigan State College will save some of the labor of forestry nursery crews supplying farmers in the state with nursery stock. Prof. P. W. Robbins constructed the labor saver after observing a threading apparatus built by Harry Turner of East Tawas for wrapping seedlings in the Huron National Forest. Adoption of the grading machine by crews in several forest reserves in the state has followed. In one year of use at the college the machine makes it possible to grade and tie 1,540,000 seedlings in 15 days.

#### MORE DRIED VEGETABLES.

Dehydrated vegetable production is due for a sharp increase in 1943, according to a survey indicating 187 new drying plants will go into operation. Twenty plants were available a year ago.

Milk bricks are being made. Thirty-three pounds of powder from an original 29 gallons of milk are pressed into a nine-inch cube under high pressure.

#### Substitutes

Cheese, beans, eggs, and poultry products provide good protein foods to take the place of beef and pork.

#### BEETS GO MECHANICAL.

Mechanical thinning of beets gets the approval of the agricultural research administration of the U. S. Department of Agriculture. Nine years of research indicate customary hand blocking and thinning requires more than 27 hours of labor an acre where yields average about 12 tons of beets to the acre. Complete mechanical thinning required only 2.45 hours an acre, with not much difference in yield.

#### Bird-Hunters Beware

Sheppard Field sportsmen may not go on a shooting of the dove without a license. The Texas game commission has also placed a ten-bird limit on dove hunting, and specified that guns used (rifles are illegal for shooting migratory birds) must hold only three shells. Hunting period is from sunup to sundown.

#### Riding Horses Again

At Yakima Indian agency, Washington, automobile driving has been cut more than one-third by Indians and agency employees, who are riding horses again to save rubber and gas.

#### The Only Human Sense

Sight is the only human sense which can reach out beyond the Earth and bring us knowledge of the planets, stars and suns in the universe about us.

### Champion Beef Picked at M. S. C.

Winner of the trophy in the 1942-43 Michigan beef calf feeding contest has been announced by the extension service of Michigan State College.

A purebred Aberdeen Angus steer entered in the contest by Hendren Brothers of the Grand River Stock Farm, Webberville, was declared the winner. This steer was a stablemate of the grand champion steer of the Farmers' Week show. The two steers were chief contenders for the trophy offered by the Michigan Livestock Improvement association.

Two factors are considered in selecting the trophy winner. The show record at Farmers' Week counts 40 per cent, and the gain in weight during a seven months' feeding period previous to the show counts 60 per cent. The winning steer ranked third in rate of gain, and sixth as an individual among the 47 steers judged by the packers and cattle experts. The champion steer of the show was eighth in rate of gain.

High-gaining steer of the contest was a Shorthorn owned by Eldon McLachlan of Evart. This animal was fourteenth in the show, and fourth in the scramble for the trophy. He was the champion Shorthorn in the show and gained 287 pounds daily for 216 days. Second steer in rate of gain was a grade Hereford steer owned by Anton Chmielewski of Iron River, with a gain of 271 pounds daily for 227 days. Chmielewski had the high-gaining steer in the contest two years ago.

Reserve grand champion steer of the show was shown by George H. Coe of Ionia and this animal ranked thirteenth in rate of gain with 281 pounds daily. He was fifth in the race for the cup.

Slaughter records on the steers sold at auction following the show were considered good. Nine steers among the first 11 in the show dressed 68 to 65 pounds of chilled carcass for each hundred pounds of live weight. The champion steer and the reserve champion steer each dressed 64 per cent.

### COWS EAT BETTER.

How much grain does the average Michigan cow get daily? The answer, according to federal reports, is 6.5 pounds in February, 1943. That is six tenths of a pound more than a year ago. The increased feeding for average cow is recommended by Michigan State College dairy extension specialists. Farmers already feeding their animals according to herd test arithmetic usually feed more than the average dairyman does out.

## Best Gardeners To Win Prizes

Michigan's best Victory Gardeners will be eligible to win merit awards and war bond prizes for their efforts in 1943, under plans of a statewide contest committee.

Local contests in every county in the state will precede the naming of the statewide champions, according to Paul Krone, chairman of the Michigan Victory Garden committee.

The movement is sponsored by the Michigan Horticultural Society, with the cooperation of the Michigan Horticultural Council, the Michigan Council of Defense, the State Department of Agriculture, Michigan State College and other horticultural organizations, both commercial and amateur.

Each county Victory Garden committee, according to the general plan, will divide the rural area of the county into districts. Each town or city, under the county plan, also will be divided into districts to simplify judging.

Seven basic classes will designate the best farm vegetable garden, the best urban or suburban vegetable garden, the best home ground including vegetable garden all maintained by owner or tenant, the best home grounds maintained with hired help, the best school garden, the best junior garden and the best home grounds, including vegetable garden, entered by a member of the Michigan Horticultural Society.

Prizes within counties will be determined locally. Statewide, the winners will receive awards ranging from \$100 war bonds to \$25 war bonds in each class except for the school and junior gardens for which awards are to be determined. County fair exhibits and harvest shows with suitable displays from Victory Gardens are being encouraged, with premiums to be announced.

Scrap Farmers should remove any good parts from old machinery before turning the machinery into scrap.

## DEATHS

Anthony Bentler. Anthony Bentler, 79, passed away at 4:45 a. m., Saturday, Feb. 27, at his farm home, 4 miles west and 2 1/2 miles south of Cass City, following a four weeks' illness.

Funeral services were held at 2 p. m. Tuesday from the Keehn Funeral Home in Cass City. Dr. Ray E. Willson, pastor of the Caro Methodist officiated and burial was in Almer Cemetery.

Anthony Bentler was born June 14, 1863, in Manchester, Michigan, and was married to Miss Etta Belle Hall on Mar. 2, 1899. He has lived in this vicinity about 50 years.

Surviving are his widow; two sons, Earl of Detroit and Alfred at home; five grandchildren; one great grandchild; and a sister, Mrs. Wm. Engle, of Ypsilanti.

He was a member of the Gleaner Lodge.

Mrs. William Holtz. Mrs. William Holtz of Pontiac, formerly Miss Mina Russell of Gagetown, passed away Wednesday, Feb. 24, in Pontiac General Hospital of bronchial pneumonia.

She was born Mar. 24, 1878, near Gagetown, and was united in marriage with Wm. Holtz of Cass City on April 15, 1914. A few years later, they moved to Pontiac where they have since resided. To this union five children were born. Four passed away in infancy.

She is survived by her husband; one son, Charles; a daughter-in-law; one granddaughter; four brothers, Will, Archie and Alfred Russell of Gagetown and John Russell of Caro; two sisters, Mrs. Myrtle Deneen of Cass City and Mrs. Margaret Evens of Gagetown.

Funeral services were conducted in the Hunton Funeral Home, Friday, at 2:00 p. m., Rev. Mr. Reaver officiating. Burial was in Perry Mt. Park Cemetery. The floral offerings were many and beautiful.

Angus McCallum. Funeral services for Angus McCallum, 71, who passed away Friday evening, Feb. 26, at his home in Bad Axe, were held at 2 p. m., Monday from the Bad Axe Presbyterian Church. The Rev. Manson Lowe officiated and interment was in Colfax Cemetery. Mr. McCallum died from a heart attack.

Angus McCallum was born in Glenco, Ont., April 6, 1872, and came to Huron County with his parents when a boy. He lived for many years in Sheridan Township and he and his wife moved to Bad Axe 22 years ago.

Surviving are his widow; a son, Neil McCallum, in the U. S. Army; a daughter, Mrs. Florence King, of Glen Falls, N. Y.; two brothers, John and Colin McCallum, both of Cass City; and two sisters, Mrs. Katherine Campbell of Detroit and Mrs. Margaret Love of Hamilton, Ont. A brother, Alexander McCallum, died on Jan. 20 last.

Mr. McCallum was at one time a marine engineer on the Great Lakes. He was employed as an engineer with the Detroit Edison Co. and the City of Bad Axe for many years.

Stewart Ballagh. Stewart Ballagh, 61, of Rochester died Sunday morning, Feb. 28, in St. Joseph's Hospital, Pontiac, following an operation performed Saturday. He had been ill for several months. The body was taken to the T. Z. Nichols Funeral Home in Rochester, where Rosary services were held at eight o'clock on Tuesday evening. Funeral services were conducted at St. Andrews Catholic Church at Rochester at 10 a. m. Wednesday and the remains were brought here for burial in Elkland Cemetery.

Stewart Ballagh was born in Bruce County, Ontario, Aug. 29, 1881. He had been employed by the Ferry-Morse Seed Co. at Rochester for many years and had resided on the Ferry-Morse farm. Surviving are his widow, the

former Mary McClorey; six children, Mrs. Alice McClorey, Mrs. Mary Gazette and Mrs. Mildred Ferguson, all of Rochester; Earl Ballagh of Lake Orion; Mrs. Pearl McCarthy of Pontiac, and Lester Ballagh of Birmingham. He also leaves five brothers and 14 grandchildren.

Mr. Ballagh is a son-in-law of Mrs. Dan McClorey of Cass City.

### Tea for You, With Delicious Cranberry Pastries!

(See Recipes Below)

#### ... And Cookies, Too!

You may not serve tea, and you may not even have coffee, but you still like that pause in the afternoon with a few good friends, to mull over the happenings of the day, to get philosophical over the events that touch all of us. But have that pause whenever possible, even if you have just fruit juice and a few cookies or cakes. It's as important as the bigger things you do.

Have a hot or cold drink as the climate dictates, flavor them with honey if the sugar supply is low. Some supplies of tea are still obtainable for the hot or iced beverage, if you use the coffee ration at breakfast.

Chocolate and cocoa are obtainable now and then and make excellent hot beverages. Made with milk, they're nourishing, too. And if you make them with canned milk they're delightful. Somehow, the canned milks have an affinity with chocolate beverages.

Fruit juices have been a summer standby, but you should discover their winter uses, too! Hot lemonade is delightful as are combinations of lemon, orange, grapefruit and pineapple juice.

Those of you who like spending cold afternoons in front of the open fire will enjoy a small glass of a cool drink with a few tasty cookies. For this purpose, try mixing equal quantities of cranberry and orange juice or apricot and pineapple juice served in pretty glasses with cookies.

Small cakes and cookies are an attractive accompaniment with refreshing drinks. Our first one today is a sugar-saver, butter-saver, quickly and easily made:

- Cranberry Fingers.**  
(Makes 24 fingers)
- 4 tablespoons butter or substitute
  - 2 cups sifted all-purpose flour
  - 3 tablespoons sugar
  - 1 egg
  - Milk
  - 1 1-pound can jellied cranberry sauce

Grated rind of 1/4 orange  
Work shortening and sugar into flour, and mix to a light dough with beaten egg and milk, using only enough milk to moisten. The mixture should be dry rather than wet. Divide into two portions. Roll one portion to an eighth of an inch thickness, place on a greased cookie sheet, and spread with crushed cranberry juice. Sprinkle with grated orange rind. Wet edges and cover with remaining dough, rolled to fit, pressing edges firmly together. Brush with milk, sprinkle with sugar and bake in a moderately hot (375-degree) oven about 30 minutes. When cool, cut into finger strip size for serving.

Oranges enter the picture again, this time combined with maple syrup.

**Lynn Says:**  
Handy Hints: When a recipe calls for sifted sugar or flour sift the ingredient before you measure it, so you'll get an accurate measurement.

In mixing cakes, add flour mixture to creamed sugar, shortening and egg before adding the moist ingredients, then alternate and add dry ingredients last. You'll get a better grained cake. Muffins are beaten just enough to blend ingredients together. Don't overbeat.

Greasing cookie, cake and muffin tins with a mixture of pancake, made by blending 1/4 cup shortening with 1/4 cup flour prevents sticking.

- This Week's Menu**  
(Makes 69 cookies)
- Pork Kidneys with Scrambled Eggs
  - Mashed Potatoes Diced Beets
  - Lettuce with French Dressing
  - Whole Wheat Muffins
  - Apple-Cheese Crisp Beverage

up to make a drop cookie:

- Orange Drop Cookies.**  
(Makes 69 cookies)
- 2 tablespoons grated orange rind
  - 1/4 cup butter or substitute
  - 1 cup maple syrup
  - 2 eggs, beaten
  - 2 cups sifted flour
  - 3 teaspoons baking powder
  - 1/2 teaspoon salt

Cream together orange rind, shortening, maple syrup. Add beaten eggs, then flour sifted together with baking powder and salt. Drop the batter by spoonfuls onto a greased baking sheet and bake in a moderately hot (375-400-degree) oven and bake about 10 minutes or until lightly browned.

Molasses 'n apple butter were favorite ingredients of cookies in grandmother's time, and now they come in for a grand encore:

- Old-Fashioned Molasses Cookies.**
- 3 1/2 cups sifted all-purpose flour
  - 2 teaspoons baking soda
  - 1/2 teaspoon salt
  - 1 teaspoon ginger
  - 1/2 cup butter or substitute
  - 1/2 cup sugar
  - 1 egg
  - 1/2 cup apple butter
  - 1 cup molasses

Sift together dry ingredients. Cream together butter and sugar, add egg and beat together until light and fluffy. Add apple butter and molasses and blend together thoroughly, then mix in sifted dry ingredients. Chill for 2 hours or more. Roll as thinly as possible and cut into large cookies. Place on a lightly greased cookie sheet and bake in a moderate (375-degree) oven for 10 minutes. These cookies are crisp when baked, get soft if stored in tin for a day or so.

Honey and sour cream are an unbeatable combination in a cupcake, and here they are lined up with spices for an extra deliciousness:

- Honey Spice Cupcakes.**
- 1/2 cup butter or substitute
  - 1 cup brown sugar
  - 1 cup honey
  - 3 egg yolks
  - 2 cups flour
  - 1/2 teaspoon salt
  - 2 teaspoons ground cloves
  - 2 teaspoons allspice
  - 2 teaspoons cinnamon
  - 1 teaspoon soda
  - 1 cup thick, sour cream
  - 3 egg whites

Cream butter, add sugar and honey, creaming well. Add egg yolks, one at a time and beat well. Sift dry ingredients and add alternately with sour cream, beating after each addition. Fold in stiffly beaten whites of eggs. Bake in greased muffin tins in a moderate oven (350 degrees) 30 minutes or in two greased cake tins.

Your icing for the cupcakes should be a halo of white swirls of honey icing which will not crack—and can be whipped up in a hurry:

- Royal Honey Icing.**
- 1 egg white, stiffly beaten
  - 1/2 cup honey
  - 1/2 teaspoon vanilla

To the stiffly beaten egg white, add honey slowly, beating continually until icing will stand in peaks. Fold in flavoring.

WEEKLY NEWS ANALYSIS

Curb on Wheat Production Is Lifted; New Foods Restricted as Housewives Get Initial Taste of 'Point' Rationing; Red Army Drive Meets New Successes

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

Hailed as the new scourge of the submarine, this mighty new land-based patrol plane, the Vega PV-1, may prove to be the navy's answer to undersea warfare. The PV-1 carries "ash can" depth charges, or torpedoes, and is the first sub-buster in production to fill the navy's need for twin-engine, land-based aircraft with plenty of range and striking power.

POINTS: For Rationing and Study

Moving quickly, government agencies placed three varieties of food under control as the nation lined up for registration for the No. 2 ration book to be used for canned, bottled and processed vegetables, fruits and juices.

Shortly after the department of agriculture announced rationing of dried beans, peas, lentils and dried and dehydrated soups, the Office of Price Administration placed wholesale ceilings approximating 40 cents a dozen on eggs and froze prices of fresh vegetables at the levels prevailing between February 18 and 22.

These moves put almost 95 per cent of all food under some sort of government regulation. The OPA's action came as the nation's housewives still studied the effect of the newly announced point values of the various canned, bottled and processed foods rationed. To many, point values proved much higher than expected and undoubtedly will lead to numerous revisions in family fare.

On top of all this came reports from the Capitol that cheese, butter, fats and oils might be included in the next rationing program, scheduled for meat.

WHEAT BAN: Has Been Lifted

AAA wheat marketing quotas for 1942 and 1943 have been suspended in what was announced by the department of agriculture to be a move designed to insure adequate wartime supplies of the grain for food—human and livestock.

Under the marketing quota system only wheat grown under their AAA planting allotments could be sold, used or fed by farmers. Excess wheat so disposed of had been subject to a 54 cent per bushel penalty tax for the 1942 crop and it previously had been expected that this penalty would amount to 60 cents on the 1943 crop. With the quotas suspended these restrictions were lifted.

Secretary of Agriculture Claude Wickard declared that when the 1943 quotas were announced in the fall of last year this country had a record supply of 1,613,000,000 bushels of wheat—enough to supply normal needs for two years. At that time farmers were asked to use extra wheat land for other war crops. New consumption of wheat for human and livestock food has gone up and as a consequence the restriction had to be lifted to insure supply.

RUSSIANS:

Continue Drive

There was little pause for celebration as Russia's army marked its 25th anniversary but well the Nazis knew that the Russians had an army. For all along the broad front the German retreat continued. From the northern anchor of the Axis line in South Russia at Orel to the northwest Caucasus the Red drive pushed Hitler's troops toward the Russian border.

Premier Stalin's message on the anniversary proclaimed the mass expulsion of the Axis forces was in flood tide and would not soon abate. He praised his soldiers for their fighting spirit and urged them to be unrelenting in their future battles.

Meanwhile the Berlin radio admitted the Reds were smashing through in several sectors near the Dnieper river but this source also declared that "the far reaching aims of the enemy had failed."

ALLIED ACTION: Renewed Demands

Renewed demands in London for a second front came from two sources on the heels of Josef Stalin's warnings that "the enemy has not yet been defeated."

Ivan Maisky, Soviet ambassador to London, in a fighting speech declared that Russia expects "an early realization of the military decisions taken at Casablanca."

While acknowledging that the successes of the Soviet army were "very encouraging," Maisky pointed out that they were being achieved at a tremendous cost of Russian lives and property. It is natural, therefore, he said, that the USSR expects early Allied action.

Speaking before the house of lords, Lord Beaverbrook reiterated demands for a second front, declaring that "whatever may be the plans of the Germans, we should strike and strike now before they can regroup their divisions. . . . If another attack is made on Russia, June may be the date, so we must strike quickly if we are to be ready. We must invade northwestern Europe now."

FINLAND:

Tired of War

Ever since the re-election of President Risto Ryti the world had wondered whether Finland would make a bid for separate peace with Russia.

When Finland called home her ministers to the Vatican and Germany the rumors of a separate peace bid were given impetus. But official dispatches from Helsinki announced that Georg A. Gripenberg and Toivo M. Kivimäki, ministers respectively to the Vatican and Berlin, had been summoned home "for

ARCHBISHOP SPELLMAN Visitor to the pope

a conference in connection with the reorganization of the government." Two factors gave credence to such belief. First was the possibility that the Vatican might be asked to act as intermediary (bolstered by the visit of the Most Rev. Francis J. Spellman, archbishop of New York, and Pope Pius XII), and second was a suggestion made by Undersecretary of State Sumner Welles that Finland discontinue immediately "effective military aid to the mortal enemies of this country."

ARMED FORCES: Let George Do It

"Since when has America adopted as its national policy, 'Let George do it?'" asked Robert P. Patterson, undersecretary of war, as he discussed the need for putting 10,800,000 men into the armed forces by the end of this year. He defended this plan by declaring that this was the number needed as judged by the commands and staffs of both the army and the navy.

"Full account has been taken of the ability of American industry and labor and agriculture to produce the supplies needed by our forces, our Allies and by our civilian economy," said Patterson, and he went on to point out that China had been actually engaged in warfare for five and a half years, that Great Britain by the defense of its homeland had come the closest of the United Nations to an "all out" struggle and further advanced the point that the Russians "have killed more Nazis than all the other United Nations combined."

Then he inquired whether it was U. S. policy to "Let George do it!"

U-BOATS:

Sill Grave Menace

Sinking of two American transports in the North Atlantic with a loss of 850 lives underlined a statement by Secretary of the Navy Frank Knox that the submarine remains a grave menace to the entire Allied war effort.

Coincident with his statement, Knox revealed that an American destroyer succeeded in trapping a U-boat in the Atlantic and sinking it with a barrage of five-inch shells. An American gun crew aboard a freighter fired four shots to sink a Jap submarine that had torpedoed and severely crippled their craft in the Pacific, Knox also revealed.

Germany is building U-boats faster than we are sinking them, Knox said. The new submarines have longer cruising range than the old and can submerge to greater depth. The U-boat menace is expected to reach its peak this spring.

MERCHANT SEAMEN: Lauded by Marines

Charges that merchant seamen refused to unload ships at Guadalcanal were denied by a house naval affairs subcommittee which reported that in all cases American merchant seamen co-operated fully with marines in the Solomon Islands. The subcommittee's report included letters from highest marine corps officials praising "co-operation, efficiency and courage" of U. S. merchant seamen.

Most Feed Crops Best Put in Silage

Keeping Essential Vitamin A Necessary

Almost any feed crop is worth twice as much an acre when made into silage as it is in the barn or stack.

This is especially true of corn and grain sorghum crops which will not make much grain. It applies equally to sweet sorghums, Johnson grass and sudan.

If corn and grain sorghums can be left standing until the grain is hard, they will make better silage, provided the majority of the leaves still are green. Nevertheless, these feeds should be made into silage even though the leaves are burned or

Sheep are playing a double role in Uncle Sam's fight for freedom: Food for fighters, workers, allies; fleece lined clothing for soldiers in arctic climates.

dried up. But all vitamin A would be lost in the latter case.

Vitamin A is very essential, especially if silage is its only source, and the main origin of vitamin A for livestock is green feed.

It is even more necessary to have the sweet sorghums, such as redtop cane and seeded ribbon cane, ripe for making silage. Immature sweet sorghums make sour silage. Johnson and sudan grasses should be headed out and the seed in the dough stage.

Any of the grasses and legumes should be dried until their water content is reduced to 35 or 40 per cent before being put into the silo. This means about half dry enough to bale for hay.

When a majority of the leaves of corn, grain and sweet sorghums, and Johnson and sudan grasses are green, it is not necessary to add water if the feed is chopped in one-quarter-inch lengths or less with an ensilage cutter when put in the trench.

If the majority of the leaves are dry, it will be necessary to add enough water to wet the feed about like a heavy dew. Damp-en bundle feed even though the majority of the leaves are green.

Agriculture in Industry By FLORENCE C. WEED

Mints

An effort is being made to grow in the United States some commodities which are becoming scarce and will soon be unobtainable. Manufacturers and dealers in medicines, spices, and condiments who depend on a steady supply of these botanicals from abroad, are urging that they be produced here in greater quantities.

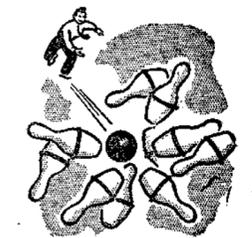

Sage, the savory herb used in cooking, can be easily and profitably grown here. Our American sage is usually of a better quality than the imported article, and growers are being offered very attractive prices for their crop. It is used widely in the meat packing industry and is also a standard ground spice for the pantry shelf.

Sage is one of the 12 species of the mint family and can be started by cuttings or simply dividing the roots. From this family come many other crops which are commercially marketed. Spearmint is used for mint sauces and for flavoring chewing gum; peppermint yields oil and menthol used in confections, flavorings and medicines. Pennyroyal is used in medicine and the lemon-scented leaves of bergamot are much used in perfumes.

Agricultural Notes

Sunlight and soybeans are suggested by the California college of agriculture to poultrymen searching for substitutes to replace fish oils and meal in poultry rations.

Cannibalism in young chicks is best controlled by keeping the brooder house as cool as practical and by covering the windows with a single thickness of paper to prevent brightly lighted spots within the house.

Mason Saves Machine Man Hours

When 24-year-old Sebastiano Portuguese went from laying bricks to cutting cam shafts for the Cadillac Motor Car division of General Motors corporation, Detroit, Mich., he brought along some ideas that won for him the WPB Certificate of Individual Production Merit. One suggestion was that two operations could be done by one man instead of two if a bar were used to tie together two handles on spindles used in drilling cotter key holes. This operation is expected to save 4,000 man-hours a year.

On the day of any election the polls shall be opened at seven o'clock in the forenoon and shall be continued open until six o'clock in the afternoon and no longer: Provided, That in townships the board of inspectors of election may, in its discretion, adjourn the polls at twelve o'clock noon, for one hour, and that the township board in townships and the legislative body in cities and villages may, by resolution, provide that the polls shall be opened at six o'clock in the forenoon and may also provide that the polls shall be kept open not later than eight o'clock in the evening of the same day. Every qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

The polls of said election will open at seven o'clock a. m., or as soon thereafter as may be, and will remain open until six o'clock p. m., Central Standard War Time, on said day of election, with the exception that they will be closed during the noon hour. Dated this 26th day of February, A. D. 1943. C. M. Wallace, Clerk of said Village. 2-26-2

More Cows on Farm From the 3.5 per cent more cows on farms in August, 1942, as compared with August, 1941, U. S. farmers produced 10,900,000,000 pounds of milk, which was 5 per cent more than was produced a year previously. Egg production for the first eight months of 1942 was 16 per cent higher than for the same period in 1941 and was 27 per cent above the average for all past years.

3 EASY WAYS TO SAVE

Electricity

COOKING LIGHTING APPLIANCES

COOKING. Plan more oven meals in your electric range. Preparing a complete meal in the oven at one time is economical: The same amount of electricity cooks meat, potatoes, vegetables and a pudding. . . . Use LOW heat to finish most of your surface cooking, after foods have reached the steaming point. When the cooking operation is almost completed, the heat may be turned completely OFF. Stored heat in the unit finishes the cooking operation. . . . Don't waste electricity heating up a large quantity of water when cooking vegetables: Half-a-cup of water is ample.

LIGHTING. Dust steals light and wastes electricity. Wipe all lamp bulbs frequently, also reflector bowls and ceiling fixtures. Use the right size lamp in the right socket. Dark colored lamp shades soak up light. Use light-colored shades wherever possible, or try fitting dark shades with a white lining.

APPLIANCES. Don't leave appliances turned on when temporarily not in use (your electric iron or toaster, for example). Pull the plug, and connect the appliance again later when you are ready to use it. Defrost your refrigerator regularly. Don't overcrowd your refrigerator. Unless the motor is hermetically sealed, have it oiled and inspected regularly. Be sure to locate your refrigerator away from heat sources, and allow adequate air circulation all around the refrigerator. The Detroit Edison Company.

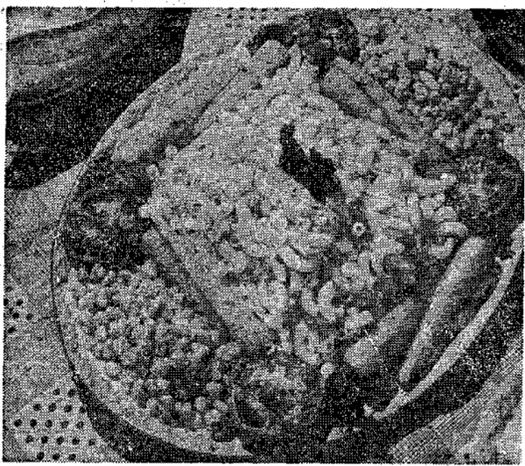

HIGHLIGHTS . . . in the week's news

CANCEL FAST: Catholics in the Chicago archdiocese will not have to fast during the approaching Lenten season. Archbishop Samuel Stritch suspended the fasting regulations on papal authority. Increased productive efforts and the rationing program are believed to have led to the decision. Meatless Fridays will remain in effect, however.

LOST: According to Wilfrid Gallienne, British consul, Britain has lost 2,798 bombers in raids over Germany.

AFRICAN RESOURCES: American ships used to transport food and other goods to French North Africa have returned to the United States loaded with cobalt, ore, cork and tanbark, raw materials obtained from the occupied territory.

### Lenten Menus in Wartime

Use Attractive Vegetable Combinations for Lent

Your ingenuity meets a real test with the arrival of Lent, especially during wartime, for your meals' mainstay—meat—takes a vacation. But no smart homemaker will despair, for it's amazing what can be done with a bag of rice, a package of macaroni, and a few good vegetable combinations. Add to that list some kinds of fish and cheese, and Lenten tables neatly take on fine proportions.

It's important to keep yourself nutrition-minded during this season, as you don't want to cheat your family of any important proteins. You see, they build the body, and repair it as needed. One protein food a day is essential, and that means cheese or fish worked into the menu.

Those platters should be kept attractive, too! Nothing sells a meal like its good appearance. Work out clever geometrical designs with several different types of vegetables and see how much easier it is to

sell them to the family.

Select vegetables with a view to color, texture and flavor, and have a pattern in mind when making up a platter with them. Try some of the following combinations:

Buttered elbow macaroni with whole baby carrots, whole kernel corn, broiled tomato slices with cheese sauce.

Buttered spaghetti with buttered lima beans, baby beets, tomato sauce.

Buttered egg noodles with asparagus tips, parsleyed carrots with cheese or tomato sauce.

a Republican or a Democrat. But the highway department being jelled by civil service while under Democratic control, the Republicans do sniff the air suspiciously and exhort loudly that the department has been misused by the Democrats as a political machine perpetuate themselves in office.

This Tammany Hall idea persists in the minds of some Republican legislators and also in the minds of quite a few voters. Its distaste has been intensified by the November reversion to federal bureaucracy which was blamed, right or wrong, for much of today's war regimentation out of Washington.

The legislative leaders also may entertain the belief that the public isn't much concerned over what happens at Lansing because 99 per cent of their worry centered about the fighting Yanks in Tunisia and in the Pacific and wondering if the Germans are going to invade Spain, try to grab the Gibraltar, or when and where the Allies will strike again.

In perspective, the global war makes the Lansing scene look a bit dull.

Senator Joseph Baldwin (R) of Albion was among the Republican senators who challenged the program to deprive the voters of the ballot box control of highways, and he raised a very interesting post as to whether the appointment of the commissioner by the governor really would accomplish what the proponents said it would: Take the department out of politics.

From the viewpoint of history, the Albion law-maker has sound support in the fact that Michigan has had only seven highway commissioners since the department was created by the legislature back in 1905. In the first eight years when the commissioner was ap-

pointed by the governor, two engineers held the position—Horatio S. Earle from 1905 to 1909 and Townsend H. Ely from 1909 to 1913.

Earle and Ely were appointees of Governor Fred M. Warner, Republican, who accomplished the unorthodox feat in those days of being re-elected for three successive terms. Ely was retained by Chase S. Osborn when the latter became governor in 1911.

In 1913 the post was made an elective office with a four-year term and a \$7,500 annual salary. Ely was followed by two Republicans, Frank Rogers from 1913 to 1929, a long 16-year span, and by Grover C. Dillman (president today of Michigan College of Mining and Technology) from 1929 until the New Deal in 1933.

If the reign of the Republicans in this post was disrupted, then the Republicans have only Franklin Delano Roosevelt and a series of popular landslides to blame.

The New Deal brought Murray D. Van Wagoner to Lansing in 1933 and it helped to re-elect him in 1937, the year after the Roosevelt-Murphy victory at Michigan polls. When Pontiac "Pat" went to the governorship in 1941, he was succeeded by his brainy deputy, G. Donald Kennedy, now safely berthed in Washington with an \$18,000-a-year safety foundation job.

In the meanwhile, the Republicans have had hard sledding. Wilber M. Brucker (R) was followed by William A. Comstock (D), Frank Fitzgerald (R) was followed by Frank Murphy (D), Luren Dickinson, heir to the Fitzgerald crown, was followed by Murray D. Van Wagoner (D). We're right back where we started with Harry F. Kelly (R) as governor.

In this restless, depression decade, Michigan has experienced a steady turnover in the governorship, every two years as regularly

as the clock ticks 60 seconds to the hour. In this same period the tenure of highway commissioner has averaged five years, more than double that of the governorship.

All this is a bit of recorded history, and it all adds up to the same thing:

If the Republicans hold the governorship as the Democrats have held the post of highway commissioner from 1933 to 1943, then the new commissioner—or highway engineer, as he really is—will have a chance to effect continuity in program and become proficient at his job.

But should the governorship swing, like a pendulum, from one party to the other, as it has done in Michigan steadily since 1933, then Senator Baldwin may be known in the future as a prophet of astute mental penetration.

For that reason we suspect that the answer to the entire problem must rest on the future, more than the present, as to whether the legislature is acting with wisdom in "taking the highway department out of politics".

**Mexicans in Texas**

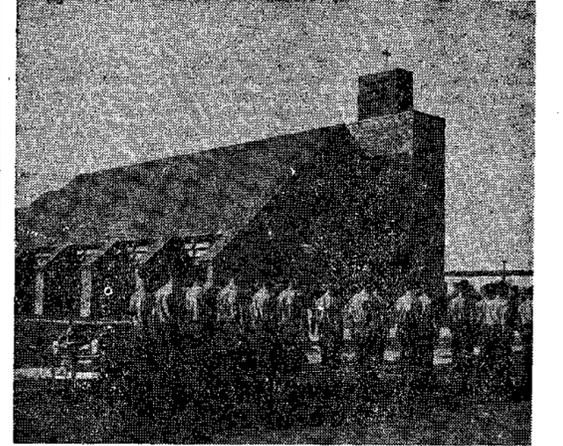

Texas has nearly 160,000 residents who crossed the border from Mexico, and California, 135,000. Immigrants from Mexico exceed 375,000, most of whom reside in the southern border states.

The 1940 census lists a little over 125,000 as Japanese, practically all on the West coast. California had more than 90,000. New York's Japanese population of some 2,500 was slightly exceeded by Colorado, and almost equaled by Utah.

### Americans Everywhere Prepare for Lent

That religion is a source of comfort to millions of American men and boys in the armed services of their country is proven eloquently by minister, priest and rabbi alike. Ever-increasing numbers attend the divine services conducted by chaplains of all faiths. The beginning of the Lenten season, on March 10, will see even more soldiers, sailors and marines turn to Heaven for spiritual guidance. Above: a platoon of marines enters the new chapel at the Parris Island, S. C., marine base. The chapel has a seating capacity of 700 and is used by both Protestant and Catholic faiths.

**Soybean Base Price**

Soybeans will bring the base price of \$1.60 for No. 2 yellow or green only when the beans contain 14 per cent or less of moisture and not more than 3 per cent of cracked or split beans. Deductions from the base price will be made for excess moisture and damaged beans.

**Typewriter Material**

A standard non-portable typewriter contains enough aluminum for 22 magnesium incendiary bombs, enough rubber for a pair of rubber boots for the army.

**Pack Eggs Carefully**

Egg cases, either new or used, are scarce right now and with billions of eggs needed at drying plants, supply depots, and markets everywhere, it is more important than ever to pack eggs carefully before they leave the farm, say poultry specialists.

**How to Improve Clothespin**

Clothespins that have been boiled in a strong salt solution will last longer and will not freeze to clothes in cold weather.

### Income Tax.

**Expenses of Farmers.**

A farmer who operates a farm for profit is entitled to deduct from gross income as necessary expenses all amounts expended (other than those constituting capital expenditures) in the carrying on of

the business of farming. The cost of feeding and raising livestock may be treated as an expense deduction insofar as such costs represent actual outlay, but not including the value of farm produce grown upon the farm or the labor of the taxpayer. Also deductible are the cost of seed, minor repairs to farm buildings (other than the dwelling of the farmer), and small tools used up in the course of a short period.

The cost of fuel and oil used for farm work, as well as repairs and maintenance of farm machinery, is deductible as a business expense; but the cost of farm machinery, equipment, and farm buildings represents a capital investment and is not an allowable deduction. The cost, however, may be recovered by depreciation allowances. In the case of a farmer, the farm dwelling is not depreciable, except such part of it as may be used directly in farming operations. The cost of gasoline, repairs and upkeep of an automobile if used wholly in connection with the taxpayer's farm operations, as well as depreciation thereon, may be deducted, but if an automobile is used partly for business and partly for pleasure or the convenience of the taxpayer or his family, the cost of operation may be apportioned according to the extent of the use for purposes of business and for pleasure or convenience, and the portion attributable to business will be deductible as a necessary business expense.

The cost of hired laborers and hired machines on a farm and the part of the board which is purchased for hired laborers are deductible. The value of products furnished by the farm and used in the board of hired laborers is not a deductible expense. Rations purchased and furnished to laborers or sharecroppers are deductible as a part of labor expense. Amounts paid to persons engaged in household work to the extent that their services are used in boarding and otherwise caring for farm laborers are deductible, but amounts paid for services of such employees engaged in caring for the farmer's own household are not a deductible expense.

Amounts expended in the development of farms, orchards, and ranches prior to the time when the productive state is reached may be regarded as investments of capital. The cost of planting trees, as well as the amounts expended by a farmer in the restoration of soil fertility preparatory to actual production of crops and the cost of liming soil to increase productivity over a period of years are capital expenditures; but the cost of commercial fertilizers, the benefit of which is of short duration and which have to be used every year or so, even after a farm reaches the productive state, is deductible as an expense.

Amounts expended in purchasing work, breeding, or dairy animals are regarded as investments of capital and may be depreciated unless such animals are included in inventory.

**Scots Act as Alarm Clocks**

Because of a shortage of alarm clocks in Scotland, factory workers are employing "chappers," who for a small fee call at their houses early in the morning and wake them.

### Farm Labor Aid Planned by M. S. C.

Michigan's 83 counties will find a partial solution of 1943 farm labor needs through offices of county agricultural agents as part of the Michigan State College extension service.

Local rural labor resources will be mobilized and directed to local needs to as great an extent as possible, according to the authority granted the extension service by Secretary of Agriculture Claude R. Wickard.

Another agency, the Farm Security Administration, will be responsible for transportation of workers from a distance and for the housing of these outside workers, according to the plan.

In towns and cities, still another agency will cooperate. The United States Employment Service has been directed to recruit city labor for use in farm war production. The United States office of Educa-

tion is cooperating with the college extension service in Michigan in mobilizing as many as 50,000 non-farm high school youths for work on farms this summer.

For the registration in local county agricultural agent offices, recruits will be asked to volunteer for specific work at specific times. Local help will be used first, with outside help sought if necessary after nearby sources have been exhausted.

On the campus at East Lansing, another cooperative effort is under way. Fifty-three youths from northern Michigan are taking a special farm course to make them useful to Michigan farmers. The boys were selected by the Farm Security Administration from northern Michigan in the Lower Peninsula. Another group of 100 will come to the campus March 15 for the next period of training.

**Clean Before Disinfecting**  
Disinfectant has little effect on bacteria protected by coverings of dirt. Thorough cleaning with water and lye should precede application of disinfectants in poultry houses.

**Bee Hatching Periods**  
Queen bees and workers are hatched from eggs identical in every way. Yet it requires only 16 days to produce a large adult queen, and five days longer to produce a worker.

**Two Training Bases**  
The two large training bases for marine corps recruits are maintained at Parris Island, S. C., and San Diego, Calif.

**His Pigs Go to War**  
Young Johnny Clay of Rocky Mount, North Carolina, is typical of farm children raising victory pigs and devoting profits to War Bonds.

### Farm Youth of U. S. Looks to Tomorrow

TOMORROW'S farmers and farm homemakers are second to no school group in their enthusiasm for investing in War Bonds and Stamps to make sure their future is secure. Through the Schools At War program they are investing what they save and earn in War Stamps and Bonds.

First evidence of this is the amount the 4-H Club boys and girls and the FFA boys invested in war savings in 1942 from "Victory Pig" and other projects. A million and a half 4-H Club members put \$8,000,000 of their own savings in War Bonds and Stamps and sold \$2,500,000 worth of War Savings to their neighbors. Nearly a quarter million members of Future Farmers of America invested more than \$1,500,000.

Spurred by the realization that the financial welfare of their families for the next 20 years depends on how wisely they use today's higher incomes from increased food and other wartime production, both groups have set their goals still higher for 1943.

These farm youths are building financial reserves, and urging their parents to do the same, for after-the-war necessities, to meet financial emergencies and to help them get started in college.

They're building reserves today for tomorrow's farm buildings and for the other things they will need when they're tomorrow's farmers and homemakers.

### DEFORD NEWS

Lois Sherwood has secured work in Pontiac, and spent the week end there.

Mr. and Mrs. Earl Moynes and son of Royal Oak were callers Sunday at the Arthur Perry home.

David Palmer has been the victim of a very hard cold and confined to the bed for a few days.

Guests of Mrs. George Spencer were Mrs. Wesley McCain and daughter of Pontiac and the daughter of Mrs. Spencer's sister, Mrs. Chandler Goodrich, of California.

Mrs. Mina Davis and son, Francis, of Armada were callers at the Ben Wentworth and Wm. Patch homes.

Saturday night and Sunday guests of Mrs. Caroline Lewis were Mr. and Mrs. Earl Moynes and Mr. and Mrs. Wayne Evo, all of Detroit.

Mr. and Mrs. Frank Hutchinson of Cass City were callers in the home of Mrs. George A. Martin one day last week.

Mrs. Henry Cooklin and Mrs. Kenneth Kelley were visitors on Tuesday in Saginaw.

William Zemke spent two days of last week in Detroit on business.

Miss Rosetta Lobdell of Wahjamega was a guest for the week end, of her brother, Jimmie Dodge, at the Ida Dodge home.

Guests entertained at the Wm. Patch home on Sunday were J. L. Taylor and family and Mrs. Wallace Withey, all of Royal Oak, and Emil Bichter of Kingston. Mrs. Withey will remain for an indefinite time at the home of her children, Mr. and Mrs. Wm. Patch.

Rev. Leonard Bruder filled the pulpit of the Rev. Mr. Didier's church in Flint on Sunday. The Gideons took charge at Novesta church.

About seven o'clock on Sunday morning, a number of men responded promptly to the telephone ring that the house of Kenneth Churchill was on fire. Some of the cars came to Deford where the Churchills live, but the fire was at the Churchill farm where Warren Churchill lives. A spark from the chimney lodged under a roof shingle and Mr. Churchill had the fire extinguished before help arrived.

Mr. and Mrs. Arthur VanBlaricom of Pontiac spent Sunday at the Edna Sadler home.

Gilbert Horak, employed in Pontiac, spent Sunday with his parents, Mr. and Mrs. Edgar Vorhes.

In an effort to secure for Red Cross funds at least the minimum quota of \$150.00 apportioned to Novesta Township, H. D. Malcolm or some co-worker will endeavor to contact every family in the township within the next 10 days. To anyone who might find it more convenient, subscriptions may be paid at the Deford Bank, the Deford post office, or with the County Red Cross treasurer at the Piney State Bank in Cass City.

Mr. and Mrs. Wm. F. Zemke have bought the Deford residence of Mr. and Mrs. Henry Cooklin, formerly the Neil Kennedy property.

Kenneth Warner is now stationed at Fort Bragg in North Carolina.

Mrs. Howard Malcolm, Mrs. Kenneth Kelley, Mrs. Arthur Bruce and Miss Stella Kloc drove to Detroit on Wednesday and spent some hours at the Bruce Malcolm home. Stella remained in Detroit to assist Mrs. Malcolm for a limited time.

Mrs. Earl Hicks and son, Gene, spent this week in Detroit.

The twin daughters, Donna and Doris, of Mr. and Mrs. Newton,

both contracted pneumonia. Mr. and Mrs. Newton did not suspect on Saturday evening that they were unusually ill. Both died Sunday morning. The children were born Nov. 27. Funeral services were held in the Kingston Funeral Home. Rev. Mr. Bugbee of the Cass City Nazarene Church officiated.

### CHURCH NOTES.

Church of the Nazarene—Rev. George D. Bugbee, Pastor. Sunday, Mar. 7: 10:20 a. m., Sunday School. There is a welcome waiting for you. 11:30 a. m., worship when the pastor will preach.
