UNIFORM AIR RAID **WARNING SIGNAL** SYSTEM FOR STATE

gan at 12:01 a. m. on Saurday, May 1.

A new air raid warning signal system will go into effect in Michigan at 12:01 a. m. May 1, it was announced today by Capt. Donald Leonard, State Director of Civilian Defense.

The system will supplant all other signals now being used and signals will now be uniform hroughout the state.

The change is being made, Capt. Leonard said, for the increased efficient mobilization of Citizens Defense Corps personnel, and to Last Meeting of Second Red relieve the strain on communication facilities.

The new system is an outgrowth of regulations put into effect in Sault Ste. Marie several months ago by the U.S. Citizens Defense Corps of Michigan, and since approved by the Eastern Defense Command and adopted in a number

The principal features are:

1. Introduction of a public 'Blue" warning signal—a twominute steady blast on horns, sirens or whistles—to indicate a

2. The sounding of the "Red" public warning—the familiar fluctuating note on sirens and intermittent blasts on horns and whistles for three minutes—to indicate that a raid is imminent.

3. Introduction of an additional the class meeting from one to four "Blue" public warning-a twominute steady blast-to follow all "Red" signals, to indicate that the raiders have passed, but may re-

4. Introduction 'White" or "All Clear" signal to display in the Mac & Scotty drug indicate that all danger is past and normal activities may be resumed. This signal is a one-minute steady blast followed by two minutes of silence, a second one-minute blast and another two minutes of sience, and a final one-minute blast.

The sounding of the "Blue" ELECTED OFFICERS warning will mean: "Probability of an enemy air raid - enemy planes appear to be headed in your Mrs. Keith McConkey was re-direction—get ready." This is the Turn to page 4, please.

ow upon the first day of the week, very early in the morning, they came unto the sepulchre, bringing the spices which they had prepared, and certain others with them.

And they found the stone rolled away from the sepulchre, And they entered in, and found not the body of the Lord Jesus.

And it came to pass, as they were much perplexed thereabout, behold two men stood by them in shining garments.

And as they were afraid, and bowed down their faces to the earth, they said unto them, Why seek pe the living among the dead?

He is not here, but is risen: remember how he spake unto you when he was pet in Galilee.

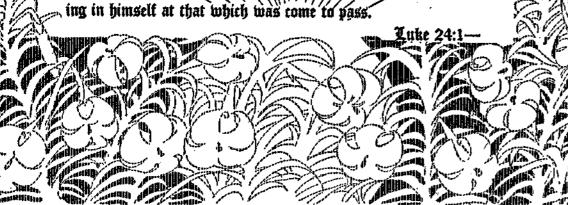

Saying, The Son of man must be delibered into/the hands of sinful men, and be crucified, and the third day rise again.

And they remembered his words, And returned from the sepulchre, and told all/these/things unto the eleven, and to all the rest.

It was Mary Magdalene, and Joanna, and Mary the mother of Fames, and other women that were with them, which told these things unto the apostles,

And their words seemed to them as idle tales, and they believed them not.

Then arose Peter, and ran unto the sepulchre; and stooping down. he beheld the linen clothes laid by themselbes, and departed, wonder-

THE RISEN LORD

LESSON TEXT-John 20:1-17. GOLDEN TEXT-He is risen.-Mark

again and again until they believe as I do." So exclaimed Dr. Dale of London when the glory of Christ's resurrection laid hold of him as never before. There began that day the custom of singing an Easter hymn in his church every Sunday

ought to make us glad to recall the resurrection power of Christianity in the midst of the world's awful mean more to us than ever this year, if we believe in Christ. If we do not, why not rid ourselves of the on the bright and beautiful garment of faith in a living Christ. Let us be clad in His righteousness.

The first Easter Sunday had scarcely dawned when the faithful Mary came to the tomb. Finding the stone rolled away from its entrance she ran to find Peter and John. What they came and saw, and what-or rather who-she remained and saw, make up our interesting lesson.

I. Peter and John Saw the Empty Temb (vv. 1-10).

Peter, though he had denied his Lord, was not sent away by his brethren. They knew his true heart, and evidently the gentle and loving John had taken him to his home. Mary knew where to find him. What a tender incidental indication of the Christian spirit of the brethren of

John and Peter ran to the tomb. The unusual news so stirred them that John the younger did not think to await the slower steps of Peter. He came first, but when he did he only looked in. Peter had no hesitation, but went right in. What he found there was most significant.

Here was twofold evidence that the body of our Lord had not been stolen. The burial clothes were there. They had not been carried off by a thief. Nor had they been snatched aside by a deceiver. They lay in order. There off to one side, carefully folded, was the head covering. Jesus was gone, but He had left in all the dignity and majesty of

a triumphant Lord. What they saw caused John to believe. It appears (v. 9) that they had not yet understood the clear teachings of the Old Testament regarding the death and resurrection of Christ. They were slow to believe. Let not any in our day, with its greater light, fail to believe.

Peter and John came and sa and then "they went away again unto their own home." And so they missed seeing Christ Himself.

II. Mary Met the Risen Christ (vv. 11-17).

The tears of Mary were the genuine expression of a devoted heart, but they were nevertheless mistaken tears. The question of the angel reveals that fact. Why weep because His body was gone, when that was the very thing which should give her joy? Why weep over a dead Christ when He was alive?

How often our discernment is dimmed by tears and our judgment warped by sorrow. We look on the wrong side of our circumstances and see only a tangle of threads and blurred colors. On the other side God is weaving a pattern of beauty and blessing, which will be our joy through all eternity. Why not remember that now?

Blinded with tears and troubled in heart, Mary did not even recognize the Lord when He spoke to her. But our Lord looking into her soul and knowing that it was her very love for Him which made it hard for her to think of anything but His death, gave to this true-hearted woman the privilege of first seeing Him after His resurrection.

As He spoke her name, she knew Him. We recall that Jesus Himself had said that He was the Good Shepherd who "calleth his own sheep by name" (John 10:3-14).

He knows your name and mine, fellow Christian, and one day we too shall hear His voice even as Mary did on that day. She believed and worshiped. Let us follow her example this Easter day.

There is a danger that the observance of Easter may lose its real significance in the empty incidentals which the world would have us believe make the day. It is a holiday. There is thought of new clothes. of formal church attendance, of family gatherings, of flowers and feasting. They are all right in their proper place. But let us be sure that no adult fails to meet the risen Christ today, and let us be sure that the smallest child knows that this is more than the day of bunnies and candy eggs. They will rejoice in the knowledge that a victorious Christ lives to give them eternal life.

Let us really "keep the feast" this year, purging out the leaven of hypocrisy and dead works, and remembering Christ (see I Cor. 5:7, 8).

METHODIST BISHOP

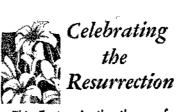

Possibly by the time this is read of the Washington Area, will be Bishop Leonard, Methodist Bishop verseas visiting American troops. He is expected to leave any day as official representative of practically all Protestant Churches in Ameri-Besides visiting troops in North Africa he will visit troop encampments in England, Ireland, Scotland, Iceland, and it may be possible for him to make trips to India, China, Liberia and South America. The trip is expected to

take about ten weeks. "Protestantism is fortunate in having it made possible for its representative to make such a tour "Christ is living! My people shall and Methodism is honored that one know it. I shall preach about it of its bishops is selected for this important mission," says the Michigan Christian Advocate. "Bishop Leonard quite logically came to be chosen by virtue of the fact that he has been chairman of the General Commission on Army and Navy Chaplains and also one of the original sponsors of the Service Men's Christian League. He will go in both capacities as well as a representative of the Federal Counsorrow and death. Easter should cil of Churches. Chaplain Frank Miller, in charge of the planning and training division of the Office of the Chief of Chaplains, will acdark garments of unbelief, and put company the bishop. Although it is not stated, the trip will doubtless be made by plane and under government supervision.

"The idea came about recently when our Methodist bishops paid a courtesy visit to President Roosevelt. The suggestion appears to have come from the president himself in the course of the conversa-tion. During the same visit, the bishops were fortunate to see Mme. Chiang who was then residing at the White House. While the details on this off-the-record conference are not available to the press, it is generally understood the bishops offered themselves for service in any way consistent with leadership of America's their largest Protestant denomination.

New Jersey Scrap

A survey of 50 typical New Jersey farms gave an average of more than one ton of scrap per farm. If this average were maintained throughout the country, the nation's farms are capable of yielding at least six million tons of scrap.

This Easter, in the throes of the most devastating war known to mankind, we again commemorate the Resurrection of the Prince of Peace. His true followers, the world over, will in this sacred season, rededicate their lives to the winning of the war and a peace that shall bring the blessings of the Four Freedoms to all people.

Buffalo Bill'

William F. Cody was born in Scott county, Iowa, in 1846, and when he was only 14 he was appointed as a rider of the pony express. This service took him into the Western wilderness, and it was as a scout and guide that he learned the buffalo trails in the Great Plains. In 1867 he made use of this knowledge to contract with the Kansas Pacific railroad to furnish its employees with buffalo meat, thereby earning the familiar nickname "Buffalo

Toxic Soils

The soil in certain sections of the United States contains so much selenium, a poison as deadly as arsenic, that it produces crops which are toxic to man and animals. One such area, a 100,000-acre tract in. South Dakota, is so highly seleniferous that the government has had towithdraw it from wheat cultivation.

California Quan The California valley quail is being advocated for the state bird of

WAR RESTRICTS

Telephone Installations to a Conditional Basis

No Installations

can be made in some sections

NDER an order of the War Production Board, telephone installations can be made hereafter only on a conditional basis. The order requires that an applicant agrees to share his line with others or to relinquish his service entirely, if the facilities are needed later for vital war or other essential purposes.

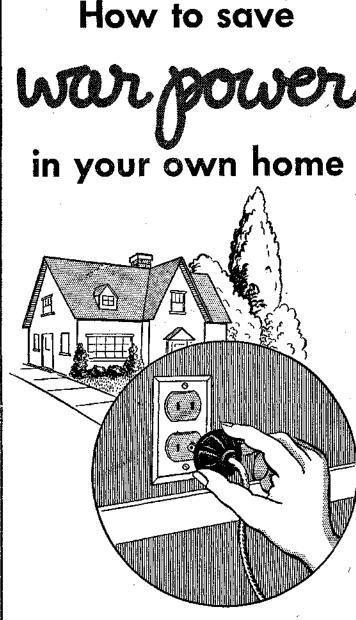

Service moves to new addresses for present telephone users also are on a conditional basis.

In some places, no installations can be made because the facilities are being used to capacity and critical material shortages prevent expansion.

These and other wartime restrictions will inconvenience many persons, we know. However, we shall continue to supply service whenever possible, and we look forward to the day when we again can give all the service wanted, when and where wanted.

Michigan Associated **Telephone Company**

The Telephone System Is Overloaded Please Keep All Calls Brief!

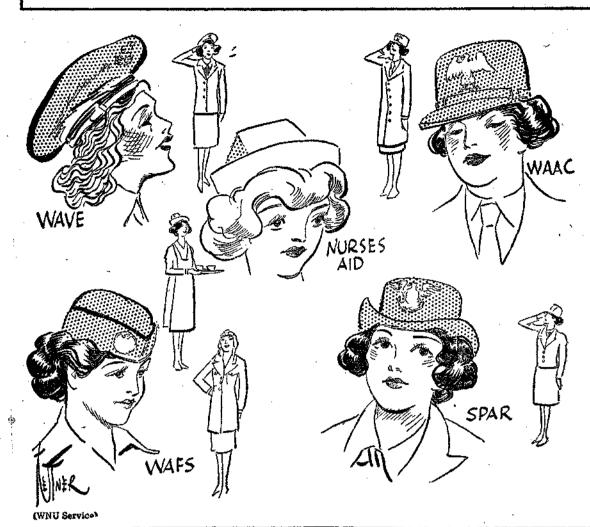

THERE is no shortage of electricity in this area. But electric power turns the wheels in thousands of war plants, producing planes and tanks and guns. Horsepower is WAR POWER-and should not be wasted. Here are a few simple rules for saving electricity in vour own home:

If you have an electric range, use the waterless cooking method wherever possible. (Half-a-cup is ample for most vegetables. Don't waste electricity heating up large quantities of water.) Plan thrifty oven meals: Cooking a whole meal at one time is economical and saves time. Many of the new "meat-extender" recipes are tasty oven dishes. Use LOW heat to finish most of your surface cooking, after foods have reached the steaming point.

Practice the same care with your other electric appliances. Don't leave them turned on and then go away and forget them (your electric iron or toaster, for example). Disconnect the plug when they are temporarily not in use. Keep your electric refrigerator at top efficiency. (The better its condition, the less time it will run!) Defrost regularly, and locate it away from heat sources.

Get the most light from your lamps and fixtures by keeping them free from dust. Wipe lamp bulbs frequently, also reflector bowls and ceiling fixtures. Dust steals light and wastes as much as one-third of the electricity you pay for. Avoid dark-colored lamp shades (they soak up light). If you must use them, try fitting them with white linings. The Detroit Edison Company.

SIGNAL SYSTEM FOR STATE

Concluded from page one.

Born to Mr. and Mrs. Paul and pedestrians may proceed as Wright of Kingston at Morris Hos- usual. The blackout will not be Friday evening when the elemenpital, a daughter Monday evening, complete, in view of the fact that tary grades of the Cass City Public vehicles will be moving with School presented the operetta, "The Mr. and Mrs. A. A. Ricker ar- dimmed lights, but skyglow will Land of Dreams Come True," writrived at their home in Cass City be reduced materially, depriving ten by Alan Gray M. Campbell. Mother Goose house, a very artistic white house with green roof, red Ninety-four dollars were realized. wise be a valuable beacon.

The sounding of the "Red" signal dren participated. will mean that enemy planes are in the immediate vicinity or over- pianist and supervised the art work head. All remaining lights—and flower arrangement. Miss except a few specified emergency Eleanor McCallum directed the mulights-will be blacked out, street sic. Miss Carolyn Garety assisted cars and busses will unload their with organization and speaking Chronicle and printed in last week-end guests of Mrs. O'Dell's passengers, pedestrians must take parts; Miss Maybelle Clara, asshelter, and all traffic, except sisted by Mrs. C. W. Price, took emergency vehicles, will stop.

The sounding of the "Blue" signal following a "Red" signal will Birmingham and Mrs. Ernest authorize persons to leave shelter Birmingham and Mrs. Ernest and traffic to resume cautious and traffic to resume cautious movement. Civilian defense personnel will remain mobilized, and homes and business lights will continue to be blacked out. A community will thus be prepared to return to the "Red" condition without delay if the raiders come back.

When the "White" or all-clear signal is given, civilian defense volunteers are demobilized, lights go on in the homes and business places and the community returns to normal status.

The regulations establishing the change in the signal system are the first to be issued by Capt. Leonard under authority of the Civilian Defense Act passed at the recent session of the Legislature, and have the effect of law. They have been transmitted to all Defense Corps officials in the state.

PARAGRAPHS ABOUT PEOPLE IN THE SERVICE

Concluded from page one. Lansing, and Mrs. Angus McPhail and son, Albert. The dinner was to honor a son-in-law of the Sandhams, Raymond Green, who leaves soon to be inducted into the Army.

Pvt. Warner Barnes, who was inducted into the Army from Rochester Mar. 13, is now stationed at Camp Jos. T. Robinson, Arkansas.

William Delling arrived in Detroit, April 7, on a nine-day visit with Mr. and Mrs. F. C. Tracy and relatives and friends. He left Detroit Wednesday, April 14, for Camp Endicot, R. I.

Life in the Women's Army Auxliary Corps began for Auxiliary Mary L. McCoy of Cass City, when she arrived at the Second WAAC Training Center at Daytona Beach, Fla., to begin her basic military training.

Her first three days were spent. in "Tent City", a settlement of 80 canvas tops bordering the Halifax River. During this period she was given a physical examination, issued her uniform and equipment and interviewed and classified for her assignment to the army job that will release a soldier for com-

Auxiliary McCoy was then transferred to the cantonment area, a 600-acre tract developed for the initial training of WAAC troops. Assigned to a training company which numbers 150 women, she is billeted in a pine barracks and is

A WAAC's day begins with reveille call at 5:45 a. m. From 8 to 4:30 each day she attends classes where she is acquainted with army methods and procedures which she will need to know before she replaces a man in a military job. Not all emphasis is on books, however; close order drill and physical training have their place in the daily

Epitaph An epitaph in the Langdale (Ala.) cemetery reads: "I have called in to stay all night."

How to reach the northern Michigan streams is the principal problem for fishermen wanting to wet a line when trout season opens April 24. Despite OPA assurances on the use of A-card gasoline, some anglers are expected to go by train as in the days of long ago. Quiet runoff of melting snows should leave streams in good condition, and for the reduced number of anglers expected, conservation department spring plantings should provide a most favorable fish-per-fisherman ratio. Once on the stream bank, everyday worries give way to the question

of which fly will ternot the fish today.

Concluded from page one.

the average amount spent each day when the jar is opened. was \$263,400,000. To meet these mounting costs of war, secretary of the treasury Morgenthau recently disclosed that the 13 billion dollar Second War Loan is part of 70 billion dollars that must be raised during 1943. "This is a people's war, so all the people ought to have a part in financing it," said the secretary as he warned that "ten per cent is not enough".

Farmers Who Sell to Retailers. A farmer who sells butter, lard, or any other rationed food to a retailer must collect ration points for the sale, just as he has done carrots, lettuce, peas, snap beans, in selling to consumers since Mar. spinach, and tomatoes will be es-29, according to OPA. All farm tablished beginning April 22 sales must be made at current through the use of uniform markpoint values and stamps collected ups over the retailer's net cost, must be turned in to local ration according to OPA. For each boards with a report made on OPA vegetable except cabbage, the reform R-1609. This form will be tailer will determine his ceilings available to all local boards during by multiplying his net cost by 1.39. the last week in April. The first On cabbage, where spoilage is report is due during the first 15 greater, the mark-up is 1.65 for days of May and will cover sales indpendent retailers having an made between March 29 and the annual volume of \$250,000 or less, end of April.

Woman's Land Army.

A woman's land army of about 60,000 city and town women will be recruited, as a part of the U.S. Crop Corps, to help meet the farm labor shortage. Ten thousand of these women are expected to enroll for year-round farm work and about 50,000 for seasonal work for one month or more. Three hundred thousand women will be placed by country agricultural agents for short-time emergency iobs on farms-women who can spare week-ends, a few days, or a few weeks, women who wish to contribute their services should

await the local call. Fertilizer for Corn Crops.

Farmers may obtain chemical fertilizer containing nitrogen for use on field corn in the corn belt states of Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota and Wisconsin, in accordance with a directive of the War Food Administration. Restrictions on deliveries of fertilizen for use on corn field expired April 1. Chief provisions of the directive are; (1) Applications for fertilizer for use on Group A crops must be accepted first, (2) All eligible applicants must have received at least 50 per cent of their requirements before any applicant can receive more; Deliveries above 50 per cent shall be made in equal percentage to all eligible persons, (4) As high a percentage of this fertilizer shall be made available for other Group B crops as for corn.

Sugar for Canning.

Sugar for home-canning of 1943 fruit crops will be available to housewives on approximately the same basis as last season. No reduction of blue point stamps will be made from War Ration Book Two for canning sugar. Details of the program will be issued within the next few days.

Farm Values Up.

Farm real estate values on Mar. 1, 1943, showed an increase of nine per cent over last year, the U. S. Department of Agriculture has announced. This is the most substantial gain that has occurred since 1920. Land value increases during the past year were widespread, with some advance reported for each of the 48 states.

Safe Canning Methods.

The steam pressure canner is the only method recommended by the U.S. Department of Agriculture for preserving certain types of vegetables. Such vegetables as

beans, peas, corn, spinach, and asparagus, as well as meats, should be cooked in a steam pressure canner to kill organisms which cause food to spoil. Fruits and tomatoes, rhubarb and pickled beets may be safely canned by the boiling water-bath method. To be safe, these products should be boiled for at least ten minutes before they are eaten or tasted, even expenditures during March, when though there is no sign of spoilage

Shoe Leather Released. Certain types of leather, which

had been frozen, have been released by WPB for the manufacture of shoes. As a result of the action, more than one million pairs of women's and girl's shoes are expected to be made from genuine and imitation reptile leather. Natural colored retan leather was also released and manufacture of leather bows for shoes prohibited.

Ceilings on Fresh Vegetables. Retail ceilings for cabbage. 1.54 for chain retailers with an annual volume under \$250,000, and 1.50 for any retailer with an an-

ZND WAR LOAN DRIVE IS ON!

Minner

There is one stark and simple fact about war which you had better get straight...and quickly, too

THERE IS NO SECOND PLACE IN A WAR-IT'S EITHER WIN OR LOSE!

This war is being fought for tremendous stakes...

- :: for your life and your liberty.
- a: for your church and your children.
- for your freedom and your future.

The winner will dictate whether tomorrow you shall be a free citizen of a free world, or a helpless serf to a

And it's WINNER TAKE ALL. Don't forget that

"master race." The winner will dictate whether you shall live and prosper under the Four Freedoms, or toil hopelessly in

the darkness of a "New Order." The winner will dictate . . . because the winner takes all.

The winner takes all. All you own, all you hold dear.

The winner is being decided right now...today... this very minute... on battlefields all over the world. Will you stand idly by ... or throw all your weight

The weight of mighty tanks and planes. The weight of thousands of guns and millions of shells. The weight of billions of dollars ... 13 billions which your country asks you to lend during this Drive.

Your country wants to borrow every idle dollar you have-every dollar except what you need for the barest necessities of life.

You'll have to give up some luxury or comfort which was dear to your heart. You'll have to postpone some pleasure which you had been eagerly anticipating.

But what of it? Your sons and brothers and husbands are dying out there . . . fighting your fight. Surely it is no sacrifice to

lend your dollars while they are giving their lives. They need your help. They need the weapons your money can buy. If one of the War Loan volunteers calls on you... greet him with open pocket-book. Remember,

Uncle Sam's goal is 13 billion dollars in April. Don't wait to be asked. Go to your nearest bank, investment dealer, broker, Post Office or issuing agency and lay your money on the line. Remember, it's an investment you're making - an investment that pays a good return and insures a happier future for you and

So lend up to the limit.

your loved ones.

You'll sleep better for it.

There are 7 different types of U.S. **Government securities-choose the** ones best suited for you:

United States War Savings Bonds—Series E: The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed espe-cially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity; Denominations: \$25, \$50, \$100, \$500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value;

21/2% Treasury Bonds of 1964-1969; Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000 and \$1,000,000. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Price: par and accrued interest.

Other securities: Series "C" Tax Notes; 1/8% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

SOUTHWEST PACIFIC: Something in the Air

Indicative of an impending large scale move, in line with warnings of Gen. Douglas MacArthur, Japanese airmen continued their bombing campaign against Allied Southwest Pacific strongholds in the New Guinea area.

One hundred Jap planes attacked the important Allied supply base of Port Moresby, with 50 bombers protected by an equal number of fighters. Allied airmen arose to challenge the enemy and they were aided by heavy anti-aircraft fire.

In all, 37 Jap planes fell in flames, 29 in dog-fights and eight from accurate ack-ack.

Jap losses at Port Moresby raised to 76 the number of planes lost in two days.

Coming from down under, Australian Minister for External Affairs Dr. Herbert Evatt has come up with a plea for increased help to Allied forces in the Southwest Pacific. Dr. Evatt's plea coincided with a

warning from the Allies' two top Southwest Pacific commanders, Gen. Douglas MacArthur and Lieutenant General Blamey, that the Japs were massing planes and men north of Australia. General MacArthur said the enemy was seeking to reestablish his air superiority while Lieut, Gen. Blamey warned that the Japs had concentrated 200,000 men to capitalize on aerial advantage.

RUSSIA: Lull Before Storm

The lull continued before the storm in Russia.

Both sides reported minor ac tion. The Reds claimed to have

thrown back small waves of German infantry that tried to run over Russian positions on the Volkhov river southeast of Leningrad. The Reds also announced that ar-

tillery and machine gun fire was concentrated on German positions before Smolensk as part of a plan to reduce the outer defenses of the Nazi bastion.

For themselves, the Germans reported continued secondary action along the west bank of the Donets river below Kharkov. Here, they said, artillery fire raked the entrenched Russian forces. Neither side claimed major advances.

RUML PLAN: Doughton Unforgiving

Pay-as-you-go but no forgiveness on taxes!

Doughty old Robert Doughton stood up in the house and told members pressing for reconsideration of the Ruml plan that his Ways and Means committee favored deducting 20 per cent from weekly payrolls but letting the question of forgiving any taxes go till study of a new tax bill.

Although backed by leaders of the majority party, Doughton failed to still opposition. Representative Joseph Martin served notice he would continue efforts to bring the Ruml plan back to the floor for further discussion.

With no tax forgiveness, the 20 per cent payroll deduction undoubtedly would apply to current taxes, with of these pacts to less than three remaining payments on 1942 taxes | years. being additional.

HIGHLIGHTS . . . in the week's news

HE-MEN: Noting that officers and enlisted men were losing too much time entering and leaving elevators. Maj. Gen. H. S. Aurand of the Sixth Service command ordered that hereafter they stop giving preference to women entering or leaving elevators; shift around so officers and men leave elevators according to alleged report that Japs had landed rank, and taking off hats in ele- in British Columbia. The broadcast

WOMEN'S RIGHTS: The senate judiciary committee has approved a resolution for a constitutional amendment giving women equal

rights throughout the United States. FALSE ALARM: Appealing for recruits for the reserve army, a Toronto radio station broadcast an threw the Toronto area into a furor.

WAGES:

Hold-the-Line Accepting President Roosevelt's exhortation, the War Labor board will "hold-the-line,"

In a unanimous decision, the WLB refused to grant cement workers a wage increase which would have brought their earnings up to the same level prevailing in other plants of the same company.

However, the workers were allowed a small boost—in line with the WLB's "Little Steel formula," which permits a general increase of 15 per cent in wages over those of January 1, 1941, as an offset for rise in living costs since then.

In its decision, WLB said that the President's order freezing wages allowed for increases only within the Little Steel formula" or in cases where wages would remain substandard even after such an increase. Consequently, WLB said, it was powerless under the order to grant boosts merely on grounds of equalizing wages throughout certain industries.

The WLB's action will affect some 10,000 cases before it. Regional branches were instructed to immediately make studies within their districts of sub-standard conditions.

In a midwest regional war labor board the chairman said that approximately 2,500 of the 3,000 cases on file would be affected by the national board's order, which is be-

was allowed to stand.

Put into effect last year, the increases brought Class 1 carriers \$308,997,000 in additional revenue. Of this amount, \$226,445,000 was derived from freight; the rest, or \$78,-387,000, from passengers.

OPA had argued that the increases had resulted in higher costs to manufacturers and distributors, causing a serious strain against price ceilings. The reductions may bring cuts in the cost of many goods, OPA said.

The Interstate Commerce commission allowed the 10 per cent pascosts, and (2) reduction in fares might now lead to greater use of passenger trains.

At the time the increases went into effect, railroads argued additional revenue was needed to meet the extra costs imposed by wage boosts to workers. These boosts were estimated to approximate \$389,000,000. The Interstate Commerce commission felt that railroads were able to meet these extra costs out of increased revenues derived from war

PAN-AMERICANISM: Blueprint for Future?

There was a new note in the celebrations that marked this year's Pan-American day as the 21 Western hemisphere republics took time out from vital war work to project a possible international relationship pattern when peace comes. This note indicated that the Pan-American Union, founded half a century ago, might become the blueprint for thrawing up agreements which eventually lead to peaceful dealings.
