

Gilford Twp. Boy Heads 8th Grade Honor Students

Sixteen Tuscola Co. Pupils Had an Average of Over 95% in Exams.

James Louis Felske, 13-year-old son of Mr. and Mrs. Walter Felske, of Reese, with a mark of 97.3, had the highest average in the eighth grade examination of rural school pupils in Tuscola County. He is a pupil of Mrs. Yvonne Bernia, in the VanBuren School in Gilford Township.

This honor student and several hundred other eighth grade pupils will receive their diplomas at the graduation exercises at the Caro High School this (Friday) morning. Dr. Clarence M. Loessel, State Normal College, Ypsilanti, will give the class address. The exercises start at 10:30 EWT.

Fifteen other students had a better average than 95%. The names of these students, their ages, and the names of their parents and teachers follow.

June Mae Freeman, 15, daughter of Mr. and Mrs. Wm. Freeman, of Unionville, Santee School, Akron Township, Miss Gweneth Bills, teacher. Average, 96.4.

Maxine Shirley Wark, 13, daughter of Mr. and Mrs. James Wark, Fairgrove. Quinacassie School, Wisner Township, Miss Mildred Hoyer, teacher. Average, 96.4.

Churches to Sponsor Watch Tower Here

Beginning Monday, June 14, the several churches of the community under the direction of their respective "officers of the day" will assume responsibility for manning the watch tower in Cass City.

At a recent meeting of chief observers of the United States and Canadian Air Raid Warning Service at Fort Brady, the military officers made it very clear that enemy air raids are imminent. That is the candid expectation of the military authorities. No one wishes to be an alarmist, yet one must face the facts of stark possibility. This thesis brings us to our local responsibility. In the past the post has been manned well, and all due credit is extended to those persons who have participated. However, the project is definitely a village assignment and, according to the Army informants, must be kept in effect for the duration. It is expected that the people of each church will assume their duty cheerfully and willingly when called upon by their "officer of the day."

The "officers of the day" for the various churches are as follows: Baptist, Mrs. G. W. Landon. Evangelical, Miss Helen Hower. Methodist, Mrs. A. H. Kinnaird. Presbyterian, Mrs. M. B. Auten. Catholic, Mrs. Dan Hennessey. The Nazarene Church has not reported an "officer of the day" as Turn to page 8.

Pvt. Harold Creguer Sees Famous Radio and Movie Stars in Recent Visits at Hollywood

Pvt. Harold Creguer, who is stationed at Camp Cooke, California, spent two very pleasant week ends recently with former Cass City residents, Mr. and Mrs. Grover Blades and Mrs. Barbara McDermott. The paragraphs below, which were written to his parents, Mr. and Mrs. Albert Creguer, describe the two visits.

First Week-End Pass.

"I spent a big week end over in Los Angeles so I didn't get to write you either Saturday or Sunday. I had a pass from Saturday noon till 7:00 a. m. Monday and I surely had a swell time. I left at noon and got in Los Angeles at 7:45. By the time I reached Blades in Glendale it was 9:30. They were surprised to see me for I hadn't had a chance to let them know I was coming. Their boy and his wife were there too and they were so nice. He had to go back to his station early Sunday morning.

"The Blades have a very nice home and they have such a pretty yard too. Their roses are beautiful, so large and so many colors. They

Baccalaureate Service Next Sunday; Class Night on Tuesday

Local churches will unite for the annual baccalaureate service which will be held at the school auditorium Sunday evening, June 6. Rev. Lee N. Page, pastor of the Presbyterian Church, will deliver the address.

Class Night exercises with the awarding of diplomas to the 74 members of the Class of 1943 will be held Tuesday evening, June 8.

Both programs will commence at 8:15, slow time. Complete programs for both evenings were published in the Chronicle last week.

Village Tax Rate Is Set at Eight Mills for 1943

Rate Is Lower Than Last Year; Village Valuation Is \$824,300.

The village council, at its last session, set the tax rate at eight mills. Assessor C. L. Graham's roll shows a total valuation of \$824,300 which is divided into \$698,600 for real estate and \$125,700 for personal property. At eight mills, the tax income will be \$6,594.40. Last year's tax rate was 10 mills.

The budget committee made a report of the anticipated income of the village as \$23,725.24. This includes a balance on hand of \$8,211.30 on March 1, 1943.

The council voted to purchase \$4,440 worth of Series F War Bonds from a fund created by the Horton Act receipts for 1942 and 1943, same to be held for future street improvements.

The fire department was requested to investigate and submit to the council a proposition for motor driven fire protection equipment.

The village will divide evenly with the Community Club the expense of placing a catwalk at the observation tower so that observers may more easily spot passing airplanes.

Thumb Counties Get Payment on Gas Tax Collections

Michigan counties were vouchered another \$2,000,000 this week from gas tax collections, representing one-half the 1943 payment under the McNitt Act.

State Highway Commissioner Charles M. Ziegler turned over the vouchers to the auditor general as the first payments to the counties on the annual \$4,000,000 appropriation for the maintenance of former county township roads.

The current payments raised the total highway revenue returns to counties and cities to \$19,218,015.10 to date this year. First quarter returns on weight tax collections had previously been made. Payments totalled \$20,301,330.39 for the same period in 1942 when the weight tax receipts were \$1,083,315.29 higher.

Counties and cities receive the entire amount of weight tax collections in addition to \$6,500,000 annually from the gasoline tax.

Current returns to the three Upper Thumb counties follow: Huron, \$40,306.19. Sanilac, \$44,582.74. Tuscola, \$40,851.07.

Emergency Farm Labor Office to Be Established

Will Be Located in Basement of Tuscola County Court House.

Carl VanTine of Caro has been appointed emergency farm labor agent for Tuscola County and Mrs. Ann Hiser will be in charge of the office work in connection with this new farm labor agency. The office will be located in the basement of the court house.

Direction of the activities of the office and the emergency farm labor agent will come from the county agricultural extension office in charge of County Agricultural Agent Norris Wilber. Funds to operate this new office and designation of the extension service of the U. S. D. A. are provided in a recent act of Congress as an attempt to help solve the farm labor problem.

Mr. VanTine plans to set up local labor placement centers in each of a dozen or more Tuscola County towns. Farmers needing labor may then apply at these local centers. Application of men, women and boys who seek work on farms will also be taken at these local centers as well as at the county farm labor office. If enough farm labor cannot be recruited within the county, then necessary help will be brought in from other counties.

One of the most important tasks is to keep the present supply of migratory labor busy, to insure enough labor to care for the sugar beet crop.

High school boys from some Michigan cities will also be used on Tuscola County farms if farmers indicate that they wish to employ some of this youth labor. In the meantime, in the rush of late spring planting, Mr. VanTine suggests that the best possible use be made of Mexican and Jamaican labor.

Farmers needing workers may apply at this new emergency farm labor office in the court house. Local offices will be set up within a week or ten days.

GLENNA ASHER C. M. C. E. GRADUATE

Glenna Lee Asher, daughter of Mr. and Mrs. Stanley A. Asher, will be a 1943 graduate of Central Michigan College of Education, Mt. Pleasant.

Glenna will receive a bachelor of science degree and secondary provisional certificate on Saturday morning, June 12.

Clara Seeley Marries Detroit Young Man

Miss Clara Seeley of Detroit, daughter of Mr. and Mrs. Fred Seeley of Cass City, and Mr. John Anderson of Detroit were united in marriage in the Methodist Church in Caro by Dr. E. Ray Willson on Friday afternoon, May 28, at two o'clock. They were attended by Mr. and Mrs. Earnest Seeley of Cass City, brother and sister-in-law of the bride.

The bride was dressed in a blue and white gown of pink rosebuds, and the bridesmaid was attired in a rose colored gown with a corsage similar to that of the bride.

At five o'clock a wedding supper was served in the home of Mr. and Mrs. Edward Anthes, brother-in-law and sister of the bride, and in the evening a reception at the bride's parental home was attended by 125 friends and neighbors. During the evening Miss Betty Hoyer entertained the group by presenting several piano numbers and Mrs. Ella Vance gave a humorous talk. Ice cream and cake were served as refreshments. The couple received many gifts.

About ten o'clock in the evening a sister of Mr. Anderson, residing in Duluth, Minnesota, called by telephone to extend congratulations.

Mr. and Mrs. Anderson will establish their home in Detroit where both are employed.

OPEN HOUSE INVITATION.

A general invitation is extended to the women of Cass City and community to an "open house" at the Audley Kinnaird home on West Main Street on Saturday afternoon from two to five o'clock, "slow time" honoring Miss Verda Zuchnick, Mrs. Charles Keen and Mrs. J. Ivan Niergarth who are leaving Cass City in the near future.

A. J. McLachlan, 23 Years Postmaster at Argyle, Died Tuesday

Archie James McLachlan, for 23 years postmaster at Argyle, died Tuesday, June 1, in Bad Axe General Hospital, after a four days' illness. Rev. Willie Firth will conduct funeral services on Friday, June 4, at 2:00 p. m., Central War Time, in the Kechn Funeral Home in Cass City. The remains will be buried in Elkland Cemetery.

Mr. McLachlan was born in Argyle June 27, 1880. He was postmaster and conducted a general store in Argyle for 23 years. He was married Sept. 6, 1920, to Jessie M. Hutson, who survives him. He also leaves a brother, Alex McLachlan of Tyre, and a sister, Mrs. Harry Kaiser, of Detroit.

45 18-Year-Old Men Registered in Tuscola County

Five Men from County Recently Passed Induction Tests at Detroit.

Five Tuscola County men recently passed their induction tests at Detroit. Russell Van Wormer of Vassar volunteered for the Navy and Stiles Kennedy, Jr., of Caro and John Betz of Millington for the Marines. Robt. Powers of Millington and Robt. Skower of Vassar will leave for Fort Custer on June 11.

About 70 men will go to the state hospital at Wahjamega next Tuesday for their preliminary physical examinations, and a group of men will leave the county on June 10 for their final tests at Detroit.

Frank Rogenski of Caro and Henry Klukowski of Akron, both conscientious objectors, will go to Camp Lagro at Lagro, Ind., the former on June 11 and the latter on June 21.

The following young men who reached their 18th birthday in May have been registered in Tuscola County:

Milan Mahnke, Fairgrove. Robert Skower, Vassar. Neil Curtis, Caro. Turn to page 4, please.

Governor Asks Village Folk to Help Farmers with Crops

Emergency Situation Exists in Three Thumb and 22 Other Counties.

An emergency in respect to the planting of Michigan crops exists in 25 southeastern counties of the state, according to a report given to Governor Kelly by the Agricultural Advisory Committee of the Office of Civilian Defense, augmented by the executive committee of the Michigan Farm Labor Committee.

This committee appraised the agricultural situation brought about by unseasonable spring weather and found that the area most affected extends from Bay and Midland Counties southward through the Saginaw valley, the Thumb district and southeastern Michigan as far west as Branch County.

Governor Kelly was advised that Michigan's Food-for-Freedom production program was hanging in the balance; that continuous rains in important agricultural counties have sharply curtailed the planting of spring grains, corn and sugar beets; that feed crops which support Michigan's vast dairy, poultry and livestock production have been Turn to page 8.

Junior High Pupils Proud of Their War Bond Purchases

Students in the junior high school at Cass City are proud of their record in purchasing 57 War Bonds, each with a maturity value of \$25. These pupils, whose average age is 13 years, are the actual owners. Many made sacrifices in order to save the money to make the purchases, says Mrs. Mary Holcomb, junior high principal. All of these bonds have been purchased since last December.

Receipts from the purchase of 50 of these bonds will total the price of a jeep which was the original aim of the junior high.

Club Hears Talk on Juvenile Delinquency

Mrs. A. B. Champion, in speaking on the subject of "Juvenile Delinquency," at the Rotary Club luncheon Tuesday, said that crime among youth at the present time threatens to increase so that it may equal the period of lawlessness following the first World War. Lack of parental supervision and guidance, she said, was one of the chief causes of delinquency and she stressed the need of supervised recreation for young people of the community. Mrs. Champion served for several years in the police department in Bay City and related some of her experiences there.

J. A. Sandham was program chairman and Frank Reid led the group singing with Mrs. Dudley Moore serving as piano accompanist.

Dinner was served in the dining room of the Methodist Church on "local time," some of the Rotarians carrying watches set fast and others slow, while a few showed no partiality to either Central or Eastern War Time and were in the intermediate class.

President Prieskorn named W. L. Mann, H. F. Lenzner and Frederick Pinney to serve with a committee to select a successor to Mrs. J. Ivan Niergarth as Elkland Township chairman of the Red Cross.

Cass City Students to Receive Degrees at Alma College

Miss Marjorie Croft, daughter of Mr. and Mrs. Ernest Croft, and Miss Phyllis Koepfgen, daughter of Mr. and Mrs. Lyle Koepfgen, will receive A. B. degrees at the commencement exercises at Alma College tomorrow (Saturday) morning.

Miss Koepfgen completed her studies in January and since that time has been teaching English in the schools at Perry.

Miss Croft finishes her studies this week. She has accepted a position as French and English instructor in the Comstock High School.

Mr. and Mrs. Ernest Croft, Mrs. Lyle Koepfgen and Mrs. James Gross will attend the exercises tomorrow.

Elizabeth Blair Awarded Scholarship at Adrian College

Miss Elizabeth Blair, daughter of Mr. and Mrs. Haskett Blair of Grant Township and a graduate of Bad Axe High School this month, has been awarded a scholarship at Adrian College.

The scholarship is awarded to high school graduates wishing to attend Adrian College in recognition of their high scholastic records and to those who qualify in character and citizenship. If the work is satisfactory, the scholarship will be renewed each year for four years.

Miss Blair plans to enter Adrian College this fall. She expects to major in history and minor in home economics.

Miss Blair will be graduated as salutatorian of her class of 76 with a 2.9 average, a perfect "A" record being broken by one "B."

Five from Tuscola to Be Graduated from Michigan State

For its wartime and 85th annual commencement on Saturday afternoon, June 12, Michigan State College lists 926 men and women eligible for graduation, including five from Tuscola County, R. S. Linton, college registrar, has announced. They are:

Theodore Andreychuk, Vassar, public school music.

John Datz, Vassar, police administration.

Frederick Charles June, Millington, liberal arts.

Gleason Duane Rohlf, Akron, agriculture.

Dr. Clarence A. Dykstra, president of the University of Wisconsin and former administrator of selective service, will be the commencement speaker. At the baccalaureate service on Sunday afternoon, June 6, Dr. John L. Seaton, president of Albion College, will speak to the seniors. Both commencement and baccalaureate will be held in the college auditorium. In addition to baccalaureate and commencement, senior week activities include the traditional Swing-out June 2, Lantern Night June 8, and the senior class play June 9 and 10.

Man and Woman Power Survey to Be Made Here

Mrs. C. L. Graham, general chairman, and Mrs. Raymond McCullough, Mrs. Frank B. Smith and Mrs. Guy W. Landon, directors, were in Caro Tuesday evening to attend a meeting of the Neighborhood War Clubs organization.

It was planned to make a survey of Tuscola County to ascertain the man and woman power in order to secure help for the canning factory at Caro. A large number of both men and women is needed at the factory. The cooperation of the citizens will be appreciated in offering their services whenever possible. The minimum age is 16 years. Work starts the last week in June.

The company is offering double pay to anyone working for a church or other worthy organization or project.

Those desiring more information may contact Mrs. C. L. Graham.

U. S. Navy Recruiting Service Seeks 60,000 Women in Its Wave-Spar Enlistment Drive

The Honorable Frank Knox, Secretary of the Navy, has made this appeal:

"Never in history have American women been offered such a chance to serve their country. Never has there been such an urgent need for their service.

"This is total war—a war in which every woman as well as every man must play a part. The men in the Navy and Coast Guard are in for one reason alone—to fight! They're in to fly the planes, man the ships, smash the Nazis and Japs.

"But to keep them fighting, there are important service jobs that must be carried on at home—managing, full-time jobs which you, the women of America, can fill—jobs in which you can serve your country in your country and release the men to fight at sea.

"That is what you—as a member of the WAVES or SPARS—can do to help win this war."

Farmers Vote for Formation of Soil Conservation Dist.

Soil Improvement Plan Carried in Each of Six Townships in District.

Tuscola land owners voted favorably on the creation of a soil conservation district at the referendum taken Saturday. In the six townships in the district a total of 140 votes were cast—120 yes and 20 no.

Township votes were as follows: Elkland, 39 yes, 6 no; Elmwood, 25 yes, 0 no; Ellington, 12 yes, 2 no; Almer, 25 yes, 8 no; Indianfields, 8 yes, 0 no; and Juniata, 11 yes, 4 no.

The results of this referendum will be reviewed this week by the State Soil Conservation Committee for its approval. If approved by the state committee, the next step in the district formation is to select a board of five directors, each of whom must be a land owner within the district. Two of these directors will be appointed by the state committee and three of them will be elected by farm land owners within the district. The two directors appointed by the state committee shall then apply to the secretary of state for the issuance of a certificate of organization of a soil conservation district. Upon the issuance of this certificate, the district shall constitute a governmental subdivision of this state and a public body corporate and politic.

A. Paul Kreeger of Caro was the polling superintendent of the referendum just held.

New Regulation for Recipients of Old Age Assistance

It is now possible for Old Age Assistance recipients to take farm work without having their earnings deducted from their Old Age Assistance checks. This has been made possible by public law No. 45 recently passed by Congress. This is a temporary law which will be effective for the duration of the war and six months later.

There are 849 persons in Tuscola County receiving old age assistance at an average grant of \$25.50 per month, according to Mrs. Gladys Wiltse, county supervisor of the Bureau of Social Aid. This is a considerable increase over last year's amount of approximately \$18.00.

There are 98 families receiving aid to dependent children at an average grant of \$52.25. Last year's average grant was around \$42.00. There are 15 aid to blind recipients with an average grant of \$26.50.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of the Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for June 6

PETER COMFORTS PERSECUTED CHRISTIANS

LESSON TEXT—I Peter 3:13-17; 4:12-13. GOLDEN TEXT—For it is better, if the will of God be so, that ye suffer for well-doing, than for evil-doing.—I Peter 3:17.

What shall we do? Where shall we turn? Is there no help for us? Such are the natural and understandable cries of those who bear the heavy heartbreak of persecution. God's Word has the answer, for from the very beginning the followers of Christ have had to meet that problem.

Peter is especially the apostle of comfort, and the portion now before us is rich in helpful instruction. His word to persecuted people is five-fold.

I. Do Not Be Afraid—Christ Is Lord (3:13-17).

By doing good the Christian will escape much suffering (v. 13), but if even then it comes, he is not to be afraid (v. 14). He is to sanctify Christ in his heart, that is, fully recognize the holiness of Christ and all that He is and can do for him. This is to be done in his heart. That means the exercise of full faith in Christ the Lord as the indwelling Presence. Who then can be afraid?

Note that this is not just a subjective spiritual exercise for his own enjoyment—it will show in his "good manner of life in Christ" which will put his persecutors "to shame" (v. 16). How effectively that has worked only recently in Germany, Norway and elsewhere.

II. Do Not Be Surprised—the Enemy Will Attack (4:12, 13).

Surprise attack is effective. Remember Pearl Harbor! Satan is an expert in strategy, and is eager to keep Christians in an easy and comfortable mood, so that he may strike a vicious blow when it is not expected. We best prepare to meet him when we recognize that persecution and suffering will come.

We are to bear in mind that it is not some "strange thing" which has happened; we who suffer as Christians are "partakers of Christ's sufferings." Joy and glory are ahead.

III. Do Not Be Ashamed—You Suffer for Christ (4:14-16).

Sadness and depression rest upon the one who suffers for his own evil deeds, but those who suffer for Christ's sake may be ever rejoicing. Can you not see that "the spirit of glory and the Spirit of God" are resting (v. 14) even now on some who sit in prisons and concentration camps? What a glorious picture of His grace!

It is proper to observe here that the believer is not to be guilty of that which justly brings the law's condemnation (v. 15). Do not fail to note the last of the list of crimes—"meddler in other men's matters." Has not just that caused endless trouble in the church, and harmed its testimony before the world? Let's quit meddling!

IV. Do Not Worry—He Careth for You (5:6, 7).

Worry! Worry! How it does crowd itself into our thinking. Yes, we know we are Christians, that we are unjustly accused or persecuted, that we are suffering for Christ's sake. That's all true, but how is it all coming out? What about my family? Will they harm my children? If I do survive will I be able to start life anew? And so on—questions without end; and soon comes the corroding touch of worry.

What shall we do? The answer is plain. Cast all your care on Christ—"He careth for you" (v. 7). That takes an act of faith just as it does to become a Christian in the first place, but it works.

The cure for all anxiety is right there—but it can only be reached by the path of humility. "Humble yourselves" (v. 6). There is the gateway to comfort, and to true exaltation in God's own good time (cf. Jas. 6:10).

V. Do Not Waver—God Is Your Strength (5:8-10).

Steady, perfected, established in Christ, sure of his eternal destiny and with the eyes of faith seeing the glory to come—such is the man who is ready and able to meet the devil when, like a roaring lion, he seeks to disturb and devour God's people. The believer should be ready and equipped.

That does not mean that the Christian sits with his hands folded waiting in a fatalistic way for the inevitable to happen. Never! He is "on the alert" with his spiritual ears attuned to hear the approach of the enemy's "bombers." He is "sober and watchful" against the "roaring lion" (v. 8).

Satan is unusually busy in our day. Alert Christian people see his deadly onslaughts on their brethren, which are possibly more severe now than for many years. He is seeking to break them down physically, mentally and spiritually, to make them fearful, to make them timid about work for Christ, to limit their usefulness, and to steal from them their victorious assurance. He is busy—let us be alert against him.

around and visited and around 6:00 p. m. they took me to the bus station for I had to leave at 6:45. I didn't have time to look up any of the other folks and, of course, they have to go easy on the gas. That is the best week end I've ever spent in the Army. It may be 4 or 5 weeks before I can go again and I hope to have more time. They invited me to come again and we'd pick out some place to go and see. They said they would pick me up at the bus station the next time but I'd rather not because of the gas rationing and I could take a bus out to their street for only a few cents.

"Mrs. Blades told me a good one about Mr. Bailey. When they were out here he went up town and then he was going back to the house to get the car. He got on a bus and got lost and he rode all over town for just 9c too. That was the longest ride he ever took for just 9c."

Second Pass.

"Well, my three-day vacation is over with and I'm back in camp again. I got four letters from you today, dating from the 15th to the 21st. It was surely good to get out in civilian life and I hated to leave. I got my pass for Saturday afternoon and then my 3 days starting Sunday till Wednesday morning. I left camp at 6:00 p. m. and reached Los Angeles about midnight. I stayed at the U. S. O. that night and then in the morning I went out to Blades. Mrs. Blades wasn't feeling good so I didn't stay very long. Mr. Blades took me over to Mrs. McDermott's home in Alhambra. She was real glad to see me and she was very nice. I had dinner with her at a restaurant. She has a nurse who rooms at her home and that night she had a date in Hollywood. She has a car so she gave me a ride there and I met her at the parking lot afterwards so I had a ride back.

"Boy, I never had such a good time in all my life! I went to the 'Take It or Leave It,' Phil Baker,

program at C. B. S. broadcasting studio, then to the Gildersleeve, Kraft Cheese, program at N. B. C. studios. Did you listen to their programs? The tickets were free and there certainly was a big crowd. Phil Baker is surely a lot of fun.

"Before the broadcasts I went to Gruman's Chinese theatre. It is a huge building and so beautiful, just like an ancient temple back in China. The ushers were girls dressed in Chinese costumes. I wish you could have seen it too.

"In the afternoon I went to the broadcast of Screen Guild Theatre starring Deanna Durbin at N. B. C. studio. Then I went to see Al Jolson at Lux Radio Theatre. He had Elaine Barrymore as a guest star.

"Before the broadcast I went out to Warner Bros. studio and met Alton McDermott. He was very nice and he showed me all over the studio. There was only one set where they were shooting a scene and the director is a touchy one so I couldn't see that one. He gave me this stationery for a souvenir.

"That night after the broadcast I went to New Chinatown. It was almost closing time when I got there for it took me so long to find it. It was about 2:00 a. m. when I got back to Mrs. McDermott's house.

"The next day I went back to Hollywood again and saw Victor Borge at N. B. C. studio. Then I saw the Philip Morris program with Ginny Sims. Say, I forgot to say that Gracie Allen was a guest star on Phil Baker's program. I have some tickets left over and I'll keep them for souvenirs. There are some I didn't see because of the time. I got some pictures of Chinatown and I took some down town in Hollywood. I saw Earl Carroll's place and I ate supper at the Lux Theatre.

"I left the Hollywood bus station for camp about 6:45 and reached camp about 2:00 a. m. I was tired when I got back but it surely was worth it.

"I'm glad you got to see the Army parade. Too bad the roads couldn't hold up so you could have seen the tank too.

"This coming Sunday I'm in charge of quarters again so I can't go anywhere. It has been a long time since I've got to church for I'm either working or so tired or out on a pass. I'll make it before long. Must close now. I think I can write more regularly now for there are no more field problems."

Sunday evening Harold called his family by phone from California. They were able to hear him very clearly.

AMERICA IN ACTION

ADVANCED ELECTRICAL TRAINING

A modern military airplane has at least three electrical systems. They include:

(1) The radio system, maintained by one set of specialists.

(2) The electrical instruments, taken care of by another set of specialists.

(3) And the generators, starters, retracting gear, signal - warning, lighting and ignition systems. These make up a province large enough to occupy the exclusive attention of a third corps of specialists. Graduates of the army air forces technical training command's advanced electrical course at Chanute Field, Ill., are the men who do this important work.

The necessary fundamentals are taught right at the outset. The first few days of the course are devoted to basic principles—electrical maintenance systems and records, the inspection system and the principles of batteries and wiring.

The theoretical groundwork having been laid, the students then plunge into the study of generators and the auxiliary power systems of airplanes, and then those of specific models. Such systems are first studied in detail, then actually connected up and run in "mockup" form; that is, with all connections intact just as they would be in the plane, with all the elements mounted on a single panel. The maintenance of storage batteries is taken up, and at all points the course stresses "trouble-shooting," the finding of defects and running down sources of failure.

Starting systems, electrical retracting motors for landing gear, and lighting and warning systems are the next subject. The modern airplane in all its complexity has many of these systems. There are lights that flash, bells that ring, horns that blow to warn the pilot that his landing gear, perhaps, has failed to open and lock properly; that certain parts are overheated, certain oil or gas supplies low. Other systems involve new principles, such as one in which a long bulb sheds ultra-violet light, invisible to the observer, over a set of dials whose figures are impregnated with a substance which glows in the ultra-violet light but in no other. All these and other new devices are incorporated in the training as fast as developed.

Ignition systems, spark plugs and allied devices are the next phase, studied first in their general principles, and then in their application to the problems of individual models.

WEEKLY NEWS ANALYSIS

Allied Bombers Rip Axis Industries; British Delegate to Food Conference Asks 'Normal Granary' for All Nations; Reds Dissolve World Revolution Group

Worry after hours of sandbagging the top of the mile long seawall at Beardstown, Ill., workers line up to refresh themselves with hot coffee served by Katherine White of the Red Cross Motor corps. An estimated 4,500 of the town's 6,500 persons already had been evacuated as the Illinois river rose to a height of 29.6 feet. Floods raging through the Midwest made 40,000 families with 160,000 members homeless, and thousands of fertile farm lands lay under cover of water.

FLOOD: Thousands Homeless

More than 40,000 families or 160,000 persons were made homeless by raging flood waters that surged through the Midwest, pouring over into towns and covering thousands of acres of fertile farm land. Many communities joined with the Red Cross in sheltering the victims and providing immunization to disease.

As Food Administrator Chester C. Davis called a conference of governors and agriculture commissioners from six states to formulate a program for farm production in the rain and flood soaked areas, levees along the Mississippi tottered as the dark and muddy "Father of Waters" reached record crests.

At St. Louis, the Mississippi stood at 38.94 feet, highest in 99 years, and downstream at Cape Girardeau, it reached 40.5 feet, tops in 100 years. Even as these stages were being recorded, rolling torrents moved toward the Mississippi from the swollen Illinois and Missouri rivers. All along the Illinois side of the Mississippi levees cracked.

Adding to the flood, persistent rains continued to hamper farmers' work in the fields. According to experts, planting will be delayed till late in June, with harvests then depending upon the time frosts will appear in early fall.

BOMBERS: Pound Axis Europe Allied bombers struck at both ends of Europe, with Axis industries and defenses standing out as the targets. Hit hardest by the raids was the metal, coal and communication center of Dortmund in northwestern Germany. More than 2,000 tons of high explosives fell on the city, with curling palls of smoke rising from raging fires often obscuring visibility.

Thirty-eight of the bombers failed to return from the attack, which brought to 100,000 tons the amount of explosives dropped by the RAF over Germany since the start of the war.

While the Allies were busy in the north, their squadrons were equally active in the Mediterranean area, where American and British bombers continued to plaster important enemy outposts of the Italian mainland.

Airdromes, harbors and shipping installations were pounded on the islands of Pantelleria, Sardinia and Sicily. The ferry linking Sicily with Italy was blasted, with the enemy admitting heavy damage.

COAL TRUCE: Bargain Collectively The United Mine Workers and the coal operators resumed collective bargaining even as the War Labor board denied John L. Lewis' demands for a \$2 a day wage increase. However, the WLB, which must approve any agreement, recommended that the disputants come to terms on the question of paying miners for the time spent in traveling to and from the mine faces.

Also, the WLB indicated it favored the six-day week for the miners, with wage concessions for the extra day. It ordered the vacation payment boosted from \$20 to \$50. All told, these payments would represent an 8 to 15 cents a day wage increase.

FOOD NOW: Russia is in need of greater shipments of food for its army and population, Red delegates to the United Nations Food conference declared.

SPUDS PLENTIFUL: An official of an eastern produce house predicted that five million more bushels of early potatoes will be available this summer than last year.

U-BOATS: With Allied naval and aerial forces operating over wide areas, U-boat efficiency has been impaired, Heinrich Schmidt, Nazi naval spokesman, declared.

ATTU: Remnants Resist

Entrapped in the mountains on the northeast tip of Attu, Japanese remnants bitterly resisted the advance of American troops slogged by sleet and rain.

As the Americans' pressure increased, a formation of 16 Japanese bombers flew in to raid ground positions and shipping. A half dozen American Lightning fighters rose up to intercept the attackers, and the army reported that two-thirds of the enemy squadron was shattered.

The Japanese remnants made good use of the high ground both north and south of the village of Attu, their main supply base which had been razed by bombers. American troops bucked strong positions which the enemy had carved into the mountainside and on either side of the towering passes.

Meanwhile, American bombers continued to pound the main Jap Aleutian base at Kiska, 172 miles to the east of Attu.

FOOD CONFERENCE: For Normal Granary

World-wide application of the principle of the "ever-normal granary" was suggested by Richard K. Law, chairman of the British delegation to the United Nations' food conference at Hot Springs, Va.

Declaring that the world must devise a system of international trade which will assure the passage of food from the producer to the consumer at fair and stable prices, Law recommended building buffer stocks which would be increased when supply outran demand, and drawn upon when output dropped.

Law hit the system of regulating agricultural trade by allotting importers specific quotas, say on wheat, etc. Instead, he advocated the creation of an authority that would be representative of the consumer as well as the producer.

Law's statement was followed by a suggestion of the American delegation that resettlement of millions of people may be necessary to promote adequate food production. The delegation said that only one-fifth of the world's population lived in those areas in the temperate zone in which food is produced by highly developed technology.

COMINTERN: 'Suspend' Revolution Stating the war had made it impossible to co-ordinate its activity, the Communist party's organization for promoting world revolution known as the Comintern formally dissolved itself.

The action met with mixed emotion in Allied circles. While some interpreted the move as a step toward closer relations between Russia and the United Nations, others pointed out that in the U. S. the Communists had formally detached themselves from the Comintern in 1940, but maintained activity along the party line nonetheless.

Although the Comintern stressed that chief consideration for the dissolution lay in its inability to maintain communication with its various branches, it also declared that it had recognized that national Communist groups were in better position to frame and work out policies on the scene, than in some distant center.

PAY-AS-YOU-GO: 'The Child Is Born'

"The child is born!" With those words Senator Arthur Vandenberg emerged from a conference of legislators to announce approval of a pay-as-you-go income tax measure, which would wipe out all taxes of \$50 and under and forgive 75 per cent of the taxes remaining for one year, and put all taxpayers on a current basis July 1.

Agreement on the measure, which now has to be passed by both houses and signed by the President, came after months of bickering over pay-as-you-go taxation. According to terms of the new measure, taxpayers would select the highest of their 1942 or 1943 income tax liability for figuring out their tax. Of the remaining 25 per cent of the tax, they would clear up the arrears in two yearly payments, the first due in March, 1944, and the next in 1945.

To put taxpayers on a current basis, a 20 per cent tax on weekly wages would be applied after ordinary exemptions had been deducted. The 3 per cent victory tax would be included. The 20 per cent would cover the normal and first surtax. Any liability outstanding would then be settled later. Farmers would make quarterly tax payments on current earnings.

LABOR: Study Lewis' Move

Labor circles are still buzzing with excitement over John L. Lewis' application for the United Mine Workers' readmission into the American Federation of Labor, from which they bolted when Big John undertook the formation of the CIO about a decade ago.

Lewis' application has been put under the study of the AFL executive committee, which will report back on the proposal later this summer. Although the application is expected to be received with favor, it was pointed out that Lewis' District 50 of the Mine Workers also takes in a number of other different unions organized in fields where AFL units already exist. Also to be solved is where the AFL's Progressive Mine union will stand if Lewis' United Mine Workers are readmitted.

PEARL HARBOR: Final Accounting

Last February, workmen clambered over the 27-year-old hull of the battleship Oklahoma, turned almost upside down by the Japanese in their attack on Pearl Harbor, in December, 1941.

The workmen tied cables to her framework. The ends were tied to winches set up on shore. Then the signal was given and the winches began pulling on the cables. After 69 hours, the steady tug gradually drew the Oklahoma from the depths, righting her.

Salvaging of the Oklahoma reduced the final loss at Pearl Harbor to three ships—the battleship Arizona and the destroyers Cassin and Downes.

Repair restored the battleships California, Nevada and West Virginia and the destroyer Shaw, which had been struck and heavily damaged.

RUBBER STRIKE: Higher Pay Demanded

Fifteen thousand employees of the Goodyear Tire and Rubber company joined 30,000 other workers from the Firestone Tire and Rubber company and the B. F. Goodrich company in a strike protesting the War Labor board's refusal to grant a requested eight cent per hour wage increase. It allowed a three cent boost.

The strike paralyzed production in the country's three major rubber plants. Although Sherman H. Dairymple as international president of the CIO united rubber workers expressed public disapproval of the stoppages, strong detachments of pickets prevented the return of employees to the factories.

Dairymple hastened to Washington to confer with the WLB, while an official of the war department roundly condemned the stoppage as a violation of the union's no-strike pledge. In declining to grant an eight cent increase, the WLB said such an action would destabilize pay levels throughout the industry.

POLL TAX: Good Show

Amid the gymnastics of a gallery spectator, the house passed the anti-poll tax bill, 265 to 110. The bill abolishes the poll tax as a condition of voting in primaries or other elections for national officers.

A 21-year-old sailor from San Francisco provided the acrobatics at the session, standing on the gallery rail and hanging onto a pillar while shouting for passage of the bill.

In opposing the measure, Rep. Hatten Summers of Texas said: "There is some expense to democracy. The individual who is unwilling to pay \$1.50 or \$2 isn't a good citizen of this democracy."

DRESSES: WPB Cuts Frills

As part of the effort to make more garments from limited material, the War Production board imposed new controls on women's garments.

Trimming allowance for dresses is restricted. Hip measurements have been cut to 56 inches and sleeve lengths to 30 inches on the basic untrimmed dress. Skirt sweeps are reduced six inches to 72 inches. The limits are for size 16, with proportionate variations for other sizes.

Wash Off Greasy Film Kitchen and bathroom walls, ceilings and floors are likely to acquire greasy film, and should be thoroughly washed with soap and water and then well rinsed with clean water before repainting. The surfaces should be thoroughly dry before the new paint is applied.

Tankers Carried Oil

Before Pearl Harbor, the 17 eastern states and the District of Columbia were dependent on sea transport for more than 95 per cent of their oil—more than 1,400,000 barrels per day. When war came, many tankers were diverted to military uses. Many more were sunk by enemy submarines. There are now virtually no tankers engaged in commercial service along the Atlantic coast.

Helped Love-Sick Up until the late 1800s there were no Valentine greetings available expressing a variety of moods and sentiments as there are today. Then Valentine senders would either make up their own messages or consult "Valentine Writers," which were books of suggested verses published as aids to those "struck dumb with love."

Tips for Pruning

In pruning shade trees, be sure to keep one main trunk as a leader, cut out branches which rub on others, low branches that hang down in the way, and branches that may cause narrow crotches. Branches broken by storms should be cut off flush with the trunk, or back to the next lower branch on a limb.

WAGES 2 cents an hour!

YOUR household electric servants work for a few cents a day. They do such a big job in the average home—washing and ironing and cleaning and cooking—that most people simply cannot realize how little they cost to operate. Actually, 2 cents an hour represents top wages for many appliances. A number of them operate for only a fraction of a cent per hour. Look at some of the common electric servants listed below: See how cheaply they work for you, in average use, at the thrifty "bargain" step in your residence rate, 2 1/4 cents net per unit.

Mr. Steeby is a member of an Evangelical Church in Grand Rapids. He recalls that Mr. Kinn was a member of his Sunday School class of boys in Leighton, Michigan.

Miss June Gilbert left Wednesday morning for Charlotte to be the guest of her sister, Miss Grace Gilbert. On Saturday she will go to Naperville, Illinois, to attend the summer session of North Central College. In the fall Miss June will begin her second year as teacher of the McConnell school, east of Cass City.

Mrs. Vera Fritz of San Francisco, California, who is spending about two months with her sister, Mrs. Zella Livingston, in Plymouth, visited from Saturday to Tuesday with another sister, Mrs. Hilton Warner, in Cass City. Mrs. Eva Marble of Ypsilanti and Miss Irene Clelland of Rochester were guests of Mrs. Warner Saturday.

Robert Keating of Ypsilanti, Miss Mildred Karr of Lansing and Mr. and Mrs. Leslie Karr of Traverse City were entertained over the week end in the home of Mr. and Mrs. R. D. Keating. Leslie Karr leaves Mt. Pleasant today (Friday) for Camp Custer to enter Army service. "Bob" expects to go into the Army after the close of school.

Mr. and Mrs. Louis Striffler, Edward Jenks, Miss Gertrude Striffler, Mr. and Mrs. Frank Striffler, Mrs. Burke Arehart and daughter, Burke, and Earl Gooden, all of Detroit, spent Saturday and Sunday in Cass City. Mrs. Frank Striffler remained to care for her mother, Mrs. John Spangler, and Mrs. Gooden, who had been with Mrs. Spangler for a week, returned home with her husband.

To High School Graduates:

ROBERT M. HUTCHINS

Your generation is taking its place in the world in much the same circumstances as mine did. Our elders gave us a world at war; we are passing on to you a world engaged in a conflict of even greater dimensions which will have even more drastic repercussions on your lives. If civilization is not to move blindly from one catastrophe to another your generation must succeed where mine has failed. Not the least of your handicaps will be the interruption of your education by the war. Most of the young men, and many of the young women, will enter the armed forces. These exist to win a war, and the education they provide, even for those they send to training programs in the colleges and the universities, is intended to produce effective fighters. But the education which will be needed after the war to preserve and keep the freedom which you have defended is liberal education. You cannot preserve your freedom, you cannot use it well, unless you know what freedom is and what to do with it. Only liberal education can so enlighten you. Without it you cannot replace our concern with materialism with the moral and spiritual reformation which alone can create a world concerned with the highest good of man and society. Your part in winning the war is only the beginning of what you must undertake. After the war you must see to it that you get a liberal education.

Here the new class of cadets is receiving nine weeks of intensive military, physical and academic training preparatory to beginning their actual flight instruction at one of the many primary flying schools in the Army Air Forces Southeast Training Center. Cadet Reagh is a graduate of Cass City High School and a former student at Central

Michigan College, Mt. Pleasant. He had served two years as an enlisted man in the U. S. Coast Artillery before he was accepted as an aviation cadet in the Army Air Forces, April 10, 1943, at Camden, New Jersey.

Wooden Lifesavers

Navy men may soon be jumping overboard with wood-and-glue life rings instead of the customary cork preservers. These new laminated life rings are light-weight and save hard-to-get materials.

Spinach Growth

Spinach requires short days, rich soil, early plant. Treat the seed to prevent rotting.

Order for Publication.—Account. State of Michigan, the Probate Court for the County of Tuscola. At a session of said Court, held at the Probate office, in the Village of Caro in said County, on the 2nd day of June, A. D. 1943. Present, Honorable Almon C. Pierce, Judge of Probate. In the matter of the Estate of William H. LaPeer, Mentally Incompetent. Hilliard E. Wright having filed in said Court his annual account as guardian of said estate, and his petition praying for the allowance thereof. It is ordered, that the 22nd day of June, A. D. 1943, at nine o'clock in the forenoon, central war time, at said Probate Office, be and is hereby appointed for examining and allowing said account; It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said County. ALMON C. PIERCE, Judge of Probate.

If Michigan's Prentiss M. Brown can pull a rabbit out of the hat, he may be able to save the OPA system of price ceilings, rollbacks and other controls from a resounding Humpty Dumpty fall.

Resignation of Arthur Sarvis, the Flint banker, as state director is regarded as just another sign of impending trouble on the price front. Detroit received two complicated sets of ceiling prices in two weeks; two of the three daily papers refused to duplicate columns of space to publish the second listing. Sarvis said he had been given 48 hours' notice for the first release which was badly scrambled. Chain and independent food store operators have denounced the new roll-back ceilings, declaring that distribution of food was threatened with "complete demoralization" if not "annihilation."

Michigan business executives, who have recently visited Washington, have expressed privately their concern over present symptoms of runaway inflation. OPA's failure to hold price ceilings is just one factor. Another is the wobbly policy whereby the War Labor Board continues to pierce wage ceilings and whereby the 48-hour work week is being extended to more key industries.

Although the nation did over-subscribe the \$13 billion second war loan by around \$5 billions, the fact still remains—according to public statements made by William M. Robbins, chairman of the United States Treasury Department's war finance committee—that only 7 per cent of all bonds sold were "E" bonds. These bonds are popularly called "people's bonds" because of their low denomination. Turn to page 7, please.

Around June 20 and up to July 21, OPA centers will mail books to applicants.

Strong Men Talk

"If you expect to do your part in American defense," writes Albert N. Leman, "you'll have to learn how to untie your tongue. It's all the bunk about strong, silent men. Nearly all strong men were and are great talkers. Consider Roosevelt, Churchill, Willkie, Stalin, Hitler, Mussolini, and Caesar, Cromwell, Napoleon, Pitt and Clemenceau did pretty well, too."

Newsprint Shortage

Lack of newsprint caused by the shipping shortage has stimulated Uruguay to make extensive plantings of a new, early maturing, hybrid poplar.

Men Who Go Down to Sea In Ships—for Victory Food

In quaint fishing towns off America's many coasts men who are following their forefathers on the sea find fishing a booming industry. The armed forces consume more than half of all the frozen fish in the United States.

An even greater amount, 80 per cent, of the mackerel and sardine pack is consumed by the armed forces. In addition, civilian requirements have increased as housewives, faced with a meat shortage, have turned to fish as a main course alternate.

The fisherman's job is not an easy one. Added to the normal hazards of the sea are the submarine menace and the difficulties resulting from material shortages. However, fishermen continue operations despite new perils, striving to equal former records.

John Riberia, captain of the fishing trawler, Old Glory, kisses his wife before leaving for the fishing grounds off the Massachusetts coast. Fishing trips usually extend from four days to a week.

Certain varieties of fish are appearing on the markets for the first time, and New England fishermen are hauling in large quantities of rosefish, a variety considered useless five years ago. Picture at right shows heavy nets sliding down Old Glory's side, where rosefish are being sought.

Muscles strain as husky fishermen of Portuguese descent pull nets on board the Old Glory. Their haul is rosefish, once called "goldfish" because of the brilliant color.

Shown above is a typical pier hand on the docks at Gloucester, Mass. This port has been a famous fishing center for centuries.

Immediately after being caught rosefish are shoveled into the hold for packing in ice.

The crew members are up at dawn and put in their travel for the morning catch.

At sunset fishermen mend nets torn by rocks on the ocean floor.

The NAVY Is Calling for WAVES and SPARS!

Women 20 to 36 years old:
The Navy and Coast Guard
Have a Message for You!

Here's How You Can Serve Your Country In Your Country . . .

Not all the important jobs in Uncle Sam's Navy and Coast Guard are aboard ships. Thousands of vital positions must be filled right here in the United States. And as a WAVE or SPAR, you can help win the war in one of these jobs.

Enlistments requirements are not strict. You may join the WAVES or SPARS if:

- 1—You are a citizen of the United States.
- 2—You are at least 20 years old and not yet 36.
- 3—You have attended high school or business school for at least two years.
- 4—You are physically qualified.
- 5—You are not married to a man in the corresponding service when you enlist or have no children under 18. (There are no marriage restrictions after completion of a brief training course.)

If you are experienced in any of numerous duties—typing, office work, bookkeeping, radio, photography, telegraphy, tailoring, sewing and many others—your experience will be valuable to the Navy and Coast Guard and to yourself as well. It will help you win rapid promotions and pay increases.

But you don't need any special skill or experience to join the WAVES or SPARS. The Navy and Coast Guard will train you—and pay you at the same time.

Opportunities You Will Enjoy In the WAVES or SPARS

PAY—Many women are financially ahead after leaving civilian jobs to join the WAVES and SPARS. You get from \$50 to \$126 per month base pay, plus your food and quarters or \$2.75 per day cash allowance for them. This cash allowance, which is given to most WAVES and SPARS now assigned, may bring your income to between \$132.50 and \$198.50 per month.

ADVANCEMENT—Your chances to earn higher ratings, with increased pay, are as great as those of any man in the Navy or Coast Guard of which you are a part. You can eventually become a Chief Petty Officer, receiving \$126 per month base pay. You may even earn a commission.

UNIFORMS—You look and feel your best in the smart Navy blue regulation uniforms, which were designed for the services by the noted stylist, Mainbocher. You get a uniform and clothing allowance of \$200 so you have virtually no clothing expenses.

TRAINING—After from six weeks to four months training at one of the country's leading colleges, you are assigned to a Navy or Coast Guard shore activity within the continental United States. This training will be valuable to you later in life and will fit you to fill an important job in the Navy or Coast Guard.

As a WAVE or SPAR, you will be a proud member of our fighting forces—you will help your country smash the Axis!

Typical of thousands of women now serving their country in the WAVES and SPARS is this WAVE Yeoman.

On the political front, the visit
of Wendell L. Willkie to Michigan
last Sunday occasioned new gossip-
ing about the line-up of Michigan
Republicans for the 1944 campaign.
A powerful movement is under way
among Michigan Republicans to
support Thomas Dewey, New
York's Owosso-born governor, for
the presidential nomination. Sec-
retary of State Dignam of Owosso
is Dewey's bell-ringer here, but the
Willkie triumph at Michigan polls
in 1940 is not forgotten among the
politicians. The soaring popularity

FFFS Training for High School Boys

Two conservation officers here show boys of the Lake City schools the best way to use water from a back pump on a forest fire. Among the 10,000 persons in the Forest Fire Fighters Service now receiving elementary training are many boys of high school age, as all available labor in northern Michigan is being prepared for emergency forest fire fighting. The FFFS is a civilian defense agency whose wartime job is helping preserve the state's important reserves of standing timber.

of his Gulliver's travels, "Our
World," is boosting the Willkie
stock. Frank McKay, national
committeeman, was prominent at
the Willkie reception in Detroit.

The labor shortage in Michigan,
due to become worse in 90 days as
fathers under the age of 38 are
called to military duty, may be
eased somewhat by the current
cut-back of production in key war
plants. Michigan's industrial capac-
ity is near to the top. As the
government revises schedules, labor
is being released.

More airplanes and fewer tanks
under this spring's schedules give
rise to increasing belief that the
United Nations may seek to knock
out Germany and Italy in 1943 by
air attacks and limited invasions—
Norway and Italy, for example—
and leave the big continental attack
to 1944. The grand invasion may
possibly come earlier if Germany
weakens internally under continued
air assault.

Betting odds still favor President
Roosevelt as the democratic presi-
dential nominee in 1944. Church-
ill's masterful address in Washing-
ton increased this belief. The
Lewis swing to A F of L is re-
garded as a "beat Roosevelt" move.
Lewis favored Willkie in 1940.

Continued rainy weather, accom-
panied by cold temperature, hasn't
improved the prospects of a good
food crop in 1943. Michigan gar-
deners are urged to plant non-
perishable vegetables which can be
stored next winter and to overlook
the traditional luxury items of let-
tuce, onions and radishes.

Strict liquor rationing for Michi-
gan consumers is on the cards of
the state liquor control commission,
as soon as the present registration
drive is completed. Arrangements
are to be made later for visitors
and service men.

On the walls of Governor Kelly's
executive office is a huge chart
showing the state's various ad-
ministrative offices, commissions
and agencies. Reason: Kelly is
surveying governmental units with
the thought of consolidations and
simplification.

Despite gasoline rationing, the
vacation resorts in the lower penin-
sula—especially those served by
railroads and buses—anticipate a
good season this summer. Demand
is heavy for cottages.

Lieutenant Governor Eugene C.
Keyes, who spent several years of
his boyhood on an Ontario farm,
recently inspected a farm near
Howell. His idea: A good farm
is a good investment.

Same Like Him
"The boss says that when he was
a boy on the farm they b...
that was just like one of the...
"Yes, and I know which one."

Under Protest
"How have you arranged to pay
your income tax?"
"With wailing and gnashing of
teeth."

Lesson Learned
"How is it that you let your wife
have her own way?"
"I once tried to stop her."
