

## Caro Letter Carrier Is Exonerated in Traffic Death

Andrew W. Moore, 5, Fatally Injured When Hit by Car Monday.

Andrew D. Moore, five year old son of Mr. and Mrs. Charles Moore, of Almer Township, was fatally injured when the lad was struck by an automobile driven by Livingston Axford, rural letter carrier on Route No. 1, Caro. The accident occurred at 10:30 a. m. Monday and the boy died at 10:30 that night in the Caro Community Hospital. Death was caused from brain hemorrhage and brain concussion.

At the coroner's inquest held Tuesday afternoon in Caro, the jury determined that Mr. Axford had not been negligent in the operation of his automobile, that he had exercised sufficient good judgment to avoid the accident, and that he should be exonerated from all criminal liability in connection thereto.

Members of the coroner's jury were Ward Walker, Elmer W. Conant, Hugh J. Austin, W. H. Gildart, Ray Putnam and Donald Ellwanger. Coroner Lee Huston conducted the hearing.

Because of a bridge being "out," Mr. Axford passed the Chas. Seiland farm, six miles north of Caro, where Mr. and Mrs. Moore reside, from an opposite direction usually travelled in delivering mail. As he came near the mail box, he noticed three children at the side of the road and he sounded his horn to notify them of his approach. Axford testified that the boy ran into the path of the car, first diagonally and then straight ahead of the automobile. The driver applied his brakes but released them when he saw he was going to hit the child because he was afraid the braked wheels would grind the child into the dirt.

## Tuscola Board of Supervisors Are in June Session

Members of the Tuscola County Board of Supervisors met at the court house at Caro Monday for their June session. The equalization of the township tax rolls is the chief topic for consideration.

The committee on county buildings was given the authority to draw a contract with Caro Village in which the Caro Fire Department would furnish fire fighting equipment and help in the event of a fire at the county infirmary.

Whether the court house clock will continue on Central War Time or will be changed to Eastern War Time was a question scheduled for decision Thursday. The "time" topic was quite thoroughly discussed at a board session earlier in the week. County parks were also considered and discussed on Monday and definite action on any changes, if made, were to be decided upon Thursday.

## New Officers of Thumb Rotary Clubs Installed on Monday

Cass City Rotarians attended an inter-city meeting at the Verona Hills Golf Club Monday evening sponsored by the Bad Axe club when officers of Rotary clubs of the Upper Thumb district were installed by Clarence Myers of Caro. Leon L. Bateman of Bad Axe spoke to retiring officers.

Club presidents who were installed, are: Cass City, Keith McConkey; Elkton, Milton L. Ackerman; Bad Axe, Dr. Frank L. Harrison; Caro, Kenneth Kerr; Pigeon, Crawford H. Spence; Crosswell, John Mitchell; Sebawing, Dr. J. E. Wurm.

Paul V. Barrett of Findlay, Ohio, past governor of an Ohio district of Rotary International, was the speaker of the evening, and Louis C. Cramton of Lapeer, retiring governor of this district, spoke briefly at the dinner.

Winners of golf contests in the afternoon were Maurice Ransford, James Smeltz and Kenneth Kerr, all of Caro; Paul V. Barrett, Findlay; Andrew Jensen, Crosswell; Frank Reid, Earl W. Douglas and Keith McConkey, all of Cass City.

Orris Reid, who is employed at Detroit, spent the week end with his family here.

## To Determine the Farm Wage Rates

There will be a public hearing held, under the direction of the U. S. Department of Agriculture War Food Administration, in the Tuscola County court house, on Saturday, July 3, at 10 a. m.

Prevailing farm wage rates on Tuscola County's principal farm crops will be determined. Farmers, agricultural workers and other interested persons are permitted to present testimony.

Members of the county farm wage board are Ben H. McComb, Caro; Meredith B. Auten, Cass City; John McDurmon, Caro; Norris W. Wilber, Caro.

## Pay-as-you-go Tax Plan Will Aid the Wage Earner with Family, Says Isbey

The new pay-as-you-go tax plan which went into effect on July 1, has more balm than bite in the opinion of Frank N. Isbey, Michigan chairman of the U. S. Treasury War Finance Committee. "Actually the plan is rather painless," Mr. Isbey said, "and should result in more purchases of War Savings Bonds."

"For instance examination of the withholding brackets shows that a man with wife and two children who earns \$40 a week will pay only 80 cents a week. This is actually 50 cents a week less than he is now paying out of his wages for the five per cent Victory Tax—and his entire federal income tax is all paid up."

"If the same family earns \$50 a week, the withholding tax will be \$2.80 a week. There is no mathematical nightmare about this. When the taxpayer realizes that the withholding tax includes the Victory Tax he is now paying, he should breathe with considerable

## \$502,500 Asked for Addition to Caro State Hospital

State Hospital Commission Prepares Building Program for Michigan.

Three hundred thirty-five additional beds at the Caro State Hospital, involving an estimated expenditure of \$502,500, were included in a building program to meet current needs and for the 10 years following the war which the state hospital commission laid before Gov. Kelly and the administrative board this week.

The program calls for the addition of 2,960 new beds to the present system of state hospitals as soon as possible and the construction of accommodations for 10,035 patients within 10 years after the war ends.

The commission asks \$3,000,000 to erect a new mental hospital within a 60-mile radius of Detroit. Also on the must program are additions to the Coldwater Home and Training School to provide 1,050 additional beds costing \$1,575,000, 335 additional beds at the Caro State Hospital at \$502,500, and the erection of a children's hospital at Ypsilanti to cost \$112,500.

The total cost of the immediate program is roughly estimated at \$5,190,000, and of the total ten-year program as \$17,902,000. The commission asks leave to engage architects now to prepare plans for the immediate program, and to acquire sites in preparation for beginning construction as soon as materials become available.

## Purdy Residence a Home for Defense Workers' Children

(From Gagetown Correspondent.)

Mr. and Mrs. Leo F. A. Birmingham and Mr. and Mrs. John Ammo of St. Clair Shores are now residing on the Adam Krzak farm. For the past three years, Mr. Birmingham has been employed by the government as an inspector of ordnance materials, and due to the fact that he wishes to further his assistance toward the war effort and understands the dire necessity for the replacement of men by women personnel in defense industries, he wishes to establish a licensed boarding home for defense workers' children, aged 6 to 14.

This farm, formerly the J. L. Purdy farm, is modern in every way and is about two miles from Gagetown.

## Raymond Toohey New Rural Letter Carrier at Gagetown

(From Gagetown Correspondent.)

Raymond Toohey received word from Washington that he has been appointed as rural letter carrier on Route 2 out of the Gagetown post office. Charles T. Grady, substitute, has been carrier on this route since the retirement of Webb McCullough August 15, 1942.

Mr. Toohey will start carrying mail on July 16.

## Symbols of a Free World

The American flag and the Statue of Liberty mean more to liberty loving people today than at any time in the past. Silent spokesmen of freedom, they symbolize the united battle against the forces of tyranny and evil. To immigrants and to the many nations friendly to the United States, the flag and the "Lady With a Torch" stand as bulwarks of safety in a storm-tossed world.

"I killed one of those niggers myself last night."

A white man driver of a taxi cab in Detroit, said this to me in bitter hatred but as casually as if he had just brushed off a fly. It was an amazing aftermath of the Detroit race riots, the like of which this nation has not seen in 20 or more years.

I had left the state capital for Detroit to meet Philip T. Rich, publisher of the Midland Daily News, and accompany him to Cleveland for a conference with officials of the War Manpower Commission. While waiting for a cab in front of the Book-Cadillac hotel, I heard a cheery voice and turned around to greet a friend from a state office at Lansing. He resided many years in Detroit.

Our conversation began and ended on the topic of the previous evening's battling right in the heart of Detroit—the city hall, Grand Circus Park, Woodward Avenue, and the bus terminal on Washington Boulevard, just to mention a few.

The state executive gave an explanation of the race riots which I have substantiated since from two army officers. Here it is:

"Since the war began, hundreds of thousands of southern whites and Negroes have come to Detroit. In their home states—Kentucky, Tennessee, Alabama, Georgia, Arkansas—the Negroes were accustomed to segregation and other restrictions. The whites did not regard the Negroes as their social equals, and in fact they have been re-fighting the Civil War ever since on that one point alone.

"Up here in Detroit the Negroes have found a new freedom. They work with whites in war plants on a basis of equality of wages. The Negroes' earnings are fantastically

### ADVERTISES ONE COW, THEN SELLS TWO

Clayton O'Dell, R. R. No. 2, Cass City, advertised a cow for sale in the Chronicle want ads last week, stating that the buyer could have the choice of one in five. Friday night he had sold not one but two cows.

## Mr. and Mrs. Mudge Celebrated Their Silver Wedding

On Saturday evening, June 26, Mr. and Mrs. Charles Mudge of Evergreen Township celebrated their twenty-fifth wedding anniversary. About 180 friends and relatives gathered at the Shabbona hall which was decorated in silver and blue and with baskets of peonies and roses.

The evening was spent in group singing, readings, and short talks by several who were present at the wedding 25 years ago. A comic mock wedding was much enjoyed. A four-tiered wedding cake made by Mrs. Opal Hollis, a niece of Saginaw, graced the table which was set with crystal and tall silver candles in crystal holders.

The honored couple, who have had continued residence on their farm in Evergreen since their marriage, received many gifts and lunch was served to the many guests.

Friends were present from Saginaw, Detroit, Marlette, Decker, Columbiaville and Cass City.

## Board Engages 3 New Members on School Staff

Position of Instrumental Music Instructor Is Yet to Be Filled.

Jack London has signed a contract to serve as athletic director of the Cass City High School for the coming year. Mr. London is a graduate of Central State College of Education at Mt. Pleasant and has been on the Weidman school staff the past year. Mrs. London is the former Miss Florence Ross of Cass City, who was graduated from the high school here and from Ferris Institute and was employed in the registrar's office at the state college at Mt. Pleasant. Chalmers Young, who was athletic instructor here the past year, will teach in St. Johns.

Howard Oatley, who taught in Traverse City this year, comes to the school here as instructor in economics and government and will be dean of boys. Mr. Oatley was Scoutmaster at Traverse City and has served as a director of a Boy Scout camp for several years.

Mrs. Dudley Masure of Cass City has accepted the position of librarian in the local school and will be on duty half of each day. The library will be moved to the main floor of the school building.

The position of instrumental music instructor is still open.

## Two Are Held on Second Degree Murder Charges

Two Greenleaf Township men, George Holmes, 51, and Nate Skinner, 43, were bound over to the circuit court on charges of second degree murder after their examination in justice court at Sandusky Monday. They are being held in the Sanilac County jail without bond.

Holmes and Skinner were arrested on the morning of June 18 because of fatal injuries suffered by Wm. McKay, 43, after McKay and Holmes had argued the previous night about money spent for beer in the store at New Greenleaf. At the home of Mrs. Olga Bliss, McKay was pushed from the house and, according to testimony of witnesses, Holmes and Skinner continued to beat and kick him when he lay unconscious on the ground. Later McKay was loaded into a wagon and taken to Cass City and when brought to a hospital here, it was discovered that he was dead.

Witnesses who testified Monday in justice court included Coroner B. A. Pitcher of Sandusky; Mrs. Olga Bliss, at whose home the fight took place; Tyrus Mzyk, merchant at New Greenleaf; and John A. Seeger, Greenleaf Township farmer, at whose home Holmes and Skinner stopped on the way to Cass City with the body.

The Chronicle, in its report of this fight last week, was mistaken when the paper mentioned the Greenleaf Trading Post in connection with the argument of the two men. The trading post is not at New Greenleaf, but is located a mile west of that place.

## Williamsburg On War Basis

### Colonial Restoration Now Caters to Military Men And Their Kin.

WILLIAMSBURG, W. VA.—War-time travel restrictions have deprived this historic city of almost all of its civilian tourists, but Williamsburg now serves in their place an increasing number of men in the armed forces in this strategic area.

Members of the families of these men also come to Williamsburg to visit husbands, sons and brothers, and in addition there has been a great influx of construction workers from nearby Camp Peary, the great new training center for the navy's Seabees.

The Colonial Williamsburg Restoration converted its facilities to war needs as early as January 1, 1941, by reducing admission fees to its six exhibition buildings for officers and enlisted men, and the Williamsburg Inn has been reserved exclusively for officers of the armed forces and their families since last June.

Kenneth Chorley, president of Colonial Williamsburg, said: "During the last 12 months this country has changed from a peace basis to a war basis. No institution—industrial, agricultural, governmental, educational, religious or cultural—has any place in this country unless it contributes to the preservation of the principles for which we are fighting."

**New Training Center.**  
"And so, while Williamsburg was restored that the United States might have a shrine to which its citizens might go better to understand the principles for which our forefathers died, it has been converted to a war basis. Many of the cornerstones of democracy were laid in Williamsburg in the eighteenth century. These principles of democracy are the very things which we are today fighting to preserve. In the 250 years which have elapsed they have changed in name only. We now call them 'the four freedoms' or 'the American way of life.'"

"Williamsburg not only has converted its physical facilities so as to help house, feed, provide recreation and inspiration for the large number of uniformed personnel concentrated within an accessible distance of the city but, in addition, it has been a part of the official basic training program for all men stationed at the anti-aircraft replacement training center at Fort Eustis, Va."

**Educational Tours.**  
With the co-operation of Brig. Gen. Forrest E. Willford, then commanding general at Fort Eustis, 300 men have visited Williamsburg every weekday since May as guests of Mr. and Mrs. John D. Rockefeller Jr. These convoys continued under Brig. Gen. Edward A. Stockton Jr., who recently succeeded General Willford, until the critical shortage of gasoline necessitated their suspension on January 23. More than 40,000 men have taken these educational tours as part of their basic training, said Mr. Chorley, and "have seen where and how the cornerstones of democracy were laid and have been imbued with the spirit of realization that what their ancestors fought for and gained is worth fighting for and preserving today."

Several restored taverns and Colonial houses also have been reserved for army and navy personnel. Williamsburg Lodge, however, still serves civilians as well as army and navy personnel.

Housing continues one of the critical problems of the city as a whole.

### Tiniest Woman Is Big

#### Help on Giant Bombers

TUCSON, ARIZ.—Mrs. Molly A. Crouch, of Consolidated Aircraft's Tucson division, claims the title of being the smallest woman actively engaged in war production work. She stands only 4 feet 9½ inches tall and weighs a mere 85 pounds.

To top it off, she works on America's biggest bomber, the B-24, or Liberator.

Mother of 12 children, seven of them living, she has three sons on the fighting fronts with the marine corps. Of her four daughters, two work for Consolidated at San Diego and the husband of another is a Consolidated employee here.

### Skeletons of Slaves

#### Are Found in Leg Irons

CAPE TOWN.—Leg irons found with three skeletons uncovered in Orange Grove, South Africa, indicate the bodies to be those of slaves. One of the skulls contained teeth which had been filed to sharp points. The graves were found by laborers clearing a poplar grove just 300 yards from the home of Charles Heald.

### Smoking Tobacco Sacks

#### Are Turned Into Quilts

PUEBLO, COLO.—Seeking a hobby? Patients in the Colorado State hospital have found a group hobby in tobacco sacks. They are made into ornate quilts. Some patients specialize in collecting the sacks from wards; others rip the seams; another group presses and launders the cloths and then the needleworkers embroider colorful basket designs upon them. Then they are made into patch quilts.

### NO HURRY

A wealthy merchant decided that he would commission an artist to paint his new country mansion, with himself, as the owner, standing in the doorway.

Accordingly he approached an artist who agreed to the proposal. In due course the picture was completed, but the artist, for some reason of his own, had neglected to paint in the figure of his client.

"It's all right," said the merchant, "but where do I come in?"  
The artist tried to pass off the error as a joke.

"Oh," he said, "you've just gone inside to write my check."  
"Oh, have I?" retorted the other.

"Then perhaps I'll be coming out soon, and if I do I'll pay you; in the meantime we'll wait."

### Delicate Hint

Jones—I hear you and your neighbors are on the outs. What happened?

Smith—Well, our youngsters are taking music lessons. The other day the Whites sent over an axe with a note saying: "Try this on your piano."

### EXCEPTION TO RULE

Then there was the self-made man who claimed nothing could be done successfully in life unless one started at the bottom. He hasn't been heard from since someone asked him if he'd ever learned to swim.

### Guaranteed Cure

Mrs. Blue—It was so sad to hear of Mrs. Green's death, doctor. And to think you were treating her for asthma and have her up and die of heart disease!

Doctor—Mrs. Blue, I'll have you know that when I treat a patient for asthma, that patient dies of asthma!

### Old and No Good

Diner—An order of chicken, please.

Waiter—When I was a boy we had a name for every one of our chickens.

Diner—Would you mind telling me the name of this one?

### Strange Insect

Johnny—Mom, what's a buzzum fly?

Mother—What do you mean?

Johnny—Well, I know a butterfly and a horsey but in Sunday School we sang, "Jesus lover of my soul, let me to thy buzzum fly."

### Can't Be Beet?

Johnny—Do you know you can make a vegetable out of a water-melon?

Jimmy—Yeh? What kind and how?

Johnny—Just hold it up high and leggo—squash!

### Bread Ration

Mother—Now, Billy, you know it's wasteful to put both butter and jam on your bread.

Billy—No, mother. I figure it's saving. I use the same piece of bread for both!

### WELL KEPT

Mrs. Blue—Can you keep a secret?  
Mrs. White—I'll tell the world!

### Try and Collect

Salesman—All you do, ma'am, is make a small down payment and then you pay no more for three months.

Mrs. Jones—I'll bet that snoopy Mrs. Smith told you about us!

### No Trial Needed

Lawyer (to opponent)—You're the biggest boob in the world.

Judge (rapping for order)—Gentlemen! Gentlemen, you forget I am here.

### Good Example for All!

Mother—Alice dear, it's bedtime. You know all the little chickens have gone to bed.

Alice—Yes, mother, and so has the hen!

### Fun in the Theater

Bill—What would you call a dramatic critic?

Harry—A man who gives the best fears of his life to the theater.

### Gotta Get Up

Jones—I hear all you boys in the army get up bright and early.

Private Smith—Just early!

### One Way or Another

Bill—Smith tried to beat the train. Harry—Did he get across?

Bill—No, but they're making one for him.

### Duck Quick, Brother!

Wiley—What do you mean by coming home at this hour?

Hubby—Every other place was closed, dear.

### Plenty of Space

Nit—I have a cold or something in my head.

Wit—A cold, undoubtedly!

## Improved Uniform International SUNDAY SCHOOL

### LESSON

By HAROLD L. LUNDQUIST, D. D.  
Of The Moody Bible Institute of Chicago.  
(Released by Western Newspaper Union.)

#### Lesson for July 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

#### A PEOPLE IN DISTRESS

LESSON TEXT—Exodus 1:6-14; 2:23-25.  
GOLDEN TEXT—They cried, and their cry came up unto God by reason of the bondage.—Exodus 2:23.

Today is Independence Day. Yet much of the world is in bondage, and the rest of it in a struggle to prevent freedom from perishing from the earth.

Our lesson too is about a nation in bondage, but we learn from it that there is a way to be free. Even so we declare the way of personal liberty which is open and free.

The Lord Jesus Christ opened it at Calvary's tree and anyone who is still the bond slave of Satan may make this a great and glorious Independence Day by now declaring his faith in the Deliverer of our souls.

We begin today a series of lessons in the book of Exodus which reveal the high and mighty hand of God working on behalf of His people.

The family of Jacob—or, as the Bible calls them, the children of Israel—prospered in Egypt particularly as long as Joseph and the rulers who remembered him were alive. But they soon learned one of life's bitter lessons, that—

#### I. Prosperity Is Not Always a Blessing (1:6-11).

The Hebrews were a peaceful, law-abiding people. They were God's chosen people, and as He blessed them they prospered, and thus innocently they brought upon themselves the hatred of the suspicious Egyptians.

Prosperity is never an unmixed blessing. We as a nation know that to be true. Not only does it lead to a certain softening of the sinews, but all too often it results in a weakening of the moral fiber, which makes man easy prey to the attack of the enemy of our souls.

Is it not strange, then, that we should, even in times of all-out warfare—be so eager to chase the dollar that we are willing to neglect our children, forget church, live unnatural lives, just that we may make more and more money?

The Egyptians had, humanly speaking, reason to fear this great nation which was growing up in their midst. The new rulers did not know Joseph and had forgotten the spirit in which he had brought his family into the land. The leaders of the Egyptians therefore made plans which appealed to their brilliant leaders as politic and wise. But they reckoned without God, and the burdens and afflictions they placed on the Israelites only served to bring further blessing.

So Israel learned a lesson which our present sorry world can profit by, that—

#### II. Persecution Is Not Always a Burden (vv. 12-14).

The people of Israel did not appreciate it, but the bitterness of their bondage was a blessing in disguise. Note that—

1. It Kept Them Separate as a People. Affliction often serves to keep God's people separated from the world. It is doing so today.

2. It Disciplined Them and Prepared Them for the Hardships of Their Wilderness Journey. We too do well to remember that "whom the Lord loveth he chasteneth," and that if we are properly "exercised" thereby, our sorrows may yield rich fruit in our lives.

3. It Threw Them Back upon God. Many are the saints of God who have found that the fiery trial, the burden so hard to understand, or some affliction of their body, has caused them to bring their burden to the Lord. We have traveled far on the road of faith when we have reached the place where we learn that "man's extremity is God's opportunity."

They had only one place to turn. They were hemmed in on every side, but, as ever, they found that the way up no man can close. They called on their God.

#### III. Prayer Always Brings Deliverance (2:23-25).

Does God really know when His people suffer? Does He really care? Yes, He does. "They cried," and "God heard," and "remembered." That's all we need to know. The groaning of His people had already stirred God's gracious and tender heart. But He waited to hear their cry before He answered. Such is the law of prayer. May we not forget it. Far too often we turn to everyone and everything else, and finally, in desperation, to God. Why not turn to Him first?

Does God hear and answer prayer? Yes, but remember that real prayer is the cry of faith coming from the heart of an obedient child. God may answer other prayers, but He always answers such a prayer.

His answer may not be in accord with our opinion of what it should be, for His wisdom is infinite. He knows better than we what the answer should be. Let us trust the Judge of all the earth to do right (Gen. 18:25).

**Pennsylvania Welsh**  
Many Welsh settlers came here with William Penn, and others soon followed. Before leaving Wales, they extracted a promise from Penn that their lands would be seated together and bargained for a separate barony of 40,000 acres, known as the "Welsh Tract." Great protest was forthcoming in later years when the dividing line between Philadelphia and Chester counties ran through the tract.

high in contrast to sums they received in the South. Some Negroes, but only a few, have become bumptious, swaggering and offensive. The old Negroes, those who have lived in the North for many years, are not troublesome. They are good citizens.

"Put southern whites and southern Negroes together in a northern war boom city, where Negroes and whites have freedom of the city's facilities of schools and parks, and you get a dangerous combination. Basically, that is the core of Detroit's festering boil."

But, let's return to the taxi-driver's startling confession of homicide.

Because of the 10 p. m. curfew in Detroit, we had decided to leave early for the boat docks. The steamer, City of Detroit III, was to depart at 11:30 o'clock. A cab drove in sight, and we flagged it to the curb.

Cab drivers are proverbial sources of much information and gossip, and this driver—a husky white chap of about 45 years—was no exception. I started off with reference to my friend's remark about "hoodlums" who had taken over control of the city before federal troops arrived at 11 p. m. the night before.

"I'd like to have that guy say 'hoodlums' to me," he retorted quickly, turning about to give me a belligerent once-over as the cab left the curb. "Don't believe that, brother. I was in that mob last night, and I killed one of those niggers myself! I've got the iron bar right with me, too. A lot of good American citizens were in there fighting, mister."

I will not quote all the things this cab driver told me, but he did blame recent mayors of Detroit for "catering" to Negro voters and for permitting them to "over-run" Belle Isle.

"This thing will never be solved until all the niggers have been put under," he declared vehemently. "I'm going to try and get a gun, and the first nigger that comes toward my cab is going to get it, full-blast." Those were his exact words.

Now for a cab driver to talk like a murderer to a stranger is proof supreme that a dangerous mob attitude prevails among some elements of Detroit's teeming war workers and their sons and daughters. We were too shocked to argue.

From army officers we learned

that Sunday, June 20, had been a hot and sweltering day in Detroit. Belle Isle was swarming with Negroes—about 70,000 or more were there—trying to get respite from the heat.

Why did they go to Belle Isle? "Paradise Valley," the negro section along Hastings Avenue, is filled with old houses, shabby business buildings and crowded apartments. The Negroes have no parks of their own; their dwellings are congested and stuffy; the day was hot; so they went to the river front. It was just as simple as that. Would you, in their position, have done likewise?

In many Detroit public schools the white boys and girls mingle with Negro boys and girls. Teenage white youngsters formed a goodly proportion of the hoodlums. They were zoot-suiters in reverse.

Negroes retaliated by smashing and looting "white" stores up and down Paradise Valley. The words, "Negro Owned," were enough to spare a store from the fury of the mob.

Yes, and all this in Michigan!

When you try to analyze the Detroit race riots—and in our opinion, they will flare up again inevitably when the troops depart—you can't help but wonder about our so-called civilization and whether it is more than skin-deep; about the freedoms for which our Michigan boys are fighting on the deserts of Africa and the tropical isles of the Pacific, while we would deny the same freedom to fellow Americans back home.

It all contributes to a confusing, irrational and illogical situation where emotions put rational reasoning into hurried eclipse. The solution is not easy. Here are the ingredients which won't mix: Thousands of whites who have been transplanted from a Jim Crow South into a prosperous, tolerant North; thousands of Negroes who have gone from the shadow of social restrictions into the sunlight of social equality.

In the meanwhile, this amazing fact exists. Detroit, an arsenal of democracy, producing arms for the battle of freedoms, is being guarded by U. S. troops to maintain peace among the makers of death-producing weapons.

We still remember the hatred of the taxi driver when he said: "I killed one of those niggers myself." The words were not only savage, cruel and brutal. They evoked a frightening spectre of Fascism, the spirit of intolerance which has scourged Germany and Italy. Yes, they present a challenge to America, and strangely enough, right on the home front of democracy itself.

### Colors of Flag Have

#### Symbolic Significance

The colors of the flag may be thus explained: red is for valor, zeal and fervency; white is for hope, purity, cleanliness of life and rectitude of conduct; blue, the color of heaven, for reverence to God, loyalty and sincerity, justice and truth. The star, an ancient symbol of India, Persia and Egypt, symbolizes dominion and sovereignty, as well as lofty aspirations. The constellation of the stars within the union, one star for each state, is emblematic of our federal Constitution, which reserves to the states their individual rights.

#### Swim Habits Shape Fish

Those interested in fishes should note how profound has been the effect of bottom-living habits in the flattened rays, skates and sawfish, while free swimming habits, by contrast, develop the stream-lined torpedo-shaped body of the ocean going sharks.

### Calf Entries Due for MSC Contest for M. S. C. Contest

July 6 is the final weigh date to be accepted by the animal husbandry department at Michigan State College for calves to go on feed for the 1944 Farmers' Week sale Feb. 1 to 3, according to E. L. Benton, extension specialist.

Any steer calf born between September 1, 1942, and April 1, 1943, if sired by a registered beef bull is eligible for enrollment in this project. Two entries per farm are the limit. To qualify for Farmers' Week these animals must gain two pounds per day and weigh at least 700 pounds.

With the scarcity of protein feeds, a two pound gain will be difficult for some cooperators, Benton predicts. Junior calves can use a nurse cow, but senior calves will require some supplementary protein feed in addition to a generous variety of farm grains and good quality legume hay. Feeding aids and project instructions will be mailed all farmers who list weights of their calves by July 6.

Eighty-three calves were enrolled last year of which 47 qualified, exhibited and sold in the college livestock pavilion February 4. Grand River Stock Farm of Webberville had the grand champion of the show, a purebred Angus that weighed 1040 pounds and dressed 64 per cent. Estill's cafeteria of Lansing purchased the champion at 50¢ per pound. Dressing percentages varied from a high of 65 per cent to a low of 55 per cent. The lowest selling price was 16¼¢ per pound.

Entries for the new contest should be mailed in promptly through county agricultural agents or directly to Mr. Benton. Information should include the weight of the calf at time of weighing for contest and the birth date of the calf.

### RESCUE.

#### Hartsell Reunion—

The 16th Hartsell reunion was held at the Henry and Martin Hartsell home in Grant, Saturday, June 26. A bountiful potluck dinner was enjoyed by all and a fine program was given in the afternoon. The following officers were elected: President, C. E. Hartsell; vice president, Wm. W. Parker; secretary-treasurer, Mrs. Leslie Lounsbury. Henry Hartsell, 82, was the oldest person present. #### Hay Cuts Grain Feed

Cows fed all the hay they will eat at least twice a day usually require less grain to produce good milk.

Figure It Out Yourself. How can you effectively join in saving all the little children of the world from human slavery, death and injury from the Nazis and Japanese? Put more and more of your pay into war bonds every payday. Your savings will go to war in the form of war equipment and other munitions. How much more should you put into war bonds? The only ones who can answer that are—you and your family. It's up to you to decide just how much more you'll do to win the war. If you were fighting in the Solomons or in Africa or forcing a landing in Europe you'd like to feel that the folks at home were back of you—all the way—you'd be proud of your family and your friends if you knew they were buying war bonds not at 10 per cent or 15 per cent, but with every cent beyond that which they need for necessities. ### DEATHS.

#### James L. Williams.

James Lockwood Williams died at the home of Mrs. Fred Emigh, his niece, Friday, June 25. Mr. Williams was born at Hudson, Michigan, January 23, 1864. Mr. and Mrs. Williams were retired farmers and came from Ferndale a year ago to make their home on the Fred Emigh farm, nine miles southeast of here.

Rev. Dudley Mosure officiated at the funeral services held Sunday at 2:00 p. m. in the Emigh home. Interment was made in Elkland cemetery.

Mr. Williams is survived by his widow, Mrs. Anna Elizabeth Williams, and two sons, Merlyn Williams, Royal Oak, and Glen Williams, Ferndale.

#### Curtail Metal Church Goods

By curtailing manufacture of metal church goods, 230 tons of brass, 80 tons of aluminum, and lesser quantities of tin, lead and nickel will be saved during every war year.

#### Use Pressure Grease Caps

To be sure that farm machines receiving hard wear are properly lubricated, many farmers replace grease caps with pressure grease fittings.

#### Liquor Boosts Revenue

Colorado, a dry state for four years before prohibition took effect in 1919, now supports its old-age pension payments largely with liquor tax money.

## Calf Feeding Guide to Herd

Michigan dairymen hard pressed to find and purchase the extra milk and bulk cereals normally added to homegrown feeds should plan a budget of feeding for the producing herd and for young stock.

Those calves that will be in production two and three years from now cannot be put on subsistence rations, warns A. C. Baltzer, extension dairyman at Michigan State College. He suggests feeding fewer of the best animals rather than having the young animals develop into poor producers. Another feed saver would be to cull the low 10 per cent of cows in the herd.

For the first six months a likely calf should have 210 pounds of whole milk in the first four weeks and go on a ration that would require 1200 pounds of skim milk, 60 pounds of cereal grain and 500 pounds of hay to finish out the first half year.

For the second six months the young animal should have 360 pounds of cereal grain at two pounds daily, 900 pounds of hay and 900 pounds of silage. From 12 to 24 months the animal would develop properly if given 180 days of pasture and in the other six months 540 pounds of cereal grain, 1440 pounds of hay and 2160 pounds of silage—the hay at 12 pounds daily and the silage at 18 pounds.

"It's better to plan to feed well the best calves than to feed more than enough for replacements and not give them enough feed," said Baltzer.

The problem is especially important to operators of the family sized herds milking 8 to 16 cows. Owners of such herds, according to Baltzer, are less troubled with labor problems and produce the most milk in total volume.

## AMERICA IN ACTION

### ADVANCED INSTRUMENTS TRAINING

The maze of 40 or 50 dials and controls that stare out from the instrument board of a large bomber is just as complicated as it looks. It takes a skilled man to adjust and care for them. Such skilled men are products of the army air forces technical training command's advanced instruments' course at Chanute Field, Ill.

Such instruments require constant attention and, needless to say, bullets or crackups wreak havoc among them. It is the task of graduates of the instrument school to test them frequently to keep them in order, make adjustments and repairs and diagnose their condition in case of major injury, to determine whether they may be repaired or are hopelessly damaged.

Students first take up the mechanically operated instruments, such as pressure gauges, altimeters, rate-of-climb and airspeed indicators, driftmeters, chronometric tachometers and the like. After several days of exploring the principles on which these instruments operate, and of taking them apart, re-connecting them, adjusting and testing them, the students pass on to electrically operated instruments like the electric tachometer, fuel mixture indicator, and the altosyn instruments, a type which show at a glance whether such elements as wing flaps and landing gear are in operating order.

Work is done on the indicating and transmitting apparatus, and again all the working tests are mastered. Third in order come the most complicated instruments of all, those operating on the gyro principle, such as the bank-and-turn indicators, directional gyro compass, flight indicator or artificial horizon, and at least three types of the automatic pilot. The automatic pilot, mainstay of long-range bomber operations, is difficult to master, as it is a highly complex instrument. But by this time students have been so thoroughly initiated into instrument technique that few fail to become masters of it.

The final stage is that of practical application of the principles and knowledge gained in previous phases. Test work is done on instruments actually installed in planes, and done under conditions as near like those of field operation as possible.

Airplane instruments usually have oil running in or through them. Hence tests of the students include a "cold-test chamber" in which instruments are placed with dry ice, duplicating conditions far aloft. Released by Western Newspaper Union.

## Food Best Fun for Men Back From War

### Flying Fortress Crew Home To Teach Others.

**SPOKANE, WASH.**—The crew of the Flying Fortress, Jack the Ripper, whose members had only one fresh egg apiece during many months in England and that was a reward for a hazardous flight into Germany, puts eating at the top of its entertainment list.

The crew returned to America to pass on its battle experience to new fliers, arriving just in time to stow away a few steaks before meat rationing.

Fresh eggs, gallons of milk, steaks, ice cream and milk shakes—these are what they list as the biggest fun.

The crew of Jack the Ripper, who came to Spokane to begin a tour of Second Air Force bases, is the first to fly back intact from England in a Fortress.

What are they going to tell the new fliers? Capt. William J. Crumm of Scarsdale, N. Y., the pilot, had one answer: "We're going to tell them what to expect—what a hot reception they will get over enemy territory. We always had a good enemy escort—if that's what you want to call it."

First Lieut. William C. Leasure, of Clymer, Pa., a navigator, said there was "a lot of flak on the coast, but not as bad as over the target."

Captain Crumm added: "If there's any place better defended than the west coast of France, I don't want to go there."

The crew members participated in 11 deep penetration bombing flights and brought down six Focke-Wulfs and one ME-109. Three members of the crew have been wounded, though not seriously.

### Science Speeds Battle To Beat Shipping Crisis

**WASHINGTON**—In a sprawling temporary structure the army's quartermaster corps is fighting the battle of shipping space.

Under the direction of Col. George F. Doriot, chief of the research and development branch, a staff of world-famous scientists, economists are hard at work making small, bulky packages of army rations or equipment for arctic troops to double or triple duty without any sacrifice to quality.

"Three things are dependent upon the success of this venture," Colonel Doriot said. "These are vitally needed cargo space, top-grade goods and military items which will be easy to carry in the field."

Best known of the quartermaster corps' condensation methods is dehydration of foods. This process removes all water content from fruits and vegetables, leaving only the dried, shriveled pulp. When the mess sergeant wants to prepare a meal, he adds the proper amount of water—army cook books tell him how much—and the fruit or vegetable is "normal" again.

Dehydration has saved millions of tons of shipping space.

### Extol Bathtub as Safe Shelter in Air Raids

**LONDON**—Want a nice, safe spot in an air raid? Try the bath tub. This suggestion comes from London householders who have been re-investigating the safe spots in their homes. They say the best natural "shelter" is the bath. So they are making their baths as bed-like as possible.

They point out that the bath is practically the only spot in a house that is almost always out of the direct line of the windows. It also acts as a dugout against "side attacks" and stray pieces of flying glass. Some advocates of bath "shelters" have even made wooden roofs for their tubs as further protection.

The Londoners' opinions are backed up by an ARP expert, who says: "A stout lid to the bath would be useful to keep pieces of the ceiling from falling on the occupant. It has been proved that although a house has been demolished, the bath is often intact. Being of stout metal, it does not 'concertina' when ceilings tumble on top of it."

### Carrier Pigeon Is Used To Send Battle Story

**ALLIED HEADQUARTERS, N. AFRICA**—For the first time in the North African campaign a carrier pigeon has been used to transmit a dispatch from the front lines.

Phil Ault, United Press correspondent, who was an eye-witness to the capture of the Axis base at Gafsa, wrote a dispatch and sent it by pigeon to a forward teleprinter base which relayed it to Allied headquarters.

It took the pigeon 50 minutes to make the trip.

### Canada Acts to Halt Cigarette Smuggling

**MONTREAL**—Royal Canadian Mounted Police have started a determined drive against smugglers of American cigarettes, allegedly brought into this country in great quantities in an effort to evade the new Canadian tax.

Officers said the cigarettes purchased across the border for \$1.50 a carton were being sold in Canada for \$3.

### ADMIRALS OR ANIMALS

A young candidate for the navy was being put through a general knowledge test by a board of admirals.

"What kind of animals eat grass?" one of them asked.

The candidate flinched and stared out of the window, but said nothing. The question was repeated but he still remained dumb.

"Surely," said one of the examiners, kindly, "you can answer a simple question like that? I will repeat it. What kind of animals eat grass?"

"Animals!" gasped the boy, "I thought you said 'admirals.'"

## Firsts For the Flag

The flag was first carried in battle at the Brandywine, September 11, 1777. It first flew over foreign territory on January 23, 1778, at Nassau, Bahamas Islands, Ft. Nassau having been captured by the Americans in the course of the war for independence. The first foreign salute to the flag was rendered February 14, 1778, when John Paul Jones, in command of the USS Ranger entered Quiberon bay, near Brest, France, and received a salute of nine guns, ordered by the French admiral, La Motte Piquet. The United States frigate Essex was the first warship to fly the American flag in the Pacific, January 20, 1813. It was first displayed officially over Alaska at Sitka, October 18, 1867, and was first saluted by the British at the surrender of Burgoyne's army, October 17, 1777.

### Last Word in Deliciousness . . . Chicken Chowder!

(See Recipe Below)

#### Get Your Protein!

There's no reason why you should not be getting your necessary protein into your daily menus, or why using meat alternates, i.e.—foods you use alternately with meat—should become a dull or difficult problem.

Here's your opportunity to show your family what a really smart homemaker you are—for you can keep up their admiration for you by serving an endless variety of good egg and chicken dishes, and fish in all its variety. These foods are protein-rich and with a little ingenuity you can make a star performer out of many of them.

Chicken comes beautifully to the rescue for it's a good, complete protein and the supply is good, especially at the present time. Use chicken wisely, however, a little bit of it combined with other foods can make a meal or more out of one chicken. Here's an example:

#### \*Chicken Chowder.

(Serves 6)

- 1 cup cooked, diced chicken
- 2 ounces salt pork, finely diced, or
- 4 tablespoons chicken fat
- 2 to 4 tablespoons onion, finely chopped
- 2½ cups potatoes, diced
- 1 cup celery, diced
- 2 cups chicken stock
- 1 No. 2 can kernel corn
- 1 tall can evaporated milk
- ¼ teaspoon paprika
- ¼ teaspoon ginger
- 1 teaspoon salt
- ¼ teaspoon pepper
- 2 tablespoons chopped parsley

Cook salt pork in sauce pan over low heat until lightly browned. Add chicken and onion and cook until onion is soft, but not browned. Add potatoes, celery and chicken stock. Simmer until vegetables are tender. Add corn, milk, and seasonings. Heat thoroughly, stirring occasionally. Season to taste with additional salt and pepper, if desired. Serve very hot with crackers, hard rolls or toast.

Make good use of crisp, cool vegetables to go into a salad with the Chicken Chowder to round out the meal:

#### \*Chef's Salad.

(Serves 6)

- 1 head lettuce
- 2 tomatoes, cut in quarters
- 4 spring onions, cut fine

#### Lynn Says:

The Score Card: Consumers can do a lot in stamping out the illegal sale of meat by making sure that all meat they buy comes from a carcass which carries the necessary stamps—the permit number of the slaughterer and a grade stamp.

Ceiling prices are in effect in many areas for meat. They are posted by the butcher near meat counters and you can consult them when buying your meat. Changes have come about on the bread situation. No more double or triple wrapping is allowed for bread and rolls. No more leftover bread or rolls can be returned to the baker, nor can there be any fancy racks for displaying bread.

Retail bakers are limited to 15 varieties of bread and nine varieties of rolls in one week. Many of these measures are designed to keep bread prices down.

Although outwardly, bread trimmings have been stripped, the insides are better. All white bread must now be enriched. Each loaf of white bread must contain not less than three parts nor more than four parts of milk solids to 100 parts of flour.

#### Lynn Chambers' Point-Saving Menu

- \*Chicken Chowder
- \*Crisp Crackers
- \*Chef's Salad
- Stewed Rhubarb
- Beverage
- \*Recipes Given
- Cookies

2 hearts of celery, cut fine  
2 hard-cooked eggs, quartered  
Wash lettuce and dry in towel.  
Break lettuce apart, but do not cut.  
Place in chilled bowl and add remaining ingredients. Toss lightly together with french dressing.

Another good dish using chicken, a complete protein food, and spaghetti usually classified as a second class protein food, is combined in this way:

#### Spaghetti and Chicken Casserole.

(Serves 8)

- ¼ cup chicken fat or shortening
- ¼ cup chopped onion
- ¼ cup flour
- 2 cups chicken stock
- 1 cup grated cheese
- 1 cup cooked tomatoes
- 2 cups diced chicken
- 1 8-ounce package spaghetti, cooked
- ½ cup buttered bread crumbs

Melt fat and cook onions slowly for 10 minutes. Add flour, stir well, add stock, stirring constantly until thickened. Add cheese and stir until melted. Blend in tomatoes and chicken. Place chicken mixture and spaghetti alternately in greased casserole. Cover with buttered crumbs. Bake for 25 minutes in a 375-degree oven.

Ever think of creaming deviled eggs? They make a delicious main dish on warmer nights:

#### Creamed Deviled Eggs.

(Serves 4)

- 4 hard-cooked eggs
- 1½ teaspoons vinegar
- ½ teaspoon dry mustard
- ¼ teaspoon salt
- ½ teaspoon pepper
- ½ teaspoon sugar
- 1½ tablespoons melted butter
- ¼ teaspoon Worcestershire sauce
- 1 cup white sauce

Cut eggs lengthwise into halves. Combine egg yolks with next seven ingredients. Beat together until well blended and smooth. Fill whites with yolk mixture, place in baking dish and cover with white sauce. Bake in a moderate (350-degree) oven 15 minutes. Serve hot on biscuits or toasted English muffins.

If desired, use ¾ cup condensed mushroom soup thinned with ¼ cup milk instead of the white sauce. A dessert can take the place of a protein food for a meal and help you along in getting important body building and maintaining material, if it's a dessert like this:

#### Oatmeal Peach Fudding.

(Serves 6)

- 2 cups canned peaches, fresh rhubarb or apples
- 2 tablespoons lemon juice
- ¼ teaspoon cinnamon
- 1 tablespoon butter
- ¼ cup melted shortening
- ½ cup brown sugar
- ½ cup sifted flour
- ¼ teaspoon salt
- ¼ teaspoon soda
- ½ cup quick-cooking oatmeal
- ½ teaspoon vanilla

Arrange fruit in shallow, greased baking dish. Sprinkle with lemon juice and cinnamon and dot with butter. Combine melted shortening and brown sugar. Sift flour, salt and soda together and mix the oatmeal. Blend in sugar mixture, crumbling well, then add vanilla. Spread over fruit and bake for 45 minutes in a 350-degree oven. Serve warm with pudding sauce or top milk.

Miss Colleen Quinn is in Bad Axe where she has employment.

#### Lava Molds Figures

Violent explosions in volcanic craters threw fragments of lava, so hot that they were plastic like putty, high in the air. Their rapid whirling motion shaped the plastic masses into characteristic rounded and elongated forms which by the time they fell were stiffened enough by cooling to retain their shapes.

#### Plastic World

Plastics have at least 100,000 uses. One can be clothed from head to foot in plastics. One may live in a house and be transported in vehicles largely made from plastics. There is no end to the variety of plastics that are potentially available and in the making.

**Mummified Animals**  
The bodies of animals, as well as human beings, were mummified by the ancient Egyptians. Animals were mummified in some cases because of religious significance due to their association with various deities; sometimes as food offerings for dead humans in whose graves they were placed; and sometimes animals which had been pets were mummified for sentimental reasons.

#### Tax on Rent

Renters in Moncton, New Brunswick, pay the city a rental tax ranging up to 10 per cent of assessed valuation of property they occupy. The tax, amounting to \$9 a year on a rental of \$25 a month, yielded \$63,000 last year to the Canadian city. The tax was adopted in 1941 after the Dominion government took over the income levy, which was a source of revenue for Moncton and other Canadian cities.

## ARBITRATION

Two young Scotsmen were at loggerheads over the sharing out of the estate which had been left jointly to them in their father's will. As a last resort they agreed to accept the decision of an old friend of the family.

"Boys," said this wise man, "Don't divide up the estate exactly as he thinks fit."

At this Donald's face beamed, but that of Hamish grew visibly longer.

"And then," continued the arbitrator, "Hamish will take whichever half he prefers."

## Come Again Please

Teacher—This is one of the most dangerous experiments. If I am in the slightest degree wrong in preparing this explosive we are all likely to be blown through the roof. Kindly come a little closer so you can follow me better.

Voice from the back—Follow you where, teacher?

## Read Less No More

Prof—When was Rome built? Stude—I know. At night.

Prof—Where did you find that information?

Stude—I read in a big book somewhere that Rome wasn't built in a day.

## Special Privilege

Fireman—Come on with you, all of you. Keep moving. No loitering on the street near this fire.

Bill—Why should I move? You're letting that guy over there stay.

Fireman—Well, he's entitled to. It's his fire.

## Fashionable Slip

Grace—George, does my dress look as if it were falling off my shoulder?

George—No, it looks fine to me.

Grace—I'll have to fix it then. This evening dress is supposed to look that way.

## SAME DIFFERENCE

Host—Will you have another piece of duck?

Guest—And how. Duck is my favorite chicken, except for turkey.

## Probably Bald

Slow—Ouch! I bumped my funny bone!

Fast—Just comb your hair and the bump won't show!

## Mental Millinery

She—Ah! My new hat is a dream!

He—Did you buy a new hat today?

She—No. I just said it was a dream!

## The Woman of It

Mrs. Brown—Shopping?

Mrs. Blue—No, I haven't time today. I'm just buying a few things I need.

## Successful Battle

Mabel—Why do you call that ring a war souvenir?

Betty—I won it in my first engagement.

## Buggy Talk

Mr. Smith—Waiter, what's this bug doing on my pretzel?

Waiter—I guess it's on a bender, sir.

## Out at Home!

Jones—What's the best time for a man to get home at night?

Smith—When his wife is asleep.

## Amateur Buying

Butcher—Roundsteak, Miss?

Nancy—Well, the shape doesn't matter, so long as it's tender.

## ASK ME NO QUESTIONS

Boy—What time is it getting to be?

Girl—I don't know but it was Saturday night when you came.

## Murder for Music

Tommy—The neighbors think the twins are going to be musicians.

Mother—How do you know that, Tommy?

Tommy—I overheard Mrs. Jones say "those Smith Twins will swing some day!"

## The Army Game

Louie—You saluted that girl we just passed. Do you know her?

Second Louie—No, but I'm wearing Lieutenant Smith's hat and he knows her.

## Only 7 in 4,000 Die Of Battle Injuries

### Sulfa Drugs Credited With Main Role in Recovery.

WASHINGTON. — Of 4,000 land, sea and air casualties treated in the south Pacific and Australia by the navy, only seven died, establishing a record-low mortality of 0.18 per cent, the navy's bureau of medicine and surgery revealed.

Lieutenant Charles Crile Jr., who is the son of the famed Cleveland surgeon who died early this year, and who is attached to the mobile hospital at Auckland, New Zealand, submitted the report to the navy in conjunction with a group of medical officers aboard a hospital ship in the Solomon Islands war zone.

Speedy removal of the wounded from battle areas and excellent medical care, including the use of the sulfa drugs, were credited by these authorities with assuring the recovery of the men, many of whom were badly wounded.

The casualties represented almost every type of injury, including those resulting from machine-gun and rifle bullets, shell fragments, severe burns, skull fractures, penetrations of the chest and abdomen and a great variety of infections.

In most cases the danger of the injuries was minimized speedily by almost immediate transfer from the battle line to the hospital ship. About two-thirds of the wounded received initial treatment at base and field hospitals ashore before reaching the ship.

Of the first 368 cases received on shipboard, only one died. He had suffered severe burns over most of his body.

"Bullets often caused no more trauma (injury) than might be expected if an icicle were suddenly thrust through a part and pulled out," the report stated.

### Purifier of Sea Water Invented for Men Adrift

PASADENA, CALIF.—Sailors or airmen adrift on the ocean can now survive as long as 25 days on sea water purified through a simple chemical formula, Dr. Alex Goetz, of the California Institute of Technology, said recently.

Dr. Goetz said that he had perfected the chemical after a year of intensive research. Although the process is a military secret, he described the chemical as a combination of colloidal materials.

"It's as simple as pouring water from one sea boot to another," he said.

Two containers are necessary. One is used for precipitating poisonous materials from the salt water. About two hours later the sea water, except that containing the precipitate, is poured into the other container, where it is further clarified and ready to drink.

A waterproof container about the size of a package of cigarettes would hold enough to purify approximately two quarts of water, he said.

### Small Farmers Seeking Record 1943 Food Goal

PHILADELPHIA.—Regardless of what others may think, America's "small farmers" feel confident they can once again increase their production to meet the needs of 1943, it was reported by regional Farm Security Administration Director J. H. Wood.

Wood said the FSA had gone directly to 22,000 small farmers for answers to the 1943 food production problems.

"These farmers do not share the production pessimism of profiteers, defeatists and pressure groups," he declared. "Small farmers, who contributed a lion's share of the record 1942 food production increases, tell us that they will do it again this year—only in much greater volume."

"The small farmers are determined to give their country plenty of food for our national needs and all the soldiers we can send overseas—and enough more to feed all freed peoples."

### Philadelphia Lawyer Is Quick-Change Artist

PHILADELPHIA.—Maj. J. Harry La Brum, Philadelphia lawyer, did a quick-change act in U. S. district court.

The army ruled he could reargue a case he handled in private life, but he had to appear in civilian clothes after wearing his uniform until opening of court.

So he brought the civvies in a traveling bag, changed in the office of the federal court clerk, appeared in court, changed back to uniform for lunch, back to civvies to continue the argument and back to uniform as court adjourned.

### Lifeboats Dropped With Parachutes

LONDON.—Lifeboats dropped by parachute from planes are used now to save Allied airmen forced into the sea.

Each lifeboat can hold 11 men and is self-contained. It has twin screws, fuel for at least 100 miles travel at five to six knots and carries a sail to augment the motors. Supplies of food are stowed in lockers.

Friday to Sunday she and Mrs. Retherford were visiting in Detroit. Guests on Monday at the Retherford home were Mrs. John Prining of Columbiaville and Mrs. Lida Ives.

### The Earlier, the Better

Because of the shortage of help, the Chronicle requests that all copy intended for publication be sent to the newspaper office as early as possible. Contrary to the opinion of some, the work on a weekly newspaper is not a one or two-day job. Quite often, typesetting is started on Saturday for the next Friday's publication and the earlier the copy is received the better attention can be given to it. We ask that items which you desire published be sent to the office immediately and that display and want ad copy and advertising mats be sent in early also.

Mail buses running on "fast" time make it necessary to go to press earlier. Late copy may have to be omitted.

Your cooperation in sending in copy at the earliest time possible will be greatly appreciated.

Mr. and Mrs. Arthur Bunker and daughter, Mrs. Ernest Seeley, and Mr. and Mrs. William Patch attended the funeral of Mrs. Richard Caughill at Port Huron. The deceased was formerly Addis Bunker.

Guests on Monday of Mr. and Mrs. George Roblin were Mr. and Mrs. Archie Gillies and Mrs. Archie McEachern, all of Greenleaf.

Alfred Slingland is at Merrill this week at the home of his son, Ray Slingland.

Mr. and Mrs. Charles Tedford and family and Mr. and Mrs. William Gage attended a shower at the home of Mr. and Mrs. Harold Brock at Wahjamega on Sunday in honor of the marriage of Dorothy daughter of Mr. and Mrs. Ernest Barrons.

Mr. and Mrs. Joseph Polheber and family are entertaining Mrs. Edward Murawski and Miss Marjorie Polheber, both of Chicago.

Miss Charlotte Reed of Cass City is the guest for a week of Miss Bettie Jean Bruce.

Mr. and Mrs. Lloyd Osburn were Sunday visitors at the James Osburn home and Mr. Osburn's mother, Mrs. Martha Osburn, of Perry is spending this week at their home.

Carl and Marian Palmateer are visiting in Pontiac and Keego Harbor this week.

Mr. and Mrs. Chauncey Tallman of near Cass City were Sunday visitors at the home of Ben Wentworth.

Wm. Zemke effected the sale of the J. Gleason property of Novesta Corners to Franklin Elliott, of Vermontville and the Fannie Rogers farm in Kingston Township to Herb Powell.

The McArthur family had a very pleasant surprise on Sunday when Robert McArthur, enlisted with the Navy and stationed at Farragut, Idaho, arrived home unannounced on 10 days' leave. He remained until Wednesday. He has been promoted to 2nd class seaman and says that he enjoys the service quite well.

Mrs. Guy Woolman of Royal Oak and daughter-in-law, Mrs. Robert Woolman, of Port Huron were guests Tuesday to Friday at the John McArthur home.

## Paragraphs About Folks in the Service

Concluded from page 1.

for the Navy Air Corps. Clare Rawson also entered the Naval Air Force and left for Ann Arbor on Thursday. Lewis Profit, who joined the Marines, left the same day for Kalamazoo.

Carl Reagh, seaman first class, has finished a four weeks' course at the Edgewood Arsenal for Chemical Warfare in Maryland. Mr. Reagh was one of five chosen from the fifth naval district because of high tests to attend the school. He is now at Ft. McKenley, Maryland, where he is enrolled in a two-week advanced course.

Aviation Student Bernard O'Dell, 21, son of Mr. and Mrs. Warren O'Dell, R. 2, Cass City, has arrived at Washington University, St. Louis, Missouri, for a course of Army Air Force instruction lasting approximately five months, prior to his appointment as an aviation cadet in the Army Air Forces. During this period he will take numerous academic courses, as well as elementary flying training. Upon completion of the course, he will be classified as a pilot, navigator or bombardier, and go on to schools of the flying training command for training in these specialties.

Carmon Root, who recently celebrated his 18th birthday writes his father, Clare Root, of Deford, from the Army Air Base at Lincoln, Nebraska: "I finally arrived at my basic training base and now I quit playing and get down to work. There were only 77 of us out of 700 who got to come here. We had high scores on our mechanical aptitude tests. I have a chance for officers' candidate school after I get in 56 days here. I received a high score on my I. Q. test also. If I don't make it, I will be in some branch of the Air Corps. The one I will be in depends on tests I take in the future. So far I like it fine with the Army."

Word was received that Andrew S. Woidan has received the rating of corporal. Cpl. Woidan is stationed at Drew Field, Tampa, Florida.
