## Farmers Urged to Look for Help in Own Communities

Local Farm Labor Placement Centers Responsible for Recruitment.

Tuscola County farmers have their toughest 1943 task ahead of them. Harvesting \$4,000,000 worth of beans, \$1,600,000 worth of corn, \$700,000 worth of sugar beets and \$600,000 worth of potatoes calls for a lot of manpower.

Farm work in Tuscola County will be done and these crops harvested if the best use is made of all of the following types of available farm labor and all used efficiently, says County Agricultural Agent Norris Wilber:

1. Exchange of labor on farms within each farm community. (Neighboring farmers often have slack periods in work on their own farms due to differences in crops and types of farming). Hire your

## Severance Family in 10th Reunion on Labor Day

The tenth annual reunion of the Charles Severance II family was held on Sept. 6 at the residence of Charles Severance III, supervisor of Evergreen Township. There were 61 in attendance coming from Flint, Saginaw, Akron, Otisville, Caro, Marlette and Shabbona.

The following officers were chosen for the coming year: President, Louis Severance; vice president, Pearl Weatherhead; secretary-treasurer, Harry Severance; program chairman, Lloyd Severance.

There were seven horses available for the youngsters to enjoy horseback riding. One young enthusiast excitedly broke the good news to a carload that had just arrived: "We've got horses to ride, and they're free, and you can ride them as long as you want to and you don't have to hurry back." Then there was amateur horseshoe pitching where it was a thrill for a ringer to be made (accidentally). A couple of ball games were played during the course of the day. A few enjoyed a quiet game of ruck. Some few brought back reports of how they were actually able to purchase candy bars and see a large quantity of butter on display after making a trip to Jim Colbert's store at Shabbona.

There was a fine dinner and program and a mid-afternoon serving of ice cream to round out a pleasant day.

The next reunion will be held in Flint.

The sum of \$36.00 was raised during the year from all sources, the greater part of which was dues of 25 cents per member. Most of the money collected was forwarded to the national headquarters to be used in the Townsend effort.

A large number were present at Monday's gathering, including visitors from Brown City. Rev. Mr. Heise of Sebawaing spoke on the subject, "The War, Its Cause and Effect, and a Post War World." The regular meeting next week will be at the home of Mrs. Leo Hall in Evergreen Township, on M-53.

## S-B Families Divide Longevity and Long Resident Honors

The Strifflers and Benkelmans, who have held amiable joint family reunions on Labor Day for seven years, were threatened with disagreement on the eighth annual get-together Monday. It came about when a Benkelman and a Striffler both entered long resident claims. Glenn Benkelman of Lakewood, Ohio, reading an account of the advent of the Benkelman family into Elkhart Township in 1865, said his father, John A. Benkelman, was for the longest period a continuous resident of the two clans in the township. G. A. Striffler challenged the claim, stating that he (G. A.) was in the township when his cousins, the Benkelmans, arrived here from New York State. John A. Benkelman was consulted and admitted that Mr. Striffler was on the welcoming committee in 1865 even though he was still in rompers.

The discussion which was altogether friendly, resulted in a division of honors. Mr. Striffler, it was decided, had lived in Elkhart Township the longest continuous number of years, and Mr. Benkelman was the eldest of the two families in the township.

The reunion, usually held in the John Striffler grove two miles northeast of Cass City, was in the Evangelical Church dining room because of wet grounds in the woods on Monday. A potluck dinner was served at noon. One hundred.

At the next meeting each member will relate his "Most Embarrassing Moment."

## Third War Loan Campaign Is Now Under Way

County Chairman C. L. Bougher Tells Citizens Reasons for Investment.

By C. L. Bougher, County Chairman of U. S. Treasury War Finance Committee.

The Third War Loan campaign was under way September 9. If we all do our part, September 9 will become a memorable date in our timetable for victory. What does our part mean? Give this question a thought. Is there anyone missing? Give this question a thought while at work or at your dinner table at home. Is there anyone missing in your office or workshop? Of course there is. From your home, your neighbor's home and from your place of work there are many faces and voices missing. They have taken their places on the fighting fronts or in training camps. They are giving life and limb. They are undergoing ordeal after ordeal to protect all that you are or hope to be.

If you want a simple, direct answer to the question of "What is my part in the Third War Loan," here it is: Do everything in your power to back the attack with war bonds. Take every penny you do not need for necessities such as rent, food and health and put it into war bonds.

The Treasury Department has set a personal goal for every working American. Buy at least an extra \$100 war bond above your regular war bond buying during the Third War Loan. That \$100 war bond is the extra something you will be putting back of the invasion of Hitler's Europe and the Japanese-occupied Pacific Islands. While Europe and the South Pacific may seem far away places to you, always keep in mind that boys from Cass City are there. Think of invasion in terms of the

## Betty Wager Will Teach in School in Venezuela

After years of wishing and hoping that she might teach in South America, Miss Betty Wager, who was graduated from Cass City High School in 1923, left Aug. 23 for Maracaibo, Venezuela, to become an instructor in an American school there. After one of her sisters overheard a conversation in a teachers' agency about Maracaibo and its schools, Miss Wager responded with the agent. This spring a wire came to the school where she taught in Marshall, Michigan. The agent gave her only six hours to decide and it didn't take that long!

Twelve young women went to Maracaibo, an oil boom town of 90,000, to teach in the four or five grade schools which are operated through the cooperation of the Caribbean Oil Co. for the children of English-speaking employees. Miss Wager will teach sixth, seventh and eighth grade students. The trip from Miami, Fla., to Maracaibo was made by clipper by the group of teachers.

Two of Miss Wager's sisters are also in the teaching profession. Miss Fern Wager is an instructor at Level Park, and Miss Ethel Wager is at Hillcrest School in Wilmette, Ill.

## Italy Surrendered Unconditionally on Wednesday

Military Armistice Is Granted to the Italians by the Allies.

General Dwight D. Eisenhower announced Wednesday the unconditional surrender of the Italian armed forces. The commander of the Allied forces said he had granted Italy a military armistice.

The announcement came as dispirited Italian troops by the hundreds surrendered to British and Canadian troops advancing up the Calabrian peninsula, where the Allies landed last Friday on the heels of a 38-day Sicilian victory which sent the Germans fleeing to the mainland.

The capitulation came from the government of Marshal Pietro Badoglio, who succeeded Benito Mussolini when the junior partner of Adolf Hitler was ousted July 25.

American armies which took part in the Tunisian and Sicilian victories have not participated in the Calabrian invasion, and the Italian surrender leaves them free to strike elsewhere in Europe.

Wartime hints worth knowing:

## How to save ELECTRICITY

## without sacrificing needed LIGHT

With fall evenings just around the corner, the matter of home lighting becomes doubly important. In many homes there will be increased demands for longer hours of eyework—extra studying, sewing and other seeing tasks. Fortunately, it is possible to make your present lamps and fixtures do double duty . . . and to save electricity without sacrificing needed light.

Here are a few practical suggestions: (1) Fitting dark-colored lamp shades with white linings can increase the amount of light from the lamp by as much as 50%. Use good white paper and fasten seam with Scotch tape. (2) Clean lamp bulbs and reflectors frequently. Dust and dirt may rob you of half the light you pay for. (3) Flaring lamp shades do a better job of spreading light than straight-sided shades. The wider the opening at top and bottom, the more useful light is directed into the room. (4) Whenever possible, make floor and table lamps serve more than one person for reading or sewing. A single lamp on a table, for example, can provide light for chairs on both sides of it. The Detroit Edison Company.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!

**Growing in My PROOVING GROUND**

**SEE THEM FOR YOURSELF**

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which ones suit you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, throughout the corn-growing areas.

## Down Memory Lane

Thirty-five Years Ago.  
September 11, 1908.

President Koepfgen and Secretary Reid have been on the war-path for a splendid line of special attractions for the Cass City Fair which starts Sept. 29, and believe they have landed the right aggregation for open air entertainments.

The married men won a game from the single men's baseball group by a 9-8 score Friday.

Miss Clara V. Lenzner and H. Lee Pocklington of Ann Arbor were married at the home of the bride's parents here Sept. 5.

Tuscola County Republicans in convention Tuesday elected the following delegates to attend the state convention: T. W. Atwood, Peter Pardee, Frank Fales, H. S. Myers, J. D. Brooker, M. H. Quick, Knox Hanna, C. J. Becker, C. W. Stacey, Orville Harris, Robt. McCreech and Wm. Atkins.

Mt. Pleasant, Alma, Ann Arbor, Kalamazoo, and Ypsilanti are drawing students from the alumni

of Cass City High School, while several others have left to enter the business courses offered by various schools in the southern part of the state.

Twenty-five Years Ago.  
September 13, 1918.

Wm. R. Jondro of the Cootes' Hardware has been wearing a smile the last few days that won't come off. He has been notified that his little son, Robert Benjamin, captured first prize as the "most perfect baby" in the 24 months old class at the state fair in Detroit.

Glen, 12-year-old son of Mr. and Mrs. Dan McClorey, had a narrow escape from death by suffocation Monday evening. In running across a partially unloaded drop bottom railroad car containing coal, he was carried swiftly to the bottom. The coal, lying in a funnel shape, followed him, burying him to the waist. Every time the boy sought to free himself, the movement of his body brought down more coal. His playmates brought the lad's predicament to the attention of Station Agent Donaldson and his assistants. The boy was extricated with considerable difficulty from his perilous position.

Roy Colwell returned Monday to Camp Custer after spending a four-week harvest furlough here.

Miss Beatrice Koepfgen returned home Friday from Lake Geneva, Wis., where she attended a 10-day Y. W. C. A. conference as a delegate from Alma College.

The names of drivers and the license numbers on pleasure cars which appeared on Cass City streets Sunday were tabulated by village authorities and turned over to Justice Cragg. This official is issuing invitations to violators of the government's Sunday gasless request, to come across with donations which are being turned into the Red Cross treasury.

### Die From Monoxide

More than a thousand people a year die accidentally from carbon monoxide gas. The driver of the car should open his garage doors wide before starting the engine. That simple act will keep him safe from the carbon monoxide hazard.

Various surveys show that combustion efficiency in the use of much coal is too low, and that effective effort would reduce the use of 300 million tons of coal per year 10 to 15 per cent. Drafts should be adjusted properly for efficient combustion, and the piping should be free from any leaks.

### Protect Bread From Mold

Three billion loaves of bread will be protected against losses resulting from mold this year, by adding a special mold inhibitor to the dough before baking. It lengthens the mold-free life of bread without changing its flavor, texture, nutritional value or appearance.

### Fall in Homes

Last year 15,000 people fell in their own homes—and died as a result of it. Littered floors, makeshift ladders, small unanchored rugs, garden tools in the yard, stairs with torn carpeting and "stored" objects caused most of these fatal accidents.

### Don't Jump Lights

When you are waiting for a traffic light to change, don't start until the pedestrian has reached the curb even if the green comes on. Drivers who "jump" the lights take needless chances with others' lives as well as with their own.

**Aluminum Uses**

### Raise Old Age Pay

The action by the state legislatures raised from 27 to 31 the number of states which have maximums of \$40 a month or more on old age assistance grants or have no ceiling at all. As it now stands, 16 states have maximums of \$40 a month, one has a ceiling of \$45 and two of \$50 a month.

### Architectural Traces

Each era of Palermo's turbulent history left traces of its architecture. Roman relics are still visible. Many of the city's handsomest buildings date from the 16th, 17th and 18th centuries, when the splendor of Palermo under the Spanish and Bourbon regimes became a standard of comparison. Life was so gay that Palermo was nicknamed "the Happy City."

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

It takes so little CALF-MANNA to make a calf put on that extra bloom, depth and weight! You never have to feed more than a pound a day per calf.

CALF-MANNA does three things: supplies fat soluble vitamins, provides minerals in a form the calf can use, and makes other feeds used with it more digestible.

### THIRD WAR LOAN CAMPAIGN IS NOW UNDER WAY

Concluded from page 1.

sons or brothers, father, uncle or dear friend who is actually facing the Nazis, Fascists and the Japs. The Third War Loan is a campaign primarily for us as individuals. Each one of us must decide the matter of how far we are willing to go to back up Americans in uniform.

Let us look back for a moment at the Second War Loan. We did pretty well. In the nation there were 33,000,000 Series E war bonds bought. More than \$3,000,000,000 was loaned to the government by individual investors. However, eighteen and one-half billion dollars was raised in this drive. Thus, participation by individuals, while great, was only a small part of the total raised.

In the Third War Loan we must do better. We could not feel happy or proud over the results. If the Third War Loan national goal of \$15,000,000,000 were not over-subscribed many fold and yet an analysis revealed that individual Americans did not respond far above the Second War Loan mark.

I could quote you lots of statistics about our national or state war bond record; I could tell you how many of the 27,000,000 workers on payroll savings there are in this country; I could recite the record of billions of dollars of war bond purchases by Americans since the war began. However, the Third War Loan is something for you to settle in the light of your resources and your ability to absorb sacrifice, the kind of sacrifice you expect from fighting Americans on the fighting fronts.

It is thrilling to go to the movies and see the storming of a beach under protection of a fleet of shore and umbrellas of planes overhead. It makes you feel good to know that at last we are doing the invading, not the Germans and Japs.

The bonds you purchase and own help to give our side the power to invade and equally important is the fact that your money in war bonds is borrowed by your government who has never defaulted on a bond.

Conscientiously consider these facts. Be sure to purchase one extra \$100 war bond during September. Write to your son, friend, father and tell them that you are backing the attack with war bonds. The fighting front will soon disappear. The home front is permanent and one we can help hold by investing every available dollar in war bonds.

Dallas Nichols, son of Rexford Nichols of Decker, and Miss Vera Henderson, daughter of Mr. and Mrs. Charles Henderson of Novesta, were married April 14 in New York City. They are visiting among friends and relatives here during the fifteen-day leave of the bridegroom.

Sgt. Stuart Atwell, who has been stationed in Camp Eustis, Va., came Sept. 1 to spend two weeks with his parents, Mr. and Mrs. A. C. Atwell. He is being transferred to East Lansing where he will attend school, preparatory to attending officers' training school. Mrs. Stuart Atwell of Des Plaines, Ill., will arrive the last of the week to join her husband here. Sgt. Atwell was a guest at the Rotary Club luncheon here Tuesday and spoke briefly on Army weapons.

Engaged in the last phase of their training before they actually get behind the controls of an Army plane, 207 young men from the state of Michigan, including Harmon E. Smith from Cass City, are now stationed at the Army Air Forces Preflight School for pilots at the San Antonio Aviation Cadet Center, the nation's largest pool for air crew trainees. Upon completion of their pursuits at the preflight school, the cadets will be sent to a primary flying field, there to take up a new phase in their training as potential combat pilots. Basic and advanced courses will follow.

From the public relations office of the Ninth Naval District comes the information that Clarence Henry Cox, 34, husband of Beulah Mae Cox, Route 2, Cass City, has begun his basic training as a Blue-jacket in Uncle Sam's Navy at the U. S. Naval Training Station, Great Lakes, Ill. He will remain there for several weeks during which he will participate in daily physical drills and physical hardening exercises, receive instruction in the fundamentals of seamanship, and be schooled in naval customs and procedures. During this period he will also be given a series of aptitude tests to determine the type of work for which he is best qualified in the Navy. Upon graduation he will be granted a nine-day leave.

A/S Maurice E. Fordyce, who was transferred recently from Sheppard Field, Texas, to Kansas State College at Manhattan, Kansas, describes his new location in the following letter to his mother, Mrs. Sadie Fordyce:

"I arrived in Kansas yesterday and it surely is a swell place. Manhattan is a small college town of about 20,000. Most of the houses are nice modern houses and the places we stay in are large fraternity houses in different parts of town.

"Ours is a large 3-story frame house with showers and bath on each floor. We sleep in double-deck bunks. Our room is a

screened-in sun room on the second floor.

"The college campus is surely beautiful. All the buildings are built of white cut stone. Some of the buildings are covered with ivy vines. The grounds are just covered with large old shade trees and a nice lawn. These are the first good trees I have seen since I left home.

"There are 600 cadets here and also a large class of Army engineers and veterinarians. "We are allowed to take as many pictures as we want here so I'll take some and let you see how nice it is.

"We haven't started classes yet but the classes start Monday. Our day starts at 5:30 in the morning and ends at 6:00 at night.

"We leave our quarters at 6:30 in the morning and go to the mess hall on the college grounds. They feed us just like kings here. You couldn't get better food at home. Then we go to our classes till 12:00. Then we go back to class at 1:30 and are through at 6:00. Our free time on Monday, Tuesday, Thursday and Friday is from 6:00 to 7:30 p. m. We have to be in our quarters at 7:30 for roll call and can't leave after that. Lights are out at 10:00 p. m. On Wednesdays we have until 10:00 and Saturday till 2:30 at night and Sunday until 10:00.

"The next time you send anything, send me my best pair of tennis shoes and my basketball suit; also two or three pair of wool socks.

"It's nearly time for lights out so I must stop and shine my shoes and belt buckle for tomorrow."

Concluded from page 1.

William Bliss, brother of the bride, was the best man, and the ushers were William Denton of Detroit and Douglas Comment of Gagetown. The wedding march was played by Mrs. Ray Toohy.

Mrs. Bliss chose for her daughter's wedding a gown of blue crepe. Her flowers were a shoulder corsage of white roses. Mrs. Comment, the bridegroom's mother, wore a two-piece navy crepe dress. She wore a shoulder corsage of pink roses.

Following the ceremony, a breakfast was served at the Hotel Hannah, Sebewaing, for the wedding party and immediate families. In the evening, a reception was held in the school auditorium in Gagetown for about 150 guests, at which the couple received many beautiful gifts.

Mr. and Mrs. Comment left later for a northern motor trip and upon their return will leave shortly for Phoenix City, Alabama, where they will reside for the present. The groom is stationed at Fort Benning, Georgia.

Both the bride and groom are graduates of Gagetown High School and are popular in the community, having resided there since childhood. Since graduation, the bride has been in the employ of the Detroit Edison Co. in Detroit, and the groom has been in the U. S. Army.

3. Business men in the county's 12 villages.

4. Farm and village women anxious to help with light work on farms.

5. School boys and girls.

Carl VanTine, emergency farm labor supervisor, has set up a local farm labor placement center in each village in the county. Local elevators, school superintendents, vocational agriculture teachers, war club leaders, farmers and school students are each represented on a local labor control committee which is directing the activity of these placement centers.

Meetings are being held with each of these committees this week in order to lay out a plan for recruiting and placing labor on farms.

Farmers should place orders for farm help, in advance, at the local farm labor placement center nearest their farms. Centers are listed below:

Caro, Court House. Phone 509. Cass City, Frutchev Elevator, A. C. Atwell. Phone 61R2.

Vassar, Hart Bros. Elevator, Floyd Waterman. Phone 4821.

School men of the county have generally agreed that use of school students will again be necessary to harvest these crops. They hope to meet this situation in cooperation with the local farm labor placement centers in the following manner:

1. Work vacations in some schools.

2. Supervised use of squads and groups of school students in some communities.

3. Farm boys and girls needed on their own farms will not be asked to work on other farms.

4. Suitable transportation and sanitary conditions to be provided.

5. Use of volunteer adults for supervising youth labor.

6. Satisfactory wage agreements between farmers and youth workers.

"This is an important job," says Mr. Wilber. "War food is ready to be harvested from our Tuscola County fields. It must be saved. Farmers and every available farm laborer should do their utmost to cooperate and help each other on this vital war job. You can help win this war."

Draft Clerks to Make Inventory of Classifications

Clerks in the county draft office are preparing to make an inventory of the classifications of all registered men in Tuscola County. Over 7,000 reports will be made between Sept. 15 and 30.

Another group of men will be sent from Tuscola County to take induction examinations on Sept. 15.

Francis Darling of Fairgrove, on the 21-day furlough after passing the induction test at Detroit, was drowned while fishing at Hillman. He was scheduled to leave with a group of Tuscola County men for Fort Custer today.
