## LADIES' AID SOCIETIES **Council Votes to** HAVE ANNUAL ELECTIONS **Create Hospital**

Investigation Committee Named in July Reported to Village Trustees.

A committee appointed by Vil-lage President W. L. Mann in July

mittee who are authorized to so-licit funds for the project and care for them until such time as they may be needed for a community hospital. Members of this finance committee are M. B. Auten, Fred-erick Pinney and Mrs. E. B. If Trooptod in Ito

Schwaderer. The following is the report of the investigation committee as pre-sented by Mr. Pinney to the coun-Early Stages cil Tuesday night: "The committee for study of a

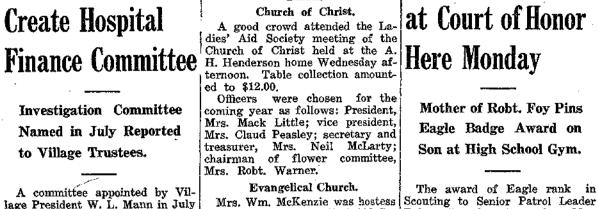

proposed hospital project has completed preliminary investigation of the possibilities and submits this report of its conclusions and recommendations.

#### We Believe

"1. That there is a definite need for better and larger hospital facilities in our community. Progress along this line throughout the whole Thumb of Michigan has seriously fallen behind the general national average. An example may be furnished from statistics given by the Kellogg Foundation, that whereas nationally 70% of all maternity cases are hospitalized, in our Thumb counties the average is only 30%. Lack of proper facilities is at least part of the answer to that.

"2. That construction of an ade quate, modern hospital is a feasible project for this community as soon as post-war conditions will permit.

"3. That steps to initiate the project should be taken immediately, so that a permanent organization might be established, with authority to raise funds, make definite plans, and handle other phases of the matter which need not await the end of the war.

low time.

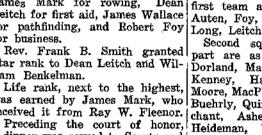

Townspeople were shocked to A hearty invitation is extended earn of the sudden death of John McLarty, 91, one of Elkland Township's oldest citizens, shortly before noon on Tuesday. Mr. McLarty was found by passersby a little after 10:00 a. m. lying at the side of the road in front of the home of Mrs. Zora Day, with whom he and Mrs. McLarty lived. What actually happened is not known but at a post mortem conducted by Drs. H. T. Donahue and Willard Dickerson, the latter of Wahjamega, Tuesday night, it was found that extensive skull fractures existed and it was evident that he had been struck about the head. Perhaps turning around after tak-ing his mail from the box, he walked into the end of a passing truck or trailer; in such a case, the driver of the vehicle was probably unaware of the accident.

Mr. McLarty was born March 14, 1852, near Rodney, Ontario, in Alborough Township. He was the son of the late Angus and Margar-et Campbell McLarty, the fourth dealers met in Caro Nov. 24 to first married to Miss Anna Munro in Canada. To this union were born two children, Margaret, who preceded the mother in death, and a son, Grant. They came to Michigan in 1877 and settled on a farm in Novesta and in 1881 Mrs. Ma-Larty passed away.

On October 23, 1883, he married Miss Sarah Jane Dickson of Novesta. To them were born two daughters, Mrs. Zora Day of Cass City and Mrs. Herl Wood of Flint, who with Mrs. McLarty survive. Also surviving are four grandchildren, two of whom are in the armed forces, Lt. John A. Day of Monterey, California, and S|Sgt. Kenneth McLarty of the air corps in England, Lawrence McLarty of Los Angeles, California, and Mrs. Frederick Bufe of Wyandotte. He

also leaves a sister, Mrs. Wm. J. Little, and a brother, Neil McLarty, of Cass City. The son, Grant, assed away 16 years ago.

Mr. McLarty was in state hospial work for 24 years, 18 of which were spent at Kalamazoo, where for a number of years he was su-perintendent of the state hospital farms. He was a member of the local school board for 12 years, when plans were instituted for the Concluded on page 5.

**Higher Buying** Seen After War

#### U.S. Chamber of Commerce Finds Spending Will Be on Big Scale.

WASHINGTON .--- Purchases by the American public, after the war, will be far in excess of those estimated last December by the United States Chamber of Commerce, the chamber reports on the basis of a new survey of this prospect.

At the same time, the department of commerce released a report by one of its specialists which seemed to support this view.

The chamber of commerce based its conclusion on polls which it made in December and within the last few weeks. These, it said, showed that the number of families now planning to buy one or more major articles within six months after the return of peace had increased from 53 per cent to 64 per cent of the nation's total.

#### Higher Estimate Detailed.

The chamber summarized the results of its current survey as follows:

"3,675,000 families, compared with 2,590,000 in December, now intend to buy automobiles to cost \$3.307 .-500,000, compared with \$2,331,000,-000.

"The household - appliance field shows an increase in buying intentions from \$860,185,000 to \$1,215,910,-000, with the greatest jump occurring in radios and electric kitchen mixers.

"Overall home - furnishings purchase intentions show only a nominal increase from \$709,905,000 to \$711,410,000.

"One million five hundred and forty thousand families-an increase of 50 per cent-intend to build or buy a new home within six months after the war is over. The prospective investment has risen from an estimated \$5,000,000,000 to \$7,184,800,000.

"Seventy-two per cent of the people say they feel they are at least as well off financially as a year ago, a drop of 1 per cent. The figures, broken down, show the following percentages for the two surveys: East, 65 per cent now, and 69 per cent a year ago; Middle West, 74 per cent and 72 per cent; South, 79 per cent and 78 per cent; Far West, 70 per cent and 78 per cent."

More Buy War Bonds.

Its second survey, the chamber said, showed that the percentage of persons buying war bonds and stamps had risen from 69 to 76. It revealed also that while the percentage of those putting money into life insurance had declined from 58 to 56 per cent, "the percentage going to savings account windows has risen from 21 per cent to 26 per cent."

"But only 25 per cent of the nation's families are saving for a specific purpose," the chamber's re-port continued. "Even so, that figure is six points higher than a year ago. Despite the evidences that many people intend to make immediate major post-war purchases, most of them are not, on the basis

Poinsettia, Christmas Flower That Thrives in Warm Clime

The poinsettia is a native of Mexico and South America and thrives in the southern United States. The true flower of the poinsettia is not the brilliant red. The flower is the small and inconspicuous center of delicate green buds. Examination will show that the colorful "flower" consists of a few topmost

bracts that have turned from green to red. like autumn leaves. Poinsettia is a four-syllable word. The correct pronunciation being

#### Set Date for Christ's

poin-SET-i-uh.

Birth in Fourth Century Strangely, no one knows the exact date of the birth of Christ. Until some time in the Fourth century. Christmas (Christ's Mass) was vari ously celebrated on January 6, February 2, March 25, April 19, May 20 and November 17. In 1644, the English parliament passed an act for bidding the observance of Christmas. Later Charles II revived the Feast, as Christmas then was called.

'Silent Night' "Silent Night, Holy Night! All is calm, all is bright: Round yon Virgin, Mother and Child..."

The Christmas carol which has stirred the world by the depth of its understanding, the strength of its emotional appeal and its simplicity of diction, was given to the world by a priest and the teacher in his parish. Written for a Christmas festival in 1818 by Joseph Mohr and put to music by Franz Gruber, "Stille Nacht" was finished in a little village

which he possesseth" (v. 15). in Austria. Received with delight by enthusi-The one who was known to his astic parishioners, this carol found its way around a world that seemed friends (and to himself) as "a rich man" (v. 16), but whom God knew as a "fool" (v. 20), had more than the angel song. Christmas Gifts Unknown In Most European Nations Outside of England and the Teutonic countries, Christmas gifts are unknown in the Old World. In Latin countries, including France, gifts are exchanged on New Year's day. In England, usually on the first weekday after Christmas, "Boxing day" is observed. Packages, small gifts, and gratuities are given to postmen, errand boys, tradesmen, porters, charwomen, etc. Good Example

First Baptist Church-Frank B. Smith, pastor. Sunday. 10:00 a. m., Sunday Church School.

11:00 a. m., worship. sermon, "For Sinners Only." 8:00 p. m., Gospel hour. Wednesday-8:00 p. m., midweel service.

#### Vanadium From Soot

In Germany, the need for vana dium is so acute that slag from blast furnaces is being carefully "sifted" for the vanadium lost in steel making. Italy frugally wipes rehearsal following the worship out the smoke-stacks of ships and industrial plants for the naphtha soot and from it extracts part of its vanadium supply. Italy also gleans vanadium from caustic soda solution used in refining bauxite. An Ameriside Church with Rev. G. N. can firm has reported "rich" ac-Bridges of Marlette assisting the cumulations of vanadium in the flue pastor in nightly meetings. Sun- dust of ship boilers burning Venezuelan fuel oil.

#### **Outstanding Designer**

Duncan Phyfe was the first outstanding furniture designer in America. Born in Scotland, he came here with his parents at the age of 16, settled in Albany and eventually went into business for himself. He came to New York in the early 1790s, won the patronage of the John Jacob Astor family, and by 1800 was the foremost furniture designer of the country.

of present savings, counting on paying cash. The American habit of installment buying will continue to be a major factor in large consumer purchases."

## Hobbyist Fails to Tell

Color of Hobby's Eyes CLEMSON, S. C .- Filling in a questionnaire for the public relations office of the army specialized training program at Clemson college, John Gibson Bliss Jr. of Needham, Mass., didn't hesitate when he came to "hobbies." He wrote:

"Her name is Mary; she is five feet, four inches; has long chestnut colored hair, beautiful eyes, and weighs 120 pounds." Photography was his second

choice.

## Tug Destiny Built in

U. S. Cited for Exploit LONDON .- The royal navy announced that an American built tug, Destiny, had towed a ship 1,650 miles through fog and heavy seas all the way from Gibraltar to the United Kingdom without charts and with only a pocket atlas as a guide. The Destiny was commissioned in Michigan in July, 1941, and has since sailed the Caribbean and Mediterranean seas and the Atlantic ocean.

### Longest Stage Mail Trip In the World Is Opened

DAWS N CREEK, B. C.-United States army trucks opened what is described as the longest stage mail route in the world-the 1,000-mile overland route from Dawson Creek to Whitehorse, Yukon Territory, along the Alaskan highway.

The 72-hour trip crosses two mountain ranges. A daily northbound and southbound schedule is planned.

Slated for U.S. Army, German Is Naturalized MILWAUKEE. - A Germanborn Milwaukee man was admitted to citizenship at a special hearing before Judge F. Ryan Duffy, a few hours before the man was to enter the army. He is Henry H. Hundertmark, 23. Hundertmark, who is married and has one child, was inducted three weeks ago, but received a furlough.

1

Proving that Santa Claus is patriotic as well as generous, he places a pair of war bonds in this well-filled stocking. More and more people are giving war bonds as Christmas presents, thus aiding their country's war efforts as well as simplifying their yule shopping.

Night Before Christmas Now I lay me down to rest, Angels guard my little nest. Like the wee birds in the tree, Heavenly Father, care for me.

St. Nicholas Florida, Minnesota and Pennsyl vania have towns named after St. Nicholas, the Christmas saint.

he could use for himself. He had to build new and bigger barns, and could not see the "barns" that were aiready prepared, for, as Ambrose says, "Thou hast barns-the bosoms of the needy, the houses of widows, the mouths of orphans and infants." He was a fool who loved money for himself. One wonders what he had to say for himself when that very night he was called into the presence of God to give an account of his stewardship (v. 20). If you are same attitude, what will you say in that day? An important point which we must note is that Jesus expressly repudlated the connecting of His name with the so-called "social gospel" in His reply (v. 14). III. The Cure-Trust in God (Luke 12:22-25). Because covetousness destroys the best in life, we ought to shun it like poison. The best antidote (or cure) if we have been poisoned by it is to go all-out in our trust and confidence in God. We who are children of God are to take no anxious thought for the morrow. This does not forbid proper preparation and forethought, but it does rule out fretful anxiety. The reasons are very clear and cogent. First of all, while food and clothing are important, they are not of that one have life. Otherwise things are useless (v. 23). We must keep values. Then too, God is the One who must care for every one of us. And He does care for us! Why not trust Him? He cares for all creation; can He not care for you? If then you trust the all-powerful One, what occasion is there for worry, or cov-

And finally comes the devastating argument. Worry never accomplished anything. Anxiety does not help anyone, anytime, anywhere. So why be anxious? It is clear then that a desire for that which belongs to others is sin which destroys man's happines and usefulness. It is needless-a is all anxiety-because only God ca provide, and He will provide if w trust Him. Life becomes simple, pleasant, use ful, confident, yes, really Christian when we get our eyes off things an on the Lord.

etousness?

Housing your hens in a comfortable, sanitary, rat-proof concrete poultry house is a good way to insure bigger egg production. When built of concrete a poultry house will last a lifetime and its modest first cost will be practically the last.

Long-lasting concrete is the thrifty material for feeding floors, dairy barn floors, milk houses, foundations, grain storages, manure pits, water tanks-improvements that help you raise more needed foodstuffs. Send today for "how to build" booklets. If you need help, get in touch with your concrete contractor or building material dealer.

#### PAGE THREE.

#### Eating Affected by Color

One color specialist reports that too much red in a dining room overstimulates the diners with the result that they are less relaxed and inclined to eat than when the environment is a quieter color scheme, such as blue and white. Instances have been cited in which restaurant business which had been poor while red decorations were in use actually became good when the color scheme was changed to more quieting tints.

Pitch In

J., buys War Bonds regularly.

Sgt. Bernard Rello, 22, of New York, was wounded by snipers during the Sicilian campaign. His grandparents live in Naples, and he has a brother in the army. Both buy War Bonds regularly. Do you do as much?

Technician 5th Grade John A. Wisniewski, 25, of Door, Mich., lost his right eye, three fingers and suffered chest wounds from shrapnel in the fight to capsure Tunis. He is now recovering at Halloran and is a regular War Bond purchaser.

Pvt. Bernard Heidemann's left leg will be two inches shorter when he is discharged from Halloran. He was wounded by a German bullet during the operations in Sicily last August. His home is Chicago. He has been in traction since Sept. He's buying bonds.

The nickname of Pvt. Milton Lie berman, 27, of Brooklyn, is "Clark Gable." He was wounded in Sicily last August and has been at Halloran since October. Every pay-day \$12.50 is taken out for War Bonds Lieberman is buying. How many do you buy?

#### Miss Sweeney Married ENGAGEMENT OF MISS ASHER IS ANNOUNCED

## Thanksgiving Day

At nine o'clock on Thanksgiving nounce the engagement of their morning, Miss Bessie Sweeney, daughter, Miss Glenna Asher, and daughter of Frank Sweeney of Sgt. Howard Fox of Cassopolis. Ivanhoe, became the bride of Mr. No date has been set for the mar-Allan McCarty of Ubly. Rev. Fr. riage. Miss Asher, who was graduated Edward Werm officiated at the marriage rites which took place in from Central Michigan College of to crack a bone in his right wrist

spring, is teaching English in the Township. Attendants in the wedding party high school at Pinconning.

were Miss Hannah Sweeney and Sgt. Fox is stationed with the Miss Isabelle Sweeney, sisters of Army Air Corps at Alexandria, the bride, Wm. Sweeney and Mark La., as a tail gunner in a B-17. McCarty.

The bride wore a white satin WESLEYAN CIRCLE gown with a fingertip veil and a HONORS MRS. WOOLEY string of pearls. Her flowers were white carnations.

After the crermony a wedding breakfast was served to the immediate families, and that evening friends and relatives attended a reception for the newlyweds held in the parish hall.

The bride and groom enjoyed a wedding trip and are now making their home with the groom's parents near Ubly.

## Former Cass City Boy Married in Seattle

On Saturday, Mrs. Roy Green-Friends of Glenn E, Spencer, a former resident of Cass City, will field and son, Philip, of Unionville week. be interested to learn of his marwere guests at the Fred Maier riage Wednesday, Oct. 27, to Miss home.

Marjorie Ruth Ebert of Pigeon. Supervisors of Tuscola County gess' parents, Mr. and Mrs. Samuel Judge E. Starr officiated at the will convene at Caro next Tuesday Burgess, at Deckerville Sunday ceremony which took place in for a continuation of their October evening, Seattle, Washington, at four o'clock session. in the afternoon.

The bride wore a lavendar suit with brown accessories, and her maid of honor, Miss Eleanor Stel, ternoon. of Seattle, wore a brown suit with matching accessories.

FC 3-c Glenn Spencer and his best man, Eugene H. Shields, both wore Navy uniforms. Wedensday afternoon. The groom is a graduate of Cass

City High School. He joined the United States Navy Oct. 28, 1940. Mrs. Spencer is a graduate of the Pigeon High School and of Grace Hospital School of Nursing on

May 3. At the present time they are making their home at 1004 Warren Mrs. Benkelman's sister, Miss Iola Avenue, Bremerton, Washington. When Mr. Spencer resumes his active duty, Mrs. Spencer plans to return to Michigan to accept a in Ypsilanti Sunday after spending position in the nursing profession. her Thanksgiving vacation with The groom is the son of Mrs. her mother, Mrs. S. A. Bradshaw,

Lewis Schriber of Caro, and the and sister, Miss Isabel. bride is the daughter of Mrs. Dorothea Ebert of Pigeon.

## WEEKLY NEWS ANALYSIS

First U. S. Landings on Gilbert Islands **Reveal New Strategy in Jap Campaign; Diplomacy Claims European Spotlight; Chinese Battle for Provincial Capital** 

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) Released by Western Newspaper Union.

Gilberts-Landing under cover of the booming guns of American warships, U. S. army and marine forces swarmed ashore on Tarawa, Makin and Apamama in the Gilbert islands and pushed back the Japs in stiff fighting, amid coconut palms and jungle brush.

Midway between Hawaii and Australia, the Gilberts lie astride U. S. communication lines to the South Pacific area. Consisting of numerous islets, Tarawa, Makin and Apamama are fronted on their western sides with sunken reefs, sandsplits and coral patches; but on the east, ships can approach within a half-mile or mile from shore.

As U. S. troops poured ashore, Japanese artillery sought to break up landing formations. On the islets themselves, Jap machine gunners operated from pill box defenses hidden in the dense foliage against advancing U. S. infantry.

**MEDITERRANEAN:** 

As the Allied attack slowed before

the Nazis' strong mountain line some

85 miles south of Rome, attention in

into effect.

#### DADS' DRAFT: Slowed Again

To President Roosevelt's desk for signature went a senate-house bill which would put all fathers in the U. S. at the bottom of the draft list by requiring the induction of all eligible single men first.

Approved by voice votes of both legislative chambers, the bill also would abolish the present practice of drafting men according to their employment in essential and non-essential industry classifications set up by the War Manpower commission. The bill provides for the review of any occupational deferments by the appeals board within the district where the person works, and would establish a special medical commission to study the possibility of lowering physical standards of the services.

## WHEAT:

Loan Stocks Down Through the second week of No-

communication lines and industries vember, 117,677,380 bushels of 1943 wheat were under government loan. terials. as the feed situation remained tight with many areas in the corn belt unbombers struck at Berlin, firing able to produce sufficient stocks to every section of the German capital meet needs.

The loan figures compared with 312,884,567 bushels held by the govnt at the same time last year.

#### **MORAL STANDARDS:** Demand High Level

To molders of public opinion, the Federal Council of the Churches of Christ in America appealed for leadership in maintaining the highest sex standards and impressing the dignity with which men and women are endowed as custodians of the home. Protesting against the exploitation of material in newspapers and magazines which degrades thought and emotion, the council lashed against the portrayal of the human body in ways detractive to the reverence in which men and women should be held as creators of homes and guardians of the sacredness of family life. Demanding strict enforcement of laws against sexual promiscuity and commercialized prostitution, the council said venereal diseases have rendered "millions of American men and women unable to serve their

The desert's warm, shifting sands have covered historic bat tlefields of World War II in North Africa, with only faint traces of tank and artillery tracks remaining, and these mostly in scarred green vegetation.

#### OIL:

U. S. Offers Leases

country as they ought."

To capitalize on the 17,000,000 barrels of oil and gas underlying the Cerritos channel between Los Angeles and Long Beach, Calif., the U. S. government invited private operators to submit bids for leasing privileges to develop the properties. Besides obtaining a bonus for use of the land, the U.S. will also receive a royalty of 16% per cent on production from the area. Under terms, 10 wells must be drilled to production within 12 months, and six more within 18 months of delivery of the lease.

Highest bonus ever paid for drill ing oil on federal lands was \$1,407, 500 for 2621/2 acres in the Elk basin field in Wyoming.

#### **U.S. PAYROLL:** Lop Off 131,058

During the period from June to September of this year, 131,058 employees were lopped

off the federal payroll, Senstor Harry F. Byrd, Va., revealed as chairman of the joint economy committee. This left 2,964,405 still at work for Uncle Sam. The total discharged amounted to 157,997, but the figure was brought down by the navy's

employment of 15,-314 new workers. and an increase of Senator 7.920 in the post of-Harry Byrd fice's personnel.

The war department trimmed its payroll by 139,968; the War Manpower commission by 11,931; the Panama canal by 3,548, and the agriculture department by 2,550.

of 5,000,000, and disrupting gas, **RUSSIA**: electricity and street car facilities. Nazis Hit Back

## By New Treatment No. 1 Dairy Disease

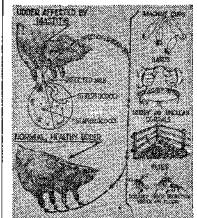

Should Be Eradicated

Mastitis, or inflammation of the udder of milking cows, can now be controlled and in most cases cured, says O. W. Schlam in "Bovine Mastitis," a late pamphlet published by the University of California. Two types of mastitis are recognized, says Mr. Schlam, who is an assistant professor of veterinarian science. The two are the acute, which is comparatively rare, and the chronic, which is so common among dairy herds of the world that it is considered the most serious bovine disease, resulting in lowered milk production. It is often a hidden disease, and may exist for a long time without being noticed. Symptoms are swelling of the udder, and visible particles in the first streams of milk, and eventually reduced flow.

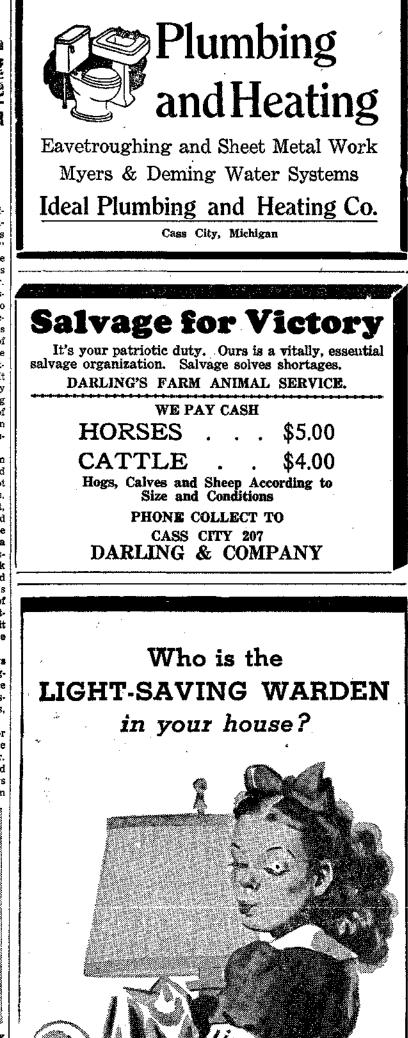

The disease is caused by infection of the udder with a bacteria called streptococcus agalactiae. It does not affect any organ but the milk glands. The germs enter through the teat, and are transmitted from infected cows to healthy animals by the hands of a milker or the cups of a machine. To some extent, the disease is spread by calves that suck at several cows, and by muddy and unsanitary corrais and flies. It is estimated that about 85 per cent of all cows that have been once infected harbor the disease, and that it may become virulent at any time and cause garget (clotted milk).

The severity of the disease, says Mr. Schlam, depends upon such aggravating factors as incomplete milking, improper drying off, excessive vacuum in milking machines, and exposure to rain and cold.

Diagnosing mastitis is difficult for the amateur, unless symptoms are so severe as to be obvious, so Mr. Schlam advises having regular and frequent tests made of all the cows in a herd. Microscopic examination

Chronic mastitus is spread amou herd by the milker's hands or the cups of the milking machine and to a lesser extent by files.

Pipes and Registers 1/4 price; also BOILERS, STOKERS and PARTS. INST ALLATIONS REASONABLE Lowest Prices in Michigan

**Cook Furnace Exch.** TOWNSEND 8-646T 2965 \$ Mile, Just East of Weadward Of the current stocks, 37,339,271 bushels were on farms. With market prices at practically all terminals favorable for redemption, more than 2½ million bushels of 1943 loans have been liquidated.

To counter the tight feed situation, an Iowa State college bulletin suggested marketing pigs at 200 to 220 pounds this fall instead of 270 pounds to assure maintenance of hog numbers next spring.

#### **INDEPENDENCE:** For Lebanon, Syria

Under League of Nations mandate, France was entrusted with supervision over the small

countries of Lebanon and Syria, to the north of the Holy Land. When Gen. Charles de Gaulle's Free French took over these territories in 1941 with British aid, they promised

their people they would grant them independence. But when the Lebanese

took matters into their own hands recently and revised Gen. Georges their constitution to Catroux accomplish their freedom, the Free French's resident

supervisor disbanded the government and placed the president and premier under arrest. Rioting ensued, and to Lebanon's ancient capital of Beirut fiew Free

France's No. 1 trouble-shooter, Gen. Georges Catroux, Lebanon's officials were released, and not only Lebanon, but also Syria, was told that Free France would enter into negotiations for their independence.

CHINA: Japs Attack Toward Hunan province's capital

of Changsha, two columns of a Japanese force of 80,000 men launched a determined attack, making progress in early fighting. The attack marked the Japs'

fourth major effort to take Changsha, the other campaigns failing when wily Chinese commanders struck at the enemy's extended lines in the Siang valley to the north.

This time, however, the Japs made every attempt to buil their way through, massing men and material and using bombers to smash at Chinese defensive positions. To counter the Jap attack, the Chinese sprung a drive through the

mountains to the rear of the fighting, designed to relieve pressure on their main front.

#### WAR PRODUCTION: **Experience** Counts

Because of better management, greater effort by labor and more trained workers, U. S. arms output in October registered its biggest gain since last April, the War Production board said. Stimulated by its experience, U.S.

industry can now be expected to function at peak efficiency, WPB declared, with this efficiency mostly accounting for increases in production, since a limit has been practically reached on material and manpower. During October, WPB said, stress

was laid on output of aircraft, which showed a 10 per cent increase over September; ships, up 5 per cent; ammunition, up 11 per cent, and communications equipment, including radar, up 9 per cent.

**BASKETBALL:** Following its | MAGNETISM: Transatlantic broadcasting was rendered practiduration, the Midwest Conference of cally impossible by magnetic storms on November 21, the Columbia

Duplicating their tactics used at Kharkov last winter, the Nazis struck at the Reds' extended positions at the important rail junction of Zhitomir and hurled them back 20 miles to the east in heavy fighting. As Field Marshal Fritz von Mann-

stein's 150,000 Nazi troops attacked near Zhitomir, the Russ sought to ease pressure on their lines in this sector by intensifying their drive to the north near Gomel, within 100 miles of the old Polish border.

As the Nazi forces held fast to the iron and manganese centers of Krivoi Rog and Nikopol in the south, the Reds probed the enemy's lines on either side of these strongholds, in an effort to find a weak spot for a break-through.

Fighting Russian units on the east coast, the Nazis clung to the Crimea, which dominates the Black sea.

### WAR LOAN: To Begin 4th Drive

With the third war loan drive well over its goal of 15 billion dollars, the U.S. treasury announced plans for a fourth drive beginning January 18.

Although the 14 billion dollar goal of the new drive is below the last mark, individual investors will be asked to contribute 51/2 billion dollars, more than they were requested to do during the third campaign.

To meet investment requirements, savings deposit departments of commercial banks will be allowed to purchase limited quantities of a 21/2 per cent issue maturing in 1970, and a 2¼ per cent security due in 1959. To sell as many securities as possible with current purchasing power, the government will ask banks to refrain from loaning money for

PROFITEERING

speculative purchases.

Almost two-thirds of the nation's farmers believe that manufacturing companies are making "excessive profits" on war orders, a survey taken by the Association of National

Advertisers reveals. Results of interviews of 2,800 typical farmers, divided into seven classes, showed that 60 per cent think that profiteering is going on, although 75 per

cent of the group are of the opinion that industry is doing a "reasonably good job." Seventy per cent stated that labor could do better.

of milk samples is the easiest and cheapest way. Cows should then be grouped, he says, into (1) free of infection. (2) suspected. (3) positively infected. Group 1 cows should be milked first, group 2 next, and group 3 last.

Up to a few years ago,' mastitis was considered incurable, but sulfanilimide has been found effective in treatment, and three other drugs, neutral acriflavine, colloidal silver exide, and tyrothricin have proved completely successful in ordinary cases. These drugs are injected into the infected parts. All but the most severe cases respond.

After infection has been removed. the udder will show a tendency to rebuild itself, and milk production may become normal. Treatment during dry periods is preferable in general,

### Farm Notes

For safe storage of grain, the moisture content should not be more than 14 per cent, say experts.

Every farmer who possibly can is urged to cut a few cords of pulpwood or a few logs of lumber this fall during his spare time. War industries are calling for tremendous amounts of wood products, says R. W. Graeber, extension forester at N. Carolina State college.

\* \* \*

Aralac, a new synthetic fiber, has some of the properties of wool. Another new clothing material is made from a combination of fibers from redwood tree bark and wool, and a soybean fiber now being used in making hats. A new cotton cloth, not yet on the market, is said to be as durable as woolen fabric.

\* \* \* Grasses and legumes make good silage when ensiled under suitable

conditions and when preservatives are added in adequate amounts.

Every victory garden should have at least a few flowers. The lift they give to the spirit justifies them. \* \* \*

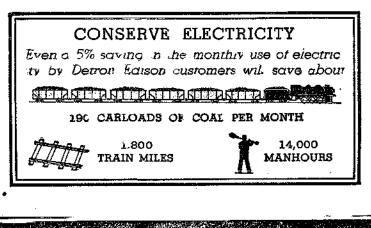

At least 20 million pounds of honey have been added to this year's honey crop recently because the weather was sunny while sweet clover was in bloom in northern states.

It's an important job, these days - seeing that light bulbs and reflectors are kept dust-tree (you get about 1/3 more light tor the same money), furning off lights in unoccupied rooms, basement. attic, etc., and keeping a watchful eye on the household use of electric appliances.

Why is it important? Because COAL is the principal raw material in the production of electricity and thousands of ions a day are burned in the tour arge Edison power plants. There is no shortage of electricity-but when you save electricity you save coal and manpower and transportation needed tor war. And whether you save it by the more careful use of electric appliances, or by turning off the radio when no one is listening to it, or by "sharing the light" of a lamp so that two or more persons can use it, you are making a direct contribution toward winning the war.

Be your own "Light-Saving Warden" and help make this nationwide conservation program a success. The Government asks the help of every one of us in this worthwhile effort Here is a chance to make VOLUNTARY rationing work. The Detroit Edison Company.

## **Christmas With Our Boys** The World Over

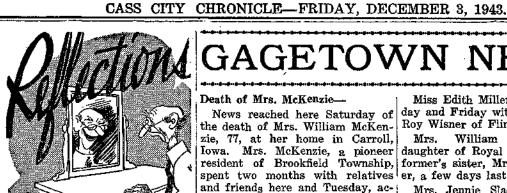

The spirit of Christmas glows deep in the hearts of the men in our armed forces, no matter where they may be. In the frigid outposts of the land of the midnight sun Yuletide is being celebrated. It is Christmas, too, for our boys in the steaming jungles of the South Pacific, in Africa, China, Britain

and Brazil. Yank ingenuity has overcome difficulties of terrain and distance to capture Christmas cheer and improvise some of the comforts of home. Christmas to these men will lack the proverbial trimmings and the faces of loved ones, but letters from home will make up for that.

In picture at top a lonely U.S. sentry keeps his Christmas vigil at the U.S. outpost in Sitka, Alaska.

Right: A Christmas package for a marine in the South Pacific. It arrived early in November.

## Learn Your Journalism, **Printing at Adrian**

Adrian, Mich. - Outstanding among schools that teach journalism and the printing arts is the Adrian College Press equipment, which actually produces one weekly magazine (24 pages, with color), several monthly publications, a score of booklets and leaflets every week, and a large number of commercial catalogs, builetins, and institutional prints, annually.

"Self Help Students" at Adrian, who wish to work their way through college by such practical employment, thus study their theory within sound of the tinkling linotypes and pounding cylinder presses which they operate, outside of class hours, for a goodly hourly wage. They have actual experience in

type-setting, paper-cutting, pagemakeup, printing make-ready, commercial job work and cylinder press work. They read galley and press proofs actually in process. Those

training for editorial desks, actually write and edit copy for the "College World" eight page newspaper, report for the local Adrian Daily Telegram (circulation, 16,000), and plan printing campaigns for local business. George E. Miller, former editor-

in-chief of the Detroit News, and one of Michigan's most nationally known editors, was an Adrian student, from a nearby farm home. J. S. Gray, publisher of the Monroe News, and Donald Frazier, managing editor of Adrian Telegram, were Adrian students. John F. Cowan, editor of the Christian Endeavor World magazine, listed in Who's Who as author of 16 books, and Lyman E. Davis, founder of the Recorder publications for the Methodist Protestant Church, were Adrian graduates. A steady stream of Adrian students win their way in journalism and printing fields.

The unique advantage at Adrian College for all such ambitious ones is Adrian's "guaranteed working chance" at a Christian college education, whereby boys and girls earn as they learn, and get practical experience, in their chosen line, right on the college campus. Only a few of the largest universities have a printing plant to compare with Adrian.

## **Adrian Cooperative Teaches Economics**

Adrian, Mich. --- What better courses on "home economics" could any college furnish than practical experience in managing and operating the college "commons" or dining-hall, the dormitories, and the housekeeping routine for both? Every college or university supplies plenty of textbook "theory"

## **Paragraphs** About Folks in the Service

Concluded from page 1. Pvt. Wm. N. Harrison of Camp Howze, Texas, came Friday to visit his mother, Mrs. Nelson Harrison. He will leave next Sunday to return to camp. His sisters, Miss Florence of Detroit and Miss Margaret of Flint, came Wednesday to stay until Saturday at their parental home here. 

Pfc. Paul E. Reid, stationed at Pocatello, Idaho, spent from Saturday to Thursday at his home here. On Thanksgiving Day, he went to Detroit with his father, Orris Reid, to visit friends. This vas his first furlough in two years.
