285 in Attendance at Ladies' Night Function Tuesday

Fine Program of Community Club Ends Activities Until October.

Decorations of the junior-senior banquet of Thursday evening in the school auditorium were left intact and provided a beautiful setting for the Ladies' Night function of the Cass City Community club the following Tuesday. Seated at tables decorated with streamers of pale blue crepe paper, artificial water lilies and vases of forsythia, members of the club and their wives and lady friends, a company which totalled 285, enjoyed a fine dinner prepared by ladies of St. Pancratius church and served by a committee of the club members. Dinner music was provided by Fred Gussell of Caro, who has delighted Cass City audiences at several occasions with piano numbers.

Guests were welcomed by Club President Frank Reid, who introduced Frederick Pinney as program chairman. The trio of cornetists from the high school band, Kenneth Price, Dean Robinson and Gall Goodall, with Miss Betty Hower as piano accompanist, added to the pleasure of the assembly by presenting two numbers.

Mr. Pinney presented Ernest W. Owen, vice consul of the British Consulate in Detroit, as speaker of the evening. Mr. Owen's reputation as an inspirational and humorous speaker was sustained here when he gave his address, "Thirteen Keys to Success." He is a forceful and enchanting speaker and held the close attention of his audience.

The Ladies' Night function of the Community club concluded its program until October when the monthly meetings will be resumed. Girl Scouts made themselves useful Tuesday night in checking hats and coats.

W. S. C. Honors Mrs. Chester Graham

A program, honoring Mrs. Chester Graham, incoming president of the East Central district of the Michigan Federation of Women's Clubs, was given Tuesday afternoon at the home of Mrs. Walter Schell by the Cass City Woman's Study club. About 60 were in attendance.

Mrs. M. R. Vender gave a fine talk on "Japanese Relocation Work" and music was presented by Miss Marilyn Pomroy of Caro, a student of piano under Mrs. Lucy Lee of Cass City.

Mrs. A. J. Knapp, with a few well-chosen words, presented Mrs. Graham with a gift from the club. Mrs. Graham responded in a fitting manner.

At the close of the program, members and guests were served tea from a lace covered table which was centered with a lovely spring bouquet of snapdragons. Mrs. Vender and Mrs. S. P. Kim poured and Mrs. Dudley Masure rendered piano music during the refreshment period.

The last meeting of the club year will be held on May 23 at 1:30 in the high school building.

Local Track Squad to State Regional at Owosso Tomorrow

On Saturday, May 13, Coach Jack London will take the Cass City track squad to Owosso where they will take part in the state regional track meet. Other teams that have entered this meet in Class C are Inlay City (1942 state champion), Corunna, Millington, Marysville, Holt, Flint School for Deaf, Kearsley, Williamston, Fenton, Goodrich, Chesaning and Fowlerville.

Coach London believes that Cass City stands a fair chance of finishing amongst the top teams at this meet Saturday. The following boys will make the trip: Strickland, Dorland, Silvermail, Strickland, DeLong, Kettlewell, Root, Hubbard, Bugebe, Hillaker, Stinton, Weatherhead, McConnell, Fredericks, Doerr and Endersbee. The squad will return Saturday evening.

Political Announcement.
I will be a candidate for the office of Judge of Probate, for Tuscola county, on the non-partisan ticket at the primaries to be held July 11, 1944. Your support will be appreciated.

The Bronze Star to the previously presented European Theatre of Operations Campaign Service ribbon was awarded to S. Sgt. Wm. C. MacCaslin of Cass City, in a ceremony at the VIII Air Force Fighter Command Thunderbolt Base "Somewhere in England" by Colonel Einar A. Mahstrom, commander. The Bronze Star is awarded for the battle credits accrued by this fighter group for its participation in the aerial offensive against enemy occupied Continental Europe.

The receipt of a general order by the members of a 5th AAF A-20 Boston attack bomber unit stationed in New Guinea was the cause of a double celebration. One paragraph of this order stated that Lt. Dwight E. Turner of Cass City had been awarded the Oak Leaf Cluster to the Air Medal for his participation in 25 combat missions in the Southwest Pacific theatre. The announcement of this decoration was excellent news to Lt. Turner, who is now credited with 47 missions, but the unit as a whole celebrated for this was the 1,000th decoration to be presented to members of this famed tree-top striking organization. Here Comes the Postman with Letters from Service Men

Pfc. Vivian A. MacLachlan, who is located on Oaker Island, in a letter to Mr. and Mrs. Ernest Reagh writes in part as follows:

"I was on jungle training when I received your letter and I didn't do any writing while there. "It is nice where we are. We have been going swimming when we get the chance. I am no expert swimmer but am working into it gradually. We have to be able to swim 50 yards. It is a little hard for me because my wind is bad anyway.

"I have never run across anybody from home but I hope I may some day. I have been going to a lot of shows lately to pass the time away. I was over to Haliwa Sunday and went to Easter services. This Saturday I am going to a Hawaiian fiesta, program and dance. I will tell you more about it in my next letter.

"I see by the Cass City paper that Orville Mallory is in Iran. I looked up on the map to see just where that is. I imagine it is pretty warm there."

Clean-up Days in Cass City May 15-17

From Monday, May 15, to Wednesday, May 17, have been designated as clean-up days for Cass City by Village President Walter L. Mann. During that period, all citizens are urged to do what is necessary to make Cass City a place more beautiful and at the same time more healthful.

Following the custom of former years, the village truck will haul away tin cans and other rubbish at the expense of the village. All debris should be placed in containers in a convenient place at the curb or alley for loading on the truck. No ashes are hauled away by the village.

Village officers are anticipating the hearty cooperation of all in this spring cleaning campaign.

Scouts to Conduct Waste Paper Drive Here Saturday

Troop Is Participating in a State-wide Campaign of Paper Salvage.

Boy Scouts will conduct a waste paper drive in Cass City tomorrow (Saturday). Trucks will gather the paper in the usual manner during the day and persons who contribute the waste paper are asked to place the packages in convenient places for loading. This is a part of a state-wide campaign.

Dealers who purchase the waste paper will not accept it unless it is placed in containers or tied in bundles. People are requested to have the paper thus prepared so the scouts may take it directly to the dealer without rehandling.

The serious waste paper situation was discussed at a recent meeting of a committee in Lansing, when Kenneth M. Burns, chairman, pointed out that seven Michigan mills which require 8,000 tons of salvage a week have been able to run only five or six days instead of the regular seven.

Eight million tons of waste paper—83 per cent more than was used in 1943—will be needed in the country this year to meet requirements of the military forces and essential civilian demands, Burns said. A recent national poll, he added, showed that only 50 per cent of the people are saving paper.

FIRST-AID
to the
AILING HOUSE
By ROGER B. WHITMAN

Roger B. Whitman—WNU Features.
MUSTY SMELL

Question: We live in a very old garage flat over a clean private garage. The woodwork, however, is very old, and the windows high and not suited to cross ventilation. There is a musty smell in the house that is present in some old houses, although the place is not damp. We have a gas furnace and there is nothing to cause this odor except aged woodwork. Can you suggest some deodorant to overcome this condition? We have more trouble in summer than in winter.

Answer: Where there is a musty smell of that kind you may suspect rotting wood somewhere. It would be well to make a thorough examination to see if any of the timbers or parts of a building are damp, or if there is leakage. In the meantime you can clear up much of the odor with special preparations that are on the market for just this purpose. Inquire at your hardware or drug store. One or two saucers of household ammonia would also sweeten the air. You can help the ventilation along by placing an electric fan on the floor, blowing toward an open door or window.

MAPLE BREAKFAST SET

Question: I am taking the paint off our breakfast nook set and want to finish it a maple color. Should

I put on an undercoat before I put the maple color varnish on?

Answer: If, after removing the paint, the wood is of a uniform color, apply the varnish stain directly to the wood; but should the bare wood turn out to be varied in color and shade, apply a coat of buff-colored flat paint first.

Gurgling Sink
Question: We have a septic tank, and when the plumbing fixtures in the bathroom upstairs are used there is a gurgling in the sink downstairs. What causes it and what can we do to remedy it?

Answer: The piping connections may be faulty so that when a large volume of water comes down the pipe from the bathroom above it creates a suction, causing the water in the sink trap to gurgle, and, in some cases draws it down. Sometimes an accumulation of grease will cause this trouble. If your plumber can furnish you with an anti-siphon trap under the sink this should relieve the gurgling. If none is available, a large trap with a deep water seal may help. All septic tank installations should have a grease trap connected to the line from the sink.

Cracked Stucco
Question: My house is built of fireproof tile with a cement finish on the outside. This cement finish has quite a few cracks on the outside walls. How can I finish up these cracks permanently, and make a decent looking job?

Answer: Hairline cracks in the wall can be covered by painting with a damp-proof cement base paint. Larger cracks should first be widened and made deeper, then patched with a cement mortar. You can get ready-prepared patching mortar and the cement base paint at most mason material yards. Follow the printed directions.

Mortar
Question: Seven years ago my red brick porch was tuck pointed, and now the mortar is coming out again. What proportion should be used so that the mortar will be more permanent?

Answer: Use one part portland cement, an equal quantity of hydrated lime, and three parts clean building sand. At the time the job is done, the brickwork should be soaked with water.

Gas Burner Adjustment
Question: We have hot air heat and burn gas. When the basement air is cold the gas flame is blue, but as the basement becomes heated, the flame is red. How can we improve this condition?

Answer: A blue flame indicates correct adjustment of the burner, while a red flame shows that the air supply is insufficient. Consult your gas company.

Cleaning Sidewalks
Question: Is there some kind of a solution that I can use to wash my front porch and sidewalk?

Answer: I presume the porch floor is of concrete or stone. If so, scrub the floor and sidewalk with a strong solution of trisodium phosphate or washing soda, about a cupful in a pail of hot water. Rinse with clear water. Scouring powder, in addition to the solution, may be necessary on stubborn spots. Badly stained areas may need special treatment, depending on the nature of the stain.

'Chin-Up' Mother

Happy smiles wreath the faces of mother and son as Corp. George McDaniel of Memphis, Tenn., greeted his mother, Mrs. George McDaniel, after her selection in Atlantic City as the "1944 Chin-Up Mother." Corporal McDaniel's written description of his mother, who has five sons in the service, was judged the best among 2,500 such descriptions written by George's buddies in the army hospital. She spent a week with him as the city's guest while George was awarded war bonds as his prize.

Life Lost

In some experiments as much as 50 per cent of the storage life of a lot of apples was lost because of exposure to gases given off by ripier apples.

Antimony Use
No. 1 use of antimony is in storage batteries. Alloyed with lead, it furnishes for the plates a sturdy framework that is not harmed by the sulphuric acid in which it is immersed. On the other hand, the soft, spongy lead and the lead peroxide that are held in the frames to form the battery plates are affected by the acid. It is planned that way, for this is the chemical action that releases electricity.

Team-Making Metal
Antimony is strictly a teamworker. There is scarcely a use for the metal in its pure state. But combined with certain other metals, it contributes highly valuable characteristics to the mixtures.

Imported Pyrethrum
Just before the war the United States was importing annually an average of 15 million pounds of pyrethrum powder. During the war years, with the Japanese supply eliminated, it has been able to scrape up only about 10 million pounds a year.

GAGETOWN NEWS

Mother-Daughter Banquet—

The annual Mother-Daughter banquet, sponsored by the Woman's Study club, was held Tuesday evening in the dining hall of the Methodist church. The toastmaster was Mrs. L. D. MacRae. The toast to mothers was given by Margaret Glougie; the toast to daughters by Mrs. George Henderson; and solos by Miss Margaret Sjelund accompanied by Miss Jean Kehoe. Group singing was led by Mrs. Ralph Clara. Around the tables were seated 100 mothers and daughters. The favors were blue and white nut cups.

Mrs. Bert Wood went to Muskegon Sunday to visit Mr. and Mrs. Delos J. Wood, who are the proud parents of a new son born May 5 at Hackley hospital, Muskegon.

Radioonde Found Here—

A radioonde was found on the Stapleton farm by Jack Stapleton May 4. This instrument is used by the government as a radio broadcaster of the temperature, pressure and moisture of the air through which it passed. A balloon sent up by the weather station carries this instrument to a height of about 12 miles. The balloon bursts and the instrument comes down slowly on the parachute to which it is attached. The balloon, parachute and radioonde was brought to the post office and sent to the Institute of Meteorology, Chicago, Ill.

Mrs. Isaiah Montreuil spent from Wednesday until Saturday of last week in Detroit.

ANESTHETIC

The governor of Pennsylvania was presiding at a public dinner. At the conclusion of the repast came the inevitable speechmaking. A dignified and impressive gentleman, but with a terrible bore, arose at the invitation of the chairman and proceeded to deliver an exceedingly dull and interminably long dissertation on everything in general and nothing in particular.

The audience became impatient and inattentive. A hum of conversation began, which grew louder and louder. The governor felt it his duty to rap for order. As he hit the table with his gavel, the handle snapped and the heavy hardwood head flew through the air and landed with a resounding whack squarely on the high, bald forehead of a gentleman seated a few feet away. The guest, already slightly groggy, slumped in his chair.

A horrified silence followed, but the speaker, blissfully unaware of the mishap, droned on.

The injured gentleman revived slightly, lifted his eyes wearily, and murmured: "Hit me again; I can still hear him."

DISMAL FUTURE

Johnny—Dad, will I look like you when I grow up?
Dad—Probably.
Johnny—Well, I won't grow up for quite a while, will I?

Me Too!

Cop—Do both of your dogs have licenses?
Rastus—Yassuh! Yassuh! Dey's jus' covered wid 'em!

Helpful Hint

Jones—I wish I had four hands so I could do all my work.
Smith—Try doubling your fists and see if it helps.

Too Bad!

Plumber—I'm sorry but I've forgotten my tools.
Professor—Oh, that's all right. I've forgotten what I called you for!

Game Room Italy

Bears, wolves and wild boars roam the forests of oak, elm, pine and beech that spot the mountain slopes of central Italy. Many of the forests have been completely cut down, leaving mountains bare and valleys prey to floods such as the one that swept through the Volturno valley as the Americans crossed it.

Mom and Pop and the Car...

"No, Junior—mama meant for the service station man to switch the tires!"

On Mom's long list of duties these days, you'll see this item bobbing up, more and more: "Have car serviced." That's not surprising—it's easy now for women or men to keep a car running right, running longer, and running farther on every gallon of gasoline. Just take it to your Standard Oil Dealer! He's trained for wartime car-saving service. Remember—it's going to be a long, long time before you can replace your car. Don't neglect it. Follow this 3rd-War-Year Service Guide and keep your car at its best always.

WARTIME CARE

Your electric servants are built for long, hard use—and they won't shirk their responsibilities if you treat them kindly! But remember, they must last for the duration.

YOUR ELECTRIC IRON—Keep bottom of iron clean. Avoid ironing over zippers, snaps, hooks and eyes. Don't go away to answer the doorbell, telephone, etc. and leave the iron turned on—even for a minute. Keep the cord away from a hot iron. Be sure the iron is cold before putting it away. Be careful not to drop your iron.

YOUR TOASTER—Never dip a toaster in water. Don't jab at it with a fork to remove a piece of toast. Brush off crumbs with a cloth or soft brush. (Many toasters have a removable bottom plate for cleaning out collected crumbs.)

YOUR COFFEE MAKER—Keep inside of coffee maker clean. (Never permit left-over coffee to stand in the coffee maker.) Clean and rinse filter cloth thoroughly after using. Keep filter cloth in cold water between usings.

YOUR FOOD MIXER—Always remove beaters or attachments immediately after using. Wash with warm water, rinse and dry. Clean body of mixer with soap and water, being careful not to get water into the motor. Follow manufacturer's directions as to oiling, operation, etc.

YOUR WAFFLE IRON—Wipe off grids with a dry cloth after use. Use a stiff brush to remove any particles that stick. Never wash the grids. Wipe any spilled batter from outside of waffle iron with a damp cloth. Never put the waffle iron in water.

"I want him Back... so

I'M SAVING WASTE PAPER!"

Yes... waiting is hard. But it's easier when you're doing something to protect and aid him... and bring him home sooner!

Your Government says that waste paper is the No. 1 war shortage. There's your opportunity!

For waste paper is everywhere. Newspapers, magazines, wrappings, corrugated paper... bundle them all in packages about 12 inches high and turn them in.

The very waste paper you tie up may well be made into paperboard that packages the K-rations, ammunition or blood plasma your fighting man will use.

So enlist the children. Enthusiase your neighbors and friends. Scour attics and basements. Then start a regular system of saving and bundling your waste paper for war.

It's so little to do... and it may mean so much to him!

ASPHALT TILE

Question: What can I use to remove wax and shellac from the black asphalt tile floor in our bathroom? And, what would give the floor a nice shine that would not show white water spots, footprints, etc.? We used both shellac and wax on the floor, and it looks milky in places.

Answer: To start with, a black floor is next to impossible to keep clean, and there is nothing made that will prevent the dust from showing on a black or other dark, deep colored floor. There is always some dust on the soles of your shoes and when you walk over such floors footprints are bound to appear. A mat or rug at or near the door may help. Water turns shellac white, and the asphalt tile should not have been coated with it; in fact, asphalt tile should never be painted, varnished or shellacked. You may have difficulty in removing the shellac. Take a tile in an obscure corner and try rubbing with denatured alcohol and fine steel wool. If the surface or color is not affected, proceed with the rest of the floor. Should the tile show signs of being affected by the alcohol, you will have to use a slower but safer method; that is, by scrubbing the floor with scouring powder when the floor needs a cleaning. This will, in time, remove the shellac. When polishing asphalt tile use only a self-polishing non-rubbing wax or a vegetable wax.

NEW CISTERN

A reader's suggestion—"In a recent issue of your column there was a question as to how to keep water in a new cistern from being hard at first. Several years ago we made a new cistern of brick and were told to paint the entire surface with water glass diluted not more than half."

We never were bothered with the water being hard, and it seems to me it would be as effective in a cement cistern. Of course, it should become dry before letting water in."

Care of Heating System

Question: How often should a furnace be cleaned? Can this work be done by the same man who services the oil burner? When should the chimney be cleaned, and what type of serviceman does this work? Answer: The furnace and smoke pipe should be cleaned at the end of each heating season. This type of work frequently is done by the oil-burner serviceman; but if your man does not do this kind of work, there are firms who specialize in the cleaning of boilers and chimneys. With an efficient burner, a chimney does not require frequent cleaning; only an examination of the flue can decide this. A fireplace and heating boiler should have separate flues; otherwise either or both heating units will not operate efficiently.

Leatherette.

Question: My baby's carriage is navy blue leatherette, and the hood has developed gray streaks, as though the dye had come off. Can the hood be refinished, and if so, how to do it? Answer: If the leatherette is in bad condition, you would do well to replace it with a new piece. If you do not wish to do so, however, you may get fair results by coating the leatherette with a good quality enamel, used as it comes in the can. Of course, the surface must be washed with mild soap and water, rinsed and wiped dry. After allowing several hours for thorough drying of the surface, wipe with turpentine and apply the enamel.

Insulated Attic Floor

Question: Our new house is insulated between the attic floor and the ceiling, but the flooring is not closed in at the edges (about one foot). Would it benefit me to close it in completely? Answer: No special benefit or increase in efficiency will be gained by finishing the edges of the attic floor, except from the point of appearance.

Rusty Hot Water

Question: I have a hot water tank connected with my oil fired boiler. It is practically new, and for the past year the water has been rusty. I clean it out every two or three days. How can I prevent it? Answer: At present I do not know of any available material that would be helpful. A copper or monel metal storage tank in place of the rusty one would be your remedy, but I am afraid you will have to put up with this condition until after the war.

Members of Republican county committees and Republican county officers of the Upper Thumb will gather at Caro for a dinner meeting on Wednesday evening, May 17. John Dethmers, chairman of the state committee, will be one of the speakers.

Mr. and Mrs. Andrew Cross, in company with Mr. and Mrs. Geo. Wilkins and John Tewkesbury of Kingston, attended the funeral of Albert Tewkesbury in North Branch Sunday. The deceased was a nephew of John Tewkesbury and a cousin of Mrs. Cross and Mrs. Wilkins.

Mr. and Mrs. Floyd O'Rourke entertained the latter's sister, Miss Esther Deering, and sister-in-law, Mrs. Jake Deering, Jr., and baby of Bad Axe over the week end. On Thursday, the parents of Mrs. O'Rourke, Mr. and Mrs. Jake Deering, of Elkton were guests at the O'Rourke home.

Devotionals of the Adult Bible class of the Methodist church, meeting with Mrs. Walter Schell on May 4, consisted in readings from the Upper Room book. A social time occupied the latter part of the afternoon. The hostess, Mrs. Schell, and Mrs. Root served chicken, biscuits and coffee.

Miss Isabelle McLachlan, daughter of Mr. and Mrs. Alex McLachlan, of Uby, is very proud of a hula girl's skirt, braiser and two wreaths sent to her by her brother, Pfc. Vivian McLachlan, from the Hawaiian Islands where he is stationed. Isabelle has four brothers in the Service—two in the United States and two overseas.

In honor of the birthdays of Mr. and Mrs. Wm. Bentley, a party was given Sunday in their home. Mr. Bentley's birthday will be on May 13 and he will be 36 years of age. Mrs. Bentley's anniversary occurred on May 6. Guests were Mr. and Mrs. Kenneth Bentley of Detroit; Mr. and Mrs. James McNeil of Bay City; Mr. and Mrs. George Phillips and sons, Larry, Wayne and Dale, Mrs. Jennie Bentley, Mr. and Mrs. Roy McNeil and daughter, Judith.

Employees at the Detroit House of Correction at Plymouth chose Friday for a double celebration. That day marked A. Blake Gillies' 24th anniversary of service with the institution. He has been its superintendent for a long period. The second day following (Sunday) was the birthday anniversary of Mr. Gillies, who first saw the light of day in Cass City, "many long years ago." Employees along with their hearty good wishes presented Mr. Gillies with a gold watch.

PRE-INDUCTION CALL FOR 66 MEN FROM TUSCOLA CO.

Two volunteers, Darr Carr of Vassar and Floyd Baxter of Mayville, are among the group of men ordered for the Navy, to leave on May 19. Others included in the group are: Edward Weisheim, Fairgrove; Wm. Newton, Deford; Lora Marker, Unionville; Wayne Binder, Caro.

Raw Fruit

A good rule to follow is to include some raw fruit and vegetables on meal plans regularly. Prepare them just ahead of serving time and when storage is necessary, wrap them loosely in wet cloth before placing them in the refrigerator. Soaking in water will result in loss of minerals as well as vitamins.

RESIDENT OF CASS CITY COMMUNITY FOR 58 YEARS

Concluded from page 1.

2:00 p. m. Rev. Harold May, pastor of the Christian Missionary Alliance church, Wayne, officiated at both services. Music was furnished by Mrs. John Guisbert. Interment was made in Elkland cemetery.

Lydia Ann Spurgeon was born July 28, 1860, at Oxford, Mich. At the age of 20, she was united in marriage with Henry L. Hulbert of Richmond, Mich., who preceded her in death Mar. 6, 1939.

To this union six children were born: Anna Hulbert, who died in infancy; Ray Hulbert, Cass City; Stanley Hulbert, Jeddo; John Hulbert, Snover; Mrs. Eathel Lapeer and Mrs. Florence Brown, both of Wayne.

Besides her five children, she is survived by 12 grandchildren, seven great grandchildren, numerous other relatives and a host of friends.

Mrs. Hulbert is one of a family of 12 children, all but two having preceded her in death. Surviving are her twin sister, Mrs. Libbie Perrin, Royal Oak, and Mrs. Nettie Losey, Lake Orion.

Out-of-town relatives who attended the funeral were: Mrs. E. A. Groezinger of Columbiaville; Mrs. Roy Hulbert and Mr. and Mrs. Morris Hulbert of Lapeer; Mr. and Mrs. Earl Hulbert and Mrs. Ruth Schramm and grandson of Rochester; Mrs. Dana Losey and Mrs. Lydia Spurgeon of Lake Orion; Mrs. Libbie Perrin of Royal Oak; Mr. and Mrs. Frank Bardwell, daughter and granddaughter of Caro; Mr. and Mrs. Grover Hulbert of Jeddo; Mr. and Mrs. John Hulbert and daughter of Snover; Mr. and Mrs. E. J. Lapeer and daughter and Mrs. Florence Brown of Wayne, Mr. and Mrs. Glen Penfold of Battle Creek.

Artificial Pollination

Tomatoes and cucumbers when grown indoors generally require artificial pollination. Sometimes fruit will develop without it, but pollination is required for best results. This may be done by jarring the flowers of tomatoes, or by transferring the pollen from another to stigma with a small brush where seed and pollen flowers are separate. This should be done on individual flowers as they open from day to day.

The Real Holy Spirit
We must not think of the Spirit filling our hearts as a bushel of oats fills an empty basket. The Holy Spirit is not a substance to fill an empty receptacle, but a Person to control another person.—Kenneth S. Wuest.

Self-Government
There is a tradition of local self-government in China. Until the closing years of the Manchu dynasty not only were townsmen left free to take care of their own local community matters; even in counties the people usually looked after their own affairs. Elective aldermen were charged with the maintenance of peace and order, which were deemed matters of local concern. The tradition of self-government was so strong and effective that in the old days Chinese cities and counties were generally able to maintain a peaceful and orderly life without seeing a single policeman on duty in the locality.

Horse Shortage
Horse buyers declare that the United States faces its worst shortage of equine farm motive power.

MISS BRADSHAW BRIDE OF ARMY LIEUTENANT

Concluded from page 1.
floor-length, white sheer gown, styled with a sweetheart neckline, long sleeves and full bodice with the skirt gathered on either side. Her blush veil was caught in a poke bonnet and her arm bouquet was of red and white roses.

The matron of honor, Mrs. Zidlicky, wore a floor-length, peach colored embroidered gown, fashioned with a sweetheart neckline and short sleeves. Her arm bouquet was of apricot roses.

Immediately following the ceremony, members of the bridal party and the bride's mother and sister had dinner at the "Wagon Wheel" in Rockford. Later in the evening, a reception was held in the officers' club at Camp Grant. The Lt. Colonel presented the newlyweds with a gift from the officers and their wives. Light refreshments and wedding cake were served the guests.

Lt. and Mrs. Whelan left after the wedding on a trip which took them East to visit the groom's parents at Tobyhanna, Pa., and they will also come here to visit the bride's mother, Mrs. S. A. Bradshaw. They will make their home at 416 N. Winnebago St., in Rockford, Ill.

The bride was graduated from the local high school and later attended Cleary college at Ypsilanti. For the past two years she has been employed in the office of the county draft board at Caro.

Lt. Whalen, before entering the Service, received his Bachelor of Science degree from the pre-medical school at the University of Scranton, Scranton, Pa. At present he is assigned to headquarters in Camp Grant, Ill.

Mrs. Bradshaw and daughter, Miss Mabel Jean, of Ypsilanti spent the week end in Chicago and Rockford, Ill., and attended the wedding.

Concluded from page 1.
Dr. Hartman Lichtwardt of the Ford hospital staff of Detroit, medical missionary of Iran, was guest speaker, following a brief devotional led by Mr. Vender, chairman of Presbytery's Committee on Christian Education. After the address, Rev. Elmer Braden of Caro was introduced as the new chairman of the Committee on Youth Work.

Following an explanation of the newly adopted name and organizational plan of the Westminster Fellowship of Flint Presbytery, officers were elected by the three districts within Presbytery, followed by the election of youth officers of the Presbytery-wide Fellowship.

Following luncheon, a beautiful ceremonial of induction of the newly elected officers was conducted by the Rev. Elmer Braden and the newly elected moderator, Robert Wood. The program closed with an impressive candlelight communion service.

Winter Pests

In addition to the cold, rabbits and mice are winter hazards for the fruit grower. Rabbits gnaw bark from young trees one to five years old, making protection necessary for such trees. Wrap the trunks and bases of framework branches with paper. Protection against field mice, which may girdle the tree trunks, may be secured by cleaning the surface of the ground of all weeds or mulch for a radius of two to three feet around each tree trunk.

Stolen Rides

Since coupon rationing went into effect, coupons representing more than 126 million gallons of gasoline have been stolen from ration boards. In addition, many gallons are stolen through counterfeiting.

U. S.-British Heavy Bombers Continue Blasting of Nazi Defenses, Railroads; Task Force Hits Jap Base at Truk; 'Riot' Sales Reflect Need for Goods

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

Bougainville—Yanks from 37th division, formerly the Ohio National Guard, go into action behind U. S. tank against Japs infiltrating into their lines on Bougainville in Solomon.

MEATS: Supply Plentiful

Because of a halt in lend-lease buying, reduced military demands and bulging warehouses, the OPA removed all meats except beef steaks and roasts from rationing. Even as the OPA acted, packers were being deluged with heavy receipts of hogs, reflecting the tight feed situation recently aggravated by the government's embargo on all private corn sales in 125 midwest counties in an effort to divert 80,000,000 bushels of the grain to industrial processors for war uses. In one day, 20 leading markets received 200,000 hogs compared with 146,000 the previous week and 140,000 a year ago. After one week of extensive solicitation by county AAA officials, it was announced farmers offered more than 27,000,000 bushels of corn for sale to the government for the sorely pressed processing industry. OPA's action removed from rationing all cuts of pork, veal and mutton; all beef except the steaks and roasts; beef hamburger and steaks; all kinds of variety meats; sausage; ready-to-eat meats; canned meats and fish.

EUROPE: Invasion Bombardment

Thundering over western Europe, thousands of U. S. and British planes continued their round-the-clock bombardment of Nazi coastal defenses and rail lines feeding them, as Berlin anxiously eyed the heavy concentration of shipping in invasion waters. As the west rumbled under the crushing bombardments, quiet settled over the long active Russian front, but here, too, the storm reportedly brewed, with the Reds massing forces for an all-out blow at the Germans to coincide with the U. S. and British invasion. About 1,100,000 Nazis were at arms along the heralded German "Atlantic Wall" under supreme leadership of Marshal Erwin Rommel, but leaving no stone unturned, they were reported prepared to protect their flank by flooding the Netherlands by blasting the dikes and dams holding back the rumbling sea water.

CIVILIAN GOODS: Scarcity Rule

Reflecting the demand for civilian goods, crowds rushing to buy 1,500 war model alarm clocks in a Chicago department store, smashed display cases and created a mild riot before police were finally summoned to restore order. Although such riots are not expected to become the rule during the rest of 1944, scarcity of many items is. For instance, a few war model alarm clocks are expected to be produced in the second quarter of this year and some electric clocks with plastic cases will be available in July. Baby carriages of prewar construction containing nine pounds of metal will continue to be marketed in limited numbers. Despite increased use of metal in upholstered furniture, the shortage of lumber is expected to hold down production. Electric flat-irons should reappear in stock later in the year. No refrigerators but ice-boxes of plasticized wood pulp will remain available.

MacARTHUR: Out of Race

With a return to the Philippines his only ambition, Gen. Douglas MacArthur once and for all put an end to efforts to forward his candidacy for the Republican nomination for president. Returning to his New Guinea headquarters after the successful assault on Hollandia, General MacArthur declared: "... I request that no action be taken that would link my name in any way with the nomination ... I do not covet it, nor would I accept it." General MacArthur's blunt disapproval quieted the fury caused by the publication of his correspondence with Representative Miller (Neb.) in which the latter urged him to become a silent candidate and he himself commented on domestic conditions. Typical was Sen. Tom Connally's reaction. Said he: "... I have never believed he would halt in his war services to pursue politics."

PACIFIC: Truk Lambasted

On their way back from Hollandia where they assisted Gen. Douglas MacArthur's invasion forces, a fleet of U. S. aircraft carriers launched a sustained attack on the big Jap base of Truk and outlying atolls, hammering formidable ground installations. In India, the British massed strong defensive forces as the Japs continued to press on key junctions dominating the roads to the Assam-Bengal rail line supplying Lieut. Gen. Joseph Stilwell's troops, fighting to clear a new overland route to China through mountainous North Burma. The navy's attacks on Truk and outlying islands which reportedly cost the Japanese 128 planes besides damaging their ground defenses, was a continuation of the heavy assaults on these enemy outposts, standing athwart the overseas route to the Philippines and Asiatic mainland, where stands the bulk of Tojo's armies.

MOSCOW VISIT: Mission Assailed

One of the strangest and most startling incidents of the war was the sudden appearance of the Rev. Stanislaus Orlemanski of the Holy Rosary Catholic church of Springfield, Mass., in Moscow by the side of Marshall Josef Stalin and Foreign Commissar Vyacheslav Molotov. Long a champion of closer Polish relations with Russia despite the latter's claim to eastern Polish territory, U. S. born Reverend Orlemanski left his diocese without ecclesiastical authority. While the official Russian press played up Rev. Orlemanski's visit, the reported aim of the priest to sell the idea of collaboration with Moscow to U. S. Poles drew hot fire from some of their prominent leaders. Said John Olejczak, president of the Polish Roman Catholic union: "... Father Orlemanski does not represent any one at all ..."

Reverend Orlemanski

LABOR: Union Security

Perked by Montgomery Ward and company's persistent opposition to the maintenance of membership clause compelling employees to remain within a union for the life of its contract with a firm, the industry representatives on the War Labor board opened up a fight on the provision. Asking that the WLB agree to test its power to impose the maintenance of membership clause on employers by taking the case to court, the industry representatives declared: 1. Maintenance of membership restricts a worker's freedom to decide his own union affiliations; 2. Maintenance of membership has yet to be proved a device for stimulating production; and, 3. Maintenance of membership might disturb harmonious relations between labor and capital.

Foremen Strike

Opposed by industry generally on the grounds that foremen properly are a part of management, the question of unionization of foremen came to the front in Detroit's automobile plants. In the five plants of the Briggs Manufacturing company, 6,000 members of the United Auto Workers staged a two-hour sit-down in support of the walkout of 1,000 foremen over demands for recognition of the Foremen's Association of America. At the Hudson Motor company, an undetermined number of foremen struck in protest against the alleged discharge of a supervisor without a hearing, but the firm continued production despite their absence.

OLD WARRIOR: Comes Back

As 90-year-old Jacob S. Coxey stood on the steps of the nation's capitol in Washington, D. C., in a faded blue suit and high old fashioned collar with a black string tie, there were memories of his celebrated march to the same site at the head of 1,000 unemployed in 1894. Then, Coxey had intended to petition congress to issue interest-free government money for erection of public works, but police herded Coxey and his followers to the outskirts of the capital.

Jacob Coxey

Fifty years had not changed Coxey's views. As he appeared in Washington, D. C. this time in connection with his attendance at the 36th annual convention of the Hoboes of America, he again shouted for government issuance of interest-free money instead of dependence upon the private banking system for currency, provided through its purchase of U. S. Bonds.

NEUTRALS: Curb Axis Business

Responding to U. S. and British pressure to curb shipments of tungsten to Germany, Spain agreed to limit deliveries of this vital metal-hardening ore to the Nazis to 20 tons monthly during May and June and 40 tons monthly thereafter. As a result of the agreement which also included the ouster of all German agents in the Gibraltar region, the U. S. and Britain pledged to resume shipments of 48,000 tons of bulk oil and 35,000 tons of packaged petroleum products monthly to Spain. U. S. and British pressure on Turkey to stop increased chrome shipments to Germany resulted in a temporary suspension of deliveries pending review of the request, but Sweden has held out against Allied demands for termination of its lucrative ball-bearing trade with the Nazis.

SUPREME COURT: Can't Tax U. S.

In a 7 to 2 decision read by Justice Jackson, the U. S. Supreme court ruled that government-owned property is not taxable, regardless of whether assessments are made directly against the government or its lessee. The court's opinion was handed down in a case where Allegheny county, Pa., had placed a higher valuation upon a gunmaker's real estate because the factory on which it stood contained government equipment used in manufacturing operations. Declaring the county's procedure amounted to placing a general property tax on government-owned equipment with resulting higher costs to the government for defraying the gunmaker's increased tax payments, the court said that actually the assessment was made against the machinery and not against the real estate.

AUTOS

There are only about 47,000 new passenger automobiles on hand, the Office of Price Administration reports. At the beginning of rationing, there were 532,000, most of which have been sold to purchasers in war essential activities. Explaining the policy of holding on tightly to the small number still remaining an OPA representative said, "It is essential that some new cars be made available as long as possible to take care of highly important services."

Mother's Day 1944

On Mother's day American soldiers all over the world are reminded of the many services they once took for granted at home. K. P. duty has taught them that mother's task was no easy one. These "housekeeping" pictures were taken in the Aleutians and might well inspire the following sentiments.

"Isn't this a fancy mop-wringer? But I still don't like it—it weighs about five times as much as yours. And our mess hall is about as big as our whole house. To think I used to gripe when you asked me to wash off the back porch with the garden hose."

"Sometimes, Mom, I think the army ought to make it a rule that potatoes should always be baked—with the jackets ON!"

"After a year in the army I've finally gotten so I can sew a button on a shirt, but this mending tears in pants stuff gets me. Honest, I thought all you had to do to mend a rip is sew it up. But it's a complicated affair. Probably the wrong kind of thread."

"Seems funny, my being a cook, doesn't it? I couldn't even cut a pie straight and now I'm carving meat like an expert, and cooking it too."

"I baked these cookies all by myself. It gets a bit cold nights in the Aleutians and the boys like hot cocoa or coffee with cookies to warm 'em up. The boys say they taste pretty good—but they're just kind-hearted."

Preserve Vitamin Every attempt should be made to conserve the vitamin C in all of the foods we serve rather than to depend entirely upon special vitamin C foods. Loss of flavor and of other vitamins and minerals, as well as loss of attractiveness of appearance, too often result when vitamin C is lost. Conserving vitamin C serves as a guide for the retention of other vitamins and minerals in the foods we eat.

Humidity Comforting Remember that humidity is as important to comfort as temperature. A room at 68 degrees with the air humidified can be more comfortable than the same room at 80 degrees with no moisture added to the air. Keep water in the humidifier of a hot air furnace and place containers of water alongside radiators.

WORLD BANK: For Trade Stability

Consultant economists of 30 out of the 34 United Nations were reported to have agreed on the formation of a world bank with a capitalization of 10 billion dollars to promote international business stability in the postwar period.

Functions of the bank in which the U. S. would have a 2 1/2 billion dollar interest, would be to provide member nations with finances for holding up the value of their money, preventing any drops that would depress their business activity.

Great Britain with \$1,250,000,000 and Russia with \$1,000,000,000 would be the two other biggest subscribers to the bank, on whose managing committee of nine, the U. S. would have one vote.

BRITISH TAXES

The British exchequer intends to raise about 12 billion dollars of the annual cost of the war by taxation, with the levy amounting to approximately \$300 for every person in the kingdom. The year's expenditure for war will likely be double this amount, or slightly more than last year.

Further increases in the tax on non-essential items are anticipated. The basic rate is now 50 per cent on incomes and 100 per cent on luxury items.

Generates Electricity
Coal generates 55 per cent of all U. S. electricity.

Heating 'Hot Spot'

When adding fresh coal to the fire, push the red coals in a heap to one side (or the front) and place the coal in the depression left on the other side (or the back). This will leave a "hot spot" of red coals to ignite the unburned gases released from the coal after firing.

We're Marching Into Battle...

"There are nearly 200,000 of us here in Michigan . . . 200,000 dirt farmers and our families marching together. Our battle song is the whisper of the wind among the fruit blossoms, the rhythmic patter of rain on new green leaves, the humming of the tractor as its plow turns over the soft brown earth, the clatter of the seed drill . . .

"Some of our weapons are new as the modern weapons of war, some old as the hills of Judea. For ours is a war that has no beginning, no end. Ours is the battle of food.

"Our sons, like yours, are off to the war of planes and tanks and guns and ships. Many of those who helped our fight now forge the weapons for these valiant sons. To feed them all, our battle must be won.

"To feed you here at home is half the task. To feed our fighting men, to aid our allies whose fields are drenched with blood, to make new friends in countries freed from hate . . . that, too, is half our task.

"We achieved the impossible last summer. Now we must do it again.

"Michigan, the Arsenal of Democracy, might well be called the Cupboard of Democracy, too. No state can match the variety of its foodstuffs, nor outrank it in so many products of the soil.

"We bow in grateful tribute to the food retailers in your own community who have matched our efforts with their own. From the smallest independent to the largest chain store, they fight their battle, too, against well-nigh hopeless odds.

"They bring you our luscious berries, cherries, melons, peaches, pears, plums and apples from our fruit areas . . . sugar from our beets, millions of gallons of health-building milk, cream and other dairy products for your children and war workers, golden honey, top-grade potatoes in abundance, poultry, eggs and meats from our farms . . . fresh vegetables in never-ending streams and much more packed in our canneries . . . peas and beans and tomatoes and body-building, vitamin-enriched root vegetables . . . carrots, turnips, beets . . . all from Michigan farms and orchards and processing plants.

"With their cooperation we face this new season. We face it uncomplaining and unafraid . . . with resolute courage and the will to win.

"We are marching into battle, we the farmers of Michigan—marching side by side with all who do battle on the home front that Victory on the fighting front may be achieved the sooner."

HOUSEHOLD MEMOS... by Lynn Chambers

Help Yourself to a Salad!
(See Recipes Below)

Salad Magic

Salads are in season summer, winter, fall and spring, but in spring you can really have all the variety you want. There are crisp greens aplenty, perhaps fresh from your own garden, and loads of fresh fruits and vegetables to complete the demands of health and satisfy the appetite for really fresh - from - the - garden foods.

Everywhere you go you hear people saying, "A salad is just the thing," or "I want something green and crisp." It's a sign of spring, this desire to eat foods that fit with the newness and freshness of spring.

A new idea for serving is to try a salad buffet for it will save your preparing individual salads for everyone. Simply set salad ingredients in bowls, park them on a tray and whisk them into the dining room for everyone to make up his own combination. In the picture illustrated above, you will notice the bowl of salad, dressing is surrounded by crisp greens, and then there are bowls of grapefruit sections with avocado pears, strawberries, pears or peaches and prunes stuffed with cottage or cream cheese and nuts—all the makings for salad for helping yourself to any combination that appeals to you and your guests.

Salads can double for both the salad and dessert course, or they can be the mainstay of your luncheon for the club.

*Salad-Dessert Leaf. (Serves 6)

- 1 envelope plain unflavored gelatin
- 1/4 cup cold water
- 2 egg yolks
- 1 tablespoon melted butter or substitute
- 1/2 cup mild vinegar
- 3 tablespoons vinegar
- 1/2 teaspoon salt
- 1/4 teaspoon paprika
- Few grains cayenne, if desired
- 1/2 cup milk
- 2 tablespoons canned pineapple juice
- 1 cup prepared fruit
- 1 cup evaporated milk, whipped

Soften gelatin in cold water. Beat egg yolks and salt. Add vinegar, salt, butter, cayenne, paprika and pineapple juice gradually. Whip lightly. Add milk and cook in top of double boiler until of custard consistency, stirring constantly. Remove from fire and dissolve softened gelatin in hot custard mixture. Chill, stirring occasionally while cooling. When mixture begins to set, fold in whipped, evaporated milk and fruit, cut in small pieces (orange, cherries, canned pineapple, grapefruit).

Lynn Says:

Give Yourself Health! Egyptians cultivated salad foods such as onions and garlic; Romans enjoyed chicory and lettuce. Why shouldn't you?

Your cues to a good salad are few but important: ingredients should be well chilled, attractively arranged and served with the proper dressing. Most fruit salads take a whipped cream dressing or cooked dressing or mayonnaise flavored with fruit juices. Occasionally, in the case of a bland fruit or citrus fruit, a french dressing is a must.

Seafoods are usually marinated before mixed with other ingredients. Marinate shrimps, crabmeat, etc., in french dressing even though you may use mayonnaise to hold the salad together. The above trick may also be tried with potato salad. It improves flavor.

peaches, pears or any desired fruit combination). When firm, unmold on platter and garnish with green pepper. Trim platter with salad greens.

Shrimps in a salad can make up the main dish for a warm night supper without too much fussing on your part:

Shrimp Salad. (Serves 6)

- 2 No. 1 cans shrimp
 - 2 1/2 cups diced cooked potatoes
 - 1 cup diced celery
 - 1/2 cup chopped green pepper
 - 1/2 cup french dressing
 - 2 tablespoons lemon juice
 - 1/2 teaspoon salt
 - 1/2 cup mayonnaise
 - Salad greens
 - 3 whole tomatoes, cut in wedges
 - 8 green pepper rings
 - Ripe olives
- Combine shrimp, potatoes, celery and green pepper. Add french dressing, lemon juice and salt. Chill. Just before serving, moisten with mayonnaise. Serve on chop plate garnished with salad greens, tomato wedges, green pepper rings and ripe olives.

A salad that's substantial and really good is one that combines fish with macaroni. A subtle combination of seasonings makes it just perfect eating:

Macaroni-Salmon Salad. (Serves 6 to 8)

- 1 1/2 cups flaked salmon, tuna or crabmeat
 - 1 cup cooked macaroni
 - 1 cup canned peas
 - 1/2 cup diced celery
 - 2 tablespoons minced pimiento
 - 2 tablespoons chopped sweet pickle
 - Salt and pepper to taste
 - Mayonnaise
- Combine ingredients in order given. Toss lightly with dressing and serve, well chilled in lettuce cups. The following salads are cool and vitamin-rich, perfect foil for warmer weather:

Raw Vegetable Salad.

- 2 cups raw carrots, grated
 - 1 cup raw cabbage, shredded
 - 1/2 cup raw celery, chopped
 - 1/2 cup onions, diced
 - Cooked salad dressing
- Mix together vegetables with just enough dressing to hold together.

Lettuce Rolls.

- 1 head lettuce
- 1 cup cottage cheese
- 1/2 cup seedless raisins
- 1/2 cup chopped nuts
- 1/2 cup mayonnaise
- Salt

Combine cheese, raisins and nuts. Blend well with mayonnaise. Add salt to taste. Use large lettuce leaves and spread with cheese mixture. Roll as for jelly roll; chill and serve.

Dressing Variations.

French Dressing: Crumble 1/4 pound Roquefort cheese into 1 cup french dressing. Serve over greens.

Lemon Cream Dressing: To 1 cup chilled, evaporated cream, whipped, add 3 tablespoons honey and 1 tablespoon lemon juice. Serve with Fruit Salad.

Mayonnaise: Add 1/4 cup chili sauce, 2 tablespoons pickle relish, and 2 hard-cooked eggs, chopped to 1 cup mayonnaise. This is good over lettuce.

Oxidizing Enzyme

Many fruits and vegetables contain an oxidizing enzyme which brings about rapid destruction of the vitamin C content on exposure to air and warmth. Peeling, chopping, slicing and crushing increase the area exposed to the air and hasten the vitamin C destruction. When these methods are used in preparation for cooking or for making salads or relishes, the food should be kept cold and cooked or served as soon as possible.
