

Large Audience Greeted 59 Seniors at Class Night

Diplomas Presented to 30 Boys and 29 Girls on Friday Evening.

A large audience of relatives and friends greeted the 59 graduating students, 30 boys and 29 girls, Friday evening when the group presented the class night program.

Miss Eva Jane Somes proved a very capable master of ceremonies. Her clever introductions were often interspersed with bits of poetry.

Emily Myslakowski, chosen salutatorian because of scholastic ability, stressed the word, "commencement," in her address and said that while this evening marked the close of their high school career, it was the commencement of other worthwhile things in life.

James Stinton, in his president's address, compared the four years of class work, just completed, to the tasks of Jason, in the story of Jason and the Golden Fleece and thanked the class for the opportunity of having served as the class president.

No better two-some could have been chosen for the class prophecy than Shirley Surprenant and Bonnie Mark, who amused the audience with a glimpse into the rosy future, while they gazed into a beautiful rose bowl.

Kenneth Price and Dean Robinson pleased the audience with a cornet duet. Kenneth's twin sister, Kathryn, accompanied them at the piano.

At this point in the program, Robert Ryland and Robert Benkelman came on stage bearing two huge baskets, well loaded but not so well arranged, with gifts for the seniors. The gifts, as always, proved amusing. Grant Little

Flag Etiquette Varies but Slightly in 50 Years; Display Violations Rare

The observance of Flag day on June 14, 1944, is of greater significance than at any time in history. For today Old Glory is flying at the peak of flagstaffs not only throughout our own broad nation but in many of the remotest spots on earth.

Every American should be familiar with the proper etiquette and respect which is to be accorded our national banner at all times. What American hasn't felt the surge of patriotism as he has watched the flag go by and stood at attention to salute it?

The custom of display and homage to the flag has been a standard one for more than half a century and today it remains essentially the same. However, a few slight changes and one or two rather pertinent ones have been made in the flag code during recent years.

Congress a year or so ago amended several of the existing rules and customs pertaining to the flag code. The main change, however, deals with the pledge of allegiance. The variation is a slight but purposeful one. Citizens repeating the pledge should merely place the right hand over the heart and should not raise their hands and point to the flag as was previously the custom.

Occasionally in the observance of Flag day there may occur an inno-

cent violation in handling the flag. It might be well for us to refresh ourselves in a number of the salient phases to be adhered to in displaying the flag on this day.

The flag should be flown only from sunrise to sunset and on stationary flagstaffs in the open. Unless there is a special reason for doing so the flag should never be flown in rainy or stormy weather. It should always be raised briskly and lowered slowly. The flag should never be used for receiving or holding anything. It should never be permitted to trail on the ground.

But it is quite rare when an American permits any of these things to happen to it when handling the flag. And as for the display of the national emblem this Flag day the traditional effect will be heightened by the number of our American men and women who are fighting and working valiantly to keep it flying everywhere it has been hoisted.

And those of us on the home front, when we unfurl the Stars and Stripes to the breeze this Flag day, 1944, will again renew the allegiance to its proud colors and to the gallant fighters who carry the flag with them into the battles they wage to see that it flies forever over a free land. "Hats off—the Flag goes by..."

Package Soap

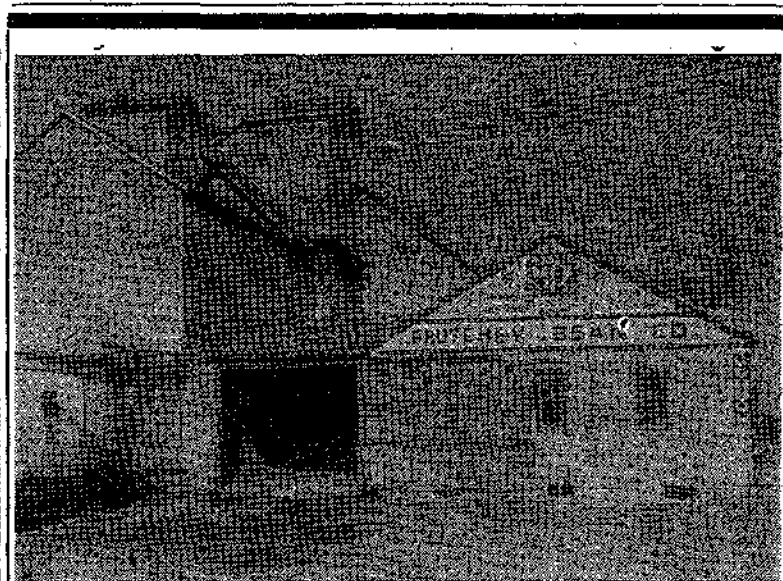

Package soap is wasted in many households simply because homemakers cut or tear too large an opening in the box top. The larger the opening, the more likely it is that more soap will pour out than is needed. Waste can be avoided by opening only to the extent indicated on box tops that have special opening devices, or by cutting off just enough of the corner to permit a thin stream of soap to pass through.

Cooking Frozen Foods Frozen meats, poultry and vegetables can be cooked satisfactorily with or without previous thawing. All reports indicate that frozen foods require somewhat less time to cook than similar fresh products, except possibly foods cooked without previous thawing. Roasts, particularly, would require time to thaw as well as to cook.

Monday, June 19, the Michigan state legislature will convene in special session at Lansing for the express purpose of enacting a law to validate the "federal ballot" for Michigan soldiers and sailors in the November election.

Here's how the change would work.

By August 1, or August 15 at the latest, every Michigan service man or woman will be given an army-navy postcard. If the service man fills out the card, it will go to Secretary of State Herman Dignan at Lansing. The cards will be routed to county clerks, and from there to city clerks according to the applicants' home towns.

This card is a formal request for an absentee ballot. However, a request may be made by letter, and in fact 20,000 such letters have already been received at the secretary of state's office at Lansing.

If by October 1, the absentee ballot has not been received by a Michigan service man, wherever he may happen to be, then the federal ballot law—if validated by the Michigan legislature June 19—would permit commanding officers in the field to distribute the federal ballot.

This federal ballot provides a vote only for the following: President.

Service Men Speak at Rotary Meet

Members of the Rotary club, meeting on D-Day, stood for several moments of silent prayer, following brief remarks by Rev. Dudley Masure on the significance of the day.

On the program, the Kercher family was represented by two members, Lt. Gerald Kercher, just recently graduated from the Army Air Forces Eastern Flying Training Command at Moody Field, Valdosta, Ga., told Rotarians about the airplanes used by student flyers, and through a series of questions and answers, gave out considerable information regarding planes. His nephew, Chas. Kercher, Jr., played "The Bee," a flute solo, with Miss Betty Hower as piano accompanist. They responded with an encore.

Sgt. Arthur Haley, who spent a year in the Solomon Islands, told about witnessing one of the greatest air fights of American and Jap flyers, and added to the interest of the luncheon program by relating some of his experiences and observations in the South Pacific area.

Rotarians voted to contribute funds towards sending a member of the high school band to Interlochen, the national music camp, for a two weeks' period.

Ed Corpron was program chairman and Otto Frieskorn song leader.

Home Tool Kit
Every family should plan to make household equipment last as long as possible. Daily care and needed repair of equipment will determine the length of its usefulness. The following tools will be helpful in making simple repairs at home: screw drivers, monkey wrench, knife, putty knife, nails, tacks, pliers, hammer, ruler, brush, solder, ice pick, flat file, round file, whet stone, and oil can. Keep your home tool kit handy and ready for use.

Waistline
A thick waistline can be camouflaged by the use of panels which carry down from the bodice into the skirt, giving a vertical slenderizing emphasis. This is especially true when no belt crosses the panel. Half belts are good, and inconspicuous self belts are permissible. Color contrasts can be used effectively here—a light color inset as a panel running the length of the garment is slimming; so are redingote ensembles of a darker coat and a print or lighter plain dress.

Flu and Grippe
From a medical viewpoint, the terms flu and grippe are synonymous, says Dr. Rufus S. Reeves, Philadelphia director of public health, but the general public generally considers influenza as including along with the usual aching and elevated temperature, symptoms of running nose and sometimes a little sore throat and slight cough.

Early Chicks
Chicks should be started early because early chicks grow faster and have a lower mortality. Furthermore, the early cockerels can be sold while the prices are higher and the pullets will come into production early in the fall when high egg prices prevail. Chicks for flock replacement should be obtained from flocks which have been tested and found to be free of pullorum. The brooder house should be cleaned thoroughly and the brooder put into operation a day or two before the chicks arrive.

Spread Rot
Crates, baskets, bags, planters, diggers, and storage bins that have been smeared with ooze from a ringrot-diseased potato may spread the disease to healthy potatoes even four months after the original contact.

Major Disasters
Major disasters in 1943 included three railroad wrecks with a combined death toll of more than 200, two coal mine explosions killing a total of 100 and a hotel fire with 51 fatalities.

Accidental Deaths
Accidental deaths of children under five years in 1944 increased 13 per cent from 1942, the 5 to 14 age group rose 6 per cent. Young adult deaths 14 to 24 years dropped 17 per cent and for persons 25 to 44 years decreased 10 per cent; increases for ages 45 to 64 years—4 per cent, and over 64 years—up 6 per cent.

Mrs. Henry Williams
Died in Saginaw

Funeral services were held Monday, June 6, at the Douglas Funeral home, by Rev. Dudley C. Moore, for Mrs. Lucinda Williams, who passed away Friday, June 2, at the home of her niece, Mrs. Harold Martin, in Saginaw, where she had made her home for the past five years. Interment was made in Elkland cemetery.

Lucinda Jones, daughter of the late Alex and Lucinda Jones, was born June 25, 1860, in Canada. She came to Michigan in November, 1888, and was united in marriage Dec. 25, 1894, to Henry Williams. Mr. and Mrs. Williams lived in Saginaw and from there moved to a farm in Evergreen township. Later they moved to Cass City where they lived until Mr. Williams died in December, 1921. Later Mrs. Williams went to Saginaw to make her home with her niece. She has been in poor health for many years and has been confined to her bed for the past two years.

A son, Alexander, passed away in 1906.

Dates Prized
Dates have been prized from antiquity as one of the most nourishing and satisfying of foods. They were raised on the banks of the Euphrates more than 4,000 years ago. Persians, Arabs and North Africans eat them as Americans eat potatoes. They constitute the main food of the inhabitants in the dry parts of North Africa, and are eaten by dogs, horses and camels. Egypt alone has over five million date palms.

sists of instruction in seamanship, military drill, and general naval procedure.

Pfc. and Mrs. Gordon L. Thomas are expected today (Friday) for a week-end visit with Mrs. Thomas' parents, Mr. and Mrs. H. F. Lenzner. Pfc. Thomas is enjoying a 20-day furlough from his duties at an aviation center near San Antonio, Texas. He and Mrs. Thomas are at present visiting his parents at Oxford.

Mr. and Mrs. Lloyd Reagh have received word that their son, Cpl. Harry Reagh, had landed safely overseas, somewhere in England. Harry was last stationed at Camp Breckenridge, Ky. Mrs. Reagh, who was in Kentucky with her husband, has returned to Bay City where they lived before Harry was inducted into the army.

Dagmar Martinek, Pharmacist's Mate third class, U. S. N. R., who is stationed in Bainbridge, Maryland, spent a seven-day leave with her parents, Mr. and Mrs. Frank Martinek of Gagetown and friends. Ph. M. Martinek will be in the WAVES one year this month. She was graduated from the Cass City high school in June, 1939, and from the Tuscola County Normal, Caro, in June, 1940, and taught in the Cedar Run school three years previous to her enlistment. Ph. M. Martinek suffered a fractured right ankle last February.

Dean Morrison, M. M. 3-C, of the South Pacific area, has written the following to the Chronicle under date of May 30. The letter was received June 2 via air mail.

"Once again I wish to take these few minutes to inform you that my address has been changed. I am still in the Hawaiian Islands, but don't know for how long. An expectation to go farther south one of these days which I have been looking forward to doing since I have been here.

"I have met a lot of my buddies from around Cass City since I have been here. To my surprise, I have also met my cousin, James Kelley, who at the present is in the Army hospital and is recovering fast.

"I believe that I had better sign off and get back to work as they are keeping us Sea Bees pretty busy over here."

Lt. Marvin Moore, son of Mr. and Mrs. Arthur Moore, who is stationed at Bradley Field, Conn., was made a flight commander recently. He received his silver wings at Eagle Pass Army Air Field, Texas, on Jan. 7 and was then stationed at Enid, Oklahoma, where he was a basic instructor. From Enid he went to Victoria, Texas, where he took his gunnery on P 40 on Mata Gordo, an island in the Gulf of Mexico, and at Richmond, Va., he received advanced training on P 47 fighter planes.

The following paragraphs are excerpts from a letter recently received by his parents:

"As you have noticed I have moved again. Will be here approximately three months. I arrived on Sunday, May 28. I was given a little extra time so arranged my train schedule so I could spend a few hours in Washington. Saw the White House and Washington monument. Hope to get to New York (about three hours by train) some week end. I had hoped that I would be close enough to home to fly up and give you a real air show but when I checked with a map I see that it is 600 air miles which means that it would be a 1200 mile round trip. If I could fly over Ontario I could easily get there and back but by going around Cleveland, Toledo and Detroit, it is about 200 miles farther. It might interest you to know that I could get there in about an hour and 45 minutes.

"To make a tough situation even worse, I was made Flight Commander this morning. It will be my responsibility to arrange schedules, check rolls, check out other pilots in the A 24 (Douglas Dauntless), head formations and also take all the 'Buck' from the C. V., etc."

Short Year!
Tourist—You say here in Florida you have 365 days of sunshine a year?

Guide—Well, that's a pretty conservative estimate!

Oak Bluff Breezes

This week the locust trees for which Caseville is famous are beginning to burst into bloom. When they are at their full bloom, they resemble wisteria blossoms excepting in color and from the County park through town and as far as Oak Bluff the trees are a mass of white flowers. This week end they should be at their best. As far as we know, Caseville is the only town in the state with this type of tree which blossoms so profusely and it would seem that the community should capitalize on this yearly event, such as Holland

It was nice to see the Knapps here Saturday opening their cottage. We hope they will soon be back to stay.

Mr. and Mrs. Arlo Johnson of Cass City were Sunday guests at the Vader cottage.

Mr. and Mrs. E. R. Wilson of Lansing came up Saturday evening with their new boat and launched it Sunday morning. It is a trim looking craft and as soon as they get more familiar with the operation of the motor and locate the best fishing grounds they should get a lot of pleasure out of fishing and boating this summer.

Mr. and Mrs. Don Sturm of Pigeon were here over Sunday and as soon as school closes will be here permanently.

Mr. and Mrs. Anderson of Pigeon have sold their grocery business and intend to live here in their cottage for the balance of the season.

The repairs on the Wurm cottage are progressing and it is their intention to be able to partly move in this week. It will take a few more days to complete all the new work.

The Larry Hutchinson cottage was open over the week end. Friends from Elkton were the occupants.

We seem to be in the midst of a spring drought. We have had no rain for the last three weeks and vegetation is beginning to suffer. Care should be taken with fires and smokers should exercise caution with cigarettes.

Caseville's patriotic women are working hard to equip a surgical dressing room and members of the beach colony are lending their assistance, hoping that later as more cottagers arrive they, too, will help with the work. We are glad to have the opportunity to help with the much needed production of dressings for which the coming invasion will make a great demand.

LOST—an opportunity, if you don't rush right out and buy your family the new breakfast treat, Post's Raisin Bran. Deliciously satisfying. Ask your grocer.—Adv. 18.
