Oak Bluff Breezes

After much consideration and discussion by the board of directors and the program committee, it has been decided to abandon at least temporarily the plans for a fiftieth anniversary celebration.

Due to war time restrictions on food and traveling and other uncertainties it is almost impossible to arrange a program which we consider suitable for the event.

The date on which this association was organized was Aug. 28, 1894, which date falls on Monday this year, a rather inconvenient day for the majority of members and their friends to be here—hence the decision of the committee.

Swimming at least twice a day seems to be the regular schedule of a good many during the past days of warm weather. The water has been particularly fine for bathing, especially after sundown, and helps a great deal in a pleasant comfortable night's rest.

In all the years we have been coming to Oak Bluff and all the summer nights we have seen here, Friday evening's electrical and astronomical display in the heavens was the most outstanding. The display of lightning across the bay from the approaching thunder shower, our first in three weeks, was very vivid but to add to this was an unusual exhibition of northern lights, also unseasonable.

To these two views was added the shower of meteors which was also almost awe-inspiring and almost comparable to the rocket or robot bombs which at the present are such an affliction to European people. Oak Bluff may have some shortcomings, but it also has its compensations, or as someone has said, "Ain't Nature grand?"

C. R. Todd of Grosse Pte. Farms spent Sunday at his cottage with Mrs. Todd, who is remaining for an indefinite stay. Mr. Todd will also return next week to complete his vacation from his work as an official in the Packard Motor Co.

Dr. and Mrs. P. A. Schenck were guests of Dr. and Mrs. Wickware Thursday and again on Sunday when Mrs. Charles Wilsey accompanied them.

Mr. and Mrs. A. J. Knapp entertained Rev. and Mrs. M. R. Vender over the week end, and Sunday evening both couples were at Bay Shore attending the Evangelical services at that place. From there the Venders visited in Bad Axe before returning to Cass City.

Mr. and Mrs. Karl Ketchum and son returned to Birmingham Saturday, while Mrs. George Ketchum is remaining for the balance of the season. She has as guests Miss Thompson of Detroit and Miss Uzzell of New York City.

Everyone has enjoyed renewing acquaintances with Mrs. Tibbets and Jeanette and it is with regret that we shall say good bye to them Saturday when they return to Royal Oak. We hope they will return next season.

The interior decorators have taken over the Wurm cottage this week and will soon have everything ready for occupancy. Lyman Gregory of Pigeon is in charge of final details. Mrs. Wurm has been in Bay City and Saginaw the past few days selecting furnishings, and on Sunday Dr. Wurm drove to Bay City, Mrs. Wurm returning with him. Now for the settling and housewarming.

Dr. and Mrs. Freeland of Vassar, friends of the Waltons, are occupying the Walton cottage for a few days.

By working Monday and Tuesday all day the local surgical dressings unit completed their large quota but will soon be busy on another order. The call for dressings is very urgent by the Red Cross and every community unit is being asked to do their maximum in production. Hereafter, work days are Thursday and Friday, one to five o'clock. "Fast work on slow time."

DETROIT EDISON LINES

Timely items concerning your electric service, suggestions about cooking, lighting and appliances, and many other things of interest and value will appear from time to time in "Edison Lines." Make "Edison Lines" a reading habit!

MAN-MADE WEATHER . . . Scientists haven't yet learned how to control the weather, but our Research Department has developed a machine that produces all four seasons of the year in just 24 hours. April showers alternated with sunshine, heavy rain-storms, freezing and thawing—all take place in cycles that are repeated daily. So when we want a paint that will stand up in all kinds of weather, or a plastic that won't warp out of shape if used outdoors, a sample is put in the "Weather-ometer." In 30 days' time it receives a buffeting equal to many years' service exposed to the elements.

TO TEMPT SUMMER PALATES . . . Our Home Service Department recommends this tasteful dessert:

Grapefruit Pie—Temp. 450 degrees, Time 15 min.

- ½ lemon (juice) 1 cup boiling water
- 1-1/3 cups grapefruit juice 3 eggs, separated (whites for meringue)
- ¼ cup sugar
- ¾ cup sifted flour 1 tbsp. butter

Combine all the ingredients with the exception of the egg whites. Cook on "low" heat until thickened. Pour into baked shell and top with meringue made of egg whites. For the pastry use a standard pastry recipe, substituting sweetened grapefruit juice for water. Bake pie shell.

A MILLION DOLLARS AN HOUR . . . Combat munitions—tanks, airplanes, guns, engines, gas masks, airplane flight instruments, gliders, jeeps, trucks and ammunition (to name only a few)—are produced at the rate of \$1,000,000 an hour in the Detroit area. Electricity is the lifeblood of this tremendous production, and there has been no shortage of power for the operation of these plants. Accomplishments of manufacturers in producing the weapons of war are outstanding. One of our customers makes the Bofors 40-mm. anti-aircraft cannon, and in one year increased his output of these guns more than 30 times—3,000 per cent. Using automotive production methods, he cut the assembly time for one of these guns from 450 man-hours—the best record abroad—to 14 man-hours.

HOME CANNING AIDS . . . "Which canning method should I use for fruits? Is the Cold-Pack method better than the Hot-Pack? Is it possible to can without sugar? What is the difference between the various kinds of jars and jar caps?" . . . Answers to these and many other questions may be had from our Home Service Advisor. Consult any Detroit Edison office.

Ravenous Birds
 Lewis and Clark, and other early explorers of the Northwest, complained of the difficulty they encountered in hiding their large game from condors, which could devour in an hour enough meat to feed a man for a month. It is only natural that under these circumstances the hunter's gun was frequently aimed at the condor, while a further incentive to its destruction was added during the gold-rush, by prospectors, who found the large hollow wing-quills convenient for carrying gold dust, lessening the fear of detection and theft when sewn into their clothes.

Plowing Desirable
 Soils on which erosion cannot be controlled should not be plowed or at least should not be left without protection for long. Where erosion can be controlled, however, soils should not be plowed more frequently than necessary, although on heavy, poorly aerated soils, more frequent plowing may be desirable. Air is needed in these soils so that chemically active oxygen may make available nitrogen stored there.

Obtain application from local rationing board for additional canning sugar up to 20 pounds per person. In mailing application back, attach SPARE stamp No. 37.

Stamp No. 33 good for five pounds after September 1 and remains good indefinitely.

Shoes.
 Airplane stamps Nos. 1 and 2 in Book 3 good indefinitely.

Gasoline.
 A-12 coupons good for 3 gallons through Sept. 21.
 B-3, C-3, B-4, and C-4 stamps good for 5 gallons until used.
 Make application for B and C renewal at least 10 days before rations are exhausted.

Fuel Oil.
 Period 4 and 5 coupons are good through Sept. 30.
 Return application for next season's rations as soon as received.
 New period 1 coupons for the 1944-45 heating year may be used as soon as they are received from local boards.

Tire Inspection.
 Be sure to keep your tire inspection records because OPA will continue to use them in the rationing program. Before you can get a ration certificate to replace a tire from your local board you will have to have your tires checked by an authorized OPA tire inspection station.

Hens' Vitamins
 Nearly 70 per cent of the vitamin A hens use will come from natural feeds: corn, alfalfa, green grasses, and other such items.

Flu and Grippe
 From a medical viewpoint, the terms flu and grippe are synonymous, says Dr. Rufus S. Reeves, Philadelphia director of public health, but the general public generally considers influenza as including along with the usual aching and elevated temperature, symptoms of running nose and sometimes a little sore throat and slight cough.

Good Ventilation
 Good ventilation of the sick room is important but the patient should be protected from a draft. A screen is a good device, if available, and can be used in a number of ways. On the drafty side of the bed hang a blanket over a line stretched from the head to the foot of the bed, or hang a blanket or sheet over a clothes rack. A piece of muslin may be tacked across the frame of the window at the opening.
