

## Boy 2 Months Old Lost His Life in Burning House

Ronald Lee, Son of Mr. and Mrs. John Wagner, Is Victim

Fire caused by the explosion of an oil stove claimed the life of Ronald Lee, two months old son of Mr. and Mrs. John Wagner, and burned the contents and interior of the house at 5:30 p. m. Wednesday. Mrs. Wagner had just lighted the stove to prepare supper. The fire department was called by neighbors but due to the intense smoke, it was a few minutes before the baby could be rescued from the burning house. The child was asleep in a carriage in a bedroom when the fire started. Dr. B. H. Starmann rushed the baby to Pleasant Home hospital, but it was dead on admittance.

The fire department was called twice after the first alarm—at seven o'clock Wednesday evening and at four o'clock Thursday morning—when it was discovered that the house was still burning. The building was the property of Geo. Burg.

Ronald Lee Wagner was born July 20 in Pleasant Home hospital here. He is survived by his parents, a brother, Arnold, and a sister, Marilyn.

The remains were taken to the Douglas funeral home. Funeral services will be held Friday.

## Ward Walker Named On Co. Draft Board

Ward Walker of Caro, former clerk of Indianfields township, has been appointed a member of the Tuscola County Draft board to fill the vacancy caused by the resignation of J. N. McAlpine of Fairgrove several months ago.

George F. Jeffrey, another member of the board, submitted his resignation to selective service headquarters in Lansing, he announced last Thursday. He is serving until his successor is named.

E. B. Schwaderer of Cass City is the only one of the three of the original board appointed in 1940 who retains his membership.

## Tin Pick-up in Tuscola County Next Week

The next tin pick-up for Tuscola county has been scheduled for the week of September 25 to 30. Tin is still a very vital metal ranking second only to paper in importance at the present time.

In the county's last pick-up there was collected approximately thirteen tons, which was by far the most successful, the previous record being seven tons. Naturally officials are using the same methods again, hoping that they may get the same percentage of increase that they did in the April pick-up, which would mean a carload.

## Cass City Plays at Vassar Tonight

The Cass City football squad, composed of 55 players, has been conditioning for the past three weeks in preparation to journey to Vassar and meet the Orange and Black under the lights on Friday, Sept. 22. This meeting opens the 1944 grid campaign for both schools. Game time is 8:00.

Coach London announces the following players as probable starters against Vassar: Ends, Bill Marshall and Charles Auten; tackles, Harry Wright and Cecil Martin; guards, Clare Kenney and Merle Hoag; center, Jim Champion; backs, Frank Kloc, Bob Foy, Dick Root and Whitey Strickland.

The Redhawk line carries an average weight of 160 pounds while the backs average 155 pounds. Of the 55 boys, 35 will make the trip. Those scheduled to go, besides the eleven mentioned above, are: Ends, C. Dewey, J. Moore, J. Jones, J. Hewitt; tackles, L. Ball, R. Vyse, C. Giroux, D. Little, W. Fredricks; guards, C. Buehrly, A. MacPhail, W. Thane, A. J. Murray; centers, G. McArthur and B. Zenne; backs, K. Weatherhead, K. Willerton, R. Frederick; B. Sangster, G. Glaspie, B. Weatherhead, L. Hillaker, A. Asher, D. Kettlewell.

Cass City's first home game will be Thursday, Sept. 28, against Saginaw Arthur Hill "B."

Suits and Topcoats. Full line of suits and topcoats; also made to measure orders taken. Priesskorn's.—Advertisement.

## Graduate Nurse

Miss Kathleen McCallum daughter of Mrs. Gertrude McCallum of Lapeer, has completed her nurse's training and will be graduated from the Hurley Hospital School of Nursing in Flint today (Friday). She is a member of the Class of 1941 of the Cass City high school.

## \$87,390 in Primary Money Is Paid to Tuscola Schools

Payment Is Made on the Basis of \$9.00 for Each Child of School Age

Primary school money to the amount of \$87,390 has been received by County Treasurer Arthur M. Willis for the several school districts of Tuscola county. This is the first primary money payment this year and represents \$9 for each of the 9,710 children of school age in the county.

High school districts have the following number of children and will receive the following amounts:

Children	Amt.
Akron	149
Unionville	218
Reese	169
Cass City	407
Gagetown	155
Fairgrove	127
Mayville	213
Caro	829
Kingston	128
Millington	275
Vassar	694
Fostoria	108

Checks for the primary school money and for the library money are being sent to school treasurers from the office of County Clerk Fred Mathews. The library money is paid on the basis of 26 cents per school census child. The total for the county is \$2,326.43.

The next primary money payment amounting to approximately \$4 per child is expected in November.

## Fellowship Award For Dr. F. L. Morris

Dr. Frank L. Morris, Cass City, will be awarded a fellowship in post-graduate medicine by the Michigan State Medical society at the annual meeting in Grand Rapids Sept. 26-28. The fellowship is given for attendance at post-graduate courses sponsored by the state society, the Michigan Department of Health, and the medical schools of the University of Michigan and Wayne University.

## Prosecutor Tells Whys for Law Quirks

Attorneys ask and judges sometimes grant what to those outside of the legal profession seem unreasonable grants in the way of judgments, both in criminal and civil court cases. Just why these quirks in law are made was explained to some extent by Prosecuting Attorney Timothy Quinn of Caro, who was guest speaker at the Rotary club luncheon here Tuesday, when Mr. Quinn related several examples in which deviations from the regular course in legal administration were taken. He gave both the history and rule for the reason of the actions.

Mr. Quinn was introduced by E. L. Schwaderer, program chairman for September. Willis Campbell led the group singing, with Miss Betty Hower as piano accompanist.

Staff Sergeant Wilford W. Jeddo, just returned from two and a half years of service in Italy, was a luncheon guest.

Dugald Krug and Herman Doerr are the committee named to arrange for the club's annual pheasant dinner in October.

## Caro Lad, 8, Drowned in Cass River

Robert, eight-year-old son of Mr. and Mrs. Orel Chambers, of Caro, was drowned at about 1:30 p. m. on Tuesday in a favorite swimming hole for Caro youth, in the Cass river, near the eastern village limits of Caro. The water at that place is 10 feet deep. The body was recovered by Cecil Greenfield with his boat and dragging irons, two hours after the tragedy about 30 feet from shore.

Two boys had apparently gone to the river, nearly a mile from their homes, without the knowledge of their parents. Robert had evidently been trying to swim since he had removed his clothing.

## \$150 Stolen Twice Accused Woman Says

Mable Bradd of Chesaning, charged with the theft of personal effects and \$150 from a Vassar home where she was employed, pleaded guilty to grand larceny Wednesday in the Tuscola county circuit court. The money was in the woman's possession but a short time, for the next day after the theft, when she was picked up by a man had stolen it from her.

Judge George Desjardins ordered a mental checkup before passing sentence.

## Gavel Club Plans To Sponsor Toy Building Project

Glenn McCullough was program chairman for the Tuesday evening meeting of the Gavel club and called on several members to relate their most unbelievable experiences. C. M. Wallace was voted the champion liar and awarded a trophy. Preceding this contest, Harold Oatley gave a few minutes of instruction in making different kinds of motions, in counting votes and in disposing of motions.

The program committee was requested to prepare a program which will be presented at a meeting of the Rotary club at an October meeting, in response to a request of Dr. P. A. Schenck.

The club decided to present each outgoing president of the club with a gavel with his name inscribed thereon and a committee composed of H. C. Munro, Leonard Urquhart and Dr. Don Miller was named to take care of that matter.

The members voted to sponsor a toy building project again for Christmas as a means of raising money to be donated to the hospital fund. The committee in charge of this project are Ed Baker, C. L. Burt, Russell Leeson and Watson Spaven.

Dr. MacRae was appointed toastmaster for the next meeting and Lester Ross for Oct. 3. Every club member was present Tuesday evening. Guests were John West and Warren Wood.

## Rev. Kenneth Bisbee Is New Methodist Minister in Cass City

A permanent minister has been assigned to the Cass City Methodist church to fill the vacancy caused by the resignation of Rev. Dudley C. Moore, who has entered the Army as a chaplain. The new pastor is Rev. Kenneth Bisbee, who comes here Oct. 1 from Menominee. He is a graduate of Yale university and is highly recommended.

Rev. Joseph Gregory of Caseville, who has filled the pulpit in the local Methodist church during the summer months, will preach his last sermon here next Sunday.

## Miss Price Wins MSC Scholarship

Miss Kathryn Price, daughter of Mrs. G. W. Price and a 1944 graduate of Cass City high school, left Saturday for East Lansing where she will begin a course at Michigan State college. She will participate in the orientation program for freshmen this week and will live at Mason hall.

Miss Price has already distinguished herself by winning one of the 64 scholarships offered by the alumni association to outstanding high school graduates in the state of Michigan. The scholarship represents the tuition fee of \$40.00 per term and may be continued through the entire college course of 12 terms if high scholastic standards are maintained.

The final selections for these scholarships were determined last spring after candidates had taken a comprehensive examination given by the faculty committee on scholarships at the college. Students who competed in these examinations were in the upper one-third of their respective classes and were among the leaders in extra-curricular activities in their schools. A minimum of one award was made in each senatorial district in the state. Miss Price's success in winning one of these scholarships brings honor not only to herself but to the local school.

Mrs. Price and her mother, Mrs. Anna C. Holmberg, accompanied Miss Price to East Lansing Saturday. Mrs. Price returned Sunday, but Mrs. Holmberg remained to visit relatives in Lansing.

## Presbyterian Guild To Send Gifts to Honor Roll Members

Officers who were elected several months ago to serve the Presbyterian Guild assumed their duties at the first meeting of the fall and winter season on Monday evening. New officers are: President, Mrs. H. T. Donahue; vice president, Mrs. E. Hunter; secretary, Mrs. Curtis Hunt; treasurer, Mrs. B. F. Benkelman, Jr.

The meeting in the church began with a potluck supper at 7:30 p. m., followed by a short business meeting. Rev. Melvin Vander addressed the group and Mrs. Arthur Holmberg, chairman of the devotionals, two piano numbers were given by Miss Jeanne Profit and three selections by a trio, Mrs. Ethel McCoy, Mrs. B. H. Starmann and Mrs. Harriett Curran.

During the business meeting, the society voted to send Christmas boxes to men and women on the honor roll of the church.

## Romney Horner Killed in Action in France August 30

His Parents, Mr. and Mrs. Robert Horner, Informed Wednesday

Mr. and Mrs. Robert Horner of Deford were informed in a telegram from the war department Wednesday that their son, Technician Fourth Grade Romney Horner, had been killed in action on August 30 in France. He was 30 years of age and was graduated from the Cass City high school in 1932. He was inducted into the Army two years ago and had been overseas six months.

Surviving are his parents, three brothers, Keith of Flint, Audley of Redford and Lewis at home, and three sisters, Mrs. Marian Rickwalt and Mrs. Maxine Graham, both of Caro, and Mrs. Edna Wethers of Buffalo, New York.

## Deford Lad Makes \$350 on Acre's Crop

From Deford correspondent. Duane Warner, 12 years of age, has been a busy lad this summer. He has planted, cared for, and picked, nearly an acre of cucumbers which brought him more than \$350.00. The price of cucumbers this year has been exceptionally high here, \$8.00 for the best. Strong competition raised the price. During the past week, one company stopped buying and the price dropped down immediately.

## Special Observance Of 'V-Day' Is Urged

Rev. W. H. Watson of the state administrative council of the Evangelical church, representing the Michigan conference, announced that by action of the council the more than 180 congregations of the conference are urged to make special observance of "V-Day." President Watson stated, "It is the unanimous feeling of our administrative council that this important day should be properly recognized and observed by all our churches. There is no group of people more interested in the day peace comes to a war torn world than the Christian citizens of our community. The church should certainly not be behind business and industry in taking cognizance of this day."

Each church is advised to plan its own program but the council suggests keeping the churches open for prayer and meditation and for services of praise and thanksgiving. The joining with other community celebrations should be given serious consideration. The Evangelical church has more than 14,000 members in Michigan and a constituency well above 20,000. About 2,000 young men and women from the churches of the conference are in the armed services.

## CHURCH FAMILY NIGHT SUPPER AND PROGRAM

Families of the Presbyterian church will gather at the social rooms of the church on Thursday evening, Sept. 23, for "food, fellowship, fun and faith."

The evening will begin with a potluck supper at seven o'clock. Those attending are requested to bring their own table service. Mrs. Edward Golding is supper chairman. The serving will be cared for by the men, with Jas. A. Milligan as head waiter.

A varied program will follow with Arthur Holmberg presiding. It will include group singing, a devotional led by the pastor, responses by several leaders on the evening theme: "Our Church and the Spiritual Advance Program." Other features of the evening will be special music, greetings and movies.

Put Pears into Your Canning Schedule (See Recipes Below)

### Relish With Meals

These later summer months find the markets still dotted with fruits that make wonderful jams and relishes. Those of you who want that extra special something to add to your meals during winter will want to take advantage of the crops and put them up in various forms. Most fall fruit is sweet and requires little of precious sugar in the preserving. Making them into jams, butters or marmalades will give you the joy of having the fruit instead of just the juice.

Pears made into jam or honey have long been favorites throughout the nation, and these are recipes I know you'll like. Commercial pectin assures you of success in making the thick, jellied consistency, and miraculously gives you more jam than you dreamed possible out of a small batch of fruit.

**Ripe Pear Jam.**  
(Makes 8 six-ounce glasses)  
3 1/2 cups prepared fruit  
4 1/2 cups sugar  
1 box powdered fruit pectin

To prepare fruit, peel and core about 2 1/2 pounds fully ripe pears. Crush thoroughly or grind. Measure sugar into a dry dish and set aside until needed. Measure fruit into a 5 or 6 quart kettle, filling up last cup or fraction of cup with water, if necessary.

Place over hottest fire. Add powdered fruit pectin, mix well and continue stirring until mixture comes up to a hard boil. Pour in sugar at once and continue stirring until mixture comes to a hard boil. Pour in sugar immediately, stirring constantly. To reduce foaming, 1/4 teaspoon butter may be added. Continue stirring, bring to a full, rolling boil and boil hard 1 minute.

Remove from fire, skim, pour quickly. Paraffin hot jam at once. The peach crop is good this year. Peaches and oranges are a delightful combination with just a suggestion of lemon:

**Peach-Orange Marmalade.**  
2 dozen large peaches, peeled  
6 oranges  
Juice of 1 lemon  
Sugar (as much as fruit)

Cut the peel from three of the oranges into pieces. Cover with water and boil until tender. Drain and grind. Cut peaches and oranges (discard peel of other three) into thin slices and add lemon juice. Measure and add 1/2 of the amount of sugar. Boil rapidly until thick and clear. Pour into clean, hot jars and seal.

Spiced crabapples are good accompaniments for meats. In fact, when you serve meat with a relish such as this, it will even seem to stretch a small meat course:

### Lynn Chambers' Point-Saving Menus

- Fried Chicken
- Green Beans, French Style
- Lyonnaise Potatoes
- Chiffonade Salad
- Cloverleaf Rolls
- Blueberry Pie
- Beverage

- Spiced Crabapples.
- 3 pounds crabapples
- 3 pounds sugar
- 3 cups vinegar
- Stick of cinnamon
- Cloves

Take blossoms off the crabapples, but leave stems on them. Steam apples until tender, not soft. Boil vinegar, sugar and spices for 15 minutes. Skim and put in fruit. Boil apples about 5 minutes, not allowing skins to break. Seal in hot, clean, sterilized jars.

### Pear Butter.

Wash, pare and core ripe pears. Add just enough water to prevent sticking. Cook until soft, then press through a sieve. Add 2 tablespoons lemon juice, 1/4 teaspoon nutmeg and 1 cup sugar to each quart of pulp. Boil rapidly until thick. Pour into hot, sterile jars. Process 10 minutes in a hot water bath.

### Pear Honey.

Pare, core, chop and measure hard-ripe pears. Add a little water if necessary to start cooking. Boil 10 minutes. To each quart of chopped pears, add 3 cups sugar, juice of 1 lemon, grated rind of 1/2 lemon and 1/4 teaspoon ground ginger. Boil until thick. Pour into hot, sterile jars; seal at once. Orange and nutmeg may be used instead of lemon and ginger.

Quinces and apples are a good combination in this marmalade:

### Quince-Apple Marmalade.

Pare, core and chop 6 quinces and 3 tart apples. Cover quince with water and cook until tender. Add apple and cook 10 minutes. Measure. Add 1/2 cup sugar for each cup of fruit and juice. Boil to jellifying point. Pour into hot jars and seal at once.

Tomatoes spiced with lemon, cinnamon and ginger root are a splendid accompaniment to many meals. You'll like the rich, red color of them, too:

### Tomato Preserves.

- 2 pounds tomatoes
- 4 cups sugar
- 1 1/2 cups water
- 1 lemon
- 1 stick cinnamon
- 2 pieces ginger root

Use small, firm tomatoes. Scald 1 minute. Dip into cold water. Skin, but do not core. Combine sugar, lemon, sliced thin, cinnamon and ginger and simmer together 20 minutes. Remove cinnamon and ginger. Add tomatoes and boil gently until they are bright and clear. Cover and let stand overnight. Pack cold tomatoes into hot sterile jars. Boil syrup until as thick as honey and pour over tomatoes. Process 15 minutes in a boiling water bath at simmering.

### Ranch Preserves.

Soak dried apricots or peaches overnight in water to cover. Drain. Measure fruit. For each quart, make a syrup of 3 cups sugar and 1 cup water in which fruit was soaked. Boil 5 minutes. Cool. Add fruit and cook until thick and clear. If syrup becomes too thick before fruit is done, add 1/2 cup water. Pour into hot jars and seal at once.

If you wish additional instruction for canning fruit or berries, write to Miss Lynn Chambers, 210 South Desplaines Street, Chicago 6, Illinois. Please enclose stamped, self-addressed envelope for your reply.

## ALL SMALL NATIONS MUST BE GIVEN VOICE

WASHINGTON.—The Democratic senators chattered choruses of denunciation at Governor Dewey upon his demand for small nations' protection in the postwar world—then suddenly they went quiet.

Tom Connally, their foreign relations chairman, had said at first that Dewey had staged a luftwaffe attack upon the Dumbarton conference. A few days later he was beaming benignly upon the Republicans, and saying in a senate speech they had been exceptionally cooperative on foreign policy.

The change is attributable to State Secretary Hull. Mr. Hull was the first to realize—indeed he seems the only one now firmly to insist—that a peace imposed by a majority will not endure even among the United Nations; that the opposition will one day get into power here, perhaps soon; that unity at home as well as among the nations of the world is essential if anything constructive is to eventuate. He has been the leading force for restraint in an emotional world debate.

## KEEP ON HIGH PLANE

But the matter is constantly being pushed off the plane he wants, into politics and confusion. Comes now the Foreign Policy association, for instance, thinking to defend him against Dewey.

In an involved and circuitous collection of assertions, it seems to conclude Dewey is wrong and small nations can only be protected through domination by the big four powers.

Furthermore, two columnists who are supposed to be outstanding international experts, have entered a radio debate which whirrs the whole issue into vortex.

The ousted Hull assistant, Mr. Welles, and Mr. Hull's constant kibitzer, Mr. Lippmann, (whose recommendations on international affairs have never been followed by any government in any instance as far back as my memory runs though he sells them to the public three times a week and in books annually)—these two, as I say, have become hopelessly involved in such technicalities as the respective degree of sovereignties of Japan and Germany in postwar.

These developments take a simple proposition and stretch it to monstrous incongruities. The proposition, before all these stretchmen took hold of it, was and still is this: PROTECTION OF SMALL

Dewey urged that the interests of small nations be better protected and suggested a specific way to do it. He recommended that the Dumbarton Oaks conference keep the military world setup separate from economic agreements. He and Mr. Dulles, in their conferences, started searching for a way in which small nations would not be over-ridden by the power of the Big Four, and they hit upon this formula.

Their reasoning is rather obvious. A small nation is a small nation and no one proposes to make them all big. The military might of the world will remain, after the war, largely with Russia and the United States, not even with Britain and China. No peace can change that.

Also Russia and the United States will have the greatest political power in the world. This is a fact of geography, industry, raw materials, manpower. It cannot be altered by the peace either.

Now Mr. Hull proposed to protect the small nations by safeguarding their sovereignty. This is largely a negative guarantee, but a powerful one. It would transfer the American conception of individuality to the world.

No private telephone or back-office appendages were involved in the Hull-Dewey front page jockeying on world peace. The participants spoke all they had to say in headlines, but the refined politics, the subtle parry and thrust, were neglected in the reports, although these established Dewey in a new international character and will be of inestimable importance in the campaign.

The administration's campaign policy has been to play Dewey to the public as a barefoot boy in international affairs, without experience or ability for leadership. To tear down this conception has been a most difficult technical task.

Hull proposes there will be no monopoly of raw material and economic and financial domination by the Big Four, but Dewey says this Hull hope is too vague (indeed financial domination already has been hinted by the Bretton Woods conference, although the oil agreement might possibly develop more in line with Hull policy).

Dewey goes farther and says the Hull way will not be effective, that a more certain way to accomplish the result is to keep the arrangements for world security separate.

I'm worth more to my boss now that he's installed a SCHULTZ ELECTRIC MILK COOLER

Schultz Electric Coolers quickly cool my milk—and keep it cool thus insuring my boss the full butter fat test I have worked so hard to produce. Schultz Coolers also halt bacteria growth and make my milk more salable.

Schultz Electric Coolers operate on the floating ice principle without the need of a circulating pump of any kind. They effectively reduce labor costs; keep the right's milk under 40°. Sizes to cool from 2 to 12 cans at one time. Easy payment plan can be arranged. See us today for further facts and prices.

FINER QUALITY AT LOWER PRICES FROM COAST TO COAST

**Lynn Says**  
Popular Choice: You'll like fried chicken if it's dipped in cornflakes instead of bread crumbs for a change.

Cottage cheese molds nicely when mixed with garden green onions, radishes, diced green pepper and seasonings. Serve on lettuce for a luncheon treat.

Bread Pudding: Try it with brown sugar instead of white for a different touch. If you make it plain with raisins, try a lemon custard sauce.

Scrambled Eggs on the menu? Serve with jelly, sauteed chicken livers or french fried shrimp. All are combinations hard to beat.

Au gratin vegetables: Cabbage, cauliflower, potatoes and tomatoes. For a topping try crushed cereal like cornflakes with butter.

Poles Fight for A Free Country

Bar 'London Traitors' From Postwar Democracy They Are Planning.

MOSCOW. — The Polish soldiers fighting beside the Russians for the liberation of their country have with rare exceptions, very definite ideas on the postwar organization of Poland, which they insist must be democratic in form and untouched by the "London traitors" of the emigre government.

The Poles said: "We want a democratic Poland and we oppose collectivization. We want the big landed estates broken up and the land distributed among the peasants. We are grateful for the Red army's fight to liberate our country, but we oppose interference with Poland's domestic affairs. We desire nationalization of big industry, big business and banks, but small industry and small business must remain in private hands."

Primarily Peasants. The group of visitors was composed of Oscar Lange, professor of political economy of the University of Chicago, who is touring Russia as a guest of the Soviet government, and five correspondents, four of them American and one British, Berling, who is commander of Polish forces on the eastern front, and his political officers, as well as one high Soviet officer, accompanied us on our visit.

The soldiers were questioned by Lange in Polish, with correspondents' questions relayed through him as interpreter. The majority of troops questioned came from Poland's eastern provinces or east of the Curzon line. They were primarily peasants. There were only small groups of industrial workers and practically no intellectuals.

Want Expansion Westward. The desire that a provisional government including all liberal elements should be created as soon as the first important Polish city is occupied, and that a constituent assembly should be convoked and general elections held to determine the form of the new Polish state.

When asked what they thought about the Curzon line, the men invariably replied that an arrangement could be made concerning territory claimed by two powers. When they were asked about the disputed territory of Teschen, their reply was to the effect that some deal should be made with the Czechs, who claim the area.

All the Poles supported the idea of Poland's expansion westward at the expense of Germany, and asserted that the German populations of East Prussia, Silesia and Pomerania should be deported.

Meanwhile, Russian and Polish of fcers recently arrived from eastern Poland said that bands of Ukrainian Nationalists, armed and led by Germans, have been roaming the forests of the western Ukraine, terrorizing and massacring the Polish population.

American Flier Shoots 40-50 Running Germans

LONDON.—Forty to fifty German soldiers were wounded or killed while they were running to man anti-aircraft guns when a Mustang pilot made a one-man bombing and strafing attack on an enemy airfield in northern France, a United States ninth air force announcement said.

"I was about fifty feet off the ground and moving about 450 miles an hour as I came in opening fire," Captain Turner related. "Forty to fifty Germans slumped to the ground and the rest scattered."

Yes, you counted right! There are six A-13 coupons in your new A gasoline ration book—six A-14's, six A-15's, and so on—instead of eight as in your old book. But you also note that each coupon is worth four gallons instead of three. Therefore your A ration is exactly the same as it has been. You have twenty-four gallons every three months. Your six A-13 coupons are valid for three months from September 22 through December 21.

### SERVICE NEWS

The address of Pvt. Mildred G. Fritz, A-708531, is WAC Det, APO 7996, c/o Postmaster, San Francisco, California.

Mr. and Mrs. John Tebedo received the news that their son, Pfc. Robert Tebedo, was wounded on Aug. 21. He is somewhere in France.

Pvt. Harold C. Vader, who has been at Camp Joseph T. Robinson, Arkansas, is now at Fort George G. Meade, Maryland.

Pfc. Vern W. Crane has notified the Chronicle that he is now located at Plant Park, Tampa, Fla. He was formerly at Kingman Army Air Field, Kingman, Arizona.

Alexis Hamman, F 2-c, and C. Dan Whelan, F 2-c, both of the Naval Armory of Detroit, were week-end guests of the latter's sister-in-law, Mrs. Patrick Whelan, and her mother, Mrs. S. A. Bradshaw.

Pvt. Dean Anker left Monday, Sept. 18, for Camp McCoy, Wis., after spending an 11-day furlough at the home of his parents, Mr. and Mrs. Wm. Anker, near Gagetown. He has completed his basic training at Camp Roberts, California.

Has the service man in your family had a recent change of address? The directory in the Mac & Scotty windows is being revised and this is the time to notify them if an address change should be made.

Pvt. John F. Orr of Childress, Texas, returned to his station on Sept. 21 after spending a 10-day furlough with his parents, Mr. and Mrs. Robt. H. Orr, at Pigeon. He and his sister, Marjorie, spent Wednesday at the home of their grandparents, Mr. and Mrs. W. D. Striffler.

Three more Cass City boys are now receiving their mail through an Army post office in New York City. They are: Pvt. Cecil Whitaker, who was formerly stationed at Fort George G. Meade, Md.; Pvt. Wayne Dewey, who was transferred from Indiantown Gap Military Reservation in Pennsylvania; and Sgt. Glen Hartwick, who was located at Fort Bragg, North Carolina.

Mr. and Mrs. Raymond Kerbyson have received an especially interesting letter from Pvt. Arthur P. ("Tom") Dewey from somewhere in France. The letter is dated August 27 and reads as follows:

"How's everybody these fine days? Am just fine myself and really ashamed for not writing sooner. I have received four or five letters from you folks, but I guess you'll forgive me after you know where I am.

"We are on a short rest period now—the first we've had since we've been in combat. I can't tell you how long we've been here but I sure have seen plenty. It isn't going to last much longer, I hope. "I suppose by now you've heard all about the big push and all the towns and cities we have liberated. It was quite tough at times but

the French underground sure have been doing a great job. The French people are very nice. When we took over a town, they would almost cover the vehicles or jeeps with flowers. It's hard to speak French, but we have a book that we can show them to find out what they are talking about.

"I just can't explain how happy they were to see us American soldiers. They give us milk, all kinds of fruit, fresh eggs, bread, butter and lots of other things. They'd give their shirts off their backs. The people are so much different from the English. They're one big happy family—not independent like the English.

"The country really is beautiful, just like back home. It's nice and hot in the day time and cool at night. It seems good to get away from the damp and foggy England. They have beautiful farms here and grow lots of all kinds of grain but I haven't seen much corn. Their cattle and horses are fat; I guess the Germans were planning on a big harvest this fall, but they're running so fast they leave most of their equipment behind. I've never seen such big apple orchards. They make a lot of cider and cognac from the apples.

"I hope to see Paris soon but I can't tell just how far away from there we are. Maybe the next letter will tell you all about it; I hope it is all over by then.

"It sure seemed good to take my clothes off and take a good bath. I feel like a new man. I hadn't taken my shoes off in over two weeks, but those Jerry's were running so fast most of them ran right out of their shoes—those that weren't killed or taken prisoners. "I never saw so many young kids as they use for soldiers—around 16 years old—but they put up a good fight. The snipers from trees are the worst; it's hard at times to locate them.

"The medics have been doing a wonderful job in this war, especially by giving blood plasma right up at the front. Many lives have been saved.

"I hope Gerald gets home soon. Tell all the folks that I said hello. I'll close for now before Jerry comes over."

### COUNTY BREEDERS TO SELL IN BEEF SALE

Three Tuscola county breeders are consigning three of the forty-three purebred beef and dual-purpose animals that will sell in the sixth annual Lapeer beef sale on October 6.

They are James Milligan, Cass City, Shorthorn bull; Alfred Goodall, Cass City, Angus bull; Henry Lynch Estate, Mayville, milking Shorthorn heifer.

Wear Faster Rear "drive" tires wear faster than front tires.

### CASS CITY CHRONICLE Published every Friday at Cass City, Michigan.

The Cass City Chronicle established in 1899 and the Cass City Enterprise founded in 1881, consolidated under the name of the Cass City Chronicle on Apr. 20, 1906. Entered as second class matter at the post office at Cass City, Michigan, under Act of March 3, 1879. Subscription Price—In a year in advance, to other parts of the United States, \$2.00 a year. For information regarding newspaper advertising and commercial and job printing, telephone No. 13 R 2. H. F. Lenzer, Publisher.

Mending Screen Small holes in fly screens can be mended by cutting a square patch of screen cloth slightly larger than the hole itself. Ravel out a couple of strands from each edge, leaving about one-quarter inch of the strands clear all the way around the patch. Bend these strands at right angle to the patch, center the patch over the hole, and press the bent wires through the screen. Now clinch these ends inward toward the hole, to hold the patch in place.

Leave Skins On When skins are tender, scrub and serve these vegetables with the skins on: summer squash, cucumbers, carrots and tomatoes. Leave skins on apples for salads, fruit cups and applesauce.

# Get Ready for the Tin Can Pickup

## Week of Sept. 25 to 30

The war is going well for us—BUT IT'S NOT OVER YET !!

After Germany is licked—then come the Japs !

Tin is vitally needed for many war purposes. THAT TIN YOU HAVE IN YOUR HOMES, IN THE FORM OF TIN CANS, IS NEEDED—NOW !

A pickup will be made in Tuscola County during the week of September 25 to 30.

In rural areas, take the cans to your schoolhouse. Villages each have a chairman who will see to the collection. County Road Commission trucks will pick up the cans and bring them to Caro for shipment.

Prepare cans by removing paper labels, washing, folding in the tops and bottoms, and flattening cans by stepping on them !

THIS IS A VITAL WAR SERVICE !  
DO YOUR PART ! WE'RE DEPENDING ON YOU  
—AND YOU—AND YOU !!

Newsworthy quotations from Michigan people in the news:

"I know this is not a personal welcome. Many of you have moved here since I went away. So I know that you must be here because I have the grandest mother in the world and you came out here simply to pay tribute to her son."—Governor Thomas E. Dewey at Owosso homecoming.

"The Chinese people have had dictatorships for 3,000 years. They will continue to have them."—Dr. George Shepherd, former personal adviser to General Chiang Kai-shek.

"None of the men I have appointed sought appointment."—Governor Harry F. Kelly in naming Thomas A. Kenny, his legal adviser, and two others to Wayne county judgeships.

"Michigan's liberalized 1943 workmen's compensation law has resulted in twice as speedy payments to injured workmen."—Mrs. Betty W. Allis, chairman of the State Workmen's Compensation commission.

"When peace comes, it is not merely a matter of turning off the war spigot and turning on the peace spigot. Without advance planning and preparation, nothing will come out."—C. E. Wilson, president, General Motors corporation.

"Control of industrial water pollution has lagged sharply during the war. The problem is of special significance in Michigan because of the necessity of safe recreational waters, particularly in proximity to urban and industrial centers where sources of pollution are most numerous."—Milton P. Adams, secretary-engineer of the State Stream Control commission.

"If carnivals could be limited to such recreational advantages as rides and clean entertainment, with the elimination of gambling and questionable shows, they might be of some value."—Probate

Funeral services for Mrs. Frank Albert Townsend, 46, wife of a Decker barber, were held in the Latter Day Saints church at Shabbona Tuesday at 2:30 p. m. Rev. Mr. Booth of Sandusky officiated and burial was made in Elkland cemetery. Mrs. Townsend had been ill for the past year and a half and passed away early Sunday in the home of Mrs. Christina Wells here, where she had been cared for the past two months. She was a member of the Shabbona church from which funeral services were held.

The former Miss Mary Alice Proctor was born May 28, 1898, in Evergreen township. On Feb. 24, 1920, she was united in marriage with Frank Albert Townsend.

Surviving are her husband; two daughters, Mrs. Frances Cowley of Applegate and Ann at home; a son, James, at home; three brothers, John, Reuben and Edwin Proctor, and her father, Anson Proctor, all of Pontiac; and an aunt, Mrs. Lola Ehlers, of Decker, with whom she made her home for several years prior to her marriage.

Funeral services were held Sunday afternoon at two o'clock in the Latter Day Saints church in Onaway for Mrs. Rocksey Ann Beers, 83, who died Friday at the home of her son, Henry Tate, in Cass City. Elder Burt officiated at the services and burial was made in Onaway cemetery.

Mrs. Beers, the former Miss Rocksey Ann Nelson, was born Sept. 16, 1861, at Lexington, Mich. For the past nine months she has made her home with her son, Henry Tate. She had been ill for a number of months.

Surviving are her son and a number of grandchildren. She was a member of the Onaway Latter Day Saints church.

The remains were at the Munro funeral home until they were taken to Onaway Friday.

Patients in Pleasant Home hospital Wednesday afternoon were: Miss Mae Bristol, Mrs. Michael Cottick and infant son of Caro; Mrs. Mary Peet of Kingston; Mrs. Muriel Swales of Clifford; Clemens Kappen of Flint; Chas. Cramer of Fairgrove; Mrs. Elizabeth Gludovetz of Unionville; Miss Ethel Warx of Akron; Mrs. Dorothy Burrows of Deford; Mrs. Leland Hartwell and Baby Harold Becker, both of Cass City.

## Navy Asks Boys and Girls for Help in Harvesting Floss

The Navy needs milkweed floss to replace kapok in life jackets. "Pick milkweed pods" is the appeal of Rear Admiral E. L. Cochrane, Chief of the Navy Department's bureau of ships, to "American boys and girls who want to save the lives of American fighting men, who want a specific war job to do, who want to contribute directly to victory." Milkweed pods are ready for picking in most states sometime in September. Open-mesh bags will be distributed through schools, 4-H clubs, Boy Scout troops and other youth groups. Twenty cents a bag will be paid for picking and drying the pods.

Mrs. Margaret Petherly, Pontiac, has recently been called upon to serve as district supervisor of the milkweed pod collecting program of War Hemp Industries, Inc. She will, with the assistance of the county agricultural agents, county school commissioner, county war board chairman, Scout leaders and others, arrange for the collection of milkweed pods. During the coming fall, the U. S. government has requested for manufacture of life jackets for the Army and Navy 1,500,000 pounds of floss which will require 2,500,000 fifty pound onion bags full of pods. Children will collect possibly 95% of all the milkweed pods that are collected. Last year they did splendidly in getting underway. However, this season, with an ample supply of empty bags available before school began and all necessary organizational details well in hand, the program of harvesting can be considered as "in the bag," so to speak.

It requires the floss from two bags of pods to make one life jacket. With so few American homes not having contributed men and women to the task of an early victory and lasting peace, every school-age youngster should feel a personal responsibility for collecting at least enough pods to make one life jacket and as many more as it is possible to get.

There will be buying stations conveniently situated throughout the county and the locations will be announced later. It will be possible to sell the freshly picked pods for 15c an onion bag full; or if the bags of freshly picked pods have been hung on fences in bright sunlight for a long enough time to become "crackly" dry, they will then be worth 20c a bag. You cannot collect too many bags of pods.

Please address all inquiries on the program either for bags or information to the district supervisor or inquire of your county agricultural agent, 4-H club leader, school teacher or county war board chairman.

The county committee are B. H. McComb, Charles B. Eckfeld and Norris W. Wilber.

## Elmer A. Atwell Died Here Last Thursday

Elmer Andrew Atwell, 81, a resident of Cass City for many years, died at the home of his daughter, Mrs. Nelson Harrison, Thursday afternoon, Sept. 14, following a lengthy illness.

Mr. Atwell was born June 13, 1863, in Lapeer county. He was a carpenter by trade and a member of the Baptist church.

He leaves two daughters, Mrs. Harrison and Mrs. Martha McLarty of Clarkston; a son, Russell, of Birmingham; a sister, Mrs. Joseph Frutchey, of Saginaw; and a brother, Arthur Atwell, of Cass City.

Funeral services were Saturday afternoon at two o'clock at the home of his daughter, Mrs. Harrison. Rev. Arnold Olsen, pastor of the Baptist church, officiated and burial was made in Elkland cemetery.

## Steel Shipments

During 1943, the total tonnage of steel products shipped from the mills exceeded 67,278,000 net tons, substantially above the previous record of 64,814,000 tons of shipments in 1942. In 1940, the first of the four record-breaking years, 48,585,000 tons of steel products were shipped.

## Protein Source

Soybeans are a good source of protein, calcium and iron, and of at least some members of the vitamin B complex. They also have a higher energy value per pound than the more commonly used legumes with the exception of peanuts. Because of the current scarcity of many protein and fat-rich foods, soybeans are especially valuable now.

## Hay Curing

Causes Burns Improper handling of cooking utensils causes many burns. A report from an Illinois county shows that a burn to one homemaker could have been avoided by turning the handle of a utensil, filled with boiling water, in toward the stove in place of out. The preventable burn resulted in four weeks' absence from housework and two additional weeks with limited efficiency at work.

SCOUT NEWS.

Troop 94 began its fall program with a regular meeting conducted by Scoutmaster Harold Otley and Commissioner Hugh Munro.

Robert McWilliams, grandson of Mr. and Mrs. John Wojtaszek, of Deford, was invested with the rank of tenderfoot scout Wednesday, Sept. 6. He was conducted by the patrol leader of the White Creek patrol, Hugh Bogart, and received his badge from Ernest L. Schwaderer.

Second Class Scout Donald Lee, who is moving to Holly, Michigan, was given a leather notebook from the boys of Troop 94.

The scoutmaster announced that the fall court of honor will be held in Millington October 19. Troop 94 will have five Scouts to receive Star rank.

The Farmer and War Bond Purchases

by Charles W. Holman, Secretary  
The National Cooperative Milk Producers' Federation

AMERICAN farmers have a great deal more at stake in purchasing War Bonds than simply a patriotic urge to assist in financing the war so that it may be prosecuted to an early and victorious conclusion. Modern war demands governmental expenditures far in excess of those which may be met by current revenue receipts. This means Government borrowing. If a large part of this borrowing is through commercial banks additional inflationary spending power is created through the expansion of credit. On the other hand, if the borrowing is largely from individuals much of their excess funds are drained off. Hence, the pressure on prices resulting from unusually large funds bidding for limited amounts of goods and services is relieved, and thus inflation retarded.

A tremendously increased agricultural production and some increase in average prices received above those paid by farmers have raised the net income of all United States farmers from the 1935-36 average of \$4.7 billion to \$5.3 billion in 1941, \$9.4 billion in 1942, and an estimated \$12.5 billion in 1943. With available supplies of farm machinery replacements and building materials limited, Agriculture has a fund available for either debt retirement, savings readily liquidated for future purchases of machinery, buildings, etc., or for present investment in land.

A marked decrease in farm mortgages in recent years indicates that much of this fund has been properly applied to debt retirement. However, activity in land sales and a very marked increase in land values demon-

strate that farmers are probably diverting a large part of this fund into land purchases. From March 1, 1943, to March 1, 1944, average land values per acre rose 15 per cent, with the larger part of the rise taking place in the last four months of the period. The increase during this four-month period was the highest on record, being 20 per cent greater than the average monthly rate of increase for the 1919-20 boom year. Average values per acre have increased more than one-third in the past 3 years. In the 1919-19 period the rise was about the same.

It appears that an overcapitalization of probably temporarily high farm commodity prices is in process just as in World War I. Large mortgage debts incurred now, at high levels of income, will prove disastrous when both total agricultural production and prices fall. Land values are based on the net return to land. With the end of the war in sight and with the prospect that farm labor and other costs will require a relatively larger return leaving the return to land less, the logical course for land values at present would appear to be downward rather than upward.

Therefore, it appears that farmers would do well to invest every available dollar, beyond that needed for debt retirement, in Government Bonds. These can be held against the day when necessary farm replacements will be available and when farm land values will have become more stable. In this way the individual farmer may assist in hastening the day of return of his son, and also have capital available to help finance him in ventures of his own choice. U. S. Treasury Department

Timely items concerning your electric service, suggestions about cooking, lighting and appliances, and many other things of interest and value will appear from time to time in "Edison Lines." Make "Edison Lines" a reading habit!

**MAGIC HEATING . . .** Place your hand inside the coil of wire, and not the slightest warmth is evident. Place a steel bar inside the coil, and in 30 seconds the bar is white-hot! This is the magic of induction heating, using high-frequency electric current. It has made possible some amazing war production records. A local company manufacturing trench mortar shells increased its output from 1200 a day to more than 20,000 a day. Induction heating has accomplished equally spectacular things in other war plants. Electricity in this industrial area has helped to turn out more munitions than in any other spot on the globe.

**FOR ELECTRIC RANGE USERS . . .** Are you familiar with all the ways of saving electricity when you use your electric range? There are many cooking hints worth knowing, such as turning off the electricity before the cooking is finished and using the stored heat of the heating unit; preparing complete "all-in-one" oven meals; using only a few tablespoons of water to cook vegetables. One of our Home Service Consultants will be glad to advise you. Telephone any Detroit Edison office.

**BOUQUETS . . .** Letters like the following (from a customer) always mantle our cheeks with a warm glow. A surprising number of people take the time to sit down and write in this way:

"... It is a real pleasure to do business with you. Many companies seem to think that their clients have to do business with them, and treat them accordingly. Your company lets its users know that it appreciates their patronage." (Name on request)

**99.9% PURE . . .** Sounds pure, doesn't it? And it is—relatively. But in making electricity, the steam that drives our big turbo-generators must be much purer than that. If it weren't, literally tons of solid matter could collect every day in our turbines, clogging the blades and slowing down the machines. That is why our Research Department chemists are constantly studying and improving the condition of the water in our huge boilers. Thanks to their efforts and the work of many others, the steam passing through the turbines (eighteen million pounds every 24 hours) is at least 99 and 999/1000 per cent pure.

Appointments for the M. E. churches in neighboring towns include: Elkton, Joseph Blackmore; Owendale, A. E. Tinglan; Argyle, John Austin; Bad Axe, F. C. Cookson; Caro, F. A. Lendrum; Deford, J. A. Phillips; Kingston, Joseph Dibden; Shabbona and Decker, J. W. Stuyter. The Rev. O. R. Gratton has been assigned to the Cass City appointment, succeeding the Rev. J. D. Young.

The state tax for 1919, according to figures issued Monday by Auditor General O. B. Fuller, is 91 per cent over the state tax for 1918, or \$17,430,896.

The Masonic lodge rooms at Port Hope were gutted by fire, and the loss to the order will amount to several hundred dollars. The hall was being lighted up for a special school of instruction when one of the lamps exploded.

The first football game of the high school season ended in a 45-0 score for Cass City over North Branch. The line-up was as follows: Left end, McIntyre; right end, Brooker; right tackle, Craft; left tackle, Colwell; right guard, J. C. Hutchinson; left guard, Bixby; center, Cathcart; right half, Harris; left half, F. Hutchinson; full back, A. Champion; quarter back, E. F. Gowen.

Plans are now under way by Bay City capitalists who have been working for over 18 months, for the construction of a railroad into the Thumb. It is the scheme of the gentlemen behind the project, if it is consummated, to construct a branch road connecting the new through line from Bay City to Caro with Unionville, Sebawaing and other flourishing localities in that part of the Thumb.

As a protection to mail carriers the following regulation has been adopted by the post office department: Carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large. Persons keeping such dogs must call at the post office for their mail.

Amasa Anthes, who attracted much attention last summer when ever he drove his pet Jersey bull and buggy into town, now rides behind an odd pair. The Jersey and a horse have been hitched together by the boy and they mate well as far as disposition goes. The bull wears a horse collar turned bottom side up and does his share in pulling a load. Amasa used this "team" in hauling part of the bean crop this fall.

New Green Vegetable

Tampala is a new kind of green, new to us at least, but old to the Chinese. It belongs to the red root or pigweed family, grows well in hot weather when spinach does not, and produces heavily. Some consider it as good as spinach and better than swiss chard, but so are weeds such as lamb's quarters and pussley.

A Small Drop of Ink in the Want Ads  
Makes Thousands Think!

**Increase Wear**  
Recent tests by the U. S. bureau of standards show that shoes whose soles had been treated with hot wax had their wear increased by 41 per cent. The bureau also tested shoes costing \$5, treating one sole of every pair with a blend of mineral oil and solvent. The shoes were worn by Washington, D. C., high school cadets. Results showed that treated soles gave 14 per cent longer wear than untreated ones.

**Paint Drying**  
"Industrial Finishing" reports that in addition to the use of infrared heat from banks and tunnels of what are generally called infra-red electric lights, there are electric ovens heated by units similar to those used on electric ranges in kitchens for rapid drying of paint on war products. It is pointed out that different kinds of paint require different baking treatments.

## Fashions With the New Fall Look For Style-Alert College Girls

By CHERIE NICHOLAS

LEAVE it to the college girl and her teen-age, keen-age sister to sense new fashion trends almost before they really happen. The college girl this year discovers more than anything else that the fashion atmosphere is so heavily charged with a spirit of change that one has to think and to plan from an entirely different viewpoint.

There's a change taking place that is almost revolutionary from the carefree "sloppy Joe" manner of dress which was quite the thing last year but is quite taboo this fall. There's a new poise, a new dignity, a new feeling of culture and refinement and feminine charm about campus and classroom clothes this year. Perhaps it is the standard set by the neat and snappy costumes of our women in service that has turned the tide. Whatever the reason for this definite change in back-to-school fashion trends, it's up to the style-alert college girl to assemble her wardrobe with an eye to good clothes, simple in line, dependable in quality and tuned to a life of useful, helpful activities as well as classroom study.

Ready for all you "sweater girls" are the neatest, smartest cardigans and long-waist slippers ever. The colors are lush and you can get the most delectable contrasts by wearing a pullover of one bright hue topped with a cardigan of another. Then too, there is a new sweater out that interknits a full-blown rose patterning up and down the front opening.

Your coat this year will be a real show-piece in the parade of college fashions, not alone because it will take on generous lines with special attention given to back fullness and to roomy sleeves and a general air of youthfulness, but it will make its debut this season in a veritable blaze of color. The coat pictured

is of handsome billiard cloth in a vivid green, made even more dramatic with stunning silver buttons. It has that "button-up-your-overcoat" look that keys right up to come-what-may in weather.

Slim-fitted classic black gowns are getting an enthusiastic response from the college girl this season, for "date" and what's going on socially in campus environs. This swing to sleek sophisticated clothes is reported from all college shops and departments. The dress above in the illustration, by Claire McCarell, who so notably and successfully caters to college girl tastes, is typically an exponent of modernism, that makes sophisticated simplicity its theme. It is of black jersey, has a long-torso midly-like overblouse, and is ever so swank for dress-up occasion.

The far-sighted freshman to the left knows that color holds despotic sway in the fashion field today. So she sees to it that her skirt-and-shirt twosome makes a wild splurge of color. For this reason she tops a gay plaid skirt with a dashing red gabardine shirt.

This neat and sleek 1944 look which college girls will be dramatizing to the limit during the coming months calls among other demands for the tidying up of their hairdos. Which is why those cunning color-bright Dache nets so admired this summer will be making news on the campus this fall. Each girl in the trio pictured is, as you no doubt have observed, wearing a net on her sleek-coiffed head.

The girl to the left wins approval on and off the campus with her deep chignon enmeshed in a Chinese red net and large red grosgrain bow which tines to the red of her gabardine shirt. The sophisticated in black holds high her sleek head enmeshed in a white net. Take a tip from the college girl wearing the smart coat and enmesh your hair in a bright Chinese green net when you wear your first fall chapeau.

### Belted-In Gray Coat

This coat is interesting in that it has the new short length, is belted in after the manner of the officer's coat and is carried out in tones of gray. It is a favorite with the college set. Gray this year is one of the leading colors and coats of gray cloth trimmed in gray fur are outstanding in the fashion picture. The fur that lends enhancement to this stunning model is fine lamb processed in a most attractive ombre effect. For a casual coat that will carry distinction on the campus and wherever it goes, this coat will prove an ideal choice.

### Lovely Fabrics for Fall Wedding Gowns

The autumn bride is assured her dreams will come true in regard to the traditional beauty of her wedding gown. This season brides will be gowned picturesquely in heirloom satin or rich damask, or in handsome faille or tissue taffeta. There is a new and lovely material called tissue satin, and there is the stately stand-alone bengaline. Many of the new wedding gowns are being shown in pastel shades. There are portrait types that revive the Renaissance elegance of seed-pearl embroidered panels. Much attention is given to flattering necklines. The sweetheart type outlined with pearls is charming. The narrow high band which gives such distinction to Chinese dresses is a feature of some of this year's bridal gowns.

### Indian Jewelry in Fashion

Native craft Indian jewelry has a charm all its own which women of today recognize to the extent that they are wearing with pride lovely bracelets, earrings and fingerings of silver set in turquoise. The very wide bracelet is a favorite.

### Glittering Evening Wraps

There will be a big display of beautiful evening wraps at opera and social events this winter. A very charming type is the jacket that is short and boxy, made of warm woolen. It will be enhanced with bead and sequin embroidery in all-over spaced designs, such as diamond shapes, dots or stripes.

### Fired in Field

Figures show that, in normal times, 88 per cent of the shotgun shells produced are fired in the field. The remaining 12 per cent are shot at the traps or in the sport of skeet. Of the 88 per cent shot in the field, the rabbit attracts 29.6 per cent of the composite sportsman's fire, more than double that of his nearest competitor, the squirrel.

### Saves Water

A three-inch layer of straw or pine needles in the garden will help save water and keep down grass and weeds.

### Board of Commerce Meet at Sebewaing

Paul Reidel, Minden City, program chairman, and Dr. J. E. Wurm, Sebewaing, president, have announced the program for the joint meeting of the Upper Thumb Commerce Association and the Sebewaing Chamber of Commerce to be held Monday, Sept. 25, at 7:30 p. m. (slow time) at the Lutheran dining hall on the Owendale road in Sebewaing.

Dr. Wurm highly recommends the principal speaker, Ed Fielder, state chairman of the committee for economic development. Mr. Fielder, who is associated with the Detroit Board of Commerce, is reputed to be a fine speaker, has a thorough understanding of the various problems dealing with industrial development in the post-war period, and held a conference recently with Eric Johnson, president of the U. S. Chamber of Commerce, upon his return from Russia. He should have a challenging and thought provoking message for the business men and employers in this area. The meeting is open to interested persons as well as members of the two sponsoring organizations and members of other commercial and industrial organizations in the Upper Thumb area.

The meeting is for both men and women and will be opened with a welcome by Arthur Rummel, mayor of Sebewaing. Fred Harrison, Harbor Beach, will explain the aims and objects of the Upper Thumb Commerce association. During the dinner there will be music by an orchestra under the direction of Mr. Scheiwe. Dan McDonald of Bad Axe will be the toastmaster.

### Warning to Women

Reports that two-fifths of last year's 20,000 fatal farm accidents took place in the home should be further warning to rural women.
