Highlights of a State Survey Sponsored This Summer by the Michigan Health Council

Highlights of a Michigan survey sponsored by the Michigan Health Council during the summer of 1944 reveal some interesting reflections of opinion throughout the state. The survey was taken by the General Research Bureau of Foote, Cone & Belding, a nationally recognized agency. Five thousand voters were scientifically selected to give an accurate cross section of Michigan's population.

To the questions—What is your opinion of doctors of medicine? As a group do you think they are doing a good job for the public?—91.6% answered yes, 4.2% no, and 4.2% don't know.

Those who had no pet peeves numbered 68.8% of the total number interviewed. Pet peeves showed up as follows: Doctors overcharge, 6.5%; keep patients waiting, 4.4%; are dishonest, 5.6%; lack interest in patients, 1.7%.

Ball Received Equatorial Hair Cut Certificate

M. C. Ball writes his mother, Mrs. Ernest Ferguson, Cass City, from New Guinea, as follows: "Well, here I am at last in New Guinea. Can't say where, but I am safe, sound and disgustingly healthy, so, don't worry about a thing."

"We had quite a ceremony when we came across the equator. They really lambasted us, and trimmed our hair, using eggs, catsup, mustard and numerous other ingredients as shampoos. We came through it though and were changed, before the court of his majesty, King Neptune, from polliwogs to Shellbacks. We have our cards to prove it!"

"I went ashore and looked around for a while yesterday. Sure did stuff myself on coconuts. They grow about 40 feet from the ground, and when we saw some good dark brown ones, which are

Belgians Look Better Fed and More Joyous Than the French

Under date of Sept. 10, T-3 Horace V. Pinney writes from Belgium to his mother, Mrs. Edward Pinney:

"I am sending some samples of the Belgium money to add to the collection. The conversion rate for this is higher than for the French francs. About 43 Belgian francs to the dollar compared to 49 French ones. We use coins for the Belgian two franc pieces whereas we had paper for the French. The Allied forces did not attempt to print any money for the Belgians. However, I strongly suspect that they are getting new bills from the Belgian government in exile through the London banks.

"We are finding that we run in to more Belgians than speak English than we did French. I suppose that being a small country with three different language speaking neighbors, they have a stronger in-

The last message from the War department came Saturday telling them that he had been wounded seriously and that they would be informed later of his condition. The wounds were received Sept. 15.

On June 15, Pvt. Gingrich received a bullet wound in a cheek and was returned to England for hospitalization. He first entered the service Sept. 10, 1943, and left for overseas duty in March of this year.

Service News

Relatives and friends here have received word of the tragic death of S-Sgt. Arthur D. Fitch, 25, of Tipton, Iowa. He was a member of the Army Air Corps and had completed 39 flying missions over Rumania, Bulgaria, Greece, Yugoslavia, Hungary, Poland, Austria, and France. He had spent a 30-day furlough in Tipton with his wife and relatives, going from there to Fort Sheridan, Ill. He was being sent to a redistribution center and was really in a train wreck on Aug. 14 near Terre Haute, Ind. Funeral services were held in Tipton Aug. 19. He is survived by his wife; his father, E. W. Fitch; four brothers, Charles and Richard, at home, Alfred Fitch in California and Forrest Duane Fitch, gunners' mate second class, serving in the South Pacific. E. W. Mr. and Mrs. A. H. Steward are in receipt of a letter from their son, Leslie, who has been overseas for about eight months. The letter was written from Belgium on Sept. 15. Leslie says he has not met any boys he had known at home so it seemed quite a coincidence that he became acquainted with a boy over there who knew some of the same people that Leslie had known in Detroit. He says it gets a little tiresome waiting in chow-line, but as he has stood it this long he can stand it a little longer. He says: "We had apple pie for supper; surely was good. I am anxious though to sit at the table at home again."

Plans of Hospital Board of Trustees Are Disclosed

Construction May Not Be
Started Earlier Than
Five Years Hence

The board of trustees of the proposed new hospital at Cass City had their first meeting recently and Frederick H. Pinney, chairman of the board, at meetings of both the Rotary and Gavel clubs, outlined the plans of the trustees. In his talks before these two service clubs, he said in part:

"We are not planning the start of any construction next year, the year after next, and probably not sooner than five years at the best. We are not even concerned with the site until a later date and we do not plan any house-to-house canvass for funds as yet.

"About 15 or 16 years ago, I bought my first automobile. Some of you bought your first one long before that. Mine happened to be a Ford, and I remember it well. It was really a good car. For six or seven years I drove it, some 80 or 90,000 miles in all, and it really gave me good service. Each car I have had since then was better than the last, and I expect that the next one I get—sometime, I hope—will be even better. That is the way I look at this hospital project. Cass City has been fortunate in having two hospitals whose services have been for us all. They have done a wonderful job, and the fact that it has been done as a result of private initiative is to the permanent credit of those persons who have done the job. However, a modern hospital today, to say nothing of the future, is not something to attract private investment from any profit motive. It is more than one person's job. It requires united action of the community. We aren't dealing alone with dollars and cents, and we certainly make no pretense of promising dollar dividends from this project. We are dealing in other values, however—human

H., December 1, 1777, and in March, 1778, began drilling inexperienced soldiers at Valley Forge. The bronchoscope, used by the
medical profession to remove for-
eign particles from the lungs, is
proving extremely valuable in the
manufacture of airplane engines.

It is used to check the interior of
oil and cooling lines where it
searches out invisible flaws in the
drilled metal and clears the way to
super engine performance in the
air.

LIGHTNING sends its "Calling Card" —to warn us of trouble!

This "calling card"
warns us in advance of
approaching storms.

LIGHTNING storms are often of a local character and difficult
to forecast by usual methods. Yet they can cause a great deal of
trouble for The Detroit Edison Company and its customers. For
this reason, we need special devices to warn us of storms in ad-
vance. Such a device is this "calling card" for lightning.

Have you noticed how your radio sputters with static before an
approaching storm? The "calling card" is that same static—put
down on paper in black and white. The static "inks in" its own
record on the chart, at the rate of 1¼ inches per hour . . . telling
us the storm's approximate speed and direction. When trouble
strikes, when lightning burns down our lines or falling trees and
branches drag down wires, our men are ready immediately to start
the work of restoring electric service.

"We find that the citizens of this county are not aware of the law under which they are required to register," says an official of the Tuscola Draft board. "Many are not submitting to registration on their birthdays but often a few days later. Some believe they have a five day period in which to register. We believe it might be well to bring the following part of the Governor's Proclamation to our future registrants: 'During the continuance of the present war, those who were born on or after Jan. 1, 1925, shall be registered on the day they attain the eighteenth anniversary of the day of their birth, provided, that if such anniversary falls on a Sunday or a legal holiday, their registration shall take place on the day following that is not a Sunday or a legal holiday.' There are no exceptions to this law and the fellow will not only be abiding by this law but he will be aiding the draft board if he makes sure he registers on his birthday."

supposed to be the ripe ones, we would chuck rocks at them until we had succeeded in knocking them off the trees. They grow inside a hard husk which is about two inches thick. Quite a job to get them opened until you get the knack of it.

"I went to the Recreation Center, at the Base, and they had address books there for every state in the Union, so the boys could write their names and addresses in them. I looked through both the Michigan and Maine books. I did not find any in there from good old Cass City, but did see a fellow's name from Lubec, Me. I had seen him around Lubec before he went into the Service.

"I went swimming yesterday in the ocean. The water was nice and warm, but I still prefer good fresh water for swimming. It's a bit too salty when you get it in your mouth.

"Saw a bunch of natives at work yesterday, making grass skirts and necklaces. We asked them what they charged for a skirt. They said ten bob, which comes to a little better than \$3 in U. S. money. Guess I will try to get hold of a couple to take home with me.

"They use Australian money here. I have two full pays coming to me now. Don't know what we will be paid in—U. S. or Aussie money.

"I suppose Dotey and Ronald are in school by now. I am sure proud of my little sister making high school and only twelve. She surely didn't get her intelligence from big brother. Tell her to keep up the good work and when I come home she can teach me algebra, geometry and all that all over again."

MISS DARROW IS THE BRIDE OF WILLIAM RAWSON

Concluded from page 1.

Flint. The floor length gowns of Miss Tripp and Mrs. Bayless were of aqua marquisette. Miss Stevenson wore pink marquisette. The bridesmaids wore orange blossoms in their hair.

Charles Rawson of Flint performed the duties of best man for his brother. Ushers were John Gaffney and Clarence Darrow, Jr., both of Flint, and Louis Profit of Cass City. Mr. Darrow is a brother of the bride.

Mrs. Darrow wore for her daughter's wedding a gown of aqua crepe. Mrs. Rawson's dress was of black and white jersey. Both mothers wore white gardenias.

A dinner preceding the wedding rehearsal was enjoyed at the Durant hotel in Flint Thursday evening.

A reception in the bride's home followed the ceremony. After a short wedding trip, the newlyweds will make their home in Cass City in the Frieskorn apartments.

The bride was graduated from Lapeer high school in 1943 and has been employed in the office of the A. C. Spark Plug Co. in Flint. The groom was a member of the 1942 class graduating from the Cass City high school and is employed in the Frieskorn Department store here.

Those from Cass City who attended the wedding were the groom's parents, Mr. and Mrs. Edward Rawson, his sister, Mrs. Dale Councilman, and Louis Profit.

Open house to meet the newlyweds will be held in the Edward Rawson home this (Friday) evening from eight to eleven o'clock.

BELGIANS LOOK BETTER FED AND MORE JOYOUS THAN THE FRENCH

centive to be linguists or perhaps we are just happening to find the right few. Of the homes we have seen, there are many more attractive ones in Belgium. They are of modern construction and would hold their own in any community. The flowers in the lawns look good too.

"Our mail is still trying to catch up with us. As yet I haven't received any mail written in September. Magazines and papers are very far behind.

"Since we changed the division name from 'Always Dependable' to 'Spearhead' we seem to have taken on glamour. At least we

now have reporters traveling with our headquarters. We are getting more press notices than before—not as the "3rd Armored Division" but as "an armored unit on the front." Naturally we recognize many of the stories and persons mentioned as some of our boys but it will probably be some time before you get any accurate picture of our activities. We have received notices, however, in the New York Times and the Chicago Daily News. The least success we can see for the future is to be inside buildings before it gets much colder.

"Today is beautiful with the golden sun streaming down, but it is not warm. This morning we were driven to a mobile shower-laundry location for a warm water shower and clean clothes. This makes us all feel good. Coming back, we waved to the Belgium people on their way to church dressed in their Sunday best, and quite a good best at that. They look even better fed and clothed than the French. And they seem to have a more joyous and less defeated attitude too. If there are starving people in Western Europe, they must be in the large cities or in districts I have not seen. This does not mean, however, that there is a high standard of living here."

The Great Seal The reverse of the Great Seal of the United States appears at the left of the reverse of the one dollar bill. Above the eye is the Latin motto "Annuit Coeptis," translated as "He (God) favored our undertakings." The motto below the base of the pyramid is "Novus Ordo Seclorum," translated as "A new order of the ages." Both mottos are condensations of excerpts from Virgil's "Aeneid."

The unfinished pyramid is a symbol of strength; its unfinished condition denotes the belief of the designers of the Great Seal that there was still work to be done. The eye in a triangular glory, surmounting the pyramid, symbolizes an all-seeing Deity.

The Great Seal The reverse of the Great Seal of the United States appears at the left of the reverse of the one dollar bill. Above the eye is the Latin motto "Annuit Coeptis," translated as "He (God) favored our undertakings." The motto below the base of the pyramid is "Novus Ordo Seclorum," translated as "A new order of the ages." Both mottos are condensations of excerpts from Virgil's "Aeneid."

The unfinished pyramid is a symbol of strength; its unfinished condition denotes the belief of the designers of the Great Seal that there was still work to be done. The eye in a triangular glory, surmounting the pyramid, symbolizes an all-seeing Deity.

Lost in Cooking
Minerals—phosphorus, calcium, iron, copper, magnesium, sulphur, etc., are largely lost by cooking. Canned foods, cooked in the sealed cans, are high in these elements—and the liquor must not be thrown away, but should be consumed. The liquid portion of a can of peas or beans, for example, will contain 30 to 70 per cent of the total mineral content of the can.

Fatal Accidents
Falls were the leading type of fatal accident in 1943, resulting in 27,400 deaths—8 per cent more than in 1942. Motor vehicle accidents were second in importance, accounting for 23,400 deaths—17 per cent below 1942. Deaths from burns, 10,350, ranked third, with a 15 per cent increase from 1942. Drownings caused 7,150 deaths, approximately the same as in 1942.

FROM THE FILES OF THE CHRONICLE

Twenty-five Years Ago.
October 10, 1919.

Dedication of the new Mennonite Brethren in Christ church at Riverside will take place on Oct. 12. A number of ministers will be present including Rev. B. Bowman, presiding elder of North district, and ministers from neighboring churches.

During a severe electrical storm, Jay Britton's large 40x70 barn near Greenleaf was struck by lightning and completely destroyed together with 65 tons of hay, 60 bushels of oats, harness, tools, etc. It was partly covered by insurance.

Dr. A. C. Edgerton has completed his duties at the Children's Free Hospital at Detroit and returned to Harper hospital. He will complete a year's internship in about six weeks and then expects to establish himself in public practice of his profession.

A. E. Boulton, who was elected

highway commissioner of Elkland township last spring, has resigned that position to serve the Michigan Sugar Co. as weighmaster at their local weighing station. The township board appointed Joseph Balkwell to fill the vacancy.

Miss Isabelle MacIntyre is the winner of a five-pound box of candy, having been successful in a milking contest on the George MacIntyre farm in Greenleaf township. The task was milking nine cows and Miss MacIntyre completed it in 55 minutes. Dr. I. D. McCoy, her opponent, was three minutes slower in milking the same nine.

The work of laying the cement blocks for the new depot is well under way and plans for the building show that Cass City will have the best depot on the P. O. &

N. R. R. when it is completed. The new building is practically the same size as the old depot which it replaces. It stands 10 feet farther south from Garfield avenue and measures in actual size 81 by 110 feet. The walls will be constructed of cement blocks 16 feet in height and the roof will be gabled and of slate. Officials of the P. O. & N. R. R. are aware of the large amount of business which the road receives from Cass City and its contiguous territory, and to show their appreciation, they are causing the erection of a substantial depot, which is conceded by everyone along the line to be the best on the road.

The Cass City Fair had a tussle with the elements at its 20th annual fair last week, and though a more disagreeable week could not have been chosen for the event, large crowds were in attendance. Floral hall presented a very attractive appearance. A number of business houses had merchandise booths. Among these were G. W. Goff, harnesses and robes; Mrs. G. W. Goff, millinery; E. W. Jones, crockery; and B. H. Bingham, photographs. The Cass City Milling Co. had a booth near the floral hall and served hot coffee and biscuits to the public. Just outside the hall, Striffler & McDermott had a machinery display, Ehlers & Nique of Shabbona a display of Olds gasoline engines, and Henry Wettlaufer demonstrated a cement machine.

These are moving days. W. D. Striffler is moving from Argyle to the Pettit farm northeast of town. Chris Schwaderer has moved from the Pettit farm to Wilbur Marshall's small farm within the corporation limits. Jas. Reagh will move from the Marshall farm to the house occupied by Joseph Wahosky.

The stock of dry goods and groceries of W. W. Bender was inventoried and purchased a day later by A. A. Hitchcock. He will not combine this stock with that of his other store, but will conduct two stores. H. L. Hunt, who has

had several years' experience as a merchant and salesman, has been engaged as manager of the store in the Laing & Jones Block.

Announcements were received Wednesday of the marriage of Frank Hutchinson and Miss Jennie Leek on Oct. 1 at the home of the bride's mother, Mrs. Eli Leek, in Kingston township.

The Ladies' Aid of the Evangelical church elected the following officers: President, Mrs. H. Wettlaufer; vice president, Mrs. J. A. Schweitzer; sec., Mrs. W. R. Kaiser; treas., Martha Striffler; cor. sec., Mrs. M. M. Schwegler.

The Eastern Star of Gagetown held a special meeting to install the following officers: Mrs. T. Proudfoot, Samuel Bodey, Mrs. S. Ricker, Mrs. E. Maynard, Mrs. J. L. Purdy, Mrs. R. F. Young, Mrs. S. Bodey, Mrs. F. Palmer, Mrs. T. Cosgrove, Mrs. J. L. Winchester, Mrs. H. Gage, Mrs. C. E. Williamson, Mrs. E. R. Black, Sam Ricker, Mrs. Armstrong, Mrs. R. Cose, Mrs. E. Hemerick.

Many Uses

In the manufacture of explosives, rayon, hospital dressings, food wrappings, molasses, shoes, imitation leathers, glycerine, blanket substitutes and table covers, and for other uses too numerous to mention, wood pulp not only proves itself a ready and willing servant, but it also forecasts its myriad uses in the post-war world.

Lays 2 Eggs Joined

In Form of Dumbbell

CHICAGO.—A White Rock hen presented its owner with something new in egg shapes when it produced two eggs joined by a shell covered tube so as to form a dumbbell. The yolk was contained at one end of the dumbbell and the white in the other. The double egg was broken by the hen soon after it was laid, the owner reported.

Import Wasps

Wasps were originally brought to Cuba from India, as a protective measure for the Cuban orange industry, and resulted in great savings to the planters there. In the larvae stage, the wasps live on flies and when present in sufficient numbers reduce the destructive capacities of the insects almost 100 per cent.

Starmann and Reid Groups Lead League

By G. W. Landon, Sec.

The City league teams were shuffled around considerably this week in their standings and the Knoblet bowlers are now found in fifth position after heading the group for two consecutive weeks. They met tough opposition in the Starmann squad and lost all three games by close counts. Starmann's team, because of their pin totals, find themselves at the top in a two-way tie for first honors with the Reid five.

Reid's team have been drifting along in the league now for four weeks without much assistance from their captain, who spends his Thursday evenings outside the bowling alleys, but they haven't seemed to notice his absence and have done an excellent job with the help of Forest Tyo, who is a most capable substitute. Jim Milligan joined the league this week for the rest of the season and on his first appearance registered a 542 pin total to place him fourth in the high ten list and give him the weekly prize for his 228 game which was 68 pins over average. Don Koepfgen gathered in the other individual prize as he posted a total of 71 pins over his average in three games. Starmann's team won the three game prize, while Parsch's clinched the over average for one game.

Bowlers hitting the maples for counts of 200 or over were: Milligan, 228; Parsch, 208; Ludlow, 206; McCullough, 202; Landon, 201.

Can Corn

Take care when canning corn. Food conservation specialists say after corn is cut from the cob, particles of corn may be left on the cutting knife until the next batch is to be cut. In warm weather the particles on the knife may sour and this can cause spoilage in the balance of the corn. Be sure to sterilize the knife before each cutting.
