

Eight Local Scouts Received Awards At Court of Honor

District Officers Were Elected at Meeting at Millington on Oct. 19

Eight Cass City scouts received awards at the Tuscola District Court of Honor at Millington on Oct. 19. Eagle Scouts Robert Foy and James Mark were awarded the unusual Scout Life Guard emblem, given for proved competence in swimming, lifesaving, rowing and waterfront organization. Six members of Troop 94 were promoted to the rank of Star Scout: Jack Ryland, Albert MacPhail, James Wallace, Robt. Howell, Hugh Bogart and Koert Lessman.

The boys of Troop 94 of Cass City performed the investiture ceremony for Tenderfoot rank for Scout Robert Thorpe of Reese, a member of a newly formed troop No. 155. Patrol Leader Jack Ryland was his conductor and the badge was awarded by Committee Chairman Frederick H. Pinney of Cass City.

Other Cass City people who accompanied the boys to Millington included Hugh Munro, Edward Baker, Rev. Stanley P. Kim, Cameron Wallace, and Harold Oatley.

The annual meeting of the Tuscola County District of Valley Trails council, Boy Scouts, was held at the Millington hotel and was preceded by a pheasant dinner for members of the Scout committee and their wives.

Superintendent of Schools Geo. B. Martin of Caro was re-elected district chairman; the Rev. H. F. Dornbrock of Reese, district vice chairman. Members at large of the committee are: Akron, Stanley Smith; Cass City, Ernest L. Schwaderer; Caro, Lloyd Hull, H. H. Purdy; Fairgrove, Reid Kirk; Mayville, Paul Noble; Kingston, Wm. Schwaderer; Millington, J. L. Meachum; Reese, Herbert Damm; Unionville, T. K. Schmidt; Wahjamega, Kenneth Kerr; Vassar, Edgar Grimm.

A. Paul Kreeger was chosen district commissioner and on the committee's staff are Lawrence Hoffmeister of Unionville, Hugh Munro of Cass City, Austin J. Severer of Caro, and Floyd Sherman of Millington.

District Governor Is Speaker at Rotary

Ralph S. Brotherton of Harbor Beach, governor of the 152nd district of Rotary International, brought greetings from Rotary International President Dick Wells and the board of directors when he visited Cass City Rotarians Tuesday. Mr. Brotherton spoke on the four objects of Rotary—the development of acquaintance as an opportunity for service; high ethical standards in business and professions; the application of the ideal of service to personal business and community life; and the advancement of international understanding, good will and peace. Governor Brotherton also reviewed the objectives of the Rotary Foundation established in 1928.

The speaker was introduced by Program Chairman P. A. Schenck. G. A. Tindale served as song leader.

Luncheon guests were E. H. Streeter of Caro and H. C. Schneider of Burlington, Wis.

Mechanical Gutter Cleaners to Be Demonstrated

County Agricultural Agent Norris Wilber reports that the agricultural engineering department at Michigan State college has arranged a series of nine meetings throughout the state demonstrating the mechanical gutter cleaner. The meetings are to be held only at farms where the equipment is in actual operation. One of these farmers reports that his gutter cleaner saves 440 hours of hard labor a year. All the meetings are to be held at two o'clock in the afternoon, slow time.

Richard Witz, extension engineer from the college, will be at each of the meetings to describe the operation and show pictures of the other cleaners in the state.

The only meeting of this kind in the Upper Thumb will be held November 16 at the Eugene Livingston farm, two miles south and one and a quarter miles east of Gagetown.

Pfc. Wm. N. Harrison Is Taken Prisoner

Mrs. Nelson Harrison of Cass City has received the following message from the Adjutant General in Washington:

"European area reports that your son, Pfc. William N. Harrison, was captured by the enemy on Oct. 4. Mail address cannot be furnished until confirmation of capture is received through international Red Cross.

"When additional information is received you will be promptly notified."

Extension Course for Sanilac Co. Teachers

Sanilac county teachers met in the court house at Sandusky, Thursday, Oct. 19, and organized an extension course from Central Michigan College of Education.

The courses selected are Education 352 and Education 471. The first regular meeting of the class will be at the court house Monday, Oct. 30, at 5:30 p. m. CWT. Others wishing to take either or both courses should contact the school commissioner, John R. Francis, and complete the enrollment.

New Type Farmers Due To Develop Following the War

Will Take a Greater Advantage of Modern Farming Practices

Ernest L. Anthony, dean of agriculture at Michigan State college, believes that after the war farmers will take greater advantage of modern farming and scientific practices, will be more businesslike, and will turn more and more to mechanization.

The postwar will see no return to hand labor and increased use of horse-drawn farm equipment, in his opinion.

Soil conservation and changed land use also are important factors, as he sees the future farm world.

"We are in for an increasing emphasis on the wider use of high quality pastures, recognition of better hays, and the place of land coverage in our farming practices," Dean Anthony anticipates. "Live stock will be the best source of disposal of these land coverage products, and livestock products, in turn, will be produced under different conditions of feeding and production than in pre-war days. But to me the most significant change will be to scientific and businesslike management of our better farms."

Dean Anthony also predicts that farm product prices will be lower following the war, pointing out that even with the limits imposed by labor shortage and insufficient machinery during the war years, farm production is now the greatest in the history of the country.

"Our agricultural machine is in high gear, and it will not be easy to slow down, or control, on short notice when the war demand is reduced," he said.

Sanilac's War Loan Quota Is \$863,000.00

Sanilac county's quota in the 6th War Loan drive is \$863,000.00. Of this amount, \$548,000 is to individuals and \$315,000 to corporations. With the national quota of 14 billion dollars, Michigan is being asked to buy \$472,000,000 worth of bonds. The drive officially starts Nov. 20 and closes Dec. 16. Sales in Sanilac county will be solicited as in the 5th War Loan drive, says John R. Francis, chairman of the Sanilac County War Finance committee. The 6th War Loan quota for Sanilac is less than the 5th by \$122,000.

PLAYING CARDS FOR SALVAGE DRIVE

Members of the Woman's Study club are sponsoring a drive for the collection of decks of old playing cards for salvage. Mrs. Floyd Reid is chairman of the committee. Club members and others are requested to bring their contributions to the next meeting to be held Nov. 7 at the Kettlewell home. Later donations may be left with Mrs. Reid. The cards will then be added to the regular paper salvage drive.

Cass City Wins First Football Victory

Cass City high school's squad went to Pigeon Friday afternoon and succeeded in winning their first football game of the season.

The Cass City team went into the first quarter with plenty of fight and determination and as a result they made the first seven points of the game. Early in the second quarter, Cass City scored their second touchdown and then the extra point. The half ended 14-0 in favor of the local team.

The second half started in a different way. Pigeon's team came back into the game going strong and succeeded in making their first touchdown and extra point. In the fourth quarter, Pigeon went for their second touchdown.

The Maroon and Grey held their opponents back to keep themselves in the lead by the small margin of 13-14.

Touchdowns for Cass City were made when the Cass City line opened a beautiful hole and quarterback "Whitey" Hoag went 10 yards for the first touchdown. Then Strickland made the extra point. Then in the second quarter, the local line made another advantageous opening and "Whitey" Strickland made the second touchdown.

Coroner's Inquest Decides Accident Was Unavoidable

Poor Visibility Reason For Accident Causing Death of the Lungs

At the inquest into the deaths of Mr. and Mrs. Joseph Lang, Sr., of Gagetown held in that village on Thursday, Oct. 19, it was decided that the accident which caused their deaths was unavoidable. Approaching darkness together with misty weather conditions on the evening of the fatalities made visibility poor.

Mr. and Mrs. Lang were struck by an automobile driven by Peter Wood as the couple were walking a half mile west of Gagetown on their way to services in St. Agatha church in that village. Mr. Lang died at the scene of the accident and his wife passed away on the way to a doctor's office. The accident occurred on Sunday, Oct. 8, at 7:15 p. m.

W. J. Alexander Rode the Last Days With the YMS 378

One year to the day of her commissioning in the Brooklyn Navy Yard, the USS YMS 378 was decommissioned at a U. S. Navy Base in England, battle broken but proud minesweeper who had done her job well.

Willard J. Alexander, 18, Seaman 1st class, son of Mr. and Mrs. Nick L. Alexander of Gagetown, one of the men who rode through those last days with the 378, summarized her brief but successful history.

"We were shot at and bombed on D-day sweeping in with the first wave, but that was only the beginning," Alexander recalled.

"After that we went through hell from shore batteries. We never swept very far offshore and were often in their range. On two different days we were under fire for over 20 minutes at a time. But in 54 days we eliminated 23 mines and our mark of 11 mines in one day set the record take for a small sweeper over here."

The final chapter for the 378 was written one day while she was sweeping with a sister ship. An underwater explosion sank the latter in one minute. Simultaneously, two other explosions close aboard the 378 completely disabled her machinery and electrical equipment.

Annual Seventh District W. C. T. U. Convention Here

Will Be Held in Cass City Methodist Church on November 9 and 10

Two state officers and two state directors of the Woman's Christian Temperance Union will attend and participate in the 64th annual convention of the Seventh District W. C. T. U. which will be held in the Methodist church in Cass City on Thursday and Friday, Nov. 9 and 10.

Mrs. Dora B. Whitney of Benton Harbor, state president, will give the evening address on Thursday and Mrs. Clara Patterson Todd of Plymouth, state treasurer, will also speak. Mrs. Clarice Nelson of Battle Creek and Mrs. Ruth Losie of Port Huron are the state directors who plan to attend.

General officers and county officers and directors will hold a business session Thursday morning. The convention will be called to order at 1:30 p. m. by Mrs. Genie Martin of Cass City, the district president. Reports of directors of the district will be given at this session as well as a memorial service, a children's hour in charge of Mrs. Oreno McGrath, and the introduction of state officers.

On Thursday evening, the combined choirs of local churches and a men's quartet will furnish musical numbers. Addresses of welcome will be given from the churches by Rev. M. R. Vender; from the school by Arthur Holmberg; from the Woman's Study club by Mrs. Grant Patterson; from the local W. C. T. U. by Mrs. A. J. Knapp. The response will be given by Mrs. Sara Baker of Port Huron, district vice president, and State Senator Audley Rawson will extend greetings.

Friday morning will be devoted to reports of officers and committees and the election of district officers. At the afternoon session, other reports will be given and state officers and state directors will speak.

Devotions at several sessions will be in charge of local people.

Miss Anna Young of Kingston is the convention hostess. Mrs. Concluded on page 5.

Mrs. Ricker Writes Of Dangers on R. R. Trip to Florida

Friends of Mr. and Mrs. A. A. Ricker will be interested in reading the details of their thrilling and dangerous trip to Bradenton, Florida. Mr. and Mrs. Ricker have spent the winters in Bradenton for many years, and they recently left Cass City for their newly purchased home there. Mrs. Ricker's letter describing their narrow escape was addressed to her niece, Mrs. George Dillman. Part of the letter follows.

"Everything was fine until we got into Tennessee and the rain was pouring down. At Lake City, Tenn., everything was flooded; we saw one bus on the highway with water over the hubs.

"There they divided the train and left the day coaches and routed the Pullmans and diner around a coal mining track. We had just gone over a gully very slowly and the train was going up an incline and a bend at the top when the engine stopped. Our Pullman, being the last one and just on the brink of the gully, commenced to drop. Everyone was ordered to the front of the train. They tried to uncouple it but could not; if it had gone any farther it would have pulled them all down.

"They divided the train again and took half the train up a siding a mile and a half; that was washed out and they had to go on another mile and a half, left them there and came back. We were lucky again. They pulled us out and we got back in our own Pullman. While they were pulling us out, a large tree and five inches of dirt slid down on the track between us and the other half of the train. They told us we might as well go to bed as we would be there until morning. First I thought another train might run into us but on second thought they could not come from the back as that track was gone and we were hemmed in.

LaFave of Detroit is visiting her parents this week.

Mr. and Mrs. Norman Hurd entertained several guests at a reception and shower honoring the newlyweds, Mr. and Mrs. Percy Wing, last Saturday evening. The couple received many gifts. Refreshments were served.

Mr. and Mrs. Larry Cummings entertained several guests at a bridge party Tuesday evening. There were four tables at play. Refreshments were served.

To the Voters of Michigan

As a candidate for office, I wish to point out several reasons why the voters should vote for Norman Thomas and Darlington Hoopes for president and vice president, and the straight Socialist ticket in the election this year. In recent months we have heard much about Post War problems. These problems are real and serious. But they are not merely Post War problems. The most serious of them and the most far reaching, the problem of unemployment, has been with us for fifteen years and is doomed to stay with us indefinitely unless proper action is taken to eliminate it. The most serious problem which developed because of the invention of labor saving machinery and modern methods of production can be made to be a blessing instead of a curse if proper steps are taken to solve it. What is the solution? We do

have the wealth! Our natural resources are practically inexhaustible. Our modern methods of production in this machine age easily creates twice as much and much more food, clothing, shelter, as all the people can use.

Because of this abundance which with a little study can easily be seen to exist we Socialists feel that a much higher standard of living could be provided for every citizen than that which now prevails. Because of the high cost of living nothing less than \$3,000 per year should be guaranteed by the government to every adult worker. Also a cost of living unemployment insurance for every week in the year when not employed. A pension equal to the Townsend plan for all aged sixty.

From certain quarters we hear expressions of concern, even fear that there will not be enough jobs. Why should we worry about a shortage of jobs when we do have the wealth and know how to create more. In an enlightened country like America we should know how to distribute wealth and do it equitably.

We urge you to vote the Socialist ticket because the two major political parties have for many years had control of the important law making body of the country and always insisted on ignoring the important needs of the people.

Eat Out
Government statistics show that 65 million Americans eat one or more meals in a public eating place every day.

Halloween Brings Apple Ducking

Ducking for apples at a Halloween party is more fun if there is a pretty girl on the opposite side of the "pond." The idea is to get your teeth into the bobbing apple and hang on until you get it ashore. If the sailor were a submariner, he'd have a better chance.

Mrs. Roy Stafford was hostess to the Happy Dozen club Monday evening.

Mr. and Mrs. Albert Anthes spent Sunday with Mr. and Mrs. J. P. Lorentzen at Marlette.

Mr. and Mrs. J. W. White and family of Detroit were Sunday guests at the Wm. Ruppel home.

Mrs. Wm. Straube, who lived in Cass City 21 years ago, spent from Saturday until Wednesday as the guest of Mrs. S. B. Young and visited other friends here. She went as far as Saginaw with Mrs. E. W. Douglas on Wednesday and returned to her home in Ann Arbor.

Mrs. John Lorentzen left Thursday morning for Marlette to visit in the home of her son, Ernest Lorentzen, for a few days. She has been employed as nurse in the H. F. Lenzner home for the past three and a half weeks, caring for Mrs. Gordon L. Thomas and infant son.

Ten friends of Judith Ann Dickinson, boys and girls, helped her celebrate her tenth birthday Saturday evening. The guests enjoyed a dinner at the Haley restaurant. Table decorations and favors were in keeping with Halloween, a grinning jack-o-lantern being the table centerpiece. After dinner and after the gifts were opened, the children attended the theater. The affair was a surprise to the honor guest.

Mrs. Arthur Steward was hostess to the afternoon group of the Woman's Society of Christian Service of the Methodist church on Thursday. Sixteen were present. In the absence of the chairman, Mrs. Harriett Dodge, the vice chairman, presided at the meeting. Devotionals were conducted by Mrs. L. I. Wood and Mrs. Don Miller gave the lesson on "Medical Work in India." Mrs. Steward, assisted by Mrs. Richard Karr and Mrs. Frank White, served refreshments. The next meeting on Nov. 16 will be with Mrs. Anna Patterson.

blasts and aboard a slowly sinking ship, officers and men of the sweeper recovered in time to pick up 19 survivors from the other craft.

Theodore M. McKnight, Pharmacist Mate first class, USNR, of Seattle, Wash., treated the wounded while the ship was being towed to the beach. Later she was returned to England and decommissioned.

"We had a tough time there for a while, but the crew came right through, keeping right on the job in spite of our many difficulties," declared Lieutenant J. J. Guidrey, USNR, the 378's captain. "I only hope my next crew is as fine and that I can keep up the record of the old 378," he said.

MRS. RICKER WRITES OF DANGERS IN R. R. TRIP TO FLORIDA

Concluded from page 1.

In front, so we went to bed and about three o'clock in the morning we started and got into Atlanta, Ga., about 10:00 a. m. We should have been there at eight o'clock the evening before.

"The conductor said he would not have given a nickel for our Pullman; he said he thought that was her last trip. "At Albany, Ga., a Ferndale girl saw the train starting and ran to catch it and it decapitated her. That delayed us some more. We did not get into Tampa until three o'clock Sunday morning."

Beauty Not Important
Charm and attractiveness are far more important in our lives than beauty.

Rust Out
It is a well-known fact that more boilers rust out than wear out. The year-round use of the boiler prevents corrosion.

Adds Tire Life
A re-cap should add at least 5,000 miles of tire life with careful driving.

Petrol Needs
The United States army overseas requires about 1,250,000 barrels of petroleum products every day.

Hisst! There's No Place Like Home, Snake Agrees

WELDON, ILL. — John Folowell, a railroad section laborer, swears he found a "homing snake" here recently. While at work he came across a six-foot bull snake and took it home with him. For a few days it was displayed at the grade school and then removed to E. P. Wene's house. The next morning, the reptile was found basking in Folowell's back yard. Taking the snake far down the tracks, he released it, hoping for the best. But in a few days was greeted by a hissing sound near his house—the same snake. Folowell says this time he's going to try the timberland for the home-loving wriggler.

BOWLING

In sweeping their three game series against the Retherford pin-sters, the "Chuck" Auten team climbed into the league lead and shoved the celebrated Starmann squad into second place. The Starmann five displayed their worst bowling of the season and their captain was no exception. Trying hard to hold onto first place which they had held for three weeks, they apparently were overcome with the jitters and consequently posted their lowest totals. On the other hand "Chuck" Auten's team rang up their highest totals to date, and besides taking over the lead, also cashed in on the double team prizes. Kolb, the lead off man, set the pace by registering a 604 which is tops at this time. Walter Mann put six straight strikes in the pocket in his second game which gave him the season's highest single game total of 246 pins and the weekly prize. Molnar's 551 pins was 122 over his average for three games and he also clicked in on a share of the prize money.

Mac McCullough still retains the lead as high average bowler, but there is a certain bowler who is within striking distance, and if he eases up any and the pressure is really on.

M. B. Auten jumped into the high ten when he manipulated the pins for a good total. He replaces Starmann, who dropped out after a very discouraging performance. Only seven 200 games were posted during the week, Mann 246, McCullough 219, Kolb 217-211, Landon 211, Gross 203, Townsend 200. The high open bowling prize went to Dean Robinson when he slapped the pins around for a count of 235.

The Merchants' league is going along in a two-way tie after the third week of its schedule and Sam's Tavern and Schwaderer's Construction teams each have won seven games, while losing but two games.

Team standings after seventh week:

Launch a New Dairy Program

Tuscola county dairy farmers will join in a state and nation-wide eight-point dairy program being launched this fall under the sponsorship of Michigan State college and the U. S. Department of Agriculture, according to announcement by Norris W. Wilber, county agricultural agent.

R. E. White, of Flint, president of the Michigan Association of Ice Cream Manufacturers, will represent the dairy processing groups in the state, and A. C. Baltzer, extension dairyman, will represent Michigan State college in the work of developing the program in Michigan.

Special emphasis is to be placed on the economical production of milk during the coming years. Baltzer pointed out in information sent to the county agricultural agent's office. It is recognized that dairymen, if they are to continue on a more profitable basis, must be in position to meet market demands. This calls for stabilized year-around production.

The new program will place stress on boosting production during October and November, the low producing months. One means of attaining this goal is by weeding out the old cows, and by reference to production and inheritance records culling the short-lived and unprofitable cows from the herds. The eight points of the new program, which serve to reiterate many of the improved practices which have been encouraged in the past by Michigan State college, include:

1. Grow an abundance of high-quality roughage.
2. Balance your herd with your feed supply.
3. Keep production records on each cow in your herd.
4. Practice disease-control methods.
5. Produce milk and cream of the highest quality.
6. Adopt labor saving methods.
7. Take care of your land.
8. Develop a sound breeding program.

4TH WAR-WINTER AHEAD ... CARS BEWARE!

Mom and Pop and the Car...

"That reminds me, George...we should have the Standard Oil Man give the car a winter change-over, too."

Sticky sludge is forming in many cars today, and may, at any time, clog oil-lines and screens, and lead to burned-out bearings. The older the car, the greater the danger—especially with winter coming up. Guard against 4th war-winter car trouble.

Now, of all times, use top-quality motor oil. Use instant-flowing, full-bodied, sludge-resisting, low-in-carbon oil. Use Standard's famous Iso-Vis 10 W, the full-protecting, fastest-starting, easiest-on-the-battery 10 W motor oil. Get Iso-Vis 10 W today.

And while you're doing it, make sure your car has all-over protection. Arrange for a complete service "package" that covers the vital spots...get a 4th War-Winter 10 Stan Tune-Up at your Standard Oil Dealer's.

Corporal Works Trick

To Capture 27 Germans

WITH THE CANADIANS IN FRANCE.—Corp. Johnny Tod of St. Vital, Manitoba, a member of the Royal Canadian army service corps, put aside his headquarters work recently, long enough to capture 27 Germans single-handed.

After his company landed in France, Tod was pressed into patrol duty. He walked down a deep enemy trench and, rounding a turn, bumped into a group of Germans. Their hands shot up.

Pretending he was shouting to comrades, Tod called, "Come on up, men," and then calmly advanced and disarmed them.

Receiver Befuddled

CAMP PICKETT, VA.—Lewis H. Applegate of Cadiz, Ohio, thinks his feminine correspondent is taking too seriously the army's admonition, "Button your lip."

He received a letter: "I'll be in town for the week-end."

What's worrying him is: 1—What week-end? 2—What town? 3—Who's the girl?

Navy Day Finds U. S. With Powerful Fleet and Personnel
Navy day, October 27, 1944, finds the youngest nation in the world, the United States, with much of its great strength reflected in the largest navy afloat.
Today's mighty fleet is a far cry from the original six frigates authorized in 1794 to protect American shipping from the ravages of Algerian pirates, and it has grown tremendously even in the last five years to more than double its prewar combat strength.
With the navy's fundamental aim being "... to support the national policies, commerce, and to guard the continental and overseas possessions," the U. S. fleet can be found in every major theater of World War II, in the forefront of the nation's struggle against Axis aggression.
Whole Nation Helped.
Utilizing the unbounded natural wealth of this country, and employing the courage and ingenuity of the American people, the navy has developed the most modern instruments to cope with the scientific progression of the times. Taking the place of the old man o' wars are the mighty 35,000-ton battleships; the sleek, powerful cruisers, and the speedy, dangerous destroyers; and supplementing these surface craft are approximately 100 aircraft carriers, from which bomber and fighter planes can be brought up close to take off and hammer enemy defenses.
With over 1,150 combat vessels in service, a vast array of tankers, oilers, and cargo and ammunition ships are needed to attend them, and with the navy required to bring invasion troops and their equipment ashore against enemy fire, thousands of sturdy landing craft have been put into service.
Since the war began, the United States navy has tripled the number of its warships; added 65,000 vessels of all types; brought its air strength up to 57,600 planes; increased its arsenal of anti-aircraft guns to more than 125,000 of 20-millimeter and 40-millimeter caliber, and developed a force of 3,717,000 men, with a goal of over 4,000,000.
Naval Chiefs in Charge.
Heading this overwhelming aggregation of naval power is Adm. Ernest J. King, commander-in-chief of the navy and chief of naval operations, with Adm. Harold Stark in charge of the European theater, Adm. Royal Ingersoll of the Atlantic, and Adm. Chester Nimitz of the Pacific.
If the navy is part of our strong right arm today, it was not always that way, for, oddly enough, the fleet has had its fight for obtaining proper recognition as not only a surety of our water-borne commerce, but also as a barrier to any coastal assault against us.

HOLBROOK
On Saturday, Oct. 21, Mr. and Mrs. Steven Decker celebrated their silver wedding anniversary at their home. Forty-two relatives were present at a four o'clock dinner. A dance and reception was held in the evening at the hall with 150 present. Ice cream and cake were served. They received many beautiful gifts, including a purse of 72 silver dollars. Out of town guests were from Saginaw, Detroit, Pigeon, Pontiac, Bad Axe, Caro and Unionville.
Mr. and Mrs. Ed Jackson, Mr. and Mrs. Gordon Jackson, Mr. and Mrs. Floyd Shubel and family spent Sunday at the Forest Smith home at Shabbona.
Mr. and Mrs. Ted Streeter and daughter, Lorraine, and Joyce Nielbel of Saginaw spent Saturday night and Sunday at the home of Mr. and Mrs. Clifford Jackson.
Mrs. Loren Trathen and little Paul O'Harris spent Sunday evening at the home of Mrs. Mabel O'Harris at Bad Axe.
Mr. and Mrs. Harold Madiger of Pontiac spent Saturday night and Sunday at the home of Mr. and Mrs. Jerry Decker.
Those who spent Saturday night and Sunday at the home of Mr. and Mrs. Steve Decker were Mr. and Mrs. Ed Pedlar and daughter, Jacqueline, and grandson, Eddie Pedlar, and Mr. and Mrs. Walter Madiger and children of Unionville.
Many from around here attended the hunters' ball in Uby Saturday night.
Mr. and Mrs. Jim Shuart moved to the Mrs. Kenneth Shuart farm this week.
Mr. and Mrs. Richard Baur spent Saturday night and Sunday with Mr. and Mrs. Chas. Bond, Jr., Ben Bundo and son, Bennie Jr., and Paul Bundo, Jr., of Detroit were among the hunters here last week.

Cheaper Production
Better pastures and more temporary grazing crops give cheaper milk, meat and eggs.

Only Two Elected
The governor and auditor of Maine are the only executive officers of the state elected by popular vote.

Farm Topics
Cover Crop Seed Increase Sought
Supplies Needed to Maintain Acreage
Growing of legumes and cover crops—with particular emphasis on seed production—is receiving more attention than usual from Uncle Sam this year.
The nation's farmers for many years have relied upon legumes and cover crops to protect their soil from erosion, preserve valuable moisture, and gather life-giving nitrogen from the air. In most cases, these crops are plowed under as green manure to make room for more profitable row crops, such as cotton, corn, or tobacco.
Heavy wartime demands for more food and fiber crops from each acre under the plow have increased the need for seeding legumes and cover crops, the War Food administration says. Records show that growing these crops in winter will bring about a substantial increase in per acre yields of subsequent crops. The urgent need for more feed crops to support added numbers of livestock also has a place in the picture, WFA says. These crops provide excellent pasture for several weeks before turning under, thus supplementing dwindling supplies of concentrated protein feeds.
Principal emphasis is being placed on harvesting of seed from 1944 crops of legumes and grasses because supplies now are at dangerously low levels. Adequate supplies of these seeds are essential for providing winter feeds, protecting land during the winter months, and maintaining soil productivity at high levels.
Increases in production of legume and grass seeds must be made in 1944 if there are to be sufficient new seedlings this fall for hay and pasture production and for sod acreage in regular crop rotations. Nations liberated from Nazi domination will need seed quickly to help reestablish themselves by restoring their devastated farmlands. Shipping seed abroad is an economical way of exporting food and lessens the drain on our own food supplies.
Harvesting of legume and cover crop seed will be encouraged under provisions of the 1944 conservation program of the Agricultural Adjustment agency. Substantial payments will be allowed for each acre harvested, up to a maximum of 25 acres per farm. Prices of seed will be supported at levels designed to give the farmer a fair return. Crops eligible for AAA payments and support prices include most principal legumes and grasses.
In addition to the profit realized, farmers are being urged by the WFA to produce adequate supplies of seed for two principal reasons. First, WFA says, if farmers are to maintain their record production levels, every effort must be made to keep the nation's farmlands in top productive condition. Any effort to draw upon soil fertility without replacing it is a dangerous gamble which may result in declining production in later years. In the second place, many of the crops now being produced in record quantities to meet urgent needs are soil depleting. Continued production of these crops makes it imperative that productivity be preserved by every means possible.
Here is how the situation sums up:
1. Red clover—Reserves at 40 per cent of 1940 level.
2. Alsike clover—Carryover reduced one-half by two short crops.
3. Sweet clover—1943 crop smallest since 1922. Carryover July 1 expected to be 40 per cent of 1939-1943 average.

Cattle Liver Flukes
Liver flukes, long a serious menace to cattle production in parts of Texas and other western states, are now being fought with a new chemical treatment, according to the War Food administration. The drug "hexachlorethane" is combined with bentonite in water to make a smooth emulsion that is easily given as a drench. Liver flukes, difficult to reach by medication, are small, flat, leaf-shaped parasites.

WHY
Thoughtful Voters of Michigan Who are Interested in Good Government and Responsible Home Rule Will Vote "NO" on Proposal No. 4 on Nov. 7.
BECAUSE
1. This Amendment DOES concern the whole state, not Wayne alone, as its sponsors contend. It is aimed at BREAKING DOWN local government. Attempts to pass a similar amendment applying to all counties were heavily defeated in 1924 and 1936. Then, two years ago the effort to take one county at a time began. Again they failed, but the defenders of local government must now rally to decisively reject this proposal for all time.
2. Proposal No. 4 would destroy the two-party system of government, as American as the Liberty Bell, by substituting "nonpartisan" candidates for county offices, all of whom would be elected AT LARGE and responsible to no group!
3. Detroit's present city and legislative officials, now elected AT LARGE, have been notoriously inefficient and corrupt. In grand jury actions one-third of the city council, the MAYOR and a host of police officers were indicted and convicted! The majority of Detroit state legislators in 1944 were indicted and convicted of graft!
4. By giving two-thirds control to Detroit, Proposal No. 4 would destroy home rule for 11 cities and 18 townships in Wayne county. Detroit's debt has soared over 1,000 per cent since 1919; Wayne county's debt, due to haphazard government, has decreased 15 per cent.

That's why the Michigan Institute for Local Government and the Committee for Representative Government join in urging you to
Vote "NO" Proposal No. 4
