

# CASS CITY CHRONICLE

VOLUME 40, NUMBER 12.

CASS CITY, MICHIGAN, FRIDAY, JULY 13, 1945.

EIGHT PAGES.

## Bank Deposits Here More Than Double In Three Years

Increased Deposits and Bond Purchases Make Large Sum in Savings

Bank deposits in the two banks in Cass City have more than doubled in the past three years. The June 30, 1942, statements of the two financial institutions here showed total deposits of \$1,409,290.86. The statements of the two banks dated June 30, 1945, and published in the Chronicle today show deposits in the two banks to be \$3,060,228.26.

Not only have bank deposits here increased more than 100%, but citizens have invested large amounts in government bonds. In the war loan drives No. 2 to 7 inclusive, the Elkland-Novesta district is credited with total purchases of \$991,615. The bulk of these were bought locally and only a small percentage of this amount credited to the district was purchased by outside corporations doing business here.

The Cass City trading community, however, extends over many townships, and it would be interesting to know what the bond purchases in the trading area would total during the six drives. Added to the increased bank deposits, the sum represents a large amount in the monetary savings of the community in the last three years.

## Apply Directly to County Ration Board For Gasoline

"Applicants for gasoline rations must continue to make application direct to their local War Price and Rationing board, either in person or by mail, even though the actual issuance of coupons is by mail from the mailing center in Saginaw," the Tuscola War Price and Ration board chairman announced today.

"Adjudication of applications is done by local board volunteer personnel and any application addressed to Saginaw must be returned to the applicant who, in turn, must present it to his local board."

This statement by OPA has been made necessary due to numerous mailings direct to the Saginaw post office box number by persons who are either confused when they see the return address of a Saginaw post office box on the coupons they receive or who deliberately attempt to "by-pass" their local board.

## Coming Auctions

Having sold his farm, John A. Lewis will sell livestock and implements at auction today (Friday) 4 miles west, 3 miles south and 1/2 mile east of Kingston. Worthing Tait is the auctioneer, the Kingston State Bank is clerk and full particulars are printed on page 7.

Mrs. Archie McLachlan will have an auction sale of household goods at her store building in Argyle on Saturday, July 21, with Earl Roberts as auctioneer. Particulars on page 6.

Trustees of the Bethel Methodist church use space on page 6 to advertise an auction sale of the church building 4 miles north of Cass City on Tuesday morning, July 24. Church equipment will also be sold.

Dennis O'Connor will hold an auction of furniture and farm machinery one block west of the fairgrounds gate on Saturday, July 21. The list of property will be printed in the Chronicle next week.

## IMPROVEMENTS MADE ON EAST MAIN ST. BUILDING

William Eberts of Detroit is making extensive alterations and improvements to the building two doors east of the Standard Oil Co.'s station on East Main street which he purchased last March. The front of the brick building has been remodeled. A large overhead door has been placed on the west side and a plate glass show window will be in the center of the front of the building. A cement floor is being constructed in the south end which will be used as a display room for new automobiles.

Mr. Eberts was associated with garage businesses in Bad Axe and Uby previous to going to Detroit in 1938.

Douglas Allison, who has occupied the building as a welding shop, will continue to use it in his business for a few months longer.

## BOY SCOUTS LEFT SUNDAY FOR CAMP ROTARY

Edward Baker, acting scoutmaster, Otto Prieskorn and Carl Reed took ten boys, members of the local Boy Scout troop, to Camp Rotary near Clare, Sunday where they will spend the week. July 22, the remainder of the troop members and some of the boys who went Sunday to Camp Rotary, will go there to spend a week. The boys who left Sunday are Jack Ryland, Jerry Prieskorn, Jim Baker, Dale Reed, Chas. Kercher, Elwyn Raisin, Jack Douglas and Dean Kerr from Cass City and Donald Loomis and Wm. Burrows of Gagetown.

## G. A. Striffler Died Here Friday At Age of 81 Years

Conducted an Implement Business in Cass City For 45 Years

George Albert Striffler, retired business man of Cass City, passed away at his home in this village on Friday morning, July 6. He was 81 years of age.

Born in Elkland township, the son of John and Mary Striffler, on Mar. 16, 1864, he had spent the greater portion of his life in this community.

Mr. Striffler entered the business ranks of Cass City as a partner of the late J. H. Striffler, pioneer implement dealer here, on Nov. 1, 1899. The business was conducted under the name of J. H. Striffler & Co. for one year when J. H. Striffler sold his interest to the late Hector L. McDermott and the firm name was changed to Striffler & McDermott. This partnership continued for 12 years. From that time Mr. Striffler conducted the business under his own name until Dec. 29, 1944, when, because of failing health, he sold his holdings to Copeland & Munro. He had been in business here for 45 years.

Mr. Striffler served the village as trustee, was village president for two years, and township treasurer on two different occasions.

He was a past master of Tyler Lodge, F. & A. M., a member of the Cass City Community club and the Michigan Implement Dealers' association, and belonged to two hunting clubs, the Canada Creek Ranch Hunting club near Atlanta and the Lost Lake Woods club near Lincoln.

The deceased is survived by his widow, the former Cora Belle Clark, whom he married on Nov. 29, 1900, at Manitowish, Wis., and a son, Irvine Striffler, of Marysville, Ohio. A brother, David Striffler, of Columbus, Ga., and a sister, Mrs. W. R. Kaiser, of Detroit also survive.

Funeral services were conducted at the Presbyterian church by the Rev. Elmer Braden.

Interment was in the local cemetery.

A medical man with the 25th Division Artillery on northern Luzon in the Philippines, Staff Sergeant Kenneth C. Griggs, son of Mr. and Mrs. Earl Griggs, Bad Axe, has been awarded the Bronze Star Medal for heroic achievement in volunteering medical aid to wounded men in an area under intense enemy artillery shelling. Sergeant Griggs voluntarily responded to an emergency call for medical aid men when a field artillery unit was subjected to intense enemy shelling. With high explosive shells exploding around him and with complete disregard for his own personal safety, he remained exposed to fire while administering first aid to the wounded men. A veteran of 26 months overseas service, including more than four consecutive months of action against the enemy on Luzon, Sgt. Griggs saw action with the 25th Division in the northern Solomon Islands shortly after joining the unit on Guadalcanal in May, 1943. In addition to the combat zones where he served, Sgt. Griggs was also stationed in New Zealand and New Caledonia with the "Tropic Lightning" Division. Before entering the army on Nov. 21, 1942, Staff Sergeant Griggs was a bookkeeper for the Uby Furniture Co.

## Coal Consumers Told to Arrange For Supply Now

Warning that nothing has occurred to improve the fuel outlook for next winter, Capt. Donald S. Leonard, state fuel conservation director, is urging householders to lose no time in making arrangements for their supply of coal.

"The situation has actually been aggravated by a falling off in coal production," Capt. Leonard said. "Information sent to me by Solid Fuels Administration for War shows that so far this year production is 7.5 per cent, or 22,174,000 tons, below that for the same period last year. Because of the seriousness of the outlook coal miners were asked to work over the July 4 holiday."

Consumers of coal for heating will be restricted next winter to 80 per cent of their normal supply.

## Missionary Has Thrilling Story

At Shabbona Methodist church Tuesday, July 24, at 8:00 p. m., E. S. T., Miss Lela G. McConnell and a group of her Kentucky mountain students will tell of the work done in that great home mission field. In the days when gun toting, feuds and illicit liquor were the generalities of life, where revenue officers feared to go, that devoted missionary, Miss McConnell, went with the gospel of Jesus Christ. Hers is a soul thrilling story.

## HELWIG FAMILY REUNION HELD ON JULY 4

The annual Helwig reunion was held July 4 at the home of Mr. and Mrs. Harve Klinkman on South Seeger street. Potluck dinner was enjoyed after which ice cream was served.

After dinner, a program was presented and the remainder of the afternoon spent in visiting. The oldest member present was Mrs. Hattie McConnell and the youngest little Kathleen Bartle.

Those present from a distance included Mr. and Mrs. George Helwig of Buffalo, N. Y.; Mrs. Kate Cooper, Flint; Mrs. James Klinkman and daughter, Detroit; Mrs. Carl Ritter, Bad Axe; and Miss Irene Hillier, Pontiac.

Those present from Cass City Turn to page 4, please.

## CHRISTIAN ENDEAVORERS TO HAVE PICNIC JULY 18

Tuscola County Christian Endeavorers are sponsoring a picnic Wednesday evening, July 18, at Enos park on M-46 for the young people of the county. All churches are cordially invited to attend.

The evening's program will begin at 6:30 p. m. with Miss Dorothy Humm of the Fairgrove Evangelical church in charge of recreation. A wiener roast will follow, each person furnishing his own wieners and buns.

Rev. Elmer Braden, pastor of the Caro Presbyterian church, has been secured as guest speaker at a camp fire service, closing the evening's program.

## Pre-School Clinic Will Be Held Here On July 25

Is Planned to Acquaint Children and Parents with Health Program

The local board of education has voted to require all children in the kindergarten and first grade to present certificates of immunization treatments completed or started for whooping cough, diphtheria, and smallpox. Parents are requested to take their children to their family physician immediately in order that the treatments may be completed by Nov. 1, 1945.

There will be a pre-school clinic for kindergarten children held in the kindergarten room of the Cass City public school on Wednesday, July 25, at 2 p. m. This includes all beginners and first grade children who are coming from the rural schools for the first time to the Cass City school.

Mrs. Geraldine Webster, kindergarten teacher, will be in Cass City and will be present at the clinic and she will plan to visit the homes of the children who are starting school for the first time. Mrs. Evelyn Wells, R. N., school nurse, will also be present. Supt. Willis Campbell will answer any questions concerning transportation. This clinic is planned to help the child and parents become acquainted with the school and health program. "Mothers and children please remember to come and join us in the kindergarten room of the school on Wednesday afternoon, July 25," says Mrs. Wells. "We will be looking for you."

Communicable disease control is necessary in peace, and essential in war. Every community can by unified action of parents, school officials and the health professions protect itself against outbreaks of communicable diseases. Necessary

## ROTARIANS TOLD HOW TO WIN FRIENDS

Rev. Elmer Braden, Presbyterian pastor at Caro, was the Rotary club speaker here Tuesday. Chalk drawings illustrated an interesting talk on the subject, "How to Win Friends and Influence People."

Program Chairman M. E. Auten announced that Dr. Dickerson of the Caro State hospital staff would be the speaker at next Tuesday's luncheon.

## HALF YEAR AUTO LICENSES GO ON SALE NEXT MONDAY

The half year auto licenses for the last half of 1945 will go on sale Monday, July 16, at the branch office of the secretary of state at Copeland & Munro's.

Mrs. F. H. Morgan and granddaughter, Susan Morgan, of Detroit spent the week with Mrs. M. D. Hartt.

## Monday Is Waste Paper Day

Monday, July 16, is waste paper pickup day in the Cass City community. Householders are requested to have bundles ready by 9:00 a. m. and placed in plain sight of the truck driver.

Waste paper as well as rags are badly needed and the cooperation of citizens will help relieve the situation. A bundle or more from every home and business place will make the effort a 100 per cent project. Willis Campbell is in charge of the drive.

Next Monday is the day and they're counting on all to participate.

## Mrs. Starmann and E. L. Schwaderer Chosen Trustees

School Treasurer Reported Receipts of \$83,822.06 for the Year Just Closed

Dr. F. L. Morris, president of the board of education, presided as chairman of the annual school meeting of the Cass City district Monday evening and called upon Rev. Arnold Olsen to offer prayer before the business of the evening was considered.

Secretary F. E. Hutchinson read the minutes of the annual meeting of 1944 and also read the report of Treasurer E. L. Schwaderer.

The treasurer reported receipts of the year to be \$83,822.06. This with a balance on hand of \$20,699.43 at the beginning of the school year made a total of \$104,521.49. Principal items of receipts included \$21,272.11 for school aid, \$22,309.32 for tuition, \$17,893.53 for taxes, \$12,688.64 for bus fares, \$6,210.82 from primary fund, \$2,956.80 from vocational fund and \$495.84 for miscellaneous items.

Disbursements for the year were \$76,004.58 from the general fund and \$12,420.00 for school bonds. The balance on hand at the date of the report was \$16,096.91. Items of expense over \$1,000 each included \$48,628.95 for teachers, \$1,717.32 for clerical salaries, \$1,471.97 for janitor supplies, \$3,316.16 for janitor salaries, \$2,006.64 for fuel, \$4,957.25 for bus drivers, \$7,169.81 for bus expense and a new bus. The school has enough fuel on hand to heat the building the coming year.

President Morris named C. M. Wallace and Raymond McCullough as tellers and they were sworn in by Frederick H. Pinney.

On the first ballot for trustee, Mrs. Lucy Starmann received 19 of the 29 votes cast. She succeeds Dr. Morris in that position.

On the second ballot, Ernest L. Schwaderer received 23 of the 29 votes cast and he succeeds himself as trustee.

Both were chosen to serve three years as members of the board of education.

Frederick H. Pinney expressed the opinion that more voters would attend the annual school meeting if it were advertised more extensively.

## Inter-church Bible School Has 61 Pupils Enrolled

The inter-church vacation Bible school announced a total enrollment of 61 pupils on Wednesday, the third day of the school. Eleven church and Sunday school workers are assisting, and the sessions are held daily from 9:00 to 11:30 at the Evangelical church.

The enrollment by churches of the community is as follows: Presbyterian 22, Evangelical 20, Methodist 10, Baptist 8, Nazarene 1. In the plans for today (Friday) is a game of "Jungle Din" for the juniors and intermediates, and a treasure hunt will be scheduled for next week under the recreational leadership of Rev. M. R. Vender. A devotional period is held daily for the school as a whole. Each division has its periods for lessons, worship, handiwork and games. The school will close with a public program at 11 a. m. Friday, July 20, and a special treat for the children of the school.

Other children of the community are invited to enroll for the last week of the school.

## Increased Dairy Production Payments

Dairy farmers in Tuscola county will receive increased dairy production payments beginning July 1 when the summer schedule of rates became effective. These government payments, designed to encourage production of milk and butterfat, are adjusted quarterly.

The new rates for this county for production in July, August and September will be 45 cents per hundredweight for milk and 18 cents a pound for butterfat, according to Charles B. Eckfeld, county AAA committeeman. Present rates are 25 cents for milk and 10 cents for butterfat.

State Senator Audley Rawson returned last Wednesday from the governors' conference at Mackinac Island. He was accompanied on the northern trip by Senator Higgins.

WEEKLY NEWS ANALYSIS  
**Biggest Air Raids on Jap Targets  
Coincide With Invasion of Borneo;  
Vinson Outlines U.S. Postwar Plan**

Released by Western Newspaper Union  
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

**BIGGEST RAIDS:  
On Jap Targets**

Nearly 600 Superfortresses, in a record raid on the Jap homeland, dropped some 4,000 tons of incendiary bombs on four of the empire's industrial cities. The targets included Kure, Shimomoseki, Ube and Kumamoto. Kure is Japan's greatest naval base on the Inland sea; Ube is a principal coal center and rates first in the empire's production of magnesium; Kumamoto is a military training center.

None of these cities had been previously fire-bombed. This raid brought to 22 the number of Jap cities to be scorched by incendiary attacks. Up to this time Tokyo had suffered greatest from B-29 incendiary attacks, the heaviest B-29 fire raid having been made on the Nip capital on May 23, a raid in which 550 of the huge bombers participated.

Shimomoseki, with a normal population of 196,000, is a vital bottleneck of Nipponese rail transportation. Much of the coal required for the war plants of Honshu must pass through Shimomoseki, which is the southern terminus of Honshu's railroads.

When V-J Day arrives, states Vinson in his report to the nation, the fewer war workers that will have to be absorbed, the smoother will be the transition. His plan immediately following V-J Day calls for an immediate reduction in taxes, for industry and individuals, which will increase purchasing power. Proper use of the country's vast reservoir of liquid assets—230 billion dollars or three times the 1939 total, will

FRED M. VINSON

be a self-starter for postwar economy if planned right. Other points in his program call for federal aid to foster small business and encourage the birth of new business; vigorous anti-monopoly program; reduction of industrial strife and a higher wage policy of industry; blanket indorsement of Bretton Woods; expansion of unemployment compensation; raise standard of living for the farmers; and fiscal policy to maintain economy at or near full employment.

**PEACE PACT:  
Senate Action**

A United Nations charter, which envisioned the world's hopes for an enduring peace, was presented to the senate by President Truman, who appeared before that body personally. Little opposition was at first apparent to the new world league and an overwhelming majority of the senators seemed in favor of its acceptance.

Fifty nations whose representatives had gathered in San Francisco framed the charter which is designed to prevent aggression by force. Approval of the document by the U. S. senate, Britain, Russia, China, France and 23 other nations will establish the new world league for peace.

President Truman's historic plea for acceptance of the charter was made where, 26 years ago, Woodrow Wilson stood to plead, unavailingly, for a similar cause.

The document was flown from San Francisco to Washington and delivered to the President by Alger Hiss, state department official, and secretary of the world peace conference.

**MUSHROOMING DEBT:**

America's national debt was a little under 1 per cent of the country's national wealth a century ago—to-day it is 65 per cent, according to a study by Northwestern National Life Insurance company. The average per capita share of the national debt is \$307, compared with \$2.77 a century ago.

The enormously increased proportion of public debt to national resources points to the need for vigorously maintaining business activity.

**ANOTHER GOAL:  
Borneo's Oil**

Australian troops, with supporting American and Dutch units, all led by General MacArthur landed three miles east of Balikpapan, Borneo's oil center, the richest oil center of the Dutch East Indies. This was the

General MacArthur who exposed himself under fire on Borneo.

third operation in Borneo by Australian troops since May 1.

The landing was made after the heaviest naval bombardment of the entire Pacific war. The naval and aerial bombardment continued for 10 days before the troops went ashore, and during this time cruisers and destroyers paraded up and down the invasion coast, blasting everything that was seen to move.

Balikpapan is 320 miles down the coast from Tarakan island, where the initial Borneo landing was made.

Allied troops, supported by tanks, fought through groups of Japs to the top of an important ridge. The Japs fled northeast in every type of vehicle they could lay their hands on.

Landing losses were light, and resulted mainly from mortar, small arms and artillery fire.

The importance of taking Balikpapan is clear from this: In peacetime its plants produced 2,500,000 gallons of gas weekly.

This landing in Borneo, according to General MacArthur, secured the domination of Borneo and split the East Indies, virtually completing Allied tactical control of the entire S. W. Pacific.

More than 300 ships were in the Allied invasion fleet, which included the U. S. 7th fleet and Australian and Netherlands units.

**OPA EXTENDED:  
Agriculture Gets WFA**

Price controls of the OPA were extended for another year when President Truman signed the bill at Kansas City, just in time to prevent the powers of the Price Control and Stabilization act from automatically expiring. The necessary papers were flown to the President, who was returning from San Francisco. In renewing the OPA, President Truman declared that stabilization controls must be continued into the postwar period. "We must always remember that it is the war, not these agencies, which is responsible for these shortages and hardships," he emphasized.

Another important move to improve overall production and distribution of food was the placing of the War Food administration directly under the control of the new secretary of agriculture, Clinton Anderson. In commenting on this action, the President stated that he "was glad congress did not disturb arrangements for co-ordinating the stabilization and reconversion programs, and for settling the differences among the agencies."

**DANGER:  
In September**

With the "Mighty Seventh" war loan drive ended, if the usual practice is followed, September will see thousands of bondholders rushing to the bank to cash in on their "E" bonds when they fall due.

During campaigns, few bonds are offered for redemption, but after the campaign is over an "organized" movement gets under way to redeem those that are 60 days old. If previous figures are any indications it is to be expected that 50 per cent of the bonds will be turned in at banks before they mature—most of them during September.

**More Metal Freed**

The War Production board announced that it was freeing all available supply of metal for civilian goods—that is metal that is left over after all war needs have been met. It also began to scrap its priority system for all but munitions items.

This does not mean that civilian production can begin full production. Many items will not be on sale for another year, and few will become plentiful within the next five or six years.

**HOME FRONT:  
House Buyers Revolt**

War-boomed realty inflation prices are being punctured on the West coast by a buying public that has become choosier and harder to sell.

This buyers' rebellion of homes has resulted in prices in San Francisco, Los Angeles and Portland falling from 10 to 15 per cent and with little interest being shown except when bargains are offered. So far Seattle is selling at peak war prices, when sales are made.

Realtors state that the buyers' rebellion is not caused by war plant lay-offs, but rather by the fact that purchasers of homes want a new postwar model and are not willing to invest much capital in prewar style houses. Publicity given to the "dream house of the future," has done much to lower buyers' demand for inflated priced older homes.

Dealers are upset because they believe that bright forecasts are premature and the public is being led into false hopes. They cite the announcement of Henry Kaiser's announcement of an ideal home for \$5,000. They say this same house would have to be sold from \$7,500 to \$8,000, so buyers are waiting and prices are returning to normal.

**GOVERNORS MEET:  
Charter Approved**

The 37th annual governors' conference was held at Mackinac Island, Mich., to help win adoption of the world peace charter framed at San Francisco by 50 participating nations, and to deliberate on post-war problems. The conference lasted three days.

Forty-three state and territorial governors were present. Among the speakers was Comdr. Harold E. Stassen, former governor of Minnesota, who played a key role on the American delegation to San Francisco.

Governor Dewey of New York, at a press conference, urged speedy adoption of the charter without reservations.

**CABINET:  
Five New Members**

With the appointment of James F. Byrnes as secretary of state and the swearing in of four new appointments. President Truman's official family has in fact as well as name become reconverted.

Byrnes has had a varied public career. He was elected to the house of representatives in 1911 and served until 1926, when he failed in a try for the senate. He was elected to the senate in 1930 and during his second term resigned to become a member of the Supreme court, leaving in 1942 to head the nation's war agencies.

Others who have taken over cabinet duties include Clinton P. Anderson, until now a congressman from New Mexico, who became secretary of agriculture; Lewis B. Schwellenbach, former senator from Washington and former federal district court judge, who was sworn in as secretary of labor; Robert E. Hannegan of St. Louis, chairman of the Democratic National committee, who became postmaster general, and Tom Clark, an assistant attorney general from Texas, who assumed the post of attorney general.

Anderson, upon taking office, promised to bring about an improvement in the food situation.

**FOOD CROPS:  
Frost Factor**

While the pea canners have been able to keep their promise that they would process more than in 1944, other canners, hampered by not so favorable growing conditions may fall short of their goal. As late as April, all processors believed that they would have record runs.

Apparently the canners will reach their allotment on canned fruits, but if they do, the winter supply of fruits will be short. It looks instead as if some fresh fruits will be put on the market at the expense of the canned items.

Fresh vegetables are now getting easier to find and it begins to look as if the potatoes, beans and rice for storage will be adequate. California, with one-fifth the country's tomato acreage, expects a normal crop, while Indiana with 95,000 acres is having its trouble.

West coast's fruit canning has gotten off to a good start and prospects are good there, while the middle west and eastern states will have little to offer canners.

It is still too early to be sure about the corn crop. This will depend upon the first frost date.

## An Important Hygienic Contribution To Public Welfare

The scientific preservation that  
precedes a funeral ceremony plays  
a highly important dual role. It  
helps bring cleanliness and dig-  
nity to the service and, as a re-  
quired health measure, it aids the  
authorities in safeguarding com-  
munity well-being.

Our officially prescribed sci-  
entific training, wide experience and  
improved facilities provide ben-  
efits that rank high among profes-  
sional contributions to public  
welfare.

## Converting Wastes Into Poultry Feed

### Vitamin Concentrates From Vegetable Spoils

Vitamins are absolutely necessary  
for poultry—to baby chicks they are  
all-essential. Considerable work has  
been done in order to provide poultry  
with the elements, either from a  
vegetable or animal source and  
rapid improvement has taken place.  
The newest source is promised  
from waste vegetable leaf meal.

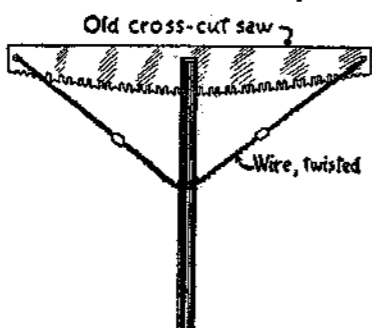

Chicks Started With Farm Waste.

which has been proven an excel-  
lent chick feed supplement, accord-  
ing to results of cooperative re-  
search between the U.S.D.A. and  
the Delaware agricultural experi-  
ment station.

The experiment was undertaken  
to find uses for the large tonnage  
of waste leaves in the production  
and processing of vegetable crops.  
It showed that the blade portions of  
the leaves are high in protein, care-  
tene and riboflavin, all of which are  
needed in poultry feeds. Some were  
so rich in carotene, or vitamin A,  
that they have become sources of  
raw material for vitamin concen-  
trates.

The scientists have processed  
large quantities of both field and  
packing house vegetable wastes.  
They utilized the waste leaves of  
broccoli, beets, spinach, turnips,  
carrots and lima bean vines, and  
from all excellent sources of poultry  
feed.

### Saw for Barn Scraper

An efficient scraper for the barn  
floor can be made of an old cross-  
cut saw. The scraper may also be  
used in poultry houses and on  
roosts.

Braces should be run from the  
saw on either side to the handle, at  
an angle shown in the illustration.  
If steel rods are not available, heavy  
wire may be used.

### Agriculture In the News W. J. DRYDEN

#### Apples

The milk of the apple is being  
made into medicine and candy. This  
process was developed  
in Virginia from apple pulp.  
The use of apple  
syrup in tobacco, as  
a glycerin substi-  
tute, has been well  
advertised. Other  
uses have also been  
found for the syrup.

By the fermenta-  
tion of the expressed juice of the ap-  
ple, an alcoholic beverage is pro-  
duced from apples.

It takes, on the average, a bushel  
of apples to produce three gallons of  
cider. It is now possible to se-  
cure concentrated cider.

The pulp, after juice has been ex-  
tracted, has a definite feeding value  
equal to corn silage for cattle.

Treacle, made from apples, can  
replace 50 per cent of sugar usually  
employed in making preserves. A  
good quality vinegar is also pro-  
duced from apples. Other uses of  
apple products are: supplement to  
grain flour products, apple wax used  
in lubricants, and apple seed oil.

#### Early Chick Feeding

As soon as baby chicks are placed  
in the brooder house, they should be  
fed, and taught to eat, otherwise  
they may eat part of the litter and  
die. While a sand litter is excellent,  
the crop full of sand will not result  
in chick growth or in health.

The first few days it would be well  
to place the feed on a cardboard.  
After four or five days, hoppers,  
which prevent the chicks from get-  
ting into the feed should be substi-  
tuted.

## Torn Franklin Refuses to Die

### Big Carrier Survives Worst Ship Disaster of War; Heroic Rescues.

WASHINGTON. — The U. S. S.  
Franklin, huge Essex type carrier,  
has come back from the most ter-  
rible U. S. ship disaster in this war  
— and will fight again.

For 15 hours in the Pacific ocean  
she was a funeral pyre for heroes.  
She left more than 1,000 casualties—  
332 dead and missing — as the price  
of her survival. It was the heaviest  
price thus far paid by an American  
fighting ship in this war.

An hour after dawn on March 19,  
as she stood 60 miles off Japan,  
she was as proud and trim a war-  
ship as ever rode the waves, says  
the United Press.

A few minutes later, because one  
Jap dive bomber got through, she  
was a volcanic chaos of bursting  
bombs, flaming gasoline and explod-  
ing rockets and gun ammunition.

#### Back for Repairs.

"Men were blown off the flight  
deck into the sea, burned to a crisp  
in a searing white-hot flash of flame  
that swept the hangar deck, or  
trapped in compartments below and  
suffocated by smoke. Scores  
drowned in the sea. Other scores  
were torn by jagged chunks of  
shrapnel.

By nightfall she counted her  
heroes high in the hundreds, her  
dead at 341, her missing at 431,  
and her wounded at more than 300.

Big Ben's story can be told now  
because she came back. After steam-  
ing 12,000 miles under her own pow-  
er, Big Ben, unrecognizably seared  
and battered and mangled, is home  
at long last in a berth at the New  
York navy yard in Brooklyn. There  
she will be made whole again.

The Jap bomber, its approach un-  
detected, caught the carrier at the  
moment of greatest vulnerability  
when its planes were being launched,  
its gasoline lines were full and  
flowing, and its bomb and rocket  
stores exposed.

Heroic rescue work, brilliant sea-  
manship, and incredibly efficient  
damage control operations saved  
many hundreds.

#### Refused to Die.

But at least 706 of the crew sur-  
vived to sail the carrier from the  
scene of disaster, and other hun-  
dreds of sailors and airmen were  
removed and kept in the Pacific.

The Japs reported Big Ben sunk,  
and the navy admits that "she  
should by all accounts have gone to  
the bottom."

But Big Ben refused to die. For  
seven hours packed with deeds of  
heroism unrivaled in this war she  
lay dead in the water. For nine  
hours she had no communications,  
no electricity, no drinking water.  
For 15 hours fires burned — in  
magazines of flaming gasoline at first;  
in smoldering, fume — generating  
pockets at the last.

Before Big Ben came to life again  
and shook off the tow lines of friend-  
ly ships, she had drifted within 38  
miles of the Jap home island of  
Shikoku.

But Big Ben refused to die — be-  
cause her skipper, 47-year-old Capt.  
Leslie E. Gennies of Coronado, Calif.,  
said "I won't abandon this ship,"  
because her crew would not be  
coward by death; because her offi-  
cers and men, those that lived, did  
all the right things at the right  
times.

### Town in Scotland Left With 5,000 Eggs to Eat

EDINBURGH, SCOTLAND. — The  
people of Campbelltown were amazed  
when they saw 5,000 eggs heaped in  
a stall at a sale to aid a welcome  
home fund for servicemen.

Women, thinking they could send  
some to loved ones in the service,  
were eager purchasers. But there  
was a catch, as a sailor's wife found  
when she tried to send a few eggs to  
London. A government order says  
they must be eaten where produced.

So the 5,000, along with some but-  
ter, went to augment Campbell-  
town's Sunday breakfast.

### 'Nazi,' 70 Years Ago, Meant Something Else

CINCINNATI. — That highly dis-  
tasteful word "Nazi" first was used  
more than 70 years ago.

Dr. Edwin H. Zeydel, professor of  
languages at the University of Cin-  
cinnati and discoverer of literary  
oddities and novelties, says that as  
early as 1872, Wilhelm Busch, a Ger-  
man humorist, cartoonist and  
painter, coined the term "Inter-  
Nazi" to describe a character in  
one of his works. This "Inter-Nazi"  
was an ardent internationalist, un-  
like his present-day namesake.

Dr. Zeydel says also that "Nazi"  
also has been in use as a south Ger-  
man nickname for "Ignaz."

### Will Ask Burning of All Pastor's Papers

NORRISTOWN, PA. — Burn-  
ing of all the sermons and manu-  
scripts of the Rev. Dr. Lewis Sey-  
mour Mudge, stated clerk emeritus  
of the general assembly of the  
Presbyterian church, is ordered  
in his will, filed for probate here.  
Dr. Mudge, a founder of the  
World Council of Churches, gave  
no reason.

## BECAUSE SOMEONE BROKE THE STREET LIGHT!

Bitter experience—reckoned in smashed cars and bleeding, broken bodies—proves that the  
less street light there is in a community, the more accidents.

And here's the point: Few streets in America have enough light at night. That makes every  
street lamp specially important.

Anyone who breaks a street light may be condemning a fellow American to sudden  
death or crippling injury at that darkened spot a few hours later. REPORT BROKEN LIGHTS  
to any Edison office or to the police.

## THE DETROIT EDISON CO.

Serving more than half the people of

Lights of New York by L. L. STEVENSON

Manhattan Scene: Billy Rose and Morton Downey in earnest confab in the Cub Room. . . . The mighty mahout would like to star the svelte Celt in the new "concert variety" show he is putting together. . . . He's offered Downey five times as much as he paid him only six years ago when the Irishman's pipes warbled and whistled, "Yours for a Song," the theme song of Rose's Aqueduct at the World's Fair. . . . Downey, who's been rediscovered on the air waves and as a result, is paying about 80 per cent of his income to the government, politely refuses even though he avers, "It isn't fair to Morgenthau." . . . Jane Pickens looking very Greek goddess in daring sandals that lace around her ankles, at the Versailles. . . . Glamorous Gertrude Nieson rocking Le Ruban Bleu to its very foundations by showing up in black nylon stockings. . . . Stately Irene Rich, swathed in precious mink, getting admiring glances at the 1-2-3—it's great to be Rich!

Side Glances: Vera Zorina, the glamour girl of "The Tempest," is making up for the childhood years of study that ballet took from her. She is deep in text books ranging from the history of philosophy to the theories of acting by the great theater people of bygone days. . . . Kate-Ellen Murtah, wackiest one-third of the Murtah Sisters trio, is serious enough about her painting. Whenever she is in town she attends long-hair life classes under the pseudonym of Katherine Martell. . . . Helena Bliss, the "Song of Norway" diva, has not touched a 50-cent piece in more than four years—since the day when, after she had taken four of them in change, she sprained her ankle, lost a valuable brooch, parted from her boy friend of the time and caught a cold. She got rid of the coins hurriedly and since then, has insisted on taking her change in smaller denominations.

Faces & Places: Grace Hartman tripping — but literally — into Theodore's as her famous foot collides with the doorstep. . . . Jean Murtah very incognito at La Martinique even without dark glasses — she has dyed her naturally ash-blond hair brown. . . . Al Moritz, rising young tunesmith, giving the wide-eyed and wide-eared spectators at Lindy's a whistling review of the score of "Blue Holiday," the Ethel Waters-Josh White revue formerly titled "The Whistling Tree." Incidentally, it was one of Moritz' tunes that suggested the new name for the show. . . . Up to the minute Arlene Francis, hep to the headlines, wearing a corsage of tiny clustered United Nations flags at the Stork. . . . Leo G. Carroll, who is usually placid and unruffled, hurrying frantically through an early dinner at Bradley's so that he may make his curtain at the Lyceum theater on time—the late George Apley?

This & That: Gloria Nord, beautiful "Skating Vanities" star, has taken to traveling from town to town during the show's cross-country tour, via motorcycle, her favorite vehicle—sic transit Gloria? . . . Jose Greco, flamenco dance specialist who is forming his own company, won't set foot on a stage unless he is wearing something red, even if it's only a red handkerchief. . . . Chuchui Martinez, the handsome troubadour from Mexico, eschews the usual little black book to keep track of his favorite telephone numbers. Chuchui keeps his on cards in a small portable filing cabinet. . . . Ralph Maurice, host of Bradley's, collects rare recipes as a hobby. His collection of nearly 3,000 includes authentic recipes for dishes served to Catherine of Russia, Samuel Johnson, Queen Victoria, Louis XIV and many other well-knowns of the past.

Here & There: Nancy Walker with John Dall at Toots Shor's celebrating her 15th performance in "On the Town." . . . Her ribs, Georgia Gibbs, looking mighty like a peach in her new musical blouse at the 21 Club. . . . Jerome Robbins, dancer-choreographer, at the circus gathering material for his next ballet piece. . . . Shades of the spectrum at the Blue Angel—newsman Cecil Brown, actress Mitzi Green and sportscaster "Red" Barber. . . . Radio producer Mildred Fenton at the Colony showing friends pictures of her new country home, "Stony Brook." . . . Leland Rex Robinson, "Let's Face the Fact" monitor, facing the fact when, at Broadway and 74th, he tries to stop a man from beating a woman — and the next thing he knows, the woman starting to beat him up.

First, She Mows Lawn; Then He Shovels Snow

ONAWA, IOWA. — Wilbur Nielsen made an agreement with his wife that if she would mow the lawn this summer he would shovel snow off the walks next winter.

One day Mrs. Nielsen completed giving the lawn its first trimming of the year.

Next day Nielsen dug up the snow shovel and cleared the freshly fallen snow from walks about their home.

Letters from Men in the Service

Pfc. Erwin Whittaker is now in Cestice, Czechoslovakia, a little country town of about 1,000 people. In a recent letter to his parents, Mr. and Mrs. Freeman Whittaker, he writes: "Our job here is the same as it was in the Ruhr valley, like the policemen in Detroit. The German army has run this country for four or five years. Now the Americans occupy the west end and the Russians the east end. As soon as the Czech government gets set up and going, the armies will leave and the country will run itself without the aid of the German army. We crossed the Danube river. It is very pretty. We came through Nuremberg, Germany. The Cass City paper is coming right along now."

Under date of June 23, Pfc. Leslie Steward wrote his parents, Mr. and Mrs. A. H. Steward, from Weilberg, Germany. The following are paragraphs from his letter: "I am in battalion headquarters now as assistant company clerk. It is very interesting work and I like it very much.

"I'm still not sure when I'll be getting home. There are a lot of rumors going around but I won't believe any of them until I actually see them happen. Seeing is believing, you know.

"I think you remember reading an article in the paper about an engineer outfit losing some men when the bridge across the Rhine at Remagen collapsed. Well, it was this outfit. I didn't know it until I had been in it about a day. I never even noticed what the number was when I read the news.

"I've had swell meals since being in headquarters. Plenty of it, too. That's the nice part of it."

**TWO TOES BROKEN** IN UNUSUAL ACCIDENT

Dalton Partridge, 12, received two broken toes in an unusual accident last week. He was riding on the back of a truck, driven by his brother, Donald. When Donald was turning the truck around in the country, he backed it into a ditch bank and crushed two toes on Dalton's left foot, cracking the bones. The foot was x-rayed and given medical attention.

Larger Acre Yields  
Receive Weather AidMajor Role Played  
In Control of Pests

During the war years good weather has consistently pushed yields of crops beyond what would be expected with ordinary conditions and improved farming practices.

Additional credit for high acre yields during the war years is attributed by Agricultural Adjustment

Grasshoppers destroy millions of wheat dollars

agency reports to the widespread increase of land conservation practices, which aid in producing bigger crops from the same planted acreage.

The problem for farmers lies in the fact that it is not easy to guess which pests will increase and which crops will be attacked, since weather conditions are very likely to encourage some pests while reducing others. Last fall, for instance, unusually large populations of several serious crop pests went into hibernation. As a result, observations now show that many, such as chinch bugs, the boll weevil, the codling moth, and the cattle pests, the screwworm, began the season with the largest over-wintering population in many years.

Although entomologists do not predict that increased insect damage is inevitable this year, they urge farmers to be more watchful than usual throughout the season, and to take definite steps to save crops and animals. Ordering insecticides and equipment now, before pests have attacked crops, is vital to proper handling of the situation.

Wasteful Branding  
Cuts Stockmen's Profit

The stock raisers of America are losing more than \$10,000,000 a year by faulty branding. Considered necessary on the ranges to identify ownership, and required by law in some sections, it is possible to brand cattle without material damage to the hide.

The value of the hide represents 50 per cent of the by-products, and the purchase price of all cattle is determined by value of by-products as well as meat. This makes it essential that when branding is desirable, that the brands be as small as possible, and placed on jaws, neck—or that acid branding be used. In the past, due to direct market value of hides, producers have paid little attention to the condition of the hide. Ticks, grubs and brands, which had ruined hides, were not considered seriously. The attitude

has been, "when we get paid a good price for hides, we will turn out a quality hide." Despite the justice in this attitude, the farmer not only is losing 10 million dollars annually, but the men in service are out 3 million pair of shoes—and rationing of civilian shoes must continue.

## Hog Cholera Serum

The loss among hogs from hog cholera has been reduced 80 per cent since the discovery and use of the preventive serum-virus treatment. While sanitation is essential, it is not always possible to protect hogs by sanitation alone.

The most dependable preventive is to keep the entire swine herd immunized by the serum-virus method. Since dosage is governed by weight, it is more economical to treat pigs while still young.

## CLOSE CUT

William F. Cody ("Buffalo Bill"), after matching wits with the Indians for some years without mishap, finally deserted the open spaces and went into the show business with his own wild west show.

One morning in Boston he entered the hotel barbershop to have his long hair trimmed. He had been to a gay party the night previous, and had had a few drinks too many.

As the barber placed the sheet about him, Cody fell into a sound sleep. The barber, assuming that the showman wished a close trim, applied the scissors with vigor. Some minutes later Cody awoke. Still somewhat dazed, he looked down at the floor and saw his hair piled up at the side of the chair.

With a wild snort, he clapped his hand to his head and cried:

"Good heavens! Scalped at last!"

REAL DELIVERY

A flight of bombers had ranged far and wide over Germany, spreading tons of propaganda leaflets over the disgruntled citizens of the Third Reich.  
All of them returned safely to their base except one. Hours passed. Night fell. Still no plane.  
Finally, at dawn, its engines were heard. As it landed, the operations officer ran out to the ship. "What took you so long, anyway?" he yelled.  
"I delivered the leaflets, that's all," was the reply.  
"How long does it take to drop leaflets?"  
"Oh," said the pilot. "We didn't drop 'em. We were pushing them under people's doors."

### Oak Bluff Breezes

Monday morning's eclipse of the sun was observed by the early risers at the bluff. A cloudless sky made the eclipse very easy to see and while it was not total yet enough of the sun was covered by the moon's shadow to produce the unusual or peculiar light seen only at the time of an eclipse, which recalls Dr. Phelps' statement at Huron City after his having seen the total eclipse of the sun in 1932 near Montreal, Canada. Quote: "It is impossible to describe a total eclipse of the sun or to convey anything of the impression it makes on the beholder. Talking one day with the famous engineer, Charles Augustus Stone, who had been all over the world. I asked him if the Grand Canyon of the Colorado was not the most sublime spectacle he had even seen; 'yes, with one exception—a total eclipse.' He had, I believe, seen seven total eclipses. At this eclipse in 1932, the beginning of totality was a supreme moment in my life and this year was one of the happiest in my happy life and made especially memorable because I saw for the first time two things I had always longed to see—Athens and a total eclipse of the sun." When a man of Dr. Phelps' ability and reputation makes such a statement, further words are futile.

Mrs. Fred Kinde of Bad Axe and Mrs. W. McKay Skillman of Detroit were Friday visitors at the Wurm cottage.

### NOVESTA

Mrs. Fred White of Cass City spent the week end with her daughter, Mrs. Russell Cook.

Arthur Pratt spent from Thursday to Saturday with Mr. and Mrs. Edwin Jean of Aplin Beach.

Mrs. A. H. Henderson entered Pleasant Home hospital Thursday evening and underwent an operation Friday morning.

Mr. and Mrs. Neil Hicks and daughters of Flint visited from Tuesday until Saturday at the home of Mr. and Mrs. Claud Peasley and relatives in and near Deford. Mr. Hicks left Tuesday of this week in the service of Uncle Sam.

Creighton Henderson of Tacoma, Wash., came Wednesday to visit his brothers, A. H. and Chas. Henderson, and sister, Mrs. George McArthur. He was accompanied from Pontiac by two other sisters, Mrs. Park Wagg and Mrs. Henry Sweet, and Mr. Wagg. This is the first time in 25 years that Creighton Henderson has seen his sisters and brothers. Burton Henderson of Lapeer is also a brother and Mrs. Chas. Rohrbacher of Pontiac is another sister. Mr. Henderson returns to his home in Washington July 18.

Pvt. Leslie Peasley of Lake Charles, La., spent Saturday night and Sunday with his parents, Mr. and Mrs. Claud Peasley.

## Not Stubborn Just Tired

Sure! Tractors get tired. They ache in the worn bearings; they creak in the loose joints; poor alignment of gears is a toothache, and faulty ignition is a bad case of heartburn. Maybe they keep on going, but they can't do a real job of work.

We are specialists in the cure of tired John Deere Tractors. We put new life into them because our factory-trained experts spot and cure all these ailments before they develop into a serious case for a major operation.

Don't wait for your equipment to "sit down" on the job. Bring it in to us for inspection and overhaul. We'll turn it back to you with an assurance that you'll be free from worry about its performance.

## DOWN MEMORY LANE

FROM THE FILES OF THE CHRONICLE.

Twenty-five Years Ago.  
July 16, 1920.

The two local sand and gravel companies that were organized here last fall and commenced operations early this spring in laying sidetracks to their properties and installing their equipment, will soon be ready to make shipment of their products.

The installation of a Grand Rapids safety burglar alarm system has just been completed at the Exchange Bank of E. H. Pinney & Son.

Coal of almost any kind is not a question of price but rather a question of obtaining, according to local dealers who are worrying along with their customers whose supply of heat units is decidedly limited at the present time and the present condition is not alone to be combatted. Every indication points to the prevailing scarcity during the fall and winter months and dealers who are watching the coal horizon are of the opinion that there is little relief in sight.

Deford has since the day of birth been a potato shipping point not to be sneezed at. Now the producers of tubers have roused from their slumbers and will get the "long price" with the middle man eliminated. They are all to become members of the celebrated Cadillac potato selling association.

School taxes in School Dist. No. 5, fri., Elkland, will be nearly 100 per cent higher this fall than in 1919 because of the increased cost of school maintenance. Last year's voted tax was \$8,500. At the an-

nual school meeting Monday evening, the board of education's recommendation that \$16,000 be raised by direct tax was adopted by the taxpayers. G. A. Tindale and Mrs. Edward Pinney were elected trustees.

Thirty-five Years Ago.  
July 15, 1910.

Aaron Endersbe, Grant township supervisor, died at Bad Axe Saturday morning, following an operation in the city hospital.

The Farm Produce Co. was organized at the town hall Saturday evening and articles of incorporation have been filed with the secretary of state. The company is capitalized at \$20,000.

Jas. J. Hays and B. F. Benkelman were elected trustees at the school meeting in Dist. No. 5, Elkland.

Mrs. J. C. Lauderbach completed the sale of her confectionery and ice cream business to Chris Schwaderer the first of the week. Miss Cora and Eugene Schwaderer are now in charge of the business.

Ethel Howey, Vina McPhail, Daisy Bigelow and Carrie Johnson were the eighth grade graduates at the Wickware school. Rev. W. L. Moore of Shabbona gave the commencement address at the Wickware M. E. church.

The work of remodeling the Evangelical church is progressing nicely. The brick veneering is well under way and the building is ready for plastering.

## Mexico's Teachers Learning English

That Mexico is taking definite steps to make English a widely spoken second language is shown in a report just received by the University of Michigan from its English Language Institute in Mexico City.

Likely one of the most distant university branches in the world, the Institute was established at the request of the Mexican government and the U. S. State Department in 1942. Mexico wanted a special school to train teachers how to teach English. The State Department, which pays the cost, invited Michigan to set up a branch of its campus English Language Institute to which all Latin American scholarship students coming to this country are sent for an intensive two months work in spoken English.

The report from Mexico City tells how 700 teachers took the winter examination and 625 passed it. Five similar courses planned for 1945 will enroll students from all types of schools, from the grade and rural level to Mexico's state and national universities.

### Preserves Bring Bright Cheer for Winter (See Recipes Below)

#### Let's Preserve

Wise are the women who gather their fruits and vegetables and plan ahead for winter months when food is scarce. Imagine, if you can, the thrill of knowing that your canning cupboard holds within it the provision for several hundred meals, all the result of your own work.

Last winter the women who put up pickles and preserves blessed the providence that caused them to do it. For preserves often made up for the plainness of the meat dish, pickles gave a flavor touch when menu variety was at a low ebb, and chili sauce went into hundreds of meat dishes which otherwise might have lacked for flavor.

Preserves may be served with meats, fowl or plain bread. Try to gauge how much sugar you will have and allot only a portion of that for preserves this summer as you will want to use much of the canning sugar for whole fruit.

To be at their best, preserves must be cooked in small batches, anyway in fairly wide pans. There is no need for skimming preserves if they are left in the pans for five minutes after cooking time is finished.

In warm climates where storage is difficult, they are best when processed in a water bath at simmering temperature for 20 minutes. This will help prevent mold.

#### Tomato Preserves.

2 pounds tomatoes  
4 cups sugar  
1½ cups water  
1 lemon  
1 stick cinnamon  
2 pieces ginger root, if desired  
Use small, firm red, yellow or green tomatoes. Scald one minute. Dip into cold water. Skin but do not core. Combine sugar, water, lemon (sliced thin), cinnamon and ginger and simmer for 20 minutes. Add tomatoes and boil gently until they are bright and clear. Cover and let stand overnight. Pack cold tomatoes into sterile jars. Boil syrup as thick as honey and pour over tomatoes. Process in water bath for 15 minutes.

#### Apricot Preserves.

2 pounds apricots  
3½ cups sugar or corn syrup  
Wash, peel and halve firm, ripe apricots. Combine fruit and sugar in alternate layers. Let stand several hours or overnight. Heat slowly until sugar dissolves, then boil rapidly until fruit is clear. Let stand several hours. Pack cold fruit into sterile jars. Reheat syrup, boiling it

#### Lynn Says

Serve These Leftovers with Scrambled Eggs: For every six eggs used, blend in 1 cup diced, sauteed bread cubes with 1 teaspoon chopped chives.

If you prefer a meaty flavor, add 1 cup sauteed chicken liver and top with several slices of cooked bacon.

Fish is delicious with the egg combination. You might try ½ cup flaked fish, or ¼ cup of any of the following: flaked lobster, shrimp, or crabmeat.

Vegetables add eye-appealing goodness to a golden fluffy mixture of scrambled eggs: 3 tablespoons minced parsley and chives; ½ cup chopped or cooked tomatoes, in which case omit the milk from the mixture; ¼ cup chopped, cooked mushrooms.

#### Lynn Chambers' Point-Easy Menus

Beverage • Fruit Shortcake

down if not thick enough. Pour hot syrup over fruit and seal at once. Chili sauce does not require much sugar and is very good when made with the combination of spices given in the following directions:

#### Chili Sauce.

1 gallon tomatoes  
2 cups onions  
2 cups sweet red peppers  
1 pod hot red pepper  
1 cup sugar  
3 tablespoons salt  
1 tablespoon mustard seed  
1 tablespoon celery seed  
3 tablespoons mixed spices  
2½ cups vinegar

Skin tomatoes before chopping. Chop all vegetables before measuring. Tie spices in a mixed bag. Mix all ingredients except spice bag and vinegar. Add spice bag after mixture has boiled for 30 minutes.

Cook until very thick, then add vinegar and boil until there seems to be no more free liquid. Taste and add more seasoning if necessary. Pour while hot into hot, sterile jars and seal according to manufacturer's directions.

There are a number of other foods which you may not have preserved in other years that would now come in handy. First of all, you may want some lovely garden or orchard fresh fruit juices. For these you will need one cup sugar to the gallon with additional sweetening when served.

#### Canning Berry Juices.

Blackberries, blueberries, loganberries, raspberries, etc., may be used. Wash, crush and simmer juices until soft. Strain through several layers of cheesecloth. Add one cup sugar to each gallon of juice. Reheat to simmering and pour into hot, sterile jars. Process for 30 minutes in hot water bath at simmering temperature (180 degrees).

It's good to have tomato sauce handy for those meat and vegetable dishes throughout the winter. Canned? Of course:

#### Canned Tomato Sauce.

Mix 3 quarts chopped tomatoes, 1 quart sliced onions, 1 pint chopped green peppers, 1 tablespoon chopped parsley, salt to taste and a pod of hot red pepper. Cook slowly until thick. Then pour into sterile jars and process in a pressure cooker at 10 pounds for 35 minutes or 2 hours in a boiling water bath.

#### Canned Vegetable Soup.

5 quarts chopped tomatoes  
2 quarts chopped green lima beans or  
2 quarts green beans  
2 quarts carrots  
1 pint celery  
4 tablespoons salt

Cook tomatoes until soft, then press through sieve. Add other ingredients and simmer for 10 minutes. Pour into sterile jars and process in boiling water bath 60 minutes at 10 pounds pressure or 3 hours in a boiling water bath.

## DEFORD DIARY

### Family Gathering—

Mr. and Mrs. Robert Kelley and family of Kalamazoo spent Thursday to Monday with relatives here. On Sunday all dined together at the Harley Kelley home. Others present were Mr. and Mrs. Walter Kelley, Mr. and Mrs. Warren Kelley from this vicinity; Mr. and Mrs. Scott Kelley of Mayville; Mr. and Mrs. Jesse Kelley and son, Grant, of Caro; Mr. and Mrs. Kenneth Charlton and Mr. and Mrs. Roy Wagg of Cass City; Mrs. Amy Kelley of Flint; and Mr. and Mrs. Roy Evans of near Gagetown.

### With the Ill—

Mrs. May VanBlaricom is very poorly. Mrs. Hester Sprague of Cass City is taking care of her.

Mr. and Mrs. Geo. Roblin are both on the sick list at present. Mr. Roblin has rheumatism and a very sore foot and Mrs. Roblin has the mumps and tonsillitis.

### School Meeting—

The residents in this school district seem to have no interest, or curiosity, in knowing how the affairs of the district are being conducted, or who are to be elected to care for them. On Monday evening, only seven were present at the annual meeting. W. B. Hicks has been school treasurer for 19 consecutive years, and declined to again accept the office. Arthur Hartwick was elected treasurer and Kenneth Kelley was chosen trustee for two years.

### W. C. T. U. Family Night—

The Woman's Christian Temperance Union's family night was held in the annex of the Methodist church here on Friday, July 6.

The program was opened by a Scripture reading by Mrs. Earl Rayl, the union president, who also extended the welcome and introduced the guests and local officers. Rev. Mr. Watkins offered prayer. Devotions were conducted by Mrs. Marion Rayl and Miss Nora Moshier offered prayer after the responsive reading.

Each director of the union had been asked to furnish a few minutes program on her work and each director of each church she represented to have something from her church, each announcing her program as follows:

I. Spiritual Education, Mrs. Edna Warner, Baptist. Rev. Mr. Hollopeter was the speaker.

II. Alcohol Education, Mrs. Lillie Bruce, Church of Christ. Rev. and Mrs. Watkins sang a duet and Mr. Watkins a solo number.

III. Character Building, Mrs. Leola Retherford. Elmer and Walter Rayl contributed a vocal duet.

IV. Christian Citizenship, Mrs. Irma Hicks. Miss Anna Youngs gave a legislative quiz.

V. Press and Publicity, Mrs. Edna Malcolm, Methodist. Miss Ada Young spoke on the subject and a male quartet sang two numbers.

Miss Nora Moshier, who represented the Free Methodist church, read a poem, "Oh, for a Richer Life of Prayer" and Mrs. Ida Dodge, representing the Mennonite Brethren in Christ church, read an article on "Prayer Service." Mrs. Silverthorn of Caro represented Christian Science church.

Several congregational hymns interspersed the evening's program. A potluck supper was served at the close of the program.

### Gas and Tires—

We see large numbers of beer trucks travelling the roads, obtaining all the gas necessary, and no trouble at all to get tires for driving, while those who have "A" cards obtain a very small amount of gas and are unable to obtain any new tires at all. The distilleries for the July holiday will make 54,000,000 gallons of liquor using 15,000,000 pounds of molasses and 300,000 tons of grain, while common citizens can not now obtain sugar ration points for canning, and if they had them could find no sugar available to purchase. Our equal rights to all can be doubted, is the opinion of this citizen.

Mr. and Mrs. Bill Hicks of Pontiac spent several days at their residence in Deford.

Mr. and Mrs. Bill Gage spent Saturday night to Monday at West Branch.

Mr. and Mrs. R. E. Johnson spent the week end at their cottage at North Lake.

Mrs. Minnie Drace returned to Rochester after two weeks spent at Deford.

Mrs. Norman Martin and Mr. and Mrs. Herb Phillips and family were Sunday guests in Caro at the Azell Sterbens home.

Miss Shirley Kelley has returned home after spending three weeks visiting in Detroit, Pontiac and Royal Oak.

Miss Shirley Locke of Royal Oak spent the past week visiting at the Rayl, Kelley and Effie Warner homes.

at all times, such action becomes especially essential in war time.

Parents are important in communicable disease control because many of the common diseases affect children. Parents should, first, protect their children by immunization. Watch for the symptoms: that are early signs of several of the communicable diseases—unusual flushing or paleness of skin, rash, fever, watery eyes, vomiting, sore throat or persistent cough.

Keep at home and away from others, any child showing such signs. Call a physician promptly, to be on the safe side. Cooperate with the health department by following isolation or quarantine requirements.

Teachers and school administrators are also important in control measures. By state regulation, superintendents, principals and teachers of all schools and nurses in any way responsible for the health program of any school shall exclude from school any child suspected by them of having a communicable disease.
