Bank Deposits Here More Than Double In Three Years

Increased Deposits and Bond Purchases Make Large Swell in Savings

Bank deposits in the two banks here have more than doubled during the past three years. The deposit figures indicate the increase of two financial institutions has been made in a most notable manner, the two banks having increased from $1,100,000 to $5,300,000. The increased deposits have been made by local residents, users of these banks being responsible for the increased funds. The deposits have been increased more than 200%, but there have been more deposits in the two banks in the last three years than in any other one year period in the history of these banks. The increased deposits have been made by local residents, users of these banks being responsible for the increased funds.

Torn Franklin Refuses to Die

Big Carrier Survives Worst Ship Disaster of War; Engineers, Surgeons Praise Work

WASHINGTON — The U. S. Navy and Franklin, huge Guests type carrier, made a gallant escape from a great fire that might have ended human life, will it live again?

W. H. Starbuck, chief engineer of the carrier, said, "She started with a fire in her gun room, but we were able to get the fire under control and the disaster ended our lives."

**Oak Bluff Breeze**

Wed., July 18, 1945

**Real Delivery**

A fight of bandits had raged for miles wide across the desert, spreading the destruction of the Third Division. All of those who had raised a stable of horses to keep the bandits at bay were dead. Finally, at dawn, the column of smoke which had been formed for the morning's supply of ammunition was visible. The smoke's shadow was cast on the desert floor, marking the location of the enemy's line of retreat. The smoke was not to be seen until the sun rose higher in the sky.
