

Cass City Is Only Dist. to Exceed E, Over-all Quotas

Tuscola County Is Over Top in Seventh War Loan Drive by \$188,622

Final figures after all reports were received show that Tuscola county exceeded its over-all quota of \$1,483,000.00 by \$188,622.00, having sold a total of \$1,671,622.00.

The "E" bond quota of \$863,000 was not made by \$241,159, the total sales amounting to but \$621,841.

A total of \$570,000.00 was allocated to Tuscola county by the following companies and institutions: State of Michigan, Detroit Edison Company, Standard Oil Company, Consumers Power Co., Kroger Baking Co., N. Y. C. R. R., Eaton Manufacturing Co., American Telegraph & Telephone Co., Michigan Bean Co., Hon. D. Hale Brake, Michigan Bell Telephone Co., Michigan Associated Telephone Co., A. & P. Stores, Gamble Store, Nestle's Milk Products, Inc., A. Frutchey & Sons, Tuscola County, Robt. Gage Coal Co., and Michigan Sugar Co.

Totals by districts:

District	"E" Bonds	Total sales
Akron-Wis.	\$27,506.25	\$119,436.95
Caro	119,082.75	305,058.75
Cass City	112,737.50	221,044.50
Fairview-Gilford	36,675.00	119,561.95
Garettown	26,658.00	68,436.80
Kinston	25,987.50	60,579.45
Mayville	63,875.00	237,504.90
Millington	35,467.75	75,746.95
Reese-Richville	42,300.00	119,075.70
Unionville	25,181.25	89,714.45
Vassar	108,375.00	256,411.60

"You are the only district in the county to exceed both 'E' and over-all quotas," writes C. L. Bougher, chairman of the U. S. Treasury War Finance committee of Tuscola county, to Willis Campbell, chairman of the Elkland-Novesta district. "This is truly an achievement considering not only the state of Michigan 'E' sales but the nation fall short. Many thanks. Wish I could find more expressive words for this wonderful job."

Mr. Campbell states that this credit of management of the campaign is shared by Frederick H. Pinney and M. B. Auten, co-chairmen in the district.

Total sales of the Elkland-Novesta district amounting to \$221,044.50 were divided as to investments as follows: 7/8% certificate of indebtedness, \$40,000; 1 1/4% treasury notes, \$25,500; 2% treasury bonds, \$1,000; treasury savings notes, series C, \$17,500; U. S. savings bonds, series F, \$407; series G, \$28,900; series E, \$112,737.50.

Four Highways to Be Improved in the Upper Thumb District

State Highway Commissioner Chas. M. Ziegler reports four improvement projects which will be commenced shortly on highways in the Upper Thumb. They are:

Sanilac County—Bituminous resurfacing of M-46 at west side of Carsonville and on M-51 from M-46 south one block will be started Wednesday by T. P. Flynn, contractor.

Tuscola County—Bituminous resurfacing on 15 mile M-46 pavement in Kingston to be started Aug. 1 by the Tuscola County Road commission for the State Highway department. Bituminous resurfacing of 4 mile of M-25 in Unionville to be started July 23 by Tuscola County Road commission for the state department.

Huron County Road commission will begin bituminous resurfacing of seven miles of blacktop surface on M-142 between Verona Corners and the junction with M-51 on July 23.

Coming Auctions

Dennis O'Connor will sell furniture, implements and livestock at auction tomorrow (Saturday) afternoon with Arnold Copeland as auctioneer. The sale will be held one block north and one block east of the Elkland Roller Mills.

Tuesday morning, July 24, is the date of the sale of the Bethel Methodist church building and its equipment four miles north of Cass City.

Cattle and farm machinery of the Estate of William N. Flint, deceased, will be sold at auction 1 mile west, 1 mile south and 1 mile west of Cass City on Wednesday, July 25. Arnold Copeland is the auctioneer and the Pinney State Bank is clerk.

All three auctions are advertised on page 7.

Promoted to the Rank of Captain

Capt. Mosure.

Dudley C. Mosure, who resigned as pastor of the Cass City Methodist church and entered the army as a chaplain a year ago, was promoted from the rank of First Lieutenant to that of Captain on June 16th last. He is now stationed at Camp Philadelphia near Reims, France.

Mrs. Mosure and little daughter, Elizabeth, are making their home at Onondaga, Mich.

Watch Hay in Barn To Prevent Fire Is Warning

Tendency Has Been to Put Hay in Barn Before Sufficiently Dry

Thumb county farmers who have just put hay in barn mows are urged to be on the alert to detect fire caused by the spontaneous combustion of relatively wet portions of the hay. Because of frequent rains, it has been difficult for farmers to judge the degree of curing and there has been a tendency to put hay into the barn before it is sufficiently dry, says County Agricultural Agent Norris W. Wilber.

The Tuscola County Extension Office has been given directions by A. J. Bell, Michigan State college extension specialist in agricultural engineering, for making and using a simple device to detect dangerously high temperatures in hay before fire can occur.

Every farmer who puts up hay should have a hay prod thermometer, says Bell. This is simply a length of one-half inch electrical conduit with a sharpened plug in one end and a dairy-type thermometer. To use the device, shove the conduit into the hay, tie a string to the thermometer, and then lower the thermometer into the conduit where a reading is desired. Temperature readings should be made of several locations in the mow. If any of the temperatures rise to 180 degrees or more, it is time to call for fire-fighting assistance and to start removing the hay. It is not wise, however, to open a hot mow unless some means of fighting fire is present, because the addition of oxygen caused by moving the hay may cause the hot hay to burst into flame.

Bell cites the example of a stack of chopped hay on the Michigan State College farm which was put up the third week of June several years ago. Temperatures rose steadily for two months, then the temperatures rose rapidly for two weeks until one day the sweet pungent odor changed to one resembling burning tobacco. A day later the hay burst into flame.

Brown Is Board of Education President

C. U. Brown was elected president of the board of education at the first meeting of that body since the school election. F. E. Hutchinson was chosen secretary to succeed himself in that position, and Mrs. B. H. Starmann is the new treasurer.

Other members of the board of education are Ernest L. Schwadner and Lester Ross.

PRE-SCHOOL CLINIC HERE WEDNESDAY, JULY 25

A pre-school clinic for kindergarten children will be held on Wednesday, July 25, at 2 p. m. in the kindergarten room at the school building in Cass City. This will include all beginners and first grade children who are coming from the rural school for the first time to the Cass City school.

Old Timers and Spectators Enjoy North-South Game

Hospital Fund Has \$279 Added by the Proceeds of Game Here Thursday

Taking some of the boys back 20 years or more was the baseball game of the old timers at the City park last Thursday afternoon. Really it was surprising how much energy there was in the activity of some of the "old boys."

A few of them came long distances to participate in their favorite sport. Take for instance, "Bill" Eno, who played in the days when Cass City had a team in the county league managed by Jack Muntz. "Bill" read about the game in the Chronicle and came from Royal Oak to participate. He still is handy with the stick as the box score indicates.

The game, by the way, was won by the South team, 18-13. Jack London served as umpire and Jim Gross as scorekeeper. Here are Jim's figures:

Proceeds of the game went to the hospital fund and \$279.35 was the contribution realized by the contest Thursday afternoon.

Store Fuel Oil Now For Winter Heat Household URGED

Householders who heat their homes with fuel oil were urged today by John F. Kessel, district director of the Saginaw OPA office, to prepare now for winter by having their storage tanks filled at once. "Every tank must be filled this summer to avert suffering because the civilian fuel oil situation will be even more critical this winter than last year," Kessel said.

"Saginaw district dealers report that orders are beginning to be received but not in sufficient volume to get all householders' storage tanks filled within the next few weeks," Mr. Kessel explained.

Persons who are planning to buy and install new or used fuel oil burning equipment are urged to first consult their local War Price and Rationing board to make sure they are eligible for fuel rations. Certain facilities require an exception which is granted solely by the Petroleum Administration for War. A few persons have bought and installed such heating equipment only to find later that they were not eligible for fuel oil because of existing facilities which were adequate or which could have been repaired.

Wm. J. Hewitt Died Here on Tuesday

William James Hewitt, 80, a resident of Sanilac county for many years, passed away early Tuesday in Pleasant Home hospital where he had been admitted the evening before. He had been ill nine days.

Mr. Hewitt was born March 10, 1865, in Bothwell, Ont., and was married to the former Miss Anna Laura Bull, who survives. Also surviving are three sons, Loren in Honolulu, Leslie and Earl of Cass City; six grandchildren and four great grandchildren. Two daughters, Ruth and Maude, and two sons, Frank and John, preceded the father in death.

Funeral services were held at 2:00 p. m. on Thursday in the home. Rev. Fred Wager of the Methodist church officiated and burial was in Elkland cemetery.

Mrs. Vivian MacFawn Nutrition Specialist

As a recently appointed Michigan State college extension specialist in foods and nutrition, Mrs. Vivian P. MacFawn is working extensively throughout Michigan with groups interested in solving food problems.

Before coming to Michigan State Mrs. MacFawn had served as home demonstration agent in Rhode Island for 15 years. Previous to that her experiences included teaching and restaurant management. Mrs. MacFawn recently obtained her master of science degree from Simmons college, Boston, Mass., co-operating with the Harvard School of Public Health.

Jarmans to Go to Alaska for Church Work This Fall

Ali Jarman, pastor of the Churches of Christ at Manton, Fife Lake and Greenwood, in northern Michigan, has tendered his resignation as minister there and he and Mrs. Jarman and their son, Jimmy, 4, will leave some time this fall to assist in the work of establishing the New Testament order in Alaska.

The plans are to enter one of the larger cities in Alaska for the present and as the way opens they will launch out from this center in an effort to reach the surrounding communities with the Gospel.

Mr. Jarman, who will be 30 years old this summer, and Mrs. Jarman, who will be 28, are products of the Johnson Bible college at Kimberlin Heights, Tenn. Coming from this college in 1938, the Jarmans served the congregation of the Novesta Church of Christ at Cass City before going to Manton three years ago.

Dr. Dickerson Speaks On 'Luke, Physician'

Dr. Willard Dickerson, assistant superintendent of the Caro State hospital, in speaking on the subject, "Luke, the Physician," at the Rotary club luncheon Tuesday, introduced his talk by giving a historical and medical background of Jewish life in the time of Christ. Dr. Dickerson said that Luke was the only Gentile writer of a book in the Bible, that his descriptions of incidents, especially those in which disease was mentioned, were more detailed than those of other writers of the gospels, and that his writings contained references to many happenings in the life of Christ which are omitted by the other Testament writers.

Dr. Dickerson was presented by M. B. Auten, program chairman. Luncheon guests included Edward Doerr, S. 1/c, who is home from the Pacific area on leave and is visiting his parents, Mr. and Mrs. Herman Doerr, Mr. Kruger of Crosswell, H. C. Snyder of Burlington, Wis., Carl Mantey of Caro and Harry J. Jackson of Detroit.

County Sends Two to State H. E. Meet

Tuscola County's Home Economics Women's Extension groups will have two representatives at the state meeting to be held in East Lansing the week of July 23, according to Mildred M. Omlor, county home demonstration agent. In previous years, Farm Women's week, held at Michigan State college, served a similar purpose for rural women and members of the organized extension groups.

Due to reduced travel restrictions, the number attending has been considerably reduced, with two representatives being chosen from each county. Attending this year will be Mrs. Morton Stout of Mayville, elected county chairman at the annual spring election, and Mrs. Harry Pike, Caro. Both of these ladies are members of the county executive committee and will receive training and suggestions for carrying on the Home Economics Extension program in the county.

20 Tuscola Co. Men To Be Inducted into Service Thursday

Warning Notice for Next Month Calls for 52 Men for Induction

Twenty registrants have been called for induction into the armed services from Tuscola and will leave the county on Thursday, July 26. They are:

Arnold Moore, Kingston. Gail Parrott, Cass City. Harry Bolzman, Unionville. Archie Stowell, Millington. Albert Anthes, Cass City. Eugene Tait, Caro. Norman Sohn, Frankenmuth. Carl Mantey, Fairgrove. Carl Schulz, Unionville. Chester Kinney, Jr., Millington. Richard Stratton, Mayville. Paul Montel, Fairgrove. Donald Keimath, Reese. Lawrence Lents, Millington. Joseph Sefton, Deford. Donald Sanford, Mayville. John Pezo, Jr., Mayville. Ruben Bierlein, Reese. Edward Leibold, Cass City (V). Lawrence Prime, Akron, transferred in from Genesee county.

The warning notice for August induction calls for 52 men. The warning notice for August pre-induction is for 57 men from Tuscola county.

New Honey Crop To Aid Farmers

Michigan housewives were assured this week of a supply of honey by the middle of August to help them make their meager canning sugar go as far as possible.

Russell H. Kelty, Michigan State college extension specialist in apiculture, states that there will be an ample supply of Michigan honey starting to market about August 15. This honey will be available in time for canning Michigan peaches and may be substituted, cup for cup, up to one-third or one-half of the amount of sugar the housewife would ordinarily use, says Dr. Pauline Paul, of the college foods and nutrition department. The light-colored, mild-flavored honey, produced from legumes such as clover, is preferable when used for canning fruits. Stronger flavored honey may be preferred by some consumers for table use, but such honey is likely to mark the flavor of fruit canned with it.

Even though the first part of the honey-producing season was unfavorable for bee activity, owing to continued cool, rainy weather, the growth of clovers and other legumes prized by bees was encouraged. Hot weather during the rest of July and August should help the bees kept by an estimated 12,000 Michigan farmers to produce a normal supply of honey, or about 350 carloads, Kelty believes.

Since honey is produced in most sections of the state, every community is likely to have its local supply. The larger sized containers, such as the 3 or 5 pound cans, are most economical for bulk use and should be bought by persons who intend to use honey for canning purposes, Kelty suggests.

Purple Heart Award To Pfc. Whittaker

Pfc. Cecil J. Whittaker, 22, of Cass City has returned from service outside the continental United States and is now being processed through the Army Ground and Service Forces Redistribution station in Miami Beach, where his next assignment will be determined. Pfc. Whittaker served for three months as a rifleman in the European theatre of operations. While there he was awarded the Purple Heart for wounds received in combat against the enemy, and the European campaign ribbon with one battle star. He became a member of the armed forces on Dec. 16, 1943.

MRS. W. A. FAIRWEATHER DIED IN DETROIT JULY 18

Mrs. Wm. A. Fairweather, former Cass City resident and for many years an active worker in the Baptist church here, passed away on Wednesday morning, July 18, in the Jennings hospital, Detroit, where she had been a patient for several months. She had been in failing health for several years.

Funeral services will be held in Inlay City, where the Fairweathers have resided for many years, today (Friday) at 2:00 p. m., fast time.

Surviving are her husband, Wm. Fairweather; one daughter, Mrs. R. W. Gifford, of Grosse Pointe; and two grandchildren.

Three Pals Met in Honolulu Recently

The three young men pictured above, who were "pals" before entering their country's service, met recently in Honolulu for the first time after three years of separation. They are (left to right): Pfc. Henry Straty of the U. S. Army, F 1/c Matt Myslakowski of the Navy and Pfc. Edward Bartnik of the Marines.

All have been in the Pacific area. Matt has also been in the European area and was in France during the first invasion, and Henry has been in Alaska and has been awarded the purple heart.

Henry is the son of Mr. and Mrs. Casimir Straty of Route 1, Cass City; Matt's parents are Mr. and Mrs. Walter Myslakowski, also of Route 1, Cass City; and Edward is the son of Mr. and Mrs. Stanley Bartnik of Decker.

Paragraphs About Folks in the Service

Pvt. Harry Wright is stationed at Camp Jos. T. Robinson, Ark.

Pvt. Lyle A. Lounsbury of Cass City has just been graduated from the Wheeled Vehicle Engine Mechanic course at the Ordnance school, Aberdeen Proving Ground, Maryland.

Spec. 1/c Carl Reagh and Mrs. Reagh left here last Thursday, Carl to return to New Orleans for reassignment and Mrs. Reagh to return to Norfolk, Va., where she has employment.

Pvt. Irving Parsch, recently of Fort Knox, Ky., arrived in Detroit last Thursday and home on Saturday to spend a ten-day delay en route at his home. He will proceed to Fort Riley, Kansas.

Pvt. Charles E. Holm, son of Mr. and Mrs. Fred Holm, left July 17 for Camp Maxey, Texas, where he will be stationed. He has finished his training at Fort McClellan, Alabama, where he has been the last four months.

Pvt. Grant Little has been selected for service in an army specialized training unit, and his friends who wish to write to him will note a change of address: Pvt. Grant Little, 46053525, Co. D, 81st Bn., 15th Reg., Camp Fannin, Tex.

Ray Dalton, F 2/c, is home on a 23-day leave. He is with the Merchant Marine, left the States shortly after Easter and recently has been in North Africa. He expects to visit his sister, Cadet Nurse Alice Dalton, in Modesto, California, before starting on his next trip.

Mrs. Nile Stafford left Monday to take her small daughter, Anne, to spend some time with Mrs. Stafford's parents, Mr. and Mrs. Henry Boersma, at McBain. Mrs. Stafford has left for Salt Lake City to spend a few weeks with her husband, S/Sgt. Nile Stafford, while he is stationed there.

J. Hector McIntyre of Argyle has received word in a letter that his nephew, Bill McIntyre, son of Loren McIntyre, of 881 Pingree, Detroit, has been promoted to the rank of captain in the Air Corps and is assistant operational officer. Bill is on duty in the Pacific theater of war and has flown 24 missions in a B-29. Loren McIntyre is a former resident here and well known.

Pvt. Harold Hulbert is home on furlough from Fort Riley, Kansas, and on Sunday a dinner was served in his honor at the home of his parents, Mr. and Mrs. Ray Hulbert. Guests included Mr. and Mrs. Grover Hulbert and family, Mrs. Henry Hulbert and Dan McCrea, all of Flint, and Mrs. J. S. McCrea of Cass City. Mr. and Mrs. Robt. Henderson of Bad Axe were afternoon callers.

First Cass City 4-H Beef Show Is Dated for August 3

Four Former 4-H'ers Will Serve as Judges of Heavy and Medium Weights

The first Cass City 4-H beef show will be held here on Friday, August 3. The cattle will be exhibited at the John Deere implement shed of Copeland & Munro and will be judged by Jim Milligan, Alfred Goodall, Lynn Spencer and Don Koepfgen, all former 4-H club boys who have shown champion animals. Harry Stine is named alternate judge.

Club members will report between 9 and 10 a. m. on Aug. 3 and will weigh calves at the Elkland Roller Mills and then lead them to the show barn, bringing the weigh bills with them.

The committee in charge of premiums are John Zinnecker, Alfred Goodall and Earl Maharg. Local business men and livestock buyers are helping to provide prizes.

A judging contest for club members will be held at 10:30 a. m. in charge of County Agricultural Agent Norris Wilber.

Judging of the show animals which will be in two classes, heavy and medium weights, will start at 1:30 p. m.

The livestock program here is the largest in the history of the Cass City school. Willis Campbell is in charge of beef cattle, Harold Perry of the hogs, and Don Koepfgen of the sheep.

Pfc. Dean Anker Killed in Action in Germany on March 11

Mr. and Mrs. Wm. Anker of Elmwood township received a telegram from the War department Tuesday informing them of the death of their son, Pfc. Dean Anker, who was killed in action on March 11.

Late in March, they were informed by the War department that their son was missing in action. Tuesday's telegram was a corrected report. Unavoidable circumstances caused the delay in reporting the death, the message said.

Pfc. Anker wrote a letter to his parents Mar. 8 from Germany and this was received by his parents on March 26, the same day as the first message from the department was received by them.

'Big Three' Met Here Tuesday Evening

Hugh Munro, impersonating Stalin, George Dillman as Truman, and Watson Spaven as Churchill held a "Big Three" conference as a portion of the program of the Gavel club. All issues were not decided Tuesday evening, but club members got a "kick" out of the local conference anyway.

Six service men, three of them brothers, were guests at the club dinner, Melvin, Clifford and Junior Fox, Gordon Hartwick, William Harrison and Ed Baur. Other guests were four Boy Scouts who received their insignia as den chiefs of the Cub Pack, now in process of organization and sponsored by the Gavel club. Den chiefs are Jim Baker, Jerry Fritz, Jerry Priestkorn and Gil Schwadner.

Farm Accidents Can Be Avoided

Taking time to study how to prevent accidents while doing farm jobs may appear simple and easy, but the accident records of the nation reveal that apparently more than a million farmers didn't take the time. Each year among farmers and their families, more than 15,000 are killed and 1,500,000 seriously injured, says Lloyd H. Gell, head of the publications department of Michigan State college and state chairman for Michigan of the 1945 National Farm Safety week.

During the period July 22 to 28, a broad accident prevention program is being emphasized throughout Michigan to make farming more safe and to help prevent needless suffering and loss of time on the task of producing food. The annual work toll from accidents caused by machinery, livestock and falls, the principal sources of farm accidents, is 4,500 persons killed. Enough time was lost from farm accidents last year to have produced the equivalent of 7 bushels.

WEEKLY NEWS ANALYSIS

Jap Fleet Refuses U.S. Challenge As Carrier Planes Raid Tokyo; World Studies Big Three Meeting

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

The American public is responsible for forcing U. S. war vets to ride uncomfortable day coaches, as pictured above, says Undersecretary of War Robert Patterson. New regulations bar civilian use of sleepers on short trips.

U. S. FLEET: Another Challenge

Supplemented by land based fighters and bombers, more than 1,000 carrier-based planes of the 3rd Fleet attacked Tokyo. Showing his contempt for Japanese air and fleet power, Adm. William F. Halsey issued a list of ships taking part in the action and invited Nips to come and meet in battle. This was the beginning of big scale operations against Tokyo. Former attacks were limited to 500 or 600 or less planes. The carriers launched the mighty procession while standing a few hundred miles off the Japanese coast. Future daily raids will continue with number of bombers and fighters reaching 2,000 or more.

BIG THREE MEET: Six Weeks for President

Accompanied by a staff of advisors, numbering 200, including the new secretary of state, James Byrnes, President Harry S. Truman arrived in Potsdam to attend the long-planned Big Three meeting. In Europe he was joined by General of the Army Dwight D. Eisenhower and the joint chiefs of staff.

Germany to Pay

The Big Three power reparations commission sitting in Moscow, has taken, as the foundation of its negotiations, 20 billion dollars as the total value of compensation to be exacted from Germany. It is not expected that final division of this sum will be allotted until after the Big Three meeting in Potsdam.

OVER THE TOP: Bond Quota Doubled

The goal of the seventh war loan, 14 billion dollars, was almost doubled as final tabulations were made on the closing date. Henry Morgenthau, retiring secretary of the treasury, made the announcement in his "valedictory" speech.

Sale of all classes of bonds totaled 26 billion, \$13 million dollars. The "E" bond quota of four billion dollars was almost attained, a mark of three billion, 976 million being reached. This was the issue that was intended particularly for "small" buyers.

Total sales to individuals amounted to eight billion, 681 million dollars, surpassing the eight billion dollar goal by a wide margin. Purchases by banks, insurance companies and other financial institutions accounted for the rest of the bonds sold.

PHILIPPINES: A Great Record

The Filipino people are fully capable of governing themselves, General MacArthur told the members of the Philippines congress in Manila. Their combat record, the general went on, is the best assurance that they can handle their peacetime affairs efficiently.

He said that he was "fully confident that the American people will do everything within their power to assist you to your national destiny." The occasion was the formal presentation of orders making the general an honorary Filipino citizen and a lifetime field marshal of the Philippine army.

MORE SHOES

As a result of army order cut-backs to become effective in September, there will be an increase of 3,000,000 pairs of civilian shoes per month.

The council based their hopes for a more generous issue of civilian ration coupons on an increase in the supply of sole leather.

The industry was given a 60-day period to prepare for increased production to meet civilian requirements.

PACIFIC ACTION: In Borneo

Dutch amphibious forces made two new landings on the north shore of Balikpapan bay to loosen Japan's last grip on Borneo's vital oil. Opposed by determined Jap small arms fire, the Dutch landed on Telokobang and Kariango peninsulas, completing encirclement of the lower Balikpapan bay.

In China

By capture of Tayu, head of the mercury ore mining region in Kiangsi province, Chinese troops severed Jap communications with Kungong, rail center, 125 miles north of Canton.

In liberating Liuchow, Chinese troops also scored new gains along both the Liuchow-Kweilin highway and the Liuchow-Hengyang railroad.

MEAT OUTPUT: Gets a Boost

A first step towards increasing meat production and equalizing distribution was taken by the new secretary of agriculture, Clinton P. Anderson, who outlined the requirements which must be met by small slaughterers seeking to get from under quota limitations and shipment of non-federally inspected meat over state lines.

Rep. Stephen Pace (D., Ga.), who succeeded Anderson as chairman of the house food committee, promised that the committee will continue to keep a vigilant eye on the food situation. Next to the armed forces, he said, comes the American people's claim to American-produced food products, except where shipments must be made to "meet the calls of humanity." Mr. Anderson had previously stated that European demands are in for a "stiffer examination."

Certificates will be issued for slaughterers permitting unlimited slaughtering and interstate shipment.

CONTINUED TROUBLE: On Labor Fronts

Loss of the closed shop provision and retroactive benefits was held over the heads of the New York Newspaper and Mail Deliverers union by the WLB, in an effort to end the strike which deprived New Yorkers of their newspapers for many days.

Two Fort Wayne, Ind., papers, the Fort Wayne Journal Gazette and the News Sentinel, were tied up by strikes.

Strike action against eight independent Chicago radio stations was called off by representatives of the Radio Broadcasting Technicians union (AFL) following a conference with station officials. Both sides agreed they would leave settlement of the dispute to the WLB.

In Detroit a walkout at the Dodge truck plant offset a return to work of 824 Graham-Paige workers. One thousand persons were sent home from the Dodge plant because of a strike of 11 paint sprayers who had been getting 15-minute relief periods each hour and who, according to a Chrysler spokesman, wanted 20-minute periods.

Sixteen thousand five hundred CIO United Rubber Workers were on strike at Firestone at Akron, Ohio, and the Goodyear Tire & Rubber company, employing 16,700, was operating under navy supervision. The navy took the plant over after a 20-day strike.

SOAP FAMINE

Increased domestic buying of soap has resulted from suggestion by Herbert H. Lehman, United Nations Relief and Rehabilitation Administration director, that rationing of soap be started.

The emphasis placed on the world's tight soap situation has brought about critical shortages in many sections of the country. Manufacturers state that there is very little that can be done to increase available soap supply and nothing in the way of substitutes is available.

UNITED NATIONS: Charter in Congress

Before a friendly foreign relations committee of the senate, former secretary of state, youthful looking Edward R. Stettinius Jr. appeared as first witness, asking for its prompt adoption.

Backing up Stettinius was Michigan's Republican Senator Vandenberg, who not only declared that the charter must be adopted but paid tribute to Stettinius, while audience showed its approval with bursts of applause.

All members of committee with exception of four—a record attendance for committee hearings—were present. Pepper, absent due to death of his father; Glass and Bridges were reported ill and Senator Shipstead was not in Washington.

Stettinius said charter was not perfect, but he was sure it would improve with time. Said Vandenberg: "Stettinius' excellent record at San Francisco deserves the grateful appreciation of his country."

PRISONERS: Machine Gunner

"I just didn't like Germans." That was Pvt. Clarence Bertucci's only explanation for killing 8 German prisoners of war and wounding 20 others at a branch prison camp at Fort Douglas, Utah. Bertucci fired a mounted machine gun into the tents of sleeping prisoners while on guard duty.

He told Col. Arthur Ericsson that he had often been tempted to turn the gun on the prisoners, and "was not at all sorry" for his actions. A mental examination has been ordered. Bertucci spent several months in England, but never was in combat. He is 23 years old, and lived in New Orleans before entering the army.

The dead PWs were buried at the camp cemetery with full military honors. Their caskets were draped with the flag of the German republic, and a group of prisoners were allowed to attend the rites.

LIKES HIS VICTUALS

The amazing appetite and capacity of Pfc. Chester Salvatori shows no signs of diminishing. His gastronomic feats startled army doctors at Fort McPherson, Ga., who held him under observation for days. Recently, however, Salvatori got a furlough and had to buy his own food.

One meal in an Atlanta cafe cost him \$9.95. He consumed seven orders of fried chicken, ten of French fried potatoes, nine glasses of orange juice, two quarts of milk, a giant combination vegetable salad plus ten egg salads, two orders of queen olives, two glasses of iced coffee, two servings of watermelon and five pieces of apple pie a la mode. He could have eaten more, he admitted, but that six candy bars and a quart of ice cream before lunch took the edge off his appetite.

Salvatori, who hails from Southbridge, Mass., weighs only about 140 pounds. Doctors say his stomach is only slightly larger than normal. His camp nickname? "The Stomach." ... of course.

TRAINS: Still Jammed

Civilians are still on the go—despite increased travel restrictions. Space reservations for July had already been sold out for the most part during June on the old 80-day advance limit when the new order went into effect. ODT regulations limiting advance space reservations to 5 days will not affect civilian travel until August, railway officials explain.

In the big cities there has been no appreciable wave of cancellations as result of the second ODT order designed to give more space to the military by withdrawing Pullman accommodations from trains on trips of 450 miles or less.

There is not much "beefing" among travelers, and when questioned they usually come forward with some good reason for making the trip.

U. S. AIR KING: Fastest Fighter Built

The Chance Vought P4U Corsair, which has just gone into action against the Japanese, has proven itself in combat and bombing as the navy's fastest and most powerful fighter-bomber plane.

Powered with a 2,100 horsepower motor and armed with six 50-caliber machine guns and racked for 2,000 pounds of bombs, it is described as "tops" in maneuverability.

Nazi Flying Boat

Two years before the end of the war, Germany built a 300,000 pound flying boat, the world's largest. The plane had a range of 6,000 miles, could carry 40,000 pounds of cargo. The designer had plans for a 400,000 pound craft. The German flying boat was wrecked and set afire by six U. S. Mustang fighters late in March before it had a chance to be used against the Allies.

REDEPLOYMENT: Ahead of Schedule

Redeployment of U. S. troops from Europe continues to keep in advance of its schedule.

An army announcement states that the program is 30,000 men—two full divisions—ahead of schedule, and that by the end of June 396,001 U. S. soldiers had left European shores for home.

The June quota was 250,000; 280,000 men left Europe during that month.

Love Gropes Way Around the World

Two Are Married by Proxy After Many Hardships.

KANSAS CITY, KANS. — Five years to the day after he rowed away from the Belgium coast with his fiancée in a tiny boat, German-born Edgar Wihl, a U. S. army corporal, wed Miss Lucy Golombesky by proxy. She was in London.

The 39-year-old soldier stood before Thomas M. Van Cleave, Kansas City attorney, and pledged eternal devotion to the Berlin-born woman of Polish-Jewish extraction who fled to England with him.

Born near Cologne, Wihl had lived in Holland since he was six. In 1934 in Amsterdam, where he was a reporter on a Dutch magazine, he met Lucy, a visitor, and it was love at first sight.

Lucy stayed in Holland but the laws of the country at the time forbade marriage of a German and a Jewish woman. They decided to be married in Belgium on May 17, 1940. On May 10, the Nazi armies broke through.

The couple bribed a German guard with Edgar's automobile and radio and shoved off in the rowboat, accompanied by Wihl's brother, Rudy. They drifted for seven days without food until a Canadian destroyer picked them up and took them to England.

The brothers shipped out July 8, 1940, for Canada and two days later the ship was torpedoed. They were picked up by a ship headed for Australia. It was not until 1941 that they reached the United States and they survived another sinking in the Caribbean to do it.

They enlisted in the army April 16, 1941, at Fort Dix. Rudy was wounded on Okinawa. Edgar became a citizen September 28, 1942.

French Women Make Votes Tell in Local Elections

PARIS, FRANCE. — The traditional gallantry of Frenchmen toward the weaker sex was a little strained by the recent local elections, which brought women to the polls for the first time in the history of France.

Somebody—it might have been a defeated candidate — went around Paris chalking walls with the slogan, "Beware of petticoat government."

The small northern town of Echigey now has a complete matriarchal government. Ten women ran on a single ticket and somehow that ticket won. The defeated masculine candidates are demanding a recount.

In another community 500 nuns dominated the election. Their convent is situated near a town with a population of less than 300. The 500 sisters swept the village's "old guard" right out of office.

Flowers, Cheers Greet Yanks in Hitler's Town

BARUNAU, AUSTRIA.—American tanks and infantry were greeted with flowers and cheers when they "liberated" Adolf Hitler's native town. Not a shot was fired.

The American doughfoot crossed the Inn river in small boats borrowed from obliging civilians.

No one here except a sad eyed policeman seemed to care that Hitler had been reported dead.

"Well, how do you feel about Roosevelt's death?" the policeman kept asking. "That's the same way we feel about Hitler's. Roosevelt was the greatest American and Hitler the greatest German."

But others in the crowd laughed at him.

"Yes," the policeman admitted. "Most people here in his own birthplace are glad that he's gone because they think now they may have peace."

His Dad at Dunkerque, Youth Gets His Revenge

TANGHERMUNDE, GERMANY.—William Piddington, a 20-year-old British driver whose father was at Dunkerque, went AWOL to stage such a savage one-man vendetta against the Germans that even battle-hardened American G. I.s blinked in surprise.

He returned to American lines for the first time in five days after the following exploits: Putting on a German tunic, hijacking a German army truck, driving 25 miles into German lines and one mile from the Russians and sending back German staff dispositions.

Capturing 80 Germans, loading them in his truck and driving them back to hand over to the Americans. Killing another 20 or 30.

"I only got shot at four or five times," he said. "When any German discovered I was British, I just killed him before he could start anything."

Mail to Prisoners in Germany Being Held Up

WASHINGTON. — All mail addressed to American and Allied prisoners of war in Germany has been halted in transit and insofar as possible will be returned to the senders.

Deliveries will stop because of the breakdown of German mail deliveries coincident with V-E Day and the rapid evacuation of Americans and Allies formerly held prisoners in Germany.

Painting Glazed Tile

When painting the hard and glossy surface of glazed tile, close attention should be paid to details of mixing and application. Mix thoroughly together one part of floor varnish and four parts of flat wall paint. Both paint and varnish should be of high quality materials. Apply one good coat to the tile surface. This will dry with a fair gloss which may be lessened—after the paint has become thoroughly dry—by a light rubbing with fine steel wool. Follow this with a coat of heavy paste paint reduced to the desired consistency with flatting oil, if you wish a flat or nearly flat finish. If a higher gloss is desired, add a larger proportion of varnish.

Barnacles Sensitive White, yellow or light green paint on ship bottoms tends to retard the growth of barnacles. Research seems to indicate that the larvae of barnacles are sensitive to light to the extent that they seek darker surfaces when attaching themselves to a solid surface. They seem to settle in greater numbers upon black, dark green, chocolate and red surfaces rather than the lighter hues.

Heap Salad Bowls
With Vitamins
For Summer

Help Yourself to Vitamins: This
pretty as a picture salad bowl is
made simply by alternating rows of
lettuce wedges and mounds of po-
tato salad, garnished with slices
of hard-cooked eggs. It's hearty
enough for a main dish, even with-
out meat.

Summer is the time to heap high
the salad bowl and bring generous
portions of nature's bounty of vita-
mins and minerals to the table.

Active summer play and strenu-
ous work calls for big servings of
health and energy producing foods.
That's why the salad bowls play a
major role in the menu parade.

There's another reason, too, why
salads are going to be important
this season. When the butcher has
no meat and the cupboard yields
nothing of interest to the home-
maker, she can always go to her refrigerator
and bring out lovely greens, juicy fruits
and berries, toss them together and
serve an eye-appealing salad. If
more substantial salads are desired,
especially for main dishes, they can
be flecked with the white and gold
of protein-rich eggs, unrationed, lus-
cious bits of chicken or well chilled
and subtly seasoned fish.

Vary the trimmings and change
the dressing, and no salad can ever
become monotonous. If oils and fats
for salad dressings are scarce, put
them together with sour cream,
fruit juices, vinegar or cooked
dressings that require little fat.

Here are two main dish salads that
will go over big with the family.
One stars eggs and the other chick-
en:

Star Deviled Eggs.
(12 Eggs)

12 hard-cooked eggs
2 tablespoons salad dressing
1 tablespoon lemon juice
1 1/2 teaspoons mustard
1 1/2 teaspoons Worcestershire sauce
1/2 teaspoon salt
1/2 teaspoon pepper

Remove shells from eggs. Cut a
slice from both ends, cutting the slice
at the round end deep enough to
expose the yolk. Cut deep gashes
into the egg white around the round
end to give a saw tooth edge.
Pressing gently at the bottom, force
out the yolk. Press yolk and egg
white that was cut off through the
sieve. Add remaining ingredients and
beat until smooth. Refill shells.
Garnish tops if desired.

To serve as a salad, lay on top
of sprigs of watercress or other
greens. Or, use as a garnish for
other salad platters.

***Buffet Chicken Salad.**
(Serves 8)

2 cups cubed, cooked chicken
1/2 cup french dressing
4 cups boiled rice, chilled

Lynn Says

Different Salad Dressings: If
fruits and vegetables do not give
enough variety to make salads in-
teresting, season the dressing it-
self for flavor plus.

Club Dressing: To 1 cup of
mayonnaise, add 1 tablespoon
chopped currants, 1 tablespoon
chopped raisins, 1 tablespoon
chopped nuts.

Indian Dressing: 1/2 cup of
chow-chow to 1 cup mayonnaise.
Tartar Dressing: is excellent on
fish salads. To 1 cup mayonnaise,
add 2 tablespoons chopped sweet
gherkins, 1 tablespoon capers, 1
tablespoon chopped parsley and 2
tablespoons chopped olives.

Thousand Island Dressing: is
easily tossed together. For a cup
of mayonnaise, use 1/4 cup chili
sauce, 1 tablespoon green pepper
and chopped stuffed olives.

Egg Dressing: is lovely to look at
when made by adding 1 chopped
hard-cooked egg, 1 tablespoon
chopped pimiento and 1 table-
spoon India relish to 1 cup may-
onnaise.

A bit of leftover meat? Add
it to the eggs. Especially good
are diced ham, tongue or dried
beef.

*Recipe given.

Salt and pepper to taste
Boiled dressing or mayonnaise
Lettuce or greens
Jellied cranberry sauce
Deviled eggs

Combine chicken and french dress-
ing. Chill about 1 hour. Meanwhile
cook rice until fluffy and season well
according to taste. Just before serv-
ing combine chicken, chilled rice
and enough salad dressing to moist-
en. Season. Arrange in individual
lettuce cups on platter or salad bowl.
Garnish with thick slices of cran-
berry sauce and deviled eggs. Top
with additional dressing, if desired.

There's nothing so cooling on a
warm summer night than a jellied
tomato salad. Although this recipe
provides for a simple salad, it may
be varied by adding leftover or
chopped, fresh vegetables to it.

Jellied Tomato Salad.
(Serves 10)

1 quart hot, stewed tomatoes
1 teaspoon salt
2 packages of lemon flavored gelatin
1/2 cup sliced, pickled onions or
1 teaspoon onion juice
1/2 cup sliced stuffed olives
1/2 cup sliced green pepper
1 cup diced celery

Dissolve gelatin in hot tomatoes.
Add salt and cool. When gelatin
begins to congeal, add the remain-
ing ingredients. Place in a large
mold, rinsed with cold water, or in
individual molds. Chill until firm.
Serve on salad greens with either
french dressing or mayonnaise.

A fruity salad doubles for the des-
sert, if so desired. This one is es-
pecially good when served with tiny
cakes or finger cookies:

Ocean Breeze Salad.
(Serves 6)

3 tablespoons lemon juice
2 cups diced honeydew melon
1 cup watermelon balls or slices
1/2 cup white grapes, split and seeded
1 cup grapefruit sections
3 tablespoons preserved ginger
1 1/2 tablespoons gelatin
1/2 cup cold water
1/2 cup sugar
3 tablespoons chopped maraschino
cherries

Mix gelatin and water and let
stand 5 minutes. Dissolve over hot
water. Combine
fruits, lemon
juice, sugar and
ginger. Chill thor-
oughly. Add gela-
tin and pour into
a mold. Chill un-
til firm. If it is obtainable, 1/2 pint
whipped cream may be added to
fruits before they are mixed with
the gelatin.

Green, White and Gold: As pic-
turesque as a garden in full bloom
is this simple salad made by plac-
ing chilled deviled eggs on crisp
sprigs of watercress. Use extra
dressing if desired, and serve for
luncheon or side dish at garden sup-
per.

Your salad can be better than just
"passing" if your dressings are
smooth and well seasoned so they
can complement the other ingredi-
ents of the salad bowl. Here are
several good basic suggestions:

Cooked Dressing.

1/2 cup sugar
1/2 cup vinegar
1/2 cup evaporated milk
1/2 teaspoon salt

Dissolve sugar in vinegar and stir
until it dissolves. Beat in milk un-
til mixture thickens. Pour over cab-
bage or other greens.

Sour Cream Dressing.

1/2 cup sour cream
1/2 cup vinegar
1/2 cup sugar
1/2 teaspoon salt

Mix ingredients in order given.
Chill.

Thousand Island Dressing.

1 cup mayonnaise
2 tablespoons chili sauce
2 tablespoons chopped green pepper
2 tablespoons pimiento
2 tablespoons chopped sweet pickle
Mix all ingredients in order given.
Serve over vegetable salads.

City where she will be for some
time.

The W. S. C. S. met in the
church basement last Thursday.

Cleaning Fixtures

Don't use strong solutions or harsh
abrasives in cleaning plumbing fix-
tures. They are likely to eat the
enamel as well as the dirt. Instead,
clean regularly with a bristle brush
and soap and water, or a mild
cleanser. To remove stubborn
stains close the outlet, cover sink
bottom with warm water, add three
tablespoons of liquid washing com-
pound to each quart of water. Let
stand about five minutes, then
swoosh about with a cloth and rinse.

Bees Have Homing Instinct

Bees have a strong "homing" in-
stinct so that they are able to get
back to their hives even if they go
a long distance. Bees often fly as far
as three miles to gather nectar.

Lynch Law

England and Ireland as well as
colonial America have claims to the
origin of the verb lynch. The
American account traces it to
Charles Lynch, a Virginia planter
who took the law into his own hands
in punishing his colonist-neighbors
who sympathized with George III.
His brand of justice became known
as Lynch's law, then as lynch law,
before it came into common use in
verb form.

Different Meanings

Among other meanings, napoleon
is a card game, a type of boot, a
form of French pastry and an old
French coin. Compatriots of the Lit-
tle Corporal have given their names
to nicotine, silhouette, pompadour,
vernier, mansard, pasteurize.

SMASH!

Swell on the diamond -
dangerous in the street

I have considerable respect for a man who can throw
straight. I like him to think straight, too—and that's where
street lights come in.

Never risk hitting a street light with a ball or stone. A lamp
smashed by day may mean an auto smashed by night—
or a pedestrian—someone who will never run for a high
one again, or cheer in the stands. Safety and the war
effort depend on light.

- ➔ Street lights protect the movement of
workers, troops, war supplies.
- ➔ REPORT BROKEN STREET LIGHTS to any
Edison office or to the police.

Stern Military Rule for Nazis

Eisenhower to Head U. S. Unit to Fight Activities of German Underground.

WASHINGTON, D. C. — A special intelligence section to detect and "ruthlessly" suppress any Nazi underground activities will be part of the United States military government in the American occupation zone of Germany.

This was disclosed recently in a war department announcement of plans for the United States group which will form part of the Allied four power control council for Germany. The American unit will be divided into 12 major divisions, corresponding generally to the ministries of the German central government, says the Associated Press.

It was announced that General Eisenhower would be the United States representative on the control council, pursuant to an agreement at the Yalta conference.

Lt. Gen. Lucius Clay will be deputy to Eisenhower and also "deputy military governor for Germany," the department said, without amplifying the latter reference.

Broad Over-All Program
The announcement said the United States army, navy and air forces had perfected, over a period of many months and in coordination with the British, Russians and French, a "coordinated program to impose a stern military government over all of Germany and to carry out the policies agreed upon at Yalta." It did not, however, officially define the area of American occupation.

The creation of the intelligence section was a sample of this decision for stern control. Each of the 12 divisions will share responsibility in purging public agencies and industries of Nazis, but the over-all intelligence section, "answerable directly to General Clay, will maintain general supervision over the entire de-Nazification program," the department said. It added:

Also directly under Clay will be two other sections—public information and public relations. The former section, said the department, "will control all forms of public expression in Germany, including newspapers, radio, magazines and other publications and motion pictures."

Demobilization of German armed forces and disarmament are to be attended to by three military divisions—army, naval and air.

A reparations, deliveries and restitution division will supervise carrying out in the American zone policies agreed on in the control council dealing with activities "suggested by its title," said the department.

Big Tasks Ahead.
"Tremendous tasks lie ahead of the economic division, which will deal with such problems as food, agriculture and forestry, fuel and mining, price control and rationing," the department declared. "This division will see to it that the Germans are forced to exert all efforts to feed themselves, and also to ensure that the liberated United Nations are given first consideration on essential commodities."

An internal affairs and communications division will include among other duties supervision of public safety and control of civil police forces. This unit, said the announcement, "will concern itself with elimination of the dreaded secret police."

Other divisions will include: Political—Dealing with foreign affairs, domestic political matters, protection of American interests in Germany and reporting political intelligence.

Transport — Regulation of traffic movements by rail, highway and water.

Prisoners of War and Displaced Persons — "Millions of citizens of the United Nations have been held prisoner in Germany" and must all be cared for and repatriated speedily.

Manpower—Charged with dissolving the "notorious Nazi labor front and laying the groundwork for the normal growth of democratic labor organizations and practices."

Legal—Jurisdiction over prosecution of war criminals and the exercise of "proper control over Allied military courts, German ordinary and military courts and prisons."

Jap Radio Offers Gem to 'Explain' War Losses

SAN FRANCISCO. — Radio Tokyo offered this gem to explain why the war "is still running unfavorably" for Japan:

Nippon's "all-out national might is actually not only far from being all-out, but cannot even be considered fair."

The explanation was the creation of Gen. Jiro Minami, president of the Political association of Great Japan.

New Catapult Seat Hurls Pilot to Safety

DOWNEY, CALIF. — Consolidated Vultee engineers have developed a seat which catapults a pilot out of the range of the propeller when he is forced to bail out. The seat, operated by the feet and designed for pusher-type aircraft, shoots the pilot forward from the cockpit and clear of the plane.

How Roosevelt Was Protected

Steel, Concrete and Gunners Insured FDR's Safety From Air Attack.

WASHINGTON.—Just how much President Roosevelt was protected during the war years after Pearl Harbor, when the threat of enemy air attack was considered real and immediate, can now be told, says the United Press.

The safety of the chief executive, who was also commander-in-chief of the armed forces, was so important that the most extraordinary precautions were taken to see that he was kept out of danger. At the same time he had to be in a position to keep in constant touch with events.

Relaxation of the voluntary censorship code now permits disclosure that there were huge, concrete-walled shelters built beneath the White House, antiaircraft guns on the roof above and heavy concrete slabs over White House ventilators to stop shell fragments.

Within a matter of hours after the Japs attacked Pearl Harbor on December, 7, 1941, construction began on a special network of air raid shelters beneath the White House.

New East Wing.
This led to the construction of a new east wing on the executive mansion. A heavily protected tunnel also was dug from the White House into the lower recesses of the nearby treasury building.

The walls of the east wing at their base were built of 9-foot-thick concrete and steel. Two floors below the ground level a de luxe air raid shelter was constructed, heavily shielded with steel rods and reinforced concrete.

In this shelter the President had a private compartment made of steel 1½ inches thick.

Around this shelter was a larger room where members of the family and household staff could seek safety.

The underground chambers made available for the President under the treasury and under the White House had ample facilities for storage of food and water.

Provision was made for extensive communication facilities in the shelters.

Shelter Facilities.
Other shelter facilities were provided for lesser White House personnel. Reporters for the three press associations had special telephones in a basement room—heavily protected by thick concrete walls—under the west wing of the White House.

Mr. Roosevelt's principal shelter was directly under the White House movie projection room and offices occupied by the head of the White House.

The gunners stationed on the upper portions of all sections of the executive mansion were relieved from duty late last summer.

The President's home at Hyde Park, N. Y., was protected with equally elaborate care.

Army planes, however, were kept on constant alert at nearby air fields to protect him should enemy planes ever break through coastal defenses. Small but speedy and well-armed coast guard craft patrolled the Hudson river in front of his estate when he was there.

A battalion of military police was quartered on property adjoining his and they maintained constant patrol throughout the Roosevelt property. To augment these facilities there were elaborate scientific devices scattered heavily through the Hyde Park estate.

Being Twins Troublesome Even in the U. S. Marines

WITH THE MARINES. — Being twins and traveling together in the corps has its troubles and makes its troubles for Pfc. Engel Magnus Bergsied and John Marcus Bergsied of Hawley, Minn.

A sample of that trouble, writes Sgt. Phillip N. Joachim, a USMC combat correspondent, was seen recently when a gunnery sergeant put Engel on mess duty. A little while later the gunny saw John wandering around and, assuming 'it was Engel doing off, proceeded to give the amazed John the word, says "The Leatherneck."

German Schools Closed Until Texts Are Revised

LONDON. — The Allied military government declared that all German schools will remain closed until a commission of American, English and Russian professors has written new textbooks. AMG officials added that the new books will be prepared as quickly as possible since extirpation of Nazi teachings and re-education of German youth is a most important problem of the postwar period.

Midget U-Boats Used In English Channel

LONDON. — Swarms of midget U-boats were used by the Germans in a futile attempt to hamper the flow of Allied supplies across the Channel and North sea. About 100 of the tiny subs have surrendered, a joint admiralty and air ministry statement disclosed. At least 81 had been sunk or captured.

Science Borrows Housewife's Idea; Saves Time, Money

Science, borrowing an idea from the housewife, is finding that it can save thousands of hours every year in hospitals and laboratories.

The idea is the quick freeze. Ever since germs were discovered, doctors and scientists have needed to keep strains alive, both for experiments and for teaching. Some strains are obliging and will live in test tubes. Others were not and insisted on having living hosts, usually laboratory rats and mice. But constantly transferring disease germs from one animal to another took hours of time and cost money.

In 1942 Dr. Malcolm Soule, head of the Hygienic Laboratory of the University of Michigan, read a magazine article about quick freezing. It gave him an idea and he had a couple of experimental units made, each capable of holding 54-degrees-below-zero temperatures for months on end.

He took nine of the most obstinate germ strains, froze them in test tubes and left them in the units. After two years and a half the germs were as potent as ever when they thawed out.

Need for Legume and Grass Seed Increases

Good Profit Seen
For Seed Growers

Harvesting legume and grass seed will bring a three-fold return to farmers: additional income, assurance of feed for livestock and protection for their soil, says the U.S.D.A.

An increase of 87 per cent over last year's harvested acreage of alfalfa seed is sought in 1945, a total of 179,000 acres. One reason for the larger acreage is the urgent call for this seed from liberated areas of Europe, in addition to increasing home requirements for hay and soil protection.

Half again as much alfalfa seed is needed as was harvested in 1944, about 100,000,000 pounds. About 120,000,000 pounds of red clover seed are needed, some 15 per cent more than was produced last year.

Hay and pasture account for more than three-quarters of the feed consumed by dairy cows and furnish a major share of the feed for other livestock.

In addition, farmers depend on legumes and grasses to check soil erosion and maintain fertility. For example, legumes used as green manure add nitrogen to the soil and when grown in mixtures, they furnish this essential element to the grasses in the mixture. When used in crop rotations, legumes maintain and increase the acre yield of

Gathering Cash Seed Crop.

other crops. Both grasses and legumes are valuable as permanent cover for the land, holding the soil against erosion by wind and water.

Good prices and a ready market are indicated for legume and grass seed in 1945-46, pointing to additional income for farmers from properly managed fields. The first crop of many of these plants may be cut for hay or used as pasture, and the second harvested for seed.

Killing Bean Beetles

Mexican bean beetle, left, and bean leaf beetle, right, can be gotten rid of by spray or dust with cryolite every 10 days until pods begin to form, then using rotenone.

For cryolite spray use 1 ounce to 1 gallon of water. For dust, 2

pounds to 1 pound of talc. For rotenone spray, use Derris or cube root powder, 5 per cent rotenone content, 1/4 ounce to 1 gallon water. For dust, use ready prepared dust mixture containing at least 1 per cent of rotenone.

Save the Tractor and Conserve Time and Life

Time, money, injuries and deaths resulting from tractor accidents may be largely prevented by proper operation. Avoid holes or ditches that may cause tractors to overturn. Drive slowly, reduce speed on turn or when applying brakes. Never ride on draw bar. Don't permit riders. Make all adjustments while tractor is idle. Stop power take-off before dismounting. Be sure that all power line shielding is in place.

Do not operate tractor in a closed building. Refuel only when motor is cool and dead. Be sure the gear shift lever is in neutral before cranking the engine.

Effect of Pregnancy

The severe price discriminations practiced by market buyers against pregnant yearling heifers are not justified when such heifers are marketed by the end of the fifth month of gestation, according to the Illinois agricultural experiment station. Slaughtered tests and carcass show that pregnant heifers take on a higher degree of finish and that at this stage of pregnancy neither the dressing percentage nor the market grade is lowered.

STOLEN SWEETS

A salesman found a business call at a Kansas farm found the farmer placing forkfuls of hay along the edge of a shed roof. "What are you doing that for?" he asked, his curiosity aroused.

"Well," the farmer replied, "this ain't very good hay, and if I put it in the manger the cows won't touch it. But if I put it up here where they can just barely reach it, they think they're stealing it, and they'll eat every bit of it."

And Never Bites

Harry—They say a dog fills an empty place in a boy's life.
Jerry—I know a hot dog does!

Everything Borrowed

Mae—Well, anyway, he has the manners of a gentleman.
Kay—I knew they didn't belong to him.

Racey Food

Butcher—And what can I do for you, ma'am?
Elderly Customer—I'd like to try some of that track meat I heard so much about on the radio.

Words to Fit

Harry—I don't like that fellow. He knows too many dirty songs.
Jerry—Does he sing them to you?
Harry—No, but he whistles them.

WOMAN'S WAY

Joan—What's the scarest thing around that isn't rationed?
Jane—Men!

Catch Words

Nit—What's the difference between a rooster, a soldier and an old maid?
Wit—I give up. What is the difference?

Nit—The rooster says cock-a-doodle-do. The soldier says Yankee-doodle-do. The old maid says anybody'll do.

System is Right

Mary—My sister always feels better after a good cry.
Larry—I suppose it gets things out of her system?
Mary—Better than that. It gets things out of her husband!

Lost and Found

Guest—I've been looking for my husband for an hour.
Hostess—That's nothing. I've been looking for mine for 10 years and haven't found him.

Neighborly Feeling

Attractive New Neighbor—Little boy, I need a loaf of bread from the store at the corner. Do you think you could go for me?
Youngster—No, ma'am, but my dad said he could.

Where?

Old Lady—How were you wounded, my poor fellow?
Returned Veteran—By a shell.
Old Lady—Did it explode?
Returned Veteran—No, ma'am. It just crept up and bit me.

ALL THERE?

Britisher (on phone)—Hello, are you there?
Yank—No, are you?

Close Shave

Ton of Sawdust
When you look at a ton of sawdust, you are looking at over 1,100 pounds of wood sugar. You are looking, too, at about 600 pounds of a brownish, blackish substance called lignin, which experts say may have many of the mysteries of the "benzene ring" which is at the foundation of our modern great chemical industries.

Giants Sterile
Giants are never born of gigantic parents because extremely large people are usually sterile. This is true generally of men and women more than 7 feet tall. Dwarfs, or people measuring less than 4 feet, are also sterile as a rule.

Broody Hens
Remove broody hens from nests as soon as they go broody and shut them up in a coop with wire bottom or slatted bottom which is off the ground. Feed them and induce them to eat well. The sooner they are broken up, the sooner they will lay again. If they are frequently and persistently broody, it is advisable to sell or kill them for food.

Relieve Back
Don't bend over with stiffened knees and rounded back to pick up objects. It's better to stoop, bending your knees and keeping your back vertically straight. Let your leg muscles take the strain off your back.

Steps in Shearing Sheep Simplified

One or a Thousand Its Rules Are Necessary

The following steps, condensed and simplified, are given for guidance and improvement of the shearer, whether he handles one or a thousand sheep.

1. First strokes are downward from brisket. Run three or four
2. Remove body wool with nearly straight - around strokes across belly. Shear inside of right leg from foot toward tail. Continue strokes until leg and hip are cleaned.
3. Open up neck with stroke from brisket to jaw and on right side of neck, then left jaw, side of face and top of head. Shear left shoulder and foreleg.
4. Shear the left side with long strokes from hip to shoulder.
5. Finish shearing left side, taking two strokes beyond the backbone the whole length of sheep's back and neck. Shear right side of head and neck.
6. Shear right side of shoulder and right side down to hind leg. Shear right hind leg, starting near backbone.

Steps in Shearing.

strokes down from under right foreleg to flank to open a starting place for strokes across belly.

2. Remove body wool with nearly straight - around strokes across belly. Shear inside of right leg from foot toward tail. Continue strokes until leg and hip are cleaned.

3. Open up neck with stroke from brisket to jaw and on right side of neck, then left jaw, side of face and top of head. Shear left shoulder and foreleg.

4. Shear the left side with long strokes from hip to shoulder.

Agriculture In the News
W. J. DRYDEN

Onions
Next to salt, the world's most valuable seasoning is the onion. It has come to be recognized as a leading garden "must."

Alexander found the onion in Egypt. He fed it to his troops in Greece in the belief that it excited martial ardor.

Seed Onions A new hybrid has been produced in California which yields 38 tons to the acre.

In 1597, John Gerard reported that onions were good against the biting of a mad dog, for colds, bites, to grow hair, for burns, or gun wounds. He also said it caused headaches, weakened the eyes, dulled the senses and provoked oversleep.

The volatile oil of onion has been found by Russian scientists to contain a bacteria-killing substance. Onion paste is being used in Russia to heal wounds and guard against infections.

Dehydrated onions have proven a most important item for overseas shipping. French dried onions promise to become more popular as the supply of odorless onions becomes larger.

Feed Needed by Cows
In planning the dairy cows requirement, two tons of good quality legume or mixed legume hay should be harvested per cow, or one ton of good quality legume hay or mixed legume roughage, and three tons of silage per cow.

Twenty bushels of corn and 20 bushels of oats should be harvested for each cow. In addition five bushels of soybeans, when silage is provided, or 2½ bushels where silage is not available.

Oak Bluff Breezes

News items this week are somewhat limited due to unseasonable cool and wet weather keeping a number of week-end visitors away and for those who were here no fishing, boating or bathing was possible due to high winds and rough water. Speaking of weather, a recent editorial in the New York Times seems to be apropos at this time. Quote: "In no country, in no climate, under no form of government is weather ever satisfactory. Perhaps it is not human nature to be satisfied. We pray for cold weather and get it. Then we don't like it and we pray for hot weather—and get it. We pray for weather—and get too many of them. We pray for rain—and get floods in the Mississippi or some other section. What we want is almost always what we don't want. We may alter weather in various ways, by artificial heat, by air conditioning, and several other methods but there is no getting rid of weather. It is the grievance that afflicts and unites humanity. This is true today; it will be true next winter, next year and it will be true a century hence. The average temperature and humidity will remain about the same. The mean temperature and humidity will still be mean."

Karl Ketchum of Birmingham joined his family here Friday evening and will remain the balance of the month. On Monday, they were in Bay City for the day.

Mr. and Mrs. M. R. Sweeney of Atlanta, Ga., were visitors at the Jas. Anderson home Friday and Saturday of last week. They are relatives of the Andersons and are interested in purchasing a cottage. Mr. Sweeney is connected with Swift & Co.

Mrs. J. E. Wurm drove to Bay City last Friday and her sister, Miss May Goulet, returned with Mrs. Wurm and will be her guest for at least a week.

The Don Sturm cottage was opened this past week. The family moved up from Pigeon Saturday and will remain until Sept. 1.

Fr. Hafner was a dinner guest at the Burke cottage on Monday evening.

Carlos Vader was in Detroit Friday on business. Carlos has opened a repair shop in the Gillingham building down town in Caseville.

Mr. and Mrs. J. A. Sandham of Cass City were at "Sandy Nook" over the week end. Mr. and Mrs. Roy Briggs of St. Johns are also here and will remain a few days. The Sandhams have recently installed an electric range.

Mrs. G. H. Burke entertained at a bridge luncheon on Wednesday the following guests: Mrs. Geo. E. Ketchum, Mrs. Karl Ketchum, Mrs. H. H. Madigan, Mrs. J. D. Brooker, Mrs. Chester Pulford, and Mrs. E. R. Wilson. Prizes went to Mrs. Karl Ketchum, Mrs. Wilson and Mrs. Madigan.

Mrs. Geo. Ketchum entertained at a fish dinner on Friday evening, Mr. and Mrs. Burke and Mrs. E. R. Wilson.

Miss Thelma Allen of North Shore gave an afternoon bridge and dinner party on Monday. Friends from Cass City were Mrs. Ethel McCoy, Mrs. Auten, Mrs. Schwaderer and Mrs. Price, and from Oak Bluff, Mrs. E. R. Wilson and her house guest, Mrs. Howlett, and Mrs. G. H. Burke.

Mr. and Mrs. Verne Geiger of Saginaw were guests of the Madigans on Sunday. Mr. Geiger was former conservator of several Huron county banks and is now a member of the WPB of Saginaw.

Miss Phoebe Kerr entertained a number of friends from Oak Bluff at a luncheon on Tuesday, prizes at bridge going to Mrs. G. H. Burke and Mrs. E. R. Wilson.

It was Mr. and Mrs. Arthur Moore of Cass City (not "Moon" as printed in this column last week), who were guests of Mr. and Mrs. Lester here on July 8.

Turn Paint Over
Turn cans of paint upside down on a shelf 24 hours before you begin a paint job. It will save considerable time, as much of the mixing will have taken place.

FROM THE FILES OF THE CHRONICLE.

Twenty-five Years Ago.
July 23, 1920.

Superb pyrotechnic displays will feature the evening entertainments at the Cass City fair next month. First nighters will see the thrilling war number, "The Battle of Chateau-Thierry," depicted in a vivid manner.

Cass City's population for the 1920 census shows an increase of 102 people, or 9.1 per cent over the figures of the previous census. The 1920 census gives Cass City's population as 1,228.

Mrs. Alex Milligan and two children arrived at Cass City on Friday evening from Scotland where they have been on a visit to her parents and other friends.

Monday evening the village council voted unanimously to purchase the 19-acre tract of land comprising the fairgrounds from the Cass City Fairgrounds and Driving Park association for \$3,600. Village President Schenck appointed Trustees West, Bigelow and Sandham as the park committee.

Federal, state and county officials made another raid on Huron county booze makers and bootleggers July 8. Their captures included eight men, 525 gallons of whiskey "mash," several gallons of whiskey, parts of stills and other illicit outfits for making booze.

F. Roy Phillips will be superintendent of schools at Croswell next year.

H. S. Wickware and P. S. McGregory are erecting summer cottages at Oak Bluff.
L. O. Hoxie, superintendent of schools, who has looked in vain for a residence for rent in Cass City, has secured rooms on the second floor of the McLellan hotel and moved his household goods there this week.

Thirty-five Years Ago.
July 22, 1910.

Dan Ahr, at one time the youngest member of the Cass City band, was successful in passing the examination of a navy musician and is now playing clarinet in the band on the receiving ship, Philadelphia.

Rev. L. A. Townsend will begin his pastoral work in the Cass City Baptist church next Sunday.

Albert Goff and Alfred Englehart have purchased the fruit store of C. F. Knowles. Mr. Knowles will continue in the butter and egg business.

Walter McCoy has been spending a week with his sister, Mrs. J. H. Hays. Mr. McCoy is from Montana and is on his way to Africa.

W. S. Eddy, capitalist of Saginaw, accompanied by a party of three gentlemen, was in town on Monday looking over the country with a view of putting an electric line through this place.

HOLBROOK

Mr. and Mrs. Ed Pedlar and son, Eddie, and Mr. Wells of Saginaw spent the week end at the Steve Decker home.

Mr. and Mrs. John Smith and children of Sebawaing visited on Sunday at the Clifford Robinson home.

Mrs. Loren Trathen and Paul O'Harris were guests at the home of Paul's mother, Mrs. Mabel O'Harris, at Bad Axe Sunday. It was Paul's birthday. A lovely cake with eight candles graced the table.

Capt. V. C. Bailey, son of Mrs. Amy Bailey, and Rita Speige were married at Detroit July 14 by David Duniker, L. D. S. minister. Anna Carle, sister-in-law of the bride, was bridesmaid, and Vern Bailey, Jr., son of the groom, was best man. Both ladies were dressed in blue suits and wore gardenias.

Mrs. Delmer Bowron of Bad Axe entertained a large number of children and grownups at a party in honor of the 9th birthday of her daughter, Delrene, at the park in Bad Axe July 16 in the afternoon. Tables were set in the park for supper. Ice cream and birthday cake were also served. Delrene received many presents and a large sum of money. The party was a surprise to Delrene. A gift came from her father, Seaman Delmer Bowron, in the South Pacific. Pictures of the children were taken. James Hewitt, Sr., is a little better at this writing.

Mr. and Mrs. John Brown and Mrs. Mary McHugh attended the funeral of Mrs. McHugh's and Mr. Brown's sister in South Dakota this week.

Chicks Travel in Style
"Flying brooders" carrying increasingly heavy cargoes of day-old chicks between the Americas are now averaging nearly \$13,000 weekly. Hatching eggs and baby chicks are finding their way in ever-increasing cargoes to Cuba, Dominican Republic, Trinidad, Venezuela and Netherlands West Indies, where active movements are under way to build up local poultry industries by the introduction of better and harder stocks. Puerto Rico, suffering from a critical food shortage, relied upon Clipper express to import dressed poultry from Dominican Republic, and the condition was quickly alleviated.

Iron Mass

Brazil's recently discovered iron deposit, heralded as the "greatest known mass" of hard iron ore in the world, has been estimated at 15 billion tons. This would give Brazil about 22 per cent of the world's estimated iron reserves. The newly discovered deposit is in the region around Belo Horizonte, 50 miles to the northeast at Itabira. Near-by Cauze peak is a mountain of solid hematite. It is ringed by other iron hills.

FARM ACCIDENTS CAN BE AVOIDED

Concluded from page 1.

of wheat for each of the 137 million persons in the United States. Let anyone get the impression that all farm accidents occur in the barnyard or the field, Geil points out that falls and burns were the causes of the deaths of 7,000 farm

men and women last year.

The broad, over-all program for reducing farm accidents includes these points: first, every member of the farm household should develop a safety consciousness so as to be able to recognize potential death and injury traps; second, when the danger spots are recognized, eliminate all that can be and, for the rest, develop safe practices and install devices to prevent accidents from developing.

Kathleen Norris Says:

From Today On

Bel Syndicate—WNU Features.

With an almost blind husband, a mother-in-law, a small daughter, an English boy, a house to manage, Alice will have her hands full.

By KATHLEEN NORRIS

IF YOU have not been saving kitchen fats and taking them in tin cans to your butcher, do it—from today on.

If you haven't been setting aside superfluous warm, plain clothing for the next clothing drive, do it—from today on.

If you haven't been investing every spare penny, and some that you cannot spare in this great war to free all peoples and settle all boundaries, then commence to do it—from today on.

If you should not be dieting, or balancing your domestic budget, or writing regularly to your soldier, or taking on a part time job as assistant nurse, then begin to do it—from today on.

One great trouble with us American women, who have known so many years of security and plenty, is that we are apt to think about all these things and a thousand others. "I wish I'd begun that—years ago. Saving dimes. Studying Spanish. Having the children's friends in for simple hospitalities. Walking two miles a day. Look at all the time I've lost! If I'd had any idea how useful it was going to be to me—or how happy it would have made Tom—or what help I could have given that poor child—or how welcome that extra money would be now!"

Chance for Fresh Start.

Some lives are spent in this sort of useless regretting. But the smart woman eventually learns that whatever the mistakes and omissions of the past, there is always today. Today may be the beginning of the new time—the time of quiet accomplishment, friendship, study, saving, building.

"I don't write him half often enough!" says the busy woman in the market. She is deciding between frankfurters, salmon, or curried eggs for dinner, the place is full of bustle and gossip and morning light; her heart goes for a moment to the man overseas, then she forgets him again. To son or husband she is apt to write often, but this man is her nephew, or a friend's son, or the casual Christmas guest who begged so wistfully for an occasional letter.

So she doesn't write, and perhaps presently learns that the chance as far as that particular sailor is concerned, is gone.

What we ought to remember is that today is as powerful, as filled with opportunity, as any yesterday was, and that a few months' concentration on the saving, the diet, the child, the foreign language, is still in our power.

In a letter yesterday I received an illustration of this and can only advise Alice M., who wrote the letter, to start all over again—from today on.

Alice is the wife of a young naval officer, she has a child of three. She writes that she adores her husband, adores her child. She has a comfortable home, and is busy with the usual activities of housework and baby care, Red Cross and canteen. Archie has been away for 15 months.

Last fall Alice met an army man who is married and has grown children; on neither side was there any pretense of great love, or any suggestion of divorce. They were lovers for a brief space; Alice does not excuse or defend this, she merely tells me that for a few weeks of what now seems to her insanity she and the major met at various times and

places and carried on a secret affair. He has now gone to Africa, and her hope is that she will never see or hear from him again. Her shame over this episode is equalled only by her fear that Archie will end their marriage, always so happy and harmonious, and take her child away from her.

Archie is Coming Home.

Now comes the news that Archie is on his way home, almost blind, and that his mother, recently widowed, is about to join the family with her young adopted English son, one of the babies who was evacuated six years ago. Alice writes me in complete distress; must she tell Archie, and how to handle the long deception if she doesn't?

Well, my advice would be to pick up this complicated problem and work it out as if there was no secret to hide—from today on. We're all going to have to forget a lot of everything if this world is to be rebuilt. With an almost-blind husband, probably studying for an entirely new profession, a mother-in-law, a small daughter, an English boy, a house to manage, Alice will have her hands full. "If she will go straight ahead, trying to make them all happy, trying to make each day perfect in service and love, she need never tell Archie anything at all, except that she is the wife who loves him, and who is determined to help him to blot out the cruel years that have so scarred him, and create a perfect life together—from today on.

Sources of Vitamin C

Tomatoes and oranges—both rather scarce at present—are not the only source of vitamin C. Fresh raw cabbage and turnips have been found to be just as rich as citrus fruits and tomatoes. The buffalo berry of North Dakota is outstanding in content of this vitamin, while good guava powder is phenomenally rich, with 3 per cent. The Russians and British have made a jam from rose hips. A Russian nut containing 3 per cent is being utilized also.

START NOW

Yesterday is gone, and tomorrow may never come. Today is the time to begin. If you have been delaying and excusing yourself for a long time about doing something you should—buying bonds, or rolling bandages, or saving fats—right now is the time to start. Don't bother with regrets over the past. Don't make grandiose plans for the distant future. Act today. This is Miss Norris' advice to women on the home front.

Even in a seriously complicated domestic situation, as in the case outlined in this article, the only sensible thing to do is to start over as well as possible. A young wife of a naval officer has been carrying on an affair with a middle-aged major. There was never any real love in this liaison, and it is now ended. Alice now wants to forget it, but she is afraid this unsavory episode will cloud the future. She has just heard that her husband, Archie, is returning from service, almost blind. He is bringing his widowed mother with him, and her adopted son, an English boy. This will mean two children in Alice's household, as she and Archie have a three-year-old daughter.

Miss Norris tells Alice to start today, determined to hold her marriage together, and to try to make everyone as happy as she can. There will be much for everyone to forgive and forget after this tragic war period ends.

Ship Vast Stores To Pacific Base

Excess Supplies in Europe Go to Fight Japs.

SUPREME HDQ. ALLIED EXPEDITIONARY FORCE, PARIS.—All usable American war material no longer needed in Europe will be transferred to the Pacific theater as quickly as possible, most of it being shipped directly, Brig. Gen. Morris W. Gilland, deputy chief of staff for supply in the European theater of operations, disclosed recently.

Calling this theater a major base for the Pacific, Gilland outlined a broad program of redeployment of equipment, material and supplies which his organization must handle while still supporting troops remaining on the continent.

Troops going directly to the Pacific will take all their equipment with them, Gilland said.

The end of the war in Europe found the American armies with more than 5,500,000 tons of supplies on the continent. This included 700,000 tons of ammunition and more than a million separate items ranging from locomotives to watch repair tools.

Gilland's organization is faced with the problem of rehabilitating, packing, and shipping much of this material. As an example of the tremendous task, he pointed out that the program calls for repair of 94,000,000 pieces of clothing by the quartermaster corps, 160,000 motor vehicles by the ordnance department, 255,000 radios by the signal corps, 21,000 pieces of construction equipment by the engineer corps, 2,000,000 gas masks by the chemical warfare division, and 23,000 pieces of electro-medical equipment by the medical corps.

American armies in Europe have roughly 3,000,000 small arms, 11,000 medium and light artillery pieces, 350,000 automatic weapons and mortars, 62,000 combat vehicles, and 371,000 general purpose and special purpose vehicles among their equipment, it was disclosed for the first time.

Submarine 'Kill' by Son Of Roosevelt Is Told

ABOARD A CRUISER OFF BORNEO.—An elusive Japanese submarine played dead beneath two searching American destroyers until both lost contact with it.

Finally a destroyer escort was hailed and her skipper, Lt. Cdr. Franklin D. Roosevelt, rolled up his sleeves. The late president's son guided his little ship through a two-hour hunt and five target runs which ended with a tremendous underwater explosion. The submarine was listed only as probably sunk, for no debris was found. Navy men felt, however, that the explosion marked the end of the enemy sub.

Rear Adm. Russell S. Berkeley, cruiser squadron commander, described Roosevelt's job as "one of the most efficiently conducted anti-submarine operations within my knowledge," and recommended award of the legion of merit.

But President Roosevelt probably never knew of the commendation. He died two days after it was issued.

Adolf Hitler Street Now Called 'Kaput Strasse'

MOSCOW.—Long lines of Germans are forming Berlin at portable field kitchens rushed up by the Red army, and in other areas starving Berliners are digging in the ruins for the carcasses of horses, Russian accounts from the capital said.

An Izvestia correspondent said the first expression he heard from every German was "Hitler is kaput," and the second was "Bread, bread, please some bread."

Germans tore down most of the street signs in their retreat through the city, he added, and Berliners are not cooperative in helping Russians find their way.

A Soviet camera woman writing to her mother said she was living on Adolf Hitler strasse, now called "Kaput strasse."

Freed G.I.s to Operate All War-Prisoner Camps

NEW YORK.—Plans to use American troops liberated from German prisoner-of-war camps to operate camps in the United States housing enemy war prisoners extend throughout the nation, it was learned here.

Inauguration of the plan was announced in New York by the 2nd service command, which embraces New York, New Jersey and Delaware, and in Washington it was disclosed that the announcement was pursuant to a general order to all service commands issued by the war department through the office of the provost marshal general, Maj. Gen. Acher L. Lerch.

Refugee From Cologne Does Bit in Jap War

LOS ANGELES, CALIF.—Mrs. Christel Saloman, refugee from Cologne, read that Lt. Col. Victor Krulak of the marines was putting old razor blades in the bark of trees on Pacific islands to discourage Japanese snipers from climbing them. That was 18 months ago. Recently Mrs. Saloman came to the marine corps recruiting station here with 2,000 razor blades she and her friends had saved.

Popular Beverages

As early as 1810 tea leaves were brought from Bantam to Holland and introduced to France and England a few years later. This cup which cheered, but did not intoxicate, had a wide appeal and by 1850 four millions of pounds were imported into England. Coffee was soon after almost as popular. Coffee houses were set up where friends met in public to discuss life and letters over the steaming cup.
