Three Seriously Injured in Automobile "B" Football Squad Accident Tuesday

Five persons were injured, three seriously, in an automobile accident about 8:45 a.m. Tuesday on North Seeger St., when a car owned by Miss Irene Hiller of Cass City and driven by Sgt. Frank Karner of Gagetown/left the pave-Gracey, seven years old, and rell, Jeffery, Kettlewell, Little, crashed into a tree on the east side of the highway. Riding with Sgt. Karner and Miss Hiller were John and Florence Karner, brother and sister of Sgt. Karner.

The four who were riding in the car were taken to the Morris hos-pital for treatment. Miss Hiller had several ribs fractured and suffered a severe bump on the forehead and Miss Karner suffered a deep gash in the left leg. Both young women are still in the hospital. John Karner's ankle was hurt and a thumb was put out of joint. His brother, Frank, was cut in the forehead.

Richard Gracey was taken to Pleasant Home hospital where he lay unconscious for a half day. He suffered a fracture in the region of the left elbow and a skull fracture. He will be confined to his bed for two weeks. Richard is the son of Marine Private Robert A. Gracey and Mrs. Gracey. Mrs. Gra-cey resides with her parents, Mr. and Mrs. Chas. McCaslin, at Cass City.

The automobile party were on their way to Detroit. The car had passed the north village limits and was traveling south on Seeger St. when the driver noticed Richard Gracey run out-of a driveway at the home of his grandparents, Mr. and Mrs. Chas. McCaslin, on the west side of the street, to cross the highway on his way to school. Brakes were applied and the car was turned off the pavement to the east in an endeavor to avoid striking the child. The boy was hit by either the fender or running board of the car. The automobile ran into a large tree, was badly smashed and is beyond repair.

Deputy Sheriff Leonard Urguhart, who investigated the accident, is of the opinion that it was unavoidable. Those who viewed the car after the accident and saw how badly it was damaged marvel that its occupants escaped more serious injuries. without

Rally Day Pageant To Be Presented

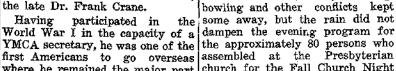

"God's Willing Workers," a pageant by the primary and junior children will be presented Sunday at 10:30 a.m. at the Presbyterian church. The pageant is being directed by Mrs. Frederick Pinney and Mrs. Ernest Croft, assisted by Mrs. Ivan MacRae, and with Miss Harriet Crowthers as pianist.

The pastor will have a short message, "Sculptors of the Spirit." The regular choir will assist in the opening part of the service of worship, prior to the pageant, with Mrs. Ella Price as organist.

The church school classes will meet as usual following the Rally Day service and promotion will be made at the close of the hour, so that new classes will begin with the new quarter, Sunday, Oct. 7.

Our sugar plant can still employ some men and women for this year's sugar processing campaign, starting early in October, and ending early in December.

JOBS WAITING

FOR MEN AND WOMEN

This year, besides earning good pay, workers will have the satisfaction of knowing that, although the war is over, they are rendering a vitally needed service to their country and state.

There is every indication that the sugar shortage will continue for many months to come. Michigan's sugar beet crop must be processed into sugar without delay.

Previous experience in a sugar processing plant is not necessary. There are jobs for men and women as well as boys of employment age. Working through the campaign, an employee can earn close to \$400 by early December.

Apply in Person or in Writing at Our Employment Office Now

made again. And I've seen them advertised in the magazines."

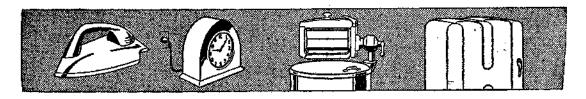

Here are the facts about the electric appliance situation. Manufacturers are resuming production of a limited number of appliances. Until they can reconvert their plants to full peacetime operation, the number built during the first few months will be small.

The demand will far exceed the supply. At least at first, what appliances are available will be spread so thin among the various appliance dealers that there will be very few on any one dealer's shelves. It may be a year before the supply is plentiful-perhaps longer. The first appliances released by manufacturers will go to department stores, hardware stores, home appliance shops, etc.-dealers whose very existence depends upon the sale of merchandise. The Detroit Edison Companybecause it handles appliances only incidentally to its principal business of selling electric service-will be among the last to get them. Our policy has always been "See your dealer first." Until the dealers' shelves are stocked, we shall have very few electric appliances for sale.

Please remember that your dealer's supply will be short. He is anxious to sell you the appliances you want, but he can obtain no more than his limited allotment. We are equally anxious to have electric appliances once more available for all who want them. We hope the time may not be too far off.

THE DETROIT EDISON CO.

Your dealer will be glad to give you helpful information about the particular appliance you want, and answer any questions you may have. When new electric appliances are again available, he will help you select the model to fit your needs.

CASS CITY CHRONICLE-FRIDAY, SEPTEMBER 28, 1945.

Laundering Velveteen

PAGE SIX.

In laundering velveteen and corduroy, dip the garments up and down in suds made of neutral soap flakes and warm water. Then put dust, after which they can be soaked them through two or more rinse waters. Press out all the water possible after each rinsing, but do not wring or twist. Hang up to dry and press on wrong side. Then brush right side, with the nap. Press again, until the fabric is thoroughly dried out. Later, brush in the opposite direction to raise the nap. omit it during storage.

Farmers **Organizations!**

Cottonglass Curtains

Before joining any organization, farmers should consider the following ten prerequisites: Need, Membeship, Leadership, Finances, Control, Scope, Objectives, Program, Performance, Organization.

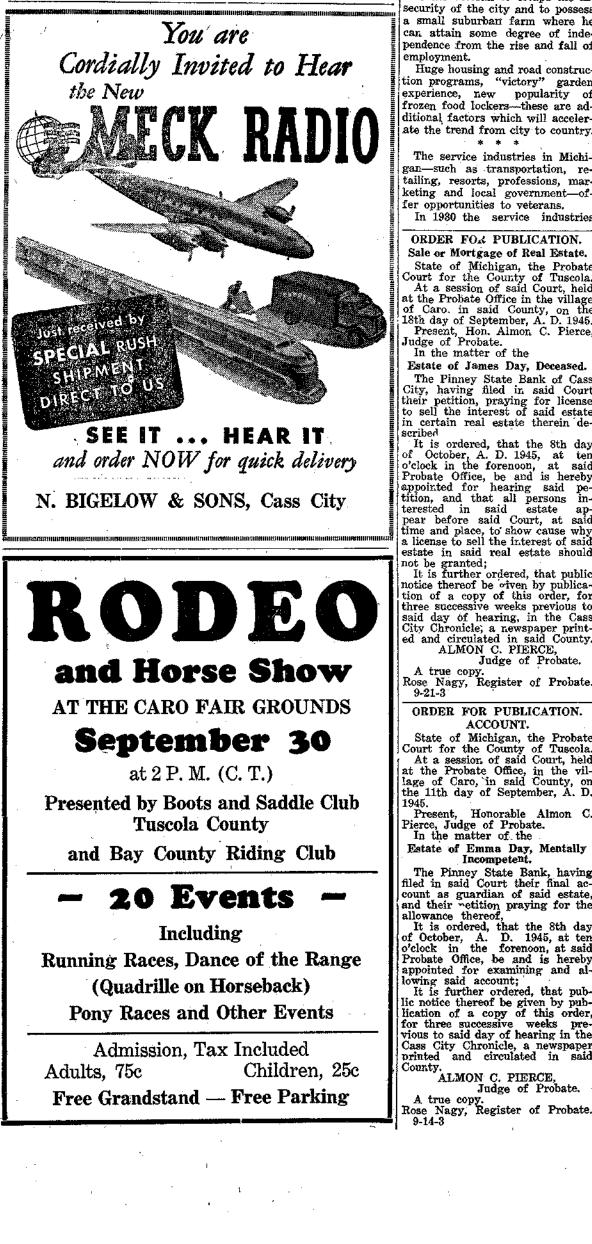

Today we discuss LEADERSHIP.

Outstanding and respected leadership is essential to the success of any organization. It must be trained agriculturally and sympathetic to the problems of rural life. Success in some other field does not necessarily qualify one for leadership of a farmers' organization. Confidence in local leadership will insure growth and accomplishment of purpose.

FARMER CO-OPERATIVES qualify as to leadership by offering only the best on the county, state and national levels.

Support your local CO-OPERATIVE.

This ad sponsored by MICHIGAN ASSOCIA-TION OF FARMER CO-OPERATIVES. Tuscola County Farm Bureau, Millington Farm Bureau, Tuscola Co-op Milk Co., Caro Sugar Beet Growers, Inc.

INTERPRETING THE NEWS

Concluded from page 1. civilian life, will face the immediate choice of a continuation of American free, competitive system which has been responsible for the highest living standards in the world today or a fling at state socialism with its Utopian hope of a full dinner pail, individual security, better health, and better everything else, all at the bounty of the government and thus at the expense of everyone, rich and poor.

There is some logic to the argument that the cost of modern war, such as the 270 billions which have been piled on top of American national indebtedness, may inevitably push the nation into state socialism. The private enterprise system, faced with such a challenge, is on trial as never before. What will the veterans do? The

decision will be fateful. * * The Michigan veteran will come

home to an agriculture which has experienced war-time inflation of land prices. More farm land changed hands previous year on record. In fact, many farms have been sold at prices higher than their long-time earning power justifies. Prices last year were 45 per cent higher than in 1939. The spiral continues upward.

Veterans will return to a highly mechanized agriculture in which work of three teams of horses. The same machine, or perhaps one adapted for small acreage, will enable the veteran to escape the insecurity of the city and to possess a small suburban farm where he can attain some degree of inde-

pendence from the rise and fall of employment. Huge housing and road construc-tion programs, "victory" garden experience, new popularity of frozen food lockers-these are additional factors which will accelerate the trend from city to country. * * *

The service industries in Michigan—such as transportation, retailing, resorts, professions, marketing and local government-of er opportunities to veterans. In 1930 the service industries

County. ALMON C. PIERCE, Judge of Probate.

income as compared with 39.2 per- which will greet the Michigan of the college paper. cent in 1920. Economists maintain veteran in 1945 and 1946. So give Mrs. Fred Tewkes that if this country is to have a them a helping hand. And hang on- troit spent the week end with her higher and higher standard of liv- to your hat while we try the next ing after the war, the movement curve in the post-war roller coastinto the service occupations should er that is just ahead.

be encouraged. Certainly factories alone can't be responsible for full employment. The big bad indus-trialist, much booted around by abor agitators, affects less than one-third of the nation's total conomy.

Service industries now dominate both manufacturing and agriculture as the greatest single factor

in American life today. To illustrate it: Michigan's resort business is second only to industry in an-nual dollar income. Like agriculture, it is a service industry. There's no reconversion needed or service industries unless it is uman reconversion, the psycho-ogical need for same thinking for service industries unless it is human reconversion, the psychoogical need for sane thinking about our new problems.

Finally, just as the veteran must solve the problem of individual sesolve the problem of individual se-curity, so he must solve the probem of national security. lem of national security. The atomic bomb, plus jet-pro-pelled planes, plus V-1 and V-2 robot bombs, have shattered illu-sions of geographic security and insularity from world troubles. Such is the thesis of Senator Ar-thur Vandenburg's appeal for American participation in the H United Nations Council.

The end of the war, opening oodgates for release of war-time floodgates for release of war-time responsibilities and restrictions, has already prompted politicians to advocate abandonment of American responsibilities in Europe and in Michigan in 1943 than in any British and Chinese do it!" is the the Far Pacific. "Let the French, "Bring our boys home!" cry. When the boys do come home, and we're all for it, they will still face the problem of securing peace for their children. We hope they do a better job than the veterans of World War I did-and didn't do-
