Maj. Imerman, Held By Japs, Will Tell His Experiences Here

It was Feb. 1, 1941, when Dr. Harold M. Imerman took a last look at his comfortable Saginaw home and bade his mother goodbye. One thousand seven hundred thirty-two days later, Maj. Imerman has returned but in that time he has lived a hell that few men ever have known, a hell that started in Northern Luzon and ended in stinking Port Wakanoura, Honshu, on a glorious Sept. 15 day this year when a United States hospital ship picked up a bedraggled lot of war prisoners, remnants of the gallant but futile Battle of Bataan.

Maj. Imerman will tell the story

Major Imerman.

of starvation, disease, horror and death experienced by men in his group at the hands of the Japs, at the November meeting of the Cass City Community club at the school auditorium Tuesday, Nov. 13.

It is a heartbreaking saga of a medical officer's battle to beg, steal or buy supplies to nurture fading lives. Trained to study the human body, he watched his men's every move and knew before others which men were starting to die and which might live. Few men of medicine have been called upon to serve their fellowmen as has Maj. Imerman; the record shows few who served better or more faithfully. His address to the Community club next Tuesday promises to be most interesting.

Education for Rural Living Is Theme of County Meeting

Representatives of many farm groups and individuals interested in rural living will meet on Tuesday evening, Nov. 13, at eight o'clock, at the Vassar high school to hear Dr. Howard Y. McClusky, of the adult education department of the University of Michigan, discuss "Education for Rural Living." Following Dr. McClusky's address, there will be a short period devoted to questions from the audience which Dr. McClusky will answer.

The meeting is being arranged by a committee named at a district meeting held last March at Mariette where the same topic was discussed. The county meeting, Nov. 13 is the last in a series of four meetings.

At all the gatherings the rural school and its place in the community was discussed at great length. Dr. McClusky is especially well fitted to discuss school questions as well as other factors affecting rural living. The meeting is open to the public.

Church Commemorates Four Score Years of Activity in Cass City

Services were held Friday evening and Sunday in the Salem Evangelical church in commemoration of the 80th year of Evangelical church life and work in the Cass City community. The meetings were well attended.

Friday evening a fellowship supper was served in the church dining room. About 150 members and friends of the congregation enjoyed the repast and the program which followed.

The invocation was given by Rev. Stanley P. Kim, the pastor. After singing a group of hymns under the leadership of Mrs. Maurice Joos, with Miss Betty Hower at the piano, Rev. H. I. Voelker, a former pastor here, offered a prayer of thanksgiving. A historical sketch of the church dealing principally with the early days of Evangelical activities here and reminiscences of that time was read by Mrs. Benjamin Schwegler. Greetings and congratulations were extended by Rev. Melvin R. Vender, president of the Cass City Council of Churches.

Rev. S. P. Kim read letters of greetings from Rev. F. L. Pohly, Miss Ruth Schenck, Rev. Roy J. Striffler, Rev. Leon Willoughby and Rev. G. J. Kim.

Rev. Mr. Voelker gave the evening's address on the subject of "Yesterday-Tomorrow" in which he stressed the fact that yesterday's experiences should make our tomorrows better.

Musical numbers interspersed the program. Mrs. Grey F. Lenzner of Bad Axe sang "I Shall Not Pass Again This Way" with Mrs. Maurice Joos as accompanist. George Jetta presented two duet solos, "Souvenir" and "The Alp Maid's Dream," Mrs. Raymond Concluded on page 8.

Autumn Wedding at Mennonite Church

Miss Dorothy McGregory of Flint, daughter of Mr. and Mrs. Harvey McGregory, of Decker, was united in marriage Nov. 2 with Mr. Floyd M. Bolles of Wyoming Park, Grand Rapids, son of Rev. and Mrs. Chas. Bolles, of Saugatuck, Mich. The rites were performed at the Mizpah Mennonite Brethren in Christ church on M-53, in Evergreen township at eight o'clock Friday evening by Rev. Geo. D. Bugbee of Beaverton, the ring ceremony being used. The bride and groom spoke their vows before an altar beautifully decorated with evergreens, baskets of yellow and lavender bebe chrysanthemums and pompons and ferns. Candles in two candelabra were lighted by the ushers which made a beautiful candlelight wedding.

The bride chose for her wedding a gown with a white satin bodice, long sleeves pointed at the wrist and trimmed with small, white satin-covered buttons. The neckline was square and she wore white pearl beads. The skirt was of tulle over net with a long train. A lace trimmed finger-tip veil fell from a pearl beaded tiara. She carried an arm bouquet of red roses and white bebe chrysanthemums, tied with a large white bow and narrow white ribbon streamers.

The maid of honor was Miss Margaret Harrison of Flint, who wore pink silver-threaded net with shoulder veil and carried an arm bouquet of pink and white bebe chrysanthemums, tied with a large pink bow.

Better Health Parade in School Here November 13

Tuberculin Testing Clinics Are Sponsored by the Michigan T. B. Asso.

School boys and girls of Cass City in the ninth and eleventh grades are to join a "Better Health Parade" Tuesday, Nov. 13, when they appear at the tuberculin testing clinic at Cass City high school at 9:00, sponsored by the Michigan Tuberculosis association in cooperation with Mrs. Evelyn Wells, school nurse.

Also taking the tests in cooperation with this health plan will be school employees including teachers, bus drivers, janitors and food handlers. In addition, tests will be given to anyone who has been exposed to an active case of tuberculosis or anyone recommended for a test by his doctor.

In connection with the clinic, the school has an opportunity to win a certificate of honor. There are three requirements for winning this health award. First, 95% of the selected groups must be checked; second, all who show a positive reaction to the test must be x-rayed; and third, an educational program which teaches pupils tuberculosis prevention and treatment must be carried on.

Through this program, boys and girls learn that Benjamin Franklin, wise old philosopher and scientist, was right when he said, "Early to bed and early to rise, makes a man healthy, wealthy and wise." All this may apply to preventing tuberculosis—for plenty of rest, a certain amount of work and play are highly important for good health; and health, is, of course, wealth—more important than riches. Plenty of nourishing foods is another "must" to be included in the offensive against tuberculosis. The tuberculin test, followed by x-rays for positive reactors, acts as a detective against this sly enemy, saving lives and speeding recoveries.

Vassar Is Host to 4-H Groups of Tuscola County

Cass City Livestock Club Has Best Record in the Collection of Salvage

Tuesday evening, Nov. 6, over 350 4-H'ers, leaders and parents assembled in the Vassar high school gymnasium for their fall achievement celebration. All enjoyed a potluck supper and a very interesting program. Francis Ode, Mayville, 4-H club council chairman, was toastmaster of the evening.

Dr. Zola, a magician from Saginaw, gave the boys and girls a thrill with his tricky acts. Music by the Ford orchestra from Detroit gave the program variety.

Perhaps the one thing that 4-H members look forward to most of all in an achievement program is the presentation of awards. O. B. Price, agricultural representative of the New York Central railroad, presented the diamond clover leaf award to Francis Ode, Mayville, and Willis Campbell, Cass City, for leadership in 4-H work for 22 and 21 years respectively. Conscription at Present Was Opposed At Sunday's Forum

Dave Ackerman, local history instructor, conducted a lively discussion Sunday evening at the Presbyterian church on the subject of compulsory peacetime military conscription. James Gross, John Day and Rev. Melvin Vender were the other members of the panel. A brief resume was given covering "The May Bill" and "The Martin Resolution."

The May Bill, now before Congress, advocates one year of compulsory military training for every male citizen or alien resident upon attaining the age of 18 or within four years thereafter, and to be on reserve call for the next six years.

"The Martin Resolution" urges the President of the United States, the secretary of state, and the personal representative of the President of the United States on the United Nations organization, Edward R. Stettinius, Jr., "to work unceasingly for an immediate international agreement whereby compulsory military service shall be wholly eliminated from the policies and practices of all nations."

1. It was brought out that military conscription is not immediately necessary because we have 11 million service trained men and women who could be recalled into service if our national security were threatened.

2. Any rash and sudden passage of a compulsory training act at this time would lead other nations in the United Nations organization to suspect our motives, thus sending the world into an armament race, and

3. That such procedure and military might would minimize the

Use ordinary unsalted lard to remove grass stains. If the stain is old or is a persistent one, mix the lard with kerosene, turpentine or glycerine. "Flot" out the stain by rubbing a small amount of fat on the spot and working it about with the finger until stain is worked into the fat. Let stand about an hour and then wash in warm (not hot) water.

Costa Ricans were producing coffee as early as 1796 and by 1825 had put the product on the international market. "I don't heat the kettle any more"

"What with dishes, washes, and kiddies to bathe, it seems to me as though we always had the kettle on the stove. . . . But now I don't heat the kettle any more. Why? Because we have an automatic electric hot water heater. John sure enjoys it, because he always has hot water for shaving and his morning shower, and his disposition shows it. I know the kiddies like it, because the coaxing that used to mark their baths has given way to an earnest desire to splash around in the tub. As for myself, the always-on-tap hot water simplifies my daily tasks no end. The remarkable feature is the economy brought about by a special low rate for hot water heater owners."

Water heaters are not generally available for sale now. A few are being manufactured and distributed. It will be to your advantage to have your name on your electrical dealer's list, so that you will be able to get one at the earliest possible time.

Poultry Feeding

Good poultry feeding is not difficult when the principles of feeding are understood. A bird uses feed for body maintenance or repair, heat, energy, growth and reproduction. Grains supply most of the material for heat, energy and body fat, while proteins, such as meat scraps, milk, soybean meal and the like supply the material for body repairs, growth and reproduction. For convenience of feeding, the proteins are usually mixed with ground grain and fed as a mash.

IT IS THE

Common Sense Rule

of all enterprises, that the producer must have a profit, based on a cost-plus profit, and a profit and cost plus the cost of necessary labor. Only in organization, then, the farmers have a voice in determining the final price, just as final price is determined in every other aspect of nation is striving for.

Whether we deal in beef or hogs, sheep or chickens, dairy products or vegetables, grains or cotton, there must be a floor under farm prices not less than the cost plus a fair return for our work.

Only thus may be had reasonable compensation for our job of feeding and clothing the nation. No honest man wants more than that and only a fool would be content with less.

Wartime Rackets Steadily Increase

FBI Warns of Menace That Faces Home Front.

WASHINGTON. — Wartime racketeers preying upon our citizens busy with the war effort present a threat to the very things for which our nation is fighting. In addition to combating the enemies' fifth column menace to our home front, the Federal bureau of investigation also has handled a large volume of war fraud cases. Many are almost unbelievable.

Despite all that has been accomplished by the FBI and other law enforcement agencies in eliminating wartime frauds, they steadily increase. During the 1945 fiscal year, convictions for impersonation and illegal wearing of the uniform totaled 1,364, compared with 1,091 in 1944. One faker posing as an army officer borrowed money from relatives of men missing in action, after buying their hopes with tales that their loved ones still were alive. When the FBI halted his fraud, he went to prison for a year and a day.

Four men in California for awhile had a lucrative racket in a fake school to train shipyard workers. The FBI found that the government was defrauded of thousands of dollars through the hiring of unskilled laborers. Several cases of frauds by shipyard welders also have been uncovered by the FBI. In an East coast yard, the FBI discovered that 50 ringleaders had a salary racket netting a million dollars annually.

Another wartime racketeer operated a chain of photography studios near military camps. Coupons offering free pictures were distributed to servicemen, but if they refused to order additional work done — usually at fancy prices — the studio sent proofs to their families stating they were doing so at the soldier's request. This unscrupulous operator received a two-year sentence.

Prompt reporting of all such frauds is of the utmost importance in bringing the guilty persons to justice. The public realizes it has much at stake in helping curb these rackets, and the FBI has received splendid assistance in this as well as all other phases of its work.

'Worst Fuel Shortage' In Prospect, Ickes Says

WASHINGTON.—Secretary of the Interior Ickes, requesting "preparation-for-winter" drives in 25 states, said "the worst fuel shortage of the war" is in prospect for winter.

As solid fuels administrator, Ickes asked the fuel conservation directors of 25 states to launch local drives immediately to place homes and other buildings in condition to keep people warm on short fuel quotas next winter.

The program is designed to make every home, shop and building "heat-tight" by insulation, storm doors and windows, weather-stripping, caulking cracks and by other means, Ickes said. He added in a statement that furnaces and other heating equipment should be put in efficient condition to save fuel.

Force Germans to Erect

Memorial at Dachau

DACHAU, GERMANY. — Two stone columns 50 feet high, one topped by a Cross and the other by the Star of David, are being erected here by German civilians under the direction of A.M.G. authorities to mark the mass grave of 3,500 Dachau concentration camp victims. The grave will be covered with roses blooming from April through November, and before it will be the columns and a spacious plaza. Nearly a quarter-mile of broad stone steps will lead up to the site, located on a hill north of the city.

The memorial will cost 500,000 marks—\$50,000 at the military exchange rate — which will be drawn from German funds. The stone is coming from the great Nazi-built Nuernberg stadium.

More Wool Is Predicted As WPB Lifts Controls

WASHINGTON, D. C. — Increased output of topcoats, overcoats, dresses and worsted suits was predicted recently by the war production board as the agency lifted controls on woolen and worsted fabrics. Improvement in the supply by next fall and winter was forecast.

The WPB said the improvement will result from elimination of an order which had required manufacturers to set aside 65 per cent of worsted top production for military requirements.

The WPB said the military set aside no longer was necessary because requirements are being met by individual manufacturers.

Norris W. Wilber, county agricultural agent, gave an interesting short discussion on Tuscola county 4-H work in general.

Norwood Eastman, 4-H council recording secretary, presented the honor roll for summer 4-H'ers. He also announced the 1945 all-county champion 4-H member, Don Dickson, of Akron. Edward Bishop, 21, electrician's mate, second class, of Cass City had chalked up, with other crewmen of the air craft USS Hancock, as impressive a record as just about any ship of the Fleet, before "calling it quits" in the Pacific and returning to the States for Navy day. Though "Fighting Hanna" looks peaceful enough now at her moorings in home waters, her appearance belies a hectic career of 10 months in the battle zones, during which her planes destroyed 723 enemy aircraft, 14 warships and 81 merchant ships. Her anti-aircraft guns have 10 "notches" for that many planes knocked down.

Textile specialists advise airing beds with extra thoroughness in warm weather. After washing, dry sheets and pillow cases in the sun to whiten and sterilize them. Hang sheets and pillow cases straight on the line. On windy days, take them from the line as soon as they are dry, because flapping in a stiff breeze may whip out hems. Hang towels straight on the line. After using bath towels, spread them out on racks to dry instead of folding or bunching them. Soggy towels can mildew overnight in hot weather.

Depth to Plant Trees

It is important to transplant trees at the proper depth. If the root mass is buried too deep, the roots can't get sufficient oxygen and may die. If too shallow, there'll be a mound around the base and the roots will tend to dry out. The root crown should be as near the same level at which it was growing before as possible.

AN IMPORTANT DATE FOR
THOUSANDS OF ARMY VETERANS
NOW IN CIVILIAN LIFE

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because—men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the same grade as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

"BEST JOB IN THE WORLD"

These special privileges are typical of the new law recently passed by Congress. Few opportunities for a lifetime career offer as many attractive advantages.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days furlough every year, education and training in any of nearly 200 skills or trades, and enable you to retire with a life income anytime after 20 years' service?

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men with 6 months' service.)

2. Men reenlisting retain their present grades, if they reenlist within 20 days after discharge and before Feb. 1, 1946. The same applies to men discharged between May 12 and Nov. 1, 1945, who reenlist before Nov. 21, 1945.

3. An increase in the reenlistment bonus to \$50 for each year of active service since the bonus was last paid, or since last entry into service.

4. 20% extra pay when overseas.

5. Paid furlough, up to 90 days, depending on length of service, with furlough travel paid to home and return, for men now in the Army who enlist.

6. Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.

7. Option to retire at half pay for the rest of your life after 20 years' service—or three-quarters pay after 30 years. (Retirement income in grade of Master or First Sergeant up to \$155.25 per month for life.) All previous active federal military service counts toward retirement.

8. Benefits of GI Bill of Rights.

9. Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.

10. Choice of branch of service and overseas theater in Air, Ground or Service Forces on 3-year enlistments.

Ten High Average Bowlers.

Landon 185, Kolb 176, Reid 171, McCullough 168, E. Fritz 167, Czerwiec 167, Novak 165, Retherford 165, Wooley 164, Ludlow 163.

Out of first place but one week, the Landon team in a feeble attempt, managed to win two games from Fritz's squad to get back into a tie for the leadership with Dillman's pin spillers and again have a stranglehold on the top spot. Auten's team, while listed near the bottom of the league ladder, did come to life and thoroughly trounced Mac McCullough's team to drive them into the cellar position. The captain of the Auten Five showed considerable improvement over his past performances and his 563 pin totals apparently had much to do with his team's spirits as they romped away with a three game win to be the only five to take their complete series during the week. Other bowlers to hit the honorable mention list for their first time this season were Eddie Fritz with 577 pin totals and Junior Gross coming under the wire with a 550 count which was just enough to register. The league's secretary also came up with a three game 581 count which possibly should rate mentioning.

Wallace and Auten teams were the money prize winners for the week and the individual prizes were paid to Auten and Hutchinson.

Games over 200 were rolled by Retherford 223, Hutchinson 221, Gross 214, Coleman 210, Larkin 208, Kolb 207, Auten 204, Kirtson 204, Novak 203, Landon 203. The first four positions remain the same on the high ten list but Ed Fritz jumped from 10th to fifth place when he rolled 577. Others are knocking the maples about at a clip which is improving their averages so the high ten list may keep changing from week to week.

There is a Merchants' league of eight teams rolling on Wednesday evenings.

Guy W. Landon, Secretary.

Ladies' Bowling League.

The Parsch team holds the high single game for the season with the score of 614. McCullough stepped to the front with high three games with 1599.
