OOSTIE HOMESTEAD PIEBE

One of the long time DHIA herds in Michigan is that possessed by thur Jones, Three Rivers, Mich. under test in the St. Joseph county IIA. With twenty-four years DHIA background the Fabius Farms cerd has been long recognized as one of the leading Holstein herds in Michigan and the proof on a Holstein bull from such a herd should be of

unusual interest to dairy herd owners.

Oostie Homestead Piebe, born in 1939, shows a production in the 17 records on 12 daughters in the Jones herd of 13,855 milk, 3.6 test, and 502 pounds fat. This yield is a gain in milk of 144 pounds, in test of three-tenths of one per cent, and in fat of 52 pounds. This is a U.S.D.A. proved sire.

Oostie is a white bull as Holsteins go, has large size daughters with strong dairy character and large body capacity. Oostie's daughters in the Fabius Farms herd operated by Mr. Jones are the outstanding cows in the herd and only after considerable discussion would Mr. Jones dispose of this very fine sire to the dairy breeders of Michigan who operate the Michigan Artificial Breeders Cooperative located on one of the

farms of Michigan State College in East Lansing.

Oostie teams up with the many other fine inheritance Holstein bulls owned by the 12,000 Michigan dairy herd owners using the service from

Frances Mark Bride of Leo J. Kehoe, Jr.

Rev. John J. Bozek officiated at the double ring ceremony Saturday which united in marriage, Miss Frances Loraine Mark and Leo J. Kehoe, son of Mr. and Mrs. Leo J. Kohoe, Sr. of Gagetown. The bride is a daughter of Mr. and Mrs. Edward Mark. The rites were read at ten o'clock in the rectory of St. Paneratius Church, Attendants were Mr. and Mrs. Archie Mark and James Mark of Cass City and Miss Jean Kehoe, of Gagetown, sister of the groom.

The bride chose a gray-beige suit with which she wore Navy blue before returning home. accessories and a corsage of pink camellias. Mrs. Archie Mark, matron of honor, wore an aqua with Mr. and Mrs. Herbert Maharg suit with brown accessories and a corsage of yellow carnations. Miss Kehoe was also dressed in an aqua suit with black accessories and a corsage of pink carnations. The mothers' dresses were complemented with gardenia corsages.

Guests were the parents of the bride and groom and Mr. and Mrs. Edward Hennessey of Detroit.

Following the ceremony breakfast was served here where the newlyweds will make their home. Dinner for the bridal party and guests was served at one o'clock in the private dining room of the Home Restaurant.

The couple left Saturday on short wedding trip. The groom who served four years in the army, two of which were spent in the since her graduation from high school.

Mrs. Kehoe was guest of honor at a linen shower preceding her marriage.

Where To Park?

Motorists who've been wondering why it's so hard to find a parking space nowadays will find an answer

More than 1,773,171 cars were listed to Michigan owners in November by automobile industry experts. This figure includes passenger and commercial vehicles and represents an increase in this state alone of about 275,000 above the total for 1944.

While the number of cars in use has been mounting steadily, almost no headway has been made in Michigan—or in other states—toward getting more parking spaces. Two of the reasons Michigan is handicapped in this respect is that it's not only a tourist-resort state but Hogs has so many cars because the auto-

mobile industry is centered here. Lack of parking space is a safety hazard too. Motorists can't keep Rock pullets
their eyes on the road and their Rock roosters keep especially alert when trying to find parking space. Accidents are too common at times like that.

INTERPRETING THE NEWS

By Gene Alleman Farmers have long known that you can't have prosperity on the arm without having prosperity in

the city. We are inter-dependent upon each other in an economic way. We're all in the same boat

One of the greatest economic mistakes we have made is the fallacious belief, as evidenced from time to time, that we can isolate one group against the other, that what happens to one group does not affect the others. This kind of economic isolationism has prompted some people, with best sincere intentions, to declare that we should ignore Europe and the rest of the World. "Mind our mind theirs."

plan and whether we spend billions lose the money they pay out. or no billions for aid of Western Europe is not the theme of this that to you and to Congress.

them abroad.

Sumner H. Slichter, Harvard iniversity's economic doesn't foresee a serious let-down, been employed in Saginaw spent in business during 1948. Recently a 'certification' in which the payee

"We are going to make our Concluded on page 7.

'Granby Coppers' First copper coins used in the colonies were made in East Granby, Conn., in 1737 by Joseph Higley, Granby blacksmith. These coins were called "Granby coppers."

Objects Became Bigger One of the earliest references to magnification was made by the Greek scholar, Seneca, who lived just before the Christian era. Seneca filled a globe with water and marveled at the increased size of objects when viewed through the

MSUC Checks Should Be Endorsed by Payee

Banks, storekeepers, and other business people who cash Michigan State Unemployment Compensation benefit checks, are advised that unless the checks are endorsed own business, and let other nations on the back by the payeee, they are not negotiable instruments and Whether we have a Marshall the persons cashing them stand to

"The checks", stated James F. Moore, executive director of the column. We're going to leave Michigan Unemployment Compensation Commission, "are as good Part of today's inflation is due as the resources of the Federal o the inflationary effects of the Reserve System can make them, Marshall plan whereby we agree to when properly endorsed. Without buy American made goods and ship the proper endorsement, they are

"There has been some confusion expert, arising from the presence on the face of this new type of check of signs, under penalty of disqualification, that he has fulfilled all requirements and is entitled to receive the check. This signature does not comprise an endorsement. Receipt of the money must be acknowledged in the formal way, by an endorsement on the back of the check, before it becomes valid."

Moore pointed out that several hundred checks have been cleared without this endorsement, and it has been necessary to send them. back to the persons who cashed them, for endorsement.

Ants Build Stables Ants build tiny shelters of mud and vegetable material for their aphid cows in the crotches of shrubs.

You've read about it, you've heard about it,

NOW SEE IT IN ACTION!

This is the famous automatic washer that works for you! It washes, rinses, damp-dries all your washables... even foundation garments and pillows.

So easy to use. You drop the clothes through the inclined front, choose the water and washing time you want, add soap. That's all. It does the rest automatically. Even cleans and drains itself and shuts off.

And when you remember that the Laundromat requires no bolting to the floor, that its transmission is guaranteed for five years, that it is a veritable miser with soap, water and electricity, you'll agree it is the washer for you.

Do come in and see it, today!

Mrs. Gus Miklovic and daughter spent Monday with her parents, Mr. and Mrs. Mike Pollak.

Mrs. Frank Kurtansky spent the latter part of the week with her daughter, Mrs. Robert Cumming, in Almer.

Naval Reserve Commissions Open to Ex-Enlisted Men

Commissioned rank in volunteer Naval Reserve is open to certain former enlisted Navy men now honorably discharged.

Enlisted men who served with the Navy for less than one year and who have satisfactorily completed a four-year course of at least 120 semester hours at an accredited college or university are eligible to apply.

Men who have more than one year's service in the Navy may deduct an equivalent year of college education for each year of active service during the war, providing the candidate is of the four-year college educational level. However, no more than two years of the college requirement may be waived because of active duty, and active duty in a student status cannot be considered in waiving the college educational requirement.

Candidates must have been discharged honorably, be between the ages of 19 and 30 years, inclusive, veterans of World War II (service between December 7, 1941 and September 2, 1945) and American citizens.

Interested veterans desiring further information may apply to Office of Officer Procurement, Book Building, Washington Boulevard, Detroit, Michigan.

ORDER FOR PUBLICATION—APPOINT-MENT OF ADMINISTRATOR.

State of Michigan, the Probatee Court for the County of Tuscola.

ELECTRIC LIGHTS work overtime when the nights are long and the days are dark. They don't do their best work, either, unless the lamp bulbs are kept free from dust and dirt ... unless they're the proper size—neither too large nor too small ... and unless they have shades that provide maximum glareless light.

Be sure you have plenty of spare light bulbs on hand, too. Your dealer has them or you'll find them at any Edison office—in all sizes—all modestly priced. You can exchange your burned-out bulbs at any Detroit Edison office.

There's no charge for this service. Just bring an Edison service bill tor quick identification.

Soil testing is one means by which farmers can determine in advance of planting whether lime were: Mrs. Leitch Mark and infant stable manure and commercial or extra plant food in the form of Kirk Lawton, soils science

specialist at Michigan State College, says that soil deficiencies can also be detected by testing the tissue of growing crops and even Mr. and Mrs. Gordon Jackson by the appearance of crops. He Mrs. John Mika and infant son of visited Sunday at the home of urges that farmers determine soil Bargain Matinee Saturday at their son and wife, Mr. and Mrs. needs in advance of planting time. Waiting to diagnose soil deficiencies until the crop is paryly Edwin grown, he points out, is similar to locking the barn after the horse is stolen-it may be too late to do anything about it.

> Length of Rails The present standard length of rail is 39 feet. Some railroads use at street crossings. A few years ago the standard length was 33 feet, and before that it was 30 feet.

Advertise it in the Chronicle.

Great Strides in Bean Growing

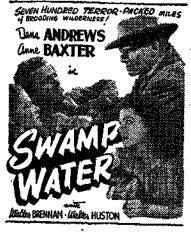

Great strides in the development of methods and machinery have influenced the production of field beans, says Herbert R. Pettigrove, half and the quality of the beans Saturday evening in Saginaw at Michigan State College farm crops lowered. specialist.

The old, disease-susceptible bean has been replaced by the Robust, a disease-resistant high yielding bean with an excellent seed coat
