Veterans' Facility Addition
To Be Opened Soon

The second 250-bed domiciliary building of the Michigan Veterans' Facility's modernization and expansion program is scheduled for completion next month. This unit will be similar to the R. V. Gay Memorial Building, now occupied, in design and interior furnishings with floors decorated in a different color tone and a different type furniture in the rooms on each floor. These 500 new beds will enable the Grand Rapids Veterans' Facility to care for 1,100 disabled veterans in its general hospital and domiciliary divisions.

The Facility has enlarged its reciprocal exchange of patients arrangement with the Dearborn, Marine, and Percy Jones hospitals, with a continual transfer of patients between these institutions. No other veterans' care facility in the state of Michigan offers domiciliary care for the disabled veteran unable to follow a gainful livelihood.

The bill to increase federal aid paid by the United States Veterans' Administration from \$300 to \$500 per year was signed by President Truman May 19, and went into effect on June 1. This increased participation by the federal government in financing will continue to be more important as the Facility's population increases.

Governor Sigler has appointed Joseph W. Mann of Detroit, past department commander and present state service officer of the Veterans of Foreign Wars, to the board of managers of the Facility to fill a vacancy created by the resignation of Thomas S. Higgins, Lansing, whose health condition would not permit his further service on the board.

Ancient Advertising

Advertising as we know it today is a comparatively recent art. But some forms of advertising are as old as barter and trade. Three thousand years ago signs on papyrus advertising for runaway slaves were hung in the market place of Thebes. The Romans wrote announcements of gladiatorial contests on the walls of their arenas, and ancient innkeepers hung vine leaves over their doors to show they had wine for sale.

Killed by Tortoise

Aeschylus, famed Greek playwright who changed the form of drama from recited poetry to dialogue, was killed near Athens in 456 B. C. when a high-flying eagle dropped a tortoise from its talons directly onto the dramatist's head, killing him instantly.

Woman's World

Accessory Guide Is Valuable In Planning Spring Wardrobe

By Erta Haley

MANY women tell they don't know just how to select their accessories for a costume; others say they are not familiar enough with the trend to look for something fresh and new.

For this reason, I've compiled a picture of accessories for spring. When you need something, check the list and you'll easily find what's best to seek.

You'll find that this year, fashion needs the finishing touch and nothing completes the ensemble more than feminine effects at the wrist, throat, soft shoulder and slim waistline.

If your budget is limited because you spent heavily last fall and winter to achieve the new look, you will do well to make your basic dresses new again by buying proper accessories.

It's a four star year for collars, cuffs, capelets and cummerbunds, worn separately or teamed together with each other and with blouses, dummies, plastrons, fichus and jabots. And please don't forget the lingerie and eyelet petticoat ruffles that peek out of hemlines. Everything is headed toward the ensemble look in fashions, and scarfs score highly, too.

Why not dress up a black or navy dress with a soft flattering capelet?

Collar and cuff sets are springlike...

One recently seen was of bright plaid with a pointed little collar as well as a gayly printed chintz long capelet with high rolled collar, self bow and streamers.

Collars and Cuffs

Are Flattering

It's an old trick to dress up a dark basic dress with spanking white collars and cuffs. Indeed, why not have several sets so you can change the dress several times a week?

There are many flattering sets on the market, but, of course, you always can sew them yourself. Patterns are easy to make, but they should fit the neckline of the dress.

This year collars and cuffs are especially stunning, showing them-

And so are boleros.

selves in small high white pique effects with various colored ribbons. There are frilly sheers with Schiffl eyelet embroidery and new fabrics such as the wonderful-for-laundering overglaze chintz.

You also may see checked sets or lovely pastel pleated ones, strung with black ribbon.

Be Smart!

How will you have your bolero—outaway, much decorated with the newly important corselet belt? The answer depends entirely upon what's most flattering to the individual figure. At any rate, the lines on small jackets are as varied as they are interesting and all are so youthful and pretty!

Faille Favorite

Rayon faille rates high with teen-agers because it's young, crisp and perky. This rayon faille dress has all the new features—full skirt, gathered back and a wide bertha collar that is reminiscent of grandmother's best frock. The fabric is made of Avisco rayon yarn.

With so many from which to choose, select only those flattering to the face as well as the dress. Keep them neatly laundered or cleaned to get the full and beautiful effect.

Cummerbunds Help

Whittle Waistline

For the whittled waist effect which is so popular, choose cummerbunds shown wrapped in scarf effects. If they're bright and you have a slender waist, wrap a pair around the waist and tie in a bow.

You also may have a cummerbund and then match it with a collar and cuff set.

Plastrons, fichus and jabots are excellent for cover-up jobs, creating a look of newness and fashion. With so many prints scheduled for the coming season, you'll find that a self printed rayon plastron completely transforms the front of a dress, giving it a high collar effect and new hip emphasis.

The fichu, an ultra feminine effect, Paris inspired, as are many of the new neckwear designs shown, goes formal in pleated white organ-die.

Neckwear and Scarfs

Are Handy, Interesting

Neckwear, which is so popular for adding a new look, has many interesting features. Many items have tuck-ins so that you don't have to sew them, or they may have snaps for adding and subtracting features. Blouses come with several different collars, or a change of jabots, matching cuffs and an extra long tie so that many different effects can be achieved.

Scarfs are seen in many new tantalizing colors and exciting prints. They come in long lengths as well as squares. Wrap them around the waist, make bustle backs, side bows, hip drapery, shoulder flattery, neckline variations, front plastrons, halter blouses, peplums or anything else.

Shoes for Spring

Completely Different

According to St. Louis stylists, a virtual revolution for shoe wardrobes is predicted. The "new look" is traveling down and shoes will be as different as dresses.

If you are wondering what you should wear in the Easter parade, look over these features when you choose footwear.

Shoes will be predominantly dainty, elegant and feminine. Long, slender lines, graceful heels, intricate but dignified ornamentation are the important features.

Since the hemline has dropped, attention naturally is focused footward. Stylists are sweeping foot-ward up, often around the ankle as if to meet the dress itself. Shoes must have the new, long, graceful effect.

Closed toes and heels are better than open ones. Choose a simple unadorned pump if you're in doubt, and you will be correctly attired.

Toelines no longer are stubby, they're rather more slender and tapering.

If your ankles are slender, wear the strap effects, but steer away from them if you lack the trimness. If you need to slenderize, match the shoes with dress and hostery to carry out the needed elongation.

Dramatic Metal

Silver with its lovely moonlight whiteness is one of the really dramatic metals in the world. It is used at present to set off the beauty of colored stones, precious or simulated stones. You will be seeing it in necklaces, chokers, bracelets, earrings and pins.

Advance of Insects Stymied by Science

Man's Intelligence Termed the Only Safeguard in Struggle.

LONDON. — The dinosaurs had their day, 60 million years ago, and fishes had their millions of years before that. Mammals had a golden age and today is the age of man, the highest mammal.

Many seers, professional and otherwise, have predicted that the next form of life to take over will be the insects. Only man's intelligence, so entomologists believe, stands between the decline and fall of mankind and the rise of bugs.

Dr. V. B. Wigglesworth of Cambridge university, one of Britain's outstanding entomologists, told a science survey audience, reassuringly, that scientists are doing their best to provide more efficient weapons in the struggle against insects. The basic element for eventual success, he warned, is knowledge.

"In the practical art of killing insects," he said, "there comes a time when we find that our basic capital of knowledge is exhausted. It is the pure sciences which provide that working capital."

New fields of inquiry are being opened up, Wigglesworth said.

Cautious Couple Auditions

Pastor Before Wedding

ST. LOUIS, MO. — A pastor standing at the rear of his church at the close of services noted a young man and woman, strangers, coming out and hastened to introduce himself.

He was somewhat taken aback when the youth explained: "We're here, sir, because we plan to be married, and we are looking for the right sized church with a good center aisle. Well, your church meets the requirements, so we just dropped by this morning to audition you. We think your voice and manner are great, so how about your handling the wedding?"

Manuscript of Beethoven's

Last Completed Work Found

BALTIMORE. — The original manuscript of what is believed to be the last completed work of Composer Ludwig von Beethoven has been unearthed at Peabody Conservatory of Music, officials of the institution said.

Searching for displays to celebrate the conservatory's 80th anniversary, the manuscript was found gathering dust amid modern books and magazines in a library. Peabody officials said they were unaware it was in their possession.

The work is a canon, a composition having "voices" or "parts" with the same melody sung in harmonious succession. The words and music are in Beethoven's handwriting.

Beethoven sent the composition to a friend along with the last movement of his B-flat quartet.

N. Y. Court Decision Holds

Test-Tube Baby Legitimate

NEW YORK. — A supreme court justice ruled that a child born as the result of artificial insemination is legitimate.

The ruling was made by Justice Henry Clay Greenberg in deciding that the estranged husband of Mrs. Julie Strnad, 31, had a right to visit her daughter, four-year-old Antoinette, who she said was a product of artificial insemination.

Mrs. Strnad claimed that her husband, Antoine, 42, was sterile since birth, an allegation he denied. She sought to prevent him from seeing the child on the ground Antoinette was not the offspring of her ex-mate. She had won a separation decree and principal custody of the child last October.

Atomic Danger Zone Posted

For Tests on New Weapons

WASHINGTON.—The atomic energy commission has posted a "Danger—Keep Out" notice covering 39,000 square miles of the Pacific ocean surrounding Eniwetok atoll, site of forthcoming "tests of military weapons."

"Hazards will exist" in a rectangular area approximately 173 miles north and south and 226 miles east and west, the commission said. The danger will continue throughout 1948.

Dead Motory Bishop Safe

SYDNEY, AUSTRALIA. — An Australian flying boat, carrying 29 passengers and a crew of 6, landed here safely after flying 380 miles across the storm-tossed Tasman sea with one of its four engines dead. Among the passengers were Bishop of Albany, N. Y., and his wife.

Railway Passengers Gassed

And Robbed in Romania

BUCHAREST, ROMANIA. — A band of thieves put all the passengers in a railway carriage to sleep by using gas and robbed the night train from Bucharest to Iasi, the newspaper Natimeasa said. When the passengers woke up at Iasi station they found all their luggage gone.

bona district who were nearer Withey attended there. Those attending Withey from the former McHugh district came back to McHugh which was opened for them and the larger part of the Shabbona group. The parents co-operated well in providing transportation. A new bus has been ordered to care for this problem next year. The state will reimburse the district for the cost of the bus at the rate of one-seventh each year as well as the cost of the driver and upkeep.

After paying out twenty-nine hundred dollars for transportation (which will be returned by the state next year) as well as the added expense of buying books for Shabbona after the fire and the greatly increased teachers' salaries, the year closed with practically the same amount in the general fund as last year and twenty-eight hundred in the building fund. This was made up of eighteen hundred insurance and a thousand dollars from state aid of which the district is allowed to use seventeen per cent for building fund.

In the near future, the township will vote on turning over five thousand dollars of township money to the fund and the five mill tax voted will provide fifteen or more thousand in the next five years. Also any sales tax diversion money the district receives which is not needed for operating costs may be used for building.

We are looking for the day when we shall have a modern school building and a teacher will not have her time divided among nine grades but can devote it to one or two at most.

It was the unanimous opinion that we should accept the offer of Miss Marion Keyworth of a building site and that the school should bear the name of Keyworth in memory of the late Maurice Keyworth whose sudden death deprived the state of the services of one whose previous record gave promise of a good state superintendent of public instruction. Mr. Keyworth's parents were among the earliest settlers in Shabbona and it was here he grew up and received his elementary education. As a district with over one hundred fifty enrollment and

hiring five or more teachers, we will receive next year one hundred eighteen dollars per pupil as compared to ninety-seven under the old set up.

A REAL DIPLOMAT

"Pa," said Hector, looking from the book he was reading, "what is meant by 'diplomatic phraseology'?"

"Well," replied Pa, "if you were to say to a homely girl, 'Your face would stop a clock,' that would be stupidity, but if you said to her, 'When I look into your eyes, time stands still,' that would be diplomatic phraseology!"

Talk about big strawberries! The Chronicle was presented with a quart Wednesday morning from the John Reagh farm when only 28 berries heaped the basket. Can anyone equal or better that record by leaving proof at the Chronicle office? There's still room in the newspaper family refrigerator.

At a regular meeting of the Ladies' Auxiliary of the American Legion Monday evening a \$10.00 contribution was voted to the fund to buy wheel chairs for needy veterans and \$5.00 for the fund which provides candy bars for hospitalized veterans. The auxiliary was presented with a check for \$96.97, their share of the proceeds from the poppy sale.

Gavel Club members were guests of Rotarians at a picnic supper at Recreation Park Tuesday which was followed by a softball game between the two clubs. The encounter reminded old timers of the Pat and Lean groups who played baseball a quarter century or more ago. Highlights of Tuesday's game were home runs by Don Borg, Ed Baur, Geo. Clara and "Doc" Miller, the "mobbing" of the umpire over a questionable decision, and finding the bases loaded after the lights were turned on when there was only one man on base before the brief interval of darkness. It was lots of fun! The score? No one cared.

Frank Reid was in Lansing Tuesday attending a meeting of the board of directors of the Michigan Elevator Exchange.

The projects for re-surfacing of Main Street and for construction of a storm sewer were both postponed as far as this year's budget is concerned. Both had been under consideration recently by the council as improvements which should be undertaken. Even though the proposal had been that a share of the cost of re-surfacing Main Street should be met by special assessment against the property along the wider pavement through the business section of town, the council did not feel that a further increase in the general tax rate could be made this year, as would have been necessary in order to spread the remainder of the cost over the entire village.

Capillary Water

When rain falls upon land it passes downward through the air spaces, assisted by gravity, until it finds an obstruction which causes it to stand in the lower air spaces or until it all becomes capillary water. Capillary water is the water which clings to organic matter and to each soil grain and remains until it is taken off by roots or by evaporation.

Michigan Forest Fires

Careless smokers started 375 fires that burned 15,477 acres of Michigan forest land last year. Second high on the list of forest fires in Michigan last year were railroad locomotives. Handicapped by poor coal because of troubles in the mining industry, the railroads were blamed for starting 439 fires that burned 2,517 acres. Camp fires ranked third.

Fuegians, Primitive People

Fuegians, now almost extinct, are among the most primitive peoples of the world. There are four tribes of Fuegians, the Yahgan, Alacalof, Ona, and Haush. The Yahgan and Alacalof are canoe people of the channels and coastal regions of the Fuegian Archipelago; the Ona and Haush are foot people of the forest fastnesses of Tierra-del-Fuego, the Ona tribe living like stone age men.

Spray to Control Flies

Walls and rafters of barns, unfinished attics and storerooms may be sprayed with a water-dispersible DDT spray, made by mixing 12 tablespoons of 40 per cent DDT wettable powder in one gallon of water. This spray leaves a whitish deposit of DDT, which will be effective for several months in killing insects which crawl over it. The water spray is effective on unfinished surfaces such as rough wood, porous plaster and cement. For finished attics closets and other rooms of the house a five per cent DDT solution is preferred, because the deposit it leaves is invisible and nothing is marked or stained by it. It should be used with caution because it is inflammable.

By Gene Alleman

A handful of Michigan's 100-plus state governmental units, targets recently of the crusading Governor Kim Sigler, are about to be merged into a new state department of administration at Lansing.

Therein lies a predicament for John A. Perkins.

Perkins, capable budget director will become head of the new department at a salary of \$12,000 a year. An appointee of the governor, subject to confirmation by the State Senate, he will have considerable authority as state controller.

Perkins' predicament is a result

of several public illusions. He is expected to perform a miracle, and he can't do it. As evidenced by the voters' diversion of state sales tax money to local governments by constitutional amendment, the public apparently persists in a belief that the State of Michigan is rolling in money and a parallel belief that consolidation of 100 state units into 18 to 20 would automatically save a lot of money.

Perkins, like Governor Sigler, knows well that the state government is not blessed with an abundance of dollars. In fact, a deficit of \$14,000,000 is clearly forecast for the end of the 1948-49 fiscal year. Only another rise in the post-war inflation, boosting prices still higher, can avert a deficit.

Perkins also has no illusion that he can deliver the miracle of economy.

The state legislature authorizes public services. His department will administer only a few of them, and all within appropriations as made by legislators.

It is the belief of Perkins that the chief benefit of the new department will be greater efficiency. He does not expect to achieve economy through reduction of legislative

appropriations. In this, he is very much a realist.

"Greater value received for the tax dollar is our chief objective," Perkins explains. "If anything, we probably shall need more money than heretofore. The budget staff has been notably understaffed for years. We should test products which the state buys to make sure we get our money's worth in quality."

"Michigan's administration department is almost an exact duplicate of the principal reform achieved by Stassen when he was governor of Minnesota. The Minnesota department is a model which we may well follow."

The new department takes over some of the duties formerly administered by the state administrative board comprising eight elective state officials, each with his own primary responsibilities. It will have five divisions: Budget, purchasing, accounting, building-engineering-management, motor transport, and office services.

Purchasing of all state supplies, equipment, and printing will be handled by the department. Warrants for disbursement of state funds to buy for goods or services shall be drawn and issued by the auditor general upon the certification by the controller. The auditor general will handle post-audit spot checks to determine how departments and institutions are spending money as appropriated by the legislature.

"More for your money" is perhaps the best way to illustrate what Perkins hopes to accomplish. Don't expect any magic of economy through reduction of legislative appropriations.

RESCUE

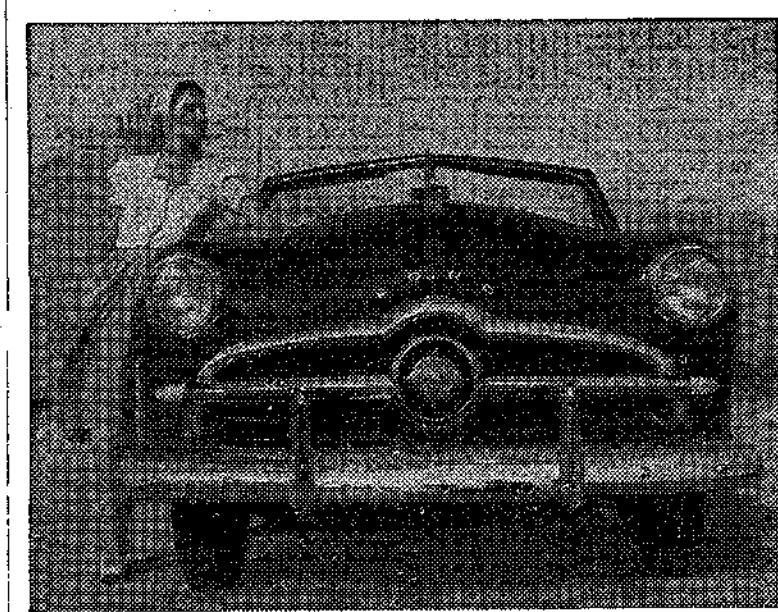

Mrs. Henry Mellendorf—

Mrs. Henry Mellendorf passed away at her home in Grant Saturday morning, June 12, after being in ill health for several years. Miss Emma Lucille Kienitz was born in Marilla, Erie Co., New York, on Nov. 2, 1877. At the age of seven she came with her parents, Mr. and Mrs. Frederick Kienitz, to Lapeer County, and seven years later they moved to Grant Township where she has resided most of the time since. On Oct. 31, 1911, she was united in marriage to Henry Mellendorf, who preceded her in death on May 17, 1948.

To this union were born two sons, Edward of Owendale and Milton at home. She leaves to mourn their loss her two sons, three grandchildren, two sisters, Mrs. Elizabeth Lown and Mrs. Caroline Zenke of Royal Oak, and one brother, John Louis Kienitz of Medina, N. Y.

She was a Gleaner and a member of the Evangelical Church in Elkton the past 35 years.

Funeral services were held on Monday afternoon, June 14, at two

o'clock in the Elkton Evangelical Church and interment was made in the Grant cemetery. Rev. Burgess of Elkton preached the funeral sermon.

The pallbearers were the same men they had for her husband's funeral four weeks ago, Stanley Reinert, Ervin Kreh, Harvey Duk, Albert Taylor, Henry Metzker and Clayton Gemmell.

Those who came from a distance to attend the funeral services were John Louis Kienitz of Medina, New York, Mrs. Elizabeth Lown Mrs. Caroline Zenke and Mr. and Mrs. Ralph Cole of Royal Oak, Mr. and Mrs. John Mellendorf and Charles Hintze of Roseville, Lewis Mellendorf of Berkely, Mr. and Mrs. Perry E. Mellendorf and daughter, Gloria Jean, Mr. and Mrs. Lawrence Swick of Detroit, Donald and Warren Swick and Miss Zola Swick of Bay City.

sons and mother, Mrs. Myrtle Teller, of Pontiac were Sunday callers of old friends and neighbors here.

Mr. and Mrs. Richard O. Loos and daughter, Ardene, of Port Huron brought their mother, Mrs. DeEtte Mellendorf, home Saturday on account of the death of her sister-in-law, Mrs. Henry Mellendorf. They returned to their home in Port Huron Sunday afternoon.

Children's Day exercises were held at the Grant Methodist Church on Sunday at two o'clock on June 13.

Mr. and Mrs. Levi Helwig and daughters, Wenola and Joyce, were supper guests Tuesday evening of Mr. and Mrs. Norris E. Mellendorf. Mr. and Mrs. Frank Schmitt from north of Bad Axe were Sunday visitors at the home of Mr. and Mrs. Thomas Quinn.

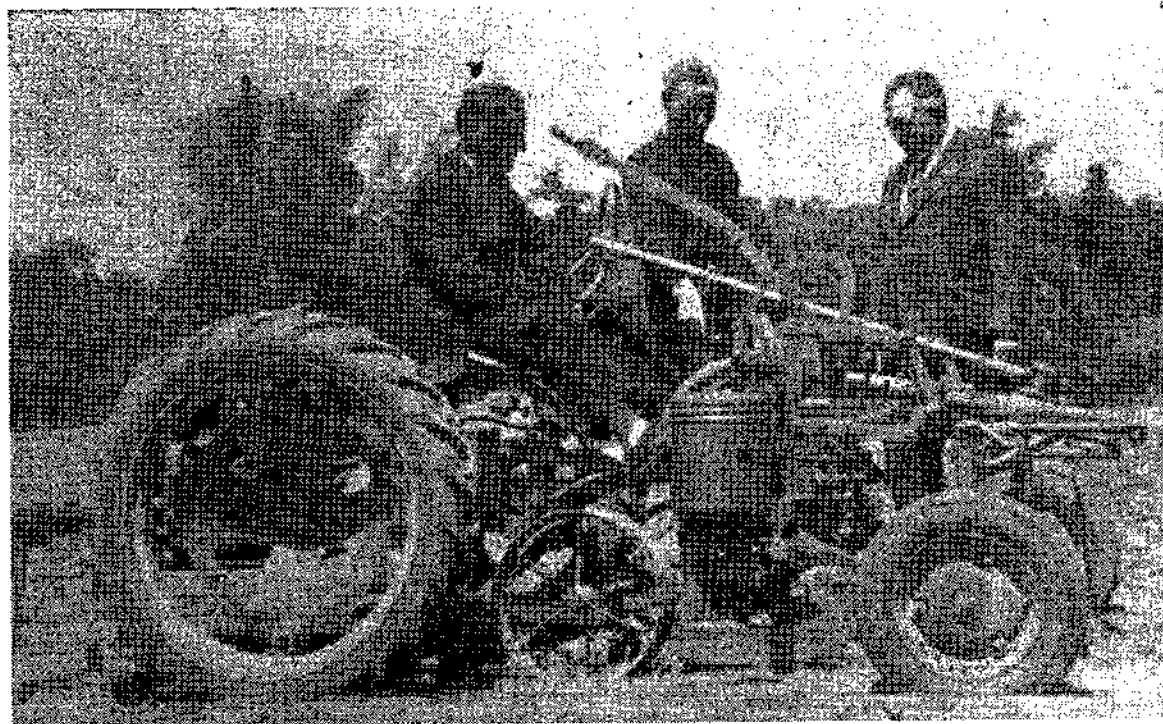

Mr. and Mrs. James Welborn left Thursday to visit his mother and their son and wife, Mr. and Mrs. Donald Welborn, at East Moline, Ill.

THESE DAYS KIDS WILL PLAY OUTSIDE. DON'T MAKE THEM TAKE AN AMBULANCE RIDE!

Rear Engine Tractor on Display Here Soon . . .

A new type of farm tractor that may prove to be the final threat to horses on the farm was previewed recently by Julius Novak and Chas. Spencer of the R. E. Johnson Hardware, Deford, Mich., local Allis Chalmers dealer and W. D. Coplin, A. C. Blockman. R. E. Johnson predicts it will replace that last team of horses on many farms by serving as a chore tractor, and that it will fill complete power needs on many other farms.

The new Allis-Chalmers model differs from previous tractor design in that it has a rear-mounted engine with implements attached in front within unobstructed view of the operator. Moving the engine to the rear keeps the front of the tractor clear for mounted implements, any of which can be attached or detached in five minutes. Even the plow is front-mounted.

Mr. Johnson points out that many farms keep one last team of horses for a few seasonal jobs, such as corn planting or hauling. Although such tasks are few and far between, the horses "eat their heads off" all year long, and at present feed prices, "that ain't hay." The new tractor, he says, will do such work on two to three quarts of fuel an hour and eats only when it works. The owner just presses the starter button, with no currying, harnessing or hitching up.

One feature of special interest for close work such as cultivating vegetables, plowing out the corners or chore jobs is a special 3/4 mile per hour low gear. The four speeds forward range up to 6.9 miles per hour. Wheel treads can be adjusted to fit any row spacing.

The tractor serves as a portable power unit on belt-operated machines like water pumps, elevators, feed grinders and feed mixers.

New mounted implements designed to work with the new tractor include a 12-inch plow, 2-row drill, planter, 5-foot mower, single row cultivator, 60-inch double tool bar cultivator, 80-inch single tool bar cultivator, independent gang cultivator for vegetable beds, power driven seeder for truck crops and ground driven seeder.

Regular pull-behind implements include a 5-foot disc harrow, 2-section peg tooth harrow and 1-section spring tooth harrow.

It was said that this is the first riding tractor to answer the needs of part time farmers, of which there are now more than one million in this country. The Company's slogan for the tractor is: "For some jobs on all farms and all jobs on some farms." The new tractor as pictured above will be on display soon at above dealer's place. Watch the paper for announcement.

Sheriff Colling and Deputies
Putnam and Austin gathered in the
largest "moonshine" outfit Satur-
day night ever captured in this
neck of the woods. Officers dis-
covered a large still of 75 gallon
capacity, a 40-gallon still, 18 gal-
lons of moonshine whiskey and
about 400 gallons of mash.

A special election has been called
for Monday, June 30, for the pur-
pose of voting on the issue of bonds
to the amount of \$10,000. This sum
together with the amount of direct
tax for power house purposes this
year will provide means for moving
the municipal electric light and
water plant to a new site next to
the railroad and purchase a boiler,
small engine and other equipment.

Thirteen students of the local
high school will be graduated this
year and the first exercises to be
held in connection with graduation,
the baccalaureate service, will be
held at the Presbyterian Church
Sunday evening, Rev. H. C. Hay-
ward, pastor of the Baptist Church,
will deliver the address.

Sunday excursions are gradually
being done away with by the rail-
roads throughout the country. The
Grand Trunk is the last to make

the statement that there will be no
more Sunday excursions on that
line.

Motors in America
Out of the 45 million motor vehicles in use throughout the world last year, nearly 34 million were in the United States.

By Gene Alleman.

General Motors Corporation, a Michigan concern, has the reputation of being the best managed corporation in the world.

And so when GM announced a two-year contract with the CIO United Automobile Workers, granting workers an "annual improvement" of 3 cents an hour and 8 cents an hour tied to cost of living, many Michigan employees paid attention. Here was the pace-setter with a new formula for industrial peace.

In a two-day field trip in southern Michigan recently, we talked with a number of employers about 1948 problems of rising production costs and what their firms were doing to meet them. Invariably the employee attitude on profits was mentioned as a factor. Cost of living has been surging upward with dismaying persistency. While sales remain good, profits are declining. Many retailers are wondering what is ahead.

"I'd like to know the answer to this employee problem," said one employer. "It does not seem possible for the worker to win better wages perpetually without also inflating prices."

"The employee demand for higher wages is stimulated, it now appears, by a belief that the average business is rolling in high profits and that wage increases can be granted out of profits alone. This is a fallacy, a misconception. I sometimes think the average American is illiterate when it comes to understanding economics."

His petulant remark prompted us to dig into the record.

We find that from January, 1941, to December, 1947, industrial wages went up 84 per cent, while the cost of living arose 69.1 per cent.

Dividends to stockholders represented about 35 per cent of corporate earnings in 1947. The remainder—65 per cent—went to improve products and services through research and better machines, to replace old plant equipment, and to provide additional working capital sorely needed because of higher wage and material cost.

Did you know that 75 per cent of the nation's post-war plant expansion program was financed out of current and past earnings? Well, such is the case.

Charles F. Kettering, engineering consultant of GM, believes that the GM "annual wage improvement" could be offset by a 2 per cent annual increase in efficiency. Maybe GM can do it. Surely other firms, less well managed, will be unable to follow suit.

Summer H. Slichter, Harvard economist, points out that collective bargaining with its perennial demand for higher wages have resulted in a continual slow rise of prices.

"With prices rising 2 or 3 per cent a year, who would wish to own saving accounts, government bonds or other securities paying 2 or 3 per cent a year?" he asks.

Is the ultimate effect of this kind of collective bargaining going to be a gradual reduction in the purchasing power of workers' pensions, savings accounts, life insurance and bonds? Is this going to rob us of any incentive to save? Is there no hope for the widow's son?

In England where there is a labor government today, unions have been asked by their own government to heed the following: "It is essential that there should be no further general increase in the level of personal incomes without at least a corresponding increase in the volume of production." (White Paper, Feb. 4, 1948). The same policy could well be adopted over here.

Every Farm should have one of these tools

With this Rotary Hoe, you can span two crop rows spaced up to 42 inches apart and cultivate until plants are about nine inches high. Rear spiders travel midway between those in front. Flexible connections permit the four gangs to float, assuring uniform work on uneven ground. Attached to the Ford Tractor in a minute or less, the Rotary Hoe is lifted and lowered by Hydraulic Touch Control.

Cultivating is the best known method of weed control, and there's a big advantage in digging out weeds before they are strongly rooted. That calls for a good sturdy weeder; and here it is! Wide enough to span four rows of corn or up to eight rows of small vegetables, this weeder will handle fifty acres a day under average working conditions. It is attached to the linkage of the Ford Tractor in a minute or less. With the weeder lifted by Ford Hydraulic Touch Control, you speed to the field in high gear.

Now is weed time. See your friendly Ford Tractor Dearborn Implement dealer, for a free demonstration today!

DEFORD

Death of Fred Hartwick—

Fred Owen Hartwick died very suddenly in his home while seated in his chair on Saturday afternoon, June 12. The cause of death was attributed to heart failure. About one year ago, Fred was injured in an automobile accident which necessitated the removal of his left arm at the elbow. The shock received, and the attendant pain which at times has been quite severe, doubtless had an influence on the condition of the heart.

Fred was one of four children born to Job and Lucy Hartwick. The date of his birth was August 3, 1884. His parents came to the present Hartwick farm home, being among the early settlers in this vicinity. The deceased spent his whole life at this farm home, being born in the same house in which he died.

April 22, 1908, he was united in marriage with Miss Olive Mary Gibbard. They were the parents of six children, Arthur of Deford, Grant of Flint, Basil of Pontiac, Gordon of Akron, Harry at home, and Doris (Mrs. Robert Jordan) of Flint.

Funeral services were held Tuesday, June 15, at two o'clock at the Little Funeral Home in Cass City, and the remains were laid to rest in Novesta cemetery. The rites were conducted by Bernard McGovern of Port Huron. The five sons and the son-in-law were the pallbearers. Those of the immediate family left to mourn their loss are his widow, six children, grandchildren, two brothers, Edwin of near Cass City, and Nelson, who has made his home for several years at the home of the deceased.

Thirty-five were present when the Novesta Community 4-H Club met with Earl Rayl on June 7. After the business meeting, refreshments were served and games were played. The club will meet on July 5 at Marian Palmateer's home.

Mr. and Mrs. Alfred Slingland entertained on Monday Mr. and Mrs. Russell Hoppe of Mayville.

Foster VanBlaricom and Howard Patch of Detroit spent last week in Deford at the VanBlaricom residence.

Mr. and Mrs. William Hicks and daughter, Greta, of Pontiac spent Friday evening to Sunday at the Hicks residence here.

Miss Mabel Zemke is spending this week on vacation with a group of girls at Caseville.

Mr. and Mrs. Frank Roberts of Pontiac were visitors in Deford on Monday, calling at the Fred Hartwick, William Zemke and H. D. Malcolm homes.

Mr. and Mrs. Kenneth Kelley were Saturday and Sunday visitors in Detroit at the Bruce Malcolm home.

Mr. and Mrs. Frank Lester of Kingston and Mr. and Mrs. Byron Neff of Daytona were Sunday guests of Mr. and Mrs. Fred C. Lester.

Mrs. Ernest Hildinger and children of Caro were visitors at the Henry Cuer home.

Mrs. Edna Malcolm was a visitor Saturday and Sunday of Mrs. Mattie Bruce at Oxford, and a Sunday dinner guest of Mr. and Mrs. Charles Downer in Pontiac. Mrs. Bruce and Mrs. Malcolm attended the Sunday morning service at the Orion Methodist Church and heard Rev. E. L. Carless, who is now pastor there, preach. They also called at the parsonage for awhile. Mr. and Mrs. Albert Rock and

MARRIED IN CANDLELIGHT CEREMONY IN PT. HURON

In a candlelight ring ceremony recently in the home of her parents, Miss Lucile DeLong, daughter of Mr. and Mrs. Maynard DeLong, Howard St., Port Huron, became the bride of Mr. Albert Barnett, son of Mr. and Mrs. Luther Barnett of Toronto, Ont. Rev. Herbert Watkins of Cass City read the marriage rites before 60 guests. Mrs. Herbert Watkins sang "I Love You Truly" and "O Promise Me," accompanied by Miss Emily Collins, who played the wedding march as the bride came down the stairs.

The bride given in marriage by her father, wore a white slipper satin gown styled with rounded neckline and circular yoke with lace edging and seed pearls. A long train extended from the full skirt. Wide lace edged the fingertip veil of net which was fastened to a seed pearl coronet. The bride carried a hand bouquet of white carnations and sweet peas. Her only jewelry was a double strand of pearls.

Miss Dolly DeLong, sister of the bride as maid of honor, wore a pink taffeta gown and a corsage of pink tea roses and carnations.

Miss Rose Marie Barnett, sister of the groom, was bridesmaid. Her gown was of blue taffeta. She also wore pink carnations and tearoses.

LeRoy Ripley, a friend, and William DeLong, cousin of the bride, attended the groom.

Immediately following the ceremony, a reception was held in their honor in the home and a buffet luncheon was served.

For the wedding, Mrs. DeLong chose a dress of powder blue crepe with silver nail heads. Her corsage

was white gardenias.

The newlyweds left Wednesday afternoon for their home in Toronto where the groom is employed.

Guests came from Detroit, Pontiac, Port Huron, Capac, Brown City, Cass City and Fairgrove, Michigan, and from Toronto and Dresden, Ont.

HOUSEHOLD MEMOS... by Lynn Chambers

Let Foods Complement Each Other
(See Recipes Below)

Balancing Meals

ONE OF THE QUESTIONS most frequently asked by homemakers is, "How can I plan balanced meals?" Fundamentals of balancing meals are really simple. Take your dinner, for example. Use a serving of potatoes or another starchy food to go with the meat course; add to this one or two vegetables that go nicely with your chosen meat cut. If you have not had a salad for lunch, this may be added to the dinner menu. If you have a heavy meal, use a fruit dessert; if the meal is light and the fruit requirement of the day has been satisfied, serve cake, pastry or cookies.

That is the dinner plan. However, it also is well to bear other points in mind, so that the meal will be pleasing.

First, select foods that have contrast in color, for these will make meals more interesting. We eat with our eyes first and a picture pretty plate certainly will whet the appetite.

Second, serve foods that have contrasting textures. You don't serve boiled potatoes, whitefish and cauliflower at a meal because they all have much the same texture. How much more interesting to serve, asparagus with the broiled fish, with crisply fried potatoes.

Third, do have variety. Families have favorite dishes but they won't keep favoring them if they are served several times each week. Prepare everything you serve carefully so the family will learn to enjoy a variety of foods.

DOES YOUR FAMILY enjoy pork chops? Did you know that they could be served with a tomato sauce to add tang to their delicate flavor? Or perhaps you'd like to stuff them with a celery-bread combination, omit potatoes and serve creamed turnips. You always can put your vegetables in the salad and balance the meal that way. Doesn't this meal sound tempting and colorful?

Stuffed Pork Chops
Creamed Diced Turnips
Asparagus Salad

Orange Muffins Prune-Banana Whip
Here are the recipes for the main dishes in the menu, and you may be certain there won't be any leftovers:

Stuffed Pork Chops
Have the butcher cut a pocket in each of six thick pork chops. Make the dressing as follows: Use 1 cup of bread crumbs and mix with 1 teaspoon salt, 1/4 teaspoon pepper, 1 tablespoon chopped parsley, 1/2 teaspoon thyme and 1/2 cup celery, cut up and sautéed in 3 tablespoons of fat. Moisten with 1 egg. Fill pork chops. Brown the chops in hot fat, season with a sprinkling of salt and pepper, then cover and bake in a moderate (350 degree) oven for one hour.

The turnips are diced and cooked until tender in boiling salted water. Fresh cooked or canned, drained asparagus, well chilled, may be used for the salad. Use a tart dressing. Use your favorite plain muffin recipe to which grated orange rind has been added.

Here's the luscious dessert recipe:
Banana-Prune Whip
(Serves 6)

1/4 cup prune puree
1/3 cup sugar
1 cup thinly sliced bananas
2 egg whites stiffly beaten
1 tablespoon lemon juice
Mix together prune pulp and sugar and cook until the latter is dissolved, then cool. Add bananas mixed with lemon juice. Fold in beaten egg whites. Chill thoroughly. Serve in sherbet dishes garnished with more sliced bananas and cut maraschino cherries.

With These Hints

A broiled ham slice or ham loaf goes well with buttered rice, sweet potato croquettes, stuffed baked potatoes or broiled potato slices. Pork roast, either the loin or the shoulder cut, may be prepared with potatoes in one of the following ways: Mashed, browned, buttered, scalloped or baked. Baked squash also may be served in place of the potatoes.

solved, then cool. Add bananas mixed with lemon juice. Fold in beaten egg whites. Chill thoroughly. Serve in sherbet dishes garnished with more sliced bananas and cut maraschino cherries.

NOW LET'S PLAN another menu around an entirely different meat course. This menu has the advantage of limiting cooking to an hour, and most of it can be done in the oven, so that you don't have to watch the proceedings:

Tomato-Herb Soup
Baked Potatoes
Yellow Wax Beans or Zucchini Squash
Beet Pickles or Tomato Salad
Fresh Fruit Parfait or Apple Raisin Pie

If you choose the squash and pie, these can be baked at the same time as the meat loaf and potatoes. The soup is made simply by heating canned tomato juice with a few herbs for flavor. If you serve the soup, have the beet pickles in place of the salad.

Easy Meat Loaf
(Serves 6)

2/3 cup dry bread crumbs
1 cup milk
1 1/2 pounds ground beef
2 slightly beaten eggs
1/4 cup grated onion
1/2 teaspoon salt
1/8 teaspoon pepper
1/2 teaspoon sage

Soak bread crumbs in milk; add other ingredients and mix well. Form into one loaf or individual loaves to be placed in muffin pans. Cover with piquant sauce and bake in a moderate oven 45 to 60 minutes.

Piquant Sauce: Combine 3 tablespoons brown sugar, 1/4 cup catsup, 1/4 teaspoon nutmeg and 1 teaspoon dry mustard.

Zucchini Squash
(Serves 6)

6 medium sized zucchini squash
1 cup soft bread crumbs
1 small onion, grated
1 cup tomato quarters
1 teaspoon salt
1/8 teaspoon pepper
1 egg, beaten
2 tablespoons bacon drippings

Wash squash; cut off ends but do not peel. Cook in boiling salted water for five minutes. Halve lengthwise. Remove pulp and combine all other ingredients with pulp and fill zucchini shells. Sprinkle with American or Parmesan cheese. Bake in a moderate oven for 30 minutes.

Fresh Fruit Parfait
(Serves 6 to 8)

20 marshmallows
Juice of 1 lemon
1 cup crushed fresh raspberries
1 cup heavy cream whipped
Melt marshmallows in top of double boiler; add lemon juice. Cool slightly, then add berries. Fold in whipped cream; freeze in tray of automatic refrigerator about two hours.

Other parfaits in season: Substitute one cup finely chopped fresh peaches for raspberries. Strawberry Parfait: Substitute one cup sliced or crushed strawberries for the raspberries in above recipe.

Certain combinations of food go better than others for a meal, because of flavor and texture contrast. You'll enjoy these easy-to-use go-togethers.

When you serve breast of lamb, surround it with browned potatoes and green lima beans. Add a carrot salad for more interest.

When you have lamb shanks and dumplings, the meal can be rounded out with green beans and glazed carrots. Serve a side dish of apple sauce.

28 MEMBERS OF THE CLASS OF 1923 IN REUNION SATURDAY

Concluded from page 1.

Elsie Campbell Parker of Ypsilanti and Irvine Striffler of Marysville, O. Telephone calls were received from Dr. and Mrs. Kenneth Higgins (Annabelle McRae) of Detroit, both class members, and from Harold Cole who is in Boyne City.

A checkup revealed that the class members are the parents of 52 children and that four of the "girls" are now grandmothers, namely—Marian Wallace Callan of Saginaw, Thelma Luther Crawford, Mildred Kosanke Cole, both of Detroit, and Carrie Brown Moynes of Royal Oak.

Guests were Mr. and Mrs. Willis Campbell and from Bay City, Miss Hilda Richards who was a member of the class but left in the junior year.

Plans were made for a reunion in 1953. Wallace Zinnecker and Herbert Bartle will head the committee on arrangements and will be assisted by those who arranged the gathering for this year.

Those who found it impossible to attend will be interested in the following list of classmates who were present:

Carrie Brown Moynes, Royal Oak.
Nila Burt Laidlaw, Lansing.
Elynore Bigelow Heath, Bay City.

Adrian Bixby, Fort Wayne, Ind.
Herbert Bartle, Cass City.

Mary Dunlap Kritzman, Decker.
Alice Ferguson Stewart, Deford.

Lillie Ferguson Bruce, Deford.
Marie Garety Sullivan, Cass City.

Chas. Hamilton, Mayville.
Irene Hall, Cass City.

Aletha Klein Auten, Goodrich.
Mildred Kosanke Cole, Detroit.

Dr. Albert Law, Detroit.
Thelma Luther Crawford, Detroit.

Dr. Douglas McRae, Bay City.
Raymond McCullough, Cass City.

Kenneth McKenzie, Michigan Center.

Flossie Merchant Mitchell, Detroit.

Dorothy McPhee Merchant, Cass City.

Oakley Ptheppelace, Ypsilanti.

Lilah Spurgeon Coleman, Detroit.

Donald Seed, Rochester.

Wilma Striffler Fry, Cass City.

Berniece (Betty) Wager, Caracas, Venezuela, South America.

Marian Wallace Callan, Saginaw.

Velma Warner Walsh, Utica.

Wallace Zinnecker, Cass City.

The members made use of attractive address books which were found at each place, the gifts of Raymond McCullough.

All seemed reluctant to break up the gathering as midnight approached and goodbyes were said.

May Lessen Hazards Of Well Digging

Farmers and well-drillers are asked to inform The Detroit Edison Company when they plan to drill or repair a well located near electric wires so that the hazards of contacting them may be lessened.

"Well-drilling equipment coming in contact with overhead electric wires is particularly dangerous," said Robert P. Douglas, safety director of the company, "because men engaged in this operation are apt to be 'perfectly grounded.'" He stressed the necessity for care in selecting the site for the well and in placing the well-drilling equipment, since trees and dense foliage often conceal electric wires. Where drilling or repair work is to be done, the company stands ready to send an investigator to the site to give advice and assistance in avoiding possible electric hazards.

Hendrick-Copeland Nuptials June 12

Miss Leone Hendrick, daughter of Mr. and Mrs. Bert Hendrick, and Eldie Copeland, son of George Copeland, all of Cass City, exchanged vows June 12 in a double ring ceremony performed by Rev. Stanford Closson at the Caro Methodist parsonage.

The bride was attended by her sister, Mrs. Pauline Hendrick. She also was dressed in a grey suit with white accessories and a corsage of red roses.

The couple were attended by Miss Pauline Hendrick, sister of the bride. She also was dressed in a grey suit with white accessories and a corsage of red roses.

Bruce Bartle was best man. The bride's mother was gowned in navy blue with a corsage of sweet peas.

Following the ceremony a dinner was served to the immediate family at the home of Mr. and Mrs. Jerry Decker, the latter a sister of the groom.

In the evening a reception was held at the Cass City town hall when about 200 relatives and friends were in attendance. The bride and groom received many beautiful gifts.

Copland-Lamsa Wedding in Detroit Saturday, June 12

Grace Presbyterian Church, Detroit, Michigan, was the scene of the marriage of Lura Copland of Detroit and Arnold Lamsa of Mass, Michigan, on Saturday, June 12, at seven o'clock in the evening. Rev. Wm. Toppens officiated at a double ring ceremony. The reception following the service was held in the church parlors for about 200 guests.

Lura, who is the daughter of Mr. and Mrs. L. W. Copland of Coyle Ave., was gowned in white net over white taffeta with a finger tip veil. She carried a colonial bouquet of white carnations, centered with removable gardenia corsage.

Mrs. R. J. Copland, sister-in-law of the bride, was matron of honor. She was gowned in blue dotted swiss with pink colonial bouquet. Bridesmaid Glenna Copland, sister of the bride, was dressed in pink dotted swiss with blue carnations. Little Catherine Newlon, who was dressed in white net over taffeta and carrying a basket of white roses, was flower girl.

Frank Zebel was best man and Robert and Laurence Copland, Jr., brothers of the bride, were ushers.

The bride chose a royal blue garbardin suit with white accessories for traveling. The young couple have gone to Mass for their trip. They will make their home in Detroit.

Mrs. Lyle Bardwell and Mrs. Don Seeger of Cass City attended the wedding. The bride is a niece of the two ladies.

Thermometer Is Good Check for Hay Temperature

The danger of a barn fire from spontaneous ignition of hay can be reduced through the construction of a simple hay prod thermometer to check hay temperatures, advises Fred Roth, farm safety specialist at Michigan State College.

When hay is stored with much over 20 percent moisture content, danger of heating in the mow is present unless a mow drier is being used. Even small amounts of damp hay, if all in one spot, may cause heating in a limited area.

Heating of the hay takes time and checking should be done continually for two months after hay is put in the mow. A hay prod thermometer can be made inexpensively to give a good check of the temperature of the hay. The outfit consists of ten feet of one-half inch electrical conduit with an oak or ash point on one end to permit driving into the hay. Six one-quarter inch holes should be punched in the conduit above the point. A dairy thermometer on a string is then put into the conduit. A rubber pad at the bottom of the tube will keep the thermometer from breaking.

To use, the prod with the thermometer inside is inserted in the hay and left 10 to 15 minutes. The thermometer is then pulled up with the string and read immediately. Detailed instructions for making may be obtained from county agricultural agents.

If the thermometer reads 140 degrees F., the hay should be checked several times a day. At 160 degrees F., check every hour. Get assistance if it should rise any higher than 180 degrees F. Don't work in the mow alone if the temperature is excessively high. Adequate fire fighting facilities should be at hand if heated hay is to be removed and someone who understands the correct removal of heated hay should supervise.
