

## Gavel Committees Busy on Recreation Park Projects

Sand Pits, Tennis and Shuffleboard Courts and Quoit Areas on the Way

The weather looked promising when Gavel Club members finished their dinner at the Home Restaurant Tuesday evening so they dispensed with a program and hurried to Recreation Park to work on their projects. They had nicely started to work on two sand pits when rain threatened and came, but the fellows stuck to the job and finished the excavations. The pits will be filled with lake beach soil and will make ideal spots for little folks who enjoy dabbbling in the sand.

East of the swimming pool the cement foundation for tennis courts have been poured. These, experienced players say, will be the "last word" in areas for following this sport.

Two shuffleboard courts and quoit pitching spots are being located nearby, thus affording other means of recreation in addition to the swimming and wading pools, softball and baseball diamonds, track, football field and tennis courts now installed in the park. With all these avenues of recreation the community has been well provided with methods of healthy pastimes.

President C. M. Wallace of the Gavel Club recently appointed committees to superintend the additional projects in process of installation and to care for others already in use. They are:

Sand pit—Harry Little, Raymond McCullough.  
Horseshoe—Dr. Ivan McRae, Howard Wooley.  
Tennis—Clarence Burt, Ed. Baker.  
Track—Andrew Bigelow, Lester Ross.  
Badminton—Glenn McCullough.

## MSC Beef Project Gets Under Way

The time is here to enroll in the 1948-49 Michigan Beef Calf Feeding Project, sponsored by the animal husbandry extension department of Michigan State College.

College livestock specialist W. L. Finley offers a brief of the rules governing the project and encourages those interested in beef cattle to enroll by weighing their project calves at some convenient time during the first 10 days of July.

Two calves may be enrolled per farm, Finley reports. Calves must have been sired by a registered beef bull. The calves will be divided into two groups: seniors, born between Sept. 1 and Dec. 31, 1947, and juniors, born between January 1, and April 1, 1948.

Calves must gain two pounds or more per day and must weigh at least 700 pounds (based upon home weight) at the close of the feeding period to be eligible for exhibit at the 1949 Farmers' Week program at Michigan State College.

Enrollment cards are being sent to co-operators of the past three years. However, others are invited to enroll by contacting their county agricultural agent or by requesting an enrollment card directly from the Michigan State College animal husbandry extension department. No enrollment fee will be charged in this 1948-49 project.

## HARTSELL REUNION

The Hartsell reunion was held at the home of Mr. and Mrs. Clare Schwaderer on Sunday, June 27. Fifty-four were present and enjoyed a bountiful potluck dinner on the lawn in spite of threatening showers.

A short program was enjoyed by all. The next reunion will be held at the home of Mr. and Mrs. Bob Knight on the last Sunday in June.

## Began Pastorate Here on Sunday

Rev. Howard C. Watkins, the newly appointed pastor of the Cass City Methodist Church, was well pleased with the reception that he received at his first service here Sunday.

He completed his high school studies at Marquette and served as a Methodist Protestant minister at Mayville for five years and at Carsonville three years before the merger of the Protestant and Episcopal branches of the Methodist Church.

His father, Rev. Harry L. Watkins, served churches as pastor in the Thumb district at Unionville, Wahjamega and Marquette.

## Freedom from Accidents is Recommended

As Nation Prepares to Celebrate the Fourth of July Week End

A fifth freedom—freedom from accidents—was recommended to Americans today by the National Safety Council as the nation prepares to celebrate the Fourth of July.

With the warning that holiday motorists will jam the nation's highways as never before during the holiday week-end celebration this year, the council estimated that nearly 30,000,000 vehicles will be on the move during this period. That is about 10 cars for every mile of street and highway throughout the nation, which means 10 chances for a crack-up, per mile.

The council appealed to motorists and pedestrians to "Take It Easy on the Fourth—Be Alive on the Fifth!" as the keynote of a nationwide campaign against holiday accidents that threaten a record-breaking death toll over the Independence Day celebration.

One hundred thirty national organizations have joined with the council in a united effort to forestall a tragic holiday for hundreds of Americans. The campaign is designed to make people aware of the extra holiday hazards and to help public officials, traffic officers.

## Vacation Bible School Well Attended

The Vacation Bible School, held in the Shabbona Methodist Church last week, was well attended by boys and girls from the surrounding community. Rev. Horace Freeman, the pastor, reported that by the end of the week the enrollment totalled 103. Children from seven different churches besides the host church were represented in the enrollment. The average attendance for the five days of classes was 84.

From Monday through Friday classes were held each morning. On Saturday morning the pupils enjoyed a party at which ice cream and cake were served. The week's activities closed Sunday night when a program was presented which gave the parents a glimpse of what their children had been studying. Certificates for perfect attendance were awarded to 65 pupils.

The teaching staff included: Mrs. Maurice Caister, beginners; Mrs. Virgil VanNorman and Mrs. Kitchner Innes, first and second grades; Mrs. Ralph Smith, third and fourth grades; Mrs. Horace Freeman, fifth and sixth grades; Mrs. Willard Harris, seventh and eighth grades; Rev. Horace Freeman, high school; Miss Lois Harris, director.

Charlevoix—This is the weird story of a man, an idea, and a Michigan island. The man was Jesse James Strang, self-anointed prophet of a dissident Mormon sect. The idea: God had chosen Strang to be king.

The island: Big Beaver, three hours from Charlevoix by mail boat, largest of all isles in Lake Michigan.

The time: Just 100 years ago—1848.

All these things were recalled by Michigan newspaper editors last week end, as they met at Charlevoix for a traditional summer meeting under auspices of the Michigan Press Association.

Strang, the man of this story, was a superb opportunist. When the founder of Mormonism, Joseph Smith, was assassinated by a mob at Carthage, Illinois, Strang promptly produced a letter. The letter was said to have been written by Smith prior to his death. Smith named Strang as his successor.

The Mormon committee of 12 judged the letter to be a fraud. Strang then led his followers to a

## Red Cross Swim Classes Scheduled Three Days a Week

First Aid Training Will Be Available If There Are Enough Interested

The Tuscola County Chapter of the American Red Cross will commence its program of swimming at two points within the county—Cass City and North Lake. The classes will begin Thursday, July 8, and each Tuesday, Thursday and Saturday at 9:00 a. m. during the summer.

The classes will be as follows: Beginners, 9:00 a. m.; intermediate, 9:30 a. m.; swimmers, 11:30 a. m.

The Red Cross Chapter of Tuscola County will make available first aid training this summer in Cass City, according to Harold Ostley, first aid chairman for the chapter. During the early days of World War II many people here were trained in the care of injured persons, but there must now be a large number who were not trained or who have partially forgotten their former skill, he said. While we are not quite so fearful of immediate war, the number of accidents and injuries, especially on the highway, is increasing, and any man or woman might suddenly need the knowledge which could save a life or long disability.

Charles Hunt of Caro, who will offer swimming and lifesaving instruction at the Cass City pool on Tuesday, Thursday, and Saturday forenoon soon, will be available afternoons of those days to teach first aid, if enough are interested. The standard course is open to anyone 16 years old, or who has finished the tenth grade. There is also a junior course for 12-15 year olds.

Mrs. Chester Graham, chapter secretary, has been asked to receive the names of any who are interested. If a sufficient number registers, dates and hours will be planned according to their convenience.

## Farm Women's Camp To Be July 11-14

Homemakers of Tuscola County again will enjoy a three-day period at the State Group Camp at Caseville, near Sleeper State Park, from July 11 through July 14. The camp accommodates 120 persons and is planned for fun, rest and enjoyment.

Each day's program includes hikes into nearby woods to study birds, trees and wildflowers; handicraft classes, including metal work, knitting, plastic buttons, earrings, cedar mats and lampshades; lecture classes on personal grooming, family relationships, and flower arrangements; a beach hour and plenty of time for rest and reading. Many of the homemakers attending the camp will be from the Home Economics Extension Groups in the county but the camp is opened to any homemaker in the county wishing to attend the camp should contact Miss Mildred M. Omlor, county home demonstration agent, at the court house for reservations by July 6.

## Girl Scouts' Day Camp Continued Through Today

Rain Delayed the Camp's Start Until Tuesday When Enrollment Was 144

Rain spoiled the plans to start the Girl Scout Day Camp on Monday but Tuesday found 144 in attendance and by Wednesday 160 were present. There were five units of Brownie Scouts and 10 units of Intermediate Scouts. Kingston, Cass City, Caro, Vassar and Unionville girls have been enjoying the camp under the direction and assistance of some 30 counselors and workers.

After most girls became rain-soaked at noon Tuesday, the group moved to the school gymnasium where in the afternoon finger painting and roller skating were enjoyed. The first cook-out was possible on Wednesday and in the afternoon softball, umpired by genial Jack Muntz, was in progress.

Nurses who have assisted were Mrs. Chas. Tennant and Mrs. Maurice Stone of Caro, Mrs. John Iglar of Unionville and Mrs. E. C. Fritz of Cass City. Ten complete units chose and set up camp sites in the nearby Orr's woods.

Because of the rain, Mrs. Alex Liberacki of Unionville, camp chairman, said on Wednesday afternoon that the camp would continue through Friday.

## Parents and Public Invited to Program

The Vacation Church School, sponsored by the Cass City Council of Churches, will close its two weeks' session on Friday (today) with a program in the Evangelical Church.

Parents and friends are welcome to visit the respective departments and observe the handicraft and other project work at 9:30 a. m. and share in the closing worship program at 10:00 a. m. which will be in charge of various groups of children, in part demonstrating work of the school such as worship, planning a flammograph presentation and other features. There will be an appreciation offering to help defray expenses of the school.

Rev. S. P. Kim and Rev. M. R. Vender take this opportunity to thank the teachers and helpers and the parents who have cooperated so well in helping to make the school a worthwhile experience in the Christian training of the boys and girls.

The teachers who have served for the two week period will be given a surprise token of appreciation in the form of a Standard Revised Version of the New Testament. Pupils who have attended one full week or more will receive certificates and a "sweet" farewell at 11:00 a. m.

## Cass City and Seven Rural Schools Are In Proposed Area In This Community

Tuesday, July 27, has been set as the date on which electors of seven rural schools and those of the Cass City (School District No. 5, Elkland) will vote on the organization of a rural agricultural school district in the Cass City area. Rural schools included in the suggested consolidated district are Districts Nos. 2, 3 and 4 in Elkland Township, Nos. 2 and 5, Novesta Township, and Nos. 4 and 6, Grant Township.

Rural district electors will cast their ballots at the town hall in Cass City and those of the Cass City district will vote at the school building.

The following table will give patrons of the schools interested the cost of operation by mills and the valuations of property in the several districts:

| School                    | 1947 Opera-tion | 1947 Valua-tions |

## 5 reasons why a telephone rate increase is necessary

Since 1941 our cost of furnishing telephone service has increased over 128% due mainly to these reasons:

1. 82% more workers added
2. 69.3% increase in average monthly wage
3. 35% average increase in cost of telephone instruments
4. Over 125% increase in cost of cable
5. Over 90% increase in cost of telephone poles

True, our income has increased through expansion of service—and we are making every effort to serve everyone as quickly as possible. But the income from new telephones does not meet the cost of furnishing service. This is due to the fact that the majority of Michigan Associated Telephone exchanges are furnishing service at rates which haven't changed in 20 years.

Therefore, in order to operate on a sound financial basis, we must seek a rate adjustment to keep pace with the increased cost of operation.

place near Burlington, Wisconsin, and there revealed the location of long lost ancient Biblical records. By Strang's translation, a mighty prophet was to arrive. The conclusion was plain. Strang was their man.

Harrassed by disbelievers, Strang transferred his colony to Big Beaver island, then inhabited by a few sturdy, fighting Irish fishermen and some Indians. There on beautiful Paradise bay, across from Whiskey point, Strang founded the town of St. James. In July, 1849, he was crowned "king." Next on the scene came an attractive school teacher, Elvira Eliza Field, from Eaton Rapids and Charlotte. In Wisconsin, Strang had denounced polygamy. He changed his mind when he beheld Elvira. She became his second wife, posing as his secretary. When tongues wagged, Strang revealed the divine blessing of polygamy. He then took on three other wives: Betsy McNutt and Sarah and Phoebe Wright. They all slept under the same roof.

Strang became a leader in the Michigan state legislature. The kingdom at St. James grew to number 2,608 inhabitants by 1854 census.

The Mormon kingdom came to a tragic ending in June, 1856. Strang was fatally wounded by two of his own followers in the presence of the captain of the U. S. Michigan, a government boat. Irish fishermen from Mackinac and St. Helena joined those at Big Beaver. Together they drove the Mormons from their island haven. Today, the sole remaining landmark of this colorful epoch at St. James is the Old Mormon Printing House, erected in 1850. There the first daily newspaper north of Grand Rapids was printed on April 1, 1856. The final issue of the "Northern Islander" recorded the story of Strang's assassination.

The Old Mormon Printing House is now marked by a historical plaque sponsored by the Michigan Press Association and the Michigan Historical Commission. The dedication ceremony took place Sunday, June 27, at the quiet village of St. James.

## A FINE PLACE TO LIVE.

In the summer of 1937 when the financial campaign was launched for a swimming pool at the old fair grounds in Cass City, few, if any, of those who contributed their dollars ever dreamed that that area would be developed into the fine recreational spot it is today.

The pool itself has afforded untold pleasure to children and young people and no person regrets his investment in providing it. With its filtration system through which the water of the pool passes every eight hours when the pool is in use, the bath house facilities, the presence of a life guard, and the inspections by the State Health Department, parents are grateful that their children have such ideal conditions for swimming and bathing. This is particularly true since they have read in state papers recently of the many major rivers, their tributaries, and several lake spots which the State Stream Commission has condemned for recreational use this summer because pollution control is not adequate.

Building operations were started on the pool here in August of 1937 and it was completed the next October with the filtration system nearly so. Three local contractors, A. T. Barnes, E. B. Schwaderer and E. L. Schwaderer, contributed time and the use of their machinery and this lowered the construction costs 25 per cent and went a long way to make the project possible. In addition to the pool, Recreation Park now has a baseball diamond, softball diamond, cinder track and football field, the last three lighted for evening play, and on the way for this summer are tennis and shuffleboard courts, sand pits and horseshoe pitching spots.

Yes, the Cass City community is a mighty fine place to live!

## BE ALIVE ON THE FIFTH

Many happy returns of the day! Every American joins in extending birthday greetings to his country as it celebrates its 172nd anniversary on the Fourth of July. And wishing many happy returns of the day is one way to express that sentiment.

We would like to extend the same greeting to the Fourth of July celebrants themselves, and wish that all of them have a happy and safe return from their holiday celebration.

Unfortunately, they will not. As the fresh page of July turns up on the calendar, the National Safety Council can predict with grim certainty that 8,000 persons will be killed by accidents during the month. Thousands more will be injured, some of them disabled for life. Many of these deaths and maimings will occur during that annual jamboree of carelessness—the glorious Fourth.

The tragic fact is that this carnage need not happen. Accidents are not acts of God; they are acts of men and women and children who foolishly bet their lives for dubious rewards.

The driver who speeds to get to his destination—what does it matter whether he arrives 10 or 20 minutes later?

The youth who attempts to swim across the lake—what is gained by trying to show off in front of a crowd?

The father who refuses to deny his children the "pleasure" of fireworks—what pleasure will the child derive from sightless eyes?

These people and the remainder of the 8,000 marked for accidental death in July are not a strange and nameless breed. They may be the people in your church, in your office, in your block—one may even be you if—

If you are an ostrich-like person who buries his mind in the bromide, "Oh, an accident won't happen to me."

It has been said that accidents are no respecter of persons. But there is one person who is respected by accidents. He is the man who thinks before he acts, who never takes a chance just for the fleeting thrill of risking his neck, who conducts himself with courtesy and consideration at the wheel of a car.

He will make sure that he and his family will have a happy return by exerting a little extra caution to meet the extra hazards during the holiday. He will be under no illusions that he is immune from accidents.

He will remember that to be safe on the Fourth is to BE ALIVE ON THE FIFTH!

The fact that former residents here are impressed with Cass City's many changes is born out by a letter from Mrs. Roy McDowell (Mary Holtz) of Richmond, Va., which was written to her sisters, Mrs. Erwin Binder and Mrs. Clayton Root, after Mrs. McDowell had received a copy of the Chronicle which she writes, "contained an interesting account" of her class reunion. Mrs. McDowell who was graduated in 1925 from the local high school, left soon after for Virginia, having relatives there and has returned here once since that time, in 1927, for a month previous to her marriage. Being much interested and involved in church work, she was somewhat surprised in the church notes, because of the fact that several local churches have in recent years, made changes in the names and also several new churches are functioning here and nearby.

## Farm Topics

### Furacin Is Effective In Coccidiosis Control

Animal health, already in debt to human medicine for some effective help, now must acknowledge further aid from the same source. The thing for which acknowledgement is due is a drug called furacin.

Natural source of this drug is oat hulls, corn cobs, bran and similar farm wastes. It is one of the furfural series of chemicals, some of which are used in trades and industry.

In the very first trial with coccidiosis of chickens, furacin demonstrated that it was equal to the well-

known sulfa drugs in stopping losses. Further research proved that the drug is generally less toxic to chickens than the sulfa drugs, and that the growth of treated chickens is not retarded as much as in the case of those which have been treated with sulfa.

This chemical is as yet available only in small quantities, and still is high in price. Even so, the amount required to be effective against coccidiosis is so small that the cost of treatment is less than with the sulfa drugs. Before long, products containing this new chemical will be available to poultry raisers on a less limited scale.

### DDT Emulsion Controls Flies in Poultry House

Spraying a 1 per cent DDT emulsion on poultry manure two days before the manure was removed from the dropping boards, which were cleaned once a week, gave 100 per cent fly control at the Hawaii agricultural experiment station.

The emulsion was applied at the rate of one pint per 30 square feet of area.

The addition of lime twice a week to the manure before use of the DDT treatment reduced odor and moisture and reduced the number of flies, but apparently decreased DDT efficiency in the opinion of poultry specialists.

### All-Time Champion

Above is Bess Skylark Ormsby, 2388170, new all-time champion junior four-year-old Holstein for the United States, being milked three times daily. With her, on the last day of her record-smashing 365-day period, are left to right, three generations of her owners, G. F. Walters, Waterloo, Iowa; his son, Harold Walters, and his grandson, Robert Walters.

### 2,4-D Formulas Classified In Three Major Forms

Since 2,4-D itself is insoluble in water, it is made soluble by treating it with other chemicals. This results in the manufacture of many formulations, all of which can be classified as ester, amine or sodium salt sprays.

Ester, amine and sodium salt dusts also are manufactured. The ester and the amine sprays are produced in liquid form, the sodium salt spray as a powder and the others as dusts.

The 2,4-D chemical is used extensively as a weed killer.

### Zinc Coating Provides Protection From Rust

Ten year tests at Indiana indicate that wire having less than a half ounce of zinc coating for each square foot of wire surface had 100 per cent of the surface rusted during the period. Samples having more than one ounce of zinc coating showed no rusting. Stainless steel and copper clad samples showed no rusting. Lead clad samples showed a third of the area discolored.

### A ONE WAY ROAD

A revenue department agent was assigned to investigate some Kentucky characters. As he entered the house, a bright-looking young lad greeted him.

"Where's your pappy?" the officer asked.

"Pappy's up at the still."

"I'll give you a dollar if you'll take me up there," offered the officer.

"All right," said the boy. "Give me the dollar."

"I'll give it to you when we get back."

"No sir, mister, give it to me now," insisted the youngster. "You ain't a-comin' back!"

### SILENT SHOTS

On a radio dramatization starring Don Ameche, a sound effects man missed his cue when Don said to the villain, "By heavens, I'll shoot you." So Ameche repeated his threat—but with no results. Finally, Don shouted in desperation:

"Shooting's too good for you! I'll stab you!" There was a scream, then a thud. Ameche sighed with relief.

Then came the sound of the shot.

### Quick Action

The old lady had lost her purse, rushed into the police inspector's office and tearfully told her story. The inspector was very kind and calmed her fears as best he could. Laying his hand on her arm, he said: "We will leave no stone unturned to find your purse, madam." Leaving his office, she noticed a group of city workers busy tearing up the street for drainage repairs; and she remarked to herself, "Well, they don't lose much time, I'll say that for them."

### WEATHER PROPHECY

Joe, the Indian guide, lived by himself in a cabin in the woods and didn't get into town very often. When he did, he was always deluged with questions about the weather, for during the years he had shown himself an accurate prophet.

One day, though, when he came in for supplies and was asked about the weather, he grunted, "I dunno."

"You don't know, Joe? How does that happen?"

"My radio broke."

### Candid Comment

The music teacher was proudly presenting her pupils in a recital. After the extended musical program, ice cream, cake and fruit were served. One of the young musicians had brought her little brother along as a guest.

As the youngster was taking his departure the teacher asked: "Well, Jimmie, did you enjoy the recital?"

"I sure did," Jimmie replied, "that is, all but the music."

## Lawn Wedding at Sickler Home Friday

A pretty lawn wedding was solemnized at the home of Mr. and Mrs. Lowell Sickler of Cass City when their eldest daughter, Thelma Irene, became the bride of Norbert Gaeth, son of Mr. and Mrs. August Gaeth of Unionville, Friday, June 25, at 7:30 p. m.

The bride was escorted by her father to an arch, banked with baskets of pink and white peonies and palms, when the ceremony was performed by Rev. Carl Miller, Lutheran pastor of Sebewaing. The bridegroom was attended by Charles Guinther of Unionville.

Preceding the ceremony, Ross Barbour of Pontiac, accompanied by Mrs. Audley Horner of Cass City sang "Oh Promise Me," "At Dawning" and "Because." Mrs. Horner also played the wedding march and the recessional.

A reception immediately followed the wedding ceremony, during which ice cream, cake and punch were served and their many lovely gifts were opened. During the reception Miss Nancy DeLong of Cass City and Ross Barbour delighted the guests with songs.

The guests at the reception also enjoyed a wire recording of the wedding ceremony, which was made earlier in the evening by one of the wedding guests.

The bride's table was centered with a beautiful four-tiered wedding cake, topped by the conventional miniature bride and groom.

The 150 guests were from Cass City, Unionville, Sebewaing, Pontiac, Detroit, Lake Orion, Kingston, Deford, Snover, Caro and Bowling Green, Ohio.

For their honeymoon, the new couple are spending a week in northern Michigan. After their return they will reside in Sebewaing where the groom is employed and the bride will teach the third grade in the school the coming year.

## Bride and Groom On Trip to Canada

Miss Marjorie Turner, daughter of Mr. and Mrs. Henry Turner, Cass City, and Sylvester Markey, son of Mrs. Clara Markey of Saginaw, were united in marriage Saturday, June 19, at 9:30 a. m. The double ring ceremony was solemnized at St. Pancratius Church in Cass City by Rev. Fr. John Bozek in the presence of 100 guests.

The bride was given in marriage by her father before an altar, decorated with pink and white peonies.

She wore a white satin gown, featuring a low necked bodice and long wrist-point sleeves of white chantilly lace. An inset illusion yoke formed a high neckline. A full infantia hipline was a feature of the floor-length satin skirt which ended in a long train. She wore a string of pearls, a gift from the bridegroom, and carried a colonial bouquet of red roses and white carnations. Her fingertip veil fell from a beaded tiara.

The bride's attendants were Mrs. Garfield Turner, her sister-in-law, as matron of honor, who was gown in yellow sharkskin with matching elbow length mitts. She carried a colonial bouquet of yellow roses and white carnations.

Miss Irene Silvermail of Saginaw was bridesmaid. Her gown was of aqua sharkskin with matching elbow-length mitts. She carried a colonial bouquet of pink roses and white carnations. Their gowns were fashioned with fitted bodices and long, full skirts and their hats were of fine net, trimmed in matching velvet.

Garfield Turner, brother of the bride, served the bridegroom as best man and Marshall Markey, brother of the bridegroom, was the other attendant.

For her daughter's wedding Mrs. Turner chose a powder blue print dress and Mrs. Markey a yellow print dress. Both wore white accessories and their corsages were of white gardenias.

Following the ceremony a breakfast was served for the wedding party and the immediate families at the Gagetown Hotel.

Starting at eight o'clock a reception and dance was held at the Arbeiter Hall in Sebewaing for 300 guests.

Out of town guests were from Detroit, Flint, Lake, Bay City, Saginaw, Gagetown, North Branch, Caro, Unionville and Bad Axe.

The group voted to have a sandwich stand at the county picnic to be held on July 16 at the Caro fairgrounds.

Kenneth Baur, county organization director, was present and graciously offered his services to

the group any time he could be of help. Mrs. Goetz and Mrs. Paul Montel, delegates to the Women's Farm Bureau camp at Torch Lake, were present and gave interesting and helpful reports.

## FREEDOM FROM ACCIDENTS IS RECOMMENDED

Concluded from page 1.

ficers and safety leaders in their efforts to curb the Fourth of July death toll.

In asking for public support of the campaign, Ned H. Dearborn, president of the council, pointed out the need for ever-increasing vigilance against accidents.

"Despite all our coordinated efforts to hold down accidental deaths last year," he said, "8,300 persons were killed in July—2,720 in traffic accidents alone. As usual, the Fourth of July celebration contributed a large number of these deaths."

"Let's look upon the holiday accident threat as a problem in mathematics. The three-day celebration, increased mileage and relative prosperity are dangerous factors that add up to a heavy accident toll. But if we substract haste, selfishness, thoughtlessness and the desire to show off, and if we multiply extra caution and extra courtesy, we will come up with the correct answer that will pay off big dividends in a safe and sane Fourth of July celebration."

"Be safe on the Fourth. Be alive on the Fifth!"

Concluded from page 1.  
Township; and No. 2 and 5 of Novesta Township, Tuscola County, Michigan; and No. 4 and 6 of Grant Township, Huron County, Michigan.  
Final confirmation will follow an election to be held according to law.

We are omitting school district number 3 Novesta Township from the recommended list. This action is taken for several reasons, including the fact that a counter-petition, adverse to the proposal, signed by some fifty school electors has been filed.

Yours sincerely,

The model, which is called the Moskvitch, has been coming off the production line for more than a year, but has been sold only to Stalin prize winners, Soviet scientists and other persons favored by the state.
