

Many Attended 50th Anniversary Of Deford Church

By Deford correspondent
E. Ray Willson, D. D., superintendent of Port Huron District, preached at the morning service August 29 to a large gathering of people who had assembled in honor of the fiftieth anniversary of the building of the Deford Methodist Church. A potluck fellowship dinner was served at noon, followed by an afternoon meeting.

Dr. Willson gave an informal talk regarding the occasion, several responded to an invitation for reminiscence. Rev. Walter Mollan read a sketch of the history of the church and several communications were read expressing regret that the writers were unable to attend. They were from Rev. Chas. A. Lohnes of Cadillac, pastor here in 1900; Rev. Arthur C. Thompson of Wyandotte, pastor here in 1919; Rev. Clifton W. Scott of East Tawas, pastor here from 1924 to 1929; Rev. Walter S. Hubbard of Lansing, pastor from 1922 to 1924; and from the former Leah Pratt, daughter of Mr. and Mrs. William Pratt.

About twenty were present that attended the dedication fifty years ago.

The evening service was in charge of Mr. and Mrs. Stanley Bauman of Elkton.

Rev. and Mrs. Estel Stubbs of Keego Harbor were present. Estel is the son of Rev. Thomas Stubbs, who was pastor here about 1914.

During the day many former residents or their descendants were present coming from Detroit, Royal Oak, Pontiac, Dryden, Saline, Lapeer, Caro, Cass City, Kingston, Saginaw, Bay Port, Marlette, Marysville and Akron.

Church History
The following church history was read:

The year 1948 completes a period of a half century since the building of the Deford Methodist Church in 1898. To a great many people it has become a sacred place. Within its walls they have brought their dead, to have administered to them the last sad rites before laying them away from sight forever; many have brought their children for baptismal rites; several have taken their marriage vows before its altar; and a great number have been led to accept Christ as their personal Savior by its ministrations.

Looking forward 50 years seems a long period of time. Looking backward across the years, each succeeding year has come and gone so silently and quickly, that we scarcely realize their passing. But 50 years have wrought a great change. Those men and those women, who were the foundation of the church, are no longer with us. The seats they occupied, are now occupied by another generation to whom the very names are as remote as the names of strangers. The country side too, shows this change. Each section of land is now divided into fine farms, and each surrounded by an improved road system. The real foundation carries backward 80 years to 1868, when this territory was heavily

Couple Honored on Fiftieth Anniversary

A pleasant day was enjoyed by Mr. and Mrs. Jacob Vatter on Sunday, August 22, when about 200 friends and relatives came to congratulate them, in honor of their fiftieth wedding anniversary. The immediate members of the family were present for dinner at twelve o'clock.

A sister of Mrs. Vatter, Mrs. Sarah Smith, of Port Huron, who was Mrs. Vatter's bridesmaid, was present for the occasion; also Mrs. Lillie Reinelt, sister of Mr. Vatter, James Palmer and George Palmer, brothers of Mrs. Vatter, and a stepbrother, Arthur McQueen, of Flint. Several others present also attended the wedding 50 years ago.

Mr. and Mrs. Vatter have lived in the Argyle community most of their lifetime, having conducted a hotel in Argyle many years, and have lived at their farm home for the past 40 years. Both are enjoying reasonably good health. They were the recipients of many lovely gifts, including a purse of money.

They have two children, Mrs. Robert Coleman of Deckerville and Guy Vatter of Argyle.

Guests were present in the afternoon from Pontiac, Flint, Port Huron, Detroit and surrounding communities.

Pictures were taken and the afternoon was spent in visiting and reminiscing. When the guests departed they wished the couple many more happy anniversaries.

Ice cream and cake were served in the afternoon.

Open House at the John Y. Brown Home

Mr. and Mrs. John Y. Brown, who reside 7 1/2 miles east and 2 1/2 miles north of Cass City, in Greenleaf Township, will celebrate their 50th wedding anniversary on Sunday, September 5. A dinner at noon is planned for Mr. and Mrs. Brown, their children, grandchildren and great grandchildren.

Open house will be observed for other relatives and friends to call between two and five o'clock that afternoon.

Coming Auctions

D. E. Turner will have a sale of household goods at his home at 4192 South Seeger St., Cass City, on Saturday, September 11. The auction ad will appear in next week's Chronicle.

Decker and Baldy's Sunoco Played for Championship

Wednesday night, Baldy's Sunoco defeated Decker 7-2 in the second last game of the Cass City Softball Association's schedule. Both of these teams had lost but one game each in the series and were scheduled to decide the championship of the league last night (Thursday). A record crowd saw Wednesday's game.

The game Tuesday night between the Baldy Sunoco group and the Merchants team resulted in a 14-6 victory for the former.

Monday's game between Western Auto and Baldy's Sunoco was a thriller at the end. With the Westerners leading by a 6-7 count, it looked in the last period as though they had the game in the bag with two men out. Anxious to catch a pop fly, two outfielders collided and the fly popped out of a fielder's mit in the come-together. The Sunocos ran in two men and won the game 8-7.

That same evening, Decker led Beulah all the way and was the winner.

The second game of Wednesday night between the Merchant and Hartwick teams was called because of rain at the end of the fifth inning with the Hartwick group leading 6-8. On the previous Saturday night when two women's league teams were playing, rain caused the bursting of seven bulbs of 1,500 watts each. Replacing these dropped the evening's income to a dangerous level.

The last of the scheduled games of the women's league was played Tuesday evening between the McConkey and Parsch teams with the former group winning by a margin of three scores.

The baseball league sponsored by Ford dealers will decide the championship under the lights at Caro tonight (Friday) when Cass City plays Caro.

Gagetown 4-H Lad Takes Champ to Fair

Don Simmons, 11-year-old son of Mr. and Mrs. Elmer Simmons, carried home two blue ribbons and champion on his eight-months-old Red Dane heifer, he exhibited at the Caro Fair.

Don also went out for showmanship and won second place from a group of thirty. For this he will receive a silver medal.

This is Don's first year in 4-H work and Gagetown surely should be proud of him.

The Gagetown Club is under the leadership of Mrs. Leota Ashmore.

John H. Zinnecker

My candidacy for sheriff of Tuscola County was announced April 30, 1948. I was the first candidate in the county to announce my intention to run for any county office. I have served as a deputy under four sheriffs in this county. I am confident that I can give the people of Tuscola County an efficient administration as sheriff and will appreciate your support in the September 14 primary election.

Nearly 150 Boys And Girls Were in Swimming Races

Nearly 150 boys and girls of the county participated in the swimming races which marked the close of the Summers Water Safety program conducted by the Tuscola Chapter of the Red Cross. A grand total of 375 young folks have been enrolled in the various classes during the summer.

All contestants exhibited marked improvement in swimming ability since the beginning of the program last July 5. The young people and their many friends and relatives who witnessed the events also displayed a real appreciation of the value of good sportsmanship.

Attractive ribbons were awarded to the winners in the various events as follows:

Bean Harvest Plans Should Be Made Now

The 1948 field bean crop has been going through trying conditions throughout the growing season but the answer whether the harvest will be good, fair or poor will come soon.

H. R. Pettigrove, field bean specialist at Michigan State College, advises farmers to make their choice of harvesting method now.

He points out that the field stacking method is perhaps the surer way, but many growers feel it is a rather hard and tedious job. Some prefer to combine from a windrow and others bring beans to the barn for threshing.

Well-built bean stacks provide effective insurance against weather damage, and threshing can be done when convenient.

Beans that are windrowed with some green leaves usually require at least three or more days of curing before threshing. This means taking chances with the weather during that period. Beans that become wet in the windrow and more culling is necessary. Harvesting and stacking can be done at the same time, with the

Shows Two Grand Champions at Midland

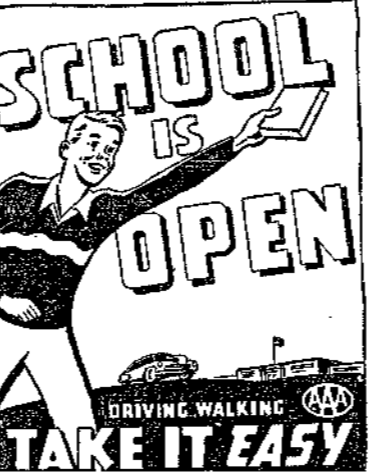

Dr. H. T. Donahue, who exhibited some of his Holstein cattle at the Midland Fair, was awarded a trophy valued at \$100.00 in recognition for showing the grand champion cow and the grand champion bull in the open class. Other prizes awarded the Donahue Holsteins were 1st on senior heifer calf, 1st on senior bull calf, and 2nd on senior bull.

At Caro Fair the prizes included 2nd on three-year-old cow, 3rd on senior bull, and 4th on senior calf.

W. S. C. Opens Year With Program on Tuesday, Sept. 14

"Have you voted?" is the question which appears first on the program of the Woman's Study Club for primary election day on Sept. 14. This session opens the activities of the club year of 1948-49 and will be held at the home of Mrs. A. J. Knapp, the club's president when the club was organized in 1908, just 40 years ago. Meetings are held on alternate Tuesdays, September through May.

Mrs. M. C. McLellan will give the president's address at the Sept. 14 gathering. Mrs. C. L. Graham will announce the outline of the year's work and introductory remarks will be given by Mrs. Grant Patterson, chairman of legislation. Greetings will be extended by Mrs. Simpson from the County Federation and by Mrs. A. R. Schlichter from the East Central District. Mrs. Ethel McCoy will give two musical numbers. A social hour and tea is in charge of the program committee.

A back-to-school reminder to drivers and pedestrians alike to "Take It Easy" is being issued by Automobile Club of Michigan in the form of the above poster. It and others are being distributed as part of a series to Michigan police chiefs and parochial and public elementary schools. The series will attempt to prevent the traffic death of any Michigan school child crossing the streets during the 1948 opening school days. After rising a third in 1946, traffic deaths of children between ages of 5 to 14 have decreased by 12 percent in 1947 in the face of greater traffic volumes. Auto Club encourages school safety patrols, teachers, and police forces to unite in reducing accidents every year. A diligent safety patrol boy in each city is annually given a four-day all-expense trip to Washington, D. C., for the AAA safety patrol convention.

Rotarians Learn Of Tilt-up Method in Construction Work

Rotarians learned about the tilt-up methods of constructing cement buildings when C. J. Kirchgessner of Lansing, structural field engineer of the Portland Cement Association, showed a sound movie picture demonstrating this new building process. Walls are poured in a horizontal position and then elevated onto the foundation to a vertical position by the tilt-up process. The picture was shown at the club's luncheon Tuesday when A. T. Barnes was program chairman.

Club President M. R. Vender conducted a memorial service for George Ashton Tindale, club member who passed away Aug. 18. An original poem was read in memory of Mr. Tindale and then club members stood for a few minutes in silence while Mrs. Maurice Joos, pianist, played an appropriate number.

Alger Freiburger is program chairman for September.

Sixty Attended Reception Honoring The Lorne Evans

From Elmwood correspondent

Mr. and Mrs. Harold Evans were hosts to about 60 people at a reception on Sunday afternoon in honor of Mr. and Mrs. Lorne Evans, who were married Aug. 21 at a quiet ceremony. Their attendants were Miss Ruby Niketish and Richard Putnam, both of Detroit.

The bride is a daughter of Mr. and Mrs. Lloyd Putnam of Caro, a graduate of the Caro High School in the class of 1946, and has been employed in Detroit. The groom is a son of Mr. and Mrs. Harold Evans of Gagetown, was graduated from the Cass City High School with the class of 1944, and is employed at the Oak Park Screw Products in Oak Park. The young couple will be at home to their friends at 224 Pinecrest St., Farmdale 20, Mich.

School Opens With Half Day Session Next Wednesday

Cass City Public School will open Wednesday morning, September 8, at 8:40. Buses will follow approximately the same routes for the opening day as at the end of the last school year. The first day's session will be limited to the morning.

High school students who enrolled last spring will find their program slips waiting for them in their home rooms. In some cases, changes in elections will be necessary because of conflicts or alterations in the schedule of classes.

New students, chiefly ninth graders, will be enrolled by their home room teachers. Assignment to classes will be made by teachers during the afternoon and program slips ready for distribution to new students Thursday morning.

With enrollment completed and locker assignments secured, students will be free to return home. It is suggested that all books and supplies be secured before Thursday morning when full day sessions begin. The buses will make the return trip Wednesday at about eleven o'clock.

The afternoon kindergarten class will meet as usual next Wednesday.

A. F. Englehart Died Sunday Morning

Ill for a year, Arthur Floyd Englehart, 61, died early Sunday in his home in Novesta Township. A prayer service was held at 1:30 p. m. Wednesday in the Douglas Funeral Home and funeral services were conducted by Rev. Fred Belleville of the Church of the Nazarene and Rev. Herbert Watkins of the Church of Christ. Burial was made in Novesta cemetery.

He was the son of the late Mr. and Mrs. John Englehart and was born in Novesta Township, Sept. 23, 1886. He was married in 1913 to Lillie Hill who survives. To Mr. and Mrs. Englehart were born nine children, two of whom died in infancy and a son, Ralph, who was killed in Germany in World War II. The surviving children are: Frank of Cass City, Mrs. Lester Kilbourn (Irene) of Gagetown, Mrs. Chas. Layman (Helen) of Holly, Albert of Cass City, Lawrence of Deford and Gordon with the army in New Mexico. He also leaves one brother, Wm. Englehart, of Deford and a sister, Mrs. Ethel McPhillips, of Lapeer. A brother, Frank, died three years ago in California.

Tuscola 4-H Club Members to Exhibit At the State Fair

The following entries have been made in the Junior Department of the Michigan State Fair by members of Tuscola County 4-H Clubs: Hereford Steers — Dorothy Loomis, Don Loomis.

Shorthorn Steers—Keith Little, Jim Turner.

Angus Steers—Alex Murray, Alfred Murray, Bill Zinnecker.

All of the above listed youths are members of the Cass City 4-H Livestock Club. Willis Campbell, local leader of the club, will accompany the exhibit with the members.

Allen Rohlf, a member of the Fairgrove-Graham 4-H Club, will exhibit Holstein cattle in the junior division.

The following 4-H club members will exhibit Oxford wool fleeces in the open class of the show: Keith Green, Caro; Sandra Opperman, Vassar; Janis Black, Akron; Freddie Black, Akron; Richard Blackmore, Millington; Patricia Sheridan, Fairgrove; Sara Jane Sheridan, Fairgrove; Don Pike, Fairgrove.

Rural School Music Program in Sanilac County

Miss Marie Adler of the music extension department, Michigan State College, will be in Sanilac County September 14-17 to resume the rural school music program which has been in operation in the county during the last two school years. Miss Adler comes into the county every six weeks. During these visits, four afternoon group meetings are held at which she instructs the teachers in vocal music, rhythmic games, and folk dances to be taught their pupils. The mornings are spent visiting the schools and teaching demonstration classes. This is a very worthwhile service which is offered to the county free of charge by Michigan State College. The program is sponsored by the County Board of Education, and all teachers are expected to participate.

The schedule of meetings will be as follows:

Tuesday, Sept. 14, 1:30 p. m., Snover and Wickwa groups at the Starr School.

Wednesday, September 15, 1:30 p. m., Baker and Hunt groups at the Maple Grove School.

Thursday, September 16, 1:30 p. m., Applegate and Gray groups at the Kemp School.

Friday, September 17, 1:30 p. m., West Speaker and Bolsby groups at the McClure School.

When to Use Eggs
When meat can be served generously in meals it can provide adequate amino acids for growth. But when little meat is used, the protein may not be adequate in all amino acids, and it is a wise precaution to call on eggs as a supplement.

Beginning of "Junket"
Name "junket" had its origin in the olden days in England, when men would go on pleasure trips to London at the expense of the public. These trips were called "junkets", and a great delicacy known as junket, or curds and whey, was always eaten.

Hogs Will Clean Up The Corn Fields

Hogging down corn is an economical and labor saving method of fattening pigs, reports W. N. McMillen, animal husbandry specialist at Michigan State College.

Pigs usually make more efficient use of corn in the field than if the same corn were husked and fed. Success of hogging down corn depends upon the weight of the pigs used, season, character of the soil, and other factors. Well grown pigs in average flesh, weighing about 100 to 125 pounds appear to be best adapted to hogging down corn. Fleishy pigs should never be turned into the corn field.

Reasonably dry weather is best. Rain and muddy fields cause a loss of grain and possibly pneumonia, McMillen points out.

Pigs should be accustomed to the corn field condition by turning them into a small patch first. A considerable saving of feed is generally effected then by turning them into portions of the field that they will clean up in 10 to 14 days. Pigs should not be forced to clean up the corn field too closely. Brood sows or stock pigs can clean up any grain left by the fattening pigs.

Pigs on a full feed of corn need some protein supplement. This need may be reduced if pigs are given access to a green pasture while they are in the corn.

Full feeding the hogs in dry-lot for a week or two after removing them from the corn field is advisable. Very economical gains are generally made when a good ration is fed for a short time.

Hogging down of small grain, McMillen states, is regarded as unsatisfactory unless it is a matter of salvaging a hail or wind-damaged crop or when grain is very cheap.

Silo Should Be Made Ready for Filling

A little time taken to put the silo in good condition will result in better keeping of the silage according to agricultural engineers at Michigan State College.

The silo should first be cleaned by scraping off any old silage that may be adhering to the walls. All litter at the bottom of the silo should be taken out.

Air leaks in walls may cause silage to spoil. Walls should be carefully examined and small cracks filled. Melted paraffin applied with a paint brush is good for this purpose. Since paraffin is inflammable when hot, care should be taken when using it. It should be brushed into cracks or joints while it is still warm.

Many Improvements For Saginaw Fair

The 1948 Saginaw Fair, scheduled for Sept. 12-18, will be the largest in its history.

In no single year have there been so many improvements made in the grounds and buildings.

The facilities of the grounds and buildings have been expanded to provide more exhibit space and to handle larger crowds expected for the 1948 exposition.

Over \$70,000.00 has been spent for improvements to allow the Saginaw Fair to take its place among the state fairs of the nation.

Where in 1947, two large buildings were devoted to commercial exhibits, 1948 will see four buildings filled to capacity with building supplies, home appliances and furnishings, and hundreds of other exhibits.

This increase has been made possible by erection of a new building 200 x 45 feet and by removal of women's and children's exhibits to the former 4-H Building and opening the building formerly housing these exhibits to merchants.

At the state fair in Detroit, the six entries of Leghorns made by the Landon Poultry Farm of Cass City were placed among the prize winners, taking three first, one third and two fourth premiums.

When the school bell rang Tuesday morning, it called to studies about 160 pupils in the high school and from 21 to 45 to each of the under grades. Supt. Holmes states that although he expects more pupils to come in before next week, he feels that the present enrollment is exceedingly good considering the fact that about 15 more students graduated last year than have previously.

Wool Exhibit to Be Fair Feature

A large exhibit of wool for the state wool show at the Michigan State Fair is predicted by Graydon Blank, extension animal husbandry specialist at Michigan State College. He estimates that nearly 100 fleeces will be shown.

Classes are offered for ewe and ram fleeces of each of the purebred breeds, and also classes for each of the six market grades of wool. Special prizes are offered for a county exhibit made up of eight fleeces from at least four different flocks from a county.

Blank reports that top fleeces from the Michigan show will be selected for the International Wool Show at Chicago.

An educational exhibit of wool and woollen materials is also planned.

Where Cow Is Sacred
Although the cow is sacred in India, milk consumption in that country is extremely low.

Iron Horse Passing Out

End of current steam locomotive production came to the American Locomotive company plant at Schenectady for the first time in a century as an accelerated diesel-electric locomotive program entered a new phase. As the last steam locomotive left the 113-acre plant under its own power for Cleveland, a huge 1500 hp road freight diesel-electric for the Central Railway of Brazil was being completed in another part of the locomotive factory. This is the first post-war road locomotive built for export.

ALICE LOUISE SPENCER
TO BE WED SEPT. 18

Mr. and Mrs. Alvah A. Spencer of Auburn Heights announce the engagement of their daughter, Alice Louise, to Earl E. Myers. He is the son of Mr. and Mrs. Earl Myers of Collier Court.

The couple's wedding is scheduled for September 18.

Miss Spencer is a granddaughter of Mr. and Mrs. George Spencer of Deford. She resided at Deford until four years ago where she attended the village school. She was graduated from the Auburn Heights High School last June.

Before the establishment of standard time on November 18, 1883, American railroads were using about 100 different standards of time.

Barn-Dried Hay and wilted grass silage at ordinary levels of roughage feeding usually provide enough vitamin D to prevent rickets in calves, but artificially dried hay may not provide enough.

Protein for Industrial Workers According to a New York state nutrition survey, most men industrial workers have all the protein they need daily, while less than half of the women do.

Source of Barn Fires Damp hay is one of the principle causes of barn fires. Therefore, be sure that the hay is well cured. Check regularly for several weeks for any signs of heating.

Politicians Eye Vast Increase in Women Voters

WASHINGTON.—For the second time in American history more women than men are eligible to vote. Up to 1940 the men had the edge. In 1944 the population figures switched the advantage to the disaff side. There were some guesses that it might be the war, with the men away, but that guess now appears incorrect.

Both parties figure there are about a million and a half more eligible women voters than men. Both major parties are preparing an emphatic wooing of the petticoat ballot.

Each has gotten out a sort of primer for the newcomers. The Democrats call theirs the "Guide Book." It gets down to such fundamentals as "What Is a Precinct?" and how to work in one.

The Republicans call their booklet "Selecting and Electing." It concentrates on how to become a delegate to the national convention and how to help run things there.

Both books would be good for either men or women hopefuls in the political wings.

Women Are Determined

Women in both parties are determined to put more women into political office for two reasons: (1) They like to see women in office, but also (2) they hope that the party which is most generous to women office seekers will also corral the largest part of the women's vote. Women's first loyalty appears to be to the party and then to their sex.

Women office holders reached a peak in state legislatures in 1945-'46, when there were 234 women in office. They have slipped now. There are 23 less.

That slip worries the women chiefs of both parties—Mrs. India Edwards of the Democrats and Mrs. Robert W. Macaulay of the Republicans.

The political plums on which the women concentrate are seats in congress. Right now there are seven women in the house, none in the senate.

Plenty of Contenders

But there are plenty of contenders on the road. The Republican women, through the mails, have heard of 18 women all told fighting for seats in the house.

The Democrats have further information about possible contenders which may bring the women seeking congressional posts to between 20 and 25.

Frances Perkins still stands alone in the political history of American women. She has been the sole woman cabinet member, as secretary of labor to President Roosevelt.

Soft-Hearted Bartender Sponsors Children's Hour

HOBOKEN, N. J.—Now it's a saloon with a children's hour.

The place is run by one Parky Radigan, who has a soft spot in his heart for the neighborhood kids.

He hates to see those children's television programs going to waste in his place.

"These kids," he says, "don't get to see television. They're too young to drink."

The idea occurred to him when he turned the lights up one day after a baseball television broadcast. The dark corners were filled with youngsters, who had sneaked in to watch.

So Parky perused the television schedules and picked out some children's shows.

The customers may have been startled at first but they made no protest when—as the children's program started—Parky closed the bar and called in the kids playing in the street out front.

The kids loved it. For the older boys, Parky plans an afternoon a week of baseball. Dry, of course.

Rugged Jeep's Best Selling Point Today Is—Comfort

TOLEDO, O.—The jeep, that great taskmaster of the last war, has gone "soft."

Once reputed to be the world's roughest riding vehicle, the jeep has caught on with America's farmers largely because they say it is the most comfortable vehicle in which to do farm chores.

Willis Overland motors analysts report that more than 50,000 of the sturdy little cars have wound up on farms since V-J day. Oddly enough, the farmers say the jeep's outstanding characteristic is—comfort. Some farmers even have installed radios. Then mom and the kids ride along while pop does what used to be lonely field chores.

Actress Stabs Self in Trying To Avoid Traffic Ticket

HOLLYWOOD.—Evelyn Bertucci, 28, an actress, stabbed herself in an effort to avoid getting a traffic ticket.

"If you give me a ticket, I'll kill myself," she warned F. R. Couch, motorcycle officer, who signaled her to the curb after she allegedly drove through a red signal.

Couch opened his book of tickets. Mrs. Bertucci, known in the movies as Evelyn Smith, pulled out a seven-inch-long Chinese ceremonial knife from the glove compartment and plunged the blade into her hip.

She was treated at Hollywood Receiving hospital, then taken home.

SANILAC COUNTY CLERK'S NEWS NOTES

Again the sympathy of the court house family goes out to the family of Ben Isles, one of our deputy sheriffs. Ben, as we knew him, will be missed. He was a son of a pioneer settler who helped make our country what it is. May the bereaved widow and family find their hope and comfort in Him who doeth all things well.

The primary ballots are in the hands of your several township clerks. There is just one ballot, printed one side Republican, other side Democrat. Plan now to make your choice of candidates September 14. This ballot is something new. Come and see. Our democracy may rise, or fall depending on you, Mr. and Mrs. Voter.

Under a new law there will be no non-partisan ballot at the primary as only two candidates qualified. Your choice at the general election for same.

Our judge, Hon. Z. Boomhower, is slowly improving at this writing.

Calendar for the September term is being printed at this writing. Court opens September 7, Hon. Judge Shirley Stewart, Port Huron, presiding. Over 50 cases on the docket with chancery divorce taking the lead.

In 1946 ten men were sentenced to Jackson Prison. In 1947 12, but happy to report 1948 to date only 2. May we hold this record.

BEAN HARVEST PLANS SHOULD BE MADE NOW

Concluded from page 1. beans immediately placed in condition to withstand unfavorable weather.

Prepare early after you decide the method to use, Pettigrove says. If you plan to stack your beans in the field, be sure to get your posts and equipment ready. If you are going to combine from the windrows, be certain your combine is ready and available when you need it.

Late planting and dry conditions may cause the bean crop in some areas to be very late. Pulling and stacking bean plants before frost will result in a nice white bean, even though the plant may be green when pulled. If the beans are fully developed there will be no shrinking of the crop.

Betratron for Cancer

World's first installation of a betatron for cancer treatment and research will be made at the University of Illinois college of medicine in Chicago. The betatron was invented in 1940 by Prof. Donald Kerst of the university's physics department at Urbana-Champaign, who immediately pointed out its cancer fighting possibilities. Research in this direction was delayed during the war while attention was centered on using the betatron for industrial x-ray work.

See Future Husbands
English girls once believed that on the night of January 20, they would see their future husband in a dream. World Book encyclopedia relates that they would induce such nocturnal visitations by fasting all day, and then eating a heavily salted egg before retiring.

Stainless Steel
Stainless steel resists corrosion because of the chromium it contains, thereby lending itself to hundreds of new uses. Louis Nicolas Vauquelin discovered and first described this alloy about 150 years ago. He was an apothecary's apprentice.

In Early Days of Picture-Taking

Sixty years ago, in June, 1888, George Eastman introduced the No. 1 Kodak. The new camera was an oblong black box that took small round pictures two and one-half inches in diameter. It was sold ready-loaded for 100 exposures.

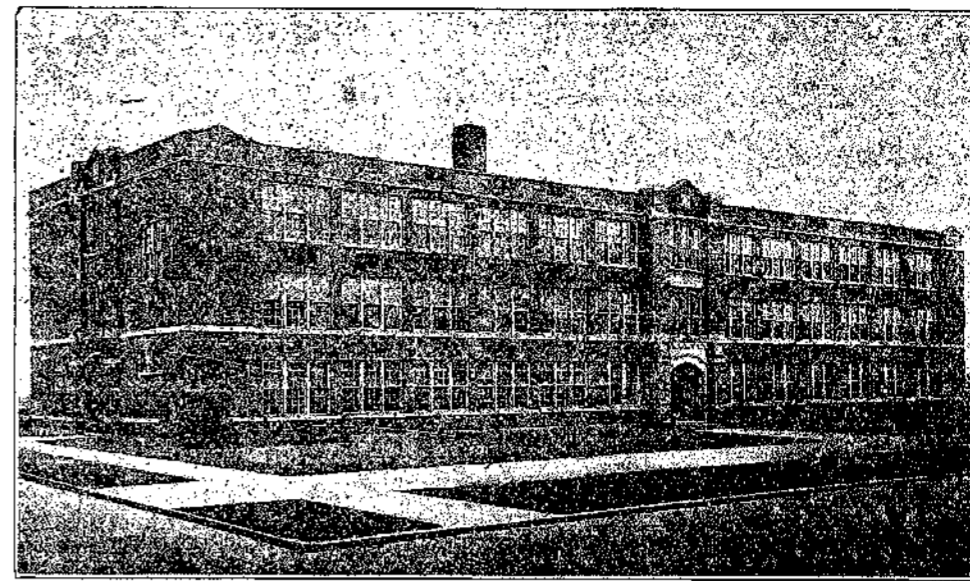

The price for camera and film was \$25. When the hundredth picture was taken, the camera was sent back to the factory at Rochester.

Here the film was taken out, developed, and, if the sun was shining, prints were made.

BRUCE W. BERGY, 10, of Alto, is pictured with flock of White Rock fryers which won for him Kent County 4-H Club Chicken-of-Tomorrow contest, first Michigan youth version of the recent national competition to develop fowl with improved eating quality. Bruce's 252 cockerels averaged 4.39 pounds, live weight, at 14 weeks. His production costs, including rent and depreciation charges, were 24.66 cents a pound; his profit, or labor return, \$172. The 21 young contestants marketed 3,604 fryers, which were dressed at the Farm Bureau Cooperative in Hamilton and sold by A & P Food Stores, sponsor of the national Chicken-of-Tomorrow Contest. Second place was won by Tom Cornell, Alto, and third by Jim Marvin, Grand Rapids.

THE DETROIT EDISON COMPANY

Michigan Mirror

By Gene Alleman

Gladstone—The man who made the "better mousetrap" 50 years ago this September, was Webster L. Marble.

The founder of the Marble Arms and Manufacturing Company, Gladstone's leading industry, proved the old adage still holds good. A world of sportsmen beat a path, through purchase of his quality hunting and fishing equipment, to this Upper Peninsula small town.

The story of Marble is the story of American opportunity.

It is another Michigan Alger-to-riches chapter in the annals of frontier enterprise.

Lansing Marble, a timber cruiser, took up a homestead near Frankfort on the lower shore of Lake Michigan. Here his son, Webster, at the age of 14, started to follow the woods as a career.

"I took to the woods like a duck to the water," he once related. "The greatest enjoyment of my life has come in the woods. As a young fellow, I got my greatest thrill out of starting out with a map and a compass to explore new territory, to carry very little equipment, and stop wherever night overtook me."

"I was gratified to feel that I was remote from everything civilized and exploring new regions."

His ventures into Michigan forests prompted him to design a metal guard to fit over a small pocket axe. This replaced the unwieldy axe which hung at his belt.

Other hunters, fishermen and trappers liked it.

"Make me one just like it" was the familiar plea.

So Webster installed a little workshop at the rear of his home in Gladstone. That was in 1898. In the first year he manufactured 3,000 safety pocket axes.

Knives came next. And then

followed other improved items: Waterproof match box, compasses, special trout knife, clincher gaff for landing fish, gun sights, gun cleaners and rods, and nitro solvent oil.

The idea for the waterproof match box came to Marble while he was traveling on a train north from Grand Rapids. The new product clicked instantly. During World War I, for example, the English government ordered 12,000 for use of soldiers in the trenches.

Another hard to believe fact: Ninety percent of Marble-made knives are bought by sportsmen who have no practical need for them. They want a knife as an ornament to display, or perhaps for the pleasure of merely possessing it. This observation was made by Marble himself. Hence the popularity of stag handles.

Today the business is run efficiently by James T. Jones, general manager since 1912. "Jim" joined the firm in 1905 as an accountant. William L. Marble, eldest son of the founder, is the president of the firm. Jones is president of a subsidiary corporation, Marble-Card Electric Company, which manufactures electric motors. The two plants at Gladstone employ approximately 100 persons, mostly men.

Webster L. Marble preferred his hunting camp at Round Lake, about 23 miles north and east of Gladstone, to the ease and comforts of city living.

It was in September, 1930, when he went to camp for the last time.

His friends say he would have wanted it that way. He died in the woods.

The story of Webster L. Marble is a mirror of American enterprise in the Upper Peninsula of Michigan 50 years ago this September.

Gladstone, adjacent to Escanaba on Little Bay de Noc of Lake Michigan, has an outstanding recreational program for a town of its size.

The city's choice land along the lake front has been converted into a public park, eight blocks long, with a small harbor for boats, beach-house, trailer park with laundry building and children's swings, playground merry-go-round, and slides.

The Gladstone playground is illuminated for night baseball. A recreation building, 40 x 60, is used in winter months as a warming house for ice skating and hockey and in summer months as a clubhouse. Fishing is excellent in the Little Bay de Noc: Northern pike, walleyes, perch and black bass.

Somehow, Gladstone's emphasis upon recreation exemplifies the spirit of Webster L. Marble. Like the man who made the town famous, Gladstone is making a business out of play.

DEFORD

Mr. and Mrs. Clarence Smith of Deford announce the marriage of their daughter, Dorothy, to Sylvester Banowski, son of Mr. and Mrs. John Banowski, of Kingston. They were married in Detroit.

Mrs. Verne Green and two daughters of Drayton Plains spent Sunday with Mrs. Green's parents, Mr. and Mrs. John Clark.

Mr. and Mrs. Wesley McCain of Pontiac were visitors of Mr. and Mrs. George Spencer and attended the church service on Sunday.

Mrs. Elizabeth Beavers, sister of Mrs. John Field, who has been visiting relatives in Michigan for the past three months, left on Wednesday to return to her home at Richmond, California.

Mr. and Mrs. John Field entertained during the past week their daughter and children, Mrs. L. M. McCarthy of Pontiac. Mary Ellen Field went home with her to stay for a few days. They also had as guests Mr. and Mrs. Ray Kendall and children of Atlas.

The "old grad" and the oil filter

It's "School Days" Again for Standard Oil Dealers
... to give your car better service

When your Standard Oil Dealer returns to his station a graduate from one of our training schools, the feel of different car parts has new meaning for him. He feels the oil filter, for example, and its temperature tells him whether service is needed. With improved know-how he supplies "Personalized Service," which for your car means the individual attention it needs, and for you the personal service you enjoy.

Thousands of Standard Oil Dealers have completed this advanced training; 250 others take the course every two weeks at our 80 schools. When they put into practice what they have learned in school, they receive the Service Specialist award you see in many Standard Oil Dealer stations.

More miles from your gas . . .
IF YOU DO THIS NOW:

Keep your speed moderate and save gas. Shift into high as soon as possible—don't let engine idle unnecessarily—avoid fast starts, sudden traffic light stops. Call on your Standard Oil Dealer—his training helps you save gas. Standard Oil Company.

Labor Day of 1947 was no happy holiday for 18 Michigan motorists who were killed in auto crashes and thousands who were injured or inconvenienced in non-fatal accidents. Pointing to last year's traffic toll over the long week end, Automobile Club of Michigan urged all motorists to "Take It Easy" this year. Traffic over this holiday will be unusually heavy—probably the greatest concentration of the

year—because thousands will be stretching extra time out of the last long week end of warm weather and because many will be returning from resort areas. Auto Club urges Labor Day motorists to start for home early, drive more slowly and closely observe yellow road markings. August led all months for persons killed on Michigan's highways last year, with 149 traffic deaths out of a total of 1,444 for the year.

The last of the 13 colonies to ratify the Federal Constitution was Rhode Island, which did so on May 29, 1790.

Wheat Yield Boosted Through Fertilization

Gains in Indiana Tests Exceed Seven Bushels

Fertilizing wheat paid dividends in crop increases averaging seven to nine and one-half bushels per acre, Purdue university research men revealed in announcing results of 1947 studies conducted in 15 Indiana counties.

Wheat yields increased seven bushels per acre when fertilizer applications averaged from 150 to 200 pounds per acre. When the plant food treatment was boosted to 300 to 400 pounds per acre, average production gains of nine and one-half bushels were obtained.

Demonstrations with wheat started on various soil types last fall showed somewhat similar results, according to the Purdue research men. When 165 pounds of O-12-12 was applied on six southern Indiana upland soils, increases of five bushels per acre resulted. When the application was doubled, yield increases averaged seven bushels per acre.

"Applications of 300 to 350 pounds of 3-12-12 are being recommended for wheat on practically all upland silt or clay loam soils and for sandy loams," says a statement by the Purdue agronomy department. "If the 3-12-12 cannot be obtained, then 3-12-6 is a good substitute for the wheat crop itself. The additional potash in the 3-12-12, however, is especially important for the clover and corn crops following the small grain."

Machinery Is Revamping Farming in Cotton Belt

Nearly a million tractors today are in action on farms in the 16 cotton-producing states, saving time and labor in nearly every phase of cotton production. The invasion of machinery into the South's white cotton fields is eliminating the back-breaking task of producing the cotton crop.

Man's mechanical helpers achieve in a few hours what formerly took days of costly human labor. For example, the flame cultivator, attached to a tractor, removes grass and weeds from the field at one-tenth the former cost.

An experiment in the coastal plains area of North Carolina showed that while 118 man hours are required to produce an acre of cotton by the old man-mule method, use of two-row tractor equipment, mechanical choppers, flame cultivators and machine pickers cuts the man-hour requirements to 19.7 per acre.

Internal Parasites Loot Farmers of Huge Toll

Few criminals ever dream of committing a 125 million dollar robbery. But that's the amount in internal parasites steal from the U. S. livestock industry every year. Because the parasites are hidden, the farmer never will see the thieves at work. However, they keep right on causing losses day and night.

Parasites cause diseased animals and poultry to eat more grain and other feeds than healthy stock eat. They stunt the growth of young animals and sometimes kill them. Affected animals generally bring lower prices when shipped to market.

Internal parasites can be controlled. Phenothiazine, carbon tetrachloride, hexachlorethane, sodium fluoride and carbon disulfide are used to fight certain types of parasites. The advice of a local veterinarian should be secured to determine the proper method of treatment.

Spoilage of Stored Grain Hinges on Bin's Condition

Grain can be stored almost indefinitely with little deterioration in farm-type bins—those that hold 1,000 to 3,000 bushels—if the bins are kept dry, cool, clean and free of insects, according to the USDA. For control of insect infestation, chief reliance must be placed on fumigation. Shelled corn has been stored for several years with a loss of less than 1 per cent, according to official reports.

CROSWELL — Fire believed caused by faulty wiring destroyed the Michigan Milk Producers' Crosswell milk station and an adjoining building, Arcadia Hall. Fire Chief Frank Hunt said the fire started in the boiler room of the milk plant, set the fuel oil system ablaze spreading flames to the Arcadia Hall.

SANDUSKY—The mobile X-ray unit of the Michigan Department of Health which was at the Sanilac County 4-H Fair x-rayed 1,421 people. Results of the x-rays will be mailed to the individuals in about two or three weeks.

Gov. Kim Sigler congratulated the people of Tuscola County Thursday for having such a fine fair. Gov. Sigler participated in the auction sale of year-old calf scramble of 1947 steers. He acted as auctioneer and sold to James Kirk, Tuscola representative in the legislature, the steer which Damon Brink of Unionville had fattened. The 1,280 pound animal brought 41 1/2 cents a pound, or \$534.40.

The steer fattened by Fred Black, Akron, brought the highest price per pound, 49 cents and grossed \$551.25. Otto Montel, Caro, bought this animal.

The 14 head were sold for a total of \$5,728.58. The average price a pound was 39 cents and the gross weight was 14,350 pounds. The boys who fattened the animals caught them in the scramble at the 1947 fair. They keep all the proceeds from the sale except the amount invested by the sponsors.

MANY ATTENDED 50th ANNIVERSARY OF DEFORD CHURCH

Concluded from page 1.

Covered by timber, including pine. About that year lumber companies began harvesting the pine, and built lumbering roads, keeping to the ridges and higher lands. The lower spots were crossed by a crossway, that is logs were laid side-by-side and covered with earth. By means of these winding roads, (some of which remain to this day,) settlers came to build homes for themselves, with a forward look toward providing educational and religious privileges.

The register of deeds office gives us the following information: March 13, 1876, Robert Curtis to School District No. 4, Novesta Township; Commencing N. W. Corner, Section 33, Novesta Township, South 10 rods, East 12 rods, North 10 rods, West 12 rods to beginning. This is a lease drawn up of 50 years. Second party to pay first party the sum of ten cents rental per year. School board at that time was James Bruce, Lyman Spencer, and Silas Huffman. In December, 1887, this school ground was enlarged, and at that time it was sold to the school district for \$25.00. This the description at that time, December 19, 1887, Robert O. Curtis and wife, to School District No. 4, Novesta Township, 12 1/2 by 13 rods of N W corner of section 33. It was recorded April 16, 1888. There were no names, just to School Dist. No. 4, the consideration was \$25.00.

On this property a log schoolhouse was built. The same year, 1876, religious services were held there by Samuel Sells. In 1878, or a little later, preaching services were conducted by Gilbert B. Cutler of Kingston, who at that time began to preach, and organized and built the Kingston Baptist Church.

The old log schoolhouse was burned in the fire of 1881. A new schoolhouse was built, and was the scene of religious services until 1889.

During those early years 1881 to 1889, preaching services were intermittent. Jesse Russell, David Harris, Hiram Phetteplace, Rev. Saigeon, and Samuel Bettes, a traveling evangelist, were among the number holding preaching services.

In 1889 a Methodist Class was formed, and Rev. Manley Karr became the first preacher in charge, Sept., 1889 to Sept., 1891.

The first quarterly conference of Deford Circuit, Saginaw District, Detroit Conference, was held at Deford, Nov. 2, 1889, by District Superintendent Seth Reed; pastor, Manley Karr. The class book records eleven members at Deford: George McCallum was Sunday School superintendent.

The circuit consisted of four appointments: Deford, McHugh, Foster and Proctor. Salary was set at \$300.00 apportioned as follows: Deford \$125.00, McHugh 50.00, Foster 70.00, Proctor 55.00.

\$300.00

The board of trustees were: William H. Willis, William Pratt, Charles J. Malcolm, Archie MacArthur, Josiah R. Lewis.

Dr. George Bates, and his sister, Minnie Bates, (now Mrs. L. A. Maynard), joined the class in 1891, and are now the only living members of that class.

From 1889 to 1948, we have had as pastors thirty-eight men. Some have come here as young men to their first pastorate, some have come in their closing years of service, from the retired list. Some have planted, some have watered, God hath given the increase.

For a number of years the people realized the need for a church building, and looked forward to that time. That time came in 1898.

At that time, Rev. Thomas J. Nichols, a man eighty years of age and one that walked with the Lord, was pastor, 1897-1898. And the inspiration received during his ministry resulted in erecting this building. Not precisely as we see it today, for some changes have taken place throughout the years.

Quarterly Conference records of May 29, 1898 read: Dist. Supt., William Dawe; pastor, Thomas Nichols; S. S. Supt., Samuel Sherk; pres. Epworth League, Mrs. Emma Bruce; leader Jr. league, Laura Wethy.

Church trustees and building committee: Josiah R. Lewis, secretary; Daniel Croop, treasurer; Elmer Bruce, Charles J. Malcolm, Aaron Huffman, William Pratt.

The Class Book records 73 members.

Those who have served here as pastors are: Manley P. Karr, J. N. McCready, Thomas Nichols, B. A. Crampton, D. B. Millar, John McCready, Da. B. Millar, J. C. Frye, Chas. A. Lohnes, F. S. Weaver, G. W. Smith, J. W. Fenn, R. A. Emerick, Floyd Harding.

W. J. Eastlake, Arthur Beedon, Geo. C. Horton, Thomas J. Stubbs, Victor J. Huffman, Geo. W. Scott, John Meredith, John Austin, A. C. Thompson, J. Albert Phillips, E. D. Beynon, W. S. Hubbard. Clifton W. Scott, Joseph Didden, Earnest L. Carless, Walter L. Jones, George B. Marsh, Herbert C. Elford, T. B. Terrill, Robert Chase, Horace Freeman, Walter Mollan.

If time permitted, many fine things could be said of each individual, on this list of splendid men. Also, about George Spencer to whose memory and observation we are indebted for much of the history prior to 1888. Mr. Spencer is the oldest continuous resident of this community, coming here with his parents, Mr. and Mrs. Theron Spencer, in the year of 1874.

PLEASANT HOME HOSPITAL

Patients in the hospital Wednesday afternoon were: Mrs. Leonard Damm, Mrs. Bernard Partio and baby boy, Mrs. Wm. Sharp and Alfred Karr of Cass City; Wm.
