CASS CITY, MICHIGAN, FRIDAY, OCTOBER 22, 1948.

Municipal League Advocates "No" Vote On Wednesday On Amendment 2

ballot is in no way a vote for or then taken to the Hunter Funeral Wilson were hosts. against the repeal of the sales tax Home at Gagetown where it itself. It is solely a vote on whether remained until Wednesday. ter; Ray Rondo, overseer; Mrs. Ray or not we should continue to Funeral services were held at the Rondo, lecturer; Roland Wilson, tax money for our city and village American Legion. Interment was governments and schools. The sales tax will continue regardless of the outcome of the November election.

Under the present setup of division of the sales tax, it is estimated the three counties in Upper Thumb will receive \$1,894,000 this fiscal year, divided as follows: Tuscola, \$701,000; Huron, \$571,000; and Sanilac, \$622,000.

The Michigan Municipal League in advocating a "no" vote on this amendment says:

"The need for supplementing city and village taxes with statecollected revenues such as the sales tax is not a problem peculiar to Michigan. Cities throughout the country have been receiving a decreasing share of the rising total national income and have, therefore, been hard pressed to meet rising costs and service demands.

"Local government revenues nationally, according to U. S.

Local Returns.

According to the last annual financial reports of local village, township and school treasurers, there was returned to this community \$21,874.76 from the state sales tax money. This was divided as follows: \$7,913.22

Village of Cass City Cass City Public 8,848.74 Elkland Township 5,112.80

Bureau of the Census figures, represented 14.4% of the total national income in 1932. By 1942, local governments received only 5.2% of the national income. By 1946, this proportion had dropped to 4.7%. In other words, municipal revenues were not keeping pace with rising prices and rising income of its taxpayers.

"Detailed and specific data is unavailable as to the exact portion and villages alone for years other than 1932 and 1942, but the figures that are available present a comparable picture.

"In Michigan alone, using the it is estimated that total income in aries in China. the state approximated two 170 million, or 8.7% of total income. By 1942, using the same method of computation, cities and villages received only 2.9% of the total income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm bisquite and honor on the local income in the face of rising letty Hower led in the singing of warm letty had a leader, presented an interesting the industry.

Colds May Be Measles

While children are the usual victims, adults can contract measles. When they do, they become very ill. Measles has the appearance of a simple head cold when it strikes. There is cough, sneezing, runny nose, and fever of 101 or 102 degrees, sometimes even higher. Persons afflicted with measles are very sensitive to light. Their eyes often give forth a discharge and should be washed frequently with boracic acid solution.

Prager, 59-year-old Dorseyville, Pa., farmer, is shown giving his granddaughter, Joyce Houggy, a lesson in the wemanly art of crochet. His tablecloth won first prize at the county fair.

Among the Fossils Fossil crincids are dull colored, but in their lifetime they must have been as bright as the modern ones, which are colored, in stripes, spots, patterns, or solid tints, with all the rainbow shades, plus silver, black, white and brown. An underwater "garden" of crinoids is strangely like a bewitched field of random wild flowers. Although most plants take their food through the roots and with their green pigment, crinoids, being animals, must catch theirs. It is for this purpose that they have the long, many-branched arms rising above

Mr. and Mrs. Norman Kritzman and Mr. and Mrs. Cletus Morell spent the week end on a trip up North.

Aunt Kate says: Let dogs delight to bark and bite, For God has made them so. Let bears and lions growl and fight, For it is their nature too. But children you should never let, Such angry passions rise. Your little hands were never made to tear each other's eyes. Older people might take a lesson from this too.

Popularity of Patterns Pattern sales continue to soar and indications point to 1948 being a greater pattern year than 1947. An estimated 168 millions of patterns were sold in 1947.

Steel Lost in Strikes

Nearly 20 million tons of raw steel has been lost as a result of major strikes since the beginning of 1946, according to available figures. In terms of finished products, that amount is nearly equivalent to all the steel supplied to the automobile industry in both 1946 and 1947. The total includes more than 1,600,000 tons of ingots lost in March, April and May, 1948, a penalty of the spring walkout of coal

PIPING HOT WATER

THE CLOCK!

Trailblazer-of cars to come!

Once in a blue moon the stylists and engineers outdo themselves. They create a car that goes beyond today and sets the pattern for cars of the future.

This is what they have done with the FRAZER for 1949!

Low, sleek and differently handsome it is the trailblazer in style of cars to come. Its exclusive colors and fabrics have made the world's leading fashion designers fall in love with it. They call it "the dream car".

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who must relentlessly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.

There's a thrill waiting for you at your dealer's today. With 100 new features, improvements and refinements, the 1949 FRAZER is ahead of its time . . . out front-trailblazing the way for all the cars to come. First to break clean and scrap tradition, the cars from Willow Run have done it again. Because unlike other "new" cars built since the war, they've road-proved their dependability-2 billion miles worth! Value-proved to a quarter-million justly proud owners. See and drive the new FRAZER now! It's at your dealer's. Kaiser-Frazer Corporation, Willow Run, Michigan.

12 Billion Dollar Road Block!

RAILROADS MUST OPERATE around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employes.

They want 48 hours pay for 40 hours work -in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25c an hour for every employe!

You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe!

The total cost of this would be no less than 1½ billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads, they must have still further rate and fare

Demands Unreasonable

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48c an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10c Railroads Run for Everybody-Not Employes Alone

The railroad industry must serve not one but many groups-producers, businessmen, shippers, passengers and the general publicnight and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.

Strike Threat

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

Operation Salt Lick

From time to time 25-pound blocks of salt are dropped by airplane to otherwise inaccessible deer range by the California division of fish and game, which reports that more than 90 deer were killed on highways and railroad tracks in the rugged Shasta county mountains during a period of six months. The deer linger on tracks and roads, licking salt drippings from refrigerated freight cars and trucks. By placing salt blocks a safe distance from dangerous thoroughfares, the deer are lured from certain death. Late snows and poor road conditions in the area this year prevented normal distribution of salt by automobile.

Potential Pastures

Many farms have areas on them which are overgrown with brush and briars. These areas contribute little or nothing to farm income. If cleaned up and properly treated, however, they will produce good CASS CITY CHRONICLE, CASS CITY, MICHIGAN PAGE ELEVEN

you were the President of A&P..:

What would you do to make your A&P a better place to shop?

Have you ever said to yourself, "If I were the President of A&P, I know what I'd do"? I think there are many A&P customers who would like the opportunity to express themselves on the subject of their A&P. I really believe that from your side of the counter, you know A&P best. That's why I ask your opinion.

You can help to make your A&P an even better place to do all your food buying by

sending me your suggestions . . . criticisms. . . opinions. For instance, what about our service? Is it as courteous and helpful as you would like it to be? Is it prompt and efficient, too? Do you aways find all items plainly and correctly price-tagged-as they should be? What in your opinion are we doing that we could do even better? Or what are we not doing that you feel we should do?

I INVITE YOU TO WRITE AND TELL ME HOW YOUR A&P MAY SERVE YOU BETTER

We of A&P want to make our stores the finest places of all in which to shop. That is why your suggestions, criticisms and opinions will be gratefully received and acknowledged. You see there are 100,000 employees of A&P from coast to coast jealously guarding the A&P reputation for courteous, honest, and efficient service. They never want to fail you in any way, but if they do, I am sure that they, as well as I, would appreciate your writing me.
