## Cass City Won from Bad Axe, 57 to 39

Cass City defeated Bad Axe 57 to 39 Friday night to share in the Upper Thumb Championship with Caro. The Red Hawks ended the season with a record of 12 wins and single losses to Pigeon and Caro.

Cass City and Caro will get a chance to see which team is the better Thursday when they meet in the first round of the Class B tournament in Cass City.

The Red Hawks started slowly, being behind Bad Axe 9 to 8 at the end of the first quarter, but pulled away from Bad Axe to win easily.

Every one of the 11 Cass City players contributed to the scoring. High man for Cass City was Elwin Helwig with 14 points.

Bad Axe's high point man was Krueger with 19 points.

## Mrs. Marble Writes Cass City Students of Fairyland She Found in Bavaria, Germany

From Oberstdorf, Germany, comes this interesting letter written by Mrs. Eva Brankenbury Marble, a former instructor here, to pupils of the Cass City Public School. She writes:

Dear Girls and Boys: Did you ever feel that you were living in Fairyland? That is the way I feel. Sometimes I feel as if I were in a land so different from Michigan that it seems as if I must be living in an age of a century ago.

Take your map of Europe and find Germany. You may find Bavaria in the southern part. With your forefinger trace along the border of Austria and at the utmost point you will find Oberstdorf in Allgau, 841 m above sea level. Oberstdorf is situated in a little valley, surrounded by mountains on three sides. These mountains are very majestic and tower grandly over the town.

All the cities in Germany have a coat of arms. Oberstdorf's coat of arms is a rearing white horse on a red background. Years ago people in this valley raised horses but nowadays cows are the chief livestock. In the fall whole herds of cows wander through the streets.

## W. S. C. Heard Two Interesting Talks Tuesday Afternoon

The Woman's Study Club met on Tuesday afternoon at the home of Mrs. A. H. Kinnaird on West Main St.

After the business meeting Miss Hollis McBurney gave a very interesting talk on Africa in which she pointed out the effective work of missionaries, the progress made by independent countries above that made by countries still dominated by England, France and Belgium, and the natural resources of Africa which will have such an influence on her future.

Mrs. Grant Patterson then gave an excellent report on legislative work now before congress, noting especially the amendments to the bill for entrance to this country of displaced persons from Europe. The committee wishes to place three hundred in the Detroit area. The sponsor of a displaced person must guarantee four things: A job, housing, \$75 for inland transportation and sponsorship to the end that they do not become a public charge. A very interesting discussion followed.

The next meeting will be March 15 at the home of Mrs. Mason Wilson when Mrs. M. R. Vender will discuss "Palestine."

## ATTACKED BY BULL

Attacked by a bull and tossed about eight feet against a stone wall, Keith Russell, son of Mr. and Mrs. George Russell, was quite badly bruised Monday. His brother, Kenneth, chased the animal away and saved Keith from more severe injuries. The attack was made on the Russell farm in Elkland Township, northwest of Cass City.

And what cows! The cows are so huge and their horns are so massive that I must admit they frighten me a little.

Every fall when the cows return from their mountain pastures the people have a celebration for the cattle separation or "Vihscheid." This is a very famous celebration and people come from far away to collect their cows and take part in the festivities. If the cows have had a successful summer, the herdsman decorate the leading cow.

## Man Killed and Three Injured in Auto Collisions

Garfield LaFave of Bad Axe fatally injured on M-53 Saturday

Garfield LaFave, 45, of Bad Axe was fatally injured in an automobile collision at the intersection of M-53 and Atwater Road, 10 miles southwest of Bad Axe Saturday and his brother, Henry LaFave, was involved in another car accident two hours later on M-53, 100 feet from the scene of the first crash.

The first accident occurred while Garfield LaFave was driving west on Atwater Road and Joseph P. Ozbat, 25, of Caro was traveling north on M-53, about 8 p. m. Saturday. Both drivers were alone in their cars. Ozbat, who was not seriously injured, was taken to Bad Axe General Hospital for treatment. LaFave was thrown from his car. A fire started later in the LaFave car and was put out by an extinguisher by state police. Ozbat's car also caught fire and was extinguished by the Uby fire department.

Four other cars were smashed shortly after the first accident when a car driven north on M-53 by Harold Peters, 37, Decker farmer and sawmill operator, passed flares set out on the road by Bad Axe State Police at the scene of the first accident, and collided with a car headed south and driven by Henry LaFave, 50, brother of the fatally injured man. Peters' car then careened off the LaFave auto and crashed into two parked cars, damaging both. One was owned by Fred Steinman, 28, Deford, and the other by Gerhard E. Freude, 22, Detroit.

Peters was brought to Pleasant Home Hospital with chest injuries. Angus Leitch, riding with Henry LaFave, received a broken nose in the accident. Two persons were in the Steinman car but neither was hurt.

## Gavel Club Presents Merry Program at Ladies' Night

Three-minute Talks Are Filled to the Brim with Wit and Humor

Gavel Club members entertained their wives and friends at a Ladies' Night function at the Home Restaurant Tuesday when a chicken dinner served at attractively decorated tables and a series of short talks by the men folks featured the evening's entertainment.

Glenn McCullough was the toastmaster and President Clarence Burt extended the welcome to the guests.

Mr. McCullough had previously assigned subjects to a number of club members for three-minute talks. Those who know the members will have no difficulty in imagining the humor and wit the following speakers put into the subjects to make the program entertaining and laugh provoking: Horace Pinney—"Is it good business to loan money to women?"

Lester Ross—"What I tell Helen when I leave the house and she thinks I'm going to referee a basketball game."

Harold Paul—"Why I like the New Look and why I think it's here to stay."

## Champions of Upper Thumb 'B' League

Lowest row (left to right)—Maynard Helwig, John Ellis, Coach Claseman, Theron Hopper, Clarence Schneeberger.

Second row—Ernest Pena, mgr., Chester Dorland, Eugene Kloc, Bob Alexander, Frank Creason, Bob Wood, mgr.

Third row—Dale Groth, Fred Milligan, Tommy Townsend, Claud Roach, Roger Little, Gerald Whitaker, Dick Wallace.

Fourth row—Ken Brown, Ken Martin, Charles Watson, Frank Preba, Alvin Hutchinson, Ray Newsome, Jack Jennex.

The 1948-49 Cass City "B" team is the champion "B" team of the Upper Thumb.

The team had a marvelous record of 14 victories against only one defeat. That defeat was a 38 to 35 set back by the Bad Axe "B" team.

The team scored a grand total of 523 points against the opponents' 399 points. The leading point getter on the team was Ken Brown who scored 105 points. Just behind Brown was Eugene Kloc with 99 points.

Leland Hartel, who was sent up to the Varsity squad midway in the season, had 88 points to his credit and he may have been the leading scorer had he remained with the team.

The team also displayed fine defensive work

most of the season. Twice the team held its opponents to fewer than 20 points a game. Vassar was held to a mere 14 points and Sebawa was held to 18 points. The team allowed its opponents an average of 26 points a game.

This makes the second successive year that the Cass City "B" team has held the championship; however, last year the Caro "B" team held an identical record with the Cass City team, thus a co-championship.

Outstanding freshmen on the team are Dale Groth, who scored a total of 87 points and who showed signs of greatness. Also Frank Creason, a quick guard, looked good until he was laid up with an injury.

**Chicks Should Be Ordered Now**

For farmers who are still wondering if it is advisable to buy baby chicks this year, Howard Zindel, Michigan State College extension poultryman, has a few suggestions.

He says that the farmer should consider five points. If the answers are favorable, the chances are that poultry production would be profitable for the farmer. First, is the proper equipment available? Was there a poultry enterprise on the farm last year? Do you like poultry and chickens? Do you have time to manage and properly care for baby chicks? Last, Zindel advises that the farmer figure whether adequate feed is available.

The farmer who skips from the poultry business from one year to another has little chance of making money, he stresses. The "in" and "out" is invariably wrong—in or out at the wrong time.

For those who plan to keep poultry this year, Zindel advises that no time be lost in ordering baby chicks. Baby chicks with good breeding are the ones that pay. Cheap chicks do not make the gains that chicks of proved blood lines will make.

Zindel concludes that the average farmer can raise chickens and make a profit this year by securing good chicks, feeding a well-balanced ration, giving good care, and culling to remove all boarders from the flock.

**Proper Caution Needed in Shop**

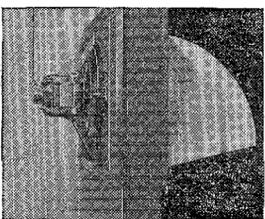

With the increase in farm shop work in the state, farmers are being urged to consider a few of the precautions needed when using tools and power equipment.

Carl F. Albrecht, agricultural engineer at Michigan State College, points out that goggles or face shields should always be used when grinding or chipping metal. A shield is a necessity when doing arc welding.

For some jobs certain kinds of clothes are desirable. It's a good idea to wear gloves when handling heavy pieces of iron or rough lumber. But loose gloves should not be worn when drilling with a press drill or using a table saw. Snug fitting clothing is less likely to get caught in moving parts of machines.

**Rural Youth Urged To Join 4-H Clubs**

Tuscola County rural young people who are eligible but not yet members of 4-H Clubs will get a special appeal from club members from March 5 to 13 to join the ranks.

Planned as National 4-H Club Week, it is the time that the program for rural young people is to be introduced to rural youth and parents. Byron E. Carpenter, county 4-H agent, asks that persons interested in the work and not contacted get in touch with his office.

During the last year there were 1102 different boys and girls enrolled in the 38 clubs in the county, Carpenter said. To meet Michigan's goal of 57,000 members in 1949, the agent said this county should add 100 members. There are 4500 boys and girls in the county eligible to participate in 4-H Club work but who do not belong. The goal is to have as many as possible enroll from this group.

"Securing local leaders is one of our great organization problems," Mr. Carpenter said. "Although there are 188 men and women in the county giving their time to help this youth program, there are several areas in the county not organized because of a shortage of

leaders," the agent reported. A local volunteer leader and at least five or six boys or girls between 10 and 21 years of age are required to start a club. The office of the Tuscola County cooperative extension service, located in the court house, will be glad to offer information to any prospective leader or member.

## Good Records For Children Are Best Investment

With children's records becoming available in wide variety parents need to take a great deal of time in choosing the right ones for their offspring.

A few wisely selected records are much more valuable to a child than a large collection of poorer ones. Children, besides being little actors and actresses, love repetition and the certain planned order that comes with it.

The second advantage of choosing good records reminds Ann Goldoftas, Michigan State College home economist, is that they will remain favorites for many years.

Sameness does not bother the young fry whether it is food, clothes, stories or music, and he will not tire of a few favorite records. It is possible to make those few favorite records good ones and yet full of enjoyment and fun for the youngsters.

You can find simple folk songs, quick and lively marches, fairy tales, Mother Goose rhymes set to music or even nature study recordings. Many beautiful classics have been recorded in albums especially designed for children. The Nutcracker Suite and Peter and the Wolf are good examples.

Records come in such gaily designed albums or folders now and are illustrated to appeal to the children. Often the inside cover of the album is decorated with sketches of the important parts of the story with a few words explaining them beneath. A young child can follow the story of the record while it is playing by looking at these pictures.

**Kept His Promise**  
 "Look at this—just look at this!" cried a woman, tossing a faded dress on a shop's counter.  
 "What's wrong, lady?" asked a clerk.  
 "What's wrong?" shrieked the lady. "When you sold me this dress you said its color was fast. And look at it now. The color came out the very first washing."  
 "Well," said the clerk, "wasn't that fast enough?"

**FOR SAFETY'S SAKE**

A woman in the United States sent a pen pal to a friend of hers in Australia, after the arrival of her third child. The "thank you" note read as follows:  
 "Thank you ever so much for the pen—it's a perfect godsend. I sit in it every afternoon and read, and the children can't get near me."

**BETWEEN THE LINES**

 "Sir: My secretary, being a lady, cannot type what I think about you, and I, being a gentleman, cannot say it. But you, being neither, will understand exactly what I mean."

**MOW CURING CUTS DOWN MY FIRE WORRIES!**

**DUCT SYSTEMS ARE EASY TO INSTALL—ECONOMICAL TO OPERATE**

**FOUR OTHER ELECTRIC HAY DRYING ADVANTAGES**

- Cuts down weather risk—permits cutting at right stage of maturity; eliminates loss from rain, dew and excessive bleaching; saves hay losses in bad weather.
- Improves hay quality—eliminates leaf shattering, sun burning; assures more leaves, more color; gives increased food value, increased market value.
- Saves money—makes money!—small investment, low operating costs; pays for itself in one season. Farmers claim \$5 to \$10 more per ton for mow-cured hay.
- Easy to Set Up—any size barn will do; no boilers or coils needed; ducts are easy and inexpensive to build. Mow-curing requires no change from your present system of making hay.

Can be used with long, chopped or baled hay.

**ELECTRIC HAY DRYING REDUCES CHANCE OF SPONTANEOUS COMBUSTION**

Electric hay drying eliminates losses from spontaneous combustion, by keeping hay at controlled temperature. Mow curing dispels your fire worries . . . assures greater safety for livestock, buildings and crops.

Mow-cured hay is safer to store, and is superior to field dried hay. The wooden duct work and electric blower are easy to install. They pay for themselves in a surprisingly short time.

For full information see your Edison Farm Service Advisor *without delay!* He can give you practical help in planning a low-cost curing system for your farm.

### Down Memory Lane

FROM THE FILES OF THE CHRONICLE

Twenty-five Years Ago.  
March 7, 1924.

John Nelson, who will be 99 years old if he lives until May 3, 1924, is conceded to be the oldest man in Tuscola County.

As the Cass City basketball girls of the high school have won every game this season, they challenge any high school girls' basketball team in the Thumb to a game on a neutral floor.

At the regular council meeting Monday evening, George West was authorized to purchase smoke masks and electric lanterns for the use of the fire department. A recent fire has shown the necessity of this equipment for the comfort of Cass City fire fighters.

Hiking is one of the chief sports of the day. Misses Laura Gallagher and Nellie Urquhart made a six-

mile hike one night late in February in 1 1/2 hours.

Stanley Sharrard drives one of the finest teams that draws milk to the local condensary.

W. J. Gammage of Pontiac spent a few days in town on business this week. In a short time, he expects to make Cass City his headquarters for the auctioneering business.

The parts for the senior play, "Come Out of the Kitchen," have been decided on through tryouts which have been in progress this week. In the cast of characters are the names of the following students: Irene Profit, Margaret Reagh, Dorothy Tindale, Marguerite McTavish, Beatrice Gillies, Curtis Hunt, Louis Severance, Hilton Warner, Roy Wagg, Grant Smith, and Lucille Corkins.

The point system in the high school this month is more exciting than usual. Students who have risen to the top are as follows: Helen Sisson, freshman, 21 1/2 points; Robert Dillman, junior, 20 1/2; Pauline Knight, freshman, 20 1/2; Calvin Patterson, sophomore, and Stuart Wilsey, freshman, tied with 20 points each.

Thirty-five Years Ago.

March 6, 1914.

D. Crawford & Son have sold their meat market to A. A. Ricker and Louis Krahling, who will take possession March 16.

Inventory will be made of the general merchandise stock of Mrs. Anna Parker next week and Walter Walker will soon be the new proprietor. The deal was made last fall. Mr. Walker expects to purchase the business block as well as the stock.

The Cass City Independents outplayed the Vassar business men's basketball team here Friday evening by a 25 to 11 score.

L. T. Supernaw is the new druggist at Treadgold's drug store. Grover Burke, who has been the efficient pharmacist at Treadgold's, has accepted a position of manager of a new drug store in Brown City.

A. J. Knapp is on the job again after three weeks' confinement at his home because of injuries received in a fall through a trap door at Schwaderer's Restaurant.

Deaths of the week: John Ashmore, Sr., and Andrew Edgerton. Burton A. Elliott, who has been serving as letter carrier on a Kingston rural route, received his permanent appointment Monday.

Candidates nominated at the village caucus Friday are: President, J. H. Hays; clerk, Marc Wickware; treasurer, G. A. Tindale; trustees, S. F. Bigelow, H. F. Lenzner and A. J. Knapp; assessor, G. E. Perkins.

C. LeRoy Spencer has taken over the management of the Charles Spencer jewelry store.

### Mrs. Marble Writes Cass City Students

Concluded from page 1.  
with a beautiful crown of mountain flowers—gentians, Alp roses and marigolds. All the cows have bells around their necks which are almost as large as pumpkins. And the herdsmen themselves wear long beards because they don't shave all summer. They look like old mountain-ghosts for they have decorated their old faded green hats with the rare "Edelweiss" which is the pride of all mountaineers.

Do you remember the story of "Moni, the Goat Boy?" I often think of him as I see the goat boy driving his herd of goats through the streets and up to the mountain sides. In the morning, the goat boy blows on a horn, and all the goats come rushing towards him. The goat boy calls each goat by name just as we read in the story. And do you know almost every animal must have a name because I heard a "Frau" trying to coax a chicken home. She was calling, "Rosel, Rosel."

You should see the clumsy oxen that pull the carts here. Reminds me of the stories in "Singing Wheels." Never did I hope to see oxen plowing in the fields and doing the work that our tractors do. Sometimes these animals are hitched up with a horse and very very often hitched with cows. Don't you think it would be funny to see an ox hitched up with a cow? I do.

When I was teaching in the fourth grade of Ypsilanti, Michigan, my boys and girls learned a song about the Chimney Sweep. Do you know what I used to tell them? I told them that there were no more chimney sweeps. And what do you suppose I found over here—yes, chimney sweeps. They are very small men who come around to clean out the chimneys. And oh, they are so dirty! Their faces and hands and clothes are so black. They usually wear a very tall hat and carry very long brushes. People here consider it very good luck to touch them and see them.

The chimney sweep holds a very important position. He has to go to school at least an extra two years in order to be a sweep. Then when he cleans the chimneys, he receives high pay. The owners of every

house are forced to employ him by German law.

In December, the people here celebrate the beginning of Christmas. This is called Klausenday. All the young men in Oberstdorf go around masqueraded in fur clothes with terrible devil masks with long horns of the deer or mountain goats. They wear chains around their waists which rattle and carry sticks in their hands with which to beat young girls. These old devil masks are the pride of some families because they have been inherited from their forefathers.

This part of Bavaria (Allgau) has always been a very famous hunting place especially for the royal families of Bavaria. The mountain goat and the stag have been the most popular game animals. But eagles also have a home in the high mountain forests near Oberstdorf. One time a dozen horses were grazing on the mountain side. Frightened by a rising eagle, they jumped over a cliff and were killed. Another interesting and exciting accident happened at the Walsertal. A three year old child was out gathering berries with her parents. The parents were about a hundred yards away from the child. Suddenly they heard her cry out but it was too late. A Stone eagle had picked the child up and carried her away. The child was never found again. The hunters were anxious to catch the eagles and eaglets but the eagles built their nests too high even for an expert mountain climber.

Did you ever see a pink house? There are some in Michigan, I know. But think of seeing purple houses, yellow houses, violet houses or even orange houses all in one little village. These houses are made of wood and covered with a colored stucco. They really make a very colorful village.

The outside walls of the house are generally decorated with beautiful scenes. Usually these scenes are Biblical ones mostly of the birth of Christ. Occasionally we find scenic decorations.

An interesting feature along the roadsides are the shrines. In this part of Germany the Catholic religion is foremost. When a man dies, his people may build a shrine for him. This is a rather triangular boxlike shape and contains the Crucifix. The family builds a step by it where anyone can kneel and say a prayer. There are thousands of these shrines throughout this area.

The people of this section have a very different kind of dress. In the summer the men wear short leather pants (called Lederhosen) supported with highly decorated suspenders (like Bing wore in The Emperor's Waltz) and green hats with the mountain goat beard (these are famous). In the winter the men wear knickerbockers. The women wear green aprons over very long grey skirts. They wear a white blouse with a black vest. The vest is laced with silver chains. Furbished with famous coins of centuries ago. In winter time they do not wear special costumes because it is too cold.

Did you know that this region was the home of the Grimm brothers who wrote the Fairy Tales? As I drive along the roads, I can very well understand how they could write such stories, for the trees are so tall and the woods are so dark that I could write frightening stories too, because I think I'd be afraid to walk through these woods. But the people here aren't afraid. They get their fuel from these trees. Sometimes the boys and girls gather wood all summer long so that their families will be warm in the winter.

I hope you like my letter. I wanted you to hear a little about the part of Germany which wasn't bombed—my little valley in Bavaria—Oberstdorf.  
Your friend,  
EVA BRACKENBURY MARBLE.

### Why of Sponge Shortage

For several years now, people have been wondering why there are so few natural sponges on the market, offered at prices almost beyond reach. The shortage is usually blamed upon the war. This, however, is not the reason. Department of commerce explains that the big western Atlantic sponge beds were blighted by fungus in 1939, and that recovery of the western Atlantic's shallow water sponge beds may require at least five years more, and the deep water beds from 10 to 20 years more.

**James River Company**  
George Washington foresaw the necessity of binding the isolated outposts to the original 13 states by means of transportation and communication and urged that such plans be put into effect. In 1785 the James River company was organized to build a transportation route to the west. Washington was elected president of this company and construction began on the James River canal.

**Lady Liberty**

Lady Liberty—the girl who holds the torch above New York harbor—has reached the venerable old age of 62 years. She is gowned in copper, which time and weather have colored green. The copper, however, is a mere shell, no thicker than a silver dollar. Sea winds would blow it away if it were not firmly fastened to the girdle of iron and steel which lies beneath. Lady Liberty was a gift from France to the United States, and was designed by the same Gustav Eiffel who did the Eiffel tower.

**Soldier Writes of Duties in Germany**

Rct. Donald E. Thane, RA 16299065, 1st Constab. Brigade OPO 171, DS 14 Armcd. Cav. Regt., Fritzlar, Germany, has written a day-to-day diary from which a letter was sent to his parents, Mr. and Mrs. Carl Thane, of Caro. He enlisted in the army in September, 1948, and received his training at Fort Knox, Ky. He is a grandson of Delbert Thane of Cass City and Mrs. Louella Bullock of Decker. The letter which follows is printed at the request of relatives:

Sun. Jan. 9, 1949

Our time Your time  
Marburg, Germany  
Hi! Everybody:

Well, I suppose you were getting kind of worried and wondering what I was doing and where I am and what the place looks like. Well, I'll tell you what I did, day-by-day as we went along.

Tues., December 28, '48  
Well, this morning we got up at 3:30 a. m. and went out in the shipping grounds, kissing good old America good-bye for a little while. Then we ate breakfast and monkeyed around until 10:05 a. m. Then we loaded up in trucks and took off for N. Y. C. It's 32 miles from Camp Kilmer. We got on the boat, General Harry Taylor, and got assigned to our compartments. George (that's George Jameson also a Caro boy) and I live in the same compartment, 5-E. That 5-E means room 5 on E deck. There are 7 decks on the boat. On top where the smoke stack is, is A-deck, then down where you can walk all over the boat where the railing is, is B-deck. Then cabin class passengers is C-D deck. The troops sleep on E and F decks. There were 1,907 aboard the boat. G-deck is where all the cargo was. They had 40 jeeps, 19 soldiers' cars, 20 new cars, all kinds, and five mess halls. They had a daily paper they called the Taylor Times. I saved them and I'll send them to you. Will you save them for me? The first edition tells all about the ship and the last one tells about how the trip was. It's a souvenir edition. It can tell you more about the trip than I can. It has the ship's log. They mean how far we went each day, how far we had to go yet, and how far we were from New York, and how to find us on the map, and the average speed each day in knots. One knot equals 18/10 miles per hour. When we left New York the ocean was real calm.

Wed. (Dec. 29) As we got out a little farther we noticed the waves getting bigger. Thurs., (Dec. 30) We got in a rainstorm and was it rough. We had to go up and down stairs on our hands and knees to keep from getting hurt. I went out on deck and the boat made a big dip in a wave and I just happened to have a hold of the door handle or I would have been washed down the deck and maybe overboard. It sure scared me and did I ever get wet. I went inside in a hurry.

Fri., (Dec 31) The rainstorm was over, but last night we strapped ourselves in bed so we wouldn't roll out. But still the boat dipped now and then even when the sun was shining. It did all the way over until we got close to Germany where it wasn't so deep. Sat., New Year's Day was just like any other day. Slept most of the day when I could, a little bit sick (sea sick) Ha, I guess my stomach got churned up too much. I've lost some weight, but probably will gain it back when I get there. Sun., (Jan. 2). Same old thing, rocking back and forth. Went to church here on the boat. Mon., (Jan. 3). Was on K. P. It wasn't bad, sat around and took care of the bread at meal time. You have to stand up to eat. The tables are high. They have more room that way. Tues.,

(Jan. 4) was just another dreary day of rocking back and forth. Wed. (Jan. 5) we saw land early this morning for the first time. We met the Green Navy. It was going to New York. Boy! Is it pretty all lit up after dark. Thurs., (Jan. 6) Was on K. P. again today. We are in the English Channel and it's just as rough as a storm. We picked up a pilot. He comes aboard and tells them where to travel in the channel so they won't hit any rocks. Saw the White Cliffs of Dover. Boy are they beautiful. They look just like the Pictured Rocks only white. Friday, (Jan. 7) We got up early cause we get off the boat in Bernshaven. We were in the harbor all night. But before they got us off it was 7:30 a. m. We got right off the boat and got on the train. Their trains are small and narrow tracks. The box cars about 15-ft. long and 5-ft. wide and they have round roofed little engines. The passenger trains are a little bigger but rough riding. Wooden seats. They don't have any sleeping cars. George and I slept on the baggage rack. Could only sleep on our sides it was so narrow, but we got a little sleep. But oh! our aching bones in the morning. Ha! the train arrived the next morning at 6:00 in Marburg. Then we went in trucks to our camp. I took some pictures of the buildings. Are they nice, they are old German barracks. It's four stories high, marble floors and walls and we slept eight in a room. It's just like a big mansion. Sat., (Jan. 8). They took our pictures for to put on identification cards. Sun., (Jan. 9) Today we went for classification. George and I got separated here. I got low speed radio operation. First I go to Wissenburg, Germany and take 4 weeks of constabulary basic training. Then I go to Fritzlar, Germany, both these towns are not far from Marburg. Then I go 6 weeks to school to finish my high school and get an army diploma, then I go to radio school and learn radio. I don't know how long that will take. George has a different job. He went to northern Germany and I am in the southern part. The meals here are real nice. We don't even have to sweep the floors or make our beds or do K. P. The Germans have to do it all, Ha, Ha! There isn't any snow here. It snowed a little Saturday morning but it didn't stay on the ground. The sun is shining today so I am going to get some pictures. They gave us a ration card, so we can only get so much stuff from the P. X. We can only have a carton and a half of cigarettes and 24 candy bars a week, and only so much soap and soap flakes. Cigarettes are a \$1.00 a carton here. How is Ronnie and all the folks at home? I'll move from here in about 4 days, then I'll send this letter so you will have my real address. From what I hear I'll be over here from 18 to 24 months. That isn't too bad and it isn't good either. Mon., (Jan. 10). We got some more equipment today. Helmet and helmet liners, tent and a few clothes. We got another partial pay of \$10.00. Tues. (Jan. 11). Today I signed the list showing that I'm moving. I leave in the morning for Frankfort at 7:15. Left Camp Tarmburg, Marburg at 8:30 a. m. Arrived at Camp Piere, Frankfort, 6:00 p. m. It took us all day to go 50 miles. The way you travel in the Army it isn't very fast. Every railroad station we went through was bombed during the war. They've got the railroads fixed so you can travel on them and the streets cleared so cars can travel and a few of the buildings they got fixed up. Frankfort was hit hard. The Germans told us it was bombed 6 days and 6 nights without stopping. It was steady all the while. They stayed down in the subways what few could crowd in. The railroad station looks like it might have been a beautiful place once upon a time. It had a roof over

it once upon a time. They just got a canvas for a roof now. It was too dark to get any pictures, but have some others I will send later. Thurs., (Jan. 13) Boy! Is Camp Piere a swell place. It's the headquarters of the 1st Constabulary. It's away up on a mountain, and down in the valley, about a mile away is Frankfort. It sure is a beautiful sight. We will be moving to our regular outfit in a couple of days. George went to Degendorf, Germany. We took one another's address. We are going to write back and forth. I can't think of any more to write now. Will close for now, Love, Don.

Plan State 4-H Week to Stress Better Living

Michigan's largest rural youth program, the 4-H Clubs, will observe National 4-H Club Week March 5 to 13 with a goal of adding more members to the roll which now includes 53,830 boys and girls between 10 and 21 years.

The 4-H Club program is carried on in all 83 counties in Michigan through the Cooperative Extension Service at MSC. More than 7,000 local leaders in communities throughout the state make the contacts with the youth through the county extension offices in each county.

Michigan's 4-H Club members completed 88 percent of the projects undertaken during 1948. For many years, this state has stood near the top in the United States for project completions.

"Better Living for a Better World" is the 1949 theme of the 4-H Club program. The work stresses development of talents, choosing a way of earning a living, producing food for the home and market, creating better homes, conservation of natural resources, building good health, sharing responsibilities for community improvement and joining friends for work, fun and fellowship.

Michigan has 5,261 clubs. In the nation more than 80,000 clubs include nearly 2,000,000 boys and girls.
