A special effort has been put forth in the choice of music that the people will especially enjoy hearing. There are many

interesting special numbers including novelties and a duet by the smallest instrument, the piccolo, and the largest instrument, the Sousaphone. This duet displays an interesting contrast in tone, quality and flexibility of playing.

Charles Kercher, who has been an accomplished musician since the

fifth grade and who is well known to the Cass City people, will play a very difficult flute solo with which he won a first division rating at the State Solo Festival last year.

The special number in the last group, "Uncle Tom's Cabin," is a Radio Movie where you don't have

Cass City Blanks Vassar in Second Game of Schedule

Bullis Throws Shut-out, Hartel Smashes Homer in Contest Here Thursday

Big Ron Bullis and Lee Hartel staged a two-man show last Thursday here as Cass City High School baseball team whipped Vassar to the tune of 10 to 0.

Bullis was in command all the way as he poured his fast ball past the Vassar batters so well that they got but two hits off his offerings.

Lee Hartel displayed great power at the plate as he hit a single, double and a tremendous home run. His three hits drove in five of the Cass City 10 runs.

Defensively, too, Cass City looked good. In the third inning, a quick double play—Helwig to McCloy to Hartel—snuffed out a potential Vassar scoring threat. The game was close until the fifth, when Cass City broke loose with six runs.

Hess, Vassar pitcher, appeared to be equally as effective on the mound as Bullis until the fateful fifth.

Mr. McKinnon was born in Gagetown on Mar. 20, 1890, resided in Novesta Township 32 years and moved to Detroit in 1942. He leaves one brother, Dan McKinnon, of Detroit.

BUY FLORIDA STRAWBERRIES CHEAPER HERE THAN IN FLA.

"Do you know that you can buy Florida strawberries cheaper in Cass City than you can here?" writes Martin Fleming, a former lino-type operator on the Chronicle, from Daytona Beach. "I noticed the A & P ad in the Chronicle on Mar. 4—29 cents a pint box. They are raised in Plant City, about 125 miles from here, near Lakeland, where the Detroit Tigers train, and we have never been able to buy them for less than 39c a pint box. I hope you print a little item about this and as soon as I hear from you I am going to lay these facts before the chamber of commerce and will let you know what their silly answer is."

Tuscola Co. 4-H Achievements Held In Four Districts

Programs Climax Winter Projects in Cass City, Mayville, Akron, Vassar

Winter achievement days were held last week at four community centers in Tuscola County, concluding the winter projects of 904 different girls and boys enrolled in 1311 4-H projects. Byron Carpenter, county 4-H Club agent, reports that nearly 2500 people attended the four exhibits and programs. Achievements were held last week at Cass City on Monday, Mayville Tuesday, Akron Wednesday, and at Vassar Thursday.

The four achievements conclude the winter project work. There will be no central county achievement at Caro this spring as there has in previous years. Each of the district events was planned and carried out by a committee of volunteer local leaders working with county extension agents. These committees prepared the exhibit space and decorated the halls, arranged the evening programs, and planned and directed the dress revue presented by the girls enrolled in 4-H clothing projects.

Exhibits were brought in by local leaders and members on the morning of their respective achievement days, and made ready for judging by 10:00 a. m. Judging continued throughout the afternoon and in some cases until nearly time for the evening entertainment to begin. Judges at the various achievements held a meeting with leaders at 4:00 p. m. each day. The program featuring a dress revue was held at eight o'clock every evening. Exhibits were open to the public all during the day and evening. Attendance at the meetings included a large proportion of 4-H members and their parents in the evening and was made up of club leaders and members and village children who viewed the exhibits during the day.

A first and second place dress revue winner was chosen by the home economics judge at each achievement.

These eight girls were: Jo Ann Bedore and Marjorie Root from the Cass City achievement, Madeline Francis and Barbara Ruggles from Mayville; Anne Sheridan and Myrtle Shannon chosen at Akron; and Ruth Turner and Joan Davis who were winners at Vassar. These girls then styled, at the final achievement at Vassar on Thursday evening to compete for the honor of county dress revue winner. Anne Sheridan was chosen county winner, modeling the orchid organly strapless off-the-shoulder formal which she had made.

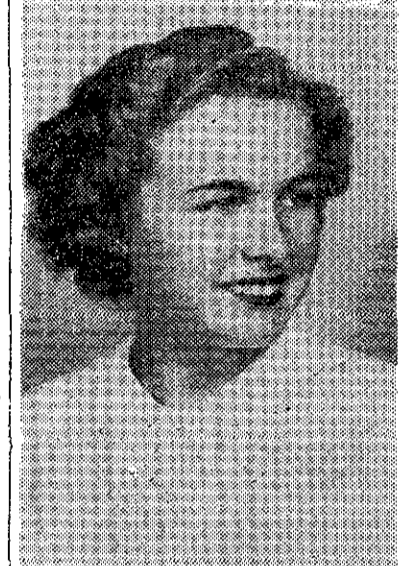

The judges at the various achievement days were as follows: at Cass City, Miss Dorothy Mulder, Sanilac County home demonstration agent, Sandusky, and Gleason Rohlf, Huron County 4-H Club

Cass City Woman Not Only Artist But Crime Fighter

From the Saginaw News.
 Mrs. Andrew B. Champion of Cass City, whose oil painting of a Michigan landscape won first prize in a Saginaw Museum exhibit, entered her works without any expectation that she would win recognition.

Mrs. Champion, an amateur artist, never had displayed her work publicly before. Nevertheless her painting entitled "Springtime" was chosen as best in a group which included oils, pastels and water colors and was open to both amateurs and professionals.

Although she began painting comparatively recently, she has been gathering material from early childhood. Her friends recall that when she was in the fourth grade the class was asked to write a paragraph on "What we would like to do in later life." Mrs. Champion's aspiration was to study in Italy, be an artist and paint a picture of Christ.

She spent all her early life in Michigan. Born Lucile Phelps in Mayville, she was graduated from Mayville High School. She taught two years in the Tuscola County school system.

Mrs. Champion, with her twin sister, Mrs. Walter Bryant, now a school teacher in Saginaw, spent considerable time on the farm of her grandfather, the late

William Kitchins Celebrate 25th Anniversary

Eighty Friends, Relatives Gave Them a Genuine Surprise Saturday Evening

When Mr. and Mrs. William Kitchin invited a few relatives in to spend the evening at their home four miles east and two and a half miles south of Cass City, on Saturday evening they hadn't planned on entertaining a company of eighty people. That many arrived, however, through invitations transmitted by two of their children, Miss Ruth and Roy.

The occasion was the 25th wedding anniversary of Mr. and Mrs. Kitchin, who were genuinely surprised by the company who met in the church yard about a mile south of the Kitchin home and came in a group with a loud honking of auto horns. Besides nearby neighbors, friends and relatives came from Pontiac, Detroit, Roseville, Flint and Brown City.

There was much visiting, large helpings of ice cream and cake were served, and the honored couple were remembered with many gifts.

William Kitchin and Miss Esther Snyder were married in Pontiac April 17, 1924. After a residence of a year or two in that city, they came to Evergreen Township where the greater part of their married life has been spent. Chickens Benefit From Good Pasture In Summer Months

Plenty of poultry pasture is advocated by J. M. Moore, extension poultryman at Michigan State College, as a help in producing well grown pullets for less feed costs.

The poultryman estimates that the poultry feed bill can be cut as much as 15 percent by the use of good pasture this summer. Dried grass has little value so the brooder house or summer shelter should be moved two or three times during the range season.

Cleanliness of the grass is important. A range where no chickens have been pastured for two years is described as "clean" and is generally free from parasites and disease germs.

The type of grass should be such that it is green and succulent during July, August, and September. Often mowing the poultry range once or twice during these months will result in new growth starting.

Alfalfa and brome pasture has proven to be one of the good poultry pastures. Since brome grass comes early in the season it forms a matted sod that provides juicy forage and keeps the young

chickens off the soil. Alfalfa is good in the dry summer months when many grasses are not available.

Importance of pastures for poultry and livestock will be featured at the Grass Day program which the Michigan State College Cooperative Extension Service will sponsor during June. The events will be held in various sections of the state. Extension workers and county agricultural agents will be on hand at the day-long events to describe the latest methods of growing and utilizing grass and legumes.

Farm Garden Chores Can Be Made Easier How would you like to add as much as 500 dollars to the amount that the farm contributes each year for family living? That's the amount that Michigan State College gardening specialists estimate can be obtained from a properly cared for half acre farm garden at present food prices. Despite the fact that the garden makes for better living on the farm, farmers sometimes regard it as a nuisance. They believe that the time it takes to prepare and tend the garden is not well spent. The gardens frequently suffer from neglect and as a result do not produce to best advantage. The MSC garden specialists say that up-to-date methods of making gardens will decrease the cost and effort greatly. The work will be more pleasant and the vegetables more economical. Not only can farmers raise the vegetables more cheaply, but they will be fresher and of better quality. Farmers often say they can use their time better for planting field crops and that gardening takes special equipment. The MSC specialists point out these objections may be overcome by using field methods in the garden. It may be necessary to change the location of the garden to take advantage of regular farm implements. A field should be chosen near the house. The area should be big enough to allow for planting in corn-row widths. Then plowing and cultivating can be done with field equipment with no more time or trouble than it takes to drive through the garden. NOVESTA Miss Dorothy Ball and Elwyn Baerwolf attended the sunrise Easter service at the Epiphany Lutheran Church in Detroit. They also visited relatives in that city and in Pontiac. The committee on health's report recommending that the proposition of the County Health Department be tabled until the October session of the board of supervisors was adopted. Two reasons were given: 1. The county general fund has an anticipated deficit of \$40,000. 2. That valuations will have to be increased approximately \$7,000,000 to meet the operating expenses of the 1950 tentative proposed budget. The board appropriated the sum of \$1,000 to the Tuscola County Council of Veterans Affairs and pay of supervisors was set at \$8 a day. Five cents a mile will be allowed for travelling expenses. Resolutions were adopted by the supervisors acknowledging the invaluable services rendered by the late Norris W. Milk Substitute for Calves To make a milk substitute for calves, use 35 pounds of ground corn, 35 pounds of ground oats, 20 pounds of cottonseed meal, 10 pounds of dry skimmed milk, and one pound of salt.

Male Shoppers Rated Best By Girl Clerks in Stores NEW YORK.—The department store girls wear their prettiest smiles for the shopping man, but they don't want to take all his money, Mrs. Lorraine Frankland says. "We try to sell him something within what we judge would be his wife's price limit," she explained. If he spends too much his wife will bring it back anyway and be mad at the store for selling it to him, she figures. Mrs. Frankland is the head personal shopper at Lord and Taylor's department store. To figure that price list limit, Mrs. Frankland says she starts out low and works all the way up, making a mental note of the point he starts perspiring. Then she goes back and "encourages" him to buy below the boiling point. What the girls really love about the men shoppers, Mrs. Frankland said, is they make up their minds so fast. The average man, shopping for his wife and maybe his mother or daughter, spends about \$50 all told, Mrs. Frankland said. And not one in 500 of them buys black underwear, she said. Chicago Found To Have More Taxicabs Per Capita CHICAGO.—The nation's capital has more licensed taxicabs per citizen than any other city in the land, although New York has the greatest number of licensed cabs, according to the International City Managers Association. The association, citing figures compiled by the American Taxicab Association, reported today that there were 9,024 cabs to serve the estimated 987,000 citizens of the District of Columbia, a ratio of one cab for every 109 Washington residents. New Orleans was said to have the second highest ratio of cabs to citizens among thirty-nine of the larger United States cities, with one cab per 466 persons, or 1,500 cabs for its 700,000 inhabitants. Boston was rated third, with 505 citizens per cab, and Louisville fourth, with a 531-to-1 ratio. New York was fifth, having 11,814 licensed cabs, or one to every 658 of its estimated 7,788,000 population. Greater Cleveland (Cuyahoga County) ranked last, with a ratio of 2,601 persons to one cab. Mrs. FDR to Devote Life To Furtherance of U. N. PARIS.—Mrs. Franklin D. Roosevelt plans to devote the rest of her active life to the United Nations as "the best hope we have for peace." "We may slide into war," she said, "but we must support the United Nations. It may yet save civilization from the terrible setback of another war." Mrs. Roosevelt is chairman of the United Nations eighteen-nation Human Rights Commission, which will seek next year to draft a human rights treaty legally enforcing those rights. Protection for Roses Roses will benefit from winter protection that can be provided easily by killing dirt around the plants. W. G. Amstein, extension horticulturist at Kansas state college, believes that poor blooms often are the result of lack of protection from freezing. Dirt should be mounded at least eight inches high around the base of each plant. This can be done, he says, at any time now since freezing weather has occurred. Cardiac for Dogs Owners who try to determine a dog's condition by listening to the beat of its heart may be badly misled, warns Dr. W. J. Lentz of the University of Pennsylvania veterinary staff. While the cardiac rhythm in man should be regular, even when the rate is speeded up, the rhythm in dogs may be habitually irregular without necessarily indicating that anything is wrong, Dr. Lentz says.

The issue of higher taxes vs economy is headed for a showdown soon in the state legislature.

The corporation profits tax is being pushed by Governor G. Mennen Williams as a painless method to raise additional revenue for state government needs and thus to avert a growing deficit.

The corporation tax is bottled up at present, in legislative committees where sentiment is reported to favor governmental economies as an alternate to higher taxes.

The Michigan Good Roads federation bill is now before the senate taxation committee, headed by Sen. George N. Higgins (R-Ferdale).

If the house concurs in outlawing legalized gambling at horse races in Michigan, \$3,000,000 state revenue will be lost for 1950.

The pari-mutuel system has been linked to the tangled affairs of the Michigan State Fair on whose ground the Detroit racetrack is located.

At present, the centennial celebration of the State Fair at Detroit is in a state of suspension. The

governor opposed reappointment of Hazen Funk as the fair's general manager.

Consolidation and elimination of several state agencies are advocated by some state legislators as alternative to higher taxes.

Senate bill 11 would abolish the tax commission and create a new board of taxation; senate bill 12 would create a labor department, merging other agencies;

Senate bill 19 would transfer duties of the board of control for vocational education, state tenure commission, state board for libraries, and historical commission all to the state board of education.

Senate bill 21 would abolish the tuberculosis sanatorium commission and transfer its duties to the department of health.

The paradox of public benefits and public taxes was neatly presented by representatives of Michigan municipalities who appeared at a legislative hearing recently. They

urged the legislature to authorize municipal excise taxes, but opposed any public referendum on them.

This attitude of trying to get something for nothing is not new, of course. Local governments always favor more state aid and more federal aid, so long as the money appears to be free.

The legislature has a most difficult task to perform. Regardless of what is done, the decision will be unpopular with some blocs and special interests.

During the past six years the number of sheep on U. S. farms has declined about 21 million head, or 37 per cent.

Do You Favor an Expensive Program . . .

of National Compulsory Health Insurance when it admittedly applies to wage-earners and their dependents only? Specifically excludes care of tuberculous or mentally diseased persons? Leaves medical care of the indigent and aged a subject for taxation as it is at present?

Recent purchasers of radios are W. H. Ruhl, Dr. S. B. Young and Guy Landon. Radio enthusiasm seems to have seized this town with an unrelenting grasp and all present radio fans think all will "fall" sooner or later. Chances look small when one considers this saying of a non-fan, "All the radios I ever listened to were always 'Oh, so much better last night!'"

Thirty-five Years Ago.
April 24, 1914.

George Hall of Elkland was elected chairman of the Tuscola County Board of Supervisors. At Tuesday's session of the board Supervisor Dowling presented a resolution which stated that the sentiment of the board was that the sheriff's office be placed on a salary basis of \$2,000 a year providing it can be done legally and the consent of the candidate elected to that office can be secured. Also that the sheriff's deputy be placed on a \$600 salary.

By invitation of the VanWinkle, Wixson and Twentieth Century clubs of Caro, the Woman's Study Club of Cass City united with them in a reciprocity day program at the home of Mrs. C. W. Clark on Monday evening. Twenty-six Cass City ladies responded to the invitation.

CASS CITY WOMAN NOT ONLY ARTIST BUT CRIME FIGHTER

Concluded from page 1. Nelson Phelps. His home, the Stone House, has stood as a landmark for nearly 75 years and is a lovely and lasting example of an almost-forgotten trade, stone masonry. Here Mrs. Champion spent many hours, and in it she was introduced to art and beauty.

She has been active in police work for many years. She was a detective for the J. L. Hudson Co. in Detroit and later trained detectives in Cleveland for store details. Later she became policeman in Bay City. Her wit, humor and genuine love for people gained her many friends.

She has written articles for international magazines on crime prevention and has been active in juvenile work until recently.

During the war, when it was hard to get paint, paper, and painters, she donned overalls and realized one of her life's ambitions by painting a 40-foot highway advertising billboard, a field in which her husband is engaged. Mrs. Champion in all painted 15 of these as her way of helping in the war effort.

Mrs. Champion still found time to raise two lovely daughters by a former marriage and a stepson, James Champion. Her daughters are Mrs. Maitland Peterson of Bay City and Mrs. James Champion of Cass City.

A few years ago the elder Mrs. Champion developed a heart condition which has made it necessary for her to lead a quieter life. She turned to oil painting, and with her husband she spends considerable time at their summer home on Wild Fowl Bay, where she works and enjoys her two tiny grandchildren.

Here, too, she finds material for her pictures—birds, ducks, dogs—and she says it is the road to this retreat that she painted which won the museum prize.

Mrs. Champion plans pictures of things she enjoyed and remembers from childhood, like the old white Dayton Church her people attended when she was a child. It still stands on a hill and can be seen for miles.

Since she has always been interested in youth work, she says that with them "one should be a helper, not a knocker" and "we all have an obligation to give as well as receive." "Painting has a language all its own," she says, and is her way of giving or repaying for a full and happy life.

While Mrs. Champion has not thought heretofore in terms of selling her paintings, a plan has been shaping in her mind for starting a scholarship fund from any sales proceeds, as a means of helping some young man or young woman study fine arts.
