## Softball Leagues Ready For Big Summer Season

Three Leagues Will Start Their Play at the Park Next Week

The familiar cry of "play ball!" will sound for the first time next Monday evening in the ranks of the American and National Leagues, according to the schedule of the Cass City Softball Association for the season of 1949.

In the American League, Baldy's Sunoco team meets the Local No. 83 group at 8 p. m. An hour later, Gagetown and Decker in the National League will contest for the night's honors.

No games are arranged for Tuesday evening because of the commencement program at the school auditorium and on Wednesday night at 8:00 is the first game of the Ladies' League when the Parsch group meets the McConkey nine. Two games are scheduled each week for Monday, Tuesday, Wednesday and Thursday from June 6 to Aug. 11, and the following two weeks the play-offs take place.

There are six teams in the two divisions for men and four teams in the ladies' league as follows:

American League — Baldy's Sunoco, Local 83, Hartwick's Food Market, Bullis Plumbers, Wallace's Corners, Shaw Construction.

National League — Gagetown, Decker, Church of Christ, Ellington, Cass City Tractor Sales, Western Auto.

Ladies' League — Hemans, Beulah, Parsch, McConkey.

## Golden Rule Class To Lay Floor as a Group Project

There were 21 present last Friday evening when Mr. and Mrs. John Zinnecker entertained the Golden Rule Sunday School Class of the Evangelical United Brethren Church at their home, north of town.

During the business meeting conducted by the president, Mrs. Grant Ball, a report was given from the "floor" committee. Various types of flooring for basements of churches and cost of laying were discussed. A sub-floor of pine with oak flooring was decided upon by the class who also voted to assume responsibility of raising balance of funds required. A floor fund was started some time ago and has been contributed to by various organizations of the church. The completion of this work has been chosen as the class project of the year and laying of the floor will begin as soon as workmen are available.

Games under the direction of Mrs. Emil Nelson and Miss Muriel Addison furnished the evening's entertainment.

A midnight buffet lunch was served.

The June meeting will be held with Miss Addison at the home of Mr. and Mrs. Harry Young on East Main. Date to be announced later.

## Doctor to Discuss Socialized Medicine Here Next Tuesday

Dr. Harold Draper, director of public relations of the field service of the Michigan Medical Society, will be guest speaker at the Rotary Club luncheon on Tuesday, June 7. Members of the Gavel Club will be the guests of the Rotarians at the New Gordon Hotel at 12:15.

Dr. Draper will discuss the subject of socialized medicine before both clubs commencing at one o'clock. Any person interested in that subject is cordially invited to attend the gathering at that hour. There is no admittance charge.

## VACATION CHURCH SCHOOL JUNE 20-JULY 1

The Inter-Church Daily Vacation School, as sponsored by The Cass City Council of Churches, is scheduled to be held in the Presbyterian Church, June 20-July 1. Rev. Melvin R. Vender, director of the school, states that any other churches are welcome and invited to cooperate in the school. A detailed story will be made next week with reference to staff and other information, said Mr. Vender.

## Humanity Stands At Crossroads of Life, Says Speaker

Essential for Americans to Become Good Samaritans, Said Rev. H. C. Watkins

Favored by ideal weather, many hundreds gathered at Elkland cemetery for the Memorial Day program on Monday afternoon.

The parade was impressive and commanded much attention. In the line-up were the junior and senior bands of the Cass City High School; Boy Scouts and Cubs under the leadership of Scoutmaster Harold Oatley and Junior Assistant Scoutmaster Robert Mann; Girl Scouts and Brownies with their leaders, Mrs. Creighton Cathcart, Mrs. Curtis Hunt, Mrs. Keith McConkey and Mrs. Emil Nelson; and war veterans.

The program consisted of selections by the bands, prayer by Rev. S. P. Kirm, and addresses by Rev. Howard C. Watkins and Alex Tyo. The exercises closed by the firing squad, taps sounded by John Kirm, and the Star Spangled Banner by the band.

Rev. Mr. Watkins, speaking on the subject, "Must Destruction Be Our Destiny," said in part: "Memorial Day is the day which a grateful republic remembers. We remember Valley Forge, Gettysburg, the Argonne, Pearl Harbor, Guam, Leyte, and Okinawa. We pause to honor our honored dead, and loved ones by extending a tribute of flowers, whispered prayer, as our President asked us to do this morning at 11:00 o'clock.

"To remember our dead is a mark of Christian civilization. Heathen carnal nations do not honor their dead. Christian spiritual hearts delight to honor their dead. St. Paul in his letter to the Romans stated, 'For to be carnally minded is death; but to be spiritually minded is life and peace.' All religion, all philosophy, all the history of man, all the beauty and tragedy and pathos of human life is in that sentence.

"General Douglas MacArthur, in that memorable speech on the battlefield in Missouri, when the Japanese were signing the peace treaty, issued a warning to all of us: 'We have had our last chance. Concluded on page 3.

## Wm. McQueens Note 25th Wedding Anniversary June 12

Open house will be observed on Sunday, June 12, at the home of Mr. and Mrs. William A. McQueen in celebration of their twenty-fifth wedding anniversary. The hours are from two to four and from seven to nine o'clock and their home is located four miles west, one-half south and one-half west of Deford.

Lennie Weller McTaggart of Crosswell and William A. McQueen of Snover were united in marriage by Rev. Mr. Mealey at a Methodist parsonage in Port Huron on June 12, 1924. They lived in Crosswell for six years and then moved to their present home where they have since resided.

## Miss Murray Wed To Norman Maurer Saturday Morning

In a Saturday morning ceremony read at the St. Joseph Catholic Church at nine o'clock at Argyle, Miss Lorraine Murray, daughter of Paul Murray, of Cass City, became the bride of Norman Maurer, son of Mr. and Mrs. Peter Maurer, of Bad Axe. The Rev. Fr. Flannery officiated at the double ring rites.

Given in marriage by her father, the bride was attended by her friend, Miss Bernice Masa of Bad Axe, as maid of honor, and the Misses Ruth Abraham of Uby, Phebe Ann Maurer of Bad Axe and Sandy St. James of Bay City as bridesmaids. Miss Kitty Lou Ball of Tawas City was junior bridesmaid.

The groom's attendants were his brother, Donald Maurer of Bad Axe, his cousin, Jack Murray, of Uby and the bride's brother, A. J. Murray, of Cass City, and the ushers were Ray Murray, cousin of the groom, of Uby, and Alex Murray, brother of the bride, of Cass City. All the men in the wedding party wore tuxedos.

For her marriage the bride chose a gown of traditional white slipper satin and rose point lace. The fitted bodice featured a marquisette yoke, trimmed with wide lace which formed a bertha across the shoulders. The skirt extended on page 10.

## Dillman New Pres. Of Merchants' League

Approximately 100 men attended the annual banquet of the Merchants' Bowling League which was held at the Blue Water Inn at Caseville and enjoyed a chicken and fish dinner on Wednesday evening.

At the business session, George Dillman was chosen president; Harvey Bartle, vice president; and Norman Huff, secretary-treasurer.

## Cass City Chamber of Commerce Meet

## Plan Instructive Program for June Grass Day Meets

Grass Day programs throughout Michigan this June will demonstrate to farmers the management and utilization of legumes and grasses in their farming program. Demonstrations have been set up at each of ten host farms by extension specialists from Michigan State College cooperating with county agricultural agents.

As in 1948, a standard method demonstration at each Grass Day will be the seeding of a field to alfalfa-bromegrass mixture. This will include liming the area (if necessary), working the lime into the soil, fertilizing the seedbed, and seeding the area.

Other demonstrations already prepared show various seedings, fertilizer treatments, and erosion control methods. Specialists will be on hand to explain these plots and to discuss individual problems with visiting farmers.

In the afternoon of each day-long program, field demonstrations of various types of forage harvesting and handling equipment will be conducted. These machines will include field balers, forage choppers, hay crushers, and crop blowers.

Moisture-testing equipment for hay and hay-crop silage will also be displayed and explained at each event. This new method has been recently developed by Dr. S. T. Dexter, farm crops specialist at Michigan State College.

A series of Grass Day programs is designed to bring farmers up-to-date information concerning establishing, management, harvesting, and utilization of high quality forages.

The Grass Day program for the Thumb area will be in Sanilac County at the Floyd Dale farm on June 24. This farm is located three miles east and one-half north of Marlette. County Agents from all Thumb counties are cooperating in the program.

## Tuscola Chapter Now Operating on Half Time Basis

The Tuscola Chapter of the Red Cross is now operating the headquarters office on a half time basis only. The new plan of operation was announced some weeks ago by the executive committee of the chapter's board of directors. The plan became effective Wednesday, June 1.

W. Emerson Scott continues as the paid home service worker and Mrs. Gerald DeBoer is the half time stenographer.

Citizens of the county, veterans in particular, who desire service through the Red Cross are urged to bear in mind the chapter's office is now open all day Thursdays and Fridays and on Saturday mornings only.

The present plan of operation had to be arranged due to failure of the Red Cross fund campaigns in 1948 and 1949. It is understood the present board of directors, through its executive committee, will recommend to the new board that it plans to close the office completely on August 1. A new board of directors will be elected at an open meeting later this month. All work of the chapter will be accomplished by volunteers should the office be closed.

What a terrific din there'd be if we made as much noise when things go right as we do when they go wrong.

## C. S. Seed Died in Rochester Friday

Charles S. Seed, 76, senior publisher of the Rochester (Mich.) Clarion, died Friday at his home in that city. Funeral services were held Tuesday afternoon.

Last August, Mr. Seed celebrated his golden anniversary as owner and publisher of the Clarion. His son, Earl, has been associated with his father in the newspaper business since 1919 and became a partner in 1944. Surviving are his wife; son, Earl; and a brother, J. E. Seed, of Cass City.

Charles Seed was born in Elkland Township and was the son of Hugh and Esther Orr Seed, who were among the earliest settlers in this township. Mr. Seed published the Cass City Gazette previous to moving to Rochester.

## Donors Needed For Civilian Blood Clinic in Tuscola

Project Is Sponsored by Red Cross and Mich. Department of Health

Additional donors are needed for the civilian blood clinic to be held at Murray Hall, Caro State Hospital, Friday, June 10, according to Mrs. R. R. Howlett, the local Red Cross general chairman for the event.

The clinic is sponsored by the Tuscola County Red Cross Chapter in cooperation with the Michigan Department of Health. A mobile unit of the department, staffed by professional physician and nurses, will be on hand.

Appointments for donors can be arranged during the hours of 11:00 a. m. to 1:00 p. m. and 5:00 p. m. to 7:00 p. m. Persons desiring to register as donors may telephone the Red Cross Office, Caro 612, or contact any of the following persons: Mrs. Frank Gugino, Reese; Mrs. Walter Pelczar, Unionville; Mrs. Harry Berman, Millington; Mrs. John Shoemaker, Vassar; Mrs. Frank L. Morris, Cass City; Mrs. U. B. Ruskin, Caro State Hospital; Mrs. Raymond Cook, Akron; Mrs. Bertha Phelps, Mayville; and Mrs. Herbert Nigges, Caro.

Blood collected at the clinic will be processed into plasma. This plasma is then distributed in this county by local physicians and hospitals. The plasma is not sold but a charge may be made for administering it to a patient.

Among the most frequent cases where plasma is required are burns, traffic accidents, prolonged childbirths, hemorrhages, and in preparation for surgery. Plasma can be administered regardless of blood type of the patient and thereby saves time and lives in an emergency.

Mrs. Howlett has indicated each donor will be in the clinic about half an hour. The Red Cross will furnish refreshments to the donors before and after their blood is taken. "We are urging," she said, "everyone to consider the donation of a pint of blood now as a sort of insurance policy that the plasma will be on hand if he or a member of his family should need it."

## Veterans' Counseling Center Open Three Days Each Week

Arthur Dehmel, chairman of the Tuscola County Council of Veterans' Affairs, announces that the counseling center office, located in the court house at Caro, is now operating on a half-time basis only.

W. Emerson Scott continues as veteran's counselor. No additional office help is now employed. Veterans and their next of kin who desire further service at the Veterans' Counseling Center should bear in mind that the office is now open on Monday, Tuesday and Wednesday of each week only.

Veterans needing emergency service when the counseling center is not open should contact the service officer of their nearest veterans organization, or contact the Veterans' Administration Office in Saginaw.

There are active veteran organizations in Caro, Cass City, Gagetown, Unionville, Vassar, Richville, Millington, Postoria and Mayville. The Counseling Center Office will be closed completely on August 1. This decision was agreed upon by the Council of Veterans' Affairs in early May. Every veterans organization in the county is a member of the council.

The want ads are newsy, too.

## Testimonial Dinner Honoring Ben H. McComb June 13

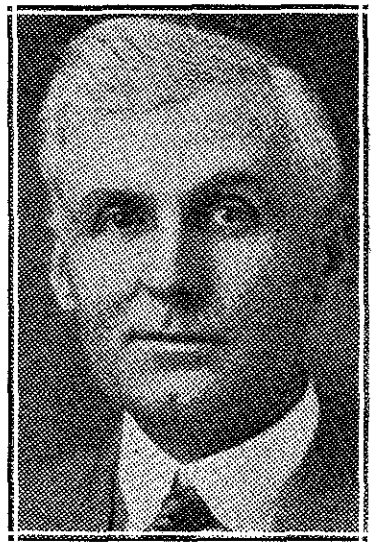

Noted State Educators Are on Evening Program at Caro High School

A testimonial dinner honoring Ben H. McComb who retired as county superintendent of schools on January 1, 1949, will be held in the Caro High School auditorium on June 13 at 7:00 p. m.

Aunt Kate says: "Whatever you do, do with your might. Things done by half, are never done right."

## Counterfeit Hail Tested

### On Growing Soybean Crops

Studies of the damage hailstorms may do to growing crops of soybeans, made by the U. S. department of agriculture and the Iowa experiment station through measuring the effects of artificial leaf removal and reduction of the stand by cutting out plants, have shown little loss unless damage is severe. The investigators found that before the crop came into bloom they could remove up to half the foliage or cut out up to half the plants over the field—comparable to damage from a fairly severe hailstorm—with little or no reduction in yield.

But after bloom stage this simulated hail damage cut down yield, the farther the crop was along the greater the reduction.

The agronomists reason that this result sheds light on the probable effect on yield of damage to the crop from other causes, such as grasshoppers or other leaf-eating insects or diseases that damage leaves. They concluded their results should be helpful in deciding between different cultivation practices.

They call attention to the fact that many farmers do not use the rotary hoe, the spike-tooth harrow, or the weeder on young soybean plants because of the supposed yield reducing damage. From the insignificant yield losses shown in the leaf and plant reductions up to 50 per cent, they feel sure there is small risk of loss in using these implements up to the time the plants are four or five inches tall.

## Meteors Fall in Siberia;

### Heard for Thousand Miles

A meteoric swarm fell in northern Siberia on June 30, 1908. The earth shock produced was detected on a seismograph at Irkutsk, some 600 miles distant, while the air wave was recorded on a sensitive barograph in England. The sound was heard nearly a thousand miles away, according to scientists of the G. E. research laboratory.

Because of World War I and the inaccessibility of the location, no detailed study was made until 1927, when an expedition of the Russian academy of sciences, headed by L. A. Kulik, reached the spot. They found a region several miles in diameter, within which there were some 200 craters, varying from one to fifty yards in diameter. For miles around the trees had been uprooted and blown over, their trunks all pointing away from the center and scorched by the wave of compressed and heated air. A full report was published later by the academy.

## 13th JUNE DAIRY MONTH

June is Dairy Month from coast to coast. It highlights dairy foods for which housewives spend more than 15 per cent of their food budgets. In turn they get nearly 30 per cent of the food consumed annually in this country.

The physical well-being of every person, old and young, leans heavily on milk and its many products. Take fresh milk and cream, for example, about 60 million quarts are distributed through stores and doorsteps daily across the nation. Today milk consumption alone is 14 per cent higher than before World War II.

Dairy foods used in each home represent an industry that employs full time at least 1,500,000 persons and gives a livelihood to about 10 million people. In addition the industry contributes \$10 billion to national commerce.

Men are like corks when it comes to proposing: some will pop the question while others have to be drawn out.

## Written Farm Leases

Written farm leases are not a cure for unhealthy landlord-tenant relations... but they do have many advantages. H. W. Hannah, a member of the Illinois bar and a staff member of the University of Illinois college of agriculture, says that written leases are apt to be thought through very carefully. They furnish a written record of what the parties agreed upon at the time the lease was made. Such a record tends to establish farm management practices much more definitely than oral agreements do. A written lease protects the interest of the estate and the tenant or landlord in case of the death of either party. And if certain facts are questioned, the lease serves as the source of proof.

## Restudy of Lincoln in 1949

For a restudy of Lincoln in 1949 there is no problem more important than his approach to questions of peace and war, according to J. G. Randall, University of Illinois professor of English and noted Lincoln author. Questioned on the present significance of Lincoln's attitude, Dr. Randall said: "He did not regard war as an instrument of policy. You 'cannot fight always,' Lincoln said, 'and when... you cease fighting, the identical old questions... are again upon you.' As to military 'glory' he had no illusions. He compared such glory to 'that attractive rainbow that rises in showers of blood—that serpent's eye that charms to destroy.'"

## How Sauerkraut Is Made

In making sauerkraut, about 2 per cent of salt is added to the shredded cabbage and it is packed in large vats. The salt draws out sugar and other nutrients from the cabbage, forming a juice which is a good medium for the development of bacteria that are generally plentiful on the cut shreds. These bacteria cause the fermentation and convert the sugar into lactic acid, which is one of the most important constituents. Small amounts of acetic acid and ethyl alcohol are also formed.

## Flue Linings in Chimneys

Clay flue lining is used to form a single, continuous, fireproof unit inside all types of chimneys. It prevents weather, heat and corrosive smokes and gases from eating away the mortar between the bricks of the chimney, thus eliminating the danger of flames reaching combustible materials through possible cracks. Because of its effectiveness, most communities now protect their citizens with ordinances requiring flue linings to be installed in all new chimneys.

## Pig Casualties

Approximately 15 per cent of all pigs born on Maryland farms are killed when the sow lies on them accidentally. This can be prevented easily.

## HUMANITY STANDS AT CROSSROADS OF LIFE, SAYS SPEAKER

Concluded from page 1.

If we do not now devise some greater and more equitable system, Armageddon will be at our door. The problem is basically theological and involves a spiritual recrudescence and improvement of human character. It must be of the spirit if we are to save the flesh.

"The Atom has been split before we have allowed the spirit of Christ to unite us. That is being impressed upon us by the scientist of the laboratory, and by motion picture story. This means that we must work assiduously to become spiritually minded, otherwise destruction may be ours.

"Humanity stands at the cross roads of life. There are four possible roads or philosophies which we can accept for our life patterns.

"1. The first is blood and land. This road has devastated Europe, cost one trillion four hundred billion dollars in money, took a million lives, several from this community, causing intense suffering and misery.

"2. The second possibility is that of class and creed, which is exemplified in the unending struggle for power. There are times when conquerors seem to have the world in their grasp, but eventually a nemesis destroys them and brings their vaunted achievements to naught. Hitler claimed to be the leader of a super race, but he forgot the judgments of history. Hitler was but the personification of the spirit which has been abroad in the world for years. For a number of years Germany educated her youth in the doctrine which glorified war, denouncing all religious and moral laws as a remnant of Christian superstition. It shows that an entire nation can be changed in a single generation by the education of its youth.

But all conquerors fail and fall. All down the line Napoleon, Kaiser Wilhelm and Hitler. We need to restudy the education of our youth, or motives as a nation, and culture a formula of peace in the laboratories of our thinking, or destruction may be ours.

"3. The third path is that of goods and gadgets. This road offers the delusion that the answer to all our needs is found in material possessions. That philosophy has always failed. The slogan in times of peace prepare for war, always raises up international crooks and gangsters like Hitler.

"4. So the remaining road is that of brotherhood and service. This philosophy teaches that it is in giving rather than getting that we obtain peace, harmony, unity and love.

"The statement is challenging us 'What are you going to do with my world?' That is what is facing all of us. The atomic scientists state that we must eliminate war to live. We must make war unthinkable. We who call ourselves Christians would not be true to ourselves, if we did not state emphatically that there is one defense against atomic warfare. It is that men become interested in spiritual values of life and become spiritually minded.

"We must realize it is our duty to love our neighbor and do what we can to help them. Christianity is the religion of the Jericho road. It is absolutely essential that we become the Good Samaritan to a world that has been robbed, beaten and left wounded by the roadside of the world.

"The peacemakers can find only one plan that will work in all periods and with all nations. It is the simple, practical, workable plan that was given to the world, by Jesus Christ, two thousand years ago. We must become evangelists of the way of Christ. The peace of the world is in the hands of men today. We must agree with General MacArthur that we have had our last chance. Only within the reservoirs of Christian faith can be found hope for our day. We cannot be carnally minded and preserve a Christian world. And nowhere outside of the Christian message of truth can be found anything that will measure up to these ideals.

"A conviction and faith. A conviction that to be spiritually minded is life and peace, and a faith that Jesus Christ can bring this to pass in lives of men and nations. And to keep faith with the boys who made the supreme sacrifice we must have courage to speak the truth in conviction and have a faith that God is able to bring it about."

Legionnaire Speaker.

Alex Tyo, representing the American Legion, spoke as follows:

"Memorial Day is our national remembrance day, when we honor the gallant dead of all our wars. It is the day when we remember those of our buddies who were killed in action on land, sea and in the air or those who have since died as a result of the wars.

"These men are very real to us; we knew them and cannot forget them. But to show real appreciation of their sacrifices, we must make every day a remembrance day. When the heroes we honor gave their lives for us, they also gave us a solemn obligation. That

was to carry on the task for which they died—that task was to keep America safe and always American. That is an every day assignment—a continuous job.

"It calls for making America strong both for her own security and for her leadership toward enduring peace; to rid the world forever of bombs, bullies and bigots. It calls for a re-birth of old-fashioned Americanism to preserve the tried and tested virtues of Democracy, justice, equality, and freedom of opportunity.

"It calls for vigilance because that still remains the price of liberty. Only in this way can we keep faith with those who gave their last full measure of devotion to God and country. By keeping this faith we shall make certain that our hero dead did not die in vain, that others shall not have to die to hold what has been paid for in the past with so much blood and treasure."

## Culling Chickens

The time to start culling is when chicks are placed under the brooder. All birds that appear runty or weak should be promptly culled out, killed, and disposed of by burning or deep burying. Culling is a continuous process which should be practiced throughout the life of the chickens.

## Kitchen Step Ladder

Homemakers who argue that they cannot afford a step ladder or step stool for use in the kitchen have not checked the current costs of hospitalization for broken limbs. Such a step stool should be kept in the kitchen where it can be used frequently and not stored in the attic or in the basement.

On Monday the group was joined by Mr. and Mrs. D. V. Aldrich and family of Deford and all enjoyed a picnic dinner on the lawn at the home of Mr. and Mrs. W. R. Aldrich. Mrs. D. V. Aldrich and Mrs. W. R. Aldrich are both sisters of Mrs. Dingman.

Mr. and Mrs. Omar Glaspie and Mr. and Mrs. Ezra Hutchinson enjoyed a sight-seeing trip last week end taking the lake shore drive. The most interesting sight and experience was south and west of Sebewaing in an open field near the road where they saw a partly grown deer which proved to be very tame. It came near the car as they stopped and each one petted the animal which it seemed to enjoy very much and found pleasure in putting his nose in Mr. Hutchinson's pocket. The only regret was that no one took a camera along.

## E. R. Purdy Died In Caro Tuesday

Edwin R. Purdy, 78, died in Caro Community Hospital on Tuesday after several months' illness. Funeral services were held at his home in Caro on Thursday afternoon, conducted by Rev. Elmer I. Braden.

Mr. Purdy was born in Indianfields Township, on a farm one mile west of Caro, on Oct. 3, 1870. He retired from the farm to a home in Caro eight years ago. He was married June 12, 1895, to the former Miss Hattie M. Hammond who survives. The couple observed their golden wedding anniversary in 1945.

Mr. Purdy was a member of the Presbyterian Church, the Indianfields and the Hickory farmers' clubs. He served his township as a justice of the peace and was supervisor and a member of the committee of the board of supervisors in charge of building the courthouse in 1931. He was one of the organizers of Caro Farmers Cooperative Elevator Co. more than 30 years ago, and served as a member of the board of directors and as president until retiring two years ago.

Surviving besides his widow are two children, Mrs. James Fessler, of Wayne, Howard H. Purdy, of Caro; a sister, Mrs. Samuel R. Park of Caro; two brothers, Fred J. and Bert O. Purdy, of Caro; three grandchildren, Mrs. Verne Vandemark, of East Lansing, John Purdy, of Harvard University, and James Fessler, of Wayne.

## Death of Mrs. Spittler—

Mrs. Virgil Spittler, 48, passed away at the Caro Community Hospital on Sunday, May 29. She had been ill about two years.

The remains were taken from the Hunter Funeral Home to the Gagetown Methodist Church on Wednesday afternoon where funeral services were conducted by Rev. H. Kuhlman. Interment was in the Gagetown cemetery.

Edna Irene Sawyer was born on Jan. 29, 1901, at Lyn, Ont., and came to Gagetown from Gouverneur, N. Y., directly after her marriage with Virgil Spittler on Aug. 16, 1934. She was a member of the Methodist Church.

Surviving are her husband; her father, John H. Sawyer, of Ogdensburg, N. Y.; four brothers and three sisters.

Mr. and Mrs. C. T. Jackson and Mr. and Mrs. Wm. Gregor and daughter of Flint spent Sunday with Mr. and Mrs. James L. Purdy.

Mrs. George Purdy entertained the 500 group at her home last week Wednesday. Mrs. Al Secoir won high prize, Mrs. Anna High second, and Mrs. Patrick Stapleton won consolation. Mrs. M. P. Freeman entertained the group this week Thursday.

Mr. and Mrs. Lester Mackay and son, Charles, of Long Branch, New Jersey, are spending several days with Mrs. Mackay's parents, Mr. and Mrs. John Mackay.

Miss Joan Fischer is in Lamoni, Iowa, visiting relatives and attending graduation exercises.

Mr. and Mrs. Wallace Laurie visited Mr. and Mrs. Floyd Laurie at Higgins Lake from Friday until Tuesday.

Mr. and Mrs. Zeffery LaClair spent from Sunday until Tuesday in Flint with Mr. and Mrs. Arnold Herron.

Mr. and Mrs. Delos J. Wood and three sons of Muskegon and Mr. and Mrs. Francis Hunter and two daughters of Detroit visited from Saturday until Monday with Mrs. C. P. Hunter. Mr. and Mrs. Vincent Weiler and Vincent, Jr., of Saginaw were Sunday guests.

Michael Wald is spending the week in Saginaw with Mr. and Mrs. Vincent Weiler.

Mr. and Mrs. Martin Freeman were guests of Mr. and Mrs. Jerome Rocheleau from Saturday until Tuesday. Mr. and Mrs. Willey of Grand Rapids were Sunday visitors.

Mrs. Henry Oehring of Saginaw is spending the week with her sisters here.

## RESCUE

## Grant Farm Bureau—

The Grant Farm Bureau met at the Williamson schoolhouse May 25. Twenty-seven members were present. The meeting was opened by Chairman Henry Kruse.

Mrs. Martin Blondel, secretary, read the minutes of the last meeting and the farm bureau news letter. Jack McDonald led the discussion on "What Does Secretary of Agriculture Brannon Suggest?"

For the social part of the evening euchre was played with prizes going to Mrs. Jack McDonald, Mrs. Robert Osborn and Mrs. Oscar Nixon for the ladies and John Guisberg, Jack O'Neil and Merlin Williamson for the men.

The hosts and hostesses were Mr. and Mrs. Clifton Endersbee, Mr. and Mrs. Howard Error and

Mr. and Mrs. John Guisberg.

The next meeting will be June 22 when Mr. and Mrs. Henry Kruse, Mr. and Mrs. Jack McDonald and Mr. and Mrs. Alex Jamison will entertain.

Potluck lunch was enjoyed at the close of the evening.

By Robert Kitchen

The softball game between Scout Dads and Scouts was postponed until this week because of rainy weather last Wednesday.

Larry Morrison, candidate, Robert Freeman and Harold Schwaderer were winners of the substitute games.

Marion Peacock was our guest for the second time in a row. Mr. Peacock brought a wall chart from Saginaw with the 1949 and 1950 goals for membership, advancement and program.

Ray Fleenor was also our guest, and made a fairly convincing speech on the wearing of the Boy Scout uniform.

Tom Townsend and the Cobra Patrol gave a demonstration on rescuing a victim who has broken through the ice. He demonstrated two ways of rescuing the victim. He also gave a demonstration of how to put out clothing fires. Richard Mallory served as victim.

Plans were made for the setting out of flags at 6:15 a. m. Memorial Day and the participation of the Scout troop in the parade.

Money-making may not be the true end of life, but it's often the real beginning of living.

**Nuts as Main Dish**  
Nuts contain high quality protein and vitamins. When combined with other ingredients to make a main dish, such as nut loaf, they may be used as a meat alternate.

**Rural Electric**  
More rural people used electric power for more purposes during 1948 than in any previous year in history, according to the U. S. department of agriculture.

**Breakfast—Important Meal**  
Do you always eat breakfast? You need breakfast if you expect to do your best work and be bubbling over with energy for the day's work. Prepare slow cooking cereals the night before, cover with a thin film of water, and reheat in the morning before stirring. Dried fruit soaked overnight cooks very quickly. You can cook it with the cereal. Fresh fruit juices may be bottled, stoppered, and stored in the refrigerator.

**Soil Decline**  
Chief cause of soil decline is the loss of organic matter. Approximately 65 per cent of all new wealth created in the United States stems from agricultural production.

**"Wood Burners"**  
Earliest locomotives were wood burners. As they grew in size the change from wood to coal was started about 1875.

**Biscuit Dough**  
Cut biscuit dough into squares quickly with the metal ice cube rack from the refrigerator tray.

### Cowcatcher Helped Solve Early Railroad Problems

That most familiar of all railroad accessories, the cowcatcher, is a unique American institution. Mitford M. Mathews, University of Chicago dictionary editor, says.

No other industry has affected the American language as much as the railroads, which began to play a very important part in the nation's culture as early as 1830, according to Mathews.

The cowcatcher was called a "cowlifter," a "horselifter," and several other titles before someone hit upon the happy combination "cowcatcher."

The early cowcatchers were forged of grillwork 10 feet long, extending from the front of the engine to the track, with the foremost section resting on its own pair of wheels. With good reason many people called the contrivance a "pilot."

Developed by the early American railroaders to solve the problem of rescuing stray cattle that wandered on the track, the cowcatcher solved a problem not met in any country. The word came into usage in 1830 when the engineer stopped his train and got help to lift the cattle down from the grill work.

### Sharp Knives Are Needed To Do Good Kitchen Job

Chief among kitchen tools are sharp knives. You may use them 100 times a day or more though you don't realize it.

One well-made paring knife is worth a dozen specialized gadgets when you count up the jobs it does for you. The balance of the knife and the way it fits your hand affect its usefulness. And the three parts of the knife—handle, blade and shank or tang—are all important in making it easy to use.

Blade shapes vary from a rounded sharp edge to a straight edge. Generally a slightly curved blade works best for the greatest number of jobs. Look for a good point; it's helpful for digging out potato eyes and for similar jobs.

Metal in blades is usually some form of steel. Your best guide for buying a good blade is to choose a reliable brand name. Stainless steel blades usually have a sharp edge. Look for words "stainless steel" on a knife to be sure that's what it is. If the blade is plated, the plating generally will sharpen off.

### 1949 Hillebrand Prize

Dr. Edgar Reynolds Smith, chief of the physical chemistry section of the national bureau of standards, has been awarded the 1949 Hillebrand prize of the Washington section of the American Chemical society. Dr. Smith, who prepared the first samples of heavy water, now used by other countries in their atomic piles, was cited for his "original work in physical chemistry, more especially contributions to electrochemistry and ebulliometry." Ebulliometry is the precise measurement of the boiling points of liquids. Although previous recipients of the Hillebrand prize have been selected on the basis of one or two outstanding achievements, the 1949 award committee declined to single out any of Dr. Smith's research accomplishments for special honor, because of the general excellence of his work.

### Discovery of Guncotton

In 1848 while American troops under Zachary Taylor were storming Mexican strongholds and California followed Texas in declaring itself an independent state, Alfred Du Pont took some cotton and treated it with nitric and sulphuric acids, after a formula discovered by a European scientist. The result was one of the first samples of guncotton, or nitro-cotton, to be produced in America. In 1889 John Wesley Hyatt produced an ivory-like product by treating with camphor the same syrupy nitrocellulose solution that had interested Du Pont a generation before. This product, called celluloid, became the forerunner of the modern plastics industry.

### Radio Replaces Congo Drums

When future travelers in Belgian Congo hear the throb of a distant drum, more than likely they will find it accompanied by the wall of saxophones playing at some London or New York dance. For the "white man's tom-tom" has moved into the African jungle. A new radio service to Belgian Congo natives has been inaugurated in six local dialects, under the direction largely of native announcers and technicians. It puts the old tribal drums in the horse-and-buggy class. Drum communication has a language all its own, with each blow representing a spoken syllable.

### A Desert That Blooms

Namib desert stretches its desolate length 850 miles along the Atlantic coast of southwest Africa. Away from a few tree-bordered streams, this desert is mostly a barren waste of rocky, sandy flats and hills, with sand dunes near the shore that are blown by high winds to heights of 60 feet and more. When the infrequent rains come, however, the desert blooms with green vegetation, attracting considerable small game, including the graceful springbok, or African gazelle.

**Strange Fact**  
Loss of lives at the Coconut Grove fire in Boston—492—was greater than that suffered by American troops in the invasion of North Africa.

**An Excellent Habit**  
The "drink more milk" idea which made progress during the war is holding its gains and becoming established as a good habit, says the U. S. department of agriculture.

## 30 IMPORTANT DAYS IN MICHIGAN

June has been proclaimed Dairy Month in Michigan by Governor Williams—not as a good-will gesture to dairy farmers but because dairying is generally considered the state's most essential industry.

Milk provides Michigan farmers their largest cash income—more than 218 million dollars last year.

The million dairy cows on Michigan farms provide in excess of 2 billion 650 million quarts of milk a year.

These dairy herds represent an investment of 273 million dollars just in livestock alone.

But aside from these impressive figures, Milk has won a place in the "Hall of Fame" as the most essential item of food in the American diet—it is indispensable to the Nation's welfare.

More than 15,000 members of this Cooperative are working unitedly to provide their markets with the finest of milk and dairy products. This month they are setting aside a portion of their incomes to help finance both state and national programs of research and experimentation. These projects are carried on to improve the quality of their herds and products and find new uses for milk. All of which contributes to better health and a greater enjoyment of life by all of our people.

Going, Going, Gone

A COMMERCIAL traveller entered the shop of a grocer named March and said: "March, on the 1st of April the price of tea is going up."

"I'm sorry to hear that," replied March.

A few days later a wholesale salesman came in and said: "March, on the 1st of April the price of sugar is going up."

"I'm sorry to hear that," said March.

Later on the landlord came in and said: "March, on the 1st of April I must put the rent up."

"I'm sorry to hear that," said March.

Then he put up this sign in his window: "The first of April will be the end of March."

**ABOUT TIME**

Art student: "You're the first model I've kissed."

Model: "Really? How many have you had?"

Art student: "Four—an apple, an orange, a vase of flowers, and you."

**Breaking It Gently**

The little wife, after giving her husband a good dinner, snuggled up to him and whispered: "Darling, I have news for you. Soon there will be a third in our little home."

His face lit up with joy.

"You mean—" he faltered.

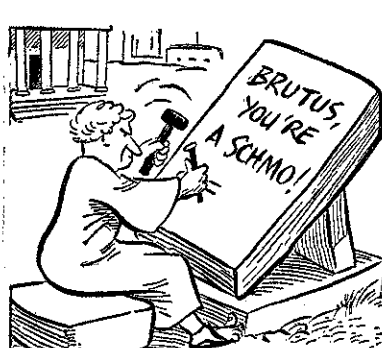

"Yes, dear," she continued. "Mother is coming to live with us."

**Never Fails**

Summer Boarder—What's making all that noise? Surely you are not running a threshing machine at this time of the year.

The Farmer—No, the boys are figuring up the profits from our boarders on our new rapid calculating machine.

**OUCH!**

The student of ancient history was telling his friends a few interesting facts.

"There is a case," said he, "where a Roman engraved a curse on a slab of stone and sent it to an enemy—"

"Sent him a very stiff letter, eh?" interrupted a wag.

**Turn About**

A grocer had difficulty with a doctor who was backward in paying his bills, so he put the matter in the hands of a collector. The man returned looking worried.

"What's the matter?" asked the grocer. "What did the doctor say?"

"Well," replied the collector, "he said I wasn't looking well, examined my tongue, and advised me to remain indoors for a few weeks."

**No Change**

Watson returned to his native town after some years abroad.

"Has Watson changed much in the years he has been away?" asked one who had heard of his return, but had not yet seen him.

"No," said the man addressed, "but he thinks he has."

"In what way?"

"Oh, he persists in talking about what a fool he used to be!"

**TOO SOON**

A loud and objectionable bore had been talking for hours about himself and his achievements.

"I'm a self-made man, that's what I am—a self-made man," he said.

"You knocked off work too soon," came a quiet voice from the corner.

The want ads are newsy, too.

**Down Memory Lane**  
FROM THE FILES OF THE CHRONICLE

Thirty-five Years Ago.  
June 5, 1914.

Fire destroyed the 40x60 basement barn on the farm of John Profit, four miles north of Cass City, together with the silo, tool shed, hen coop, hog pen and granary Monday afternoon. The loss is estimated at \$3,500 which was partially covered by insurance.

The graduates of Cass City High School number 21. They are Ray Yakes, Ida Vogel, Lester Childs, Harold Lee, Carola Fritz, Alfred Farrell, William Bien, Alvin Benkelman, Caroline Keating, Leone Matkins, James Townsend, Ella Wallace, Seva Withey, Hazel Seeger, Effie Brown, Laura Striffler, Niva Gable, Ersel Wallace, Lloyd McKim, Norman McGilvray and Ora Stockmeyer.

The birthday of Mrs. Julia Ann Huffman comes on Decoration Day. Saturday was her 81st anniversary and she celebrated the event by riding on horseback to Elkland cemetery where she witnessed the decoration of the graves of departed veterans.

L. K. Supernaw shipped his household goods to Otisville Monday and left for that village the same afternoon. He has purchased the drug store at that place from Dalton Moshier.

Miss Carrie Hurley completed a successful year as teacher of the Bird school Friday, and teacher, pupils and patrons celebrated the event with a picnic. There were about 60 present. Miss Mary Burt has been engaged to teach the school next year.

Appearing without collars at high school Wednesday morning 15 or 20 of Marlette's boys were invited to leave the school until they could come back dressed "respectably."

Twenty-five Years Ago.  
June 6, 1924.

All instructors of the present faculty of the Cass City Public Schools were offered contracts and all but two of the teachers will remain on the staff next year. Harry E. Duke of Kalamazoo Normal will be the new principal of the high school, succeeding Harry Huller in that position. Miss Kathryn Wassenaar will succeed Miss Alvina Lang as assistant principal of the junior high. There are 17 instructors on the staff.

Polar Bears to the number of nearly 1,500 met at Detroit May 29-31 in bi-ennial convention. Roy Bricker of Cass City was elected treasurer of the organization.

Rev. Roy J. Striffler has been called to the position of assistant minister of the Calvary Evangelical Church at Cleveland, Ohio, with the privilege of devoting his mornings for graduate study at Western Reserve University in that city.

Miss Iva Kolb, who for several years past has served as clerk in the local post office, left Sunday for Detroit where on Monday she began work in a similar position. Miss Tillie Willerton is filling the vacancy in the local office.

An address upon "The Glow of Youth" will be given by Rev. I. W. Cargo at the baccalaureate service at the M. E. Church June 8.

**Cement Mixing**  
Don't try to "stretch" a bag of cement too far. For average wet sand, five gallons of water for each bag of cement is about right.

**Certified Seed**  
Growers can improve the grain situation in their communities through the use of certified, treated seed of recommended varieties.

**ORDER FOR PUBLICATION—APPOINTMENT OF ADMINISTRATOR.**  
State of Michigan, the Probate Court for the County of Tuscola.

At a session of said Court, held at the Probate office, in the Village of Caro, in said County on the 20th day of May, A. D. 1949.

Present, Honorable Almon C. Pierce, Judge of Probate.

In the matter of the Estate of Charles E. Hurd, Deceased.

Norman Hurd having filed in said Court his petition praying that the administration of said estate be granted to D. W. Wilson, or to some other suitable person.

It is ordered, that the 29th day of July, A. D. 1949, at ten o'clock in the forenoon, at said Probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, once each week for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said County.

**Cottonseed Spoilage**  
Spoilage of stored cottonseed is a serious problem to southern cotton farmers and cottonseed-oil millers. In some years it costs them millions of dollars.

**Waxed Floors**  
Don't use an oily mop for polishing waxed floors. This will soften the wax coat, and the floor will collect dust.

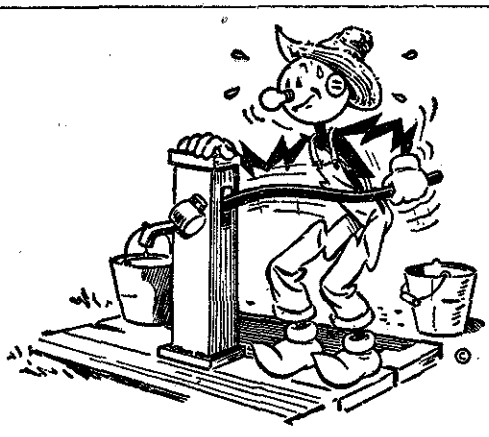

**Sources of Vitamin D**  
Most reliable sources of vitamin D for farm animals are sunshine, irradiated yeast, and fish oils.

**Bumper Wheat Crop**  
United States farmers produced their second largest wheat crop in 1948. It was exceeded only in 1947.

**Improved Mash**  
Palatability of dry mash can be increased in hot weather by moistening it with skim milk or water to a crumbly state. The wet mash usually is fed on-e daily early in the afternoon. An amount the birds will clean up in 30 minutes is recommended.

**Citrus Fruit for Cows**  
Dairy cows like to eat oranges, grapefruit and lemons. Dairy cows can be fed, as part of their ration, citrus pulp and citrus fruits.

**Barley for Horses**  
For horses, barley should be coarsely ground or crushed as the grains are too hard and small for horses to chew them well.

**Would you pump water for only 1 1/2¢ an hour?**

Reddy Kilowatt says you just can't afford to pump water the old-fashioned way. Step up profits, cut down work with an electric water system. You'll agree it's the cheapest and best hired help a farmer could hope to find.

If you already have running water, now is the time to increase its usefulness. Complete water systems and electric pumps of all types and capacities are available for immediate installation.

probably hear about it for months to come.

Here is the legislative record in brief:

Legislative appropriations were the highest in state history, exceeding last year's by \$36 millions, about \$40 millions more than anticipated revenues.

Maximum benefits for old age recipients were increased 20 per cent from \$50 to \$60 a month. Also higher benefits were granted under the workmen's compensation act whereby dependency in industrial accidents is recognized for the first time in history. The ceiling on unemployment insurance benefits was also raised; penalty provisions were softened.

The Bonine-Tripp labor law was revised to encourage voluntary arbitration; to provide cooling-off periods and other methods for preventing strikes against public utilities including hospitals.

The sales and use tax acts were tightened to get better collections; compromises on penalties and interest charges, where evasion is obvious, were prohibited; the statute of limitation was removed where fraud is proved.

Limit on bonus applications of war veterans was extended two years to March 19, 1951. Veterans were given preference in public jobs; \$170,000 income of the veterans' trust fund set aside for veterans' hospitalization; local governments may grant special parking permits to disabled veterans.

The one-man grand jury law was replaced by a three-judge system with no immunity for state witnesses. Indictments must be unanimous.

A water resources commission was created to control pollution and to cooperate with local governments on flood control problems. Earmarking of license fees was terminated. Size limit on panfish was removed. Conservation commission was given additional discretionary power to control the deer herd.

Parimutuel betting and all horse racing at the state fairgrounds, Detroit, will be terminated Jan. 1, 1950. A bill to outlaw betting at all race tracks was killed in House committee, after getting through the Senate—the same procedure as two years ago.

Liquor cannot be sold on state property, including state parks; bottle clubs are outlawed; a \$1-per-gallon tax was placed on out-of-state fortified wines, as a protection for Michigan-made wines; liquor legislation referendums limited to state elections.

Governor G. Mennen Williams, following his strategy of keeping the Republican legislature on the defensive, has served notice that a special session would be called (perhaps in the fall) to consider new tax revenues in order to avert a state treasury deficit. (Approximately two-thirds of the state revenues are returned to local governments.)

In an appeal to the C.I.O. State Convention, Governor Williams urged labor to "pump some guts" into legislators. He criticized them for "failure" to enact measures for public housing, agricultural "seal of quality", non-discrimination in employment, and more labor benefits.

Guy Jenkins, veteran correspondent of the Booth Newspapers, commented caustically: "Williams' fiscal program is almost identical with what has been coming out of Washington since the early days of the New Deal with the late Harry Hopkins adopting the philosophy

of tax and tax, spend and spend, elect and elect."

Owen C. Deatrick, Detroit Free Press writer: "No new taxes . . . nobody hurt by anything the legislature did."

Kim Sigler: "They've (the legislature) scuttled the only system that uncovered graft and corruption in government in Michigan." Rep. Louis C. Cramton, former La-peer circuit judge, called the new grand jury plan an "unworkable monstrosity."

Saginaw News: "If it carries the label of a do-nothing legislature, that isn't all to the bad. Much of its do-nothingness centered about Governor Williams' legislative program, loaded with increase costs of services and extended social legislation."

And so it goes. The voters will pronounce the verdict in November, 1950.

## This and That

Andrew Cross stood on the "main corner" early Monday morning when an old-time friend greeted him with the words, "Better run home and don your band suit for today is Decoration Day." Andy was a member of the Cass City Cornet Band some 40 years ago and the remark carried him back via Memory Lane when that group of amateur musicians played a funeral march all the way from the G. A. R. hall to Elkland cemetery. The march was played over and over for the mile stretch, and after the Memorial Day program at the cemetery, the band played a lively march continuously for the mile walk back uptown. There had to be plenty of "lip" those days and the marchers were made happy if the village sprinkler wagon made the trip over the road and laid some of the dust just before the parade started. Those were the "good old days," or were they?

Mrs. Don Borg did double duty as a player of hymns Sunday. After starting the Methodists in their morning service, she slipped over to the Evangelical United Brethren Church and served as hymn player and also as piano accompanist for her husband who sang a solo and for a male chorus at a service there which started a half hour later than the Methodist. Being music teachers in the public school often entails many outside engagements for the exercise of musical talent. The Cass City community has found the Borgs most liberal in filling places on various programs and their willingness in this respect to exercise their fine talents is greatly appreciated.

Commencement exercises for the largest class in the history of the Cass City High School come next Tuesday. The Chronicle extends hearty congratulations to members of the Class of '49. Even though Cass City folks cannot hope to see each member of the class every day as before, they hope to see them very often. Best wishes for a happy and useful career!

"Three happiest years we have ever known," writes Fritz Neitzel in describing the experiences of the Neitzels in their business career in Cass City, on the occasion of their third anniversary. Well, folks here have enjoyed having Peg and Fritz in town. It is a great satisfaction in having someone succeed the Maier family in the photographic business who would maintain the fine reputation earned by them. Cass City is fortunate in having a local studio and not having to depend on itinerant photographers, here today and gone tomorrow.

### TESTIMONIAL DINNER HONORING BEN H. McCOMB JUNE 13

Concluded from page 1.

have known Mr. McComb for so long to the dinner. A large audience is anticipated and Mr. Ransford states that tickets are available until June 9 or until 350 persons have purchased tickets. Tickets may be purchased from Miss Lucile Craig, office of county superintendent, courthouse, Caro.

Mr. McComb was appointed to the office of commissioner of schools at the October session of the board of supervisors in 1914 when H. P. Bush resigned to enter business. At the spring election of 1915, Mr. McComb was elected for a full four-year term. He was elected each four year term until 1947. Since that time a new law was passed which provides that the appointment of the county superintendent of schools be made by the county board of education. Mr. McComb served in the capacity of first county superintendent in Tuscola County.

Mr. McComb was born in the Hopkins School District of Millington Township and attended that school through the first eight grades. He then attended Millington High School and was graduated in 1908. As a high school student he gained fame as an athlete and was star pitcher on the school's baseball team. He wrote the teacher's examination before the county board of examiners and received a third grade certificate. His first school was in Genesee County. In 1909 he became superintendent of Kingston High School which position he held until he was appointed commissioner of schools.

By taking extension work and attending summer schools, Mr. McComb received his Bachelor of Science degree from Michigan State Normal College. In 1944 he received the honorary degree of Master of Education from Michigan State Normal College. He was elected district chairman of the Michigan Education Association in 1947.

During World War II, Mr. McComb assumed the added responsibility of being chairman of the Tuscola County Red Cross Chapter.

Friends of Mr. McComb are very pleased to hear that he is again in excellent health and hope that his future endeavors will allow him to remain in Tuscola County.

### MISS MURRAY WED TO NORMAN MAURER SATURDAY MORNING

Concluded from page 1.

tended into a long train and was ruffled in front. Her veil was finger-tip in length with a crown of three orchid seed pearls and her only jewelry was a locket, a gift of the groom. She carried a bridal bouquet of white roses. Her going away costume was a red and white dress with white accessories.

The maid of honor was dressed in Nile green marquisette, tunic style, with a large picture hat. Her arm bouquet was of pink carnations.

The gowns of the bridesmaids were orchid in color and were styled identically as that of the maid of honor. Yellow carnations formed their arm bouquets and they also wore large picture hats.

The junior bridesmaid, who is a cousin of the bride, wore white marquisette, styled the same as the bridesmaids' gowns, and her hat was made of net. Her colonial bouquet was made of pink carnations.

The groom's mother appeared in navy blue with gray accessories and a gardenia corsage.

Following the ceremony in the church, which was prettily decorated with tulips and bridal wreath, a wedding breakfast was served in the Home Restaurant in Cass City and in the evening a reception for 300 guests was held in the Uby High School.

After a honeymoon trip through mid-western states the young couple will make their home on a farm, east of Bad Axe.

The bride has been employed as a bookkeeper in the Hubbard State Bank at Bad Axe.

### Good Clean Pasture Helps Poultry Men

#### Home Grown Feeds Cut Operating Cost

Good clean pasture and plenty of home grown feeds for your pullet crop pays dividends in more eggs, lower production costs and bigger poultry profits. The use of range shelters, range feeders and barrel waterers makes such a program easily possible.

Missouri university tests show that pullets on well-fertilized alfalfa pasture consumed 17 per cent less feed than birds on bare range. The pasture-fed pullets needed less feed for each pound of gain. Birds on clean pasture were healthier

1935-39	1948

and more energetic. Mortality rate was lower and there were fewer culls. Out of 100 pullets at four weeks of age, 94 of the alfalfa-ranged birds later went into the laying house, compared to 70 of those raised on bare ground. Purdue university tests showed that ladino clover with corn and small grains provided a complete ration for laying flocks.

Getting good pasture and a cheap and plentiful supply of grain is a matter of putting farm soil in shape to produce bigger yields per acre. For this you need a rotation in which deep-rooted legumes and grasses are Keystone. You need to build up the organic matter supply via plowed-under legumes, crop residues and manure. You need to feed the soil a good ration of plant nutrients, so it, in turn, can feed the crops. In such a program, fertilizer is an important member of the soil-building team.

At current prices, eggs will buy nearly twice as much fertilizer as 10 years ago. It takes only 90 dozen eggs to buy a ton of 3-12-12 fertilizer today, whereas it took 170 dozen back in 1939.

### Check Work Stock

Owners of the 55,000 horses and mules on Maryland farms have been urged to "check intake valves, remove carbon from the cylinders, and adjust the carburetor."

Those terms aren't as mixed as one might think. Joseph M. Vial, extension animal husbandman, explained that a horse's mouth and teeth may be compared to intake valves on a tractor. The teeth need to be floated (just as the intake valve needs to be properly seated) if they are to meet evenly and let the horse chew his feed properly.

Just as tractors are troubled with carbon in the cylinders, horses may have trouble with internal parasites. These may be removed by any competent veterinarian and the horse will be a better worker during the coming summer.

The carburetor on the tractor adjusts fuel supply to the work load. For horses, this is accomplished by getting them in proper condition before the heavy work load comes. Vial recommends this be done by "feeding the horse a handful of oil meal with his grain at this time of year to keep him in good condition and by giving him as many jobs to do as possible; such as spreading manure or hauling logs."

Other recommendations include: "Keep water in his cooling system, keep his tires in good condition by having him properly shod and see that his harness fits."

### Farm Record Keepers Told of "Short Cut"

"It's easier to keep up than to catch up," advises Clara Leopold, extension home management specialist at the University of Nebraska, to the home and farm account record keeper. Another hint, she says, is to keep a pencil attached to the account records.

According to Mrs. Leopold, a certain time each day should be set aside to jot down the daily transactions.

Well arranged time is the surest mark of well arranged minds.

### Local Great Lakes Sailor Died Saturday

Funeral services were held Tuesday afternoon at 2:00 p. m. for Lachlan MacLachlan, a Great Lakes sailor of this vicinity, who passed away Saturday in Marine Hospital in Detroit. Rev. Melvin R. Vender officiated at the rites which were held in the Douglas Funeral Home. Burial was made in the McTaggart cemetery in Sheridan Township, Huron County.

Mr. MacLachlan, who was never married, is survived by a brother, Dougald MacLachlan, Grant Township, Huron County, and two sisters, Mrs. Catherine McKenzie and Mrs. Jessie Brewster, both of Bad Axe.

He was born Dec. 25, 1880, in Scotland, son of the late Lachlan and Mary Allison MacLachlan.

Mrs. Banks—"Well, I admit that I was outspoken at the Social Service meeting today."

Mr. Banks—"I don't believe it. Who outspoke you?"

### NATURALLY

There was some jealousy in the circus, and the giant and the dwarf were not on the best of terms when the little man complained of indisposition. "Throat trouble, I think," he said. "Nonsense," snapped the giant. "A man of your inches couldn't tell whether he'd got laryngitis or housemaid's knee."

**Cause of "Creeps"**  
Lacking enough phosphorus in their feed, cattle may develop nutritional diseases, the most common of which is known as "creeps."
