CASS CITY CHRONICLE CASS CITY, MICHIGAN, FRIDAY, SEPTEMBER 16, 1949.

VOLUME 44, NUMBER 21.

School Enrollment At Cass City Was 855 on Tuesday

Ninth Grade Has 107 Members: Junior High Attendance Shows Decrease

School enrollment on Tuesday totalled 885 students. In the senior high school, there are 352 pupils classified as follows: 12th grade, 55; 11th grade, 91; 10th grade, 99; and 9th grade, 107.

In the junior high, 45 are enrolled in the 8th grade and 48 in the 7th. In this department the enrollment is slightly less than a year ago.

The lower grades and kindergarten have 440 pupils.

Because of the addition of an extra grade teacher, there are fewer students in each grade room than last year.

People bringing pupils to school and calling for them after sessions are requested to use the south entrance of the school building. The Gavel Club to north entrance in reserved for pupils who come to school in the busses. The school management has the permission of the village nas the permission of the village council to close Oak St. at the school building and the Seeger St. entrance to the north of the school site durig school sessions.

Dr. W. O. Dickerson **Given Caro Post**

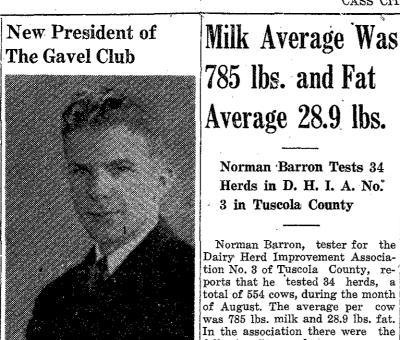

The State Mental Health Commission Friday promoted Dr. Willard W. Dickerson, a former Cass City physician, to the position of medical superintendent of the Caro State hospital, effective Oct.

He will replace Dr. R. L. Dixon, who retires then. Dr. Dickerson, 44, has been on the institutional staff since 1934 and has been assistant superintendent since 1936.

The Cumpers Buy **Marlette Restaurant**

Mr. and Mrs. Kenneth Cumper have purchased a restaurant in Marlette, four doors west of the stoplight in that village. The opening of the restaurant which will be cents for students. All admissions, Friday afternoon.

Mr. Cumper will continue to gate. No tickets will be sold elsemanage the New Gordon Hotel in where. Cass City while Mrs. Cumper will manage and do the cooking at the Rendezvous.

professor of music, Michigan State

Meeting Will Be Held Tuesday, September 20, at the Caro High School

All persons interested in the fu-ture of Tuscola County are urged to attend a conference dealing with County Planning and Development, to be held Tuesday, Sept. 20, at 8:00 p. m. in the Caro High School. County Agent Loren Armbruster states that this conference is an important milestone in the affairs of the county, and that it is the outgrowth of the Tuscola County Land Use Planning Program which was so active a few years ago. More than 150 Tuscola people

actively participated in the Land Use Planning Program in 1946. Committees were formed in every

township and many meetings were 25 years ago when he was teaching held. A great deal of valuable inagriculture in the local schools, formation was obtained and rewas honored during the State 4-H corded in map form. Seeing the Club Show at Michigan State Colvalue of this work, many places of ege, East Lansing, by the presenbusiness pledged financial support tation of an emerald clover award.

New Selling System **Aids Hog Producers** Price Agreed Upon Right in The Pen

Under a new system of selling hogs, buyers and salesmen at the markets agree on the price right in the pen before the hogs are

weighed. Thus the old weightschedule is being replaced by a

The quality of this Chester White sow and litter is apparent even to the casual observer; but under the old weightschedule of selling hogs, breeders who produce such quality stock would receive nothing extra for the added time and care they had expended to bring their hogs to such a de-

gree of excellence. The reason advanced for increased interest in marketing is that the weight-schedule system fails to recognize the difference birthday. between hogs. It also fails to pay

for true quality. Under the old schedule-selling, salesmen and buyers at a market Mrs. Harriet Glougie, who went to Wyandotte with them Sunday for a would agree in the morning how many hogs each buyer would get. risit. A schedule of process was set up Mrs. Vincent Wald and Mrs.

according to weight. "Hogs was William Martus and their group hogs" and the scale's determined

But that system is gradually being abandoned. Under the old method, farmers judged probable market prices by estimating the weight of their hogs. A premium of 50 cents per hundredweight was considered unusual at the market although the real value of hogs of the same weight varies as much as \$5 or \$6 per animal. Such premiums offered poor pay to the expert producer who raises topquality hogs worth more money. Another reason for the new system is the fear that if a better job is used in Canada) is being ex-Mrs. Theodore Gracey spent the plored by many farmers, cooperations and studies under the federal research and marketing act. Many

public market operators also are worried about the decline in volume of hogs arriving for sale at terminal markets.

Victor P. Rasmussen (left) and Max J. Rasmussen, of Cache county Utah, did not know they would be national wheat champions when this photo was taken on their 4,000 acre farm, between Cache Junction and Clarkston, Utah.

The wheat, which Victor Rasmussen is holding, is a sample of the crop from the 2.000 acres of wheat land, which is owned jointly by these two men and their brother Reuben, who was too busy farming that day to get in the picture.

The Rasmussens' wheat, which was hard red winter of the Cache variety with a test weight of 64 pounds per bushel, took first place in the 8th annual Philip W. Pillsbury judging for best United States wheat raised in 1948. The grain competed with 37 samples from 20 other states when the judging was held in Minneapolis.

The Rasmussens rotate their wheat crop on 4,000 acres of unirrigated land. They are the sons of Philip H. Rasmussen, who won the state and national Pillsbury award in 1946.

Soil Check May Answer Slow Tile Drain Puzzle

If tile-drained land is slow in drying, check the organic matter content of your soils before blaming the tile system. Many tile lines that worked well when originally laid are now hampered because the water can't get through the soil to the tile. You open your soil and improve drainage when you grow well-fertilized deep-rooted legumes in the rotation and put back straw, cornstalks and manure.

The institute put on the largest collection of illusions on earth to prove that illusions are normal, and fun.

There was an uphill goldfish bowl. a room that tilted the rest of the world crazily, a stationary automobile that moved and roses that were there, only weren't. Or you could watch a talking head-with no body to support it-or a motionless flag appearing to wave.

Psychologists estimate that 20 per cent of the population is illusion blind and 'can't recognize them: If one sees an illusion it proves normalcy.

It's time to worry when one doesn't see them.

The illusions at the institute were baffling, until they were explained. It was puzzling to pass your hand through a pot of roses and never touch a rose. They weren't in the pot. They were behind it. It was

ridiculously easy to understand, once it was explained. Mirrors. The same explanation disclosed the secret of the talking head, the trick seen at nearly every sideshow. The body belonging to the head was cleverly concealed in a glass case.

Elderly Ladies Hitch-Hike Distance of 1,816 Miles

MOBILE, ALA .-- A Canadian mother and grandmother, both in their 50's, completed a 1,616-mile trip that cost them only \$11.75.

The sisters made the entire trip from Ottawa to Mobile by thumbing it, thereby fulfilling a lifelong ambition to take a hitchhiking trip. The two, Mrs. Hattie E. Thompson, 54, and Mrs. Pearl Empey, 52, live in Ottawa. They came to nearby Theodore to visit a brother, W. W. Mackie, whom they hadn't seen in 47 years. Mrs. Thompson has five grandchildren.

"Everyone was very nice to us," they said, "and nothing eventual happened." Altogether they caught 43 rides,

one of them on a truck in Pennsylvania. The longest ride was 346 miles from Rogersville, Tenn., to

Birmingham. They covered the entire distance in five days.

Largest Island

Largest island in the world is Greenland.

"If I ever see your usly face around here again. I'll kill you!"

A NDY was bewildered and un-happy. The next day he found himself brooding over the situation. By mid-afternoon he could stand it no longer. Leaving Noah Tait in charge of operations, he drove home. As he strode up the walk he heard a cry. He burst open the

door and found Tony Swift trying to kiss his wife. Tony wasn't drunk. He was babbling something about Leonie really loving him. Tony whirled at the sound Andy made. His lip curled. "Oho! The

sissy from Bos----' Andy strode across the floor. His face was black. "I guess," he said bitterly; "you're dumb, after all. You need teaching.' He struck out. Tony tried to dodge, but Andy's fist clipped him on the chin so hard that

he went down. "Damn you!" He lunged, but Andy wasn't where he expected. Andy's fist flashed out again, and again Tony went down. Andy jerked him to his feet and hit him again. He hit him a third time and a fourth. Blood covered Tony's face. Tony whimpered for mercy. Andy dragged him to the door and threw him out. "Andy!" Leonie fled into his

arms. "Oh, my darling, you were wonderful! Oh, precious, forgive me for what I said. Andy, why didn't you do that before--that night at the dance?" Andy frowned. "Why, shucks, honey, I don't like to fight. Don't

you see? He was drunk then. There was no need." Leonie laid her head on his shoulder. "I see, darling. Of course

I see." But she didn't.

The want ads are newsy, too.

Red Tree Mouse

The red tree mouse of the Pacific coast will starve unless it can get the needles of the Douglas fir tree to eat.

Excluding the Presidents who vere assassinated, three U.S. Presidents have died in office.

Laugh and the world laughs with you; weep and you streak your rouge.

NOTICE TO CONTRACTORS FOR BRIDGE CONSTRUCTION FOR BRIDGE CONSTRUCTION Sealed proposals for the construction of three (3) bridges in the County of Tus-cola, will be received by the Board of County Road Commissioners for the Coun-ty of Tuscola, State of Michigan; at their offices in the Village of Caro, Michigan; until 1:00 p. m. (EST) Thursday, Septem-ber 22, 1949.

until 1:00 p. m. (EST) Intraday, Septem-ber 22, 1949. Construction to be of steel piling with timber backing and steel I beam stringers with plank flooring. All materials to be furnished by the Tuscola County Road Commission. Instructions to bidders, specifications, bid forms, etc., may be obtained at the of-fices of the Tuscola County Road Com-mission, 120 Millwood St., Caro, Michigan. The Board of County Road Commis-sioners reserves the right to accept or re-ject any or all bids and to re-advertise, or to accept the bid that in their judgment is to the best interests of the County. BOARD OF COUNTY ROAD COMMIS

SIONERS FOR THE COUNTY OF TUSCOLA, STATE OF MICHIGAN ORDER FOR PUBLICATION

Final Administration Account.

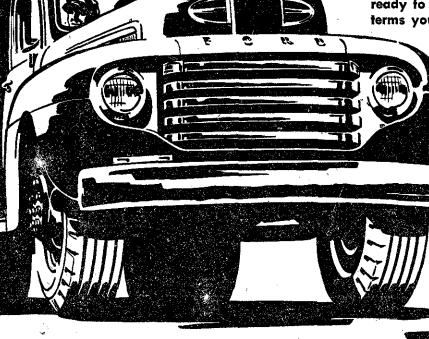

State of Michigan, the Probate Court for the County of Tuscola. At a session of said Court, held at the Probate Office in the Village of Caro, in said County, on the 27th day of August, A. D. 1949 Present, Hon. Almon C. Pierce, Judge of Probate.

In the matter of the Estate of Lewis Law, Deceased.

Law, Deceased. Clinton Law having filed in said Court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate. It is ordered, that the 20th day of Sep-tember, A. D. 1949, at ten o'clock in the forencon, at said Probate Office, be and is hereby appointed for examining and allowing said account and hearing said petition;

Allowing state account and a public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Cass City Chronicle, a newspaper printed and circulated in said County. ALMON C. PIERCE, Judge of Probate.

A true copy. Dorothy Reavey, Register of Probate. 9-2-8

Polar Bear Cub Learns

Moscow.

To Swim, But Takes Time MILWAUKEE. - After six months during which its mother fretted and worried, the newest polar bear cub at the Washing. ton Park zoo here finally had learned how to swim.

The cub got a low opinion of water when it slipped into the icy water accidentally. Like any sensible person on a

cold day, the young polar bear got out of there as fast as possible and went shivering to the warmest part of the cave. After that, Sultana II, the cub's mother, couldn't get it near the pool. The keepers tried, too, but the cub wanted no more of it. But suddenly things changed. Without warning, the cub started swimming, and now there's no keeping it out of the water. Nobody knows what happened. The keepers guessed the cub might

have slipped in. Or its mother may have feared her child was becoming abnormal and pushed

War on Lake Gnats Will **Require Vast Poison Use**

it in.

CLEAR LAKE, CALIF .-- One of the biggest doses of poison ever mixed-nearly 200 billion gallonswas to be used here soon in an attempt to free Cedar Lake, a famous vacation spot, of pestilential gnats. The whole lake, covering 40,000 acres, was to be poisoned for gnats. A fleet of small boats would dump many tons of TDE, one of the new insecticides, into the lake in a blitz operation.

Federal and county insect control workers said it probably would be the largest undertaking of its kind. A day or two before the maxi-

mum hatch of ghats is to appear, the boats would deposit the poison. Theoretically it would prevent the birth of billions of gnats and perhaps break their chain of reproduction so that they never again will appear in such enormous numbers as they have in the past. On warm evenings in middle and late summer the gnats become so thick that automobile driving is hazardous. Dead gnats pile up in drifts along some parts of the lake shore. Spiders which use the gnats for food become so numerous that their webs form silvery drapes on

trees, poles and buildings. The gnats hatch in the water and emerge at the rate of 31/2 to 7 billion a day. The total hatch one year on about two-thirds of the lake was counted at 712 billion, or 356 tons. A million gnats weigh about one pound, The evening swarms are pe-riods for egg-laying. The eggs are

HIS PLACE IN THE WORLD

You dream of a lot of things for him ... a college education and medical school . . . or a start in a business of his own ... or agricultural college ... or a chance to take over the farm free of debt.

Whether the dreams come true depends on a lot of things — in a large degree on him-and in a still greater degree on you . . . Say it's to be college — a full four years at State with some specialization afterwards...That takes some money, a pretty good bit actually; but you figure your earnings are going to be adequate to take care of it... Or you put some money aside in a bank as a sort of college fund : : :

Fine — unless : : : Unless something

happens. But this is something too important to have threatened by any possibilities; this has to be rock solid ...

There's just one way to get protection like that - through insurance Straight life insurance will assure against financial troubles in case of sudden death; an Educational Fund policy will keep enough salted away for all those four years; special annuities will provide steady income to cushion your retirement years when that fime comes

This adds up to solid assurance that the money will be ready when his career needs it

Insurance protection assures his place in the world.

CASS CITY CHRONICLE-FRIDAY, SEPTEMBER 16, 1949.

Aussie Males Said to 'Wow' **American Girls**

MELBOURNE, AUSTRALIA.--A graduate of Hunter college in New York who married a New Zealander but has lived in Australia since as a girl and graduated from the 1941 says Australian men are "bet- Cass City High School in 1903, After bets-as bachelors or husbands" -than American men.

was born at "and always moved Detroit. back to" New Rochelle, N. Y. She said American/ girls "go'

for Australian men. Mrs. Colbert wrote "In Defense of the Australian Male" under the name of Carol Coleman in the Melbourne national fortnightly, Woman's Day.

The wife of a corset and brassiere factory manager in Melbourne, she said in an interview that she formed her opinion of the United States male in four years spent getting her B.A. degree from Hunter college.

She met her husband aboard the Matson liner Monterey coming to Australia, worked as a dietician in the Melbourne Alfred hospital for terv. six months, then married.

Often "Surprised"

"The Australian male," she Chas. F. Kercher, Jr. wrote, "is often surprised, pleased and fightered by his success abroad. Hurt in Auto Crash When he gets back home he is full of his glory and fond of telling the lass next door that she doesn't appreciate him the way American girls did.

"Why do American girls 'go' for Australian men? Why does the local product look so good away from home? Let me go right on the record, please, and maintain that it looks all right on its own home ground.

fed on dazzling Hollywood versions abutment, rolled over several times of American womanhood and who and was completely demolished. recently were awed and blinded by

American uniforms and wealth, W. S. C. OPENS FALL lend an ear to one who speaks straight from the heart. You always take an Australian male any time or place, always.

Why? Because he has no 'line'; because he's not messed up and hedged in by fraternities. Because he doesn't suffer from a surfeit of sophistication.

"Every American male is convinced that his line is unique, devastating and sure-fire, and that it effectively disguises the inner wolf.

Attitude of Conceit

"This bespeaks an attitude of conceit in the America male, and that is why Australian men are better bets-as bachelors or husbands. The American man expects. to hunt, or to be hunted, while there is less self-consciousness between the sexes in Australia, and more genuine friendliness.

"I attribute this to three causes: the early age at which boys and girls go out on dates in America; the early age at which American boys are allowed to own or to drive cars, and the accessibility; and fraternities

the ripe age of 14, and my escort a read an article entitled, "You're seasoned 16. He had his car, and a Somebody's Hero" which im-

Atomic Time May Take Place **Of Current Measure Systems**

PHILADELPHIA.—The world is Joys" at roll call all were invited about to face a choice between two kinds of time, because the earth's rate of rotation-is slowing. to the dining room where, at a beautifully appointed table, tea was poured by Mrs. M. C. McLellan

This is the message of the world's and Mrs. Ray Boughton. The recepchief timekeeper, Britain's royal tion committee, Mrs. Fred Maier, astronomer, Sir Harold Spencer Miss Laura Maier, Mrs. Mason Jones, chief of Greenwich time. He is having trouble with the length of the day, he reported to the American philosophical society.

He said that because of the gradual slowing in the earth's rotation time today is not the same as in Babyionian days. Records of Babylonian astronomers show this. Time is slower now because the earth takes longer to reel off 24 there. hours.

That will go on, Sir Harold said, until it will take 47 of the present days for the earth to make one 'turn on its axis.

In that day, too, the earth will always present the same face to the moon, because the moon's motion around the earth will be clover awards for 20 years of serslower. You will have to travel half way around the world then to see the moon if you happen to live on the wrong side.

this long day is too remote to be awarded pearl clover pins for 15 ning Report. Then too, the group Sir Harold said that although important now, its beginnings are years of leadership work.

But Sir Harold said the new atomic clock about to be built by the na- and Gordon Smeckert, all of Sanitional bureau of standards, Washington, will really differ from the Mantei and June Nelson, all of time shown by present Greenwich methods of relying on the earth's rotation. The atomic clocks will be correct. Mother earth will be wrong.

The slowdown is due partly to the drag, that is friction, of tides in shallow seas. The moon raises these tides. It works just like the 'moon using a rope to hold back the earth.
