

Dr. Rawson Will Crown the Queen Before Vassar Game

Dedication of Stadium at Park Will Be Made After First Half of Contest

Dr. Delbert Rawson, president of the Cass City Chamber of Commerce, will crown Miss Josephine Oleski as home-coming queen at Recreation Park directly before the opening of the Vassar-Cass City game here tonight (Friday). This will be followed by a flag raising ceremony.

At the end of the first half of the game will occur the dedication of the stadium at the park. Before the game is resumed the Cass City High School Band, under the direction of Don Borg, will entertain the fans with musical selections and maneuvers.

A dance at the school auditorium will follow the game at which time the Merle Fitch Orchestra of Deckerville will furnish music.

The home-coming queen will reign at the game and dance.

Students of the school will execute a snake dance on Main St. at 3 p. m. today (Friday) as a pregame pep demonstration. This was announced last week for Thursday night, Nov. 3, but was later changed to this afternoon. The game starts tonight at eight o'clock.

A A Annual Banquet At Caseville Oct. 27

The third annual banquet of Alcoholics Anonymous was held at the Blue Water Inn at Caseville on Thursday, Oct. 27. This meeting included several new groups that have now started in the Thumb area.

A prominent speaker from Muskegon, Michigan, was the main feature of the evening. He gave and explained the reason for and mode of treatment of alcoholics in Alcoholics Anonymous, using himself as exhibit A.

A young guest sang several numbers he composed, and various group singing numbers concluded the program.

This was the first public banquet in this particular service group.

There have been several radio skits and newspaper cartoons recently besides various newspaper articles concerning this growing national problem and the public is aware of it by the splendid attendance at the banquet.

Rev. M. R. Vender Installs Officers of Men's Council

Official representative men from twenty-four churches of Flint Presbytery met in the First Presbyterian Church at Marlette Sunday for the purpose of organizing the Flint Presbytery National Council of Presbyterian Men. President Louis A. Komjathy of the Synod's Council addressed the assembly at the afternoon session.

Following the evening luncheon officers were elected. Harry Neely, elder in Bethany Church of Flint, will head the council as president. Lee Ross of Bad Axe is a vice president from this area.

The officers-elect were installed by Rev. Melvin R. Vender.

The climactic high light of interest was the presentation of Charter No. 1 in the Flint Council to the men of the Calvary Presbyterian Church of Flint, the youngest church in the Presbytery of which the Rev. Walter Taylor is minister.

Mrs. Glen Wakefield, president of Flint Presbytery, extended greetings to the "other half," but was gracious enough not to say the "worse" half, and taking them "for better or worse" wished for them the best of success.

Clarence Eddy, director of music at First Church, Flint, led the newly organized council and guests in the closing hymn.

Arthur Holmberg and James Gross, council representatives from the local Presbyterian Church, concurred in the hope of their pastor that Louis A. Komjathy, a Detroit attorney and elder of the Woodward Ave. Church, be invited to Cass City as guest speaker on Men's Sunday or some other special occasion.

4-H Achievement Week Observed In Tuscola Co.

Fall Recognition Night Is Scheduled for Nov. 9 at Murray Hall

National 4-H Club Achievement Week, November 5-13, will be celebrated in Tuscola County, according to word from Byron Carpenter, County 4-H Club agent. The principal event of the week of interest to 4-H Club members, leaders, and friends, will be the annual fall recognition night or achievement program, which will be held at Murray Hall, Caro State Hospital, Wednesday, November 9, at 8 p. m.

Club work is a part of the national educational system of co-operative extension work in agriculture and home economics in which the United States Department of Agriculture, Michigan State College, and this county share. It provides rural young people an opportunity to learn the value of science in farming and homemaking. Members develop leadership and the ability to work with others through responsibilities of the clubs.

Recognition night in Tuscola County will climax the work of 4-H summer club members with the announcement of county winners in most of the principal projects. Special contests sponsored on a national basis by business concerns include gold medals for county winners, as well as cash and bond awards, scholarships, trips, and merchandise. Achievement certificates and pins signifying completion of various years of 4-H club work will be given out to local 4-H leaders at the November 9 program.

Highlighting the many awards to be presented to winning 4-H club members on recognition night will be the Michigan Farmer awards, engraved bronze paperweights presented to the winning all-around girl and boy in the county, the junior leadership awards, sponsored by Edward Foss Wilson, gold medals awarded to

Group of Westminster Fellowshipists at Alma Home-coming

Saturday, October 29, three auto loads of the young people of the Westminster Fellowship of the Presbyterian Church and a couple of guest friends (a party of sixteen) journeyed to Alma to attend the home-coming football game between Alma and Albion. They were accompanied by Mrs. C. M. Wallace, Mrs. Claude Karr and Rev. and Mrs. M. R. Vender, as guides, "speed-counselors," chauffeurs, or "fire extinguishers" as you prefer. Marjorie Karr can inform anyone who arrived first. It has been said that "the longest way 'round is the nicest way home," but adversely, sometimes the longest way 'round is the quickest way there; at least the strategy worked and age outwitted youth?

All arrived in time to see the parade. Some clever and colorful floats appeared in the college-sponsored parade at 10:30 a. m. Also parents, students and pastor enjoyed "open house" at No. 308 Pioneer Hall, where Jim Wallace and Don Karr reside.

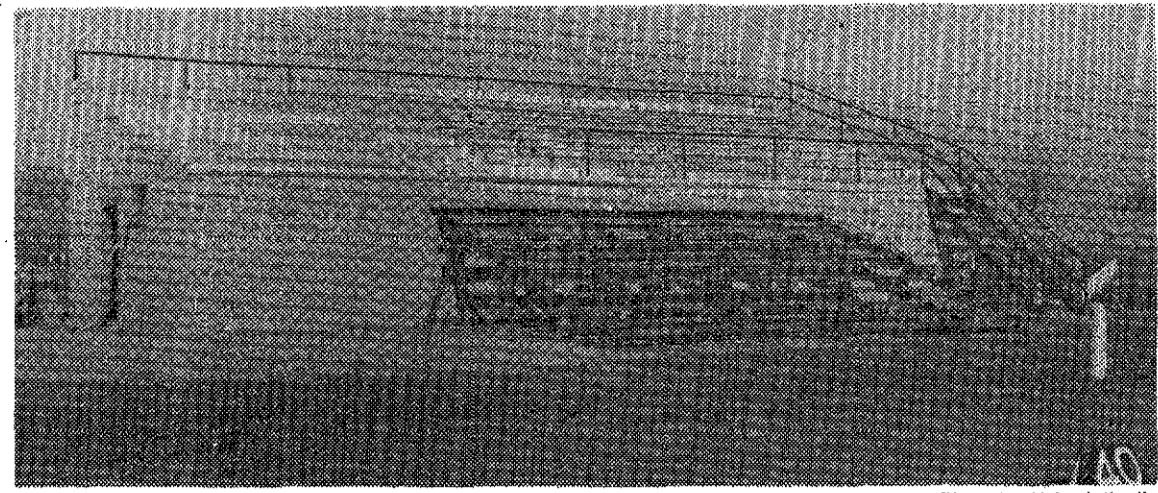

Rev. and Mrs. Melvin R. Vender attended an alumni luncheon in the Park Hotel at St. Louis, where they greeted many former classmates and friends of college days. Mr. Vender was a graduate of Alma in 1920 prior to attending Princeton Seminary and Graduate Study at Northwestern University and the University of Chicago. Among other episodes a classmate of 1919 guessed "that Mrs. Vender must be Mel's daughter," as he

A member of the Saginaw Police Dept., Detective Donald Berg, will be the speaker at the November meeting of the Cass City Community Club next Tuesday evening, Nov. 8, at the school auditorium. "Bogus Checks" will be the subject of his address.

Mr. Berg is 36 years of age and entered the police department on Sept. 16, 1942. He first worked with juveniles and then as a detective. In recent years, he has made "bad checks" his special work and has a record of recovering 70 per cent of the total amount of money represented by poor checks issued.

Stadium to Be Dedicated Tonight

—Photo by Neitzel Studio

The stadium at the west side of the football field at Recreation Park will be dedicated after the first half of the Vassar-Cass City game here tonight (Friday). The building, 20x60 ft. in size, is constructed of cement blocks, has two team rooms, each 20x20 ft., with attached toilets. There are also toilet facilities for the public. The roof, constructed of reinforced concrete, carries concrete bleachers with seating capacity for 270. The building was constructed under the supervision of C. R. Hunt.

The stadium project was sponsored by the Rotary Club with Robert Keppen as chairman of the finance committee. Individual subscriptions coming from local citizens totaled nearly \$5,000.00, according to a recent report.

This and That

Looks like the solicitors for the Elkland Township Community Chest under the direction of Dave Ackerman are going to collect the \$5,000.00 set as a goal for this year's drive. With part of the workers having made their complete reports, the amount of \$3,700.00 was reported on Wednesday. People in the rural sections are subscribing somewhat more liberally than in the initial campaign conducted a year ago.

While it is still early to think about buying a Christmas tree, the harvest of Michigan's annual Christmas tree crop of upwards of a million trees has already started, according to C. A. Boyer, chief of the Bureau of Plant Industry, Michigan Department of Agriculture. As a protection to land owners the 1933 Michigan Legislature passed Act No. 124, known as "The Christmas Tree Act," which governs the removal and transportation of both Christmas trees and Christmas boughs. Briefly Mr. Boyer states this act prohibits the cutting and/or removal or transportation of such stock without the written consent of the owner, which, interpreted means a legal bill of sale must accompany the Christmas tree or boughs.

One is reminded that Christmas isn't too far away by an advertisement of the Gamble Store in this number of the Chronicle where the opening of Toyland is announced.

Peter Rienstra is recognized as the "man of the month" by Northern Light, a magazine published in Saginaw for the Equitable Life Assurance Society of the United States. In an article giving him credit as a consistent producing agent for the Equitable, his life history and activities in business and community life are reviewed.

Dr. George Gallop, director of the American Institute of Public Opinion, recently conducted a poll to determine how many working days the average person must work to pay the cost of government. Only one voter out of three was able to come reasonably close to the 61 days average which was said to be the answer of former president, Herbert Hoover.

Print this, says local merchant: "Isn't it funny? So many business men will get up in the morning refresh themselves with a dose of advertised salts. Clean their teeth with an advertised brush and advertised tooth paste. Wash themselves with an advertised soap, and on advertised underwear, advertised hose, garters, shirt, collar and shoes. Seat themselves at the table and eat advertised breakfast food and bread. Drink advertised coffee or cocoa. Put on an advertised cigarette, with an advertised lighter. Go to work in an advertised car. Give letters to a typist, who types on an advertised machine and uses advertised carbons. Signs letters with an advertised pen, containing advertised ink. Junior Red Cross Program Starts in Tuscola in Nov.

Last Year Children in County Made 7,000 Items in Hand Work

The month of November begins the Junior Red Cross program for the schools of Tuscola County. Every school child becomes a member through his class room. Every teacher receives monthly publications which are used in health, safety and educational helps for the pupils. The membership is 50c for each class room.

This is to acquaint parents and Red Cross members with what the Jr. Red Cross has done in the past according to Mrs. Keppen, Jr. Red Cross chairman. "Your child will be asking you for 3c soon to take to school for his part in our membership drive," says Mrs. Keppen. "Please let him enjoy being a member of this World Wide Children's Club. No other children's activity service costs so little yet does so much to bring your child a feeling of helping others." All Jr. Red Cross work is coordinated to school activities, according to Mrs. Keppen.

Last year the school children of Tuscola County made over 7,000 items in hand work for less fortunate children and for our veterans in hospitals. There were 450 boxes packed for children in Red Cross children's shelters by the school children of this county.

"Items" is a general term which cannot adequately cover the joy and comfort that makes the difference between good institutional. Concluded on page 10.

Hunters Warned on Forest Fire Danger

Smokers do the most damage in starting forest fires, according to 1948 statistics of state foresters. There were 6,135 acres destroyed by fires in Michigan traced directly to careless smokers.

State foresters warned hunters and campers that the next few weeks are critical periods for forest fires.

So far this year Michigan has had 20,542 acres razed by flames compared to 14,855 for the entire 12 months of 1948, according to the forestry division.

Grade Children Made Field Trips Thurs.

Sally Hunt and Barbara Gross, Reporters

The Bay Port stone quarry and the fishery were visited by 68 pupils of Mrs. Arthur Holmberg's and Mrs. Orion Cardew's classes on Thursday.

Parents who assisted in this excursion were Mrs. Curtis Hunt, Mrs. Max Agar, Mrs. George Dillman, Mrs. Andrew Kozan, Robt. Hunter, Mrs. Harley Kelley, Mrs. Keith McConkey, Emil Nelson and Neil Sherman. Theo Hendrick and Lewis Wright were very capable drivers for the busses.

Our first stop was at the Bay Port fishery. They brought in many kinds of fish. Mr. Deming proved to be a very kind and understanding man. We saw the boat come in. On it were some herring, perch, and one small cat fish.

There were two sliding doors on each side of the building. Out of one door you could see the lake and the boats. Out of the other door you could see the train tracks. The day we were there trains were on the track. We were able to see them load the boxes of fish into the refrigerator cars. We saw the ice crushers, also. Many fish peddlers were getting their fish.

At the stone quarry we drove into the pit. A guide, Kenneth Kleinschmidt, was furnished. He explained the work at the pit and answered many questions on geology. We brought home some fossils.

Our trip proved safe, fun, and valuable. We learned that there

are many worthwhile places to visit near at hand. It is also proving a stimulus for future study in our classrooms.

Reseeding
To add in reseeding depleted ranges, many species and strains of grasses and legumes from different parts of the world have been tested in nurseries in the western, southern, and southeastern regions. Tests of the preference of grazing animals for a number of species, conducted in the intermountain region, show that preference value changes during the growing season and that some little-known species have a higher preference value than crested wheatgrass, an introduced species which has been seeded successfully on a good many thousand acres of deteriorated range land.

the girl and boy with the most outstanding junior leader records in 1949, and the Danforth Foundation awards, two inspirational books, "I Dare You," by William H. Danforth, of the Ralston-Purina Company. These books will be awarded to the girl and boy who have outstanding 4-H project records and who have followed the fourfold living pattern of mental, physical, social and religious development.

Another group to be honored at the achievement program will be the volunteer local leaders, with particular mention and awards going to those who have been club leaders for five, ten, fifteen, twenty and twenty-five years.

Entertainment for the evening will be provided by Russell "Presto" Brown, a young magician from Vassar, and "Chuckie's Band" composed of five Sebawaing High School musicians.

Club Agent Carpenter says that summer project reports have been arriving in his court house office for the past two weeks from the 326 Tuscola County girls and boys enrolled in more than 1500 projects during the past summer. He is busy looking over reports and studying achievements of the various members in preparation for selecting a county 4-H honor roll which will also be announced recognition night. Each member has worked on one or more projects during the year. They have served as club officers, committee members, program directors, judging and demonstration team members, and helped with tours, camps, and in preparation of fair exhibits. "4-H club activities and reports are the principle basis of selection of county honor members," Carpenter says. He further states that achievement pins and certificates will not be given out until reports are turned in to his office.

saw them drive up to the hotel.

The Kilty Scots' Band gave a colorful parade-show between halves. Patricia Forbes of Detroit was crowned queen of the home-coming by Dr. Dale D. Welch, president. Royal Campbell, an ex-coach, honor guest of the day, was presented with several gifts.

At the alumni dinner, president Welch announced a memorial gift by Dr. and Mrs. Leon L. Tyler of Niles of \$150,000 for the erection of a dining and social hall on the campus. Doctor Tyler was professor of Education at Alma College in 1928-36. The gift is in memory of their son, Jerry, and his wife and little daughter who met death in the LaSalle Hotel fire in Chicago in 1946.

Athletic rivalry has been keen between Albion and Alma for half a century. The teams were well matched for a home-coming game, but Albion which was favored from comparative M. I. A. A. scores lost to Alma 6-14. This makes the comparative football wins between the two colleges, according to official records from "The Almanac"—18 wins for Albion, 26 wins for Alma, and five ties.

Baseball Pitching
American baseball pitchers once stood only 45 feet from home plate and only underhand pitching was permitted, according to the Encyclopedia Americana. Today the distance is 60 feet six inches and the pitcher delivers as he pleases, but the tricky "spit," "licorice" and "emery" balls were banned in the 1920's.

America's Greatest Possession

Children are the most precious possession with which men are entrusted. Their needs today are great and very complex. More than 3,000,000 families are living doubled up, or crowded into trailers, rooming houses or other makeshift quarters. Many of the children of our 2,000,000 working mothers are poorly cared for. About 5,000,000 children have lost one or both parents by death, divorce or desertion. The Child Welfare League of America, supported in the United Fund campaign, works to provide better care for these children.

THERE ARE ONLY 50 DAYS UNTIL CHRISTMAS

Christmas is due to arrive early this year, according to Miss Jean Gillies, county home demonstration agent. The Women's Extension members will gather in the court house at Caro on November 9, 10 and 11 to receive suggestions for holiday decorations and gift ideas. The meetings are to be held on a leader-training basis from 10:00 a. m. to 3:30 p. m. Two leaders from each local extension group are invited to attend.

Cecil Heiden of Detroit scored 99 points over his league average and was awarded a turkey as a prize at the Cass City Bowling Alleys on Sunday. He presented the bird to the Stevens' Nursing Home and patients will enjoy turkey at next Sunday's dinner.

Owner Claims Mule Frightened to Death By Airplane Noises

CINCINNATI, OHIO. — Jack is dead—frightened to death by low flying airplanes near here.

Jack was an eight-year-old mule owned by John Merkle, who was at work on a farm on North Bend road. Jack died with his harness on Merkle said, as he pulled a sled.

Merkle declared that the strain on the mule's heart caused by the bedlam from the aircraft was "just too much" for Jack, who never had known a sick day in his life.

Mrs. Carrie Baum, who owns the farm where Jack was being worked, told of Jack's passing thusly:

"That mule was like a member of our family," she said. "He really belonged to Mr. Merkle, who runs the farm, but I handled him and worked him all the time."

"We had him hitched to an empty sled. My son, Louis, he's 22, was driving and I was leading Jack. Then those airplanes came over. They swooped down almost to the treetops and it looked like they were diving on us."

"Then it happened. Jack looked up at those planes for a second. He put his front feet out a little then started to back up. He shook a little, too, then collapsed and died—right in his harness. When I saw his tongue get purple I knew he was dead. So I called a veterinarian."

"The doctor told me that Jack was scared to death, that his heart just stopped beating. The purple tongue and all—he had all the symptoms, the vet said."

LUXERIN WATCHFUL 307191

In Baraga County, Michigan, Arne Johnson, a Guernsey breeder purchased a bull from a Wisconsin dairyman in 1941. Mr. Johnson kept his herd under DHIA test, according to County Agent Fred Biekkola, so that a proof on the Guernsey sire resulted. A. C. Baltzer inspected this sire when Mr. Biekkola organized 2 ABAs in Baraga County. This proof showed 6 daughter-dam sires making a yield for the daughters of 8861 milk with 4.5 test and 399 fat. This yield of milk showed 1131 pounds improvement over the dams and 42 pounds fat. The bull proved was Luxerin Watchful 307191. In the proof it was noticed that 5 of the 6 daughters were superior in milk production and 4 of the 6 were better in test, while 5 were better in total pounds fat yield over the dams.

Watchful is a very desirable type Guernsey sire. He has sufficient size and body capacity to bring to Guernsey herd owners attractive cattle. Watchful's sire was proved with 10 daughters making 16 records averaging 9507 pounds milk and 846 pounds fat. The dam of Watchful as a 2 year old made 8619 milk and 438 fat. Her sire in turn was proved. Thus good breeding in a series of generations are backing Watchful in order to give several thousand Michigan herd owners who compose the Michigan Artificial Breeders Cooperative a favorable result in more productive stock. "Only by producing more milk per cow or per herd for the man hour employed" says A. C. Baltzer, Extension Dairyman, Michigan State College "can progressive and modern dairymen make a larger net profit." Baltzer has achieved outstanding success in developing the breeding of cattle artificially, starting with a mere handful of dairymen in 1943 to see it grow into a state wide organization with over 17,000 farmers and 120,000 cows enrolled.

This service is available at all times for Holstein, Guernsey and Red Dane breeds. Contact

Irrigation in Colorado

Modern irrigation began in Colo-
rado with the arrival of the first
Mexican settlers for Santa Fe al-
most 100 years ago. It has in-
creased until water has been ap-
plied to about three million acres of
crop and pasture lands.

Screen out Flies

Use close-fitting screens to keep
flies from inside your homes, from
bakeries and other places where
food is kept. Screen doors that open
outward are best.

Making Beds

In making beds, let the top sheet
and bedding hang loosely for greater
sleeping comfort—just tuck in
easily at bottom, leaving free hang-
ing sides.

Sealed Bids

wanted for the sale of the residence prop-
erty of the late Mary J. Hosner at 4308
West St., Cass City, to settle the estate.
Bids will be received up to and including
Nov. 15 by Conrad Turrell, Romeo, Mich.
The right is reserved to reject any or all
bids.

**YOUR OLD TRUCK MAY TRADE FOR
\$25 TO \$200 MORE THAN YOU THINK**

**THESE FOLKS MADE
MONEY ON A FORD
TRUCK TRADE!**

Why Don't You?

"My old truck was just about ready for
retirement, so when I heard about the
big trade-in allowances my Ford Dealer
was making, I decided to deal. If I had
waited a few months longer, I would
have had to take a couple of hundred
dollars less for my old truck."—Roy Glig.

"When I decided to trade in my old
truck, I did a little shopping around to
see how good a deal I could make. The
best deal was at Ford! My old truck
brought me \$75 more from my Ford
Dealer than it would have at three other
places."—Ben Fleischman.

"My old truck was facing some big repair
bills. So, when I heard that my Ford
Dealer was making big trade-in allow-
ances, I went down to see. In addition to
a dandy allowance, I figure I made a
fast \$200 on a Ford Truck trade. Used
truck prices were slipping so fast that in
90 days, the kind of truck I traded in was
selling for \$200 less."—Leonard Doble.

"When I heard my Ford Dealer was
making the best truck deals in town, I
decided to check. I made up my mind on
the spot, and I'm tickled pink I did. Used
truck values have slipped in the last
three months, so that I figure my quick
thinking and fast action got me at least
\$175 extra on a Ford Truck trade."—Andrew Ligessi.

"When he topped the best previous offer
by \$100, my Ford Dealer proved he was
making the best truck 'deals' in town.
But that isn't all! I figure I made another
\$150 by trading rather than waiting be-
cause used truck values were slipping
so fast."—Sam Periston.

CAN ALL COOK BOOKS
BE WRONG?

In all the best cook books, recipes calling for white granulated sugar specify just "sugar." Not cane sugar. Not beet sugar. Not sugar from any particular plant.

Why?

Because all sugar for household use is sucrose, and *sugar is sugar* no matter whether it comes from sugar beets or sugar cane.

Leading Home Economists everywhere freely state that any supposed difference in pure sugars is simply a *figment of the mind*.

So it's smart shopping to *buy sugar for value*.

Mrs. Wm. B. Pink a Victim of Polio

Cass City friends of Mrs. Wm. B. Pink of Farmington were shocked to hear early this week of her untimely death in the Pontiac Contagious Hospital on Monday night, Oct. 31, where she had been a patient only a few hours. She was a victim of polio.

The remains were brought to Little's Funeral Home here and funeral services were conducted by the Rev. Melvin R. Vender on Thursday afternoon in the Presbyterian Church of which she had been a member since she was 12 years of age. Interment was in Elkland cemetery.

Mrs. Pink, the former Phyllis Koepfgen, was born in Elkland Township on Sept. 24, 1920, the daughter of Mr. and Mrs. Lyle Koepfgen. She was graduated from the Cass City High School in the Class of '38. Following her graduation, she attended Alma College four years, later going to the University of Michigan to complete her studies. She was a Kappa Iota Sorority member for three years while attending Alma College.

She was united in marriage January 20, 1946, in Cass City with William B. Pink of Farmington. Following their marriage, they made their home in Farmington where she lived until her death.

Mrs. Pink taught music in the Farmington Township Schools. She was very active in a musical career and was a member of the a capella choir of Alma for four years.

She is survived by her husband, William; a daughter, Kathleen; her parents; one brother, Donald Koepfgen of Cass City; one sister, Mrs. Gerald (Frances) Kercher of Texas; paternal grandmother, Mrs. Philip Koepfgen of Cass City; and maternal grandfather, Alfred Wallace, of Cass City.

Two Brothers Died Of Polio Last Week

Funeral services were held Saturday morning in St. John's Catholic Church at Davison and interment was in St. John's cemetery.

JUNIOR RED CROSS PROGRAM STARTS IN TUSCOLA IN NOV.

Concluded from page 1. care and personal pleasure. The school children knitted laprobes, drew pictures on tray covers, stuffed toys, made bird houses, ash trays and bread reading stands. The overseas boxes were filled with soap, clean used toys, patches and thread to clothe small dolls, marbles and whistles and anything else that any child would love and cherish.

All materials are paid for by the Jr. Red Cross fund. Overseas boxes were filled by the children in the schools, the expense of mailing, etc., was taken from the Jr. Red Cross fund. The work is directed by teachers and unpaid supervisors.

The new order of work for Jr. Red Cross will be entirely for Tuscola County, with the exception of the overseas gift boxes. Mrs. Keppen states that this year the school children will be making articles that can be used in the hospitals throughout the county such as Caro State Hospital, Caro County Hospital, all community hospitals and children who live in this county and are confined due to illness, especially any long confinement such as polio, etc. This could mean someone from your school. The overseas boxes will be mailed as usual but the local needs will come first.

Mrs. Keppen, the Jr. Red Cross workers and the local office wish to express their sincere appreciation for supporting Jr. Red Cross, which is under the supervision of the American National Red Cross. Perhaps all do not know about or understand the work done by Jr. Red Cross. It is worthwhile work states Mrs. Keppen. The children enjoy and learn through the service projects, and the teachers actually use the printed materials for class room study.

Mrs. Keppen urges all teachers to get behind Jr. Red Cross 100% to make this an outstanding year.

PROGRAM ANNOUNCED FOR 4-H LEADERS

Concluded from page 1. ings. Some time will also be given to the teaching of games and activities to be used for local meeting recreation.

A potluck supper is planned for 6:30 p. m. Leaders are requested to bring their own dishes and silverware and one dish of food. Following the supper the "Modern Miss Fashion Revue" will be presented. This is a wardrobe of 16 dresses furnished by Simplicity Pattern Company and modeled by members of home economics classes at Caro High School, so that leaders can see the styles of dresses and materials that are practical and popular this winter.

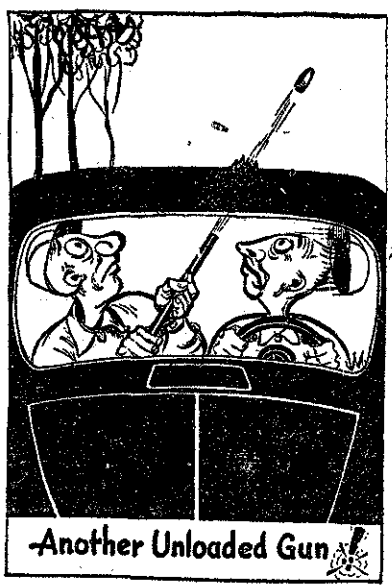

Discussions for women and men leaders will be in separate groups after supper. Mrs. Corrine White, assistant state club leader, and County Home Demonstration Agent Jean Gillies will meet with the ladies to talk about home economics projects for the 1950 winter season and to discuss their problems with them.

Leaders for agricultural and craft projects will meet with 4-H Club Agent Carpenter and Don Cook, Detroit Edison farm service advisor, to review the 1950 electrical project, and hear details of several new conservation projects. Question-and-answer periods are planned for both discussion groups.

A long-range legislative study of state government, patterned after the successful "Hoover commission" at Washington, is envisioned by some Republican legislative leaders. Loren Miller, research director, Detroit Bureau of Governmental Research and former aid to Governor Sigler, is favored for chairman. Governor Williams is cool to the idea, feeling that a state commission should be established, free from either legislative or executive office influences.

Frank Morris, Detroit Times Lansing correspondent, got an "exclusive" on this pipe-dream political conjecture: That Senator Arthur H. Vandenburg would like to make a deal with the Republican nominee for governor whereby Vandenburg would resign prior to expiration of his term in 1952 and his son, Arthur Vandenburg, Jr., would be appointed to succeed him.

The big "catch" in this: Michigan voters are notoriously critical of suspected political deals. Such conniving could hardly be a political asset to the Republican nominee in a race against Governor Williams. It certainly would not add any luster to the record of Vandenburg as a statesman.

The resignation - appointment idea recalls the deal among Republican aspirants for governor and lieutenant governor prior to the Republican primary in 1948. Running for governor were Sigler, Dr. Eugene C. Keyes and Judge Skillman. Candidates for lieutenant governor included Secretary of State Fred M. Alger and Keyes. On the promise that Keyes would run for governor, Judge Skillman withdrew. Then Alger pulled out, leaving Keyes without opposition.

What happened in November, 1948, is now political history. Dewey carried the state by 40,000 votes, while Sigler lost by 160,000. Evidently about 200,000 Republicans switched the ticket in protest against something. They elected G. Mennen Williams governor of Michigan, for one thing.

Speaking of rumors, this one is very persistent: Dr. Keyes of Dearborn has a carefully mapped program to capture the Republican primary nomination for governor in 1950. He is definitely out to win this time, come what may. He has financial backing already, pledged for a vigorous state-wide contest. We picked up this information from a reliable source in the Thumb recently, and it tallies fully with Lansing knowledge. No pun is intended, but—watch Keyes!

Lansing newspaper correspondents seem to agree that Governor Williams' star has been ascending steadily in recent months. "Don't write off Soapy Williams in 1950" is their judgment, one year before the election. This change of straws-in-the-wind opinion is based on the governor's successful bouts recently with Highway Commissioner Charles M. Ziegler and State Treasurer D. Hale Brake.

Effective publicists adhere to the theory that one good news story is worth two signed editorials. Hence the perpetual quest to present the client's side in the news. Some of the best propaganda stories, however, are purely accidental—just lucky breaks. An illustration of this overnight bounty was the news story from Tucson, Arizona, about bankruptcy proceedings on the El Sigo Apartments. It seems that the state administration board invested \$671,000 of the state employees' retirement fund in this property. In order to save the mortgage, Attorney General Stephen Roth now is trying to get a receiver appointed. Score another for Williams and Roth.

If you jump to the conclusion that this column has become partisan, then scan this item: Governor Williams has changed strategy in his 1949 campaign for reelection. No longer does he try to put Republicans on the defensive for an anticipated \$50,000,000 treasury deficit. Inflation's return to 1949 economy, plus a June

\$20 surplus of \$24,357,130 in the state treasury, have combined to scale down the expected deficit. Treasurer D. Hale Brake has even asked the governor to "repudiate" the 4 per cent corporation tax in view of the improved financial outlook.

The federal government's \$5 billion deficit makes Michigan look like a piker. Even a \$25,000,000 Lansing deficit by June 30, 1950 would be peanuts by comparison. Who's worried about the big bad wolf, anyway? Not us chickens!

STATE FARM BUREAU HAS FOREIGN PROJECT

The Michigan Farm Bureau Associated Women are bringing to Michigan two German housewives to visit this state for one month. They will be here for the month of November and will be in Tuscola

County around the 7th or 8th of this month.

The object of the project is to show the German housewives the ways and conditions of the farm women in the United States.

When the foreign women come to Tuscola County the Farm Bureau women plan on making a tour of several homes in Tuscola County. County organizational director, Kenneth L. Baur, says that the definite dates when the two women will arrive in Tuscola County is not set as yet.

The cost of bringing the women to this country will be made up by the Farm Bureau community discussion groups donating \$1.50 toward the project.

Arranging Furniture

When arranging furniture, remember to keep a pathway open through each room. Sharp turns, blocked pathways and protruding objects invite accidents.
