

## Food Is Cheaper Than It Was Forty Years Ago

Much is said regarding the high cost of food but in reality it is lower than 40 years ago, according to John W. Sims, who spoke before an audience of 298 at the pre-convention banquet of the Tuscola County Farm Bureau at the Caro High School auditorium Tuesday evening. He was introduced by Reid Kirk.

In 1909, said Mr. Sims, one hour's work purchased 18.2 lbs. of milk while today it brings 27 lbs. At the early date, one hour's work bought a dozen eggs while in 1949 the same hour's effort on the part of a workman would buy 2.9 dozen. In 1909 an hour's work earned 18.2 lbs. of potatoes while now 41 lbs. may be purchased with the same effort.

Mr. Sims, who was Tuscola's second county agent serving from 1922 to 1927, said the world is in turmoil because so many people are hungry and because of the lust of some people trying to dominate. There will be no peace while people are hungry and they must be fed before they listen well to the teachings of democracy.

The American farmer has a greater food responsibility than ever before. He has been ready to serve the needs of the future, much more so than the steel firms and railroads have been. Production is not all the business of farming, however, for procurement and marketing are equally important.

Henderson Graham, president of the Tuscola County Farm Bureau, introduced guests, Alton Reay, served as toastmaster, George Foster presented resolutions which were thoroughly discussed by the audience. Allison Green gave a history of the Farm Bureau Mutual Insurance Co. of Michigan, and Elden T. Smith spoke on community clubs and Kenneth L. Baur on membership status. Rev. L. H. Cook, of the Colwood United Brethren Church gave the invocation and musical numbers were given by Mr. and Mrs. Arleigh Clendens, Ray Leach and Lorene and Doreen Kramer.

A little, but not too much, is the rule for bedtime snacks. A little snack of something light and easily digested just before bedtime will help avoid the stomach contractions of hunger pains, which can cause restless, disturbed sleep. Too much heavy food, on the other hand, will cause extreme discomfort, disturbing sleep even more.

**VOTE ON NOVEMBER 7**  
Governor Thomas E. Dewey of New York: "Failure to perform your duty to register and vote causes your right to vote to become weaker. Power residing in the people tends to wither away by so much as they do not use that power. Someone will always exercise the power of government. In America that power must forever rest with the people. But it will be kept in the people only if they use it."

Homegrown lumber should be stacked on a well-drained site and exposed to the wind, say Michigan State College foresters. A strong foundation is important. Concrete piers are best, but wooden ones can be made by sinking posts into the ground.

### HOLBROOK

**Wedding in Flint—**

The Kearsley Methodist Church in Flint was the scene of a pretty autumn wedding Saturday evening, Oct. 21, at 6:30 when Mrs. Mable O'Harris of Flint and Mr. George Booth of Grand Blanc were united in marriage by Rev. Ralph Brown, pastor of the church.

The bride looked lovely in a suit of toast gabardine with brown accessories. She wore an orchid corsage.

The bride's daughter, Leontine O'Harris, was maid of honor. She wore a street length dress of peach crepe. Charlotte Booth, daughter of the groom, was bridesmaid. She was attired in a street length dress of aqua. They wore corsages of beige chrysanthemums.

The groom's son, George Booth, Jr., was best man and Gerald Booth was the groom's attendant. The bride's oldest son, Lyle, O'Harris, gave the bride away. Elizabeth Hollenbeck sang, "Because" and "I Love You Truly."

Mrs. Lyle O'Harris was pianist. Following the ceremony a reception was held at the groom's home at Grand Blanc. The church and home were decorated with baskets of gladioli. Buffet supper was served.

A large wedding cake was white, trimmed with pink roses. The couple left on a trip through Canada and will visit the Falls. They received many lovely gifts.

Mr. and Mrs. Loren Trathen and Paul O'Harris of Holbrook attended the wedding. Paul is the youngest son of the bride.

Sunday afternoon guests at the Clifford Jackson home were Mr. and Mrs. Ted Streeter of Saginaw, Mr. and Mrs. Wm. Buholz and family of Pigeon, Mr. and Mrs. Chas. Bond and children, Mr. and Mrs. Steven Decker, Connie, Kay and Kathy Decker and Lynn Fuester.

Bobby Jackson entertained the Youth Fellowship at his home Monday evening. About 25 were present and games were played. After devotionals, a potluck lunch was served by Mrs. Jackson. The

next meeting will be held in two weeks at Cumber Church.

### TUSCOLA COUNTY EXTENSION OFFICE

Tuscola County Agricultural Agent Loren S. Armbruster has recently received many calls for information concerning the early defoliation of elm trees in the county. Armbruster states that in most cases the trouble is black spot fungus, which during wet seasons causes premature dropping of leaves. Trees affected this year may be relatively free next year if weather conditions are more favorable and less rain. Spraying cost is usually prohibitive in most cases. Raking and burning of heavily infested leaves may retard the outbreak next year.

Land owners of Tuscola County wishing to sell Christmas trees and boughs or other wild trees, shrubs or vines (without roots attached) must have a bill of sale and consent. Blanks for this purpose may be obtained from County Agent Armbruster at the county court house.

The October meeting of the Tuscola County USDA Council was held at the PMA (Production Marketing Administration) office at Caro last week. Vice President Roy Benson presided during the business meeting. County MPA Chairman Chas. Eckfeld explained to the group some of the latest activities of the Production Marketing Administration. Twenty-two members were present. The November meeting will be centered around sugar beet production, concluding with a tour through the Caro sugar factory plant.

The first winter project enrollment to arrive in the extension office was that of the Pinkham Bus Bees, from Pinkham school, Arabela Township. The club is led by Mr. and Mrs. James Gibbs of Millington.

The annual Tuscola County 4-H Fall Achievement Recognition Program will be held Wednesday evening, Nov. 8, at 8 p. m., at Murray Hall, Caro State Hospital, according to Byron E. Carpenter, County 4-H Club agent. The evening program will be the occasion for presentation of county and state 4-H Club honors to 4-H members and leaders attaining outstanding achievements during the present year. Achievement certificates and pins in recognition of summer projects completed will be given to club leaders at this time. Leaders will distribute these to individual members at local meetings at a later date.

The fourth 4-H leader training meeting, held Wednesday evening, Oct. 18, was attended by 60 adult and junior 4-H leaders, states Tuscola County 4-H Club agent, Byron E. Carpenter. The first part of the meeting included an explanation of the National Committee on Boys' and Girls' Club work,

judging and demonstrations, achievement booths, and National 4-H Camp. A demonstration on dairy foods was presented by Carol Irish and Maiza Frent, Akron, who were state winners in the dairy foods demonstration contest. The remainder of the program was devoted to instruction to winter club leaders.

More than 200 4-H crop club leaders from all parts of Tuscola County are expected to exhibit their projects Wednesday, Nov. 1, at the fourth annual Tuscola County 4-H Crops Show at Fairgrove. The exhibits will be set up and judged at the Fairgrove Fire Hall, according to Byron E. Carpenter, county 4-H Club agent. The crops show will be held in cooperation with the Fairgrove Future Farmers and Future Homemakers fair, as in previous years, and will conclude with a program in the Fairgrove High School auditorium in the evening. Prof. E. J. Wheeler, MSC Farm Crops Department, will speak and show pictures illustrating his experiences while serving a year as an agricultural advisor in Japan.

### SHABBONA

Last Sunday in the Shabbona Methodist Sunday School the Red Can't-Be-Beat won a narrow margin of victory of about 30 points over the Blue Bound-To-Win in the first Sunday of a six-weeks' attendance contest.

The Reds garnered 216 points with the Blues close on their heels with 184 points, according to the latest available figures. Anything might happen to the score next Sunday. Will it be an upset?

There were 108 in attendance at the Sunday School, an increase of about 50% over the last few Sundays.

### Onion Flavor

Heating chopped or sliced onion in a little fat helps draw out and distribute the onion flavor in stews and stuffings. Many good cooks let sliced onion stand in French dressing awhile before mixing the salad, as a means of stretching flavor.

### Growing Bamboos

Bamboos can be planted at almost any time of the year. In their soil requirements they are not particular. Any garden soil that drains readily will grow bamboo.

### South Africa

Although South Africa is famous for its rich and productive gold mines, individual prospectors have found this country less fruitful than California or Australia. The reason lies in South Africa's scarcity of alluvial gold deposits, for easy surface working.

**How to Roast Corn**  
Here's the way to roast corn. Turn back the husks and strip off the silk. Lay the husks back in position. Line up the ears on your backyard grill, over hot coals. Keep turning ears for 15 or 20 minutes, until husks are dry and browned. Break off the husks and the corn is ready to eat. Put out plenty of butter and big salt and pepper shakers.

## Michigan Mirror

Election news these past weeks has been unusually quiet with only an occasional bellow of "socialism" to spice the atmosphere. G. O. P. still is harking at the Americans for Democratic Action (A. D. A.)—mostly trying to find out just what it is.

Meanwhile the legislature continues in session—although recessed. The special session was called March 15 but has refused to adjourn to postpone action on Williams' appointees until after the election.

Adjournment is expected to be in December instead of immediately following the election since many members dislike being called back during deer hunting season Nov. 15-20.

Embarrassing to Governor Williams was the disclosure that John Sabol, democratic congressional candidate signed a Communist pact in 1940. Sabol has shared a speaking platform with the governor.

Embarrassing to Republicans was the poor turnout in Jackson for rededication of the party's fight against socialism and a planting of acorns alongside the giant oak beneath which the G. O. P. is said to have been founded. Some 100 persons attended.

Good news from Korea has lessened the anxiety felt over another "all-out" conflict but the casualty

lists still roll in. Michigan now has more than 1,000 on this roster with over 160 dead and 200 missing in action.

And evidence of another war keeps cropping up. Now 10,137 displaced persons from Europe have been absorbed by Michigan. How do they feel? Well, how would you feel to find freedom after oppression, they say.

Young doctors of the state who were trained through armed forces program are peering into the funnel of draft boards. Passage of a medical draft registration act makes them eligible for call. Only a few in low age brackets are expected to get their papers.

Economists now refer to this period as the "inflation of World War II", having worked us through inflation of World War II and inflation of the postwar period.

Opinions still differ concerning the new building curbs. Will it mean depression as some home builders say, or stabilization of the building industry? None of the builders have yet reported applying for welfare.

Industrialists state that the auto industry still has but a small volume of defense work under way. But it expects much more—and it also expects to turn out a "substantial volume" of civilian vehicles in 1951.

Michigan's "Little Hoover Com-

mission" now eyes the state highway department, department of agriculture and state legal counseling services. The commission hopes to find ways to cut bureau expenses.

What do the ladies worry about? There now is an organization known as "Fatties Anonymous" which operates on the same basis as the anti-tipping organization. They bolster one another in the fight to push away from the table. Slogan: You'll be more spic when you've got less span.

With the pleasant season now well under way hunters report an excellent year. Pre-war years success wasn't equalled but the nincoms agree this is the best season since the war's end.

A \$12,977,000 state conservation budget for the next fiscal year will be recommended by the conservation commission to the legislature in January. The figure includes \$4,015,000 for parks operation, repair and development.

Poverty is often just a state of mind created by the neighbor's new car.

Men died with their boots on in the old days, and still do, but usually one is on the accelerator.

One reason wisdom is so uncommon is that it involves a lot of common sense.

The fellow who marries a woman has one of the world's best labor-saving devices.

Successful men act on their hunches, rather than sitting on their haunches.

Citizens should remember that there is no such thing as a cut rate victory—even in a little war.

Self Serving Barn  
Great Labor Saver  
Device Is Most Useful  
Developed in Years

One of the strangest, and possibly the most useful, agricultural devices developed in recent years is the cattle cafeteria.

The cafeteria is actually two steel Quonset huts, one built inside the other. Between the two, there is a space of about 10 feet. Hay brought in from the field is chopped and blown into the top of the larger

The cattle cafeteria was invented by Paul Mazur, partner in a Wall Street firm.

structure. It falls down on the other, settling between the two. When the space is filled, the cafeteria is ready for operation.

A series of gates, hinged at the top, may be raised to feed cattle inside or outside the barn. The gates are spaced just wide enough to admit a steer's nose and are also hinged at the top. As the cattle make pockets in the hay they push against the gates. The constant swinging dislodges more hay from the storage area above and it falls down.

The outside gates provide shelter for feeding animals in cold weather.

According to reports from a farm where the "cafeteria" has been used, 44 beef steers have been fed through an entire winter with a total of four man-hours of labor. Once the storage area was filled, the farmer walked off, his job done for months.

The idea seems especially good for the northwest where winter feeding of relatively small herds is a constant, laborious chore.

Dimethyl Thallate Is  
Good Chigger Repellent

If you are bothered with chiggers—and most people have been this summer—extension entomologists suggest repellents containing dimethyl thallate as the most effective.

This solution should be applied around the tops of the stockings, or in a band around the ankles. They caution against indiscriminate use because the chemical stains some fabrics.

Once the chigger's got you, treating the affected portions of the skin with 5 to 10 percent solution of benzocaine in alcohol is recommended by T. H. Parks of Ohio State University.

There is no positive method yet devised for treating yards and lawns to eliminate chiggers, but many people have found dusting the lawn with powdered sulphur helps.

Parks suggests using the cheapest grade of sulphur available, and applying it generously to the lawn with a dust gun.

New Ramp

A recent development at the Union Stock Yard in Chicago providing low, wide steps instead of a cleat ramp has proved highly successful not only in speeding handling but also in preventing costly bruises. The hogs ascend the steps at least twice as fast as when the old-time ramps were used, and injuries have become rare with this type of equipment.

U.S. Forests One-Fifth  
Original Size, Report

When Columbus discovered America, nearly half of the land area of what is now the United States was covered by dense primeval forests. Today these forests have been reduced to less than one-fifth their former size. Much of our standing timber today is poor quality second or third growth.

We are still cutting saw timber faster than it grows and further reducing our forests.

The want ads are newsworthy, too.

Echo Chapter, O. E. S.  
Installed Officers on  
Friday Evening

About 125 attended the installation of officers for Echo Chapter, O. E. S., here Friday evening. Guests registered from Detroit, Roseville, Bay City and many chapters in the Thumb. The chapter rooms were beautifully decorated with salvia, bouquets of asters and chrysanthemums of various shades for the candlelight ceremony in which Mrs. Harry Falkenhagen was installed as worthy matron and the staff which will serve with her. Mrs. Falkenhagen was escorted to the East by Karen Smith of Snover, granddaughter of Mr. Falkenhagen.

Installation arrangements were in charge of Mrs. Alex Greenleaf, retiring matron, and a short program, arranged by Mrs. Falkenhagen, was presented.

When refreshments were served in the dining room at the close of the meeting, Mrs. Alice Reagh and Mrs. Wm. McKenzie poured at a table prettily arranged by Mrs. Herman Doerr and Mrs. D. A. Krug. Decorations were red geraniums and red candles on a white cloth.

FUNERAL OF MRS. THERESA  
GLAZER HELD ON TUESDAY

Funeral services for Mrs. Theresa Glazer, who died last Saturday in Bad Axe, were held at Sts. Peter and Paul's Church in Brown City Tuesday morning, the Rev. Thomas A. Curran officiating. Burial was in the church cemetery. Mrs. Glazer was born in Hungary February 6, 1903.

Katherine The First

Katherine Child probably belonged to the first woman's auxiliary of master painters in this country. Her husband, Thomas Child, Boston painter and paint maker in the 1700's, had her initial in the coat of arms of the painters' guild of London of which he was a member.

Milton's Birthplace

The poet Milton, who often wrote of his fondness for cake, was born on Bread street, London, a thoroughfare famous for its many bake shops.

Bronchitis in Chickens

Chickens sometimes are born with temporary immunity to infectious bronchitis, but you can't depend on it. That is the warning to be drawn from studies made at the Veterinary Research Institute of Iowa state college. The former belief was that if a hen recovers from an attack of infectious bronchitis, chicks hatched from her eggs will inherit a short-term immunity to the disease. But the Iowa studies showed that many baby chicks from recovered hens became infected just the same.

Streptomycin

Streptomycin, costly and scarce until recently, is now coming into wide use in treating diseases of livestock and pets. It is one of the group of antibiotic drugs obtained from molds that grow in the soil. Veterinarians report that it gives excellent results against certain types of kidney infection in dogs and against swine erysipelas in turkeys. It also is being used in combination with other drugs in treating infections of cattle, including bovine mastitis.

Northern Alaska

An abandoned land of approximately 70,000 square miles is northern Alaska, from the towering ice peaks of the Brooks mountains to the Arctic coast. Two or three generations ago it contained a population of more than 8,000 nomad caribou hunters. They were exceptionally tall Eskimos with apparently a strong Athabaskan Indian admixture. Now a single group of less than 40 is left alive.

Order Rat Bait  
Before October 30

Farmers and townspeople of Tuscola County should have their rat bait ordered before Monday, October 30, says George C. MacQueen, assistant county agricultural agent. On this day order blanks will be picked up from the elevator distributors and the amounts tallied for the county order. Agent MacQueen goes on to say that rats and mice will be moving in from the fields more readily as the temperature drops. This is the best time to bait them before they get situated in the buildings. This is a great opportunity to strike a blow against these costly rodents. For a small investment of two or three dollars, it is possible to save hundreds of dollars' damage around each farm.

Elevators not mentioned last week that are cooperating in the rat bait program are the Wallace

& Morley elevators at Gagetown and Fairgrove.

Agent MacQueen goes on to say that one or two pounds of red squill should be sufficient for the average set of buildings. This should be placed out in little pieces everywhere the rats run. All pieces that have not been eaten after 24 hours should be removed and fresh ones put out. Rats seldom touch baits that lie in one place for a long time. At the same time use five pounds of warfarin around the buildings. This is a double-barreled charge. It gets the rats and mice and acts as a clean-up poison. Place a pound of warfarin in each of five places leaving it in its paper sack.

Spinach

After you buy your spinach, it still needs careful care after you bring it home from the store. If it is not to be used immediately, wash it, wrap it in waxed paper, and put it in a vegetable bag in the vegetable compartment of the refrigerator until ready for use.

will YOU mark an "X" for it?

THESE MARKS ARE LEGAL  
In each case a cross has been used, and the intersection of the lines of the cross is inside the circle or square.

THESE SPOIL YOUR BALLOT  
Top 3 ballots are invalid because crosses were not used.  
Bottom 3 ballots are void because the lines of the cross do not intersect within the square.

"X" on an air man's map shows where to bomb.  
"X" in algebra stands for the unknown quantity.  
"X" on a certain piece of paper marks a spot where Freedom rings, for that's the "X" we mark on an Election Day ballot.

Let this burn in: So long as every one of us has the right to vote, to vote exactly the way he wants to vote and to have that vote count, so long shall we have Freedom. If we ever lose that right we might just as well knuckle under to the first dictatorship that comes along. (45 million qualified voters didn't show up at the polls at the last Presidential election.)

Voting costs nothing. Not voting can cost your liberty.

There are men—and women—fighting now—for Freedom.

Can we do less than keep the Big Muscle of Freedom strong by exercising it at the polls Election Day?
