

Farmer Killed in Automobile Crash Near Millington

Pedestrian Is Fatally Injured During Blinding Snowstorm Sunday

Glen McCormick, 42-year-old farmer, was killed about 7:00 p. m. on Sunday when he was hit by a car driven by Lyle Amos Hoobler, who with his wife and children, was driving south to his home in Clarkston, Mich. McCormick died at the scene of the accident on M-15, just south of the Millington village limits.

McCormick's car had slid into the roadside ditch about a half mile south of Millington. Unable to get it back onto the pavement, it is thought that he had started to walk through a blinding snowstorm to Millington to secure a car wrecker.

McCormick was walking on the left side of the road when hit. Prosecuting Attorney Chauncey Furman was on his way home and was among the first to arrive at the scene of the accident. He said because of the blinding snowstorm visibility was very poor.

Deputy Sheriff Francis Gleason of Millington was called and notified Sheriff George Jeffrey. Coroner Lee Huston, who investigated, said Mr. McCormick suffered fractured skull, neck and one leg.

Sgt. Kitchin Tells Of Korean Hardships

Sgt. David Kitchin, who has served with the 1st Marine Division throughout the Korean campaign, writes home of some of the hardships of undeclared war. He is thankful to have survived thus far.

They were shipped around Korea to Wonsan and from there he went up through the Chosin Reservoir region to within sight of the Yalu river and Manchurian border. Then came the withdrawal and the Hungnam evacuation.

His last letter was dated Jan. 6 and was written from Masan on the southeast coast. His duties are driving for the commanding officer and delivering supplies and repair parts. During the Seoul campaign. Concluded on page 10.

Governor Startled Legislature With Modest Budget

Highway Department Is Principal Beneficiary with \$19,000,000

Michigan can expect drastic action from the governor's office to hold down expenses in every department not directly concerned with civil defense or war effort. Williams has committed himself to an economy program which just won't stay still for unwarranted expense.

After asking for \$87,000,000 to clean up last year's expenses, Williams startled the legislature by submitting a fairly modest budget for the coming year. He seems determined to get along with Republican factions—highest barrier so far as money is concerned is his welfare program.

The bi-partisan sentiment still prevails—as it always does in the early days of the regular session. But Ex-Gov. Murray D. Van Wagoner says there should be a liaison man between the "front office" and the legislature.

Most agree that Clark Adams, legal advisor to Williams who also serves in liaison capacity is capable, but he still is a Williams appointee. Van Wagoner's theory involves a man selected by an objective group—if such a group exists.

The highway department is principal beneficiary of the \$37,000,000. Turn to Michigan Mirror, page 8.

Edison Fetes 4-H Electrical Leaders

The Detroit Edison Company's Caro office played host to 38 4-H electric club leaders, their families and guests Tuesday evening, January 9, at the Montague Hotel, says George C. MacQueen, County 4-H Club agent. This dinner was given the club leaders as a testimonial of the appreciation the organization has for 4-H club work.

After the dinner, Wes Raven, farm service advisor for the electric company, opened the evening program by introducing guests present. Irvin Raven, of the Rural Youth Department, Detroit Edison, started the program off by describing the awards program for 4-H electric club members. Raven stated that these awards, sponsored by the Westinghouse Electric Company, are within the grasp of any 4-H member. He also described the activities at the 1950 4-H Club Congress in Chicago.

Mahlon Vance, sales manager of Detroit Edison's Caro office, concluded the program with a most enlightening talk on India. Vance was stationed at several garrisons in that country during World War II. The main topics of his talk were the comparisons between India's peoples, religions and government and our own. The group was sent away by the thought provoking question, "Why have we come so far in 300 years in comparison to India who is many centuries older than we?"

Detroit Edison personnel, consisting of Wes and Irvin Raven and Irvin Teichman of the Port Huron office, and the County 4-H Club agent spent considerable time discussing the 4-H electric program after the meeting.

He persuades her to hold a seance at his home so that he can become better acquainted with the jargon, etc. Madame Arcati accidentally contacts Charles' deceased wife, Elvira. Elvira's spirit then materializes, but only to Charles and the audience.

At first, Charles' second wife, Ruth, thinks him to be mad as she, of course, cannot see Elvira. Later, however, she realizes the truth. Concluded on page 5.

Services Available To Persons Having Physical Disability

Gerald DeBoer Is the Chairman of Allied Veterans' Council

E. H. Mochrke, field representative in Huron and Tuscola Counties for the Flint Office of Vocational Rehabilitation Agency, gave a very interesting and enlightening talk to the delegates of the Allied Veterans Council at their recent meeting. Mr. Mochrke stated that, "generally speaking, their services were available to any person between the ages of 21 and 65 who has a physical disability which is also a vocational handicap."

The services rendered by the Vocational Rehabilitation Agency consists of medical treatment, surgery, formal education, job training or retraining, and the furnishing of prostheses, such as hearing aids, artificial eyes, hands, arms, feet, and legs or various kinds of belts and braces. These services are free to the individual, if unable to pay for them or can be paid in part by the individual or can be repaid in full by him after he again becomes gainfully employed. The agency feels that it is cheaper to render the necessary service and make the individual more employable than it is to leave him as an object of private or public charity and dependent upon others for his livelihood.

The delegates to the Allied Veterans Council elected the following officers for the year 1951: Gerald DeBoer of Caro as chairman; John Turner, Caro postmaster, as vice chairman and Melvin Simonton, superintendent of schools at Rees, as secretary and treasurer.

The Council also took under advisement the staging of a farewell party for each departing group of draftees. This recommendation was proposed by the American Legion members from Unionville. To date, the Unionville Legion Post has extended farewell party invitations to the departing draftees from Fairgrove, Akron, Unionville, Gageton, and Cass City.

Rep. Allison Green Named to Three Important Com.

Victor A. Knox, speaker of the House of Representatives, announced committee appointments on Jan. 9. Representative Allison Green of Tuscola County was named chairman of the Michigan Veterans Facility and a member of the Committees on Education, Revision and Amendment of the State Constitution and Insurance.

The Committee on Education is

an active and important one through which the largest single appropriation of state funds is handled.

The Committee on Revision and Amendment of the State Constitution is particularly important right now in view of the pressure being brought by the large cities to gain more representation in the legislature. The people of rural Michigan will have to fight to hold their present position and prevent one or two of the large cities from controlling the state government.

The Committee on Insurance will supervise all legislation pertaining to insurance laws.

The Committee on Michigan Veterans Facility examines, inspects and makes recommendations regarding the Michigan Veteran Home and other facilities.

Conservation Dist. Taking Orders for Pine Transplants

Tuscola Soil Conservation District directors are taking orders for pine transplants for planting this coming spring.

This year red, white and Scotch pine transplants will be available. In addition, some red cedar for use as windbreak plantings on light soils. Also, about 2,000 multiflora rose, the plant developed by the U. S. Soil Conservation Service for use as a "living fence."

This year red and white pine transplants are particularly fine specimens according to Dave Dawson, Soil Conservation Service technician for the Tuscola Soil Conservation District.

The mechanical tree planters used in previous years are available to Tuscola County farmers again. These planters, drawn by any 2-plow tractor, are much more advantageous than planting trees by hand. About 1,000 trees per hour can be planted by two men, a tractor and the planter.

Landowners who desire trees are encouraged to order immediately. Order blanks can be obtained from the district office in the basement of the courthouse, or from one of the five district directors listed here: R. L. Hill, Caro; Reid Kirk, Fairgrove; Dayton Davis, Vassar; Albert Bauer, Reese; Bruce Ruggles, Kingston.

Forty-seven Attend Recreation School

According to George C. MacQueen, County 4-H Club agent, 47 4-H club leaders, home extension club members and extension personnel from Tuscola, Huron and Sanilac Counties attended the adult recreation training school. This school was held Thursday, January 11, at the Wilber

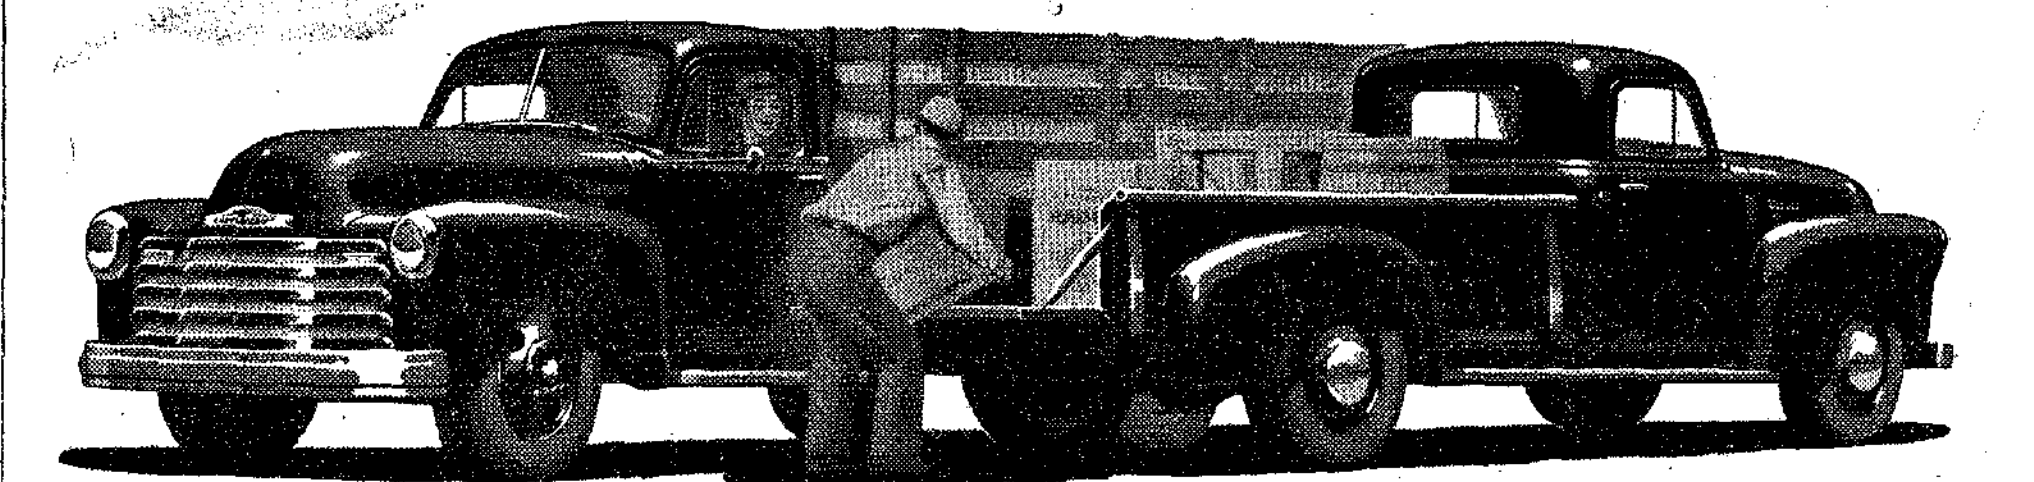

Memorial 4-H Building. The group found this session, which was under the direction of Arden Peterson, assistant state club leader, in charge of recreation, most instructive and enjoyable.
MacQueen goes on to relate that the recreation specialist's main message to the group was that there is no excuse for our young people leaving their communities to seek recreation and entertainment elsewhere. Peterson's con-

tention is that one must learn to create more attractive recreational facilities and program in his own communities so that there will be no desire for youth to seek entertainment abroad. The years that lie ahead may demand that our communities become more self-sustaining due to our world situation. If this be the case and if communities accept their just responsibilities, these requirements must be fulfilled.

ALL-STAR LINE-UP FOR '51!

FIRST DISPLAY SATURDAY

Standard equipment, accessories and trim illustrated are subject to change without notice.

Your first eye-smacking look at the line of lovelies pictured here tells you that they've got what it takes in visual charm.

But the fellow who said a picture speaks louder than a thousand words wasn't talking about these superbly able 1951 Buicks.

Sure, they're smart to look at—smart in style and smart in dress.

But they're also smartly powered—smartly engineered—smartly priced. And it would take a book to describe in full their deep-down goodness.

What's been done for '51 is to take the best automobiles that ever bore the Buick name—and top them.

Come, look them over, and you'll see what we mean.

There's the SPECIAL which can accurately be titled "the newest car in the world"—new in structure, new in power, new in dimensions, new in thrift—and potent in price appeal.

There's the SUPBR—that looks and is a smart new edition of its "best seller" forebear.

Then there's the ROADMASTER—that coddles your anatomy on luxurious new fabrics and cloud-soft cushions—pampers your pride with its lordly bearing—shoots a delicious tingle right up your spine by

the exuberance of its power and action.

We could go on and on. This is the car that "breathes through its nose." This is the car that sports a brand-new front-end styling. This is the car with new high-visibility instrument dials, more easily read at night. This is the car with glare-and-heat-reducing glass† and a host of other news-making features you can't afford to miss.

So your No. 1 date this week end is with your Buick dealer. It won't take you long to conclude that he's offering the smartest buys of the year.

About a half century ago the oil industry had a by-product, kerosene, which was called gasoline. The problem was how to get rid of it.

TUSCOLA COUNTY EXTENSION OFFICE

Horticultural extension specialist, Karl D. Bailey of Pontiac, advises that orchardists who have large supplies of fresh apples may sell their stocks through the Production Marketing Administration. Loans or purchase arrangements on apples can be made through county PMA chairman, Charles Eckfeld. Apple growers should contact the PMA office immediately, as the purchase period is expected to terminate February 17.

About 100 farmers and G. I. trainees attended the two farm income tax meetings held at the county courthouse and at Vassar High School January 11. Extension Specialist E. M. Elwood from Michigan State College conducted both meetings as question-answer and discussion sessions, bringing out the changes in the income tax law since last year, and pointing out the most common misunderstandings and errors noted on farm income tax returns. Some members of the audience were so interested they kept Elwood more than an hour after the meeting closed explaining the proper procedure in filing their returns.

Farmers who file complete returns have until January 31 to pay income taxes. Those who wish to delay payment until March 15 are supposed to have filed an estimate with the collector of internal revenue not later than January 15.

Farm operators who hire regular labor may find it helpful to attend a meeting held in the American Legion Hall, Caro, at 8 p. m. January 29 quite helpful. There will be a speaker from the government Social Security office as speaker, who will be able to answer questions on the new social security plan for farm and household workers. The meeting is sponsored by the Caro Allied Veterans Council.

"Just a few lines to let you know where I am stationed," writes Rct. Nelson Linderman from Fort Leonard Wood, Mo.

"After leaving Fort Sheridan, Ill., I was transferred to Fort Leonard Wood, Missouri. I am with the 1801st Engineers Aviation Battalion Headquarters and Service Company. Our duty is to build air strips and roads. We have heavy equipment and trucks, etc. in our company.

"Our company is also the source of supply for the line companies. I have four weeks of basic training in, with two more to go, then we have three weeks of Engineers' basic and eight weeks of Military Occupation School. I have been receiving the Chronicle since I have been in service."

Irene Renshler-Sylvester writes from Detroit: As usual I am late with my subscription renewal. Each year I say it is time to discontinue, as so few old friends' names ever appear, yet after doing without the paper a few weeks I am glad to again see the Chronicle. I have had such a busy life, I

have been unable to keep in constant contact with old friends. Ever so often I come across the name of some one about whom I have wondered and I realize just what place the Chronicle has in my heart.

Throughout the summer months, I am frequently in or near Cass City as we pass that way, on the way to our cottage north of Cassville, but we are always in such a rush we only stop a few minutes to see my aunt, Susie Parker, and then are on our way.

This year we didn't get to the cottage so often, as my husband was very ill, in Mt. Carmel Hospital for about six weeks. Shortly after he was out of the hospital, my older daughter, Arlene, was married so we were again tied down.

For several years, in addition to my teaching schedule, I have been director of a 32-voice choir, so you can see I don't have time to linger long in any one spot. However, my husband and I love the outdoors, and especially the region of Saginaw Bay, so much that we hope someday to be able to stay there and relax. Three families of our dearest friends have homes around us, so life should be very pleasant.

In requesting his Chronicle sent to Tower Trailer Court, Box 9263, Tampa 4, Florida, James Palmer writes:

Value Your Health More Than Riches

Some folks think that fine clothes and fine, big houses are the most important things in life, but these things really don't mean too much if a person doesn't feel well enough to enjoy them. Most folks don't realize this, but Mrs. Lucy Braswell, of Route 2, Stone Mountain, Ga., realizes it very well. Mrs. Braswell takes HADACOL, and by taking HADACOL she found she is helping her system overcome deficiencies of Vitamins B, E, Nicotin and Iron, which HADACOL contains. Here is Mrs. Braswell's own statement: "I have been sick for some time with stomach disturbances. I began taking HADACOL and I have been taking it about six weeks. I am so much better and much stronger. I will continue to take HADACOL. It sure has helped me. I tell my friends about HADACOL. I can't praise HADACOL too much. I am 59 years old."

Question from reader: "If the state's fiscal year deficit was \$21 million, why was the average daily deficit only \$100,000?" Answer: The State of Michigan began the past fiscal year (starting July 1, 1949) with a balance of \$24,357,130. The state spent \$40 million more than it received in revenues. The year-end deficit of \$21 million otherwise would have been much greater—possibly \$40,745,493—the exact red-ink entry.

Election Fraud

They say nothing is more uncommon than a Republican voter in Mississippi, as this story proves. The election board in this Mississippi town came across a Republican vote. Caught by surprise, they didn't know what to do, so they laid it aside. Some time later they found a second G.O.P. vote. By now entirely confused, they visited the election judge.

"Why," the judge roared, "throw 'em both out—the dirty so-and-so voted twice!"
