

## Ten Business Men Buy Property for Factory Site Here

Ten Cass City business men have banded together and purchased nearly 21 acres of land in the southwest corner of the village as a potential factory site for any interested industry.

The group, known as the Cass City Development Association, have formed a non-profit organization to have land ready for any industry which is interested in Cass City as a place to locate a new or branch factory.

Harry Little has been appointed by the Development Association to investigate possibilities and interest industrialists to the village.

The group each owns equal shares in the land purchased from Nico Hitchcock last week.

The land is ideal as a factory location, according to Joe Riley, one of the members. Riley pointed out that the land is adjacent to the railroad for easy train transport and that roads to the property were good—lending easy accessibility to the industry via truck.

Riley also pointed out that drainage was good and that the amount of land needed to the organization would provide room for a good sized factory with plenty of space left for necessary parking facilities.

The members of the group are all from Cass City. They are Leonard Damm, Clifford Croft, Joseph V. Riley, Warren Wood, Delbert Rawson, Harry Little, Arlan Hartwick, R. S. McCullough, Horace Bulen and Bernard Ross.

## Police Baffled By Deford Shooting

An unidentified assailant seriously wounded Mrs. Richard VanDeWater, Deford, last Thursday night with a .22-calibre rifle shot through the window of her farm home.

At press time today officers of the State police and the Sanilac County sheriff's department had no clues as to who shot Mrs. VanDeWater or what a possible motive could be.

Mrs. VanDeWater could give officers no clues as to why anyone would wish to shoot her. When she was hit by the bullet she was at home with her two small children. The bullet tore through Mrs. VanDeWater's arm and imbedded itself in a cabinet in front of her. Earlier in the evening, Mrs. VanDeWater said she heard a knock at the back door of her home, but failed to find anyone when she answered the door.

## Village to Repair Main Street Soon

Further investigation has proved that it will not be necessary to make a bond issue over re-surfacing Main Street in Cass City and the Village Council voted to provide the funds for the scheduled repair project.

The village will have to pay for the sides of the street and the state will stand the cost of the center.

The work is slated to be finished some time this summer.

## Republican Club To Elect Officers

George Frye, chairman of the Young Republicans Organization, announces that a meeting will be held March 9, in the court room of the courthouse at Caro, Michigan, at 8:00 p. m.

The Young Republican officers will be elected at this meeting. The officers to be elected are president, vice president, secretary, assistant secretary and treasurer. Nominations will be made from the floor.

## Gas Explosion Burns Mrs. George Dillman

An exploding bottle gas water heater severely burned Mrs. Geo. Dillman at her home Saturday afternoon.

Mrs. Dillman discovered that the water in her home was not as hot as usual and went to light the heater when it exploded.

The explosions singed her eyebrows and burned her hand and arm. The facial burns were not serious and Mrs. Dillman removed the bandages from her face and forehead the following day, although no attempt was made to remove the bandages from her hand and arm.

Mrs. Dillman's son, Dick, phoned the H. O. Paul Company and notified his father of the accident.

## One Injured in Three Car Smash Near Cass City

One person was hurt in a three car accident Tuesday night at the intersection of M81 and M58, four miles east of Cass City.

Involved in the accident were Roy R. Wagg, Jr., Cass City; Albert J. Lentner, Argyle, and Henry Kulevov, Caro. Only Lentner was injured.

Lentner was cut on the hands and face by flying glass. Dr. F. L. Morris, Cass City, treated the injuries and Lentner was released.

According to Bad Axe State Police reports, the accident occurred when Wagg slowed down on M58 to make a left hand turn onto M81 and the car driven by Lentner sideswiped him while trying to pass.

After hitting Wagg, Lentner's car veered into the Kulevov automobile.

Troopers William Ravin and Orvil Rouse handled the case and they issued a summons to Lentner for reckless driving.

## Whales Hold Open House to Celebrate Golden Wedding

Mr. and Mrs. John Whale, Cass City, will hold open house from one to four at their home next Sunday afternoon as part of their golden wedding anniversary celebration.

Married for 50 years, the Whales moved to the Cass City area in 1898 and have been residents of

Mr. and Mrs. John Whale.

the community for most of the time since.

The couple were married March 11, 1901, at the Caro Methodist Parsonage by Rev. Isaac E. Springer.

John Whale spent most of his early years as a farmer in Novesta Township and has been a painter here since retiring from farm work. Mrs. Whale has been known for her work in the Methodist Church.

Mr. and Mrs. Whale have two daughters, three grandchildren and three great grandchildren.

The grandchildren are Carl, Larry and Gwenneth Geister. The great grandchildren include Linda and Barbara Geister.

John Whale was born in Drayton, Ontario, Sept. 1, 1872, and his wife was born March 25, 1881.

## Township Caucuses

Notice is hereby given that a Republican Township caucus for the purpose of placing in nomination candidates for the township offices of the Township of Elmwood, County of Tuscola, State of Michigan, and for the purpose of transacting such other business as may properly come before it, will be held at the Elmwood Township Hall, on Saturday, March 10, A. D. 1951, at two o'clock p. m. By order of Township Committee. —Adv. 1t.

## Cass City High School's District Basketball Champions

Coach Arthur Paddy had little trouble winning the District Class "B" basketball championship with this group of players to execute his plays for him. They were to have played Yale in the regional tournament at Flint Thursday night.

From left to right they are: Back row, Roger Little, Bob Wallace, Tim Burdon, Lee Hartel, Fred Milligan and Tom Townsend.

In the front row: Tom Schwaderer, Jim Bishop, C. Dorland, Coach Arthur Paddy, Eugene Kloc, Frank Creason and Bob Alexander.

## Parker Farm Home Burns to Ground

The farm home 9 1/2 miles north of town of Mr. and Mrs. Arthur Taylor, patients in the Stevens Nursing Home burned to the ground early Sunday morning. Wm. Parker, brother of Mrs. Taylor who lived there during the Taylors' absence was awakened by the smell of smoke at five o'clock and managed to get out of the building in only his underwear. His hair was singed and face and hands burned. His clothing, some money and all of the Taylors' furnishings were consumed by the fire.

Because of the early hour none of the neighbors knew of the fire until Arnold McCallum, a truck driver, arrived and took Mr. Parker to the home of his brother-in-law, Martin Hartel, nearby. The large frame house had been built many years ago by the late, Wm. Parker, father of Mrs. Taylor and Wm. Parker.

## Korean War Gavel Club Speech Topic

"Why are we fighting in Korea," was the discussion topic at the Gavel Club Tuesday night at the Home Restaurant in Cass City.

Opinions were given by Dr. Delbert Rawson, Cameron Wallace, Harold Outley and Raymond McCullough—who believe that we are fighting in Korea to stop communism.

During the business meeting, the club appointed a committee to investigate the possibility of softball in Cass City this summer.

## Free Advice For Service Personnel

Men about to enter military service, or families of men already in service, may have free consultation and advice as to whether they should sell, rent or otherwise care for their real estate, from members of the Michigan Real Estate Association, located in all parts of Michigan.

The directors of the association, in proffering these services as part of the national defense effort, stated that such families may consult a realtor of their choice, or have a realtor assigned to their problem by the president of their local Board of Realtors.

Explaining the need for such service, Edward F. Lambrecht, president of the association, said that most of the time expert advice is needed as to what should be done with real estate owned during the owner's absence in service. "With a thorough knowledge of local conditions, the realtor is in a much better position to relate this knowledge to the specific problem of the family involved," Lambrecht said, "and it is this service that our association is offering for the duration of the emergency."

## Final Registration Notice

Tuesday, March 13, is the last date I will receive registration of voters of Elkland Township for township election for 1951. Registration may be made at my home any day from 8 a. m. to 8 p. m. until said date. C. E. Patterson, Clerk. —Adv. 1t.

## Hawks Play Yale In Regionals at Flint Auditorium

The luck of the draw has given Cass City an excellent chance to reach the finals in the State Class "B" Regional Basketball Tournament. The Red Hawks drew a bye the first night and were to have played Yale Thursday night at 8 p. m. at the Flint I. M. A. building.

On the basis of comparative scores the Hawks should have little trouble with the Middle-Thumb squad. They split during the regular season with Sandusky—the team that Cass City easily defeated in the opening round of the district tournament here.

Top seeded team in the Flint Regional is Grand Blanc, who has won all its games this year. Other squads competing for the title are Flint St. Michael and Flint Beecher.

## Leikert Speaks at Rotary Club Tuesday

The Rotary Club heard Wayne Leikert, speech correctionist for Caro and Cass City, tell of the problems and progress of his course in this area at the weekly meeting of the club Tuesday noon.

According to Leikert, the next step in view is the establishment of a speech clinic on Saturday mornings for children in the area, regardless of where they go to school.

Willis Campbell and Don Borg put on a comedy skit that let the members in on what the "thing" really is.

## New Books Added to Local Library

Mrs. Arthur Little, librarian at the Cass City Public Library, announces the addition of a large number of books to the library recently. Purchased through the Literary Guild were three recent pieces of fiction, "Floodtide" by Frank Yerby, "Son of a Hundred Kings" by Thomas B. Costain and "The Cardinal" by Henry Morton Robinson. Other books from the Literary Guild will appear throughout the year.

## H. M. Bulen Named Pinney Bank Director

Horace M. Bulen has been appointed a director in The Pinney State Bank to fill the vacancy caused by the death of Dr. P. A. Schenck, who had been a member of the bank's board of directors since its organization as a state bank.

Mr. Bulen has been actively engaged in the automobile business in Cass City since July, 1937, with the exception of about three years spent in the service during World War II.

## Coming Auction

Clayton O'Dell, four miles west, one and one-half miles north and one-quarter mile west of Cass City, will sell his stock and machinery at public auction Friday, March 16. Further details on page eight of today's Chronicle.

## Athletes' Night at Community Club

Next Tuesday will be Athletes' Night at the Community Club dinner at the High School auditorium and 27 Cass City High School athletes will be the guests of the club.

They are scheduled to hear William Orwig, end coach at the University of Michigan, as the guest speaker of the evening.

Orwig was a noted player for the Wolverines. Besides playing on the football team, he was an all-conference basketball player for Michigan.

After graduation, Orwig coached at Benton Harbor before returning to the U. of M. to coach.

After his address, Orwig will show and comment on the 1951 Rose Bowl films of the game between California and Michigan New Year's Day.

## Teachers to Hear Many Speakers at Institute in Caro

Friday, March 16, the Tuscola County Teachers' Institute will be held at Caro in the High School Auditorium. All public schools are to be closed on that day and the teachers of these schools are to attend the institute. Attendance of the county's entire teaching personnel is expected. Parochial school teachers are also invited to attend.

Dr. Marion Joseph Skowronski, Saginaw County Hospital, Saginaw, has a message that all teachers will be anxious to hear. He will be one of the speakers on the morning program and his lecture will be followed by an illustrated lecture by Prof. Emil R. Pfister of Central Michigan College of Education, Mount Pleasant.

Three speakers have been engaged to discuss topics of educational value to elementary and secondary teachers in the afternoon. The elementary leaders will be Miss Elma Lighter of Central Michigan College of Education, Mount Pleasant and Mrs. Marian Magoon, Michigan State Normal College, Ypsilanti. John Hepler from the faculty at Central will speak to the high school teachers.

## Council to Sponsor Holy Week Services

The Cass City Council of Churches is sponsoring its third annual series of services during Holy Week, March 18-23, with the Evangelical United Brethren, Methodist and Presbyterian churches participating.

Rev. M. R. Vender, chairman for the spiritual emphasis week, announced that the week will begin with a service Sunday evening, March 18, at the Evangelical U. B. Church. The youth committee of the council will be in charge.

Arthur Holmberg, principal of Cass City High School, will speak in the Methodist Church Monday Night. The title of his talk will be, "What and Who is a Christian?"

Tuesday through Good Friday the Rev. Charles Bole, field representative of the Presbyterian Board of Christian Education, will be guest speaker at the churches.

## Cass City Cagers Sweep District Class "B" Basketball Tournament

### Hawks Post Easy Victory Over Bad Axe In Final Game

Cass City High School walked off with the 1951 State District Class "B" basketball championship last Saturday night by soundly whipping Bad Axe 72-57, at the high school auditorium.

Playing one of their better games of the season, the Hawks lost no time forging into the lead in their final game on the way to the district title.

Eugene Kloc started the scoring with a field goal in the first few moments of the game and Cass City never lost the lead.

With Tom Schwaderer, Tim Burdon and Bob Wallace showing the way, the Hawks moved into a 18-9 lead at the end of the first quarter.

Cass City was bothered by "Moose" Hanson, giant center for Bad Axe, who used his height to good advantage in the first half. Hanson kept his squad in contention during the first two periods by taking more than his share of rebounds on both backboards.

The two teams played even ball. Concluded on page 10.

## Program for Civil Defense Organized Tuesday Night

The Cass City Civil Defense authorities held their first meeting Tuesday night at the municipal building to prepare for atomic attack in the village, or in surrounding large cities.

Under the direction of Bob Hunter, civil defense leader of Cass City, a control group was appointed and an initial survey planned to determine the number of dwellings available to house disaster victims of other bombed areas.

For in case of an attack on Detroit, Saginaw, Bay City or other cities, Cass City would be called on to take care of part of the homeless.

The first report is due to the central Civil Defense Committee by Wednesday, March 14, it was announced by Lila DeBoer, director of the county Red Cross at Caro, who instructed the group on defense procedures.

According to Mrs. DeBoer, instruction of what to do by the civilian population in case of attack is of primary importance and she said that Tuscola County has purchased a film entitled "Survival Under Atomic Attack," for this purpose. Mrs. DeBoer said that every one living in the county will have an opportunity to see the film.

Cass City must be ready by April 16, to take part in a mock attack. Three bombs will be dropped on that date. One on Detroit, one at Sault Ste. Marie and the other at an undesignated spot.

So that the village will be ready to do its part, Hunter has appointed heads to all major posts in the Civil Defense organization.

On the staff will be Mrs. Wilma Fry and Chet Muntz, Police will be Steve Otto and Cliff Croft, medical, Dr. H. T. Donahue and in charge of public works will be Bud Burt.

Other officers appointed were Red Cross and Welfare, Harold Oatley, Harry Little, Keith McConkey and George Clara and Grant Patterson to the fire department.

The VFW and the American Legion are to be called on for vital assistance in the effort, Hunter said.

## Registered Holstein Herd Sets Record

The registered Holstein herd of Dolan Sweeney, Uby, completed its second testing year in the Dairy Herd Improvement Association, number two, of Huron County by setting a new county record with an average of 533.4 pounds of fat per cow.

Testing was under the supervision of the D. H. I. A. and Michigan State College. Several individual records were set during the year. They were:

A two-year-old, 18,571 pounds of milk and 730 pounds of fat.

A five-year-old, 18,921 pounds of milk and 707.3 pounds of fat.

An eight-year-old, 18,071 pounds of milk and 600.8 pounds of fat.

A three-year-old, 17,878 pounds of milk and 597.6 pounds of fat.

## Red Hawks Have Little Trouble With Pinconning Quintet

The Red Hawks of Cass City had little trouble moving into the finals of the District High School Basketball Tournament last Thursday night when they easily whipped Pinconning 48-35, at the high school gym.

Paced by Tim Burdon and Lee Hartel with 16 and 14 points respectively the Hawks went into an early lead in the opening quarter and dominated the game after the opening minutes.

Pinconning looked like a threat only in the first two minutes of the game. After Burdon had opened the scoring, the Spartans moved into a 5-2 lead before the Hawks found the range.

But Bob Wallace hit for two points to bring the score to 4-5 and Burdon added his second bucket to send Cass City into the lead. From that point on the Hawks dominated the play. Hartel found the range with three quick baskets and Cass City lead 12-7 a little past midway of the quarter. By the end of the period they had stretched their

## Farmers' Income Tax Explained

The farmer's income tax is basically like that of any other person. If he had a gross income of \$600.00 or more during 1950, he must file an income tax return on Treasury Department Form 1040.

And if, like most farmers, he keeps records only of actual cash received and cash paid out he is "on a cash basis" and he must fill out and attach a Treasury Department Form 1040-F to his income tax return.

The Treasury Department Form 1040-F is not a tax return. It is a special form in which the farmer can list his income and deductions and figure the net profit or loss from his farm. The total profit or loss shown in it is transferred to the income tax return, Form 1040.

Both Treasury Department Forms 1040 and 1040-F can be gotten from any Deputy Collector of Internal Revenue or by writing the Collector of Internal Revenue, Detroit 31, Michigan.

Cash Basis

The "cash basis" farmer uses only pages 1 and 3 of the Form 1040-F. Page 1 contains sub-schedules for the reporting of farm income from sales of livestock raised and livestock purchased, sales of produce raised, and other farm income. The form is divided:

Subschedule 1 on page 1 is used to report income from the sale of livestock raised. The farmer should enter as income in that sub-schedule the entire amount received by him from the sales of livestock raised, other than from a draft, breeding or dairy herd.

Subschedule 2 is used to report cash received by him from the sale of produce raised.

Subschedule 3 is used to report his other farm income, such as income from the hire of teams, breeding fees, and the like.

Subschedule 4 is used to report income received from the sale of livestock and other items purchased.

At the bottom of page 1 is a place for the farmer to total his income and the deductions listed on page 3 and arrive at his profit or loss. When he has figured his profit or loss, he should enter it in schedule C on page 2 of the regular income tax return, Treasury Department Form 1040.

Expenses Figured

Page 3 of Form 1040-F contains a listing of farm expenses such as labor hired, feed purchased, and seed and plants purchased. (Farm expenses generally allowed are described in the instructions on page 4 of the form.) The farmer should list in that schedule all the expenses paid by him during the year. He should not, however, include in farm expenses any of his personal expenses such as the taxes and insurance paid by him on his farmhouse.

Page 2 of Form 1040-F also contains a schedule for depreciation. The farmer should list in that schedule all his farm buildings and his equipment. He may also include in that schedule livestock bought solely for draft, breeding or dairy purposes. He then should figure the total depreciation deduction allowed him on his property, and enter the total at the bottom of page 1 of the form. For example, he would be entitled to a deduction of 10 percent or \$10.00 on farm equipment which cost him \$100.00 and has a useful life of 10 years.

The useful lives of various types of farm equipment, breeding animals, fruit trees, and so forth, used by the Treasury Department in figuring depreciation, are listed in a booklet known as "Bulletin F." That booklet, which costs twenty-five cents, may be secured by writing the Collector of Internal Revenue at Detroit.

Accrual Basis

A farmer who is not on a "cash basis" is on the "accrual basis." He must report income when he becomes entitled to receive it—whether actually received or not—and may claim expenses when his liability to pay them is fixed—again, whether or not he actually pays them. If he is on the accrual basis, he may use Form 1040-F with Form 1040. But if he does so he must complete the schedules on pages 2 and 3.

A farmer must be entirely on the "cash" or entirely on the "accrual" basis.

## Special Benefits

The farmer enjoys several special income tax benefits. For example, if he sells at a profit livestock raised or bought for draft or work purposes, or solely for breeding or dairy purposes, and has held the livestock for more than six months, he needs to report only half the net profit. If he sells such livestock at a loss, he can deduct the entire loss from his other income.

The farmer also can either claim as an expense the amounts he has paid for the upkeep of a grove or orchard, the cultivating and spraying of trees, etc.; or he may capitalize them and charge off depreciation. It is his privilege to adopt the form of deduction most advantageous to him.

After the farmer has completed Form 1040-F, he is still entitled to deduct on Form 1040 all the deductions granted any other individual taxpayer.

In making out his income tax return, the farmer has a complicated job to perform. Like many businessmen, he may find it wise on occasion to seek expert assistance.

## RESCUE

## LAST WORD

Alec Templeton, the blind piano virtuoso, is credited with having the last word in this story.

A woman waylaid him after a radio broadcast and gushed: "Oh, Mr. Templeton, that last selection you played was divine. May I ask who was the composer?"

"Bach, madam," Templeton replied.

"Wonderful," the lady bubbled, "and is he composing at present?"

"No," the pianist answered, "de-composing."

Evangelical United Brethren Church—S. R. Wurtz, Minister.

The Acts of the Apostles gives us an account of a church destitute of the Spirit. The picture corresponds in many particulars with that of the church in the Apocalypse that had lost its Christ. The church in Laodicea was rich and respectable, prosperous and influential, complacent and confident, but was blind to the tragedy on the doorstep. Their worship was faultless in form and passionless in spirit. There was no heresy in their creed, but there was no fire in their souls. Let us watch and pray to keep the spirit of Christ vital in our church life.

## EGG-MAKING NUTRIENTS FOR HIGH PRODUCING HENS

Hens can't make good on the nest unless they get the nutrients they need to produce. Give them this chance. Ask for Larro "Farm-tested" Egg Mash. Larro is a high quality, productive feed resulting from years of work at Larro Research Farm. It supplies the nutrients high producing hens need and helps you make a real profit over feed cost. So for egg and profit producing results—always ask for Larro Egg Mash.

Eighteen were present Friday evening when the Golden Rule Class of the Evangelical U. R. Church met with Mr. and Mrs. Raymond McCullough. Devotions were conducted by Mrs. Harve Bartle and entertainment was arranged by Mrs. Grant Ball. Plans were made to serve a supper April 15 at a Christian youth convocation to be held in the church here.

Tangy Florida grapefruit halves, dressed to fit the occasion, will prove a perfect addition to late winter meals, particularly since they pack a punch of Vitamin-C goodness, so important during these months in warding off colds. Use green or red jelly cut in interesting shapes—a heart for February birthdays; a shamrock for St. Patrick's Day, with huckleberry leaves around the edge of the grapefruit half; your favorite preserves; shredded coconut and tangerine sections for an ambrosia-like first course; or flaked seafood and sliced olives for an appetizer. Grapefruit is a particularly good buy during February, when special shipments are being made to stores in all parts of the country.

Archaeologists fix the dawn of civilization at about 6,000 B. C. Most anyone can tell you the dawn is yet to come.

Brinker Lumber Co.

Tells How to Apply Asphalt Shingles

(1) Lay asphalt shingle roofs on only smooth, tight, and sound decks.

(2) Follow manufacturers' instruction sheet, using heavy-weight shingles of good quality.

(3) Use enough nails and place them in proper locations. In applying 3-tab square-but shingles, use six nails in each strip. Locate the nails on a horizontal line 5 5/8-in. from the exposed butt edge; locate one nail 1-in. in from each end of the shingle; locate the remaining four nails 1 1/2-in. on each side of the center line of each cut-out.

(4) Use nails long enough to penetrate a sound roof deck by at least 3/4-in.

(5) Cement down tabs of strip shingles; place a dab of quick-setting cement about the size of a 50 cent piece under the center of the exposed portion of each shingle tab and press the tab down firmly.

(6) On Lock-butt and Dutch lap shingles, cement down the starter course of shingles and the terminal shingles at the eaves.

Some people have two views of a secret—either it's not worth keeping or too good to keep.

## Carton Keeps Butter Better

Proper refrigerator storage is an important angle in food conservation. Butter should be bought and kept in the paraffined carton in which it is purchased, so that moisture and the odors of other foods will not affect its flavor and consistency. All leftovers should be stored in covered containers. Store milk in your refrigerator immediately; the bacterial count increases rapidly at room temperature, and light destroys some of the valuable vitamin content.

## Capacity Crowd At O. E. S. Meeting

A capacity crowd filled to overflowing the chapter rooms Wednesday evening for the annual "Friends Night" staged by Echo Chapter, O. E. S. Mr. and Mrs. Howard Helwig of Gifford Chapter, Gagetown, and Mrs. Evelyn Streu of Decker Chapter presided when the degrees of the Order were conferred on Mr. and Mrs. Frederick (Fritz) Neitzel and Mr. and Mrs. Hazen Brown. Assisting in the initiation were guest officers from many surrounding chapters. Present and past "Esthers" were honored guests and Mrs. Ralph Clara of Pontiac, past grand Bethel, in a very capable manner, gave the history of Esther.

Mrs. Ruth Hoffman was soloist for the evening.

At the close of a very pleasant evening, ice cream, pie and coffee were served by a committee of Mrs. Stanley Morell, Mrs. Harold Murphy, Mrs. Leonard Urganhart, Miss Laura Bigelow, Mrs. Clarence Merchant, Mrs. Richard Bayley, Mrs. Harold McGrath and Mrs. Earl Hartwick. Table decorations were shamrocks and lighted green tapers.

Red Cross Drive Not Connected With Community Chest

Many of the citizens of Cass City thought that they were contributing to the Red Cross Fund at the time of the Community Chest drive last fall. According to Harry Little, Cass City, this was not the case as the Tuscola Chapter of the Red Cross was not part of the Chest campaign.

An arrangement has been made whereby all local residents will be approached by Red Cross Volunteers who will be glad to receive a cash donation. Or the citizen may designate what portion of his Community Chest contribution he wishes to give to the Red Cross to assist in carrying out its responsibilities in this grave national emergency.

Local Couple Speak Wedding Vows

Miss Jerry Orlovski became the bride of Grant Glaspie on Saturday evening, March 3, at 7 p. m. in the Rectory of St. Pancratius Church of Cass City.

The ceremony was performed by the Rev. John Bozek. Jerry is the daughter of Mrs. Frances Orlovski of Cass City and Grant is the son of Omar Glaspie of Cass City.

The bride was gownned in a dress of white marquisette with metallic embroidery, ballerina styled. Her waist length veil was attached to a Juliet cap of white satin. She carried a white prayer book topped with white gardenias and lilies of the valley.

Mrs. Carl Aldrich of Bay City, attended her sister as matron of honor in a gown of yellow faille with matching headpiece. The bridesmaid, Miss Mabel Zemke, of Deford wore a dress and headpiece of green faille and both attendants carried nosegays of yellow daffodils and white carnations.

The groom's attendants were Richard Orlovski and James Mark, both of Cass City.

The bride's mother chose a pink knit dress with navy accessories and a corsage of red and white roses.

Immediately following the ceremony a reception was held at the O'Rourke Restaurant. Ice cream and cake were served to relatives and friends of the newlyweds. Jerry and Grant received many lovely gifts.

For going away Mrs. Glaspie wore a rust suede dress with brown accessories. Following a two weeks' honeymoon in Chicago the couple will reside in Cass City until Mr. Glaspie leaves for the service April 1.

Both are graduates of the Cass City High School.

The best way to forget the faults of others is to remember a few of your own.

## Weather Spurs State Bean Growers

Recent occurrence of several warm bright days have caused farmers to think about the approaching growing season, and more specifically about seed for their 1951 crops. Assistant County Agricultural Agent Byron E. Carpenter reminds farmers of some advice offered on buying seed beans by Dr. E. E. Down, well-known M.S.C. crops authority.

"In talking with Michigan bean growers," says Dr. Down, "I find that many do not understand the system used in Michigan to maintain a good supply of navy bean seed. Foundation seed, which is the best seed available, is produced by the Michigan Foundation Seed Association."

The College plant breeding specialist went on to say that for many years this seed was grown in isolation on South Manitou Island. The last grower has moved from the island and a search is being made on the Michigan mainland for an isolated area to grow these foundation fields. The foundation fields are grown under the watchful eye of the plant breeder and the pathologist of Michigan State College to see that high standards are maintained.

Foundation seed is sold to growers who agree to have their fields and harvested seed inspected by the Michigan Crop Improvement Association. The Michigan Crop Improvement Association certifies this seed as to variety, purity and germination and it is called certified. At present about 125 acres are grown for foundation seed. Foundation seed is planted on some 4,000 acres for certification. Certified seed is used for about one-fourth of the 400,000 acres planted to navy beans in Michigan. The remaining 300,000 acres are largely planted to seed that is one year or more away from certification.

Michigan bean growers are fortunate because in a program like this a good supply of high quality seed should be available every year. The year 1951 is no exception in spite of the unfavorable growing conditions of 1950. Last year much of the navy growing area had the worst infection of bean diseases that this state has seen in 30 years.

Farmers Should Make Close Check At Farrowing Time

Watchful care at farrowing time can help cut new-born pig losses, say swine specialists at Michigan State College.

They suggest that farmers provide comfortable, clean, warm quarters for the sow and pigs. Sows should be eating regularly—if they don't, find out why, the swine specialists advise.

When the litter is born, help the pigs to suckle, especially the weaker ones. If the pigs are not sucking, or if the sow isn't providing any milk, find out the reason.

Watch the sow for any signs of fever, mastitis, or discharge and watch the pigs for any sign of unthriftiness, scouring or evidence of disease.

#### COW LICK

William Dana Orcutt tells of a young politician who, in his first appearance at a county fair, was trying to convince the farmers that he was one of them. "Feeling the urge to get away from the hot pavements last Sunday, my feet took me out into the country. As I walked along a bonky glade, I came out into a sylvan meadow through which flowed a pearly brook. Beside the brook stood a cow with an expression of anxiety on her face. I discovered that her offspring had fallen into the brook, and was unable to extricate itself from its dilemma.

"And—fellow citizens, I waded in and lifted the helpless creature tenderly to the bank. And that mother cow, instead of going to her calf as one would have expected, came directly to me and lapped the dripping water from my clothes.

"Now I ask you—was that not a demonstration of one of the greatest of all human attributes? Was that not a touching expression of gratitude?"

"No," came the answering voice from the crowd. "She thought she had another calf!"

### ANCIENT JOKE

The farmer, his business in town concluded, was driving homeward when he heard the fire siren and dutifully guided his horse and wagon to the curb. After the engine whizzed by he started up again. But the hook-and-ladder truck came zooming along and smashed squarely into the farmer's wagon.

"Didn't you hear the siren?" asked the cop as he helped the farmer from the wreckage.

"Yes, and I let 'em go by," said the farmer. "And then along came that truckload of drunken painters!"

## Down Memory Lane

FROM THE FILES OF THE CHRONICLE

### Thirty-five Years Ago.

March 10, 1916.

To the automobilist who has been worrying over the high price of gasoline, Mr. Travis brings the news that tests have been made of oil taken from oil wells at Adrian, N. Y., which show that the oil is 80 percent gasoline. The oil has been placed in automobiles in the crude form just as it is taken from the wells. So far it has given good satisfaction and about 80 percent of the mileage that is secured from gasoline is secured from the oil.

The Ford Motor Company set a new record Feb. 29, the extra day this year, when it built and shipped 2,480 cars. The previous record was 2,100 cars Jan. 28.

After major surgery, an Irish patient came out of the ether in a semiprivate ward and exclaimed joyfully, "Faith, and that's over."

"Don't be too sure," counseled a gloomy voice from the next bed. "The rascals left a sponge inside of me and had to cut me open again."

At that moment—the surgeon stuck his head in the door and asked, "Anybody see my hat and coat?"

The Irishman faints.

### MIXED GRILL

Broderick Crawford's choice

4 lamb chops, cut 1 inch thick  
8 small pork sausages  
2 large cooked yams, halved  
2 tablespoons chopped olives

Place chops and sausages on rack of broiler; pan turn switch to broil. Place yams so that surface of meat is about 4 inches from broiler unit. Leave oven door partly open. Broil 6 to 8 minutes. Turn chops and sausages. Add yams and tomatoes; brush with melted butter; sprinkle with salt and pepper; water. chives on tomatoes. Broil 6 to 8 minutes longer. Arrange on hot platter. I have just returned from a two-day trip to Washington on a number of Michigan matters.

One of the most important interviews I had down there was with Secretary of Agriculture Charles Brannan on the plight of Michigan bean growers. I told Secretary Brannan that we want the federal government to give us some help in finding a market for a large part of our 1950 bean crop, which remains in storage, much of it on the farms.

Bean growers have told me that unless this crop can be moved soon warm weather will result in severe spoilage. So I suggested to Mr. Brannan that Uncle Sam might buy up some of the canned beans now on the market and thus open up a demand for the Michigan bean crop.

Mr. Brannan is considering this proposal. Edward C. Meade, of Newaygo, my Administrative Assistant, stayed in Washington all week to confer with other Agriculture Department officials on ways and means of carrying out such a program.

I am very hopeful that we will get some help for this group of Michigan farmers.

It was a pleasure to sign, last week, Senate Bill 2, which makes about \$18,500,000 available for fixing the chuckholes winter weather has left in our highways.

This money comes from present gas and weight taxes. The returns from these taxes during the last six months were unexpectedly high, and I urged the Legislature in January to authorize expenditure of the extra funds this accumulated.

S. B. 2 appropriates \$7,000,000 to the counties, cities and villages. All of this can be used for repair work, if the local communities want to do so. The rest of the appropriation, \$6,500,000 goes to the State Highway Department, for new construction.

This cash cannot technically be spent on repairs, but it will make possible the release of other funds for repair work.

## Careful Planting Makes Soil Tillable

Henry Titworth, whose farm is located in Section 13 of Millington Township, told James K. Tew of the Soil Conservation Service that eight years ago when he came from the city to this farm, the ground was so hard that it could not be broken with a team of mules weighing 1800 pounds each pulling a one bottom walking plow.

Since Titworth has been on this farm he has sown his fields to deep rooted legumes, such as alfalfa and sweet clover, about every three years. At the present time he is plowing and cultivating his land with a small two plow tractor without any difficulty.

Titworth is now a cooperator with the Tuscola County Soil Conservation District. He plans to improve his crop rotations and continue to plant legumes to improve his soil structure and organic matter, along with contouring a few long slopes and planting some multiflora rose as a living fence.

Titworth has found that plowing under alfalfa has aided his drainage problems and he gets more production with less fertilizer.

Titworth said that he wants to leave the farm in better condition, than when he came to it, so his sons won't have to face the same problems he did.

## Lambing Time Means Extra Care Needed

Lambing time is the most important season of the year to sheepmen, says H. A. Henneman, animal husbandryman at Michigan State College.

It's the time of year, he says, when extra time and attention will pay dividends. Loss of a few hours sleep will be well repaid.

He suggests that the barn be well bedded with clean straw. Panels or hurdles 30 inches high and eight feet long and hinged in the middle should be available to pen each ewe and her lambs separately for the first three days. These panels can be set up as needed in the warmest corner of the barn and each one makes a four by four foot pen.

Such pens will prevent lambs from getting separated from their mothers and will help to prevent disowned lambs. The pens allow small lambs to get a good start and it is easier to check on them.

A warm barn, free from drafts, is the best insurance against chilling lambs. However, the barn should not be closed so tightly that it becomes damp and invites pneumonia.

If the weather at lambing time is very cold, it is much better to allow for good ventilation and provide a 100-watt electric light bulb and reflector about two feet above the floor to furnish extra warmth for the lamb. Henneman advised that these are similar to pig brooders, and care should be taken that wiring is not overloaded.

Just previous to lambing it is wise to tag and clip the wool away from the flanks and udder. This will make it easier for the lamb to find its first meal, the sheep specialist advises.

**Beef Cattle**  
Beef cattle feeding margins for the year ahead are not expected to be as large as last year.

**Bad for Cows**  
High door sills on barns are a major cause of injury to cows' udders.

## H. C. Worden Dies in Pontiac

Funeral services for Harry C. Worden, 64, of Pontiac were held Monday in Pontiac and burial was made at Hemans Monday afternoon. Mr. Worden died unexpectedly while at work Friday. He was a native of Kingston and married the former Mabel Fike of Marlette. Survivors include a son, Roy Worden, of Cass City.

Every new auto requires six tons of coal in its manufacture.

## Steel's First Chemist

## White Bread

Today's one-pound loaf of enriched white bread contains 1.1 milligrams of thiamine compared to .27 milligrams it contained in 1941 before the enrichment program.

Some sections are covered with snow and ice at this time of year—and as usual many autoists will go slaying.

## Safer Milk

Milk-borne diseases are now nonexistent in communities having an efficient milk inspection service.

## Farm Income

Net farm income in 1950 is likely to be 5 to 10 per cent below last year.

The only good thing that can be said about an egotist is that he doesn't have time to talk about other people.

When it comes to picking up a luncheon check some people have a slight impediment in their reach.

With the startling disclosure that Detroit's school children are being exposed to dope, Gov. G. Mennen Williams has begun probing all state agencies having to do with narcotics to see what type of legislation is needed to combat the menace. A bill already has been introduced raising the penalty for selling narcotics to minors to 15 years in prison and/or \$4,000 fine.

The governor opposes the used car tax and the two cents gasoline levy. But he is not committed to a veto. Aides state that his "position will have to be clarified." The fact remains, he just doesn't like either tax.

If adversaries of a gasoline tax wished to overcome the antagonism of the governor on the bill, they would couple a one-cent gas tax with a corporations tax which would leave him no alternative but to sign it into law.

Taxes? Michigan taxpayers (citizens and employers) paid \$73.59 each to the state government last year, putting the state 10th high in the nation for per-capita levies. National state tax average is \$61 per head. Total amount collected in Michigan in 1950 was \$460,000,000. (Note: More than 78 per cent of each sales tax dollar is returned by the state to cities, counties, townships and schools. A major part of the state's \$2,728.5 millions in federal taxes was corporation income taxes.)

In addition, taxpayers of the state contributed \$2,728,500,685 of the \$9 billion dollars in federal taxes last year. That is 7.05 per cent of the total paid in. Michigan has 4.23 percent of the nation's population; state's share of the national income was 4.56 per-

cent, a losing proposition. Federal taxes soared from \$187.1 millions in 1930 to \$2,728.5 millions in 1950.

But Michigan is among the 17 states without a state income tax and also one of the 15 states with no state corporation tax—thus far. (Voters repeatedly rejected an income tax. Michigan employers in 1949 paid \$1,645 millions in federal taxes. This business tax load was transferred to consumers in higher prices.)

According to the governor, Michigan money is draining out of the state because there is no state corporation tax. State taxes are deductible from federal taxes. Such is the Williams viewpoint.

A St. Lawrence Seaway project apparently has been blocked. G. O. P. controlled senate business committee has it in committee—and to all appearances will keep it there. Attention has been drawn to the seaway recently by speculation on a possible all-out war and draining of Michigan ore supplies, bombing of the Sault locks and the foreseeable necessities of utilizing Labrador or South American ore in midwest smelters.

At least \$450,000 will be required to give minimum fireproofing to the state capitol building. Recommended is \$225,000 for new wiring alone. In 1949 the same job was estimated at \$166,000. State Controller Robert F. Steadman says that at that time the "legislature severely criticized the recommendation, and instead of supporting it, recaptured \$93,000 previously earmarked for the work."

The federal government has authorized 60 hours of additional training for the Michigan National Guard during the first six months of 1951. This is in addition to the regular two-week stay at summer camp and the 48 weekly two-hour training periods.

The state defense council has

asked the legislature for \$7,126,000 to protect Michigan against attack. The figure is based on the belief that the federal government will contribute \$3,149,000. Biggest item is \$3,500,000 to continue and expand the blood typing program.

The legislature has \$65,000,000 for mental and tuberculosis hospitals—and as yet not even the site of a T. B. hospital has been settled on. The T. B. sanatorium commission selected Kalamazoo; Berrien County drummed for the honor; VanBuren County has its bid in—the bed shortage continues.

Little Hoover commission says the department of agriculture needs an overhauling. Pictured as a "conglomeration of loosely-administered and badly conceived agencies," the commission recommends abolition of the bureau of agricultural industry; institutional farms and state fair grounds, and the division of drains and food inspections.

**Stabat Mater**  
At the Cross her station keeping  
Stood the mournful Mother weeping  
Close to Jesus to the last.  
Through her heart His sorrow sharing,  
All His bitter anguish bearing,  
Now at length the sword has passed.

The simple, plaintive tune and pitiful words on the sorrowing Mary make the Stabat Mater perhaps the most pathetic of all Christian hymns. It is translated and sung by Protestant churches as "Near the Cross was Mary Weeping." Written apparently by a Franciscan Monk, it was fostered by the Flagellants who sang it while moving from town to town. Today it is sung to accompany the Stations of the Cross service during the Lenten season.

## Rats, Like People, Take to Drink When Emotionally Upset

MILWAUKEE, Wis.—Marquette University students recently conducted an experiment to determine whether animals would turn to alcohol is emotionally upset. They will, the student concluded when the experiment was completed.

The students took a dozen white rats and separated them into four groups. One group lived a normal life—for a rat in captivity—and was given a regular diet of water and food. A second group also was given normal food, with a free choice of water or a solution containing 6 per cent alcohol. This group barely touched the alcohol. The two groups came out of the experiment about the same, with their fur smooth and their reactions normal.

Life was more complicated for the other two groups. One received an adequate supply of food but got only the alcohol solution for drink. The fourth group was kept hungry much of the time but had a choice of water or the alcohol solution for drink.

The fur of the last two groups became fuzzy, due, the students and instructor concluded, to the use of alcohol. Both groups were nervous but the fourth group also was highly irritable. That rats in the fourth group rose up on their hind feet and assumed a fighting stance whenever anyone came around. They snapped at visitors who opened their pens. Although they had the option of drinking water or the alcohol solution, they consumed more of the alcohol than the water.

The students concluded that the rats in the fourth group, frustrated in their desire for more food, turned to the alcohol "to relieve anxiety and feel relaxed."

Dr. Joachim J. La Maita, who directed the students in the experiment, said: "The experiment indicates that animals, like human beings, become irritable when emotionally upset and may turn to alcohol as an escape."

### Old Blind Justice a Bit Dumb, Judge Discovers

FLINT, MICH.—The municipal court judge was shocked when the jury returned a verdict of "acquittal" for 10 men charged with gambling.

The judge asked one juror if he had noted "not guilty?" "Heck no, your honor, we voted for acquittal," the juror explained.

The jurors were told that "acquittal" meant "not guilty." They retired to the jury room, elected a new foreman and brought in a guilty verdict.

### British Pint, Local Pub Victim of Welfare State

LONDON, England—"The local," the intimate little bars scattered over England, are on the way out. Beer was the favorite drink served at "the local," but beer drinking is on a sharp decline in England these days. In fact, beer production is now lower than at any time in the last 15 years.

The sad truth is that beer has been its own worst enemy. So popular was it with almost everyone in the country that postwar chancellors of the exchequer saw in it a sure-fire way to help finance the welfare state.

This year's national budget alone has skinned from the nation's beer drinking roughly 287 million pounds (747.6 million dollars).

This tax money has helped carry out the welfare state program of health services, pensions and shorter hours. As a result of the increased leisure time, Britons are going to more movies and plays, visits in the country, and forgetting about "the local."

As a result beer consumption has dropped from 32 to 27 million barrels a year. If it continues to decline many of "the locals" will be out of business.

### Moose Wrecks Reckoning Of Air Force Navigators

FAIRBANKS, Alaska—A 1,000 pound moose wrecked the reckoning of four air force navigators. Wind, clouds and the midnight sun have proved no handicapped on their flights to the north pole. But the moose—that's another story.

The four officers were hitting a 40 mile an hour clip in an automobile about 30 miles north of Fairbanks when the moose ambled onto the road. The net result: One damaged car, four scratched officers, one moose with a broken leg.

Air force military police shot the moose, dressed the meat and sent it to Fort Yukon natives.

### No Ferry Moves Over River Styx; Charon Has Retired

MONTGOMERY, Ala.—Motorists are puzzled by a sign which marks a bridge between Baldwin county, Ala., and Escambia county, Fla.

The highway at that point crosses the river Styx. The sign that marks the bridge reads—"Charon retired." Charon was the ferryman who operated the ferry across the black waters of the underworld into the infernal regions, according to Greek mythology.

A scholar in the Alabama highway department painted the sign to indicate there was no ferry across the river Styx.

A highbrow is a man who has been educated beyond his capacity.

## DEFORD NEWS

### March Youth Meeting—

The young people decided on Monday night for their party and there were 16 out from Deford and Kingston. Their sponsor, Mrs. Eldon Denhoff, and Rev. and Mrs. Harris were extended an invitation. The president, Arleon Kelley, called the meeting to order. Rev. Harris led the singing with Marjorie Kelley as pianist. Arleon read the scripture and called on Mrs. Earl Rayl, Sr., for prayer. Carolyn Rayl conducted the recreation and after an hour of fun refreshments were served. Rev. Harris praying the grace, then all departed after a cooperative dish washing game. The April meeting will be with the Kingston youth.

### Intermediate Party—

Saturday night was chosen by the Sunday School intermediates and their teacher, Horace Murry, for their party and many gathered at the home of Gail Lester for the occasion.

There were games and refreshments. If you were there you surely had a good time, and if you were not there, join their class and you'll know what we mean. There's a welcome awaiting you.

### March W. C. T. U.—

Thursday afternoon the ladies of the Women's Christian Temperance Union gathered at the home of Mrs. Harriet Rayl for their March meeting. Mrs. Fern Babish gave the scripture, calling on Mrs. Harriet Rayl for prayer. Mrs. Edna Warner brought the lesson, challenging each one to be "on their toes" against the liquor traffic, or any "traffic" that degrades the worth of man, woman and child.

These meetings are very helpful and we need the help of any and all who read these articles of this temperance work to keep our community what God intended it to be and not what Satan wants it to be. May we have your help, your prayer and your fellowship? God's punishment either here or in the hereafter will be much more severe than any selfish pleasure we may seek here on earth. Join the Women's Christian Temperance Union and give and pray and help to make Deford a grand place for your children to be brought up in.

### Keep March 11 Open—

The Rev. McDonald, superintendent of the Rescue Mission of Port Huron, is coming to the Deford Church March 11 at 8 p. m.

to conduct the evening services and will bring special musical numbers with him. He is a noted "Christian Magician."

### February Family Night—

The Deford Church family fellowship was postponed until Mar. 2 because of the Farmers' Club, which was to meet Feb. 28, the assigned date.

Around 68 gathered at the home of Mr. and Mrs. Gerald Hicks and daughters for a fine fellowship of all ages. Mrs. Harley Kelley conducted the devotions. Rev. Harris, lead in prayer. The chairman, Mrs. Kenneth Churchill, led in the song service which preceded the devotions. Several announcements were given, one especially, that the church would have services every Sunday night in the future except the hymn-sing nights, the first Sunday of each month when our church joins with the Pilgrim Holiness and Methodist Churches of Kingston and the Wilmet Free Methodist Church for the "sing fest."

Horace Murry conducted the recreation. Quizzes based on the Bible and two other games were enjoyed. "Yarns" will be "yarns" when told in a group like that. Lowell Sickler and Harley Kelley each sang two solos which all enjoyed, then Harley and Jerry rendered some instrumental selections on the accordion and guitar. If you were not there you missed much. May we see you in March?

### Neighbors and Friends Fellowship.

Tuesday night around 30 relatives, friends and neighbors gathered at the town hall in Deford to let Mr. and Mrs. Harry Hartwick know that we all feel with them their loss when their home burned last week.

After a period of visiting a potluck lunch was served and the Hartwicks were presented with over \$300.00 and wished well for the future.

Mr. and Mrs. Harold Chapin were host and hostess for the event.

The midweek service was attended last week by about 38 adults and children in the church and there is more room available. Won't you join with us in these gatherings? Singing, studying and praying are all commands to us from God, a wonderful privilege in a country where such can be held openly. It is yours if you'll take it.

The Novesta Community 4-H Club held their monthly meeting at the home of Everett Field on Mar. 1. After the business meeting games were enjoyed. A fine lunch was served. The next meeting will be held at Russell Peck's home on Apr. 5. Everyone is urged to attend. Geraldine Warner, 4-H reporter.

The Deford community extends sympathy to Mrs. Henry J. Siewert and son in the death of Mr. Siewert Feb. 28 of Had Axe in an automobile accident. His widow, the former Velma Spencer, is the daughter of Lyle Spencer and granddaughter of Mr. and Mrs. George Spencer of Deford.

Mr. and Mrs. Warren Kelley and daughter and Mr. and Mrs. Jerry Hicks and daughters spent Tuesday in Detroit.

Girl Scouts Hold Birthday Celebration

On March 12 Girl Scouts everywhere in the United States will observe the thirty-ninth birthday of the movement to which they belong. It was on this date in 1912 that Juliette Low first met with a small group of girls in Savannah, Ga., and the first Girl Scout troop in the United States was organized. This nationwide movement has grown until membership is more than a million and a half and there are Scout groups in rural, urban, and suburban communities in every state and U. S. A. possession.

The achievements of Girl Scouting during the thirty-nine years of its activity have been remarkable. The movement has expanded its program as well as its membership during a period of the nation's history interrupted by two wars and a major economic depression. Generations of girls have received Scouting's splendid training in citizenship and democracy. Generations of grown-ups, too, have been the all-important volunteers who have made Girl Scouting possible to so many youngsters. Girl Scouting has established itself as an important community and national service to youth attracting civic minded grown-ups just as it attracts girls.

Because of the great need for more adult volunteers in every community in Tuscola County, the number of girls belonging to Scout troops is kept at a minimum and some areas have had to give up the work which teaches girls to live harmoniously under the Girl Scout Promise.

Biddle Reports Korea Temp. 32 Below

Mr. and Mrs. Casper Whalen received a letter from their grandson, Donald Biddle, who has been with the army in Korea for 2 1/2 years. The letter, dated Feb. 14, says "I am OK and still fighting, but what are we fighting for?" He states that the temperature has been 82 degrees below zero and there was three and four feet of snow where he is located. The letter was a surprise to the Whalens because they had not heard from Donald since they received official word that he was wounded and in a Korean hospital in September and they feared he might have lost his life.

Chicken Hearted Audience

Milton Berle tells of the touring circus in Europe, which advertised that an 83-year-old man would dive 90 feet into six inches of water. The place was jammed, and then the bent, bearded and wizened man walked out onto the platform.

"I am 83 years old," he announced, in a thin, wailing voice, "83 years old. And to make a diving, I have to dive 90 feet into that tub. Imagine your own fathers, or grandfathers—at the age of 83 having to dive 90 feet. A young person could get killed doing such a thing, and I'm 83. Tell me," he wept, "shall I dive?"

"NO," the touched audience shouted in chorus.

"Then," said the 83-year-old man, "will you please clear the stadium and make room for the next audience?"

Need Proper Samples For Accurate Tests Of Tuscola Soil

The Tuscola County soil testing laboratory, which opened three weeks ago at the County Farm Bureau office in Caro, has had little business thus far, but assistant Agricultural Agent Byron E. Carpenter says that lots of samples are expected within a few days. Farmers who have recently heard about the soil testing service will be anxious to submit samples from their fields, Carpenter believes.

The Agent, however, called attention to the fact that an accurate soil test depends a great deal on how the sample is taken from the field. "Soil sampling procedure involves many details," said Carpenter, "but there are some basic suggestions that farmers can follow to be assured of dependable results."

First of all, a mixture or "composite" of samples taken in several different spots, in the same field, all having similar elevation, slope and soil type, is advisable. At least four, and preferably six different sources are advised for each composite. If a field is level and the soil seems to be the same and crop yields are uniform over the field, one composite may be sufficient. However, if the field covers more than 10 acres, two composite samples are advisable even when conditions are uniform. Composite samples provide insurance against unusual treatment which might occur on a single spot of ground, such as piles of manure or decaying plant residues, which would impart an unusually high plant food content to the soil below it.

Samples for soil tests should be representative of the field from which they are taken. If the field is hilly or sloping, samples from the higher areas should be combined in one composite, another group from the slopes should be mixed together, and a third composite sample should be made up from several specimens from the lower or basin areas. When a field has been divided and used for different crops, separate composite samples from each area according to the crop grown should be made.

"Perhaps the most common mistake in taking samples for soil testing," Carpenter stated, "is to scoop up the sample from the top inch or two of surface soil. Crop roots feed much lower than that, and in general, soil samples should be made uniformly from the top six or eight inches." One method of getting a proper depth sample is to scrape a uniform groove from the furrow wall behind a plow. Or a slice of soil may be removed with a shovel, and a vertical sample can be removed from this. "The important thing here is to have the same volume of soil in the sample from a 6-inch depth as from the surface," the Agent states.

Farmers often express concern over a certain spot in a field which seems to be lacking in nutrients and results in poor crop yields. Samples from such areas can be tested, but oftentimes it is not practical to apply a special fertilizer to correct the deficiency in a very small area, even if deficiencies are found. Sometimes such an area can be given a treatment to correct certain deficiencies by broadcasting with a drill before planting or by hand at or after planting time.

Soil samples should be placed in clean paper, cardboard or glass containers and delivered as soon as possible to the laboratory. One-half pint of soil is sufficient for the tests commonly made.

Long Illness Fatal to Mrs. Frank Lawson

Funeral services for Mrs. Frank Lawson, 55, of Argyle Township were held Wednesday at 2 p. m. in the Douglas Funeral Home. Rev. S. R. Wurtz officiated and burial was made in Elkland cemetery. Mrs. Lawson, in failing health for four years and ill for the past three months, died early Sunday in the home of her daughter, Mrs. William Schmidt, of Snover.

The former Pearl Smith, she was born in Wheatland Township, Sept. 25, 1895, and was married to Frank Lawson on Nov. 11, 1914, in Sanilac County.

Besides her husband, she leaves four daughters and three sons: Mrs. Clayton Schuler of Lake Orion, LeRoy Lawson, Mrs. Wm. Schmidt and Harold Lawson of Snover, Frank Lawson, Jr., of Pontiac, Mrs. William Morris of Lincoln Park and Miss Beatrice of Detroit; 14 grandchildren and two brothers, Oliver Smith of Snover and Leslie Smith of Detroit.

Atomic Bomb Would Disappoint Public If Put on Display

WASHINGTON, D. C.—The public is going to be disappointed if and when A-bomb is put on display—especially to those who have conjured up visions of a fantastic looking weapon.

The atomic energy commission chairman, Gordon Dean, is of the opinion that the time is coming when a model can be put on exhibition without giving away important secrets.

Dean said thousands of persons in the armed forces and atomic plants already know what the bomb looks like. And while he didn't say so, it is pretty obvious the Russians know, too, since they're making their own bombs.

The external appearance of the bomb still is officially top secret. But enough information has been made public for the curious-minded layman to piece together a fairly good mental picture of the super-bomb.

There is little doubt that A-bombs are big—even in comparison to the huge blockbusters of World War II. The B-29 superfortress, which is no small airplane by any standards, had to be modified to carry the bomb.

Only a tiny fraction of the huge mass that makes up a bomb is atomic explosive. Scientific guesswork has placed the amount at between 20 and 80 pounds, with 30 pounds a popular stab in the dark.

What makes the bomb so big is that the explosive core has to be divided into two or more semi-spherical pieces, which must be kept reasonably far apart until the bomb is ready for explosion, and then slammed together very rapidly. This means the bomb has to be quite long, possibly 20 feet or more.

Motorist in Oregon Fog Delours on Rail Bridge

PORTLAND, Ore.—Everyone has heard about the London fog. Portland had one recently that topped them all. Fog was so thick that a motorist drove 100 feet on a railroad bridge before he discovered he was not just on a bumpy street.

The motorist was Dean E. Harner of Portland. He headed across the Willamette river on the railroad deck of the steel bridge. After discovering his error, he got out and walked back for help. Before it arrived, a locomotive came along. The unoccupied car got a damaging 1,500-foot ride.

Unique Machine for Cancer Holds 50 Grams of Radium

NEW YORK—Roosevelt Hospital announced recently the construction of a unique, Gatling-gun type of radium machine for cancer treatment.

The new machine, now being built in Belgium, will hold 50 grams of radium, almost twice as much as ever before gathered in one place, for cancer or any other use.

The 50 grams, divided into 25 charges, are set in a ring a foot in diameter like the barrels of a Gatling gun. This radium will last 1,500 years.

The 25 radium charges of 2 grams each will shoot simultaneously and will be aimed so all converge in the cancer. They will focus a little more than 10 inches inside a human body, deep enough for virtually any cancer.

This Gatling-gun arrangement is something new in both the use of radium and in cancer treatment. The new machine was designed by Dr. Giacomino Palla of Columbia University.

Dr. Douglas Quick of Roosevelt Hospital said the radium gun was virtually equal in penetration to the 20-million-volt X-ray betatron now in use at the University of Illinois Medical School.

Dr. Quick, a radium expert, said he believed radium better than X-ray for cancer. The Gatling-gun arrangement cuts down the skin-burn effects of the rays by fully half.

The entire radium outfit is small—two feet high and less than three feet wide.

Baby Quits Fast When Pet Dog Finally Returns Home

LOS ANGELES, Calif.—When Pamela Lord's Afghan hound, Abdullah, disappeared the child refused to eat. She was so broken hearted she refused all food and intravenous feeding became necessary.

Meanwhile, a wide search went on for the animal. Then a Beverly Hills restaurant owner told Pamela's father he had heard a man in a barbershop say he had found an Afghan. Lord went to the man's house and brought Abdullah home. Pamela immediately quit here self-imposed fast.

Merchant Will \$600 and Eyes to Restore Sight

DENVER, Col.—Martin Hurwitz, a Denver merchant, will \$600 to help restore the sight of a blind Negro or Mexican who could not afford the cost of an operation. Hurwitz stipulated that "any part of my eyes be used for this object". The task of finding such a person fell to attorney Leo S. Moses, who handled the estate.

margin to 16-8. Tom Schwaderer showed the way in the second period. He hit for four points and paced his team to a 29-17 halftime advantage.

Coach Arthur Paddy opened the gates of mercy in the last half and substituted freely during both quarters. In the closing minutes of the game he fielded a quintet composed from his reserve squad.

The Hawks lengthened their margin in the third quarter to 45-30, even though Paddy alternated his reserves with his regular team. Burden was the big scorer of the quarter, racking up eight points on three field goals and a pair of charity heaves.

Pinconning closed the gap in the final quarter when the Cass City reserves were in the game.

HAWKS POST EASY VICTORY OVER BAD AXE IN FINAL GAME

Concluded from page 1. In the second quarter, Bad Axe picked up a point as they trailed, 34-26 at the intermission.

Wallace and Burden kept the Hawk attack rolling in the third period and Bad Axe countered with a team rally that kept the margin at eight points for the period—Cass City leading 54-46 as the fourth quarter opened.

Both teams scored freely in the third quarter, but in the final canto Bad Axe wilted while the Hawks kept the pace to win going away. The final score 72-57 was the biggest margin Cass City enjoyed over any of the three teams they defeated in tourney play.

Burden and Wallace led the Hawk cagers with 22 and 20 points respectively.

Many Attend Farm Clubs Fete at Caro

March "came in like a lamb" and resulted in an attendance of 175 at the annual meeting of the Tuscola County Federation of Farmers' Clubs held at the Caro Methodist Church, March 1.

Representatives of all but one of the 17 community farmers' clubs in Tuscola County attended the event. D. B. Varner, Michigan State College extension specialist in agricultural economics, gave a very interesting address revealing some of the strength which Russia and her communist satellites possess. The annual business meeting was held at 12 noon in the church auditorium, followed by a roast beef dinner served by the Methodist ladies.

The business meeting was called by President Adolph Woffle, Deford, who called for reports from the federation secretary-treasurer, Mrs. Foster Hickey, Fairgrove.

The officers announced that committees for the 1952 annual meeting would be as follows: Banquet, Indianfields Club; Program, Bay-side group; reception, South Millington; and nominating, Ellington-Almer.

Shuford Kirk, Fairgrove, was elected president of the county federation. Vice president will be Clayton Hunter, Kingston, and Mrs. Foster Hickey, Fairgrove, was re-elected secretary-treasurer.

The afternoon program included some musical selections by Caro High School students and some poems by Mrs. R. L. Hill, Caro.

read by Mrs. Maxine Martin, also of Caro.

Varner stated in his talk that this country is actually at war with Russia and her communist neighbors. He proceeded to show how the United States compares with Russia on the basis of land area, transportation facilities, industry, agriculture, manpower, and military strength. He pointed out, to the surprise of many in the audience, that from the standpoint of natural resources, Russia is actually much more self-sufficient than in this country.
