Law Cracks Down

It's very easy to ignore stop signs at intersections that fail to appear to be busy when motorists approach, but the Caro Sheriff's Department says that you'd better beware in Tuscola County.

For, starting now, traffic law enforcing agencies are go-ing to crack down on careless motorists.

A stiff fine, or worse, is in store for Tuscola drivers who fail to come to a complete halt for stop signs, the sheriff's department asserted.

# **To Holders of Maturing** Series E Bonds

- The United States Treasury has recently announced some additional rights which now apply to your Series E Bonds, making them better than ever.
- You may, if you wish, retain the matured bonds under an automatic extension for another 10 years, and they continue to increase in value each six months for this second 10 years, or until you want to cash them.
- Of course, as always has been the case, your bonds can be redeemed for full cash payment when they mature, or before maturity, if you wish, at the value as stated on the bonds.
- We would be glad to explain any details of the extension plan if you wish further information.

### Spots on Home V/alls

Many unsightly grease spots on walls can be removed by one of the following methods. Apply fullers earth or magnesia to the spot. Let stand over night, then brush off powder. A clean blotter placed over the spot and pressed with a warm iron may remove the spot. The blotter should be changed often.

### Moon Within Range

Even the moon is within range, as was proved in 1946 when scientists of the U.S. army signal corps timed the round trip of radio waves bounced off the surface of that celestial body for the first time.

In 1900 both Louisiana and Mississippi selected the magnolia as official state floral emblems. Mississippi accepted the verdict of an election by school children while Louisiana made its choice through legislative act.
