CASS CITY, MICHIGAN, FRIDAY, NOVEMBER 2, 1951.

# Village Airs New Tax Law; Votes to Accept "New" Streets High School Parley Sales Tax Diversion

The new weight and gas tax refund law recently put into effect Halloween Prank received a thorough airing Tuesday night at the regular monthly meeting of the village council.

On hand to explain the various Wreck in Village details of the complex law was E. B. "Chick" Schwaderer, chairman of the county highway commission. The law, Schwaderer explained to the council, "gives Tuscola County one of the lowest rates of increase of any county in the state of Michigan."

Schwaderer went on to explain to the council that one of the important ways of measuring the amount each county is to get is determined by population. Therefore, Tuscola County which has a large road mileage and a low population, will suffer.

After explaining the various de-tails of the law, Schwaderer requested that the village assume control of two county roads inside amount of damage to the car is as the village limits. The streets are Doerr Rd., south from the depot for approximately one-half mile and Seventh Street, running west from Seeger Street for about 3 of a

pointed out that the maximum amount the county could receive under the new law, while the village could expect to receive \$700 per mile if they reported to the state that the street was under their jurisdiction.

Besides taking over the two streets, the council is busy making up a map to comply with the new regulation. Under the law, the village must turn in a map, together with a resolution showing the measured miles of roads in the village. The map must designate each street as a major or minor street to comply with the directive.

Seventy per cent of the monies

#### **Council Briefs**

Acting on the request of Fred Pinney and C. M. "Buzz" Wallace, who appeared before the council Tuesday night in the interest of the school board, the council voted to pay \$400 of their share of fixing program from Saginaw, was the the street running past the school.

There has been a delay while known criminals) almost landed three miles south, five miles east the village was waiting for pipe. The pipe is now here, Burt reports, and action on the project is scheduled to begin immediately.

The post office is receiving a new, larger mail box. After a brief discussion, it was decided to place it in front of the post office where the present one now is located.

Bud Burt reported to the council that the trees donated to the city have been planted in the Cass City Recreation Park. The trees were given by Mrs. McCullough in memory of her husband, "Mac," and by Lyle Koepfgen. Pines and Maples were included in the group.

Building permits for additions or repairs were granted to Mrs. William Patch, Mrs. E. A. Livingston and Keith McConkey.

#### Early Meeting

The Cass City Community Club will meet Tuesday, Nov. 6, at the Cass City High School Gymnasium, according to club president, George Dillman. The monthly meeting of the organization has been moved up a week from the usual date because of the opening of deer season Nov. 15.

This month's program under the direction of Don Borg, music director at the high school. Persons in the Cass City area have become accustomed to interesting programs when Borg is in charge and a good time is promised all who attend Tuesday.

One of the most serious problems facing residents of Cass City is the sewage disposal problem which has been brought to the front by the recent meeting of the Water Resources Committee.

Councilmen Gross and McLellan. who returned from a meeting in of \$1.57 per capita and the schools been needed in the last day of the day evening in the dining hall of Milford, Oct. 24, said that the sent Cass City's case before the Keith McConkey, chairman of Election of officers was held and board did an excellent job and

The first step in the reclamation from the state.

It is evident that, regardless of Operational Shake-Up the results of the tests, changes will have to be made in the sewage system in the village.

To raise the necessary money, a sewage tax is under consideration by the council. This method of raising the essential funds is designed to tax persons in a direct ratio to the amount of use they made of the village's system. Present plans call for an assessment based on the amount of water used by residents.

However, because no one knows at the present time what will be needed, a tax rate will not be decided on at this time.

Members of the council are working with milk companies in the village to determine the best way to solve the problem.

#### **Final Rites Monday** For Mrs. Mosack

Funeral services were held Monday, at 9:00 a. m., at St. Agatha's Church, Gagetown, for Mrs. Mary Ann Mosack, who died at her home in Gagetown October 25, after a short illness. Rev. Glenn W. Cronkite officiated.

She was born October 17, 1877, in Teeswater Ontario, and was married to Conrad Mosack in 1896, who preceded her in death.

She was a member of the Altar Society. Surviving are one son, Anthony J. Mosack; five grandchildren and two great grandchildren; three

brothers, Dan McKinnon of Van

Couver, B. C., Angus McKinnon of Washington State and Neil Mc-Kinnon of Gagetown. Rosary services were held at the Hunter Funeral Home Sunday evening and burial was in St. Agatha's

#### New Hybrid Corn For Spring Planting

odging.

periment Station, will be available next spring, according to E. C. Rossman, who is in charge of corn reeding research at Michigan State College.

The two promising hybrids are called Michigan 250 and Michigan 350 (formerly Michigan Experiment hybrids 381 and 267, respectively.) Their development covers a period of about 20 years of in-breeding, selection and testing. Because of their superior performance in overstate tests during past years, they have been accepted by the Michigan Crop Improvement Association for certification.

Commercial double-cross seed of made a trip to Columbus, Ohio, last the two varieties was produced for the first time this year and seed will be available for planting next spring. Demand for both is expected to be heavy.

Michigan 350 is about the same maturity as hybrids which are lassified as 90-day corns. It silks age factory.

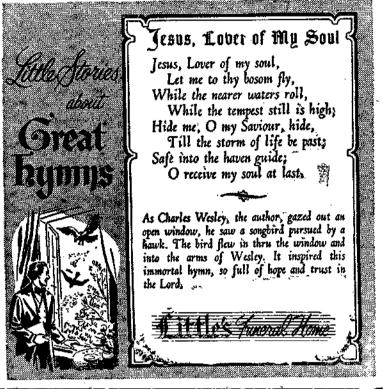

Two new corn hybrids developed a few days later than Michigan at the Michigan Agricultural Ex- 51B, a certified hybrid well-known to Michigan growers, but at harto Michigan farmers for planting vest time is as dry or drier than 51B. Tests have shown it to be well adapted to northern and north central Michigan areas. However, it has also performed exceptionally well in areas where later hybrids

> has proved well suited for grain production on muck soils in south central and southern Michigan. Michigan 350 out-yielded 51B by more than 18 percent over a threeyear period, picks clean and has good resistance to root and stalk

# 90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dis-

pute between employes and the railroads. More Than 90% of Employes Accept Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employes—more than 90% of the total of all workers. They are represented by 20 of

the 23 standard railroad unions. Less Than 10% Refuse

But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

over other workers.

In all, there are about 270,000 operating employes. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000 to be exact—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employes are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer?

They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?

Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$.34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 191/2 cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases? The White House Agreement includes an 'escalator'' clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases
—April and July, 1951—have already been
paid to the 90% of railroad employes covered by signed agreements.

What About the 40-Hour Week?

The White House Agreement calls for the establishment of the 40-hour week in principle, for employes in yard service. The employes can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand? The continued quibbling of the leaders of the three unions has to do principally with rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority dis-

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an inter-divisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its es-tablishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse. Rules Can Be Arbitrated

The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed

With the pattern so firmly established in the railroad industry, it seems fair to sug-gest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employes.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

#### 3-Bottom Mounted Plow

Fall plowing gives the WD and its new 3-bottom plow a chance to show what they can do. Let us prove to you that the WD will do the work of a much heavier tractor and that the new squarebuilt plow is built to take it.

Two Allis-Chalmers features:

- 1. HYDRAULIC TRACTION BOOSTER automatically puts extra weight on the WD rear wheels as the drawbar load increases. Takes off the extra weight as soon as you pass the tough spot.
- 2. THE PLOW IS FREE-SWINGING. It follows contours and is free to dodge rocks. Short-coupled hitch gives quick penetration at the ends and mounts the plow bottoms close to the rear wheels for uniform depth control.

Let us prove it in your own fields.

community.

On Monday evening juniors of aried "looks and dress" invaded the home of their Sunday School teacher, Mrs. Arleon Retherford, for a time of fun. Could you have been there and watched these guests, you would have appreciated having a "nurse" in the group. By he "weird" voices, the many 'limps," the much-pain-drawn faces, the "matted red hair" and the "odd" costumes, you would have thought other professionals would have been needed to assist the nurse." We're happy to report that not even the services of the nurse were needed.

Around 10 o'clock, all departed for their homes after playing games and potluck refreshments had been served. Mrs. Retherford will be glad to welcome any junior into her class in the Deford Sunday School, if you haven't a church home elsewhere.

Intermediate Party-

The Sunday School intermediate lass also had a party at the Allen home on Saturday night of last week. This class and teacher, Horace Murry, would be glad to wel-come you into their group, if you weren't there and don't go to some

People Amazed by Film-

On Friday evening, the people of Deford and community had the privilege of seeing some pictures of the Navajo Indians on the U.S. eservations.

This was family night sponsored by the church-board of Education, Harley Kelley being the chairman. Rev. Paul Pumphery of the Marlette Methodist Church spent his last vacation of two weeks in the reservation, learning the ways of these Indians and taking pictures. Now he will go wherever asked to let the people hear and see some of the things he learned first-hand and is taking up an offering, using it to purchase a tractor for the Methodist mission there. He hopes to render his services in this way, to expand the missionary effort in that place. People were amazed at the conditions these pictures revealed, and at some of his personal experiences. The Presbyterian mission there is the largest, Methodist second and the Methodists have facilities to school only 250 children of the thousands who would like schooling, Refreshments were served after the program, in the annex.

Missionaries Speak-

Sunday's services were greatly enriched by the presence of Rev. and Mrs. Wm. Cox and Miss May-

belle Haskel, at the Deford Church. Miss Haskel gave us a wonderful testimony, as it was her last Sunday with us. She has been a guest of Miss Smith, our pastor. Rev. Cox delivered the address in

#### Weather Prophets

Despite all of his wonderfully scientific and sensitive instruments, the modern weather-man hesitates to predict exactly what the weather will be, more than twenty-four hours in advance. The Ancient Mayan priests had greater confidence in their talents for weather forecasting. During the first month of their year, which began on July sixteenth, they would predict the weather for the entire twelve-month period. (Apparently, having the gods on their side gave them the confidence necessary for the job.)

Conservation Will Pay A soil conservation farm plan in Colorado can pay for itself in five to eight years through extra earnings per acre, experts say

**FORESIGHT** 

One summer morning, while on vacation, Norwegian dramatist Henrik Ibsen called at the home of a fellow artist and asked to see the latter's wife.

"A button has come off my coat." Ibsen explained to her, "and I must sew it on again. Would you please thread this needle for me? My eyes are not strong.'

He handed her a needle and a spool of thread. She completed the task in a moment, and Ibsen thanked her and departed. Several weeks later, the two met again.

"How is your sewing coming along?" she asked. "Have you been threading the needle yourself since I last saw you?"

"Oh no," replied Ibsen. "I made sure then that the thread would be long enough to last me all summer."

Bottoms Up!

A flashy character barged into a Detroit saloon, demanded a double ligger of scotch, downed it in one gulp, plunked a \$5 bill on the counter, and walked out without another word. The bartender folded the fiver carefully, pocketed it, and remarked to the bar-flies. "Can you beat a phony like that? Laps up a double scotch, leaves a five dollar tip, and beats it without paying!"

#### Right Crowd

"Brothers," said the colored preacher, "The subject of mah sermon today is liars. How many in dis congregation have read the 69th chapter of Matthew?" Nearly every hand went up.

"You is de people ah wants to preach to," the reverend said, "Dere is no such chapter."

First of All Romeo was the first quizmaster. Remember his declaration that he had a lady in the balcony?

THANKS, TEACHER

Sir Oswald Mosley, leader of the British Union of Fascists, had marched at the head of a great procession to Albert Hall in London, where a large crowd awaited ed the rostum under the glare of spotlights and raised his arm in the Fascist salute. The effect was ruined by a voice from the gallery calling, "Yes, Oswald, you may leave the

"All right—I'll shuffle and deal!"

All In Fun By Richard Hill Wilkinson

THERE has probably never been a greater hatred than that which existed between Barney Craig and Dan Chester. It all started because of Barney's eagar-

3 · Minute ness to become a member of the lo-Fiction | cal lodge. As one of three candi-

dates he was introduced to Dan at the September meeting. Imbued with the feeling of good fellowship which the brothers always emanated. Barney assumed at once a familiar attitude and took liberties. Jovially, he made a crack about Dan's ears, which protruded from the Chester head horizontally, instead of perpendicularly, as is the case in normal man. The blush which mounted to Dan's cheeks provoked guffaws of amusement from the delighted Barney.

After the meeting in which Barney's name was voted on. Dan publicly announced that he would have shot any man who had blackballed him. Every one knew what he meant, Barney's initiation would last for two months and would involve a good deal of horseplay. Dan was out for revenge. And he got it. During the two

months of initiation, Barney suf-

Barney poked a neat one Dan's chin and it connected.

fered all the humiliations, indignations and unrestrained paddlings of a college freshman.

When it was over, the night that Barney received the ritual and became a full-fledged brother, Dan grinned at him good-naturedly. You sure can take it, Brother Craig. Of course it was all in fun." "Yeah," said Barney, "And now

that, I'm a full-fledged member e I'm as good as you? Is that right?" "Absolutely, brother," said Dan. "Good," said Barney, "because for a long time I've want-

ed to do this." And he hauled off and let Dan have a smart one on the point of his jaw. "All in fun, you know," Barney grinned savagely.

Dan picked himself up and nodded, 'O.K., Brother Craig, suppose you and I go outside." They went outside and removed their coats. Ten minutes later Bar-

ney was lying on the ground staring up at Dan through the one eye that he could still open a crack. "All in fun, Brother Craig, Come

feel in a playful mood." **B**<sup>ARNEY</sup> spent most of November and December in a gymnasium. Shortly after the first of the year he encountered Brother Dan again. "Hello, Big Ears," he remarked.

"suppose we go outside?" Dan was willing. They went outside, and in nine and one half minutes Barney decided that Dan must have practically slept in a gymnasi-

Barney went home and cursed himself to sleep. He decided that he'd lick Dan Chester if he died trying which by the feeling of his jaw he thought might happen any minute.

Barney hired K. O. McManus to train him, K. O. was pretty rough and Barney suffered a lot, but he acquired knowledge. On the first of March he invited Brother Dan "outside.''

The battle lasted 20 minutes this time. Spring was in full bloom when

Barney again sent word to Dan

to meet him outside. There was quite an audience on hand this time, The fight lasted 25 minutes. Both

participants were pretty groggy They were swinging wild and without much zip. It began to look like a draw, when suddenly it occurred to Barney that for the first time Dan wasn't beating him. The thought gave him a feeling of elation and a burst of energy. He poked a neat one at Dan's chin and it connected. Barney, thrown off balance, too weak to steady himself, fell across his opponent's prostrate form and lay there.

It took an hour to revive the battlers. Barney came to first and looked at Dan thoughtfully. Present ly Dan stirred and opened his eyes. He saw Barney and propped himself up on an elbow. "Well, well, Brother Craig. Con-

gratulations!" "Thanks," said Barney, and grinned too. "All in fun you know."

And he extended his hand.

started to make a crack about Dan's big ears, but changed his mind

"Sure," said Dan, "all in fun,

Barney gripped the hand and

#### **Rundown Pastures** Can Be Productive Soil Test Is First Step In 'Face-Lifting' Plan

\*A "face-lifting" for old, rundown, weedy permanent pastures is recommended by Purdue University agronomists. A good renovation pro gram supported by liming and the use of commercial fertilizer can bring a pasture back to lush, vigorous production, they say. It can dou ble the pasture's carrying capacity FOR SALE-Wood and coal range and improve the quality of the herb-

First step in the program is soil test to find out the needs for

limestone and for nitrogen, phos phate and potash fertilizer.

Making a new seedbed on an old sod can be satisfactorily done with a disc harrow or field cultivator, Farm Machine Repair the agronomists say. The operation can be eased considerably by working the soil in one direction and then working it crosswise.

Timothy and smooth brome grass are excellent for supplementing blue | Leonard Gasoline grass. How much these grasses increase pasture output depends on the legumes used in the mixture and the amount and analysis of fertilizer. The agronomists say that a good seed mixture should contain two pounds of red clover, three FOR pounds of broadleaf trefoil and a quarter pound of Ladino clover.

The Purdue agronomists stress that a good application of commer cial fertilizer is essential in pasture renovation. They recommend using t 400 pounds per acre of 0-20-10 or 0-20-0 fertilizer at seeding time. The phosphate and potash fertilizer helps get the new seeding off to a good start, and supplies the nutri ents the legumes need most.

#### 95 Percent of Farm Homes Have Electricity

With almost 95 per cent of today's farm homes now having electricity ---an increase of more than 50 per cent in 10 years—farmers today are IF YOU HAVE a drinking running the city cousins a close race in equipping their places with everything from toasters and trimmers to thermostats and television.

A recent study of the buying habits of the American farmer showed that electric ranges, dishwashers, refrigerators, laundry equipment, clothes dryers and toasters, and automatic heating systems were becoming standard items in most homes served by rural electrification systems. More than 100,000 8-24-tf families installed thermostat-controlled heating systems from 1947 FOR SALE—Registered Angus through 1949.

The study also indicated a close relationship between electrification and general home improvement on farms. For example, approximately \$10,000,000 was spent from July, 1947, to December, 1948, alone for farm-home modernization.

Approximately 4,900,000 of the 5,200,000 occupied farms and almost 15,000,000 of the occupied rural dwelling will soon have electricity.

Bike Helps Catch Thug Seeing an armed holdup man dash from a restaurant, Edward Gardiner, a 17-year-old New York high school student, followed him on his bicycle. When the gunman hid under a car, Gardiner flashed a passing police patrol with his bike light and the policemen picked up the thug with a loaded revolver in his

WISH TO SAY "thank you" to all who sent cards and gifts and to those who helped in any way during my illness at the University Hospital. Shirley Brown.

WOULD LIKE to thank Dr. Donahue, Mrs. Freeman and her staff of nurses for their excellent care during my stay in the hospital. Also everyone that visited me and sent me cards, thus making my convalescence more pleasant. Joan Atkin.

WE WISH to thank all our friends and neighbors for their kindness and thoughtful help given us at the time of death of our beloved mother, Mrs. Ida Fournier. We also wish to thank Rev. Kuhlman, the male quartet of the Methodist Church, Mr. and Mrs. Lee Huston and all who assisted in any way. The John F. Fournier family.

I WISH to thank Dr. Donahue, Mrs. Freeman and her staff of nurses in Pleasant Home Hospital for their care during my illness. Also many thanks to friends and relatives for cards and calls. Mrs. Lena Cliff.

IN LOVING MEMORY of Albert Hill, who passed away 6 years ago, Oct. 28, 1945. No one knows my sorrow, few have seen me weep, I shed my tears with a broken heart, when others are asleep, Deep in my heart you will always remain, always longed for and loved the same. Sadly missed by his wife, Mrs. Belle Hill and

D. W. BENKELMAN. Correct—Attest: Elizabeth E. Pinney, Horace M. Bulen, Frederick, H. Pinney,

State of Michigan, County of Tuscola ss:
Sworn to and subscribed before me this 24th day of October, 1951. My commission expires May 7, 1954.

Farmers are reminded that envided not more than one exhibit is made per farm. The pigs must be weighed in not later than November 15, and must not be more than 12 weeks of age. Three or more friends of man. pigs may be enrolled. Weighing should be witnessed by an extenformation concerning the project may be obtained from the Exten-,990.90 sion Office in the courthouse.

> Directors of the Tuscola County DHIA met in the County Agent's office October 25 and made tentative plans for the organization's annual meeting to be held next March. Several other dairy meetings planned for 1952 were discussed.

Don't guess about the maturity of field corn and take chances on having it spoil in storage. Kernels should be down to 20% moisture before ear corn can be safely stored without special precautions. Have 3,240.06 112,970.08 a moisture test made in your local elevator before picking, and if your 2.135.46 corn tests above 20%, leave the pillars, beetles and moths, that in corn on the stalks till colder weather when there is much less dan-place their egg-cases in their garger of spoilage. If corn is still high dens. in moisture in late November, it 50,000.00 should be stored in narrow well-bouseflies, grasshoppers, spiny cat-125,000.00 ventilated cribs and the least ma-erpillars, hornets, cabbage butter-40,007.14 ture corn should be used for feed flies, Japanese beetles and even during cold weather. Directions for handling soft or high-moisture corn are available at the Extension

> Darbee 4-H meeting was held asked questions and the leader said she was to have the answers ready for the next meeting. The leader said the boys were to have a 2inch block and the girls a towel for the next meeting. Yours sincerely, Frederick Schriber, Re-

#### Oddest Friend of Man Its Unending Hunger Is Farmer's Greatest Ally

The Praying Mantis (see sketch below), is one of the oddest of all

Three inches or more in length, green or brown, the mantis sugmeekly in an attitude of prayer. Once the victim is within reach, these forelegs shoot out, the blades snap shut, and the prey is held as helpless as though it were caught in a toothed steel trap.

Thus the insect that will kill many of the pests that harm American

crops is described in the July issue of Coronet magazine.

The mantis is driven by an almost-unending hunger for living victims. So valuable is the insatiable hunger of the mantis for catermany parts of the country people It will eat bumblebees, crickets,

Black Widow spiders. The mantis is entirely harmless

to man. Its appetite is probably the farmer's greatest ally in his battle against insects and bugs. Special care should be taken not to destroy

#### Nearby Woodlands Offer Stock for Landscaping

Nearby woodlands offer a variety of nursery stock for rural families who may be planning to landscape their grounds to improve the view through their picture windows.

Many of these plantings can be fitted into an overall landscaping plan so they bring out a sizable saving to the rural homemaker. A number of plantings are com-

mon to woodlands in many sections. Some examples are rhododendron, dogwood, scotch pine, hlly, pine and laurel, all of which are used extensively in landscaping plans.

trees which may be used for shade. 834 for 2501 and three big points The American elm, which affords from the Schwaderer team to place excellent shade, is found in many sections. There are also several varieties of ash as well as the different types of oak trees whose auto brilliant scarlet. The hard maple

For screening and boundary plantings, most woodlands offer an assortment of evergreens which will fit well into the landscaping plan of most rural homemakers.

**Goose Pelts** 

able to lay a golden egg, but there seems to be gold in her skin. The model above displays two sample goose pelts. Through a recently-developed process, goose- skins are tanned, then the down is dyed. The result is an incredibly soft, warm pelt which has captured the interest of the fashion world and promises to bring gold to geese raisers. Possible uses include deluxe power puffs (already being made), trim for negligees, dresses, baby shoes, hats, and bathing suits.

#### Strange Disease Strikes **Henderson Swine Herds**

Farmers in the area around Henderson, Kentucky, have lost more than 1,000 hogs from a disease which veterinarians so far have been unable to identify definitely. The disease has been found in the Henderson area during the summer for the past several years, and each year the number of swine affected has increased. Over 150 herds have been treated so far this summer.

# **Bowling**

News and Views George A. Dillman, Sec.

This reporter is of the opinion hat the City Bowling League should change its name to the "Split" Bowling League. We have just completed a record of those 520, Reid 514, Musall 512, Geiger pesky little things and find that 511, B. Freiburger 509. Games over in 252 games (84 three-game 200 were rolled by Wallace 216, 179, J. Stout 176. series) bowled, there are a total of Landon 203, Hubbard 202, Kettle-1266 splits, an average of 5 splits well and Galloway 201 each. The plus per game. Of this total, the ten high individual average bowl-Landon Team has 124, Reid's Team ers are Wallace 176, Galloway 174, 119, and Schwaderer's Team 116. Geiger 173, Dillman 173, Musall The Hunt team has the lowest number of splits with only 81. The don 166, Hunt 164, Wooley 163. Reid team gathered a high total of 26 in one three-game series, followed by Galloway's team with 25 and Bartz team with 24. Individually with 21 games bowled, Bart leads with a total of 36 splits Landon has 32 and Wetters 30. C. M. "Buzz" Wallace split the maples wide open one night by gathering for himself a total of 1 in one three-game series. You fellows understand, of course, we DO NOT give prizes for the highes number of splits during the season and we do not want you to have a "split complex" after reading this so, just forget about it and con centrate on strikes and spares.

Now for the more pleasant rec ords. We find that out of seven three-game series, Bartz is top man in the "Spare Department? with 20 in one series. Reid and Dillman are next with 19 each followed by Galloway, Dewey, Kirton, 2588. Peterson and Wallace with 18 each. The honor, so far, of the highest number of strikes in-a-row goes to Guy Landon with 7. Just four more Guy and you would have become a member in the ABC "11 in-a-row Club." (We won't mention 12 in-a-row at this time.) Only 16 single games have been

rolled in which there were no open frames. Clara, Galloway and Peterson have 2 each. Thirty-four members have rolled 69 games with only one open frame. Of this total, your reporter has six out of 21 games, four members have 4, five have 3, eight have 2, and sixteen have 1.

Well, the Reid team finally made it, thanks to the Dillman team. Yes sir, they are perched on top in the league. Frank says "it wasn't easy." Following are the team

	standing as of Oct. 29, 18	ът.	
3	Team W	${f L}$	P
e	Reid 16	8	
٧	Hunt 16	8	
	Musall 15	9

and at travelect 188 miles across Texas, Catton now began to vie with whent as a crop. Oktoberm has some good land and some not nearly so good.

One sign on a bunboy yard cond, Just Lamboring Along Since 1819.

We saw some fields of easter oil beaus and there were more trees than anywhere in Texas, Another feature that interested us was the number of homes that had shorth reliars in the yard. There was a steady wind blowing all day but those collars indicated that they were prepared for real blows. We saw some corn fields and some silon and also nople ordeneds. Then there were oil wells and the luttest and also made ordeneds. Then there were oil wells and the luttest and also made ordeneds. Then there were oil wells and the luttest and and grovel pits I ever saw.

Wu nock the by-puss and thus missed most of Okthoum. City but the outskiets have vost laiding projects, some completed and some under construction. The homes were substantial that made in every way.

We reached Tuisa that night 186 miles) and found a fine cubb in the Morris Manor with shepping accommendations for five and kilchen privileges all for six dellars.

Spring Pig Crop

next spring's pig crop now.

soon for the hog raiser.

H. W. Newland, Michigan State

College swine authority, has some tips for farmers who are planning

Since sows and gilts will have to

be bred before November 15 to

have pigs before March 10, there

are some important jobs coming up

"First of all, if you have to buy

a boar you'll have to be looking for

him soon. It won't pay to wait until

the last minute because they may be scarce and prices probably will

be no lower. Time and thought

spent in selecting a good boar will pay dividends," Newland reminded

He advised that you look over

your sows or gilts, figure out their

weak points then buy a boar which

will improve these weaknesses.

And of course any boar should

have straight legs, plenty of length

and depth of body, with full, bulg-

ing hams. Masculinity, freedom

from Bangs disease, and vaccina-

tion against cholera are other

When picking either boars or gilts for your breeding herd, consider the size of the litter from

which they came, and the weight at 56 days of age if that information

s available. They should be out of

Proper feeding of boars and gilts

during the breeding season is im-

portant too. They should get a well-balanced, highly nutritious ra-

tion with a good supply of protein,

minerals and vitamins. If possible they should be allowed to graze on good pasture. Tests have proven

#### How New State Ferry Will Look

The above picture made from a drawing by Artist Phil Troeger, shows how the new Michigan State ferry, the ice-breaker Vacation-land, will look when completed. The big ship, which will be one of the most powerful crafts ever built for its size, is now under construction at the Great Lakes Engineering Works at River Rouge, Michigan, Highway Commissioner, Charles M. 2018. Highway Commissioner Charles M. Ziegler has announced the vessel is expected to go in service across the Straits of Mackinac in time to handle part of the annual deer hunter traff; just cheed of the opening of the deer hunting season, November 15. The Vacationland

will handle winter traffic across the Straits and will augment the present four State Ferries at other seasons of the year. It will be powered by four huge Diesel engines and will be 360 feet long and 73½ feet wide. It will load and unload at either end, which will cut some 20 minutes per round trip off the time of the four state Loats now in service at the Straits. The Vacationland will handle some

150 vehicles and 650 passengers per trip. It will cost approximately \$4,500,000.00. A new state ferry dock is being built at St. Ignace and a new slip for the vactionland at the Mackinaw docks.

HOW TO SCORE HIGH WITH THE "HOME" TEAM say Ted Lindsay and Bride-to-be

"An all-electric kitchen is our goal," said Red Wing star Ted Lindsay with a smile for his bride-to-be, lovely Pat

"Yes, and my first choice is an electric range," emphasized the future Mrs. Lindsay, "It's so beautiful! And just look how easy it is to regulate the heat with these controls, Now I know why they say you can cook to perfection with an electric range!"

"They're easy to clean," said Ted. "Look, Pat, how these heating elements lift up out of the way."

"Plenty of storage space, too," Pat put in, "And look at the big oven! Honestly, these new electric ranges are simply out of this world!"

Yes, it's true. Electric appliances . . . electric ranges . . . are finer than ever today. Visit your nearby appliance dealer soon.

Flavorful Vegetables

THERE ARE COUNTLESS ways to vary the flavor of vegetables and thus make them more interesting to the palate. But how often homemakers fall into a

rut, serving the same vegetables year after year, always seasoned the same way, butter, salt and pepper!

Then comes a day when the family refuses to be tempted by vegetables any longer. They continue to appear on the menu, but most often are the only food left on the plate. Rather than have this waste, it's better to offer the family such wellseasoned vegetables they cannot re-

Here's an old-fashioned way to prepare cabbage, simple but deli-

Pennsylvania Dutch Pepper Cabbage (Serves 6) 1 small head cabbage (\$

pounds) 1 teaspoon salt 1 medium onion, grated

1/2 cup sugar

% cup cream % can cider vinegar

1 green or red pepper, chopped Chon cabbage fine. Add salt, onion and sugar. Let stand 1 hour. Blend cream and vinegar. Pour over cabbage. Add pepper and mix well.

> Sweet-Sour Beans (Makes 6 oups) 2 pounds green beaus

11/4 tablespoons salt 3 tablespoons butter 1 medium onion, sliced

1/2 cup cider vinegar

¼ cup water 1/2 cup sugar

Wash beans and slice diagonally 1/4-inch thick. Cook until tender in a small amount of water. While hot, add salt and butter. Cool. Add on

ion. Mix vinegar, water and sugar; pour over beans. Store in covered jar in refrigerator. These beans will keep for

\*Pickled Eggs and Beets

(Serves 6-3) 1/2 cup distilled white vinegar ¾ cup juice from canned or cooked beets

% cup water 1 tablespoon mixed whole

2 tablespoons sugar

2 cups whole beets

6 hard-cooked eggs Combine vinegar, beet juice,

water, spices and sugar, Let boll for 2 minutes. Strain and cool. Pour over cold beets and hard-cooked eggs. Stir occasionally so that eggs will color evenly. Allow to stand in refrigerator for several hours before serving.

#### Tomatees with Spinach (Serves 6-8)

8 medium tomatoes

1/2 cup thick cream sauce 2 tablespoons bread crumbs

2 cups cooked spinach 4 tablespoons grated cheese

2 tablespoons butter ½ teaspoon basil, if desired

Cut off a thin slice from each tomato, hollow out part of center,

#### LYNN SAYS: Use your Leftovers

#### In Sauces, Dressings

Wise cooks never throw away even small amounts of food like a tablespoon or two, left in a bottle or a jar. Use them with white sauce or mayonnaise to dress up other

Tartar dressing for fish is easily made from a tablespoon of capers. another of chopped parsley, 2 tablespoons of chopped olives and 2 tablespoons of pickle relish added to cup of mayonnaise.

A short while after his marriage, late in life, to the Baroness te Reuter, eccentric publisher Jame Gordon Bennett received a bill from his wife's milliner. One look at the staggering amount was enough to make him see red Marching into his wife's room, he showed her the bill and demand-

THE PUBLIC PAYS

ed:
"Did you order all these hats?"
Bennett She nodded her head. Bennett furious, stared at her helplessly Then slowly he turned and walked away, muttering to himself:

"Someone's going to pay for this Someone's going to pay for this.' Suddenly an idea struck him Summoning the manager of his newspaper, he ordered the price of the sheet to be raised a penny.

Putting His Foot In It The old engineer pulled his engine up to the water tank and briefed the new fireman, who got up on the tender and brought the spout down all right. However, the new fireman caught his foot in the chain and stepped into the tank.

The engineer watched with a jaundiced eye as the new man floundered around in the water. "Just fill the tank with water, sonny," he said. "No need to stamp it down."

We're Not Bad The guys who think our jokes are

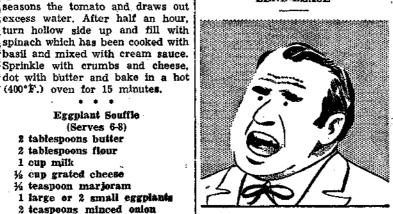

Would quickly change their views If they'd compare the ones they read With those we're scared to use.

Salt and Pepper

The only good thing that can be said about some of our roads is that when riding on them it is never necessary to knock the ashes off a

Considerate Nature couldn't make us perfect, so she did the next best thing; she made us blind to our faults.

LEND-LEASE

At a national Sunday school convention in New York, answers were given to the roll call by states. When the state of Texas was called, a brawny specimen of southern manhood stepped out into the aisle, and with a strident voice exclaimed:

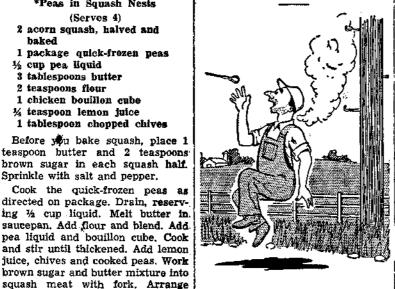

"We represent the great state of Texas. The first white woman born in Texas is still living. She now has population of over three million.' There was a pause of bewilder-

ment for a moment, and then a voice from the galleries rang out clear and distinct: "Send that woman out to Wyo-

ming. We need her!"

Often Prone the way of faster driving, now: Pedestrians.

ETIQUETTE

A spinster was shocked at the language used by workmen repairing cables near her home, so she wrote to the company that owned the cables. The manager immediately asked the foreman on the job to make a report and here's what the foreman said:

"Me and Spike Williams were on this job. I was up the pole and accidentally let the hot lead fall on Spike-and it went down his neck. Then Spike looked up at me and said: "Really, Harry, you must be more careful."

PRICE OF PEACE

"What I can't understand," remarked a plain citizen, "is if this congressman is as unpopular and obnoxious to everyone as the newspapers claim, how can he get so many concessions from

the House?" "That's easy," spoke up another, "Suppose you're in business, and have a lot of important things to do, and a man comes in and sits down beside you and begins to file a saw. Wouldn't you give him anything he wanted?"

Advertise it in the Chronicle!

#### THIS HOLSTEIN TOPS SHOW .

At the sixth annual Huron County Holstein-Friesian Cattle Sale, held recently at Bad Axe, Clare J. Carpenter consigned the top pair, dam and calf. The four-year-old cow, Betheldale Canary Pietertje Lass, was purchased by Max McKenzie, Ubly, for \$600. Her two-day-old calf, a daughter of Pabst Regal Jule, was bought by H. L. Hewitt, Elkton, for \$135. The pair totaled \$735.

#### Smith-Gulick Speak Vows at Local Church

At a ceremony Saturday morning at 9:30, in the St. Pancratius Church, Miss June Smith of Saginaw became the bride of Kenneth Gulick of Cass City. Rev. Father Bozek officiated.

The bride chose for her wedding a pearl gray suit with navy accessories. She carried a white satin prayer book with white gardenias. The matron of honor, Mrs.

Joseph Smith, of Saginaw, wore a navy blue suit with navy accessories and a corsage of pink rose Mrs. Frank Smith, mother of the

bride, chose for her daughter's wedding, a purple dress while Mrs. Daniel Hennessey, Sr., mother of the groom, wore a dark gray dress. Both wore corsages of carnations and rosebuds. Mr. Thomas Hennessey, brother

of the groom, was best man. After the wedding, dinner was served to twenty-one members of the immediate families at Zehnders in Frankenmuth.

A reception was held in the eve-

ning for the newlyweds in the home of the bride's parents, Mr. and Mrs. Frank Smith, Saginaw. After a short honeymoon, the couple will reside at 1422 S. Park St., Saginaw.

#### More Certified Seed Growers in County

SuCrop Improvement Association, g reveals some interesting data on certified wheat and 2 grew certithe growth of the number of Tuscola County farmers producing certified seed during the past 11 years, says Alfred P. Ballweg, County Agricultural Agent.

During 1940 there were 12 different individual growers of certified seed in Tuscola County. Of this total 10 of the 12 farmers grew certified beans, 5 of the 12 grew certified barley and oats, 2 of the 12 grew corn, and 1 of the 12 grew certified wheat and rye.

During the 11-year period from 1940 through 1951 the total number of certified seed growers increased from 12 to an all time high of 40 in

A recent report from S. C. Hilde- | Of the 40 growers, 28 grew certi-Arand, secretary of the Michigan fied beans, 19 grew certified barley, 17 grew certified oats, 24 grew fied corn.

This growth is a very healthy trend and speaks for the important part certified seed plays in the production of quality small grain crops and beans with increased returns per acre for the farmers of Tuscola County, says Ballweg.

A good ventilation system is a necessity for the dairy barn, say Michigan State College agricultural engineers. Continuous breathing of damp, foul air lowers the vitality of cows and makes them more apt to pick up diseases.

cue correspondent, became a great ian Service met at the Grant day. grandmother on Friday, October Church on Thursday, Oct. 25, for 26, for the first time. A daughter, dinner and program. Fourteen members attended

very impressive candlelight service Kingston. was led by Mrs. Hasket Blair. "Thy grandmother for the first time, and sang, "The Lord's Prayer," accompanied by Mrs. Lawrence Moore. The Bible reading was given by Mrs. Hasket Blair, after which she talked on Allen High School. Mrs. Twilton Heron and Mrs. Willard Ellicott told about Sanatorio Palmore in Chihuahua, the week end in Detroit. Mexico, Coleglo Irene Toland in Matanzas, Cuba, and Colegio Owosso spent Sunday here with Americano in Raeario, Argentina.

The gifts from the week of prayer and self-denial services will Caro called on relatives here Sungo towards four projects. The day afternoon. ladies presented their gifts by walking around the table, placing their collection in the silver tray and then all joining hands and repeating "The Lord's Prayer." Mrs. Howard Britt, the president, then opened the business meeting. After Pleasant Home Hospital, Cass City, the usual business procedure, the committees for the turkey supper were read; also a letter from Mrs. Alva MacAlpine of Braden-Pleasant Home Hospital, a son. ton, Florida, who sent the society a gift of money for an electric tea

The next meeting will be held at the church Thursday, November 8 Visitors are always welcome.

Family Night-

67¢

30¢

Ghosts, goblins, and even Frankenstein could be seen swarming around Grant Methodist Church Phursday night, October 25, when sim diffusers by which heat can be a Halloween party was held at the monthly Family Night program. The judges, Mrs. Twilton J. Heron, Mrs. Arthur Moore and Mrs. Hasstores, garages, and singlar buildkett Blair, after many minutes of ings. By "fingertip addustments" debating, awarded prizes for cosof the new diffusers, using no tools,

The group played games under the leadership of Mrs. William Hereim and Miss Marilyn MacCallum. The climax of the evening was reached when Johnny Blair, while ducking in a tub for apples, lost his balance and landed head first in the tub. In spite of his difficulties, Johnny came up with an apple in is mouth.

After a few more games, potluck unch was served the group with Mrs. Clayton, Moore and Mrs. Lawrence Moore as hostesses.

Family night has been changed from the last Thursday to the last Friday evening in the month, beginning with November.

The next gathering will be Nov.

Mrs. DeEtte J. Mellendorf received a card from her nephew, Rev. Cletus A. Parker, of Bay City, stating that he is better after having been in bed 20 days and still has to stay another three weeks. His many relatives and riends wish him a speedy re-

Mr. and Mrs. Willard Ellicott and Mrs. Clayton Moore were business callers in Bay City Tues-

Mr. and Mrs. Norris E. Mellendorf and children, Arlene and Milton, were supper guests of their cousin, Milton Mellendorf, Wednesday evening.

A number from Grant attended the wedding of Frederick Cooley of Grant in Essexville on Saturday evening, October 27.

The Grant-Elkland Grange will meet next Friday evening, Nov. 9,

at the Bird Schoolhouse. Milton Mellendorf attended the funeral services of his cousin, Mrs. Willard Feekings, in Wednesday afternoon.

### LET'S TALK IT OVER

Poor Man's Meat.

the first butcher discovered his thumb could make money, pork has been considered the "poor man's meat." Now, with one excuse and another, the price of ham and associated cuts is just about out of reach. Not all the people have turned vegetarian. The explanation of what we're buying is the Michigan contained Hatchery report. At the present time—we are producing more than double the chicks against the ten year average of 1941-1950.

This is truly a sign of the times and is the direct result of the "supply and demand" processes. If the price of poultry gets out of hand we'll probably find other foods under less competitive stress. SCRAP.

Farmers must sell their metal scrap if they want farm implements to remain plentiful next year. There is no charity connected with the present drive. It just so happens that the steel mills want the scrap collected before the winter snows bury it. It also happens -that farmers have the "heavy" scrap that will make the difference between success and failure. Last week the Government okehed a help the drive along. It is just good needs, have, in most instances, common sense for farmers to participate. It means money in the bank and a cleaner farm.

The boys in Florida and California caught on since the war. Biggest item in the trade now is concentrated citrus juices. Like television, a whole new industry has been founded and proven. This is typical of the American way. New horizons unlimited.

New Crops.

According to the plant scientists, we have only scratched the surface in the development of new farm crops. Altogether, more than 250thousand different species plants have been classified botanists. Yet only about 200 of them have been domesticated and utilized in the production of food

and fiber. The experts point out that every in it which, if properly processed, may be converted to practical use. Chemicals, medicinal juices, fiber, food-all abound in wild herbs and grasses. And the possibilities they

#### John A. Boebling

A German immigrant, whose first job in this country was farming, John A. Roebling introduced woven iron wire cable to the United States. He made his first "wire rope" in 1840 at Saxonburg, Pennsylvania Building a new plant at Trenton, New Jersey, he began to use cable in suspension bridges. In 1886, he contracted to build the Brooklyn Bridge in New York. The original wire rope is still in use.

Provide More Space

A 24-inch feeder will take care of 40 to 60 chicks from hatching to two weeks of age. Penn State extension poultry specialists suggest that then the feeder space be doubled. When the chicks are 5 to 6 weeks old, put hen hoppers in the pens.
