

## Elkland Township Chest Drive Fails To Meet Quota

Keith McConkey, chairman of the Elkland County Community Chest, announced today that the 1951 drive here has failed to meet the large quota set for it. With returns in from all but a very few of the volunteer workers, there is \$4,600.00 in the chest coffers. The quota for the Chest this year was \$5,500.00—the most that this year's drive can possibly net after all returns are in is \$5,000.00, McConkey said.

Mr. McConkey said that the work of the more than 60 volunteer workers was uniformly excellent and cooperation from all sources helped make the campaign run smoothly.

## Diphtheria Shots Will Avert Trouble

School health authorities issued a warning to all persons in the area that diphtheria has broken out in many Thumb communities. The latest is a severe outbreak at Clarkston.

According to medical authorities, there is no excuse for diphtheria at any time. Parents of children are advised that if they will take their child to a physician and get the preventive shot, there is no chance to contract the disease. Parents are warned that if children have had shots over three years they should get a booster shot for safety. After the booster is given, the person is protected for life against the dread disease.

Superintendent of the Cass City School, Willis Campbell, asks that all students who received the shot bring a slip from their doctor so the preventive measure can be made part of the permanent health records of the school.

## Local School Bus Drivers Complete Training Course

Another step toward maximum safety for area children riding in school buses was taken this week when drivers of local vehicles attended a driving training school under the auspices of the Central Michigan College of Education at Caro on Monday, Tuesday and Wednesday.

The course, designed to acquaint drivers with laws and safe driving practices, was divided into six different phases: Motor Vehicle Code, use of testing devices for qualification of drivers, state and local school bus policies, practice and demonstrations, driving fundamentals and preventive maintenance and first aid.

Drivers who attended the school were Ben Kinton, William Patch, Otto Ross, Richard Darmody and Howard Woodard.

According to Superintendent Willis Campbell, the drivers who transport local students all have had physical examinations and the buses they drive are inspected for mechanical flaws between the first and the tenth of every month.

## New Directors Named at Community Club Tuesday

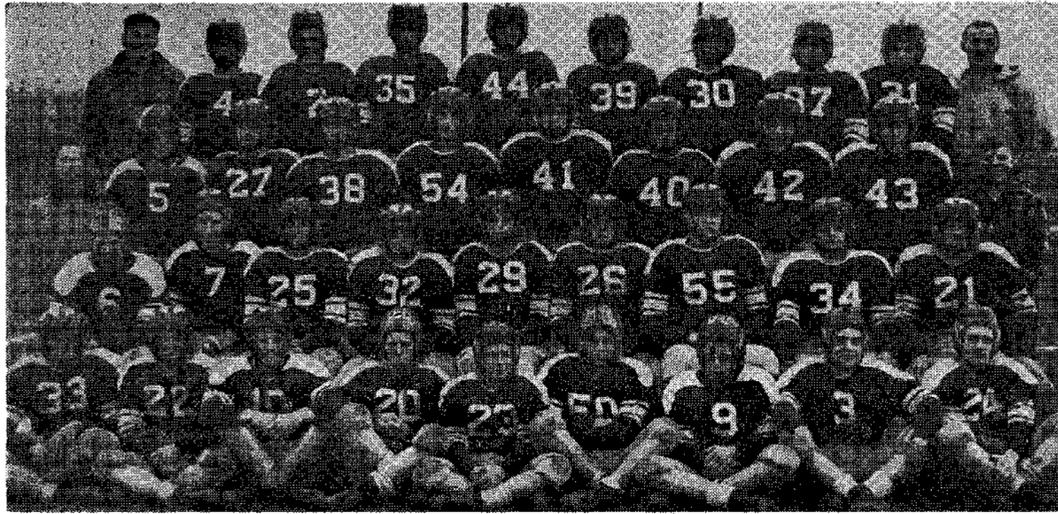

Directors for the Cass City Community Club were named Tuesday night at the regular meeting of the club at the Cass City High School. According to the rules of the club, the new men are selected from the churches in the village—each church having one representative. In addition to those men, a man from the community at large is selected and the superintendent of the school is automatically a member of the board.

The new members, their church and the men they replace are: Methodist, Bob Keating replaces Howard Wooley; Baptist, Cecil Brown replaces Guy Landon; Catholic, Ben Ross replaces Don McLachlan; Presbyterian, "Scotty" McLeod replaces Fred Auten; Evangelical, Jim Marsh replaces George Dillman and from the Church of Christ Albert Pratt replaces Claude Peasley.

Other representatives are: Sunshine, Leslie Lounsbury replaces Merritt Allen and Lutheran, Louie Bartz replaces Glen Ulrey. From the community at large, Jim Bauer replaces Jim King and Willis Campbell serves again as the representative from the school.

## Village to Receive \$1,843.84 from State

Cass City's share of the \$4,606,122.94 to be distributed to Michigan cities and incorporated villages will be \$1,843.84 according to information reported by the State Highway Department.

Computation of the amount allocated was based on the best available information on mileage and population data together with the amount of weight taxes collected in the various counties as reported to and certified by the Secretary of State.

Other area villages' shares were: Gageton, \$421.75, and Uby, \$759.07.

By counties Tuscola led its two neighbors in amounts received. Tuscola's share was \$90,472.61, Huron's \$86,685.88 and Sanilac's \$89,987.97.

## Farmers' Agency Makes Bigger Loans

Farmers who borrow from the Farmers Home Administration will be better able to make adjustments in farming operations, increase production and work out balanced farm and home management plans under the newly enacted Public Law 123, according to John McDurmon, local FHA Supervisor.

The law enables the agency to make loans for farm operating expenses up to \$7,000 for an initial loan and places a ceiling of \$10,000 on the indebtedness outstanding at any one time. The maximum repayment period is seven years. Previously the initial loan was limited to \$3,500, the maximum indebtedness to \$5,000 and the maximum repayment period to five years.

"In amending the loan terms, Congress recognized that the costs of farm operating expenses have increased sharply in recent years," McDurmon explained. "A farmer who required a \$3,500 loan in 1946

## Hawks Win First Undisputed Loop Title in Eighteen Years

The Cass City Red Hawks skidded across the frozen turf at the Cass City Recreation Park Friday night to score two touchdowns in the dying moments of the first and second halves to whip Caro, 13-0, for the championship of the Upper Thumb League for 1951.

It was the first outright championship for Cass City in 18 years, according to the records at the high school. The last trophy won by the Hawks was in 1934, although they shared the title with Caro in 1942.

Neither team was able to put together a sustained drive in the first quarter as the two teams put on a defensive show for the Homecoming crowd.

Then, late in the second period, the Hawks went 42 yards for the first score of the game. Tom Schwaderer went 10 yards around left end after taking a pitchout from Frank Creason. Schwaderer tossed to Stan Guinther for 11 yards and Creason smashed over the middle for 18 yards in the scoring drive. Bob Wallace attempted to run for the extra point in the end-around play, but failed

to go over and Cass City led at half time, 6-0.

Both teams played rugged defensive ball in the second half and it was not until Caro gambled on fourth down in their own territory that the Hawks were able to score again.

The marker was set up by a screen pass from Schwaderer to Guinther. The play, one of the Hawk's favorites all year, netted 18 yards. Tom Schwaderer scored a moment later. Creason plunged for the point.

Although the Hawks won by two touchdowns, the game was decided by the stalwart play of the Cass City defensive unit. Playing one of their best games of the year, the Hawks never permitted Caro inside their 42-yard line.

The statistics reveal the part played by the defense. Caro netted four first downs, had 72 yards rushing, completed no passes and ended with a total of 72 yards for their total gain for the evening.

The Hawk's advance was checked by fumbles. They lost the ball three times through bobbles, while Caro fumbled twice.

## George Gable Dies Friday Evening

Mr. George Vern Gable, well-known resident of this community, died at his residence Friday evening. He had been in ill health the past year.

He was born in Cass City May 11, 1886, the son of the late Mr. and Mrs. Nicholas and Mary Ream Gable.

On December 17, 1907, he married Mrs. Fannie Baldwin, in Windsor, Ontario, who died in 1934. Following their marriage, they made their home in Cass City where he was engaged in the bakery business. He later had a bakery in Imlay City and Richmond and a restaurant in Birmingham.

In 1937 he returned to Cass City where he made his home until his death. He had been employed at Little's Funeral Home for the past five years.

Surviving are: three sisters, Mrs. Vania White of Cass City; Mrs. Glenn Angel of Brookline, Michigan; and Mrs. Bruce Johnson of Essexville, Michigan; six nephews and nieces. One stepson also preceded him in death.

Mr. Gable was at Little's Funeral Home until 2:00 p. m. Monday when funeral services were conducted by Rev. Arnold Olsen and Rev. E. W. Porter. Burial was in Marshall, Michigan.

## Escape Injury as Car Turns Over

Mrs. Floyd Kennedy, her two children, and Mr. and Mrs. Alex Lindsey turned over on their way to Reese Sunday when slippery roads caused them to lose control of their car. The car turned completely over and was resting on its roof. However, the car was only slightly damaged and the passengers escaped injury.

Mrs. Kennedy and Mrs. Lindsey's father, Rev. Ernest Gibson, had scheduled a quartet at his church in Reese and the group was on the way to hear it when the accident occurred.

## Mrs. Floyd Porter Entertains W. S. C.

The Woman's Study Club met at the home of Mrs. C. L. Graham on Tuesday afternoon.

After the business session was concluded, Mrs. Fred Maier presented Mrs. Floyd Porter, who gave a splendid impersonation of a Latin-American girl who was an exchange student in this country. She told of customs, conditions, education and the way in which communism wins the attention and favor of the South American countries.

Miss Faith Parrott and Miss Grace Ann Graham, through a demonstration of shellcraft, taught a class in Speech.

Pictures and objects made of shells fashioned by Mrs. Sherwood and Mrs. Spencer of Deford were on display.

Roll call was answered by quotations and the meeting was adjourned to meet with Mrs. E. L. Schwaderer Nov. 30.

## Gallaghers Feted on Silver Anniversary

Miss Adeline Gallagher and her niece, Mrs. Neil A. Adams, of Sterling and Jack Gallagher entertained relatives at a dinner Sunday in the former's home to celebrate the silver wedding anniversary of Mrs. Adams' and Jack Gallagher's parents, Mr. and Mrs. Albert Gallagher. The affair was a surprise to the guests of honor who received lovely gifts in recognition of the occasion. Those who attended the dinner were Mr. and Mrs. Floyd Johnson of Romeo, Mr. and Mrs. Henry Hegler and daughter, Barbara, of Detroit, Mr. and Mrs. Percy Knight, Mr. and Mrs. John Knight and children, Dick and Ginny, and Mr. and Mrs. Keith Knight and children, Kenneth and Linda, and Neil Adams, all of Sterling, Mr. and Mrs. Frank Hegler, Mr. and Mrs. Don McLachlan and daughters, Sue and Jane, and G. E. Krapf.

Albert Gallagher and Miss Hazel Hegler were married Nov. 12, 1926, at the home of the bride's parents in Novesta. Attendants were Robert McConkey and the late Myrtle Hegler.

## Bowling News and Views

George A. Dillman, Sec.

With "Chuck" Auten pacing the Huff "V-8" team with a three-game series of 574, they snowed under the Hunt team, one of the league leaders, winning all three games for a total of four points. While the Read team was losing three points to Peterson, the Musall team downed the Wooley team for three points to roll into a tie with Reid for first place in the league standings. With two weeks to go in the first round, first place is yet to be decided. Any one of the first seven teams still have the opportunity of finishing in the top spot. The Huff team was high Monday night as they hit a total of 2485 with Musall following with 2419 and the Wooley team with 2329. The Huff and Musall teams dominated the single game scoring with Huff posting 874 and 863, Musall 835 and 827. In the individual scoring G. Auten was high with 674 followed by Geiger 569, Gross 551, Peter-

## School Closes, Phones Dead As Record Storm Hits Area

### Week Brings Change In Business Scene

Brinker Lumber Co., Elkton Distributing Co. and Stuart and Arthur Atwell completed a three-cornered business transaction this week in which the old Farm Produce Lumber Company's buildings, now owned by Brinker's, went to Jack Knuckles of the Elkton Distributing Company, and the Knuckles' building was purchased by the Atwells.

Mr. Knuckles will use his new buildings for a warehouse and the Atwells are planning to use their building as a storage warehouse.

Other Business Changes. Another major transaction in the village saw the merger of the Cass City Flower Shop with Gregg's Greenhouse. The combined concerns will be known as the Cass City Floral, said owner George Clara.

The Claras, owners of the Cass City Flower Shop, purchased Gregg's Greenhouse from Mr. and Mrs. Gregg, "Rusty" Gregg, who handled the flowers in the greenhouse, has been very ill recently and is confined in a local hospital. The greenhouse will now be used, Clara said, to grow the flowers while customers' sales and other business transactions will be handled at the Main Street store.

New Dealer. Also on Main Street will be a new automobile dealer. Mr. Ed Allen announced that he will have an opening of his new Dodge-Plymouth sales next week. He stated that he has on hand the new 1952 model Dodges for display at the opening.

### Bethel Extension Elects New Officers

Nine members and two visitors were present Thursday afternoon, Oct. 25, when the Bethel Extension Group met with Mrs. Kenneth Auten.

The business meeting was conducted by the chairman, Mrs. Wm. Profit. The following officers were elected for the coming year: Chairman, Mrs. Wm. Profit; vice chairman, Mrs. Philip McComb; secretary and treasurer, Mrs. Herman Charter; recreational leader, Mrs. Leslie Profit; community chairman, Mrs. Elwood Eastman; project leaders, Mrs. Clare Carpenter and Mrs. Kenneth Auten; council leader, Mrs. Glen Deneen.

The lesson on "Broiler and Oven Meals" was ably presented by Mrs. Homer Randall and Mrs. Kenneth Auten.

The next meeting will be held at the home of Mrs. Homer Muntz, November 14.

### Elkland Extension Names Eight Officers

The Elkland Extension Club met at the home of Mrs. Laura Reagh Oct. 26, for an all-day meeting. Guests were Mrs. Ed. Karr, Mrs. Andy Kozan and Mrs. Reagh.

Officers were elected as follows: Chairman, Mrs. Laura Reagh; vice chairman, Mrs. James Tuckey; sec.-treas., Mrs. Charles W. Wright; community chairman, Mrs. George Russell; leaders, Mrs. Clare Tuckey and Mrs. Kenneth Russell; council member, Mrs. E. G. Golding; flower chairman, Miss Edith Decker.

The leaders, Mrs. Laura Reagh and Mrs. Clare Tuckey, served a delicious luncheon with a menu taken from the lesson, "Broiler and Oven Meals."

The recent snow storm, one of the worst in the history of the area for the early part of November, disrupted the daily routine of persons in the village and on the farms near Cass City as snow blocked communications and transportation.

The weather forced Willis Campbell to close school Wednesday afternoon after only about a quarter of the students arrived for classes in the morning.

School buses that were able to plow through the drifts arrived in school with as little as a single student on them and none arrived with over 15 pupils.

The deep snow virtually halted traffic in the village Wednesday, as cars who left the main streets quickly became stuck. Motorists reported that the comparatively warm weather had melted just enough of the snow and ice to make it slippery, with resulting poor traction. Mail service was hours behind schedule and rural delivery was erratic—depending on road conditions.

Deford residents who dug their way out of the drifts to come to the village said that the snow had sagged wires till they touched the ground and put phones out of commission.

The storm started in Cass City on Tuesday afternoon and continued until Wednesday noon—dropping an estimated nine inches of snow on the area.

## Schwaderer, Ellis Honored by High School Gridders

Two Cass City High School seniors were chosen by their teammates as captain and most valuable to the team for the season just completed.

Guard John Ellis was named the most valuable player and Tom Schwaderer was elected captain of the team.

The two seniors were elected by the squad that loses only five players through graduation this year. Besides Ellis and Schwaderer, tackle Alvin Hutchinson, center Dick Wallace and tackle Gerald Whittaker have played their last football game for the Hawks.

The quintet played on one of the best teams in the history of Cass City. Besides an undefeated record, the Hawks ran up 189 points while holding the opposition to 16.

## FOULI

During his many years in the ring, Slapsie Maxie Rosenbloom never developed the killer instinct. Rosenbloom liked to box his opponents silly. Boxing was his forte, but the idea of engaging in a rough and tumble brawl was repugnant to him.  
One night, when he was champ, he was pitted against a burly pug, who insisted on using roughhouse tactics. Unfamiliar with the finer points of the game, he kept rushing Rosenbloom, hoping to land a lucky punch.  
Rosenbloom danced around his opponent, and calmly proceeded to cut him to ribbons. He crossed, he jabbed, he hooked in a superb demonstration of boxing. This was the way he liked to fight, no hard blows; just science and skill.  
By the fourth round, the contender was dizzy, but he still kept rushing the champ. Rosenbloom set his left for another jab, when—crack!—the other ran into it with his chin and fell flat to the canvas, out cold.  
Rosenbloom, frustrated by this sudden ending, could not conceal his disgust.  
"Why, you double crosser," he growled, as he returned to his corner.

Rosenbloom, frustrated by this sudden ending, could not conceal his disgust.  
"Why, you double crosser," he growled, as he returned to his corner.

During his many years in the ring, Slapsie Maxie Rosenbloom never developed the killer instinct. Rosenbloom liked to box his opponents silly. Boxing was his forte, but the idea of engaging in a rough and tumble brawl was repugnant to him.  
One night, when he was champ, he was pitted against a burly pug, who insisted on using roughhouse tactics. Unfamiliar with the finer points of the game, he kept rushing Rosenbloom, hoping to land a lucky punch.  
Rosenbloom danced around his opponent, and calmly proceeded to cut him to ribbons. He crossed, he jabbed, he hooked in a superb demonstration of boxing. This was the way he liked to fight, no hard blows; just science and skill.  
By the fourth round, the contender was dizzy, but he still kept rushing the champ. Rosenbloom set his left for another jab, when—crack!—the other ran into it with his chin and fell flat to the canvas, out cold.  
Rosenbloom, frustrated by this sudden ending, could not conceal his disgust.  
"Why, you double crosser," he growled, as he returned to his corner.

## 350 At Akron for Achievement Day

International understanding was the theme of the extension women's 26th annual achievement day in Tuscola County. About 350 women gathered at the Akron Community Building on Thursday, November 1, for the all-day event. Flags representing 30 countries decked the stage. A bouquet of autumn flowers was sent by the Akron businessmen. Name cards representing the United Nations' flag were prepared by the Fairgrove-Almer group, in charge of hospitality. The Wisner group was in charge of arrangement. Exhibits of Christmas decorations were prepared by the Fairgrove group. Ideas for gifts were also displayed.

The meeting was opened by Mrs. Harold Satchell, mistress of ceremonies, and invocation was offered by Rev. Gunther Branstner of the Akron Methodist Church. Community singing was led in the morning by Mrs. Keith Crawford, Caro, and in the afternoon by Mrs. John R. Hoeman, Unionville. Mrs. Cecil White, Caro, accompanied them.

Appearing on the morning program, Mrs. Eva Massoll presented the county chairman, Mrs. Harold Satchell, with a home demonstra-

tion pin, and explained the emblem. Mrs. Charles Witkovsky, Caro, presented a report of her trip to the national meeting of the home demonstration council, held at Michigan State College in August. Mr. Alfred P. Ballweg, County Agricultural Agent, was introduced to the group. Miss Jean Gillies, county home demonstration agent, mentioned the 1952 program and explained some of the exhibits. Carrying out the theme, a pageant for international understanding was presented by the North Almer Extension Group. The pageant was narrated by Mrs. Neil Bennett, Caro. Background music was furnished by Mrs. Cecil White, while Mrs. Keith Crawford was soloist. The pageant described background, dress and customs of women in various parts of the world. Rev. Robert Nixon of the Akron Presbyterian Church, offered grace before the noon meal.

Miss Margaret Harris, assistant state home demonstration leader, addressed the gathering in the afternoon, bringing greetings from Michigan State College. A humorous note was contributed by Mrs. Alger Hartz, Fairgrove, who gave two readings.

The guest speaker, Mrs. Philip Gentile, chose the United Nations as her topic. She stressed the need for us to understand the women in other parts of the world. Mrs. Gentile, a lecturer with the University of Michigan extension service, has worked on the United Nations Committee of Greater Detroit and on the Michigan Committee for UNESCO.

Mrs. Harold Satchell closed the afternoon session by leading the group in the reading of the Michigan Extension Women's Creed.

**New Lumber**  
Robert A. Caghey, research director of Souhegan Mills, Wilton, N.H., recently told the American Society of Mechanical Engineers that a new kind of lumber is now being produced from bonded sawdust. He said the synthetic lumber could be made to sell for less and serve better than most lumber now in use, according to National Patent Council.

**Painting Hilltop House**  
If a house is on top of a hill, with little foliage or few large trees surrounding it, painting it a light color will make it stand out quite noticeably. When painted a deep, rich tone, it will blend pleasingly with the landscape.

## Turkey Show Slated

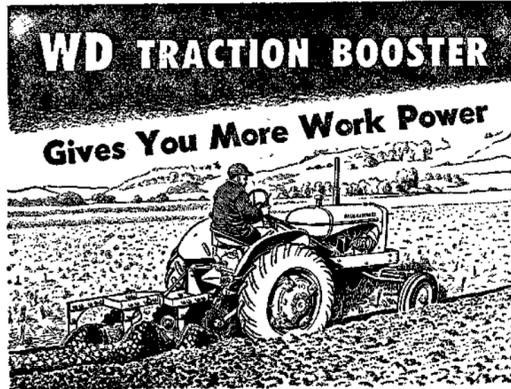

This year's Michigan Turkey Festival will be held in the Auditorium at Saginaw, December 5 and 6, according to William Aho, extension poultryman at Michigan State College and festival manager.

Entries for this year's show are expected to top last year's record of nearly 400 live and dressed turkeys, Aho said. The 1951 turkey festival is a cooperative project of the Michigan Turkey Growers' Association, Michigan State College, Michigan Department of Agri-

culture and the Saginaw Chamber of Commerce.

Two festive days are planned with activities of interest to turkey producers and consumers alike on the schedule. Highlights of the first day's program will include a panel discussion in the evening led by J. A. Davidson, of Michigan State College, temporarily on leave with the Kellogg Company. This panel, composed of leading turkey specialists, will discuss "Marketing Problems of Michigan Turkeys."

**WD TRACTION BOOSTER**  
Gives You More Work Power

When you set the hydraulic lever on the WD Tractor, you can add as much as a thousand pounds of weight on the rear tractor wheels.

As the drawbar load increases, the hydraulic system uses the weight of the implement plus the weight of the soil to bear down on the wheels. Location of the implement behind the tractor gives it leverage, which multiples implement weight at the tractor axle.

It's entirely automatic. The tractor selects the amount of weight needed. And it's all a part of the complete WD hydraulic system—no extra equipment.

Stop in and let us show you how the WD will do drawbar jobs which ordinarily require a much heavier tractor.

Michigan Mirror News Briefs

More and more hunters are getting the bird's eye view of the rural areas of Michigan. The cause: "Sears and Roebuck hunters." According to farmers, the city-minded hunters show little regard for property, climbing fences between posts and even cutting the wire to let dogs through. They leave rifles open, shoot at anything that moves, from the barn cat to the tractor, and then leave with the air that they have been only exercising their God-given rights as lovers of "the great outdoors."

Eight out of 10 rural residents admit they will let hunters on their land if the hunters will only stop at the house and ask. This procedure has been prescribed by the conservation department. But, says one farmer, "They sneak on my property, start two first in two years and then give me a hell because the hunting is no good. Nuts to 'em." The "big city" hunter is blamed the most in a natural thing—about hunting in the winter areas. Know the farmers whose land they are hunting.

Sen. Blair Moody, a veteran of TV's "Meet the Press" program, will face Michigan's top newsmen over the discussion table Dec. 6, at the "Meet the Senator" program sponsored by the Central Michigan Chapter of Sigma Xi, the professional journalism fraternity. The panel discussion and dinner, scheduled for Kollig Center at Michigan State College, East Lansing, is expected to attract more than 500 newspapermen, editors and interested persons.

On the panel: Guy Jenkins, chief Booth Newspapers bureau at the Capitol; Jack L. Green, Associated Press; Douglas Graham, United Press; and Hub George, Detroit Free Press. Moody's comment: "I hope they don't knock me out of the ring." The original battle flag of Michigan's 32nd (The Arrow) division which fought in France in World War I, has been formally presented to the State of Michigan, and the battle scarred banner now rests with other historic flags in the vault of the state capitol. It was held by the William G. Han American Legion post of Flint.

The new state ferry for the Straits of Mackinac will not be finished in time for deer season. Original plan to put the \$5,000,000 "Vacationland" into operation by Nov. 15 is stymied by shortage of material and skilled labor.

Michigan is expected to contribute \$3,200,000 to the 1952 March of Dimes, \$600,000 more than this year. In the 51 drive Michigan raised \$495,000. National Foundation for Infantile Paralysis advanced nearly \$800,000 to the state for polio care when county shares of local contributions were exhausted.

Nearly \$20,000,000 was divided up among Michigan cities, townships, villages and schools as the first slice of tax diversion money of the current year. The municipalities' allocation is based on a rate of \$1.57 per capita and the schools on the basis of \$0.82 per

capita child. In the fiscal year ending last June 30, Washington shelled out \$30,478,420 to Michigan residents. Veterans readjustment and vocational rehabilitation accounted for most of the money—\$77,574,057. Other notables: agriculture department's soil conservation program, \$7,002,176 and new care for disabled war veterans, \$69,784. These amounts don't include other federal programs—research, airport expansion and building, highway development, railroads, shipping lines, postal rates and helping more low incomes to list.

Says Rep. Gerald R. Ford, Jr. (R-Mich): "The U. S. Department of Agriculture has become a political organization bogged down with bureaucracy," and seeking to control farmers. He told the Kent County Farm Bureau that "the USDA now spends \$20 for every \$1 it spent 20 years ago—might better spend more money in the field and less at the top."

Arms orders continue to pour in on the auto industry but peak out, but is still many months away. Orders total something in excess of \$5,000,000,000.

The Midwest will become a "depressed area" unless the St. Lawrence seaway is built, according to Lt. Gen. Lewis A. Pick, chief of army engineers. He echoed the argument long voiced by Michigan that the steel industry is moving east of the Appalachian mountains and that the automobile industry won't be far behind. Emphasis was put on the passage of the seaway bill has been received from congressmen.

The cold war is costing us twice as much per soldier as World War II. The poison, influenza and the fantastic new weapons—which have just an fantastic price tags. Cost per man is \$17,000 for a year, World War II cost, \$7,500 per man.

Disease Treatment Although usually associated with the jewelry field, the precious metals have many other highly important uses. None is more worthwhile than the association of platinum with radium, cancer of metals, in the treatment of disease. There are several reasons why platinum is used. First, it is malleable and tough which makes it a perfect form of jewelry. Second, it has an marvelous ability to combine with radium and the extreme stability of platinum makes it an ideal material for the treatment of disease. Platinum is used in the treatment of cancer and other diseases and the entire world is turning to platinum for its treatment of cancer and other diseases.

Luc Maria Ave Maria! Holy Maid! Oh deign to hear a maiden's vow, To thee we humbly look for aid To thee, in supplication bow. The heart with sin and sorrow laden, Beneath thy care shall find repose, Thou hear, oh hear a lady's maiden, And soothe the anguish of her woe! On June 25, 1825, while on an Alpine tour, Schubert wrote his parents, saying, "Also my party visited great wonder, in that I had compared a hymn to the Virgin, which appeared to touch all hearts and promote a religious feeling. I believe the reason of this is that I never force myself to compose these hymns and prayers, and only do so when carried away by a true and real sentiment of reverence." Little's General Home

NOTES from the TUSCOLA COUNTY EXTENSION OFFICE

Public policy discussion pamphlet No. 15 is available at the Extension Office for farm groups and others who desire this discussion material for meetings. The subject covered by this pamphlet is "Our Free Enterprise System."

Having soil tested this fall and winter will help in selecting the proper fertilizer for next year's crop. This should save money and increase profits.

C. A. Boyer, chief of the Bureau of Plant Industry, State Department of Agriculture, has notified the Extension Office that his inspectors will be enforcing what is known as the "Christmas Tree Law" from now until Christmas Day. The law requires that the driver or owner of any vehicle transporting one or more Christmas trees or evergreen branches must have a bona fide bill of Sale and Consent, completely filled out. These bills of Sale forms are printed by the Bureau and are available without charge to property owners who intend to sell trees or branches. The forms are available at the State Police posts, Extension Service offices, Conservation headquarters, sheriff's offices, and the leasing office of the Bureau.

November 29 is a date farmers will want to remember to attend an afternoon meeting at Cass City High School. The topic will be "Rural Economics, 1952 Model," to be presented by agricultural economics specialists from Michigan State College.

Plan Poultry Care to Save Time, Money

Poultrymen who plan a definite work schedule for handling their laying flock can save time and money.

Regularly in care and management is one of the secrets of success in poultry raising, say Michigan State College poultry authorities. For instance they recommend gathering eggs at 10, 12 and 1 o'clock during the day. That works well since most eggs are laid in the morning and the 1 p. m. collection will take care of most afternoon laid eggs. Unnecessary noise and scares upset the birds and cut production.

Head Level Track The world's longest stretch of straight track on a dead level is on the Ferrocarril Nacional General San Martin Railway of Argentina. This stretch of track extends 205 miles between Junin and Mackenzia without the slightest curvature to right or left and with the elevation remaining constant.

## MSC Says Land Buying Profitable

"Should I buy a farm or more land now?" That's a typical question received by Michigan State College agricultural economists. Farm land prices in Michigan are rising. Land prices are 16 per cent above a year ago and went up 3.4 per cent from March to July, 1951. This increase in land prices likely to continue through 1952, although at possibly a slower pace, and the question of whether to buy now or wait becomes a logical one.

The MSC agricultural economists at MSC answer the question this way. In the next few years, farm incomes will remain high enough to justify purchase of good land if it is operated on an efficient basis. Good management is important because the days of paying for a farm out of one or two year's profits probably are gone.

General livestock farms which will be operated by one man should be at least 160 acres in size. Anything less than this acreage is less apt to make enough profit for the farmer when he has to add the overhead of machinery investment, taxes, insurance, upkeep on buildings and the like.

Small-farm owners, who are unable to go ahead and make changes so they can operate more efficiently, might find it more profitable to work full time in a factory or on some other full-time job off the farm.

Buildings in good condition that need no major repairs or remodeling are more essential than ever with high labor and material costs, the agricultural economists advise prospective buyers.

In the next few years, farm incomes will remain high enough to justify purchase of good land if it is operated on an efficient basis. Good management is important because the days of paying for a farm out of one or two year's profits probably are gone.

General livestock farms which will be operated by one man should be at least 160 acres in size. Anything less than this acreage is less apt to make enough profit for the farmer when he has to add the overhead of machinery investment, taxes, insurance, upkeep on buildings and the like.

Small-farm owners, who are unable to go ahead and make changes so they can operate more efficiently, might find it more profitable to work full time in a factory or on some other full-time job off the farm.

Buildings in good condition that need no major repairs or remodeling are more essential than ever with high labor and material costs, the agricultural economists advise prospective buyers.

### County Observes 4-H Week Wednesday

November 3 to 11 is National 4-H Achievement Week. This period has been designated as a time for recognizing the accomplishments of the two million boys and girls in this country who belong to 4-H clubs. The occasion was observed in Tuscola County at the annual fall achievement program at Murray Hall, Caro State Hospital, Wednesday evening, November 7.

Medals were awarded to county winners in 20 different projects in recognition of outstanding work. Most of these medals are provided by sponsors of national 4-H contests, administered through the National Committee on Boys and Girls Club Work, at Chicago. These nation-wide 4-H project award programs provide for competition between county winners for state honors, following on to regional and national championships.

Three Tuscola County 4-H Club members were recently chosen as state champions in their respective projects and will be guests at the National 4-H Club Congress at Chicago November 25-29. The winners chosen are Janis Black, Akron, state champion in the room improvement contest; Norine Cramer, Akron, winner of the state 4-H food preservation competition; and William Pike, Fairgrove, whose record in 4-H health and safety won him the 4-H congress designation.

Seven other Tuscola County 4-H youth are making plans for a Chicago trip after Thanksgiving too. They are the girls and boys chosen as 4-H achievement booth winners, who made individual displays in booths at the 1951 County Fair. They will accompany 4-H club agent George MacQueen on an award trip to Chicago November 24-27.

The achievement booth winners who were chosen on the basis of their 4-H project completions and club activities, such as judging and demonstrations, are Martha Dowling, Caro; Paul Findlay, Reese; Dorothy Irwin, Millington; Beth Luther, Fairgrove; Keith Mead, Mayville; Tom Sinclair, Cass City; and Gloriana Taggett, Caro. Each of the seven winners has served as a junior and assistant leader, and each has been a county winner in one or more project contests. They have been enrolled in club work for an average of seven years each, and together they have completed a total of 215 different projects.

Canned hams can come to the rescue when you plan to serve many guests. Although they cost more in the beginning there is less waste. And since they are pre-cooked, the baking time is cut to about one and one-half hours, depending upon the size.

A paroline ruffle added to a petticoat is the trick for making those full skirts stand out as teenage girls like them.

### HOLBROOK

The Holbrook Community Club will have their regular meeting on Monday night, November 12, at 8:00 p. m. at the community hall. Potluck lunch will be served. Sunday school is at 10:30 a. m. every Sunday.

Mr. and Mrs. Clifford Jackson and son, Bob, visited Sunday at the Don Wallace home near Cass City. Mr. and Mrs. James Stuart have moved to the Lloyd Morrison farm.

Mr. and Mrs. Clifford Jackson were guests at the Bud Gruber home Thursday evening.

### SHABBONA

The Shabbona Methodist W. S. C. S. will meet in the Shabbona Community Hall Wednesday, November 14. They will have their Christmas Bazaar and drawing Secret Sister's name besides the business meeting that day. Dinner will be served at the noon hour. A cordial invitation is extended for every one to attend.

**Autumn Soil Testing Best Says Agent**

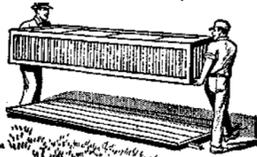

Farmers who take soil samples for testing this fall will have several advantages over those who wait till spring for this operation, says Tuscola County's assistant agricultural agent, Byron E. Carpenter.

There is usually some time after harvest and before freeze-up on most farms when samples can be taken from fields, and if this is done, it will save valuable hours in the spring, reminds Carpenter. Furthermore, there will be demand on the laboratory technician and equipment, and samples can be tested shortly after they arrive in the lab. Soil tests made in the fall also give the agent more time to prepare fertilizer recommendations for farmers.

Probably the most important advantage in having soil tests made this fall is that the farmer can put in an early order for the right kind of fertilizer, based on the soil test results. Manufacturers predict a shortage of fertilizer materials again in 1952. They anticipate a reduction in supply of phosphoric acid, along with a jump in demand. Phosphate is the element most likely needed by all Tuscola County soils, but knowing the soil needs in advance permits farmers to order intelligently and economically.

Carpenter reported that there were 68 samples tested at the Tuscola County Soil Testing Lab between August 15 and October 1, most of these soils being from fields planted to wheat this fall. Since September there has been a drop in activity, but the agent urges farmers to take advantage of the lab's services this fall.

**SKID CARRIER**

An easy and time saving way to move turkey poult and young chickens from brooder to house to range is the skid carrier sketched above. Build the crate to fit a hay sled or other farm carrier and divide it into sections. Carrier is loaded through sliding doors at top, then is skidded to range where two men can lift the top and the birds can scoot away.

**Loans to Build Grain Houses Will Continue**

The commodity credit corporation program which provides loans to farmers to finance construction or purchase of new farm grain storage facilities will be continued in 1951-52. Secretary of Agriculture Brannan announced that the loan program, initiated in June 1949 and scheduled to expire June 30, 1951, has been extended another year. The program is extendable on a year-to-year basis.

**LET'S TALK IT OVER**

Dairy Co-Op. Got invited to a Fish Fry in Sebewaing last week given by the local Dairy Co-Op. The perch were delicious—the company the best—and the story we came away with—heartwarming.

This outfit specializes in just one thing—quality. They have a slogan—grass yesterday, butter today. They make a premium 93 score table spread.

This is unusual. Butter has become a competitive football and as a result, quality has become a secondary consideration. As we've said many times, most people don't even get to know what premium butter tastes like.

The Lenawee Star Brand butter, made in Sebewaing, is in great demand. We learned that regular shipments are dispatched to New York and then rushed to leading hotels and night clubs.

We had quite a talk with the head man of this Tri-City Co-Op. He said that once the reputation of a quality product is established, there is no shortage of markets nor are competitive concessions necessary. The American people

want the best—when they can get it.

Cut Plug. If the farmer is in business for himself, why doesn't he advertise? Most farmers would say—"How can I?"

We found out about some farmers in Wisconsin that faced that question and did something about it.

It all started with a painter by the name of Frank Engbreton. He got to wondering why barns were all painted red or white—or just unpainted. He asked himself why farmers should be advertising city products on barns instead of the things they grew. This fellow sold a few of his rural friends on the idea of putting giant murals depicting rural scenes on barns. The idea caught on and that part of Wisconsin is a wonder to behold. Tourists marvel at the picturesque settings in quiet valleys and the eye-catching color flashing from hill-top homes. Of course, this painter created for himself a lifetime job.

Big Eye-Sore. Since we've been on this job of

farm reporting we've been a little puzzled at the thinking of farmers that allow their barns to be plastered with gasoline and chewing tobacco ads. We haven't seen one sign inviting people to drink more milk, eat quality butter, or enjoy a chunk of cheddar cheese.

The Oleo manufacturers have grabbed off a big chunk of the butter market—consumption of milk per capita is falling off and yet the dairy farmers do nothing on their own.

There are millions of super sign boards throughout the country all belonging to farmers—waiting to advertise the farmers products.

If we agree that the farmer is a business man—and can help his own cause by this form of advertising—why not?

**Control Spittle Bugs**

For control of spittle bugs on strawberries use a 60 per cent chlordane wettable powder, recommends Stanley Gesell, Penn State extension entomologist. Apply the first dust or spray just as the first blossoms appear. Control of the bugs means more berries.

Cider in a glass pitcher becomes something special when you add a few unpeeled apple slices, sliced across the apple, to the drink. Some hostesses add mint leaves, too.

**Thirty-five Years Ago.**  
Returns on governor show that Albert E. Sleeper, Republican candidate, carried the state by a slightly larger margin than did Mr. Hughes. Final returns indicated it was an easy election for Lieutenant-Governor Laren D. Dickinson of Charlotte to succeed himself. Early returns on the wet and dry issue show that the prohibition forces are 60,000 ahead in the state. Michigan will go dry May 1, 1918.

G. Granger of Gaines, Mich., made his second shipment of pure-bred Hereford cattle to South Dakota last week. These cattle came from the herds of S. F. Bigelow,

G. E. Perkins has disposed of his insurance business to J. C. Corkins and left Wednesday for Argyle where he expects to make his home with his son, James, for some time.

F. J. Nash had a birthday Tuesday and the Nighthawk Club surprised him at his home in the evening.

J. D. Tuckey has purchased the 80-acre farm of Hiram Bears two miles southwest of Cass City for \$2,500.

Nearly 100 members and attendants of the Evangelical Church attended a welcome reception for Rev. and Mrs. S. Cormany at the parsonage Wednesday evening.

**Five Years Ago.**  
Miss Marjory Fuester, daughter of Mr. and Mrs. Lynn Fuester, of Cass City, was gowned in white velvet with a long train when she became the bride of William Repshinska, son of Mr. and Mrs. Anthony Repshinska, of Gagetown.

The auction sale for the benefit of the Cass City Community Hospital fund last Thursday afternoon netted \$5,780. In addition, \$1,200 was donated in cash, bringing the total for the hospital fund to \$6,980.

Many hunters from Cass City and vicinity left this week to hunt deer in the north woods. William Ball, 80, was the oldest hunter to purchase a license and Gerald Frieskorn and Kenneth Klinkman were the youngest hunters licensed.

**Twenty-five Years Ago.**  
Herman Doerr sold the equipment and business of the Doerr Bakery to Carl Almer of Detroit and the Parrott Creamery was purchased by John Wentworth and M. C. Wentworth from John Lorenzen and Joseph Tesho.

The silver wedding anniversary of Mr. and Mrs. Charles Seekings occurred on Oct. 16, but on account of illness in the family, the celebration of the event was postponed to Friday, Nov. 5. Seventy relatives and friends of the Seekings and Turner families surprised the bride and groom.

### Portable Hog House

An example of a good portable hog house, which is large enough for four sows and can double as a farrowing house, is illustrated above. Any lumber dealer can furnish the lumber for the flooring and framework and the Masonite quarter-inch hardboard used for siding and roof. Note the double, full-length doors, divided midway horizontally, which provide easy access for both farmer and animal. Plans are available from Farm Service Bureau, Suite 2037, 111 West Washington St., Chicago 2. Plan AFB-197.

### Poisons Recommended For Tomato Pinworms

Farmers and home gardeners should watch their tomatoes closely from the time the fruit first sets until it ripens. During this period fruit worms and pinworms may attack the fruit.

For control of these pests entomologists recommend dusting tomatoes once a week and following heavy rainfall with a dust containing 5 per cent rothane and 5 to 6 per cent zineb.

### Plow Shown Best In Tillage Tests

Comparisons of several types of tillage machines on three common Michigan soils have demonstrated that the moldboard plow is still an important piece of farm machinery.

R. L. Cook, soils researcher at Michigan State College, reports that rotary tillage was compared with normal tillage after the conventional plow and after the sub-base plow. An auger plow and a vertical disk plow also were studied.

Over a 3-year period, no method of tillage has resulted in yields above those obtained when the moldboard plow was followed by conventional tillage. The rotary tiller, the auger plow, and the vertical disk plow were not satisfactory where sweet clover or bromo grass was growing.

**FARMERS' AGENCY MAKES BIGGER LOANS**

Concluded from page 1.  
for annual operating expenses and the purchase of machinery and livestock would have required a loan of \$5,000 for the same purpose in 1951.  
"The main objective of the Farmers Home Administration is to help family farm operators make the most efficient use of their land and family labor supply."  
"The new loan terms will be of great help in achieving this goal. In the past we have had to turn down many young veterans and other farmers who came to us for assistance simply because we could not provide them with adequate financing under our previous loan limitations to enable them to work out a balanced farming system."

**Camels Carry Load**  
Camels are used as trucks to haul goods in the big cities of Egypt. When there is a traffic accident, there is no difficulty getting the license number, for each animal moving van has a license plate dangling from under one ear!

**Experience Counts In Lamb Feeding**

A good supply of feeds and a favorable feeding margin are combining to attract farmers to lamb feeding this year in spite of an increase in the average price of feeders.  
L. H. Blakeslee, Michigan State College animal husbandman, has some warnings and pointers for farmers who are thinking about lamb feeding.  
"If you haven't fed lambs before, you'd better have a source of advice near at hand," he warned, explaining that experience in the business is invaluable for success. "You also should have a good supply of fattening feeds on hand or available. You will need about an equal poundage of grain and roughage."  
Pasture can be used, but if lambs are to be fattened they should get some grain too. The first part of the feeding period is important. Blakeslee warns: "Don't try to push the lambs too fast at first. Give them reasonable amounts of good roughages, clean water, shelter in case of cold or bad weather, and plenty of rest if they have been shipped any distance."  
Vaccination by a veterinarian may be advisable in case of sore mouth or to help prevent over-feeding if you plan to turn the lambs into the corn field. The corn field over-eating problem may be eased by feeding plenty of hay close at hand.  
Blakeslee advises that feeders investigate each death loss to determine the cause. Then you'll know how to avoid the next one.  
"Hand feeding is the best practice for feeding lambs. When lambs don't clean up the grain fed in 15 to 20 minutes it can be taken away to prevent over-feeding," he advises.

**Household Hint—Eighth Century**  
The Lucca manuscript of the Eighth Century contains many recipes for making glue varnishes and pigments. One of the varnishes described was composed of amber, mastic, turpentine, resin, galbanum, myrrh, gums, linseed oil and "flora puppi." Those who painted on wood, mixed colors with wax; those who painted on skins, used fish glue.

Speaking of high scores, we would like to bring to you some scoring events gathered from the ABC News Letter of Nov. 2nd. A young Madison, Wis. bowler who turned down a possible career in baseball in order to perfect his bowling game, is currently leading the American Bowling Congress' race for high scoring honors. Stan Thaden, 25, scored 249, 300, 290, for a total of 839 in the Recreation League on October 12. Thaden's total bettered the 822 score rolled by Frank Mataya in St. Louis the night previous when Frank hit for 245, 277, and 300. Bowling opposite of Mataya the same night, Art Scheer of the Silver Seals Team in St. Louis scored a 300 in the opening game of his series. This was the eighth time that two members of the same league have scored perfect games in the same league session.

The Ideal Plumbing and Heating team in the Merchants' League continue to hold a slim lead for first position. The Brinker Lumberjacks are hot on their trail and if "Little Rich" can just get Bohnsack and Bryant to concentrate on their bowling, they are going to be tough to hold down. This is the first week that the Drewry Team didn't make the board in the department of high scores. They sagged in the middle and on both ends last week

but still managed to take three points. Wallace was the big bowler of the week as he crashed through for a three game total of 600 and high game of 235. The Blatz team came to life as they hit 2559 with a high game of 943. The Bulen team hit 2533 and Shellane 2521. High single games were rolled by Blatz as mentioned. Reed and Patterson 903, Ideal 836. Ind. high three games, Wallace 600, Willey 574, Huff 565. Ind. high single games, Wallace 235, Hunt 227, Patterson 222.

**LET CORN DRY**

Michigan farmers who put off corn picking as long as possible so it can dry in the field will have fewer soft-corn problems than farmers who pick too early.  
That's because one drying day in the field is equal to ten drying days in the crib, according to Michigan State College extension farm crops specialists. They say that saving soft or high-moisture corn is easier if you take advantage of drying weather of early fall. However, corn doesn't dry much during the winter months.
