We have had several queries from persons in the area who have seen the notices of the special Detroit election concerning the Edison Co. in the paper.

This week we are running two

more—for Grant Township and Elmwood Township. the election is merely formality. When the Detroit Edison Company took over from private utility companies in the area, they were granted a 30-As most of the year lease. grants near Cass City were granted at approximately the same time, the various townships and villages in the area will have the vote before them this year.

According to the representative from the Detroit Edison Co., Elkland and Novesta Township elections will be on the docket shortly and Cass City's grant to the organization will expire sometime in the fall.

While in nearly all cases the election is merely a formality, sometimes the results are surprising-due to a very light vote. In Marlette recently, a vote was held and the proposition was defeated by a few voters.

The results necessitated another vote and this time in response to Edison's explanatory advertising and publicizing of the election, a good vote was recorded. The results, as expected, showed a huge plurality for retaining Edison's services. Only two negative votes were cast in the second election.

Shortly after our column con-cerning Superintendent Smith of Sandusky hit the streets last week, we were called on the carpet for implying that he was guilty of padding the rolls of the school.

Although we did not mean to suggest this in the article, if it was so construed, this editor was caught off base.

Supt. Smith has steadfastly said that he is innocent of any criminal action. He has not been tried and in this country every person is innocent until guilt has been established by a court of law.

It is not the perogative of this newspaper, or any other newspaper, to try a case or write anything that could possibly sway public opinion before the accused has had an opportunity to defend himself against charges brought

Plans are under way to celebrate 'Soil Conservation Week" in Tuscola County from April 27 to May 3, according to Alfred Ballweg, Tuscola County Agricultural Agent, chairman of the group who laid ground work for the event. The group was composed of members of service clubs, Farm Bureau, Extension Home Economics, Soil Conservation District, Soil Conser vation Service, Michigan Conser vation Department, 4-H and Extension Service.

"The Soil Conservation Week" will feature tours, luncheons and church services. The tours will show soil conservation work in the central part of the Tuscola Soil Conservation District. There will be a "Ladies Day," complete with tour of the Tuscola District and a luncheon served by the ladies of the church at Watrousville. There will be a day for businessmen and a day for FFA and 4-H participants.

The week will be climaxed with Soil Conservation Sunday on May 3, at which time the ministers of Tuscola County may preach a sermon on the stewardship of the

moora economy

The new stamina of Chevrolet trucks, plus extra gasoline economy in heavyduty models with Loadmaster engine: reduces hauling costs per ton-mile.

Here are a few things we think are worthy of your consideration before you buy any truck.

In 1953, Chevrolet trucks are more rugged, have huskier and more rigid construction than ever in the past. This means longer truck life and lower over-all

You'll find the increased horsepower and higher compression ratio (7.1 to 1) of the big advanced 108-h.p. Loadmaster engines in heavy-duty models bring you greater power (200 ft. lbs. of torque), and greater performance, greater ability to do the job. You'll find that means faster acceleration, greater ability to climb the steepest grades. And you'll find a wonderful gain in gasoline mileage, tool

As any owner of a 1953 Chevrolet truck knows, these are the sturdiest, most powerful trucks Chevrolet has ever built. Yet with all the wonderful advantages they offer, they list for less than any other trucks of comparable capacity and specifications.

437,751 Tractors Produced in 1952

The farm equipment industry enjoyed its second best sales year in history during 1952, but experienced its worst production year since 1947, a spokesman for the industry reported recently.

It was estimated total output of wheel and crawler type farm tractors during the calendar year 1952 at 437,751 as compared with the 1951 total of 570,795. The 133,000 fewer units were attributed to strikes, model changes and adjustment to slower trade ordering during the second half of the year.

Retail sales of new tractors and \$2,583 million for the year as compared with \$2,746 million record sales volume rung up by dealers during 1951.

The industry produced at record level for the first six months of 1952 turning out 290,210 tractors. Then, because of the steel strike, work stoppages in farm equipment plants and plants supplying components, model changes and adjustment to trade ordering, output was reduced to only 147,541 tractors during the second half of the

Offset Depreciation With Defense Bonds

rapidly. This item has been overlast few years of large machinery Once a farmer purchases. mechanizes his operations, he will find it impossible to turn back and as his expensive equipment wears out, it must be replaced. This can easily present a financial problem unless plans are made to take a small part each machine earns, equal to its annual depreciation, and set it aside for replacement

"One good way of doing this is by setting up a farm machinery replacement plan by investing in Marvin Rupprecht, Frankenmuth, U. S. Defense Bonds," Ballweg Richville Community 4-H Club, said. "Officials of the United 9th. States Savings Bond Division. Treasury Department, in cooperation with the U.S. Department of Agriculture, have worked out a plan that will help the farmer pay his farm machinery depreciation bill each year. The plan is simple: use. Put the amount of yearly depreciation in Defense Bonds. At the end of nine years, the farmer will have more than enough to replace the equipment. For example: Suppose a new tractor costs \$2,250 and is good for ten years' use. The depreciation each year will be \$225. By investing \$225 each year for nine years in U.S. Defense Bonds, the farmer will have \$2,383."

About 80 per cent of all state owned lands are property. Of the 4,200.000 acres Ed Rupprecht, Frankenmuth, 5th. under conservation department jurisdiction, 3,300,000 are taxreverted.

With the Annual Association Fournament only one week away. the boys were really warming up Monday night as they toppled pins for the best scoring night of the season. The City Tournament has all indications of being the largest tournament held to date. The Team doubles and singles entries are lagging but we expect a rush of Bartz entries before the deadline date of March 21. We are informed that Hubbard there will be no entries accepted Huff ... after March 21. So let's get those Wallace names on the entry sheet at the

bowling alley now. Alleys five and six, Monday night, was the bowling show of the Hunt night as the Huff team and the Knoblet team squared off to do battle for three games. Following is the box score of this match:

the individual effort of Carl Kolb of the Knoblet team as he rolled a total of 689 for his three game series, with a single game of 268. This effort sent Carl to the top in the season's individual scoring record. Carl's first game was rolled in the following fashion: Eight strikes in-a-row, a spare in the ninth and tenth, and a strike with the last toss. But for a stubborn seven pin in the ninth, who knows, he might have gone all the way for the first "300" game in sanctioned bowling in Cass City. The Knoblet team now has a monopoly on all the high scoring departments for the season. The records show that they are at the top with a three game series of 2628, single team game of 964 Kolb, a member of the team, with 268 single game and 689 three game series. Other team scores posted Monday night show Hubbard's team with 2454, Galloway 2420, Wallace 2319 and Landon with 2314, "800" team games were rolled by Hubbard with 845-824 Wallace 824, Reid 810, Landon 83' and Galloway with 824-818. Smith - Chisholm Wedding Friday

Miss Lois Smith, daughter of Mr. and Mrs. James Smith of Bay Port, became the bride of Frederick Chisholm, son of Mr. and Mrs. Franz Chisholm of Gagetown, last Friday evening, March 13, in presence of some 200 guests before flowers and palms. Rev. John Smith of Adrian, brother of the bride, performed the ceremony. The bride, given in marriage by her father, chose for her wedding a gown of white slipper satin, princess style with a skirt ending in a long train. The bodice, peplum and long sleeves were of Chantilly lace. Her fingertip veil was secured by a Juliet cap and she carried a bouquet of white rosebuds

FARM DIGEST

Benefit vs. Subsidy Payments News from our Nation's

farm subsidy payments will be lowered before long. Sugar beet growers have nothing to worry about, because the Sugar Act of 1948, re-enacted two years

ago, puts sugar benefit pay-ments in an entirely different category than other crop subsidies. This act has until 1956 to run. Payments are set up to continue at the present rate

The sugar benefit payment differs from other subsidy pro-grams in another manner, too. There's a manufacturer's tax on every pound of sugar processed. From this, benefit payments are made to sugar beet growers in return for complying with certain regulations of the Department of Agriculture. In other words, sugar beets are not subsidized.

To assure Mrs. Housewife paying no increase in the retail price of sugar, the duty or tax on sugar brought into this country was reduced the same amount as the manufacturers tax. Thus, the retail price of sugar remained unchanged.

Here's an interesting side light on the manufacturer's tax. Each year there is a surplus of money after the sugar beet growers payments are made. his money goes into the U.S.

Because sugar beet payments are scheduled to be made at the present rate, more and more Michigan farmers are looking with favor toward this highly profitable cash crop.

Grant Farm Bureau—

The Grant Farm Bureau met last week Wednesday at the Williamson School for their March meeting. A "Buzz" session, with all members participating, discussed the topic, "Does Michigan Need a Road Toll System?"

Mr. and Mrs. Alex Jamieson donated the American flag to the Bureau which will be used at each meeting.
The Williamson School has been

redecorated and the funds for this project were furnished by the ladies, with all members taking part in the painting and cleaning. Recreation followed the business meeting. Prizes were awarded to Mrs. Claude Martin, Mrs. Clifton

Exchange Delegate to Speak in Caro

James Rielly, young Lapeer County dairyman and an International Farm Youth Exchange dele-gate of 1952, will speak at the Wilber Memorial 4-H Building on Thursday evening, March 26, at 8 p. m. This program is presented under the sponsorship of the Tus cola County 4-H service club. This group welcomes all who wish to attend and hear Rielly's fine talk on Switzerland

Rural youth such as Jim are ctually 'grass roots' ambassadors to foreign countries. They are referred to as 'Ifyes' because of the initials of the program. They have played a big part in presenting the United States as she really is to youth of other countries. Rielly spent several months living and working on Swiss farms in the foothills of the Alps mountains and has some fine colored slides to show along with his talk.

Jerry Davis, Vassar, is one of the 1953 'Ifye' delegates and he is slated to go to Germany this spring. Tuscola County was visited by a boy from the Netherlands and two young men from Turkey last summer.

ELECTION NOTICE

To The Electors of the Township of Elmwood, Tuscola County, Michigan

NOTICE IS HEREBY GIVEN, that at a special election to be held at Elmwood Township Hall in said Township of Elmwood, on Friday, the 1st day of May, 1953, the following question will be submitted to you:

Do you favor the confirming of a franchise to THE DETROIT EDI-SON COMPANY, granting permission to erect, construct, lay, operate and maintain, within the TOWNSHIP OF ELMWOOD, all needful and proper poles, towers, mains, wires, pipes, conduits and other apparatus requisite for the transmission, transforming and distribution of electricity for public and private use, subject, however, to all conditions and restrictions of said franchise, as passed at a session of the Township Board of said Township held on Thursday, the 12th day of March, 1953.

A copy of said franchise is on file with the Township Clerk, and it is open to the inspection of the electors of said Township.

At said election the form of ballot will be as follows:

state schools to close—not yet, at put himself in this position.

The legislature, last week, finally agreed to move forward to May 15 the due date for corporation franchise taxes. This will permit the early collection of \$35,000,000 which can be passed on to the schools. Since many large corporations previously indicated they the corporation franchise tax. would not object to paying the shot now instead of Aug. 31, the move is expected to bring in \$15,000,000 at once. Penalty provisions for late payment were substantially softened so that corporations would not be unnecessarily pinched by the date change.

In the third month of sessions and with little accomplished to date, members have an eye on adjournment and how they can plan their strategies to take advantage of remaining time. Bills have been introduced in both houses to set May 22 for the final session. Under the present system, all bills for \$23,000,000 this month. U. S. APPROVED WHITE **LEGHORN**

We wish to take this opportunity to advise all the previous customers of Jim Dunns Sparton Hatchery of Gagetown that for the past two years all the White Leghorn chicks he has sold have come from our Hatchery here at Caseville. We would appreciate any orders you would care to place with us and we assure you they will receive our careful attention and will be filled on the date promised. We accept orders either by a personal call or by phone or mail.

We hatch 14,000 White Leghorn chicks per week that are practically all hatched out of the 2,800 eggs we get from our own hens daily. All hens on our own farms are mated with cockerels that came directly from the Foreman Poultry Farm of Lowell, Mich., and are progeny of their finest Egg Laying Contest and R. O. P. Matings. Constant selection for all the economic factors should make a flock of White Leghorn Pullets from Greenview Poultry Farm a profitable and wise investment for you.

Feature Turkey In Main Dishes To Please Family

WHETHER you have roasted a large turkey or a smaller one, one of the best things about it is the delicious leftovers vou'll have from it. Those cold slices of roast turkey are excellent in sandwiches with some of the cranberry sauce or relish, and of course they make a nice platter alternated with slices of ham, cheese or cold meats for supper.

But what about the turkey when it gets down to chunks, shreds and pieces? These can go into delicious casseroles and main dishes that will tempt the family. Check over some of these for really good eating:

Chinese Turkey Almond

(Serves 4) 4 cup blanched almonds 2 tablespoons cooking oil 42 cup thinly cut onion

½ cup sliced mushrooms 1 cup celery, cut in 1/2-inch

1/2 cup thinly sliced water chestnuts, if desired

1 cup thinly slivered turkey (or chicken) ½ cup turkey or chicken broth

1 teaspoon cornstarch ¼ teaspoon salt 2 tablespoons cold water 1 tablespoon soy sauce

Steamed or boiled rice

Sliver almonds. Place in a shallow pan with 1/2 teaspoon oil and sauce prepared by heating the reroast in a slow (300°F.) oven 20 to maining mushroom soup, diluted 25 minutes until lightly browned. Heat remaining oil in heavy skillet. Add onions, mushrooms, celery, bean sprouts, and chestnuts and fry lightly, cooking for about 5 minutes. Add turkey and broth, cover pan and cook slowly for 10 minutes. Blend cornstarch, water, salt and soy sauce and stir into cooked mixture. Allow to boil. Add a fork. Withhold liver until the almonds and serve at once on hot fluffy rice.

Lynn Says:

Stuffing for a part of a turkey may be baked right underneath the bird or it may be placed into a "bag" of aluminum foil. It is baked about 1 to 11/2 hours of turkey roasting time.

Whole birds usually need % to 1 cup stuffing per pound for the ready-to-cook weight of the bird. For stuffing a half or a quarter turkey, prepare stuffing allowing about 3 cup per serving.

Sprayers Give Farms Good Fire Protection

Farm power sprayers, now in common use for control of weeds, insects, and crop diseases, are providing an added degree of protection against losses from fires on thousands of American farms. Many owners keep this equipment in stand-by condition for emer gency use in fighting fires.

The U.S. Bureau of Agricultural Economics estimates that fires on farms throughout the United States annually destroy about \$100,000,000 worth of property and take around 3,500 lives. This is a huge waste of both property and human li**ves**

Effective use of power sprayers on farms can further help reduce such losses.

Many power sprayers are mounted on wheels for easy portability and can be transported to the point where help in fighting a fire is needed. It is the first few minutes after a fire starts that are especially important. In these minutes, while the fire is still small, it may be controlled if equipment and fire-fighting materials are at hand.

Sprayers that are to be used for fire fighting should be kept in top notch shape and should be filled with water and ready for use.
