Leaders, in turn, will present the Christmas lesson to their local groups later this month.

Extension Office

Here are some tips from Quentin R. Ostrander, assistant county ag-8:00 p. m., Evangelistic service. ricultural agent for Tuscola County, for storing your valuable fall

Unlike some newly-made fertilizer purchased in the spring, wellcured fertilizer can be stored without damage or caking in the fall. Stack it on a raised platform-not on the floor. Two-by-fours on edge makes a good platform if the boards on top are separated about a half foot to allow for air pas-

Don't stack the sacks over five or six bags high because the fertilizer is liable to cake otherwise, United Missionary Churches. Too heavy a pressure causes the

Keep out all moisture in the storage building-including snow. Then, if you have good ventilation, the fertilizer will be ready to apply when you need it.

"AL CHALMERS" 64 JULIUS NOVAK

A reserve of precious water can mean the difference between a bountiful harvest and just an ordinary crop. The Allis-Chalmers CA Tractor with subsoiler

penetrates to a depth of 18 inches and shatters hardpan. This permits more water to accumulate in the subsoil and allows plant roots to penetrate deeper in search of water and plant food.

Low-cost subsoiling with your own equipment is another advantage of owning an Allis-Chalmers CA, WD or WD-45 Tractor. Automatic Traction Booster and low, forward, single hitchpoint give necessary traction for real subsoiling with a wheel tractor. Ask us to prove it with a field demonstration,

Buy, Rent, Sell or Trade With a Chronicle Want Ad.

Best time to trade for

BARGAIN BUYS IN TRUCKS

Buy no truck until you get our deal!

Be chead on price! Chevrolet trucks are America's lowest priced truck line! It's easy to find a truck that costs more, but nowhere else will you find all the advanced features, all the thrifty power, all the ruggedness and durability you get in a Chevrolet truck. Be ahead on operating costs! Both the mighty Loadmaster engine

on heavy-duty models and the rugged Thriftmaster engine on light- and medium-duty models squeeze more miles out of every gallon of gas. Chevrolet trucks cut upkeep costs, too.

Be ahead on trade-in! You're ahead with low first cost . . . you're ahead with low operating costs . . . and you're dollars ahead again when it's time to trade! That's because Chevrolet trucks traditionally command a higher trade-in value. Buy now and be ahead all ways!

Roughage Is Called Cheapest Dairy Feed

According to the Dairy Herd Improvement Association of Nebraska, the cheapest feeds for dairy cows are roughages.

The association reported recently that its records show that roughages last year supplied about 70 to 75 per cent of the nutrients at 46 per cent of the total costs. The concentrates supplied about 25 to 30 per cent of the nu- Harry Stine. trients at 54 per cent of the feed

The D. H. I. A. records also in over the week end. dicated that a balanced ration should be fed according to a cow's producing ability. The cows producing 3400 pounds of milk consumed \$26 worth of grain feed. milk consumed \$75 worth of grain feed. The difference in the value of the product over the feed cost

was \$149. The cost of the roughage was the same in both cases. The average production of all the cows was 9073 pounds of milk and 344 pounds of butterfat. The average feed cost per cow was \$168 and the returns over feed

cost averaged \$231. One cow producing 11,873 pounds of milk and 450 pounds of butterfat was more valuable from the standpoint of production than 3 cows producing one-half as much milk and butterfat.

Sweetpotato Storage

After sweetpotatoes have been cured, the storage house should be kept at a fairly constant temperature of around 50 to 55 degrees.

Cows take 50 to 70 bites per minute when on pasture,

Repair Time

House and barn repair time is at hand. Work done now will eliminate troubles this winter. It might be a good idea to check joints between stding and roofs on all farm buildings, including the farm home. Cracks should be sealed with paste roofing compound before fall painting. See to it now.

FARM DIGEST

Acreage Alletments

We'll produce an estimated 400 thousand tons more sugar this year than the quota calls for. Therefore, marketing quotas appear to be inevitable next year. In

the past, acreage allotments have followed on the heels of marketing quotas.

Acreage allotments can seriously hamper our Michigan sugar industry, an industry which brings millions of dollars into this state each year!

Because sugar beets are such a high-profit, cash crop, you certainly don't want to be left out in the cold with a small acreage, or none at all, when allotments go into effect. You want to be able to put a healthy amount of land into beets. Here's how

you can do it. Plant a good-sized acreage into sugar beets next year. In the past, recent farm history of a crop has meant a great deal when allotment formulas were made out. The higher the number of acres you can show the allotment board, the higher the number of beet acres they'll allow you to plant. It's as

simple as that. Next time you get a chance, take your sugar company fieldman aside and ask him for the facts straight. Then put a healthy number of your farm acres into sugar beets. THE VERY LAST OPPORTUN-ITY FOR YOU TO CREATE A FARM HISTORY WILL PROBABLY COME IN 1954. SO MAKE IT A BIG YEAR!

A Public Service of the **BEET PROCESSORS OF MICHIGAN** MARSHALL WELLS...WJR....12:30 p. m.

ture. A new administrative assistant to the director was appointed whose main duty is to spot crop surpluses before they hit the market. Preparation for extra large harvests, it is hoped, will prevent glutting consumer outlets with accompanying drop in prices, so disastrous to farmer-producers.

New methods of anticipating surpluses are being sought. There is little new to the idea that crop overproduction should be dealt; with before it occurs. But there has been a notable lack of success of a plan in the past.

Man selected for the job is Joe E. Wells, former public relations director for the Benton Harbor fruit market, largest in the world. He was also farm editor for the Benton Harbor News-Palladium. He gave up publishing his own newspaper, the Coloma Courier, to take the civil service job with the Agriculture department.

Acting director of the department is George McIntyre, who was deputy director under former boss, Charles Figy. Since the controver sial firing of Figy by the Agriculture Commission last August, no permanent director has been

Close and constant checking with producers of apples, peaches, potatoes and other Michigan crops will be maintained by Wells. If surpluses develop, the Agriculture Department expects to be ready with special marketing measures to dispose of the oversupply.

Guest Speaker

Mr. John Ferguson, former attorney at Detroit, was the principal speaker at services held at the Hillside Schoolhouse Sunday, Nov.

For the last 13 years, Mr. Ferguson has been in charge of printing and distributing gospel literature in many languages to over 100 countries throughout

Mr. Ferguson receives remarkable testimonies from abroad in connection with his work. He told of his experiences at the meeting Sunday and also of his connection with the Billy Graham campaign. Be sure to hear Mr. Wm. Mc-

Donald from Chicago for the Thanksgiving week end. Free copies of Mr. Ferguson's speech are available by writing him in Detroit.

WCTU MEETS

Concluded from Page one. The meeting will be opened with an executive board meeting at 9:30 a. m. and the convention proper meeting.

Highlight of the Tuesday afternoon meeting will be an address by State President Mrs. Bessie Hurd of Fenton. Also on the program is a workshop for young people and workers in the Youth Temperance Council. The workshop program will be under the direction of Ethel Riddle of Evanston, Ill., national general secretary of YTC.

The afternoon session will begin with a roll call of officers, county presidents and district directors. Tuesday evening, devotions will be given by Rev. L. Burgess, Elkton. Other events will include a speech contest by the Elkton WCTU and an address by Miss Ethel Riddle.

On Wednesday morning, reports from county presidents, district officers and will be given and new officers

erested in temperance work.

You're in the driver's seat

TT's your money, of course—but we'd like L to see you make the most of it.

That's why we publish the price of the big Buick Special here—to make Point #1: you can buy this great performer for just a few dollars more than the so-called "lowprice three."

But Point #2—the smart point—is this:

When you put up those few extra dollars for the Buick pictured here, you're in the driver's seat of a lot more automobile.

You boss extra power - more satisfying power-walloping Buick Fireball 8 power -highest ever found in a Buick SPECIAL.

You get extra room-a lot more comfortable room — real, man-sized, 6-passenger room - as much room as you get in cars costing hundreds of dollars more.

You enjoy extra satisfaction - more solid satisfaction—in the ride of this big, broad, road-steady traveler that's cushioned by coil springs on all four wheels, and engineered with all the other costly features of the Million Dollar Ride.

And, speaking of extras - here you ger, at no extra cost, a long list of standard equipment that most other cars at or near the price of this Buick charge you for, as "extras" on the bill of sale.

So, as we said—it's your money—and it's

If you're aiming for the driver's seat of a hard-to-beat buy-for a lot less than you think-come in and see us soon.
