

From the Editor's Corner

Perhaps many of you already are aware of this fact, but with the hunting season in full blast we thought it timely and interesting.

The record black bear killed in Michigan was not shot with a gun—but belongs to a bow and arrow hunter.

The record-breaker weighed 640 pounds and was certified by two witnesses.

In our opinion that's odd enough, but how about this? Not only the largest bear ever shot, but also the second largest was

gained by a modern Robin Hood. The second largest bear ever killed in Michigan weighed in at 632 pounds.

The rifle doesn't get into the act until third place is reached. This one weighed in at a "puny" 628 pounds.

Have you overlooked renewing that expired driver's license? If so, you'd better get a new one quick. According to authorities at the Tuscola County Sheriff's Department, a ticket for driving without one calls for a mandatory two-day jail term.

The law has been in effect since the first of the year. Since it was new to us, we thought it might be new to many of you and we pass along the word for protection of area residents.

We don't know how to accomplish it, but we think that with such a stiff penalty for no license, it could be made more convenient for motorists to purchase their permits.

A branch office in several of Tuscola's villages would make it much easier for the average citizen.

It'll happen every time department: On his way to Caro early this week, LeRoy Kilbourn, of Deford, was traveling near the Cass River bridge on Deckerville Road and spotted a big buck looking down the road. The buck stood in the field for several minutes watching Mr. Kilbourn as he parked his car. Finally, it casually walked away and disappeared.

Naturally, Mr. Kilbourn was without a gun or license.

For Injury in Auto Accident

Jury Awards Lucik Damages of \$1,600.90

A Tuscola County jury awarded damages of \$1,600.90 to Anthony Lucik Friday for personal injuries suffered in an auto accident in January.

The case started Thursday, Nov. 12, and was concluded at 3:30 p. m. Friday. Damages were assessed against Gerald Weidner for hitting Lucik, who was walking at the time the accident occurred in Mayville.

The jury deliberated three hours before reaching its verdict. Samuel Moses, who is on trial for involuntary manslaughter after the death of John Spencer in an automobile accident, stood mute when arraigned. A plea of not guilty was entered and he was remanded into the custody of the sheriff by the Hon. Timothy C. Quinn to await a trial date.

John Perkins, who pled guilty of breaking and entering in the nighttime and stealing an automobile, was sentenced to three years probation, fined \$250 and ordered to pay \$250 costs.

Before his arrest, Mr. Perkins had a good record, pre-sentence investigation revealed.

Arnold Sage, who was to have been sentenced after pleading guilty to statutory rape, was ordered to receive a mental examination by Judge Quinn. Sentencing was deferred until the doctor's report is received.

Mr. and Mrs. Levi Helwig will be honored Sunday, Nov. 22, from 2 to 5 p. m., when their family will hold open house for the Helwigs' silver wedding anniversary.

Levi Helwig and the former Marian Mellendorf were married at Uby, Nov. 21, 1928, by Rev. Harold Cornell, the pastor of the Presbyterian Church.

Attendees were Mrs. Helwig's sister and brother, the late Stanley Mellendorf and Mrs. Richard Loos of Port Huron, and Mr. Helwig's sister and brother, Mrs. Raymond LaVigne, Detroit, and Howard Helwig.

The Helwigs have five children: Mrs. Veron Gingrich (Lenora) of Cass City; Sgt. Elwyn Helwig in Korea, and Wenola, Maynard and Joyce, all at home.

They have one grandchild, Linda Gingrich.

Relatives and friends of the family are invited to the open house.

Cancel Area Study Meeting for Month

The November meeting of the Tuscola County Area Study has been canceled for the month due to the deer hunting season.

Authorities desire 100 per cent attendance at the next meeting because several committees have reached the point where material of the study must be reviewed and edited for summary.

To accomplish this goal, all committee members are needed for the final three meetings.

The next meeting of the organization will be Thursday, Dec. 3, at 8 p. m. in the Tuscola County Courthouse.

Authorities now plan to complete the study by the end of February.

More Help Needed

Observers' Post to Operate Here Monday

The Ground Observers' post in Cass City will begin functioning at 6 a. m. Monday and will be manned until midnight every day of the week, it was announced at a meeting of interested persons held Monday at the school.

A/1c Earl R. Kirkpatrick, from the air filter center at Grand Rapids, praised the efforts of Superintendent George Clara and members of the community for their rapid progress in establishing a post here.

He said that the community had come the farthest in the shortest time in preparing to open a post. He said that Cass City would likely be named the post of the month for their efforts.

An estimated 75 persons attended the meeting and were assigned hours to work. Present plans call for two persons on each watch.

Village Visitor

This raccoon must have thought it was safer in town than in the woods. For, Saturday morning, he was spotted perched high on top of a tree on Oak Street, back of Watson's Service Station.

He was spotted and soon attracted a crowd of curious onlookers. Finally, after much indecision, he was shook out of the tree.

Here, Julius Wilding poses with the canny coon after he had fallen.

Sales Problems Discussed at Gavel Club Tuesday

Clifford Croft, discussion leader at the regular Tuesday night meeting of the Gavel Club held at Parrott's Dairy Bar, asked members to give reasons why customers chose to purchase from local or out-of-town merchants.

Among the points emphasized was that the local merchant, to get a fair share of the business, needs good salesmanship. Mr. Croft mentioned the possibility of a school to teach skillful and courteous salesmanship to merchants and employees in preparation for the visitors expected during the Christmas season.

Other points in favor of local merchants mentioned were better service and good or better quality for the amount of money spent.

In other activities of the club Tuesday, Glenn (Scotty) McCulloch received a plaque from the Valley Trails Council of the Boy Scouts of America in appreciation for his contribution to the local preparations for the scout jamboree last summer.

The award was made by Edgar A. Wright of Caro, field scout executive for Tuscola County.

Plan for Future

Secretary Explains County Road Program

Orville Kitelinger, secretary of the Tuscola County Road Commission, explained the road program in the county to Rotarians at their regular meeting Tuesday noon at the New Gordon Hotel.

He said that all road monies are distributed under a formula devised under Public Act 51 passed in 1951.

Under this act, he said, the county receives 37 per cent of the money turned over to the State Highway Department.

Seventy-five per cent of this money must be spent on primary roads—roads that connect towns or trunk line highways in the county.

The state allows only 25 per cent to be spent on the 1,331 miles of secondary roads, while 75 per cent is spent on the 264.6 miles of primary roads.

The division is not as bad as it would seem by the casual observer, according to Mr. Kitelinger. The county is spending primary road money for black-topping.

When a road has been resurfaced, reduced maintenance costs soon pay for the original cost of the construction and yields a dividend after a few years.

When a road is resurfaced, it needs no repair for five years and then only a seal coat to put it back into top shape.

However, until a majority of the primary roads in the county are resurfaced, Mr. Kitelinger said that secondary roads will suffer.

He said that the department realized the amount of traffic the secondary roads receive with daily school buses and milk truck travel, but pointed out that if the resurfacing projects were not carried out now, eventually all the money received from the state would be used for maintenance.

Money for secondary roads is being augmented by help from townships. Mr. Kitelinger said that Tuscola townships were among the best in the state for helping the road commission keep roads in good repair.

The over-all plan for the county is to place more and more roads in the primary system as soon as repaving makes it possible to spend less on maintenance.

Mr. Kitelinger said that several counties in the state are copying Tuscola's plan for spending money on their roads.

Service Highlighted Clarence Quick's Life in Community

Clarence S. Quick, 79, who died Monday, Nov. 9, was a pioneer resident of the Cass City community and participated in many of the activities of the area.

63 Report for Practice

Hawks Search for Winning Cage Combo

From 63 candidates who reported for the opening basketball practice at Cass City High School, Coach Irv Clasenman will try to weld a winning team to protect the Thumb B Conference championship that the school won last year.

The job of finding the winning combination will be no easy task this year. Gone are four of the five members of the club that swept through an undefeated conference season five.

Some of the boys who have shown promise and may make the grade are Jack Clara, Clare Comment, Jack Cook, Jim Ellis, Chuck Grady and Dean Hoag.

Pressing these boys in the net to make the squad are Bill Wurt, Dick Joos and Gary Cumming. Dick Donahue is regarded as prospect, but a football injury has kept him from early season practice.

The Hawks will have just two more weeks of practice before the season opens, Friday, Dec. 4. Cass City will jump into conference competition at Vassar.

They will open their home season against Crosswell-Lexington, Dec. 18.

Most observers feel that the Hawks will have a difficult time retaining the championship won last year.

One of the pre-season favorites for the title will be Marlette which has a veteran club turning this season.

Clip Cows For Quality Milk

The practice of clipping the dairy cows before putting her in the barn for the winter is one of the best aids in producing quality milk, says Quentin R. Ostrander, assistant county agricultural agent for Tuscola County.

The agent advises clipping the flanks, udder and stomachs of the cow to remove long hair which tends to collect manure and other dirt which can contaminate the milk.

The cows should be clipped when first put in the barn and then two or three times during the winter whenever the hair starts to get long.

Experts to Discuss Price Squeeze at Kingston Meeting

Farmers generally are not very happy these days, reports Alfred P. Ballweg, county agricultural agent. Falling farm prices and high farm costs are worrying most farmers. To tackle this problem and to bring out practical ways of solving it, Ballweg has called a county-wide meeting which will be held at Kingston on December 3, at 1:30 p. m. The meeting is entitled "Barnyard Economics—1954 Model." A team of farm economists from Michigan State College, John Doneth and Bernell Held will help lead the discussion.

At the meeting, a number of "down-to-earth" guides to maintaining farm profits during economic conditions such as the present will be presented. Much of the information presented will be based directly on the experiences of farmers who have been successful in making good farm incomes in both good times and bad. Part of the key to success in times of falling farm prices can be described simply as "good farm management."

Some of the things farmers can do to ease the squeeze in the immediate future will depend on the farm outlook for 1954. This subject will be discussed rather briefly to provide a background for the broader discussion of the profit squeeze.

Also included in the meeting will be an outline of the latest changes in federal farm income tax regulations, and an explanation of the new state business receipts tax as it affects farmers.

The "Barnyard Economics" meeting in Tuscola County is one of a series which is being held in practically every county in the state during December and January. Many county folks will remember last year's bang-up "Barnyard Economics" meeting which featured the subject of dairy farm management. County Agent Ballweg promises that this year's meeting on another timely and important subject will be just as snappy and stimulating. Everyone in the county is invited to attend.

Treat Cattle Now For Louse Control

A few dollars spent now in louse control on dairy and beef animals will be refunded to the farmer in higher milk production and faster gains in weight, says Quentin R. Ostrander, assistant county agricultural agent for Tuscola County.

Ostrander passes on to the farmers some louse control measures recommended by Ray Jones, extension specialist in entomology at Michigan State College. Dr. Jones recommends methoxychlor as the only chemical for use on dairy animals. He suggests spraying the animals on a warm day with a mixture of 8 tablespoons of 50% wettable methoxychlor powder in one gallon of water which would be the same as 8 pounds per 100 gallons of water.

For beef stock that will not be slaughtered for at least 60 days, Dr. Jones says that the same mixture of 50% wettable DDT powder can be used.

Ostrander suggests that the animals should be checked 14 to 18 days after spraying and if any live lice are found, another spray application should be made.

MICHIGAN MIRROR NEWS BRIEFS

Bursting point was nearly reached in Lansing by politicians waiting for Governor Williams to announce plans for his political future.

Both friend and foe have been wanting to know what course Williams will take in order to pattern their own. Since the Governor hasn't been saying, pressure has been building up for action. But political strategy demands that the governor's course be outlined before action takes place.

There are rumors, of course. "Williams has decided to enter the field of national politics and run for senator. Phil Hart will get his blessing in governor's race."

"Williams has decided to run for a fourth term as governor. Blair Moody is anxious to take on Sen. Homer Ferguson in the next election."

"The governor has not yet decided."

"The governor has decided and is waiting for what he considers the most opportune moment to capitalize on his position."

Things will happen fast when Soapy does announce his decision. Until that time, reports of disgust among "fellow-Democrats" and dissatisfaction of labor backers are common.

Timing is causing trouble for Republicans too. But Senator Homer Ferguson who may be faced by Williams in a contest for his position, wasn't badly handicapped by not knowing who his candidate will be. If he had the information, he might have been able to pattern his recent campaign tour to be more effective.

The senator just completed a 90-day trip into 72 of Michigan's 83 counties. He made as many as 11 speeches a day while covering 11,000 miles, for a total of 600 talks to 100,000 people. He found plenty to discuss—mostly the significance of national situations. "I've been explaining what we're trying to do, and I have had a very fine reception," says the senator.

All-but-announced candidate Donald S. Leonard, police commissioner of Detroit, is under pressure to act. Detroit's Mayor Cobo is reported to be tired of the present situation. He is said to be pressing Leonard to get all the way into the political swim, or to take off the "swimming costume" and spend all his time running the city's police department.

Worst kept secret of the coming campaign was the plans of State Treasurer D. Hale Brake. When he announced his candidacy three weeks ago, no one at the Capitol was surprised. But his candor permits him to set up campaign machinery openly. A Brake For Governor club has already been formed and boasts

more than 200 members. Brake says that he has stepped aside previously in hope of party unity; that he is in this campaign to stay.

Teacher shortage in Michigan is bad, but there's a disagreement about how bad.

The National Educational Association reported that Michigan's need is greater than any other state—9,000 during the 1952-53 school year.

Dr. Clair L. Taylor, state superintendent of schools, would not affirm this figure. He set Michigan's need at 5,500. In Dr. Taylor's opinion, the state's need is worse than any other except California. For the 1953-54 year, he places the number of additional teachers needed at 7,000.

Average yearly salary for Michigan teachers was computed to be \$3,900. California, Maryland and New York are only states with a higher figure.

Only half as many deer will be killed this year as was taken in 1952, say game experts. Some are predicting less than that. Last year about 160,000 deer were taken. Conditions were favorable: large herd, some ideal weather, a special season of three days. Conversely, Monday dawned in

Michigan on a much smaller herd, weather is uncertain, special season is only one day.

Conservation officials are hopeful, but not sure, that enough deer will be killed to eliminate starvation among those remaining in the woods.

More babies than ever were born in Michigan during September. Health Department figures show that 16,966 new citizens arrived to establish a new record. During the first nine months of 1953, a total of 130,988 births have been recorded compared to 128,844 during the same period in 1952.

Predictions for the whole year are 176,642 new babies. This will be a new grand total for Michigan.

Profit Hints for Dairy Farmers

Here are some tips for dairy farmers to help them meet the continuing price-cost squeeze and the problem of limited labor supply. Quentin R. Ostrander, assistant county agricultural agent for Tuscola County, passes along these recommendations from Michigan State College dairy-men:

Improve pastures and roughage supply. Production records show good pastures will produce 100 pounds of milk at the lowest feed cost.

Call out low producing cows as quickly as practicable. A cow producing less than 300 pounds of butterfat or 8,500 pounds of milk a year provides a low income. And that cow continues to add to our burdensome supply of dairy products.

Improve barn arrangement, chore methods and equipment to cut down on labor.

Put special stress on good herd management that will prevent disease such as mastitis and brucellosis.

Keep breeding and calving records. Avoid long, dry periods which reduce net profit, and breed cows to freshen during the time of year when the market will return the highest price for milk.

Be sure to have facilities that help produce high quality milk and cream. High quality is of great importance in maintaining or building sales in the years ahead.

THINKING AHEAD

The faculty to remember is a great thing—but the statesman who is able to think ahead is worth much more.

Narrow-mindedness is the thing that makes one section of America think another is visited by disaster because of its wickedness.

The want ads are newsy too.

Hoist Breeders To Meet in Caro

Tuscola County Holstein breeders will gather for their annual meeting Monday evening, November 23, according to Clarence Merchant of Cass City, president of the Holstein Breeders' Association. The group will meet for dinner at 7:00 p. m. in the 4-H Building, Caro. The annual meeting is being held earlier this year, says Merchant, so that counties may make plans for the National Association meeting of Holstein breeders which will be held in Michigan during early 1954.

All county Holstein breeders are invited to attend the county gathering. Dinner tickets may be had by contacting one of the association board of directors or at the County Extension Office. Members of the board of directors in addition to Merchant are: Foster Hickey, Fairgrove; Alton Reavey, Akron, and Basil Quick, Caro.

FROM THE FILES OF THE CHRONICLE

Five Years Ago.

Keith Little of Cass City was one of seven Michigan youths who received the Future Farmer degree at the national convention of the Future Farmers of America at Kansas City, Mo., this week. Floyd Reid will be the manager of the lumber yard of the Farm Produce Co. here, taking over his duties around December 1.

News comes from Lansing that Herman Doerr of Cass City, chairman of the Tuscola County Democratic committee, is being mentioned at the state capital for the state racing commissioner-ship.

Billie Zinnecker exhibited his 1,180-pound Angus steer Tuesday to Rotary Club members and their guests at the luncheon at the Gordon Coffee Shop. Frank Reid was the best estimator in the group, guessing the steer's weight at 1,112 pounds.

Ten Years Ago.

Edward Corpron, local hardware dealer, had issued 116 licenses to hunt deer up to Monday afternoon. Otto Priesskorn purchased the first license. The oldest hunter to buy a license was William Ball, 77, and Ronald Vyse, 15, was the youngest.

On Armistice Day, five babies were born in Pleasant Home Hospital in a three-hour period, among whom were two sets of twins. The parents were: Mr. and Mrs. Donovan Albertson of Clifford, twins; Mr. and Mrs. Durand and Gots of Kingston, a son, and Mr. and Mrs. Ed Dillon of Colwood, twin boys.

Eleven Cass City 4-H boys and girls will be among the exhibitors at the 14th annual Junior Livestock Show in Detroit December 7, 8 and 9. They are: Martell Guisbert, Pauline Littler, Lorelie Doerr, Don Doerr, Lawrence Ball, Dan Guisbert, Lynn Guisbert, Don Karr, Ed Karr, A. J. Murray and Bob Maharg.

Twenty-five Years Ago.

Cass City High School's debating team, Margaret Jondro, Mabel Crandell and Virginia Day, were the victors in the debate here Friday night with Glen Roth, Lila Gardner and Gladys Service, representatives of the Vassar High School. The judges delivered a unanimous decision for Cass City.

Bad Axe and Cass City ended their regular season Friday in a 7-7 tie.

Douglas McTavish, 87, had the misfortune to fall and break his hip Monday, while playing ball in the house with one of the Crocker children. The Ben Crockers had leased the McTavish farm and were living on it.

The Shorthorn steer of Jim Milligan that placed as grand

champion baby beef at the Michigan State Fair this year, starts Saturday for Cleveland, Ohio, where he will be shown at the Cleveland Livestock Show Nov. 27 to Dec. 1. Mr. Milligan will also show an Angus steer at Cleveland.

Thirty-five Years Ago.

William Adams, a Cass City boy, was killed in action in France, Oct. 6, according to word received by his friend, Harry Crandell.

James Brooker, a resident of Tuscola County for 54 years, died at his home on the outskirts of Cass City Wednesday, Nov. 20. The Exchange Bank has added a Burrows ledger posting machine, electrically driven, to its equipment. The machine adds, subtracts and multiplies.

The Village Council voted Monday to keep the doors of the post office locked each day during the hours of mail distribution. During this period, usually a number congregate waiting for mail. It is a simple precaution against the spread of the "flu."
