The goal of the hospital is TV set in every ward.

### **UN Discussion** Highlights Club Meeting Jan. 14

Mrs. Earl Douglas entertained members and guests of the Junior Woman's Club of Cass City at the regular January meeting of the club held at the home of Mrs. Richard Darmody, Thursday, Jan. 14. Mrs. Raymond Whalin was co-hostess. Mrs. Douglas told details of

her recent visit to the United Nations while in New York and explained how many of the rooms were decorated by various countries represented in the international organization.

She showed pictures of council rooms where committees meet and explained the interpretation system of the organization that translates a speech into six languages so that interested persons can tune in on earphones and understand any address given.

Mrs. Robert Hartwick, vice president, presided at the meeting. A "Frocks for Frauleins" box was well filled by donations from members of material and sewing notions. The box will be used to help the German Youth Association.

Members are stressing Americanism this month. The club voted to send a donation to the Restoration Fund for Independence Hall and join the Michigan Concluded on page ten-

### Allis-Chalmers 11-B Disc Harrows

When you pull an Allis-Chalmers 11-B Double-Action Disc Harrow across your field, you get down to pay dirt on every round . . . fast!

It has the weight needed for quick penetration, and this weight is evenly distributed. Every keen-edged blade does its full share of the work. Altogether, they do a masterly job of chopping stubble, roots and surface trash . . . mixing and pulverizing the soil.

The 11-B is a flexible harrow, with every adjustment necessary for the kind of seedbed you want. Front and rear gangs have independent action, assuring coverage in rough or uneven conditions.

### New Kind of Life Insurance for Children . . . Benefits Increase 5 Times in Value at Age 21 With No Added Cost!

Have you a child or grandchild between the ages of 1 and 15? If so, our new President Juvenile Estate Builder policy will assure him \$5000 of life insurance at age 21 for every \$1000 you buy him now! . . with no increase in cost and with no further proof of insurability.

You see, this savings-type life insurance immediately jumps to 5 times its original value when the youngster reaches 21, yet the annual premium does not change throughout the life of the policy.

S.

This plan completely solves the 3 major problems of life; EDUCATION, BUILDING AN ESTATE and RETIRE-MENT in the simplest, most economical and most profitable way of anything on the market today.

This is the ideal way to guarantee your child or grandchild a substantial amount of life insurance protection as he takes on grown-up responsibilities, with important cash values available for earlier education or later emergencies. Liberal guaranteed value coupons, bearing 21/2 %

compound interest, add materially to these values.

Your youngster is now at the life insurance bargain counter. The sooner you buy, the lower the rate. The sooner you buy, the less chance of his developing a health impairment that will later make him uninsurable.

For complete details just fill out and return the coupon. No obligation, of

Put a Chronicle Want Ad to Work for You!

An outstanding example of fine-car beauty in the low-price field . . . the new Crestline Fordor is the fashion car for the American Road

New Astra-Dial Instrument Panel is a safety dividend with speedometer placed high on the panel for easier reading. Warning lights tell when generator is discharging or oil pressure falls too low.

Style-Setting Interiors in Ford give you beauty from the inside out! Colorful new upholstery fabrics and smart trim are another '54 Ford dividend . . . help make Ford the style leader of the industry.

## Here's What's packing our showrooms!

The new Y-block V-8

with the new extra-deep crankcase, has 130-h.p. for a dividend of 18% more power. And you can enjoy V-8 advantages on less gas! Free-turning overhead valves and shorter piston stroke help give longer engine life!

The new I-block Six

has 115-h.p. for a dividend of 14% more power. Like the V-8, it has Ford's High-Turbulence Combustion Chamber for more complete and economical combustion of fuel. It's the latest word on highcompression, low-friction Six design.

Plus 5\* optional power assists

that make driving easier, more pleasant! You can have Power-Lift Windows ... 4 Way Power Front Seat ... Swift Sure Power Brakes ... Master-Guide power steering . . . and Fordomatic Drive. They're all available in Ford!

The '54 Ford gives you extra Dividends in style, in performance, in ride, with fine-car features you would normally expect to find only in highest-priced cars.

Ball-Joint Front Suspension

It allows greater up and down wheel travel for a smoother ride . . . helps keep wheels in true alignment for consistently easy handling. Wheels move on ball joints, whether up or down ... right or left.

3. That Commodity Credit to permit continuation of price support operations on basic commodities at 90 per cent of parity through 1954, as existing legislation requires.

In urging that flexible price supports become operative on basic commodities in 1955, the President emphasized the need for balancing production of various crops with changing demands. Price supports, ranging between 75 and 90 per cent of parity, would vary from year to year in accordance with the actions of farmers themselves in gearing production to annual requirements.

Although this program was enacted by overwhelming majorities of both parties in Congress, its effective date was postponed by continuation of mandatory price supports on basic commodities at 90 per cent of parity through 1954. In developing the new farm program, it was recognized that it would have little change of success if it had to carry the initial handicap of a \$6 billion stockpile accumulated under prior operations. the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of Isnd described in said schedule as therein extended;

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes; interest, collection fee and expenses, as computed and extended in said schedule against collection fee and expenses, as computed and extended in said schedule against

## Screen at Strand

Authorities at the Strand Theatre in Caro announced today that a new cinemascope screen would be installed this week.

The giant astrolite magniglow silver screen is the same type that was recently installed in Radio City Music Hall in New York. The screen has a surface of pure silver and is installed with a slight curve, according to H. H. Weeks, Strand Theatre manager.

More uniform light distribution and more brilliant, true-tolife color rendition are some of the advantages of this screen, Weeks said.

First picture to be seen on the new screen will be "All the

MEMO TO ADVERTISERS

### A Guide to the Point of Sale

Our local stores are the display rooms and warehouses for the world's finest products. Efficient banking, insurance, real estate and other business services are also available to the people in our community. The readers of this newspaper find our advertising columns a dependable guide to the point of sale—a useful source for up-to-date news and information about these goods and services.

In order that advertising expenditures may be made with us on the basis of known values, as required for any sound business investment, this newspaper is a member of the Audit Bureau of Circulations.

Every advertiser should know about A.B.C. The Bureau is a cooperative, non-profit association of 3,450 publishers, advertisers and advertising agencies. Working together, these buyers and sellers of advertising establish standards for paid circulation, rules and methods for auditing and reporting the circulations of newspapers and periodicals.

At regular intervals one of the Bureau's large staff of experienced circulation auditors visits us to make a thorough audit of our circulation records. The FACTS established by his audit are published by the Bureau in A.B.C. reports which are available to you, our advertisers. These reports tell you how much circulation we have, where it goes, how it is sold and other FACTS essential to the profitable use of newspaper advertising. Ask us for a copy of our A.B.C. report.
