Trouble comes to all men, but The man who dreams he is those who are looking for it will wealthy and wakes up poor loses get more than their share. nothing but the sleep.

People who talk all the time No one but a blackmailer can not only waste a lot of words, but turn the job of keeping secrets fail to make a good impression into a paying business.

In the old days when a youth The theory that it is never too started sowing wild oats, father late to mend our ways allows started the thrashing machine. I many to coddle their bad habits.

Hidden away on a ranch near Hollywood is one of America's most amazing, and valuable, used car lots. We're pretty proud of our struct a beet thinning machine on used cars but this one, we'll have to admit, has us beaten all hallow, which the five DeVries brothers

No one except a few hand picked actors and directors and a few mechanics is ever permitted to look over the Warner Bros. collection of 160 antique and foreign cars. There are rows and rows of them, a With a normal cron they can trait this talk mechanics is ever permitted to book over the Warner Bros. collection of the ground, seated comfortably on salvaged mowing machine seats. of the J. L. Hudson Company, De-1903 White, 1906 Franklin, 1904 Tourist (with a fringe on top and a door in the back), a 1914 Mercer and so on. The most modern of the collection is a 1938 model which is brought out for movies with scenes depicting pre-war days.

For that, of course, is the reason Warner Bros. maintains this, but he's constantly bending over. unique collection, to give reality to pictures of other days. There are Guiding the machine is a simple also, so a friend tells me, antique foreign cars in the collection. A operation performed by the man 1903 Renault taxi, the French Peugeot coupe, an early British Aus- riding nearest the front, who steers tin and a German Open.

Every one of them is in perfect running order and gleams from careful attention. In fact, a man has to be assigned to throw mud on them so they'll look more realistic in the movies.

The star of the collection is a 1900 Stevens-Duryea, a two-pas senger runabout with huge spoke wheels and a tiny engine. It, too runs perfectly.

This is an outstanding example that with careful attention and regular servicing an automobile will last a mighty long time after one owner has passed it along to another. That's the basis of the used car business. Drop in and browse around anytime, let us show you cars that can fit any taste. We'll tailor terms to fit your individual budget too.

on Utah farm. Man at right USED CARS REDUCED to make room for more used cars, alsteers with foot, leaving hands ready coming in on '55 Chevrolets, we will reduce every car in our lot (over \$200.00) Fifty (\$50.00) Dollars. Now is the time to get that extra car, or trade for a better one. All Used Cars Winterized. free.

Have just two (2) Pickups left. Two sold this week. If you need the car transmission, thus mak-a Pickup on the Farm, and who doesn't, we have a "sharp pencil" to figure a really good deal. Doesn't cost a cent to talk.

"C-Day" (Chevrolet) October 28th, THURSDAY. Moved ahead. Come in, see the new car, have a Coke on Cottick (?).

### A personal car of distinction ...with Trigger-Torque performance

You'll be delighted at the wealth of conveniences the Thunderbird offers. Two tops are availables a disappearing fabric top . . . and an easy-to-lift-on hard top. The extra-wide vinyl upholstered seat is foam-rubbercushioned . . . power-operated 4 ways. Windows roll up . . . by power, if you like. There is a tochometer ... and a clock with a sweep second hand. There is a telescoping steering wheel. And you can have power steering and power brakes.

Something totally fresh is here - a bewitching new all-steel beauty that sets the styling keynote for other Ford cars to come.

But, styling gives the merest hint of what the Thunderbird has to offer. In traffic and on the open road the Thunderbird's Trigger-Torque performance is literally a revelation. Here is hair-trigger response . . . fleet, liquid agility ... backed by a reserve of swift, sure power to meet safety's every demand. Trigger-Torque performance stems from Ford's new Thunderbird Special V-8-a high-torque engine with 4-barrel carburetor, dual exhausts, wide-opening valves and Ford's famous lowfriction design. And you can have the Thunderbird with the transmission of your choice-Conventional, Overdrive, or new Speed-Trigger Fordomatic.

Ford's Ball-Joint Front Suspension not only velvet-cushions your ride, it also allows the Thunderbird to handle with utmost ease - to corner with greatest stability.

But, more important, the Thunderbird is the product of the same advanced engineering . . . the same manufacturing skills that have made Ford products so dependable, so value-full and so desirable to so many.

# The Basic Idea Behind the All-New 1955 PONTIAC

### On Display October 29 and 30

ABOUT 30 years ago General Motors Cor-poration presented to America a new car called Pontiac. This new car was the direct result of a very specific idea.

The idea was this: to create a car which took its style, its engineering principles and its features from the very best and most expensive in America-and to build these into a car priced just above the very lowest!

Naturally, such an idea produced a wonderful and highly popular car-a car which millions of satisfied owners have driven with outstanding pride and pleasure.

Now, nearly three decades later, an entirely new Pontiac has been created for 1955-a car completely new from the ground up!

One thing, however, about the 1955 Pontiac remains unchanged-its basic idea-to offer the American public the very finest car that can possibly be built to sell at a price within easy reach of any new-car buyer.

When you see the new Pontiac on Friday or Saturday-Oct. 29 or 30-you will be immediately impressed by its remarkable new styling. No other car in the world looks like this new Pontiac!

When you drive it you will be astonished at its performance. For the 1955 Pontiac introduces the powerful new Strato-Streak V-8, an all-new engine that has already been proved in more than 3 million test miles!

When you price the new Pontiac you will come face to face with the basic Pontiac idea-you will be agreeably surprised that so much car, so much sparkling newness, so much luxury, so much downright goodness can be priced so near the very lowest.

We cordially invite you to come in on Friday or Saturday and see for yourself what a superb all-new General Motors masterpiece has been created to carry the wonderful name "Pontiac" for 1955.

veiled at Detroit Edison's new St. Clair Power Plant . . . dedicated to the progress and growth of Southeastern Michigan and its nearly 1,000,000 families. The planning and building of this plant is further evidence to the people of this state that The Detroit Edison Company will always keep pace with their increasing electric power needs.

THE DETROIT EDISON COMPANY

You're the coach-Put in the whole team!

CLARENCE A. REID Lieutenant Governor

Secretary of State

Spirit, know-how and teamwork are what it takes to make a winning team; a team that knows its job, that carries the ball-and scores!

That's the kind of team you can field in Lansing and in Washington on November 2.

Top to bottom, you'll agree here's a lineup that will give Michigan the type of government to make you proud.

But-remember-you need the whole team. You need Donald S. Leonard as Governor to coordinate the effort, to provide the inspired leadership. You need the power-

ful voice of Senator Homer Ferguson in Washington to continue the fullest cooperation with President Eisenhower's Administration. And you need the full

Don Leonard has pledged his administration to action-on highway improvements-better school facilities-augmented retirement funds for teachersbroader agricultural representation at policy-making levels-a preventive mental health program-a strong youth guidance program-additional industry for Michigan to increase employment-care for the aged in their own communities-removal of politics from prison administration-sound, non-political conservation policies and increased promotion of Michigan's famed tourist attractions.

These are a few of the team's objectives. They cannot be had without teamwork. The team cannot function without leadership. For too long your needs have been thwarted by bickering and confusion in the Governor's office.

Now is the time for action!

Give the team your "go ahead" on November 2----Vote Straight Republican . . . for progress . . . for a greater Michigan!
