Apply Now for Wheat Allotment

Farmers on land on which no wheat was seeded for grain for any of years 1953, 1954, 1955 may apply for a 1956 wheat acreage allotment, according to Chas. B. Eckfeld, county office manager of the County Agricultural Stabilization and Conservation Committee. To be considered for an allotment on a farm which, had no wheat seeded for grain for any of those years, the farmer must apply in writing to his county ASC committee by June 1.

Blank application forms are available at the county ASC office for use in filing requests for allotments.

The Tuscola County Farm Bureau roll call workers' victory party fish supper was held Monday, May 9, at 7:00 o'clock at Hotel Montague in Caro with 136 present. Clark Montague, chairman of the program, called on Henderson Graham, county president, to give the address of welcome, and introduce the Farm Bureau personnel.

Old-time music was furnished by Arleigh Clendeman, Milling- Evans, and her address is Gageton and Robert Fritz and Don Harris of Lapeer County. Alex Liberacki of Unionville entertained the group with his magic.

Each person mailed a post card o Senator E. Potter and Senator Roy Evans. Patrick V. McNamara opposing high price supports bill H. R. 12. The membership goal for '55 was 1870. To date there are 2205 farm families in Tuscola County that are members, 40 discussion groups in the county and 1463 discussion groups in the state. Every meeting night in the month, over 1,000 farmers throughout the state discuss and Armstrong, Nazarene missionary vote on the discussion topic that is democratically chosen.

INSECTICIDE — FUNGICIDE COMBINATION

SEED PROTECTANT

Effectiveness of seed treatment with a combination of 'Arasan" S f-X (thiram) fungicide and dieldrin insecticide has been established by field trials on beans in

The chemicals provide protection for the germinating seed and seedling from seed decay and seedling blight caused by seed-borne and soil-borne organisms. Where seed-corn maggot and certain other soil insects are a problem, the treatment protects the seed, permitting it to produce better stands and yields.

This new formulation, for control of seed and seedling diseases and certain insects which attack corn, beans and peas in the soil, contains 80% "Arasan" S F-X seed disinfectant (60% thiram) and 15% dieldrin.

Chevrolet's great new L.C.F. models bring you all the advantages of a C.O.E. -plus a long list of important new ad-

vances you won't find anywhere else. For example, the cab is a full seven inches lower than former C.O.E. models. And it has only two steps instead of the usual three for C.O.E.'s. Just think of the time and effort this will

save the driver! Also, the low L.C.F. is handsomer by far than any C.O.E. ever built!

Inside, the L.C.F.'s new Flight-Ride cab has a level floor with plenty of "stretch-out" leg room and offers new driver comfort. The driver has a commanding view of the road-both far

ahead and close up front-through the

big, broad panoramic windshield.

Quicker, simpler maintenance is another big advantage offered by the new L.C.F. Everything's easier to reach in the roomy engine compartment.

In an L.C.F. you still get the easy maneuverability of a C.O.E. plusnew frames, new suspension, a whole truck-load of modern features!

When a couple of bright boys put together the world's first horseless carriage (you'd be surprised how long ago) they foresaw there was going to be an inevitable conflict with pedestrians.

The first vehicle in history to move without help from an animal was assembled in 1649 in Nuremburg, Germany. I heard the story some time ago and looked it up the other day in order to pass it on.

The "car" rattled along the streets at about two miles an hour, and it seemed to run by magic. It wasn't until weeks after its first Jr., demonstration that the baffled and frightened people discovered the Stephens Church Sunday evening. two men who were hidden in the vehicle's back section. They turned Rapids spent from Saturday una winch and this moved the rear axle.

The vehicle had a mechanism for clearing the way if anyone strayed too close (few did). A great dragon's head stuck far out in Miss Louisa Meyer and Raymond front. It moved from side to side and sprayed a stream of water out Sutton were week-end guests of naw General Hospital.

Mrs. Julia Sutton and Donna of Mr. and Mrs. Edwar its mouth for more than 15 feet.

(Maybe they weren't so crazy after all, it might be an idea to adapt those automatic windshield washers for the same purpose).

That dragon's head, I suppose, was "optional equipment at extra cost," as they say nowadays. It's the optional equipment on a large number of our used cars, the little extras that so many people like, that make them such outstanding buys. In purchasing a good used car you usually save tremendously on the extras that the original owner has installed.

There is a car I've heard of that I would never, never want to sell. Tell you about it next week.

Girl Scout Leaders Meet in Vassar

The Vassar Girl Scout Neighborhood Group entertained the Tuscola County Girl Scout Council for their regular meeting Wednesday, May 4, at the Vassar Methodist Church parlors.

Thirty-five attended the meet ing conducted by Mrs. Robert McKee of Vassar. The Senior Troop of Vassar was in charge of the opening ceremony.

The dates for Day Camp were announced as August 8 through 12, with an overnight on the 12th for the older Scouts. Each one who stays on the overnight must furnish her own transportation home the next day. The letters for the Scouts concerning the camp were given to the leaders. Each girl is given a letter to take home to her parents explaining the plans for the camp.

The County Council carries insurance on the camp that covers each Scout and adult worker from the time they leave their home until they return.

The "Layettes for Brazil" project was assembled with a wonderful response from the Girl Scouts of the county.

Coffee and cake were served from a beautifully decorated table in the girl scout colors. Mrs. Tim Sellers and Mrs. Luther Berry poured.

The next meeting will be in September with Akron neighborhood as the host.

STANDARD GASOLINES

... balanced for top power, economy, and all 'round performance ... and raised to the <u>Highest Octane</u> levels in our history

We are mighty proud of our new gasolines. They have been stepped up to the highest octane ratings in our history... designed to give knock-free performance in the most modern of high compression engines, and older cars as well. But important as octane is, good gasolines need something more. They must be balanced too. Standard White Crown and Red Crown Gasolines are balanced to give you top performance, with controlled volatility—the right gasoline for the right season—with no vapor lock even in the bottest summer weather.

Try a tankful of one of these clean-burning. high octane, balanced gasolines today, and prove to yourself that there is a difference in gasolines.

SO MUCH MORE CAR... AT SUCH A LOW PRICE!

. you compared price tags on Plymouth and the other two low-price cars lately? And, have you checked prices on the medium-price cars that claim they cost as little as Plymouth? If you have, you've discovered three facts of great importance:

Model for model, all low-price cars are priced about the same. But the Plymouth price includes such items as electric windshield wipers and an oil bath air cleaner, items you have to pay extra for on the other cars. (And don't be fooled by the claims of medium-price cars that they cost as little as Plymouth; add total prices-you'll see the difference quickly.)

Prices of the big, beautiful Plymouth are surprisingly low! You get a car that's not only larger and roomier than all other low-price cars, but actually bigger than some cars costing many hundreds of dollars more! And when it comes to endurance, Plymouth leads them all! That's why there are more Plymouths used as taxicabs than all other cars combined!

When you compare VALUE, Plymouth is like the high-price cars in everything but the price tag! It's the only low-price car this year with all-new, Forward-Look styling. In powerplants, Plymouth offers the thriftiest, smoothest six, and the most powerful standard V-8 in the lowest-price field. Inside, it's the roomiest car of "all 3," and has the greatest visibility.

A lot of people are finding out that Plymouth's low price offers the most value per dollar of any car in its field. So many people, in fact, that Plymouth sales have been record-breaking this year. See your dealer today, and you'll see why the big swing this year is to PLYMOUTH.

Resort people, the state's agricultural industry and most important facets of the economy have marshalled their forces for the event.

Now, the busy factories have been urged to stage open houses rell, executive secretary. and educational programs during the week. Harry Hirsch, president of the C. M. Hall Lamp Co., Detroit, is chairman.

Hirsch, calling upon "full coperation from Michigan's 13,000 sity—all amid the clamor of remanufacturing plants," said:

"We want the citizens of Mich igan to know not only what is produced in our great industrial state, but how it is produced and what it means to each of us.

"A favorable economic climate is the best asset of expanding payrolls that a community can offer."

Factories have been asked to organize tours and open houses for employees and their families as well as the general public.

Politicians looked with awe at the spectacle of a man practicing to be governor of Michigan.

It's been a week now since the return of Gov. Williams from a tour of the Near East and the insiders are assessing the performance of Lt. Gov. Philip A. and/or Hart could say he and/or Hart who was "acting chief" executive" for three weeks.

Hart never missed a motion in taking over, though he insisted quite properly that he was just partial. He was bawled out on filling in, Democrats didn't want the floor once by Senator Elmer Michigan to love Hart to the point of forgetting Williams.

Ford is winning friends faster than any other car!

Proof of Ford's extra worth is its sales gains ...numerically greater than any other car in '54. And this year, with Trigger-Torque power and Thunderbird styling, Ford is more than ever America's most wanted carl

You'll recognize the Thunderbird heritage in the new Ford almost everywhere you look-from its visored head lights to its stunning tail fins. And a look inside Ford's Luxury Lounge interiors reveals rich new upholstery and exciting trim schemes that are color-keyed to the beautiful new enamel exterior color you select.

When you take the wheel of the '55 Ford, you'll discover the thrill of Trigger-Torque power . . . reflex-quick response that makes you master of any traffic situation. And Ford's new Angle-Poised Ride brings you the "feel" of cars costing hundreds more.

Among Ford's other "exclusives" in its field are: new Speed-Trigger Fordomatic*; new 10% larger brakes; Center-Fill Fueling; new 18 mm. fouling-resistant spark plugs. Why don't you Test Drive a 1955 Ford today!

row. Corn needs the readily-available, balanced plant food of ARCADIAN 12-12-12 early in life. Every firm, dry granule is rich in nitrogen, phosphorus and potash including the water-soluble phosphorus essential to give young corn sprouts a strong start. Use 150 to 200 pounds of ARCADIAN 12-12-12 in the row at planting and give your corn the head start that leads to big yields!

Many Midwest corn champs use ARCADIAN 12-12-12 in the row as well as for plow-down. Thousands of other corn growers have found ARCADIAN 12-12-12 is the ideal starter to make corn work harder to boost yields and profits.

Treat your crops to the best balanced plant food you can buy. It pays to use free-flowing, nonbridging, powerful ARCADIAN 12-12-12 Granular Fertilizer when you plow and when you plant.
